Located just north of here in the mountains near Julian, Camp Davidson occupies fifty acres of pine covered land which, in turn, sports virtually every type of out and in-door sport to be desired. Nearly $100,000 is invested in the camp, including a large lodge with fireplace, dining room, game room with TV, a dormitory building housing complete sleeping and laundry accommodations and a thoroughly outfitted recreation field.

Men eat, sleep, relax, and participate in all activities at will. Activities include swimming, softball, volleyball, horseshoes, shuffleboard, archery, table tennis, television shows, and informal games in the lodge. There's also horse back riding and sightseeing trips as scheduled to Lake Henshaw, Mt. Palomar, the gold mines, and Borrego Desert.

Camp Davidson is set up to handle parties of from 25 to 100 men, although arrangements can be made to facilitate a smaller number. Reservations for three days or more should be made at least one week in advance of the date of departure. Personnel wishing to go to Camp Davidson are assigned TAD through individual commands with no expense to the government and are accompanied by an officer, a warrant officer, or a chief petty officer.

Men attached to Naval Air Station and fleet units based aboard this station who desire to take advantage of the many facilities offered by the camp should contact the NAS Special Services Officer, Extension 421, for further information and for reservations. Each group must provide their own cook, a corpsman or a person with First Aid experience, and all personal gear.

NavymanGets Benny Sugg Recognition

Beneficial Suggestions are not entirely the province of the civilian employee on North Island. Sailors have also recorded some top ideas under the suggestive program.

Among the most recent improvements in the manner of doing things in Overhaul and Repair, is the beneficial suggestion which won a commendation from the commanding officer for Rolland C. Appel, AMAN, of O&R 3200 Division June 11.

Appel, while at work as a metalsmith in the landing gear shop, became just a bit impatient at the existing method of pulling the snubber tubes from F4U shock struts. As he worked, he devised an idea to simplify the complex and cumbersome two-piece tool which is in general use for the operation. Besides requiring several distinct motions and consuming a bit of time in its adjustment, the tool was prone to slip off the end of the tube, and thereby was a slight safety hazard. A heavy, two-handed tug on the pair of flat aluminum "pullers" sometimes resulted in skinned knuckles if the device slipped.

Appel's idea was put into a material solution—an automatic, one-motion puller with adequate hand grip, which attaches to the snubber tubes by quick spring action, to become engaged securely, allowing no slippage.

His new tool also lends itself to simple removal once the dis-assembly has been completed. The tool, made of ⅜-inch 4130 bar stock steel and 11/36-inch 1095 spring steel, is inexpensive to manufacture, being composed of materials readily available from O&R stock rooms.

Just 13 inches long, Appel's improved tube puller is about half the weight and size of the old style tool.

An example of the results of thoughtful attention to a routine job, Appel's commendation will follow him through the service, as a part of his record, to serve as a measurement of his capabilities on this and future duty stations when desirable assignment, or the chance for advancement presents itself.

"Well, snub my tubes," chuckles Bill Feeney, the North Islander's version of the Smiling Irishman, as he listens to explanation by Rolland C. Appel, of his new device for safer, quicker pulling of snubber tubes from F4U shock struts. Appel won a commendation from the Comamnding Officer of NAS for his beneficial suggestion.

NAS Personnel Asked to Take Polio Precautions

With the arrival of summer there is usually an increase in the number of cases of poliomyelitis. The Medical Department offers to NAS personnel the following advice regarding Polio.

The common early signs of polio are (1) headache, (2) vomiting, (3) general aching, (4) difficulty in swallowing. Some of these symptoms may be present in other diseases, however, their appearance during the polio season should be regarded with suspicion.

Early diagnosis of polio often means the difference between complete recovery and severe after effects. Therefore, **the importance of consulting your physician early** must be emphasized. Don't attempt to diagnose your own case.

The question is often asked as to just what measures an individual can take to avoid polio. The following have been recommended:

1. Avoid undue fatigue and exertion.
2. Get your rest regularly.
3. Avoid unnecessary travel and visiting in areas where polio is known to be prevalent.
4. Special attention should be given to the practice of good personal hygiene and sanitation.
   a. Washing hands before eating.
   b. Keeping flies and other insects from food.
5. Avoid chilling—wear proper clothing.

Late Bulletin

New wage schedules for per diem employees, resulting from the recently completed area wage survey, will be released by the Navy Department in approximately two weeks, according to Industrial Relations office sources.

Polio Insurance Drive Will Begin Here Next Monday

Polio struck several North Island families, both civilian and military, during the past year. In all but one instance, the families stricken were covered by polio insurance.

If polio strikes **your** family, will **you** be prepared to meet the great expense which frequently attends cases of this dread disease?

A renewal drive for the station-approved polio insurance plan will begin Monday, June 23, and will extend until July 7, giving all hands an opportunity to keep this valuable policy intact, or to sign up for coverage for the first time.

Last year, more than 2380 civilian and 250 military families availed themselves of this protection. There will be representatives in each division, unit, and squadron, to inform personnel and to sign them up.

Blood Credit Now 47

NAS civilian blood account had a balance of 47 credits on June 1. From Jan. 1 through May 31, 501 blood credits had been released, and 302 employees had donated to the fund. During June, 41 blood credit releases have been requested.

NI Flying Toastmasters To Meet at COM (Open)

Members of the Flying Toastmasters Club will gather Tuesday, 1145, at the Commissioned Officers Mass (Open) for their regular luncheon meeting.

LCDR W. R. Campbell, MSC, vice president of the organization, said that officers in either active or inactive status who are interested in the toastmasters program are cordially invited to attend. For further information on the organization, they may contact LCDR Campbell at extensions 269 or 217 of LT Harry Conner, SC, at extension 381.

The club fosters a program for individuals interested in gaining experience in the forensic arts, public speaking, parliamentary procedures and master-of-ceremonies technique.

USS Bataan Takes Clothes to Needy South Koreans

When the escort carrier USS BATAAN left San Diego for Korea in January, 1952, she had aboard 7,500 pounds of clothing for needy South Koreans. The much needed garments are now being worn by these war victims.

San Diego area church groups and civic organizations donated the clothes which were collected and packed by the ship's crew. When the carrier arrived in Japan recently, it was learned the BATAAN would not be putting into any Korean ports. So the clothes were transferred to a transport ship. Four BATAAN officers, led by the executive officer, Commander R. W. Arndt, accompanied the gifts to Korea.

Chaplain's Corner

Faith of Our Fathers

"What we need in this hour of bewilderment and uncertainty is a return to the faith of our fathers, that unquestioning faith that moved Noah and Abraham and Moses to obey God's directions. What is needed is a revival of the faith of the woman who touched the hem of the Master's garment and was made well, the unshakable confidence in His power displayed by the centurian who pleaded for the cure of his servant.

We need the faith of our fathers—the faith of the apostles, Stephen, Paul; of Augustine, Francis of Assisi; of Wycliffe, Hus, Savonarola, Luther, Knox, Calvin; of Wesley, Livingstone, Schweitzer. We need the faith of the Christian fathers of your country and of my country. They believed that the "divinity that shapes our ends, rough hew them how he will," to be God's great love for His children, a love that would not let them go. As did our fathers before us, we will put our faith in Him.

PRAYER

Eternal God, set afire in our hearts that unquenchable flame of faith which shall guide us through the maze of this life's uncertainties; give us oneness with Thee that Thy will may be our will and our love like that of our blessed Master in whose name we pray. Amen."

THE UPPER ROOM

PROTESTANT

Sunday School 0900
Morning Worship 1000

CATHOLIC MASS

Sunday — 0845 - 1145 Station Chapel.
Monday through Friday—Administration Building 8—0645.
Saturday—Small Chapel—1200

CONFESSIONS

Sunday, 0800-1100.
Tuesday through Friday, before Mass.

IMPORTANT FOR CATHOLICS

For the next three Sundays—22 and 29 June and 6 July—there will be no 0845 Mass. There will also be no daily Masses nor Novenas until further notice.

the place was familiar

The date is October 2, 1935, the scene is on Quentin Roosevelt Blvd., just north of McCain Blvd., back in the days when the Army Air Base, known as Rockwell Field, occupied the South and West portion of North Island. The junction of Quenton Roosevelt Blvd. and McCain Blvd. was then the dividing line between the Army Air Base and the Naval Air Station. The occasion is President Franklin Delano Roosevelt coming aboard NAS from the Army Air Base.

Riding in the car with President Roosevelt is Rear Admiral W. T. R. Tarrant who then was the Commandant of the Eleventh Naval District. Capt. John Towers was then in Command of NAS.

The building in the left background, then part of Rockwell Field, is now known as Bldg. 825 of NAS. The buildings on the right are Army Quartermaster buildings, since torn down in order to make way for the expanding air field of NAS.

This Week's News at a glance

The Swedish people abandoned their traditional neutral attitude toward the East and West following the shooting down of one of their flying boats by Russian Migs. The plane, said to be unarmed and in international waters, was attacked while searching for another Swedish craft which went down in the Baltic.

Angry Swedes demonstrated in front of the Soviet embassy following the news of the attack. A sharp note sent to the Russians brought a reply that the Swedish plane was in Soviet waters and fired first.

The Soviet action coincided with a Swedish trial of Communist spies and was thought to be a means to intimidate the small Scandinavian country. Probably to the Soviet's surprise, however, the Swedes have reacted to the threat without any sign of fear or timidity.

The Government has decreased down payment requirements on the purchase of homes by veterans. The reductions, announced by the Federal Reserve Board and the Housing and Home Finance Agency, range from no down payment on homes costing $7,000 or less to a 35 per cent down payment on homes costing $25,000 or more. Time limits for paying of mortgages were not changed.

The House Armed Services Committee has ruled out action immediately on a combat bonus for servicemen fighting in Korea. The committee completed its work prior to a summer vacation by approving a military construction bill and a bill to continue $100-a-month bonuses for doctors and dentists who voluntarily enter the Armed Forces.

Evidence that the nation has made rapid progress in its atomic energy program was indicated in a recent statement by Senator Brian McMahon. He said that American has solved the secret of the hydrogen bomb and advocated the manufacturing of the weapons by the hundreds.

Scientists have estimated that a single hydrogen bomb has destructive power equal to the total tonnage of conventional bombs dropped in World War II.

Congress was told this week of Russia's growing air power. Despite the United States' expanding aircraft production, the Soviet air fleet by 1954 will outnumber ours by two or three to one. Today, Russia is estimated to have 20,000 first line military planes, of which 8,000 are said to be jets.

BUMPER CROP

THE NAVY 'Takes Care of Its Own'

Last year over 39,000 services were provided locally to U. S. Navy and Marine Corps men, their wives, and their children by the volunteer women who comprise the San Diego Auxiliary of the Navy Relief Society.

Supported entirely by private contributions, this is the Navy's own organization created in 1904 to provide aid for officers and enlisted men and their dependents in time of need. Branches exist throughout the United States, in Alaska, the Canal Zone, at Guam, in the Philippines, Puerto Rico, at Guantanamo Bay, and in Hawaii.

In this area, the Society's activities are headed by Mrs. P. M. Albright, whose co-chairman is Mrs. John Roper. Both are the wives of Rear Admirals. Eight regular activities are sponsored by the San Diego Auxiliary, including maintenance of an office staff of volunteer interviewers and clerical workers, two nurseries, a sewing committee, a family hospital service, a hospital visitors' committee, a home visitors' committee, and the Thrift Shop.

The nurseries are operated at the Naval Hospital and the Naval Station Commissary, and in 1951, nearly 30,000 children were cared for at the two facilities.

During the same period, the sewing committee distributed 234 layettes and 35 individual garments. At the Naval Air Station's Family Hospital, volunteers roll bandages and mend hospital garments. Last year these women made 30,649 surgical dressings, mended 1818 linens, and provided 1756 new garments.

Members of the hospital visitors' committee call on patients at the Naval Hospital at Balboa Park, ascertaining their needs and handling problems of a personal nature relating to their dependents. Almost 8,000 patients were visited in 1951 alone.

When the home visitors' committee learns of a Navy or Marine Corps casualty, a representative promptly visits local dependents at their homes, giving advice and providing emergency funds if needed.

The Thrift Shop, located at the Naval Station's Navy Field, is operated and maintained entirely by Auxiliary women. From voluntary contributions of clothing by Navy and Marine Corps personnel, the shop is able to sell items at extremely low cost to other families whose budgets are stretched because of financial emergencies. In addition to clothing sales, bassinets are rented out to new mothers who are wives of enlisted men in the lower three pay grades for a $1.50 fee.

THAT MAN friday

This writer has just returned to North Island after more than four months of varied occupation over "on the beach" while attending school.

The day we checked out, early in February, we felt the usual release from responsibility that goes with the first day of a vacation. We soon got used to the routine ashore, quickly gained profitable employment to finance the months of school ahead of us, and soon had pushed North Island and our six years of civil service almost completely into the background.

By April, things were going along great, we were making more money than the North Island job paid, and then came the inevitable thought, "why go back when the leave is up?"

Why indeed? Well, let's take a look. A quick rundown on the better paying deals over in town shows a discouraging lack of permanency and a great dependence on good business conditions, and a willingness to work long, tedious hours, usually on a six day week.

Why not go into business for ourselves, and not worry about a "boss?" We did that too, as a project in school. And the added complications which come with the realization that every customer is actually one's "boss" when one is operating independently, caused us to cross that venture off our list of possibilities.

Then as April waned, and we continued to reap a neat but not gaudy income from several lines of work, we still could see a few good reasons for not returning to NAS. But then one day, we got sick. And stayed sick for nearly a week. No work, no income. Just expenses.

And during that week, we came to appreciate civil service as never before. Even with compensation (which doesn't set in for the first few days of illness) we lost our income average for the whole spring, and that steady Navy paycheck looked a lot better than ever.

And vacation? Here was another comparison. It's only the exceptional job outside of civil service which provides four weeks paid time off every year (and more for old timers).

So by the time June had rolled around, we had sized things up pretty well, and recognized the definite advantage of the old North Island job.

Your writer is glad to be back among a mighty fine bunch of people . . . never really though we would stay away; just kicked around a few ideas, then kicked them out, in favor of security, a 40 hour week, and a pretty good place to work.

The NORTH ISLANDER

Vol. VIII June 20, 1952 No. 25

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

TELEPHONE EXTENSION 1475. Call this number to report news.

Contributions of news, features, pictures and cartoons will be gladly considered, and material submitted will receive careful handling. However, the NORTH ISLANDER assumes no responsibility for the return of material contributed. The editors reserve the right to make such corrections, changes or deletions in submitted copy as they deem necessary in conforming with the policy of the paper and of the Navy.

The opinions or statements made in articles published herein are those of the writers and are not, in any case, to be construed as official or as reflecting the views of the Commanding Officer or of the Navy Department.

Armed Forces Press Services (AFPS) material appearing in this publication may not be reprinted without the written permission of Armed Forces Press Service. Material in this paper may not be reprinted unless authorization is obtained from the editor.

'Is Government Telling Its Story?' to Be Telecast Sat.

Saturday, June 21, at 7:00 p.m., a telecast of special interest to civil service employees and of educational value to the public in general, will be released over Station KFMB-TV, San Diego, Channel 8.

The program, entitled "Is Government Telling Its Story?" is sponsored by the San Diego Federal Business Association, the North Island Association, and the 12th Regional Office of the U. S. Civil Service Commission, in the interests of dispelling the "myths" which exist concerning government workers.

Chairman Robert Ramspeck, of the Civil Service Commission, who takes a leading part in the telecast, is engaged in a campaign to bring about a better appriciation of Government employees and the work they do. It is the hope of the Civil Service Commission that this campaign will serve to better acquaint the American people as a whole with important facts about how their government operates.

In a recent talk to the Federal Personnel Council in Washington, Chairman Ramspeck make the following observation:

"My concern about the subject I am going to talk about is not based on my interest in the individual employes in the Government, or even in the employees collectively, but on a much more fundamental problem, which is the effect upon our country and its basic concept of government, of discriminate and general smearing tactics being directed against the people who work for the government."

Islanders Enter Power Boat Races

Several North Island civilians were actively engaged in putting on the big National Power Boat ssociation races at Mission Bay last Sunday.

Stanley Stokes and Walter Welch were among the officials on the dock, while Vernon Lenox and Leonard Roberts participated in the boat drill squad activities in the parade preceding the races. Lenox led the drill. The two also handled patrol boat assignments during the races.

Johnny Toprahanian entered the outboard races, taking one third place.

Roberts is vice commodore of the San Diego Speedboat Club this year.

Material Skeds Felicita Picnic

On Saturday, June 27, the annual S&F Material Branch picnic will be held at Felicita Park, near Escondido. Entertainment is being planned for both the children and the adults. Children under 12 will be admitted free.

The games for the kids will be such as water-filled balloon battles, peanut races, baseball and many other games and contests not yet announced. For the adults there will be square dancing, baseball and many other activities.

For both the adults and youngsters there will be barbecued ham and quantities of other food and refreshments.

FAW-14 to Have Picnic Saturday

The staff and training unit of Fleet Air Wing 14 are scheduled to hold their annual picnic at Felicita Park near Escondido on Saturday, June 21. It is expected that at least 250 of the personnel on the staff and training unit of Fleet Air Wing 14 and their families will attend.

Plenty of games and contests are being planned, some of these being softball, potato sack races, ping pong and other competitive sports. The main contest for the adults will be the egg-throwing contest and the game that should be of interest to the children is the treasure hunt in which the children will search for coins that have previously been hidden in a haystack.

The menu consists of cold cuts, potato salads, beans, olives, pickles and beverages.

E-3 Exams Taken By 129 Men Today

This morning at 0800 approximately 129 men who have been recommended and are qualified are taking the examination for advancement to pay grade E-3.

This quarterly examination is being given at the Information and Education Division spaces in building 317-A. Those men who succeed in passing the examination will be rated July 1 of this year.

NAS Disbursing Officer Leaves

Completing nearly two years of duty as NAS Disbursing Officer, LT A. T. Taylor, SC, was detached from the Station Wednesday to report to his new duty station aboard the USS SARASOTA, (APA-204). The SARASOTA is presently at the Norfolk, Va., Naval Station.

LT Taylor's duties here have been assumed by LTJG C. W. Janes. LTJG Janes reported here early this month from Bayonne, N. J., where he was receiving instruction at the Naval Supply Corps Schools.

A Navy enlisted man in World War II, LTJG Janes is a graduate of Ohio State University, with a degree in business administartion. He was studying for his master of science degree in business prior to returning to duty with the Navy in December 1951.

Alameda Ave. Parking Lot Closes

The Alameda Avenue parking lot for off-station parking by the Coronado gate, will be closed July 23 through 31, for repaving and enlarging. Cars remaining on the Alameda Avenue lot by 0800 July 23, will be hauled away and impounded by the Naval Air Station civil guard, to be reclaimed later by the owners.

Starlight Opera Prices Reduced for Servicemen

Naval Air Station men, as well as all military personnel in this vicinity, will be given the opportunity to attend performances of the San Diego Starlight Opera Company presentations this summer at reduced prices, according to the company's director-producer, William L. Dean.

Starlight performances, widely attended by military men in past seasons, will open with the Jerome Kerr-Oscar Hammerstein musical all-time favorite, "Showboat," Thursday night, July 3. Curtain time for this and all presentations is 2030. Bernard Lamb, a Lieutenant Commander in the Naval Reserve, will share star billing with Jacqueline Fairbanks as "Ravenal" and "Magnolia." "Julie" will be portrayed by Mildred Lamb.

Mr. Dean stated that 1000 seats will be available for purchase by the military at reduced prices. Tickets for these seats, which are not reserved, may be bought at the Balboa Park Bowl box office. The remainder of the seats in the Balboa Park Bowl, where the Starlight Opera performances will be presented throughout the summer, will be sold at uniform prices for both military and civilian opera-goers. These seats are reserved.

Mr. Dean also stressed the point that military personnel wishing to purchase the reduced price tickets need not attend in uniform since an Armed Services Identification card would be recognized and would entitle the holder to a price reduction in the non-reserved section.

Speed Kills! Take It Easy!

June is the month when most motorists take their first long motor trip of the year, after being "house bound" during the winter months. With the eagerness of anticipated pleasure, motorists everywhere take off for the hills and valleys, ocean shores, lakes and streams. Some of these, unfortunately, will become involved in accidents. A major share of these wrecks, and attendant loss of life and limb can, thankfully, be prevented.

Speed in itself is not a primary cause of accidents. Misuse of speed is what causes most accidents and the faster the speed at the time of collision, the more severe the wreck; the less the chances of survival of individuals involved if the cars are traveling at higher speeds.

In urging that speed be kept within reasonable limits, the National Safety Council, as well as other National and local safety organizations, refer to speed at a rate greater than that consistent with the many factors. Among these factors are visibility, consistent with the many factors. Among these factors are visibility, condition of the highway, condition of the car, traffic, proximity of children's play areas, and a multitude of other factors.

When driving upon the highway, the safety cushion of one car length between "your car and the car ahead" for every ten miles an hour of driving speed is a definite must. At fifty miles an hour, for example, the five car lengths between vehicles gives the motorist an opportunity to stop or maneuver should an emergency make it necessary.

"SPEED KILLS. TAKE IT EASY." This is a motto which all motorists will do well to remember not only during the month of June when it is being called to the attention of motorists as a means of driving safer, but all through one's driving career.

OPPORTUNITY KNOCKS not once but more than 500 times, thanks to the efforts of Repair & Flight Test's George Gillis, AMC, and O. H. Kollman, leadingman. The two men have circulated over 500 Navy Relief Carnival receipts, with their opportunities for the 1952 Mercurys, to the personnel of Repair & Flight Test Div. The Kollman-Gillis team plus their representatives in the Division's shops have done so well, in fact, that they have drawn another large quota of receipt books.

R. Laible, Islander Sports Ed., Leaves

Once again, the NORTH ISLANDER regrets to announce the loss of a staff member. This time, it's Robert E. Laible, YN3, who, for the past nine months, has been the ISLANDER'S sports editor.

Bob, on TAD to the paper from Comairpac since last fall, entered the separation center yesterday and is expected to be discharged June 29. He will resume the civilian status in his hometown, Los Angeles.

First coming to the ISLANDER staff over two years ago, Bob gained a wide reputation not only in the sports editor capacity, but also as a regular news reporter, his job before taking over sports.

In addition to his regular newspaper duties, Laible handled much of the "hometown" releases from the Naval Air Station. This august task included the listing of all names and complete data on individuals who were the subjects of the releases, the writing of these releases, which often totaled more than four hundred for one special event, and the mailing of these releases to the Fleet Hometown News Center, Great Lakes, Ill.

Upon discharge from the Navy, Bob will return with wife Phyllis to Los Angeles, where he plans to continue his journalistic pursuits.

Replacing Laible at the sports desk will be William D. Feeney, AMAN, who, for the past nine months, has been a news reporter on the NORTH ISLANDER staff.

The staff joins with his other many associates at NAS in wishing Bob the very best of luck in civilian life.

Bob Laible

COLUMN RIGHT

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

COLUMN RIGHT—Is your column. Its purpose is to answer questions of general interest which affect your employment. Forward all questions to: "COLUMN RIGHT," c/o Industrial Relations Department, Building 415, or deposit them in the Beneficial Suggestion Boxes.

Q. Does the 4th Step Become Permanent After Receiving the Step?

A. No. An employee who was granted an Administrative Pay Increase to the 4th Step under the present regulations may be reduced to the next lower step either for (1) disciplinary suspensions or (2) for failure to continue a high standard of performance. An employee who attained the 4th step under previous instructions may be reduced to the 3rd step for disciplinary suspensions, only.

Q. If I Transfer From One Division to Another Division, Does That Affect My Recommendation for the 4th Step?

A. An employee's eligibity for the 4th Step would not be affected by a division transfer. However, it would be necessary that the employee be recommended by the supervisors in the division in which he was formerly employed as well as by his present supervisors.

Q. If I Transfer to Another Activity, Will I Still Retain My 4th Step?

A. If an employee is reassigned to a position in the same or allied trade in another activity, he may or may not retain the 4th step. This is an administrative decision of the receiving activity.

Q. After 18 Months Does the 2nd to 3rd Step Become Automatic?

A. At the end of 78 weeks (or approximately 18 months) in the 2nd step, an employee may be granted a Periodic Step Increase. This is not "automatic" since the employee's services and conduct must be certified as satisfactory. In the event that this certification cannot be made, the employee will be reconsidered at four-week intervals for an Administrative Pay Increase to Step 3. At the end of 90 weeks, to the 3rd Step regardless of whether or not his services and conduct are certified as satisfactory, provided he is still on the rolls.

Q. I Am Employed With an Indefinite Appointment, Am I Eligible to Receive Advanced Sick Leave?

A. You are eligible to be considered for advancement of sick leave only if you are a permanent status or an indefinite appointment employee subject to current Civil Service retirement deductions.

Q. Under What Conditions Is Leave Without Pay Granted?

A. Only permanent status employees will be considered for leave without pay. Exceptions to this policy will be made only upon authority of the Commanding Officer. Proposed exceptions must be fully documented and justified.

Essex Gives Gift to Former Crewman

In flight deck ceremonies held aboard the carrier USS ESSEX last Thursday, June 12, Conrad L. Perrier, former member of the ship's crew, was presented by proxy with a check given him in honor of his courage and determination and as a token of their respect by his shipmates.

The 26-year-old airman, a native of Maine, sustained permanent injuries aboard the ESSEX last January 3 while the carrier was engaged in operations off the coast of Korea. He is now a patient in the Veterans Administration Hospital, Farmington, Mass.

A check totaling $1,869 was accepted in Perrier's absence by CAPT Walter F. Rodee, commanding officer of the ESSEX. CDR Stanley Vejtasa, ship's air officer and the representative of ship's company, presented the check, the total contributions made by the personnel of the Air and Operations Departments of the ESSEX and Air Group 5.

Perrier was injured during air operations when, as he was gassing an F9F Panther jet, the 20mm gun of an F2H Banshee was discharged accidentally. The shell struck the tailpiece of the Panther, resulting in Perrier being struck by spraying shrapnel.

Shortly following the accident, he was transferred to the USS VALLEY FORGE, taken to the U. S. Naval Hospital, Yokosuka, Japan, and then removed to the hospital in Oakland, Calif. He was moved just recently to Framington Hospital.

Two Divisions Held Picnic Saturday

The Machine Records and Fiscal Division annual picnic was held this past Saturday, June 14, at Flynn Springs near El Cajon. The picnic, which started at 1300 and lasted until 2000 in the evening, was attended by approximately 150 division members and their families.

Plenty of games and contests were featured such as the three-legged race, ping pong, baseball, volleyball, softball and horseshoes. One of the features of the afternoon was the hat making contest, which was won by Mrs. June Norton from the Payroll Division. They say that some of those hats were quite the things to see, since the only material which could be used in making them was the material to be found in the immediate vicinity of the picnic.

Two door prizes were also given away at the picnic. The first door prize, an electric clock, was won by Richard Mann of the Machine Record Division. The second door prize was a silver salt and pepper shaker which was won by Shirley Cleveland, also of the Machine Records Division.

The menu consisted of baked ham, hot dogs, potato salad, ice cream and beverages.

about books

Whether your interests are in hunting, gardening, foreign affairs or gadgets, it requires more than books to keep up to date with the rapid pace of new information. Naturally, the 52 periodicals on the magazine rack at the station library can contribute to a person's efforts to keep up with the trends in his hobby, avocation or interests.

As well as having all the popular big-circulation magazines, the library subscribes to numerous monthlies and weeklies devoted to more specialized topics. The photographer, the ham, and the aviation enthusiast will have to more than browse to keep up with the literature contained in the numerous mags on their interests. Even the gardener can find current reading to keep him posted on science's attempts to make his green thumb maintain its hue. The monthly **Organic Gardening**, for example, carries technical articles on the organics and structure of soil, an all-important aspect of successful gardening.

If the wife demands a new washing machine, husband can peruse **Consumer Report** and find what machine is best suited for the family laundry and pocketbook. Other persons with a domestic bent should look at the selection devoted to the American home. **Sunset** brings to its growing number of readers articles on everything from cooking to architecture to traveling as particularly designed for Southern Californians.

House-Home, a handsome new magazine, does not restrict its material to any particular region but instead presents articles on advanced home architecture, construction techniques and finance.

NAS Librarian Mildred Andrews says the library always welcomes suggestions from personnel for magazines to add to the present collection, providing they are readily available and are not on a too obscure or restricted topic.

Commissary Leads Carnival Race

The Commissary Diviison galloped to a substantial lead in the opening stretch of the big Navy Relief Carnival "drive race" this week. With the finish line still a long way off, however, the outcome of the race is far from certain and any one of the 12 divisional and departmental "horses," with a renewed burst of speed, can claim victory. To simplify and expedite the drive in their departments, the Industrial Relations and Administration Departments have combined efforts and will be represented by one "horse" in the chart below.

Two O&R Men Aid In Flag Day Observance

Jack Newsome, employee of the NAS O&R Landing Gear Shop, and Mel Thornton, O&R Material, were members of the committee which arranged the American Flag Display featured at the Flag Day Observance in Pacific Beach last Saturday.

The display, consisting of 175 banners, was the product of the combined efforts of the Pacific Beach American Legion Beach Post No. 552 and the Pacific Beach Sea Scouts, Ship No. 24.

Meet Your Committee Members

Control Branch, Supply and Fiscal Department, has an active and energetic set of shop and recreation committeemen—and women. Above (left to right) are: Shop committeemen N. A. Gerber and Johnny Allen, discussing coming events. Gerber, a supervisor in stock control, is serving on the committee for the first time this year. Allen, a supervisor in issue control, served on the first NAS shop committee several years ago. Absent from the picture was Iola Scott, assistant supervisor, who is serving for the first time this year. Below (left to right) are: Welfare and recreation committee members Clara Schedlbauer, property and supply supervisor in receipt control; Elmer Hansen, property and supply clerk in stock control; and Mary C. Hayden, equipment clerk, technical branch. The former is serving for a second term on the committee, while the others are serving for the first time.

We wish to welcome to NAS and the Electronics Division Mrs. Dobrela Kirkendall. She is the new clerk-steno in the division office. Good luck on the new job!

* * *

Emily Grinsell and her husband, Bill, have the car packed down and are about to leave on vacation today. They are going to Shreveport, La., then on to Chicago to see their grandson. After visiting relatives and friends, they plan to travel south to Florida for a little relaxation in the sun. We all hope you have a grand time, but take it easy!

* * *

Susie Hornberger celebrated her 39th birthday last week with a cake and all the trimmings. Congratulations from the Cable Shop.

* * *

Several workers of the division enjoyed the National Smooth Dancers Calvacade of Dancing at the Hotel del Coronado last weekend. Irene Jordwan, of Radio shop, was one of the hostesses. The proceeds from this very enjoyable entertainment went to the Cerebral Palsey Foundation.

* * *

Clara Wheeler, of 4258, returned from four weeks leave spent visiting her daughter and family in Michigan. She also spent some time in Indiana visiting old friends and renewing acquaintances.

* * *

Harvey Chambers transferred from Hangar 68 to Prototype in Bldg. 378. Good luck on the new assignment!

* * *

Rose Ryan resigned from NAS last week to move to Dalton, Virginia. Her husband was transferred from here to the Air Station at Dalton.

* * *

Get well wishes are sent to Thomas Joiner of the paint shop. Joiner and his wife were injured in an automobile accident last weekend. He is still at the Naval Hospital, but hopes to be home in a few days.

* * *

Dutch Kehry returned to work after seven weeks off on annual leave. It was no vacation for Dutch as he built a house. The house will be completed in a few weeks and he is looking forward to moving day.

* * *

Congratulations to Faye Mcdams and Leo Allen who were recently married. Faye would like to thank all of the people who contributed to the lovely wedding gift.

Free Ducats To Swim Night Available To 100 NAS Civilians

Limited numbers of tickets for a "Swim Night" at the Mission Beach Plunge June 23 are available to civilian employees of the Naval Air Station through their division Welfare and Recreation chairmen, it was announced this week by Employee Services Office sources.

The City Recreation Office is offering this "Swim Night" to members of the Industrial Recreation Association, which includes the Naval Air Civilian Recreation Association. Admission will be by free tickets only. No admissions will be sold at the door.

movie menu

SATURDAY, June 21—"IVORY HUNTER," starring Anthony Steel and Dinah Sheirdan. Anthony Steel, game warden in Africa, quits when ordered to slaughter animal life on a wholesale basis and sets out, with his wife and son, to establish a wild life sanctuary. Problems mount as Harold Warrende, head of a gigantic ivory-poaching ring, does everything possible to wreck Steel's plan.
SHORT: "Car of Tomorrow"
Running time—1 hour and 48 minutes.

SUNDAY and MONDAY, June 22 and 23—"HIGH NOON," starring Gary Cooper and Thomas Mitchell.
SHORTS: "Little Red Rodent-hood" and "Wanna Bet"
Running time—1 hour and 45 minutes.

TUESDAY and WEDNESDAY, June 24 and 25—"THE WINNING TEAM," starring Doris Day and Ronald Reagan. Ronald Reagan portrays Grover Cleveland Alexander and Doris Day is his wife in this film version of Alexander's baseball career. With an amazing native pitching talent, he becomes a big-leaguer in 1911 and, when America enters World War I, goes overseas.
SHORT: "Sock-a-doodle-do"
Running time—1 hour and 52 minutes.

THURSDAY and FRIDAY, June 26 and 27—"SCARAMOUCHE," starring Stewart Granger, Eleanor Parker and Janet Leigh. Stewart Granger plays the part of a carefree rogue living in Paris in the 18th century and is in love with Eleanor Parker, actress with a band of strolling players, but he meets and is intrigued with Janet Leigh, lady-in-waiting to Queen Marie Antoinette, who has announced her betrothal to Mel Ferrer, a marquis. When Granger's best friend, Richard Anderson, author of a political diatribe which attacks the monarchy, is killed by the sword of Ferrer, he swears to avenge his friend.
Running time—2 hours and 5 minutes.

OPPORTUNITY KNOCKS

AVERAGE LOSS OF WATER FROM LEAKING FAUCETS OVER A PERIOD OF ONE MONTH.

UTILITIES MUST BE CONSERVED TO SAVE TAX DOLLARS

Benny Sugg would like to show you how a little waste adds up: This goes for ELECTRICITY, GAS and STEAM too. If you have any ideas on how the Naval Air Station can save on ANY UTILITY, Write it down on a Beneficial Suggestion Blank and drop it in any suggestion box, or mail it to Benny, Bldg. 415. You'll be helping to conserve the tax dollar intrusted to the Navy and helping yourself—for BENNY pays off with hard cash for ideas that are adopted.

Drop-In Lounge For Civilians Offered by YWCA

June 20 will mark the opening of the Drop-In Lounge and Hobby Room at the YWCA for all civilian defense workers and their families. It was established through the efforts of the United Community Defense Service and the YWCA and is under the direction of Miss Phyliss Beal who is a member of the National Staff of the UCDS—United Civilian Defence Services.

The lounge will be open weekly on Thursday and Friday from 1900 to 2200. Baby sitters will be available on Friday nights for those wishing to bring their children with them. Many forms of entertainment will be on hand, such as ping pong, folk dances, television, swimming pool, card tables and records. For those who wish to work on their hobbies or arts, they will find a section set aside for crafts, painting and many other hobbies.

Ya Just Caint Keep O&R's Milton Hughes Corralled

Ridin' horseback has come to be one of th' fanciest and most fashionable sports an' pastimes of both th' city folks as well as th' not-so-city folk, alike these days.

It's almost nothin' to see a city guy or gal hop on a horse an' go gallopin' 'cross country just for th' sport of it all.

But many o' these "pony pushers" and "dudes" have almost forgotten that th' days of th' real, honest-ta-goodness cowpoke—that long, lanky feller they always think of as fadin' inta a settin' sun after two hours of roughin' it in th' picthur show—aren't just remembrances. Not by a long shot.

For proof o' this, just drop in at lunch time or pay an after-hours visit ta Milton Hughes, Aircraft Motor Machanic, who's now hogtiein' parts in O&R's Engine Overhaul shop.

Born in a Saddle

Milt, who ya might say is Naval Air's own cowboy, 1952-style, claims he "cut teeth on a saddle." "I was almost born on a horse," says Milt, "and have almost never got off since."

Born in th' beautiful southern Nevada plains-knoll land near the Arizona-Utah-Nevada border, Milt lead the typical life of a dyed-in-th'-wool cowpoke from the time he was able ta ride and handle a rope. His father was th' owner of three ranches, about 50 ta 100 acres each, and worked government-owned, privately leased property as grazin' land. This sprawlin' territory kept Milt an' his sidekicks plenty busy, but not busy enough ta keep 'em from tryin' their hand at ridin' in the rodeo.

Rodeo Rider

Ridin' the rodeo circle for th' first time when just a youngster, Milt rode whenever th' oppostunity came. Even today, he rides the roughest of 'em in practically all events 'cept bull-doggin' an' bronco-bustin'. His favorites are calf ropin' an' wild cow milkin' which still tries th' courage of th' most experienced hand.

Talkin' about fadin' inta th' western sun, Milt has his chanct ta do that, too. He's a member of th' top-notch, well-known De Anza Caballeros of California who take that 200-mile jaunt ever' spring up from Riverside to Calexico. This might sound purty easy, pardner, but, take it from Milt, it's no day in th' country.

Hectic De Anza Ride

Th' trip takes seven days an' th' boys have ta ride over plains, knolls, mountains, springs, rivers, deserts, grass-land, forest country an' . . . well, ya get th' general idea. Th' men start out on a Sunday morning with a modern deluxe camp travelin' with 'em. They pass through some o' th' most historical country in these parts—includin' Coyote Canyon where th' first white chil' was born in California way back in 1774.

17-Year-old Horse

Now, Milt prefers his standard-bred, three-quarter Hamiltonian for his horse on th' De Anza ride. Makes no difference ta either Milt or th' horse that th' horse is all of 17 years old. Still one o' the best on the trail, like his owner, an' after all, that's whut really counts.

Yep, Milt rides with th' best of 'em in this 'cross country hitch, but neverth'less, he came right in first in this year's ride and plans ta give it a try next year, too, an' as many years as they'll let 'im try. Kinda have a feelin' he'll make it in first ever' time, don't you?

How Savings Multiply In Pay Allotment For Defense Bonds

AROUND 1500 MONDAY 34 new FairbetuPac chiefs were wondering if their recently won rates were worth the effort. Bound with leg irons and wearing signs with the legend, "Now I'm a Chief!" the new CPOs were marched under marine guard from the Fairbetu area to the Chiefs' Club. There, they faced a court presided over by J. J. Jelinski, pictured upper left. All were sentenced to perform various menial tasks for their older brethren-in-uniform. Lower right, Wave E. B. Page, new FairbetuPac chief storekeeper, stands before the court to receive her sentence. New NAS CPOs likewise had penalties imposed on them but without benefit of trial by jury. Center, Ronald A. Marcoue, QMC, enters chiefdom with a big splash, while I&E's Lester H. Klein, ADC, upper right, anticipates a similar fate in the Station swimming pool.

Fasron 691 Bible Class Visited By Moody Rep.

George E. Speake, represtative and lecturer from the Moody Institute of Science, visited the FASRon 691 Bible Class, held in the squadron's Hangar 40 auditorium last Wednesday, June 11.

Mr. Speake, who presented "Sermon from Science" lecture-demonstrations at NAS last week, showed one of the Moody Bible Institute films entitled "Voices of the Dep."

Mr. Speake also gave a lecture delving into the wonders of creation and interesting sidelights from the Bible. Several squadrons were represented with a total of more than 30 men in attendance.

This Bible Class was originally organized by W. M. Blair, AE3, assigned to FASRon 691, and was reorganized by Chaplain T. E. Schultz, an NAS Protestant Chaplain, in January of this year.

The class meets each Wednesday in the Hangar 40 auditorium from 1200 to 1300. All Naval Air Station personnel and units based here are cordially invited to attend classes in the belief that a great benefit will be realized by each man.

Legion Post to See Film on Civil Service

"Is This Your Government?"

The above title depicts the theme of a special film which will be shown at an open meeting sponsored by North Island American Legion Post, at the Veterans' Memorial Building, Balboa Park, June 24 at 2000. The picture, which serves to dispell some of the myths about civil service employees and the government, is open to the public, and particularly to North Island employees.

The film will be followed by a question and answer period. Mr. William Jorgenson, representative of the Twelfth Regional Civil Service Commission, will answer questions pertaining to civil service policy. Mr. Howard Goode, Employee Relations Superintendent, will assist with questions pertaining to Navy policy.

CARNIVAL MIDWAY construction at Navy Field is the project of eight NAS sailors under the direction of F. A. Hojnacki, DCWC. All volunteers, they are rapidly bringing the biggest midway in Navy Relief Carnival history to a completion. Picture above left are Charles Boling, AM3, and Donald Kremer, AM2, working on one of the 45 booths under construction which will house Navy concessions and exhibits. Right, Chief Hojnacki and A. T. Lindquist, AD1, check blueprints of midway construction.

QUEENLY ASPIRANT—Comely Ruth Welch, 17, daughter of E. J. Smith, AEC, of the NAS OD's office, is one of nine candidates for the "Miss Thanx" title. Pictures of the nine candidates will be distributed by the Thanx organization to servicemen in the Korean area who will select a queen. Ruth, a San Diego High School graduate, was honored with the other candidates at a sponsoring banquet held in El Cajon recently.

Captain's Cup Lowdown

By LEON COX

After two weeks of play in the Captain's Cup Softball race, only Special Services and G.C.A. were able to emerge with perfect records, although both teams had some close calls they were able to weather the storm with Special Services taking a half game lead over G.C.A. in the standings with six wins and no losses, while G.C.A. are sporting five wins and no losses.

Three teams have dropped out of the unbeaten ranks this past week, Planning, Assembly and Weather Central all suffering defeat for the first time, although they are still very much in the running and should give the league leaders a rough time in games to come.

To date three teams have dropped out of the league, these being Power Plant, B.O.Q., and Security 34.

The Captain's Cup Golf Tournament will be held from July 14 to July 23 and will be held on one of the local courses. The location will be posted in the near future.

Standings	W	L
1. Special Services	6	0
2. G. C. A.	5	0
3. Planning	5	1

N.I. Skeet League Ends in Deadlock

The NAS-NAB and the combined VC-VS-Comairpac Staff teams wound up the North Island skeet league in a deadlock last week and a playoff between the two teams is set for early in July. Each club ended with 6-1 records. Members of the winning team will be awarded individual trophies.

There is also a sizzling fight raging for the individual high average among three skeet blasters. J. A. Leslie, Fairbetupac, and "Duke" Ellington of FASRon 691, have finished their league shooting with identical 96 averages. But, also with a 96 average and with 200 rounds of make-up shooting left, is VR-32's W. W. Eddington. Individual trophies will also be given for the winner of this category.

Inter-Service Photo Contest to Be Held

Plans have been announced for the Fourth Inter-Service Photography Contest, scheduled to begin sometime during the latter part of this year.

Preliminary contests will be held by all Services starting with the smaller installations and working up to major command competitions. Final eliminations will be done at the highest level.

The top winners from all Services will compete against each other April 15, 1953, for the Inter-Service awards. Entries will be in two classifications:

1. Black-and-white pictures of five and seven-inch minimum and 16 by 20-inch maximum in size, unmatted and unmounted.

2. Color transparencies of a 35-millimeter minimum to four by five-inch maximum in cardboard mounts.

Photographs must have been taken after Jan. 1, 1951. Entries will be judged primarily for originality, interest and appeal, with photographic technique as a secondary factor.

Winners will receive prize trophies in seven black-and-white and three color transparency categories. The Service with the greatest number of prize-winning entries will be the recipient for a year of the perpetual Inter-Service photography contest trophy.

Wesley Holmes Leaves For Toronto This Week

Wesley Holmes of the O&R Department, leaves this weekend for a three week's trip to Toronto, Canada. He will represent the San Diego unit of a nationwide fraternal organization which is holding its national convention there

During his trip, Wesley will stop off in Detroit, Michigan, where he well pick up a new car for the return trip.

Entries Arrive For Annual CW&R Fishing Contest

A 30-pound yellowtail and a 17-ounce rainbow trout head up the list of early entries in the annual Civilian Welfare and Recreation fishing competition, according to Marge Muloch, of Employee Services Office. Registrations are coming in at about the normal yearly rate.

All divisions of the contest are still wide open for prize money contestants, as there will be awards for both the biggest and the runner-up fish in each of 18 classifications.

Classifications include: albacore, yellowfin and bluefin tuna, yellowtail, corbina, halibut, barracuda, croaker, marlin, sheephead, salmon,, white sea bass, black sea bass, rock or kelp bass, lake trout, stream trout, catfish, large mouth black bass, and crappie.

Several perpetual trophies are also awarded for special events in the contest.

All civilian employees on North Island are eligible to take part in this annual contest for chunks of cash. All that is necessary is to sign up with the Employees Services Office, Bldg. 415, prior to going fishing, and meeting the brief list of rules, as set forth by the Civilian Recreation Association.

The contest, which started March 1, will continue until December 1.

HUNTING LICENSES AVAILABLE HERE

Although the annual hunting tournament for NAS civilian employees doesn't open until August 15, it's probably time for a reminder that hunting licenses and deer tags may be procured through Employee Services, Bldg. 415.

SPORTS

Skyraiders Smash PhibPac; Nipped by Camp Pendleton

The Naval Air Skyraiders batted to an even 500 percent in their last two Eleventh Naval District Major Baseball League games.

Last Wednesday, June 11, the 'Raiders defeated the PhibPac Invaders on the losers diamond by a score of 7 to 4, and Monday the 16th, the Marines from Camp Pendleton scored a hard earned win over the airmen. This game, which was decided by a home run in the bottom of the ninth, wound up 3 to 4 in favor of the Scouts from Oceanside.

Dick Kerr, was credited with the win in the PhibPac fracas which featured a trio of hits by Tom Futch, the 'raider catcher.

This game, which was tied 3-all in the 8th, needed the combined efforts of three pitchers before the win could be secured. Jim Pardue pitched the first 6 innings after which he was relieved by Marv Campbell who in turn was relieved by Dick Kerr in the 8th.

In the 8th inning with the score tied 4 all, Johnson received a base on balls and Harvy Speed reached first on an error. The stage was set and Tom Futch took advantage of the situation when he smashed a triple to score two runs; he scored a moment later on a passed ball, and for all concerned the game was in the bag.

Lose to Pendleton in Thriller

Last Monday, the Skyraiders lost a heart-breaker to the Scouts from Camp Pendleton 4 to 3 by virtue of a home run in the bottom of the ninth. Marv Campbell was charged with the loss although for six innings he pitched no-hit ball.

In the bottom of the eighth, the Pendleton batters got to Campbell for three runs, but the "never say die" 'raiders were up to the occasions. In the top of the ninth, Lonnie Graham singled followed by a base on balls to Tom Weaver; Tom Futch then singled, scoring one run. Dick Kerr then batted for the pitcher, Campbell, and laced a single into center field to tie the score. The 'raiders were still gloating over their accomplishment when a Pendleton batter smashed a home run in the bottom of the ninth—"That's all she wrote."

The Raiders will host the El Toro Flying Bulls here today; game time is 1400.

What's the Catch?

C. L. Killorn, SA, of the Naval Air Station's K-9 Division, caught a 44-pound White Sea Bass to win the individual honors for the week of June 7 through 14. The catch was made aboard the "Salty" on Saturday, June 14.

Generally speaking, the fishing for last week was very poor, with dirty water and rough weather.

corner on sports

By BOB LAIBLE

It's been a new experience and a lot of fun bringing you the Corner on Sports since George Bergman left some five months ago to get his degree at San Diego State College.

After four years, the time has come for this writer to return to civilian life. As Sports Editor, we hope we have succeeded in bringing you the news, and untangling the "behind the scenes scoop" for you in the old "corner."

Thanking you again for your readership, we will turn the corner over next week to its originator. Yours, Bob.

'Raiders Face Tough Gridiron Schedule

With a better than ever 1952 football team, the Naval Air Skyraider gridders will set the fuse to a tough 1952 football schedule on August 8 at Balboa Stadium, when they tangle with the formidable Los Angeles Rams.

This year, only two teams will oppose the Rams, one less than the trio of service outfits which saw action last year. The 'Raiders partners-in-arms for the big annual curtain-raiser will be the Naval Training Center Bluejackets. Each team will play 30 minutes against last year's National Champs.

Start Practice June 30

The Skyraiders will officially start their spring practice on Monday, June 30, with eighteen returning lettermen from the tough 1951 squad. Nine offensive and nine defensive players will once again battle for North Island.

Only one face will stand out among those missing from last year's great team. Coach Stan Williamson will be released from the Navy in early July, and will be replaced by Lieutenant Commander Dean Johnson as head football coach.

In addition to scheduling games with the top service teams in this area, the Skyraiders will also engage some of the well-known college teams throughout the United States.

Looking over their schedule, we find that the Naval Airmen have only two open dates left for the 1952 season. On the 8th and 15th of November. After their initial go against the Rams on August 8, the 'Raiders will travel to Provo, Utah on September 19 to take on Brigham Young, then return to Berkeley for a game with the powerful Cal Ramblers on the 27th.

Four tough games have been scheduled during the month of October, three of them with power-laden service teams including NTC on the 4th, Fort Ord on the 18th and MCRD on the 26th. Possibly their roughest go during that month will be with Brooke Medical Center in San Antonio, Texas on the 11th. This is the same team that knocked over 11ND champs NTC, and laid claim to the mythical National Service title.

Starting the month of November off with a bang, the Skyraiders will mix with PhibPac on the first, have open dates for the 8th and 15th, and take on Camp Pendleton on the 22nd. One week later, they will have a tentative game with Missouri Valley College, scheduled to take place at Towers Field. They will complete their season with a game against one of the Eastern Training Command Champions.

Tennis-Great, Frank Parker, In Exhibition Here Monday

Mr. Parker Rated Among Top Ten United States Tennis Players for Seventeen Consecutive Years

Frank Parker, who for the past 20 years has rated as one of the top tennis stars in the United States, will play an exhibition singles match against LT Wyatt of the USS CURTISS at 1115 Monday on the courts near the Chief's Quarters and at 1215, Mr. Parker will team-up with Barry Bass, SN of Fasron 7 to face LT Wyatt and LCDR Jones of FetuPac in a doubles match.

Frank Parker

The great tennis reign of Parker began in 1932. Beginning at that time, he ranked among the top ten U. S. player for seventeen consecutive years. He is the only living person ever to win the U. S. Boy's Junior and Men's Amateur title.

Among the many titles held by Frank Parker, were the U. S. Indoor Championships in 1937, and the U. S. Indoor Doubles in 1937; the U. S. Clay Court Champion in 1941, 1946 and 1947; the National Mens' Doubles Championships in 1943 when he teamed with Jack Kramer; and the United States Men's Championship in 1944 and 1945.

LT WYATT, LCDR JONES IN ELEVENTH ND SEMIS

LT E. Wyatt and LCDR Jones who will face Frank Parker along with Barry Bass of FASRon 7, are now entangled in the tough competition of the Eleventh Naval District Annual Tennis Tourney. Mr. Wyatt has reached the finals in the singles competition, while LCDR Jones and Mr. Wyatt have fought their way into the doubles semi-finals.

Several players, who although played excellent tennis, were eliminated from competition. These men such as: Barry Bass, Bob Kirchner, SN, of FASRon 7, and Edward Graham, SA, of the USS BADOENG STRAIT, although losing matches, showed consistent team spirit.

This year, the Eleventh Naval District's Annual Tourney is divided into a two section elimination. The San Diego section, which is represented by all installations south of and including Camp Pendleton, will send its winners to meet the Northern Champs from Los Alamitos, Long Beach, etc.

Fasron 110 Leads Softball Playoffs

By Bob Swisher

The Ready Issue Storekeepers felt the sting of FASRon 110's booming bats Wednesday when they bowed, 16-5, in the first round of the double-elimination AirPac softball playoffs.

Friday, 110 meets FAW-14 in the second round, and if they win, they can sit back and watch the two losers battle Monday. The winner of this game would then meet FASRon in the finals Wednesday.

The 110ers advanced into the championship bracket by virtue of their win in the tough Major league. FAW-14 was the king of League "A," while Ready Issue blew through the "B" slate.

VC-11 came very near throwing the Major league into a tie on the final day of the season. The Comets battled FSRon-110 all the way before bowing out, 1-0. R. W. Ray, Comet pitcher, hurled near perfect ball, giving up only one hit, but an unearned run in the fifth frame meant the difference. A FASRon loss in this one would have tied them with FAIRBETUPac and forced a playoff.

Neither Deady Issue nor FAW-14 were hardly in trouble in their race. Each went undefeated in five games.

Elsewhere in intermural circles, FASRon-7 clinched the table tennis bunting last week and FAIRBETUPac and VC-11 hold leads in tennis and golf, respectively.

The golfers are right in the middle of a dog-eat-dog affair with four teams poised for the championship clash.

Eleventh Naval District Golf Tourney Entries Close Today

Entries for the Eleventh Naval District Gold Tournament, which will be held on June 26 and 27, will end today, all hands desiring to enter this event must contact the Special Services Officer at Ext. 263 before 1600 today.

Participants representing activities of the San Diego area and the Marine Corps Air Station, El Toro, will compete on the Camp Pendleton golf course. Players will be paired according to their registered or submitted handicaps, with play starting at 1200 on Thursday, June 26.

The final competition will consist of the low fourth of each of the two qualifying tournaments,

(Continued on Page 8)

CHMACH Axcell Transferred To USS MONTEREY on June 2

CHMACH Walt Axcell, the Naval Air Station's Skyraider Golf Coach, and all-around sports entrusiast, is being transferred to the USS MONTEREY (CVL) on June 30.

Mr. Axcell, who has been aboard this station since 1947, has spent 18 months in FASRon 7, 23 months in FETUPac, and 23 months in PW-32 as Barracks Officer.

As most good golfers, he has ben playing since early childhood, and now maintains an average in the area of 75.

White attached to FASRon 7, Walt Axcell was the NAS Athletic Director, and although no longer in that position, he has constantly maintained a keen interest in sports and golf in particular. One of the top golfers in the area, he is now preparing to participate in the 11ND Annual Golf Tournament to be held starting June 26.

CHMACH WALT AXCELL

VU-3K Wins 1st Half of Intra-Squadron Tourney

By A. Marks, JOSN

Utility Squadron THREE won the first half of the Intra-Squadron softball championship with a season's record of 12 wins and three losses.

Throughout the past quarter, VU-3K ruined the opposition with regularity, all except HU-1, who they split with, each winning three games. VU-7 and HS-2 didn't win one ball game from the Drone Squadron.

VU-3 was continually bothered by the transferring of their key pitchers. Thomas Shaw opened the season with four straight victories. Lowell Zellars followed with one victory and he, too, was transferred.

Out of nowhere came John Arce, who finished the season with five wins and two losses and was mainly responsible for keeping the ball team on the winning track. Johnny Troegel reported to the squadron at the end of the season, but managed to notch two victories, while losing one game.

Ken Brooks, third baseman, ran away with the batting crown with a .464 average, followed by team captain, Hal French's .333; Molton Lachowski's .333; Charlie Stevens posted an average of .326, Tom Fennell's .293, Dane Taylor's .283, and Carl "Indian" Onckner, who was a mainstay of the club, batted .263.

Anckner and Fennell each hit two home runs to lead in that department, and Stevens scored the most runs, with 18.

During the next half of the softball season, July, August and September, VU-3K will most likely face three Helicopter Squadrons, since VU-7 is no longer based at Ream. If the drone men win the next half, they will be acclaimed Ream Field Champs and be awarded with trophies. If some other squadron should win, they will have to meet VU-3 in a championship playoff.

VU-3K Ream Field Softball Champs. Left to right, top row, Paul Steege, Tom Fennell, John Arce, Milton Lachowski, Dick Sufficool, and Dick Gale. Bottom row, left to right, Ken Brooks, Harold French, team captain; Ed Allen, John Troegel, Charlie Stevens, Bill English, and Harlan Price.

Golf Entries

(Continued from Page 7)

and will play in the final 72 holes on July 10, 11, 17 and 18.

The low fourth of each of the two qualifying tournaments will qualify for the finals which will be played at Rancho Santa Fe, Del Mar, on July 10, 11, 17 and 18.

A medal play tournament of 36 holes will be conducted for women personnel of the Armed Services on the 24th and 25 of July at the Mission Valley Gold Course, San Diego. Eighteen holes will be played each day, starting at 1200.

LCDR Dixon Speaks At Bar Association

LCDR William C. Dixon was the guest speaker for the Maricopa Bar Association of Phoenix, Arizona, at the Adams Hotel on June 16, 1952.

The topic was "Helicopters and the Korean War." LCDR Dixon is the Operations Officer of HU-1 based at Ream Field. He has just recently returned from Korea, where he won the DFC for a particularly hazardous helicopter rescue.

47 Men Report To VU-7

VU-3K, the only non-Helicopter Squadron left at ALF Ream Field, welcomed aboard forty-seven enlisted men from VU-7, after that Squadron was transferred to North Island.

Ream Bowling Champs Enter SD Civ. League

FAD Ream Field Bowling Champions, Helicopter Anti-Submarine Squadron TWO supported by bowlers of VU-3 and HU-1, are participating in a civilian league in San Diego. At the end of four weeks of competition the HS-2 team has won nine matches and lost three.

Louis, Osburne, ADAN, Bernie Worack, ADC, Ray Burke, PH2, of HS-2; Art Schmid, AN, Ray Smith, DC, of HU-1, and Les Graupman, AO1, of VU3 make up the team.

Schmid's average of 187 pins and Graupman's 175 average have been the deciding factors in maintaining first place in league standing.

Ream Wrestler Wins Medal

George L. STOTSER, AT3, of VU-7 is the recipient of a Medal and Certificate from the Director of Welfare of the Eleventh Naval District for having won third place in the featherweight class, 1952 Olympic Wrestling Eliminations, Southern California-Arizona District. This award was won in competition with the best amateur wrestlers in the district.

George has been in the Navy two years and placed third in his weight division at the Southeastern U. S. AAU tournament in 1951 while serving at Memphis, Tennessee.

George enlisted in the Navy shortly after graduating from Iowa Falls High School. While in high school he got his start in wrestling, winning letters all four years he was in school. He also participated in football his junior and senior years, winning varsity letters.

LEGIONNAIRES HOLD PRE-ELECTION DANCE

North Island Post 753, American Legion, will hold a pre-election dance at the Veterans' Memorial Building, Balboa Park, Friday evening, June 27. All post members, their friends and guests are urged to attend, have a good time and meet the nominees for 1953 offices.

REAM Border Lines

ALF REAM — SAN YSIDRO, CALIFORNIA

10 Ream Fishermen Try Luck with Yellowtail

At 0300 on the morning of Wednesday, 4 June, ten men, most of them from the Maintenance Department of HU-1 based at Ream Field, left the fishing shack at NAS and headed for the Coronado Island with the hopes of catching some nice yellow tail

They arrived at the fishing grounds about 0530 and dropped the hook about a quarter of a mile off the island and proceeded to chum the area. They managed to get a few boils but no strikes, so they moved south a few miles.

About half an hour later, Chief Dick's pole lurched forward and they had the first yellowtail of the day aboard. Chief Funk was the next to get a strike and then Herrin, AD1. After getting their catch aboard, Chief Hill and Pearson, AE1, both got a strike at the same time. After much help from everyone aboard they managed to get their lines crossed and Pearson's line was broken.

Chief Hill's fish was still going strong and with Hill sitting on top of the cabin proclaiming that he "had hooked a whale." Just as the crewman was about to gaff Hill's fish, his line parted and the biggest fish of the day got away. Before the day was over all hands had their share of fish and the day was enjoyed by all. Needless to say, Chief Hill now tells the biggest fish story in the squadron.

VU-3K Sports Homey Oil Shack-CIC Club

If VU-3K hasn't the most unique Oil Shack in the whole U.S. Navy, it has undoubtedly the most attractive one.

Bearing the title, "CIC Club, Rats Only," the shack is carefully camouflaged with blooming flowers, shrubbery, green grass and has a very homey atmosphere. It also serves as a haven and information center for plane captains, mech's and for men of the line.

Although there are no dues and the refreshment bar is closed, this exclusive club is open to all members of the squadron and is kept neat and polished like the boots of a new recruit.

WHIRLYBIRD MEETS REPOSE

Shown in the above picture is the Navy's HUP-2, Piaseoki helicopter making the first landing on the newly constructed helicopter landing platform on board the U. S. Navy Hospital Ship REPOSE. The helicopter was piloted by Chief Aviation Pilot Raymond KARLS, and Aviation Pilot First Class James THOMPSON. The photos were taken from another helicopter piloted by LT. J. V. GORMAN, of HU-1, and Photographer F. N. HENDERSON of HS-2.

Skipper of HS-2 Presents Awards

Friday, 6 June, CDR E. H. Bayers, Commanding Officer of Helicopter Anti-Submarine Squadron TWO, concluded personnel inspection with presentations of awards.

ENS D. R. Hollis was presented the Air Medal for his meritorious achievements while participating in a rescue from the USS ROCHester on January 13, 1952. Acting with exceptional heroism, he landed his helicopter on a hostile beach, within range of enemy batteries and small arms fire and covered operations with a machine gun while his crewman gave artificial respiration to a downed aviator. ENS Hollis also received the Sikorsky Winged "S" award for this rescue.

Good Conduct Medals were presented to H. E. Walker, ADC, his fourth award, and W. A. Bell, PH3 his first award.

ALF REAM MOVIE SCHEDULES

FRIDAY, June 20—"SCARAMOUCHE" starring Stewart Granger and Janet Leigh.

SATURDAY, June 21—"GOBS AND GALS" starring Robert Hutton and Cathy Downe.
Shorts: "COLOSSALS OF THE CANVAS."

SUNDAY and MONDAY, June 22 and 23—"HIGH NOON" starring Gary Cooper and Thomas Mitchell.
Shorts: "LITTLE RED RODENT HOOD" and "WANNA BET."

TUESDAY and WEDNESDAY, June 24 and 25—"LYDIA BAILEY" starring Dale Robertson and Annie Francis.
Shorts: "FIGHTING COHOES."

THURSDAY, June 26—"THE WINNING TEAM" starring Doris Day and Ronald Reagan.
Shorts: "SOCK A DOODLE DOO."

USS Valley Forge Returns From Korean Zone Thursday

The aircraft carrier USS VALLEY FORGE arrived at Pearl Harbor yesterday enroute to the mainland after seven months duty in the Korean area. This completes the third tour of combat duty for the carrier, the first carrier to earn that distinction since hostilities began in late June, 1950.

The carrier and its air group is scheduled to arrive in San Diego Thursday, July 3, the exact date two years ago that the VALLEY FORGE first launched Navy planes to stem the Communist tide. In the past 24 months the carrier has spect 14 months in direct support of United Nations ground forces on the embattled peninsula.

Returning aboard the carrier is Air Task Group ONE, composed of fighter squadrons from Akron, O., Alameda, Calif., and San Diego.

During the VALLEY FORGE's three tours, 11,606 sorties have been sent over Communist territory—11,606 times that Panther jets, Corsairs, and Skyraiders have attacked enemy trooop concentrations, supply areas, railroad facilities and overland traffic, raining many thousand tons of bombs on their targets.

The VALLEY FORGE departed from San Diego May 1, 1950, on a peacetime cruise to the Far East with Air Group 5 aboard. Included in the air group were two jet "Panther" squadrons. When, eight days after the North Korean army swept across the 38th parallel into South Korea and the VALLEY FORGE launched her aircraft, this marked the first time in Naval aviation history that jet aircraft engaged in combat.

The carrier arrived in San Diego December 1, 1950, but instead of remaining for any length of time

(Continued on Page 4)

Islander Comes Out Day Early Next Week

Due to the observance of Independence Day by station personnel next Friday, the NORTH ISLANDER will be delivered one day earlier than usual.

All squadrons and units who pick up their copies at the ISLANDER office are asked to get them by Thursday noon, if possible.

The NORTH ISL

U.S. NAVAL A

June 30 Job Appointment Date Voided

Civilian employees who received job appointments between the dates of September 1, 1950, and November 1, 1950, which indicated a time limit of June 30, 1952, may disregard this date. All such appointments were automatically extended by Civil Service regulations on November 1, 1950, to indefinite appointments without time limitation.

Probably 300 or more North Island employees are affected by this situation. Some of them are apparently in doubt as to whether they will still be working after Monday.

NAS Organize Will Cross Cou

The entire complement organized Reserve Squadron A tions Bldg. 516, is planning a field Park, Ariz., during their

The cross-country flight is

viduals between the ages of 17 and 18½ are also eligible to join the unit and gain Navy experience prior to being draft classified. The draft recall status of members is not affected by membership in the unit.

Naval Air Station civilian employees from the O&R Department who are members of the unit include: F.C. Geer, (lieutenant commander), Shop 200; G.L. Draper, (lieutenant junior-grade), Shop 4262; J.V. Garcia, (ADE2), Shop 5130; Maurice Hie, (ADE1), Shop 5191; S.R. Hoag, (ATAN), Shop 4262; G.H. Johnston, (ADE2), Shop 432M; and W.J. Johnson, (AMS2), Shop 3106.

NAS Personnel To Be Paid by Check Monday

Monday, June 30, marks the final payday of the 1952 fiscal year for NAS military personnel.

The Disbursing Office has announced that all personnel will be paid the balance remaining on their pay accounts for the fiscal year—down to the last penny. To facilitate this, payments will be made by check.

Instead of the usual pay line at the Disbursing Office, representatives will be appointed to pick up all checks Monday for their divisions and distribute them to their personnel.

Officers may either claim their checks at the Disbursing Office or have them picked up with the other checks for their division.

No C. O. Inspection For Month of July

Because of the first Friday of July falling on Independence Day, there will be no Commanding Officer's personnel inspection for the month of July, it was announced this week.

NAS Camera Rules Are Explained by Security

The urge to get out and photograph some of the scenes offered by scenic Southern California is common to many people aboard the Station. But because North Island is a military installation and is for obvious reasons bound by security regulations, certain restrictions are imposed on the NAS camera-bug. These regulations, however, when read and understood will not hamper his photographic activities to any great degree.

The Security Dept., charged with enforcing station camera rules, attempts to accommodate the amateur photographer in every way possible when consistent with military security. But before sending home for your camera or buying one, the department urges that you know the regulations.

Who may have a camera aboard the station? All military personnel living aboard the station—in the crew's barracks, chiefs' quarters, BOQ, or family quarters — may keep photographic equipment on the station. However, they must first secure a camera pass from from the Security Dept. at Bldg. 415.

If a camera is brought aboard the station without a pass it is picked up by guards at the gate and the owner is given a receipt. The owner may claim his camera from the Security Dept., where it is kept in custody, by presenting the receipt. If he can qualify, he is issued a camera pass after reading and signing the regulations governing the use of a camera on the station.

Provisions are also made for the issuance of temporary passes permitting personnel to bring camera aboard to repair them or to photograph such occasions as beach parties and weddings. These passes are good for only one day, between the hours of 0800 and 1630.

Personnel of ships tied up at North Island may enter and leave the station with photographic equipment by presenting a camera pass issued by their ship.

Taking pictures in the station's industrial and military areas is, of course, restricted. However, regulations do permit shooting pictures at the Commissioned Officers Mass (Open) (providing the club building is used as a background), the Beach Recreational Facility, Lowry recreational area, NAS Chapel, Administration Building, family quarters, BOQ, crew's barracks, and the hobby shop.

A WEEK IN THE COUNTRY

Fasron 7's Survival Training Teaches 'em To Take It When the Going Gets Rough

Friday afternoons are usually pretty rought for just about everyone. The week's almost over, the weekend is almost here, and we're ready to quit work and begin relaxing. But if you think Friday afternoon is tough going for you, just drop around sometime when the bus from the Land Survival Field Trip Base Camp returns to NAS and to its FASRon 7 berth. Here is where you can get a good look at Friday afternoon personified in the form of 25 pretty tired Navy men who have just returned from a week in the country.

That's right—a week in the country. But not exactly the type of week you usually imagine as being spent on an outing. These men, although they have had a great deal of fun and pleasure, have just completed their four-day "final examination" in how to survive off the land in the event of a forced landing in unknown terrain.

All either pilots of crewmen, this group of men, broken down into groups of five or six, undergo several weeks' training at FASRon's 7 Survival Training Unit before participating in this venture to the field camp near Warner Springs, 75 miles from San Diego. This particular phase of the course is entirely voluntary, although the survival training instructions themselves are compulsory for all air crewmen and pilots.

Taking only supplies and material they would ordinarily have if they were bailing out in a parachute over unknown country, these men leave from the Survival Field Camp on a designated Monday morning. Upon their arrival at the camp, they begin immediately the indoctrination program to introduce them to the camp, the program of training, and precautions while undergoing this training. The camp itself is about one block square and is composed of the different types of shelters which can be constructed by downed crewmen for protection from virtually every kind of weather.

Snake Steaks

The first night in camp is spent preparing for the night and "scrounging" for the evening meal, which consists of snake steaks, yucca cactus broth and any other edible plant or animal life found in and around the camp.

Early Tuesday, the group, armed with first aid kits, snake kits, bed roll, and other equipment, all totaling 35 pounds, begins its big 25-mile hike to and through Lost Valley and then the return to base camp.

Point of Return

Tuesday night is spent on the trail leading to the valley. The trail is rough and unpredictable and offers a few more hurdles to the camp-makers. But soon, all is well and they're settled for the night.

Early Wednesday morning, they arise to begin the last leg of their journey to Lost Valley. That night is spent in much the same manner as the others during the outing—preparing for the night—except that they enjoy food dropped by parachute from a survival plane.

Thursday, the long trek back to camp begins with that night

(Continued on Page 5)

will be protected. In cases of renewal only, the deadline, July 7, is approaching rapidly. Renew today. If you are not certain who your unit's representative is, phone ext. 446 for information.

Civ. Welfare and Rec. Budget Given Final Approval

Allowing $2,960.85 for a reserve fund, after all normal activities of the year have been cared for, the Civilian Welfare & Recreation Council has passed on, and received Commanding Officer's approval for, a $17,248.85 budget for the fiscal year 1953.

Based on $4,648.85 cash on hand and a vending machine income of $12,600.00 (12 months' estimate), the budget includes the hunting and fishing tournament, Christmas tree contest, three bowling leagues, the station civilian golf club and two golf tournaments, of-

(Continued on Page 6)

Results of Wage Survey Pending

A Naval speedletter was sent to the Navy Department May 19 requesting that the recent wage survey for the San Diego area be expedited.

In accordance with the station's policy of informing the employees here of the progress of the wage survey, the following reply was received this week, and is quoted for the information of all concerned:

"San Diego wage survey data under analysis is in the Department. Delay due to pressure of work on other areas where data was received earlier and complexity of computations required by Wage Stabilization Board regulations. However, early completion of analysis is expected."

THAT MAN
friday

Celebrating the Fourth of July with fireworks is rapidly becoming an illegal pastime in most counties and cities in the United States.

No doubt, there is a great deal of wisdom in these ordinances banning the use of explosives for celebrating our Independence. Thanks to them, hundreds have been spared injury to life and limb.

Speaking as one who escaped the annual festival of powder-and-punuk with only a burnt index finger, I can submit that it was a heck of a lot of fun and the Fourth has never been the same since the prohibition of fireworks was imposed.

Our neighborhood on the Fourth was literally an "arsenal of democracy." For weeks prior to the big day we carefully accumulated our stock of ordnance and ammunition, shrewdly examining every brand of pyrotechnics for its detonating power. Many hours were spent in arguments with neighborhood boys on the merits of "attaboy salutes," "zebras," "cherry bombs," and the other wares offered in the drug store fireworks display.

At 2400 on the Third it started. The town was rocked and blasted by a constant barrage of everything from spitting "lady-fingers" to reberberating "five-inchers." It was known that certain people with delicate ear drums took to the hills for the day to escape this junior-sized blitz.

By noon the odor of acrid powder smoke pervaded the neighborhood. But by 1400 the barrage had diminished, and an occasional lull punctuated the din—the supply of ammunition was gradually becoming exhausted. Late that night the bombardment regained its earlier power with firecrackers set off in strings, and skyrockets and roman candles knifing the sky.

"Hop? No, I'm Going to The NAS Beach!"

Except for an occasional explosion shattering the night, by 2400 of the Fourth the Independence Day arsenal had all gone up in smoke.

The Fifth of July was oppressively hot but the town's citizens were at least grateful for the peace and quiet which prevailed. A box score of all the blistered and burnt fingers, hands, and arms suffered in previous day's celebration was carried in the local paper. An editorial cried, "Next Year Let's Celebrate a Safe and Sane Fourth!"

Next year the Fourth of July was oppressively hot, but it was curiously quiet, save for the explosion of a dozen or so bootlegged firecrackers, which quickly attracted the attention of prowling police.

Every year since then I have celebrated a "safe and sane" Fourth—well, at least "safe"—but I still look back with nostalgia on my dangerous and riotous childhood. Next Friday I shall cautionsly steer my auto along the crowded highway to the congested beach, spread a blanket in reasonable proximity to a lifeguard, carefully apply suntan lotion, and gingerly step into the surf, making sure not to get too far where the undertow will get me. It will be a pleasant, enjoyable, safe, and sane holiday.

A NOTE FOR YOUR
Future Book

Even though the Naval Air Station bond drive for civilian employees on board has been temporarily postponed to a later date, it isn't too early to begin planning the proposed bond budget you intend to establish when the campaign gets underway.

No, it isn't too early and it's importance can't be over-emphasized. This is a good time to sit down, take pencil and paper, and just figure how much you can possibly invest in savings bonds when the drive comes your way. After all, the answer on that paper may be one answer to a secure future.

It seems to be more and more difficult to look forward to a secure future, too. But millions of American workers have found a way—by regularly purchasing U. S. Savings Bonds and by consistently participating in the U. S. Payroll Savings Plan.

And get this! It you invest $18.75 in a bond and hold it 19 years, 8 months, it will pay you $33.67 in return. There's no getting around it—that's a good investment.

Today, Americans hold almost $50 billion worth of bonds—and they are continuing to make their futures secure by regular purchases of these investments in the future.

Chaplain's Corner

Why Not the Book of Books?

We are living in the day of the "book-of-the-month" which supposedly gives us the latest in the better selection of books. Their ocntents may present us with the cynical or the neurotic, or it may bring us face to face with the worthless aspects of human life. Some may put in a few killings, some stealing, colored with adultery and spiced with several complexes. This is called recreational reading. It is supposed to re-create the mind or something. Perhaps it is all right if one goes in for vicarious living. But there is a book which does re-create not only the mind, but the soul. It is the Book of Books—The Bible. The reading of this Book, which will give us comfort when worried and lonely; courage and assurance when in doubt; promise of forgiveness when burdened with sin and above all, guidance in the paths of righteousness and faith unto all eternity. In the Bible we will FIND the power which will re-create our body, mind and soul. In no other book will we find such words of comfort as in the Bible which promises:

"We know that in everything God works for good with those who love him, who are called according to his purpose. For those whom he foreknew he also predestined to be conformed to the image of his Son, in order that he might be the first-born among many brethren. And those whom he predestined he also called; and those whom he called he also justified; and those whom he justified he also glorified.

"What then shall we say to this? If God is for us, who is against us? He who did not spare his own Son but gave him up for us all, will he not also give us all things with him? Who shall bring any charge against God's elect? It is God who justifies; who is to condemn? It is Christ Jesus, who died, yes, who was raised from the dead, who is at the right hand of God, who indeed intercedes for us? Who shall separate us from the love of God. Shall tribulation, or distress, or persecution, or famine, or nakedness, or peril, or sword? As it is written, 'For thy sake we are being killed all the day long; we are regarded as sheep to be slaughtered.' No, in all these things we are more than conquerors through him who loved us. For I am sure that neither death, nor life, nor angels, nor principalities, nor things present, nor things to come, nor powers, nor height, nor depth, nor anything else in all creation, will be able to separate us from the love of God in Christ Jesus our Lord." (Romans 8:28-39).

Chaplain, USN

This Week's News
at a glance

Five hydro-electric power plants in northeastern Korea received devastating air blows from 500 Navy, Marine, and Air Force planes this week. Major power sources for North Korean war industries, the plants were completely destroyed, according to pilots who flew in the bombing mission.

The heavy air strikes were part of the American "Get Tough" policy in Korea, resulting from Communist stalling and insincerity in the prolonged truce talks. This policy, according to reports, will permit UN aircraft to pursue Communist aircraft into Manchuria in the event the Reds start a major air offensive.

As the Korean hostilities enters its third year, the battle line remains essentially what it was one year ago. During the long, fruitless truce talk period, ground fighting has been limited to mostly patrol action. However, the Communist build-up of troops and equipment forebodes more full-scale fighting. The UN's ability to contain a Red drive has been a matter of controversial discussion in the press. In the event of another offensive, some observers forsee the use of the atomic bomb by allied forces.

* * *

While most American products behind the Iron Curtain are branded as "capitalistic decadence," the Russians have at least seen fit to exclude "Tarzan" films from that category. The adventures of the jungle man and his ape friends are currently going the rounds in Moscow cinemas, much to the delight of the Russian moviegoers. Tarzan's immunity to Communist verbal attacks is explained neatly by the Kremlin: Tarzan was abandoned in the jungle as an infant; there he grew up, unable to pick up capitalistic bad habits; therefore he is fit to be seen by Communist eyes.

* * *

With the steel strike still an unsettled issue, the nation is threatened with another walkout in one of its aircraft industries. A federal government appeal to avert a strike has not yet been answered by union leaders. The plants involved produce F-86 jet fighters and would strangle production for the Air Force in Korea.

The NORTH ISLANDER

Vol. VIII June 27, 1952 No. 26

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

TELEPHONE EXTENSION 1475. Call this number to report news.

Contributions of news, features, pictures and cartoons will be gladly considered, and material submitted will receive careful handling. However, the NORTH ISLANDER assumes no responsibility for the return of material contributed. The editors reserve the right to make such corrections, changes or deletions in submitted copy as they deem necessary in conforming with the policy of the paper and of the Navy.

Reserve Officers May Now Apply for Reg. Navy Rank

In a program begun by the Navy, a limited number of junior reserve officers will be integrated into the ranks of the regular Navy.

Naval Reserve officers and former enlisted men of the regular Navy holding temporary commissions will be eligible to apply if they possess "outstanding qualifications and sincere motivations for a Naval career."

Regular Navy commissions will be open to men and women line, medical, and supply officers in the grade of lieutenant (j.g.) and ensign. Male officers in the same grade may also apply for appointment in the Civil Engineer Corps.

Lieutenants, lieutenants (j.g.) and ensigns of the Nurse Corps Reserve may apply for commissions in the Nurse Corps.

Applicants, except for members of the Nurse Corps Reserve, must have received a bachelor's or higher degree from an accredited college or university. Nurse Corps candidates must have a high school diploma and be registered nurses in good standing.

All applications must be in prior to Sept. 15. A specific date has not yet been set for board meetings to select the candidates but naval officials are shooting for an early October date.

A local review board will personally interview each applicant. The boards will be established by the type and area commander, commandants of naval districts and river commands and the chief of Naval Air Training.

All applicants must have been serving continuously for a period of at least six months preceding Sept. 15. No applicant may have more than five years total commissioned service, active and inactive, by July 1.

Exchange Offers Khaki Uniforms at Reduced Prices

Khaki uniforms of gabardine and serge material are now being offered by the Navy Exchange store at reduced prices.

The uniforms, which include one pair of trousers, are marked down from $53, $46.25 and $44.50, to $39.50, plus a $1.50 tailoring charge. Tailored by leading uniform manufacturers from top quality materials, they are available only in the following sizes and quantity:

Size	Quantity	Size	Quantity
36 Long	2	44 Short	11
36 Short	2	44 Regular	3
37 Short	1	46 Short	4
37 Long	1	46 Regular	8
42 Regular	8	46 Long	1
43 Short	3	48 Short	8
43 Regular	4	48 Regular	11
		48 Long	9

GETTING DOWN TO THE GRIND is the only way to get that studying done for the coming E-4 exams and these third class hopefuls waste no time in doing just that. R. J. Winslow, DCC, of Fairbetupac, aids T. R. Myers, AMAN, in putting the nose to the old grindstone. Next up for the treatment are W. Andrews, YMSN, (sitting) and N. Siems, RMSN.

Seamen and Airmen Prepare For E-4 Exam Sked July 8

Approximately 620 men are expected to take the examination for advancement to pay grade E-4 Tuesday, July 8. All requirements in order to take these exams were to be turned in not later than June 1.

These Fleet-wide exams will be given under the guidance of the personnel from Information and Education in their spaces, building 317-A.

On June 20, approximately 130 men took the examination for advancement to pay grade E-3, which was given in the Infornation and Educatoin spaces. Out of the 130 men that took the examination, 91 passed and will be rated ofifcially July 1.

New Clothing Price List

$ .90	Aprons, Cooks' and Bakers'
3.90	Bags, Clothes (Seabags)
.35	Belts, Woven, Black, Khaki and and White
8.00	Blankets, Wool crew
.20	Brushes, Scrubbing, Clothes
.10	Buttons, Plastic anchor, large, Overcoat (Dozen)
.05	Buttons, Plastic anchor, small, Trouser (Dozen)
.10	Buttons, Plastic blue with fasteners, Dungaree (Dozen)
.15	Buttons, Plastic ivory, Mess Attendant (Dozen)
.40	Cap Covers, Khaki Twill
.10	Cap Ribbons
.25	Caps, Bakers' and Cooks'
2.10	Caps, Cloth, blue
.40	Caps, Garrison, Khaki twill
.80	Caps, Watch
.10	Chevrons, Petty Officers (All colors)
.15	Clothes Stops

5.40	Shoes, Leather, brown, low
.30	Socks, Cotton, Black, Khaki and White
.45	Socks, Woolen, Black and natural
.05	Thread, Cotton, White 3C
.05	Thread, Cotton, Black 4C-16
.70	Towels, Turkish, large
.40	Towels, Turkish, small
8.80	Trousers, Blue
1.70	Trousers, Dungaree
3.30	Trousers, Khaki
2.10	Trousers, White
1.60	Trunks, Swim, wool
.45	Undershirts, Cotton

*Price listed is price per stripe. Unit price for service stripes in sets will be price per stripe multiplied by number of stripes per set.

Four Islanders to Appear In Coronado Play July 10

"Suds in Your Eye," a three-act comedy by Jack Kirkland based on the famous Mary Lasswell novel, will be presented by the Coronado Players as the second big attraction of their 1952 summer season, according to Phil Magee, director of the production.

Three Naval Air Station enlisted men and one civilian woman employee will be featured with the cast of 23. French A. Tickner, presently attached to the NAS Transportation Department, will portray the Chief Petty Officer, Danny Wilson, and Ken Sansom, assigned to the NAS Special Services Division, will play Hansen, a detective.

Lucille Neal Parsons, employee at the NAS Family Hospital and well known for many years in local theatrical circles, will share star billing as Mrs. Rasmussen. Robert Jackson, of the NAS Public Information Office, will be seen as Fitzgerald, the tax collector.

"Suds in Your Eye," brought back to the Coronado Playhouse by popular demand for its third run, is the delightful comedy which has San Diego as its setting. The entire play takes place in a local junk yard operated by the lovable, but not too intelligent Mrs. Feeley. During the course of the plot, she is joined by two ladies in the junk business, one a fugitive from her dominating daughter and the other a distinguished lady of a cultural background with no place to go. Troubles with taxes, a love which has difficulty blossoming, and amusing entanglements with friends and neighbors combine to make "Suds" one of the great successes in the Coronado Playhouse repertoire.

CPO Club Has Dance Friday

More than 200 Naval Air Station Chief Petty Officers and their guests were in attendance at the monthly CPO Club Dance held last Friday night, July 20.

Music for the occasion, which began at 2030 and lasted until 0130, was furnished by an orchestra under the direction of G. F. Swett, MUC.

The next CPO dance slated for Naval Air Chiefs and their guests will take place July 18, according to J. J. Jelinski, MMLC, manager of the club. All CPO's on this station are cordially invited to attend with guests.

AFGE Meets July 8

The American Federation of Government Employees (AF of L) meets Tuesday, July 8, at 1930, at Carpenters' Hall, 23rd and Broadway, San Diego. All civilian employees are welcome.

NSLI Holders Are Warned On Waiver and Allotment

If you have permanent plan National Service Life Insurance and, under Public Law 23, chose to waive the "pure insurance risk" portion of the premium, then you should have:

1. Filled out a waiver form.
2. Made no change in your Class N allotment.

The Services have uncovered evidence that men with permanent plan NSLI insurance have waived a portion of their premium but, through misinterpretation, also discontinued their Class N allotment. This would cause the policy to lapse and result in the loss of cash value of the policy and require a large cash outlay for reinstatement and a physical examination.

If the Class N allotment is discontinued, the permanent policy will lapse when the cash surrender value of the policy, as automatically applied to extended NSLI term insurance, is dissipated. Then the serviceman has lost his NSLI coverage and goes under the gratuitous indemnity insurance.

If the Class N allotment is continued, the VA will reimburse the policy holder with interest each year for the money paid on the waived portion. Plans are currently underway to outline all procedures whereby those affected will be able to reestablish their Class N allotments.

NIA Board Will Hold Meeting on July 2

Regular monthly Board of Directors' meeting of the North Island Association will be held Wednesday, July 2, at Henry Langhorst's cafe, 2110 Belt St., San Diego. Meeting will commence with dinner at 1830, each member or guest paying his own check.

Reports will concern current legislation, social security plans, retirement, and group insurance. Those other than board members desiring to attend are asked to contact Kirby Vaughan, ext. 1112.

Blood Donors Needed July 10

Blood donations are urgently needed for the coming July 10 Blood Donor Day at the San Diego Blood Bank, 4227 Park Blvd. Donations will be accepted for the NAS civilian account from 1030 until 1600.

As of Monday, June 23, NAS had only 18 credits remaining in its blood bank account. This is less than 20 per cent of the normal desirable strength of the account.

GEORGE SPEAKE, lecturer and representative of the Moody Institute of Science, was guest speaker of the Fasron 691 weekly Bible class during his four-day visit aboard this station recently. Mr. Speake is shown with the class above during his lecture to the class which meets each Wednesday at 1200 in Hangar 40.

COLUMN RIGHT

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

Q. Must employees who return from military duty, serve the 90-day qualifying period before they are entitled to accrue leave?

A. Employees who have statutory restoration rights after military service are considered as having been on leave of absence from their civilian positions; therefore employees who have such rights are entitled to accrue annual leave immediately upon reemployment. If employees leave temporary or indefinite positions to enter military service, there is no legal authority to consider them as having been on leave of absence while performing military duty; accordingly the instructions in NCPI 105.3-1 are for application upon their reemployment in civilian positions.

Q. In view of the provision of NCPI 105.2-7, must leave reduction for wage board employees be made when absence in nonpay status totals 40 hours?

A. Yes. In this connection, attention is invited to NCPI 105.2-9 concerning leave accrual on a weekly basis for employees who have weekly pay periods.

Q. Since leave accrues on the basis of a full pay period, and since a pay period ends on Saturday, is an employee entitled to accrue leave for the pay period if he resigns close of business on Friday?

A. Under Section 205(b) of the subject Act, a person is entitled to accrue leave for the pay period if he has been employed during the days within the period, exclusive of holidays and all non-work days.

Q. If an employee is separated after his last complete pay period within a calendar year, but prior to the end of a calendar year, is he entitled to a lump sum payment for annual leave in excess of 60 days!

A. The employee is not entitled to payment for leave in excess of 60 days unless such excess was earned under the conditions stated in NCPI 105.3-4.

Q. Should nonpay status be considered for the purpose of reducing leave credits in the case of an employee who was suspended for three days, but who was later paid under Public Law 623, 80th Congress?

A. No. The fact that the employee was given back-pay under Public Law 623 indicates that he was erroneously suspended for the three days in question.

Q. May the nonpay status of an employee during the first 90 days of employment be converted to annual leave after the 90-day qualifying period has been served?

A. It is discretionary with activities as to whether nonpay status during the 90-day qualifying period be converted to annual leave upon completion of such period, or remain charged as leave without pay.

PACE SETTER—Leading the Navy Relief Carnival campaign for donations in the Supply & Fiscal Dept. is Johnny Allen of Issue Control Section. As a result of Allen's personal efforts over 150 S&F employees now hold NR Carnival receipts, giving them opportunities for the six sleek 1952 Mercurys. Allen (right), shown with W. Kirby Vaughan, Navy Relief Carnival Chairman, receives more receipt books bringing him closed to his 500-receipt goal.

Commissary Hits 200 Percent Mark

NAS Commissary Div. reached beyond the 200 percent mark on the Navy Relief Carnival race this week. Since the graph below is not large enough to record any future strides of this bustling division, its weekly contribution to the Carnival drive is being totaled with the Supply & Fiscal Dept. score. Most of the horses in the big race remained in the same position this week but moved on farther down the track. The Transportation Dept. horse, however, surged from tenth spot to fifth. Remember, the race doesn't end until Carnival time, so give your department a boost and yourself an opportunity for one of the six 1952 Mercurys.

powerplant paragraphs

By B. Dreher

H. W. "BONES" JONES and his little daughter became KING and PRINCESS of the Power Plant Division by popular vote at the annual picnic held Saturday, June 21st, at El Monte Park. This year AL O'BLENESS was winner of the loud-shirt contest. This was by default, claims MORTENSON, who won last year but wasn't able to be there to give AL any competition this time. At least four people went home happier as winners of the door prizes—a radio, electric clock, electric mixer and coffee maker. Everyone reported this was the best picnic ever with lots of good food and entertainment.

* * *

Noma Taylor was pleasantly surprised with a birthday party by her fellow Carburetor Shop workers during the noon hour last Thursday. They sure had lots of good food—that's for sure.

* * *

Fish Stories:

C. H. Marr, Shop 6202-3, is going to leave for the month of July and expects to catch Albacore by the ton. **Joe Herrin**, 6222, **Ken Winship**, Shop 6203 and **Deatherage** of 6222 are going out after the big ones this Saturday. While on leave, **Winship** did some creditable fishing and is getting that frozen food locker all stocked. **Jack Amaral**, Shop 6237, won't be fishing this year as he is remodeling his boat. At present it is sawed approximately in half.

* * *

Grace Howell of the Paint Shop resigned last week and will be raising cattle in Montezuma Valley from now on.

* * *

Carl Maxwell of Production Control is missing this week due to a fall he took at home. We hope he'll be able to make it back to work next week.

* * *

Some familiar faces are missing lately—**Marguerite Bell** of Spark Plugs resigned to stay home with her family; **R. L. Goodsell** enlisted in the Air Corps; and **W. L. Davis** resigned and will be in the garage business in Santee henceforth. Guess **C. D. Minshew** got tired of driving from Solano Beach after so many years, so he left last Friday and will have a job nearer home from now on.

* * *

Word has been received from **Flora Holbrook** that she is enjoying her vacation very much—she reports lots of snow in **King Canyon National Park** and lots of water and beautiful scenery in **Yosemite.**

* * *

Kenneth Winship, a member of North Island's Toastmaster's, wound up in a tie for the cup as best speaker of the evening last Monday, June 23.

Valley Forge Returns

(Continued from Page 1)

she immediately embarked a new air group and five days later again sailed for the Far East, Re-enforcements were badly needed in the Korean area.

On completion of her second tour, April 7, 1951, the VALLEY FORGE served as a training carrier to qualify pilots in the proficiency of carried operations until sailing on her third cruise October 15, 1951.

Commanding the VALLEY FORGE is CAPT Oscar Pederson. His executive officer is CDR Charles Blennan Jr.

The VALLEY FORGE flies the flag of RADM John Perry, Commander Carrier Division 5 and formed Commander, Task Force 77.

* * *

Mildred Watson has returned from a three weeks' visit in Cleveland, Ohio.

* * *

Georgia Jungers and her family spent a two-weeks' vacation in Texas.

movie menu

SATURDAY, June 28—TOO YOUNG TO KISS is an MGM picture starring June Allyson and Van Johnson. Although she is a talented pianist, June Allyson is unsuccessful in efforts to gain an interview with Van Johnson, a concert manager. Despite the pleas of Reporter Gig Young that she give up her career and marry him, June poses as a pigtailed 14-year-old, enters Johnson's auditions for children, and here is where the complications really begin.
SHORT: "Picturesque New Zealand."
Running time, 1 hour and 46 minutes.

SUNDAY and MONDAY, June 29 and 30—PANDORA AND THE FLYING DUTCHMAN starring James Mason and Ava Gaardner is an MGM production. The Spanish Mediterranean coast is the temporary home of a colony of foreigners, prominent among whom are an archaeoloist and a beagutiful but unhappy American girl, played by Ava Gardner. This compelling story is a love affair teaming Ava Gardner and James Mason for the first time.
SHORT: "Cat Napping."
Running time, 1 hour and 48 minutes.

TUESDAY and WEDNESDAY, July 1 and 2—CAPTIVE CITY starring Joan Carndon and John Forsythe.
SHORT: "Dog Snatcher."
Running time, 1 hour and 45 minutes.

THURSDAY and FRIDAY, July 3 and 4—SHE'S WORKING HER WAY THROUGH COLLEGE starring Virginia Mayo, Ronald Reagan and Gene Nelson is a Warner Bros. production. Virginia Mayo portrays the part of a burlesque star with ambitions to become a famous writer. She decides that she needs a college education in order to be successful, so she enrolls at Midwest State, where her former high school teacher, Ronald Reagan, is a professor. Before reaching the campus, Virginia meets Roland Winters, who makes a play for her, leaves a mink coat in her possession and hides the fact that he is chairman of the college's board of trustees.
SHORT: "Beep-Beep."
Running time, 1 hour and 55 minutes.

Meet Your Committee Members

"Whatever they do, we can do better!" That seems to be the motto of both Metal Branch and Machine Branch, of the Metal and Machine Division, O&R. Friendly rivalry and a competitive spirit among employees of these two closely linked groups help to give shop and welfare committee members a busy time. Each branch has its own committees, those of Machine Branch being pictured here (Metal Branch will appear next week). Above (left to right): shop committeemen C. C. Perry, machinist; J. A. Eidsmoe, aircraft mechanic; and E. J. Loss, tool and die maker, discuss a current problem. Perry is the only second year shop committeeman of the group. Loss is chairman. Below (left to right): welfare and recreation committeemen W. C. Trammel, helper machinist; Tony German (chairman) machinist; and John J. Allison, snapper-toolmaker, discuss award pins held by Trammel.

TWO MEN ARE SHOWN the proper way to prepare bedding for the night at Fasron 7's land survival base camp near Warner Springs.

'Roughing It'

(Continued from Page 1)

being spent on the bank of a creek which leads the group back to base camp. This affords them the fourth and final type of topography which might confront them.

Friday morning, the tired but much better prepared group arrive at base camp and prepare for the ride, for a change, back to NAS and beds not under the stars.

This training has been highly praised by crewmen who have made use of the training and instruction they received from this invaluable experience.

Generally Helpful

LCDR C. E. Cox, Officer in Charge of the Land Survival Field Base Camp phase of the Survival Training Unit's course of instruction, points out that this training is not only vitally important and necessary for plane crews, but is also of great value to all persons who enjoy outings in forests and who often make camping trips.

The Survival Training Unit, under the supervision of NAS-based FASRon 7, is a fleet activity. LCDR C. E. Bishop and LCDR T. G. Cooper are officers in charge. The actual camping phase was incorporated into the course of study about six months ago. Men interested in participating in the outing may get further information by calling LCDR Cox, Ext. 1303.

A PARATEEPEE, a "pup-tent" type, and a regular outing-type tent, and other types of shelters are shown as they are set up at the base camp.

ROD 'N REEL ramblings

by George Baker

Whenever a new column evolves into print in the North Islander, a note of explanation seems necessary to show why the column itself is necessary. Well, sometimes it isn't—like this one for instance.

The unique quality of this column will be the very fact that it isn't particularly necessary to the survival of the paper, or to the future plans of the Navy. It will be trended toward recreation. It will be about fishing, and hunting.

The State Fish and Game Commission has announced a special drawing July 19, at Escondido, at a place to be designated later, for permits (at one buck apiece) to hunt deer in the Palomar area and other areas to be designated. There will be 500 of these permits, on a first come, first served basis. Applicants must possess valid 1952 hunting licenses and deer tags to be eligible for the drawing.

They tell us that deep sea fishing was sort of spotty over the last weekend. There was some variety in the catch, but that prize, the yellowtail, was pretty elusive. Ten were reported caught off the Coronado Islands and close to Ensenada.

The newly organized Federal Employees' Rod and Reel Club, which met June 19, has appointed a committee to attempt to negotiate some sort of agreement with the La Jolla Indians of the Palomar region, whereby trout fishermen may more fully utilize the San Luis Rey River where it passes through the lands of these Indians. At present, individuals must pay for the privilege of fishing on the reservation, usually paying each time they visit the area. More on this in a future issue. Next FERRC meeting, open to all government employees, will be July 17, at FAVA Hall, 2926 Market Street, San Diego. Both military and civil service personnel are invited.

We hear that lake fishing in the Sierras is very good now. Streams are still quite high, and in most cases, it is impossible to do much fishing along them, as it is difficult to control a line in the water. Results of the heavy melting of the winter's big snow crop will probably be apparent for weeks to come, has retarded stream stocking and other activities.

Those people you see fishing along the edge of Mission Bay, near Highway 101, are really catching them. Bass, that is.

Lake Almanor fishing, in the upper Feather River country, is mostly devoted to trolling for rainbow and German brown trout at present. Reports reach us that conditions there haven't been consistently good this spring. Two weeks of good fishing the first of the month have been followed by a bad period.

Up Black Canyon way, above Ramona, they are catching quite a few small rainbow trout, several North Island employees having brought home the limit recently.

Any of you hunters, or fishermen, or guys who want to be either of the above, want to get into the act? Send in your dope for this column to ROD & RIFLE RAMBLINGS, c/o North Islander, Bldg. 8.

See you when we have accumulated enough items for another column.

Three Comairpac CPO's Get LDO Ensign Status

Three Chief Petty Officers on the staff of Commander Air Force, Pacific Fleet, NAS, San Diego, were among the 13 men in the Navy to be commissioned as Limited Duty Officers in the aviation engineering branch. They will be commissioned in the rank of Ensign.

All three men presently serve with the Material Division of AirPac. They are: Leo L. Hamilton, chief aviation structural mechanic; Fred M. Mhoon, chief aviation machinist's mate, and "J" Wallace Mitchell, chief aviation machinist's mate.

THE DESERT IS NO BOTHER when proper precautions are taken. The STU instructions include desert protection training as well as instructions in protective measures for all climates.

S&F Material, O&R Engineering Plan Division Picnics

On Saturday, June 28, the annual S&F Material Branch picnic will be held at Felicita Park, near Escondido. Etertainment is being planned for both the children and the adults. Children under 12 will be admitted free.

The games for the kids will be such as water-filled balloon battles, peanut races, baseball and many other games and contests. For the adults there will be square dancing, baseball and other activities.

For both the adults and youngsters, barbecued ham and quantities of other food and refreshments will be on hand.

O&R's Engineering, Planning, Administration and Industrial Management divisions have scheduled their annual picnic for Saturday, July 26, at Felicita Park. The picnic will start at 1100 and continue until 1800 of the same day.

Contests and games will be on hand but as yet it is not known just what types of games and contests will be offered. Prizes will be presented to the winners of certain contests.

The menu will consist of hot dogs, ice cream, beverages and many other picnic specialties.

Picnics Take Spotlight In Div. Entertainment

The staff and training unit of Fleet Air Wing 14 held their annual picnic at Felicita Park near Escondido this past Saturday, June 21. Approximately 100 of the personnel on the staff and training unit of FAW 14 and their families attended.

Games and contests were played by both the adults and the children. In the adult games played, Mrs. Hayes won the ladies rolling pin throwing contest and her prize was a large lazy suzan dish. Mr. and Mrs. Adams took a little brown jug for winning the egg throwing contest. A set of swimming fins were won by Mr. Ball in reward for winning the men's sack race. Mr. Karschner won the 50-yard dash foot race and was presented a swimming mask as his prize. The game which made the biggest hit with the children was the one which consisted of looking for hidden coins in a haystack.

The menu included cold cuts, potato salad, beans, olives, pickles and beverages.

Flynn Springs, near El Cajon, was the scene of the FASRon 110 picnic with approximately 500 of the personnel of the squadron and their families and guests attending. The picnic began at 1000 and lasted until 1800.

Numerous games and contests were held, such as boys and girls foot races, a haystack penny hunt, girls and boys mixed shoe races and many other games for children. Every child present went home with at least one or more prizes. On the adult side of the picnic activities, there were games and contests including the women's and mens' mixed shoe race, a rolling pin throwing contest, and an egg throwing contest. Numerous door prizes were also given away, some of them being electric razors.

About 1,000 hamburgers and approximately 800 hot dogs were served, along with everything else that is usually found at a picnic.

Navy Employment Office Moves

Effective Tuesday, July 1, the Board of Civil Service Examiners (Navy Employment Office) will move from its present location to 1215 South 7th Ave. (Fox Theatre building).

It is desired that employees inform friends and relatives who may be interested in Navy Civil Service employment of this address change of the Navy Employment Office.

Information regarding opportunities in Navy employment at this station may also be obtained from the Employment Div. of the Industrial Relations Dept., ext. 1129.

Important information for Civilian Personnell . . . see COLUMN RIGHT, Page 3.

SHAPELY Carol Beigbee proves that you don't have to go to Hollywood to get an eye-appealing pinup picture. The 16-year-old beauty is a local high school girl and, speaking figuratively, must be at the top of her class.

Budget Approved

(Continued from Page 1)

fice expense, picnics and parties (at 40c per employee, 40 per cent of the expense of the North Islander newspaper, and cost of utilities.

Largest single amount budgeted is the $8,200.00 estimated at $683 a month, for the North Islander.

Only substantial change from the proposed budget originally submitted by the Station CW & R Committee, was the deletion by the Council of one sports activity which, as proposed, was open only to participants from one department on the station. It was announced that in the future, no funds, with the exception of picnic and party funds, will be approved for sole use by an individual department or division. All budgeted activities are open to participation from all civilian employees on the station.

IRD Employee's Son Assigned to Academy

Mrs. Isabel K. Smith, of IRD, and president of the North Island Association, has received word that her son, Con D. Silard, PFC, USMC, has received orders to go to the U. S. Naval Academy, Annapolis. He recently completed Navy prep school at Bainbridge, Maryland, and goes into the Academy under a presidential appointment.

Flower Show Today

There will be a bigger and better than ever flower show at Transportation Department, Bldg. 314 this morning. If you are down that way, drop in and see the prize June blooms. The monthly show is hitting a peak as warmer growing weather follows the heavy early rains.

WHAT'S THE CATCH?

M. V. SUMRALL, AOC, of Fasron 691, came up with the catch of the year—so far, that is—when he battled and landed the largest Yellowtail to be caught from North Island boats this year. Chief Sumrall won a Martin "75" outboard motor from the San Diego Junior Chamber of Commerce, and a rod, reel, and 250 yards of line from the NAS Navy Exchange for landing the 40-pound, 10-ounce beauty. The fish was taken from the "Shipmate" while fishing the La Jolla cove area.

Legg Wins NACRA Handicap Tourney

Glenn Legg, veteran NACRA competitor, was winner of the club's annual 36-hole Handicap Chairman's trophy tournament Saturday, at Municipal Golf Course, taking a playoff round from Ted Nitsche 3-up, with a gross 79, handicap 14, net 65. Nitsche trailed with an 87-19-68.

Regular tourney session, which started at Rancho Santa Fe links June 7, and ended at Muni June 14, was played in A and B flights. A flight was won by J. G. Duvall, with Ken Hedlund second. B flight was topped by Ted Nitsche, with Gerald Bunn runner up.

Next event on the NACRA schedule will be the annual Secretary's trophy tournament, with 18 holes each on August 2, and August 9. First rounds will be played at Rancho Santa Fe, and second rounds will be at La Jolla. For additional information, call ext. 1649, Ken Hedlund.

Distr. by United Feature Syndicate, Inc.

Burt Smith, Skyraider Southpaw, Pitches Wins Over El Toro, MCRD

The Naval Air Skyraiders continued to show startling improvement in defeating two highly regarded Marine teams. Friday, June 20, they humbled the El Toro "Flying Bulls 3-0, on a "big league" three hitter by Burt Smith, and Monday, June 23, they mangled the usually tough MCRD "9" 8-4 behind the efforts of the same Burt Smith.

The El Toro fracus was in Smith's hip pocket from the first pitch. After being sidelined with a collar bone injury for more than a month, he had the situation under the control of his fast breaking curve. He not only allowed only three hits, but he struck out 12 Marine batters in the finest nine inning pitching performance for the 'Raiders this year.

The flyers were coasting along with a one run lead until the sixth inning, when with Tom Futch on, Coach Harry Speed met one of the opposing pitcher's fast balls and drove out a four-bagger to sew up the game.

In the Monday game, the Skyraiders didn't have such an easy time. The Marines from MCRD were coasting along with a 3-0 lead going into the sixth inning, then on hits by Blackston, Heller and Kerr, the 'Raiders pulled up even, only to have the Marines score again in the top of the seventh and taek a 4-3 lead.

The Airmen's situation looked dim with them having only four hits and having committed five errors up to the bottom of the eighth. Then the Naval Air team went wild. In the bottom of the eighth, Tom Weaver led off with a triple, and was followed by a single by Dick Kerr. This hitting

(Continued on Page 8)

Footballers Start Practice, to Meet LA Rams in Six Weeks

Coach Dean Johnson's Naval Air Skyraiders will face the acid test of colliding with the World Champion Los Angeles Rams in just six weeks. The fact that Coach Dean Johnson, who arrived aboard recently, has never seen his team suited up, and first call to practice will be Monday afternoon, adds to the interest of the suddenly developing situation.

Aside from tossing themselves into the arena with the professional world titlists after only six weeks of workout under the new mentor, and with no preceding practice game in sight, the Skyraiders have little or nothing to worry about . . .

They have nothing to worry about, that is, unless succeeding battles with Brigham Young University, U of California Ramblers, NTC, Fort Ord Army, MCRD, Brooke Medical Center (interservice champs), PhibPac, and Missouri Valley College, may inspire a mental roadblock or so.

Team With Bluejackets

Althogether, the ambitious slate which commences with sharing the gridiron with Naval Training Center against the rampaging Rams August 8 at Balboa Stadium, should provide plenty for Coach Johnson and his charges to shoot at. The curtain raiser against the professionals will see the 'Raiders taking the field in the first half, and the NTC Bluejackets holding down the second session, in regulation 15 minute quarters. Last year, at the same stadium, the Rams battered with ease through the defenses of Camp Pendleton, NTC, and the Marine Recruit Depot in a three-period brawl. The Navy-Marine forces looked a bit on the inadequate side that night, but as succeeding weeks rolled on, and so did the Rams, against the roughest of professional competition, service football stock went back up.

This year's meeting of the Rams and the Skyraider-Bluejacket combine should be most interesting. Both service clubs are "loaded" with gems from last season's lineups. Experienced hands, with honorary "All-Navy" ratings, point to the increased power of the two veteran outfits.

The Skyraiders, who started out the 1951 season as a mighty green and rough-hewn contingent, were molded into a smooth-operating, rip-roaring, jet-powered piece of football machinery by head coach Stan Williamson, '51 Navy Coach of the Year. By their last contest of the regular season, in which they mauled a rough, but surprisingly futile Submarine Force eleven, the Navy Airmen were at a peak of power, probably unsurpassed by any service club anywhere on the West Coast. When they went east to trip the Pensacola Goalings for the National Naval Aviation championship in a post-season meeting, the 'Raiders were supreme.

Eighteen First Stringers Back

Returning Skyraiders include 18 of last year's first string gridiron giants, based on the offensive-defensive first team combinations. Returning Bluejackets are reported to represent just about the same happy situation of hard and lean veteran ball players.

Lots of plain and fancy football should be on tap for August 8, and pessimists who go to the game looking for another race-horse 52-2 win for the Rams, may be startled by a pretty stubborn show of Navy resistance. The 'Raiders aren't professional and they aren't exactly world's champions. But they should be tough to run through, even for the Rame.

corner on sports

By GEORGE BERGMAN

CHMACH Walter Axcell is leaving Monday, transferring to a jolt of sea duty aboard the USS MONTEREY. He will be replaced in his present assignment as barracks officer in a rountine manner. But nobody will be able to replace some of the Axcell characteristics that we have known over the 16 years of our acquaintance with him.

Folks have been prone to make with the old "long time no sea" quip concerning out good natured golf playing friend. For "Ax" has been on the station since 1947. Most of that was sea duty, with FASRon 7 and FAIRBETUPac. During that time, he served as assistant football coach, head football coach, golf coach, one of the station's top varsity golfers, and has been just about number one sports fan for practically all teams ebaring the Flier, Raider, AirPac, and Skyraider labels.

But he put in lots of sea duty of the salt water variety, plenty of it during World War II. That's where we first knew him . . . on sea duty long before the war, on the USS CALIFORNIA. In those days he was quite a football player of renown about the battleship fleet. With his big brother, Marshall, he was known as part of the combination of Big and Little Axcell, that helped make the wheels of the Prunebarge football machine roll. He opened the holes in the line and Marshall went through.

While coaching football here on North Island, Axcell turned in a remarkable record considering the adversity which he faced. His 1950 era of Naval Air football marked a "depression" of material as personnel. What manpower there was left after Naval Aviation was rushed into the newly developed Korean conflict, went to the AirPac eleven, which also operated from North Island that year. The fact that his Fliers held together and did win one game, during Naval Air's breakest gridiron year, is a credit to his work as a one-man coaching staff with scarcely more than 25 men on his squad most of the season.

Axcell will wince when he reads this mention of the famous 100 to 0 walloping his Fliers received from Marine Corps Recruit Depot's 1950 powerhouse. It set a new record in reverse for North Island football. But we mention it only to point out that only a loyal team and a tough, veteran coach, could come back so magnificently through later games, to put on a show of football with a stubborn, determined defense.

So long, Ax. We hope we will be shipmates again some day.

Janke Jars Them

A few seasons ago, Pete Janke was a green but willing boxer pupil of Hank Leyba and John Goudy, taking a try for a shot at the Naval Air boxing team as a middleweight. He rose rapidly, won Golden Gloves and 11th Naval District championships, narrowly missed the All-Navy show due principally to the presence of that perennial Navy middleweight decision over the All-Navy defending champ, Williams, during his successful 1950 'gloves campaign, losing to the Assassin in a return battle later.

Now Janke is a civilian, and looks like he is on the way up, as a professional middleweight. After seven punch-and-pay scraps, he's gaining lots of momentum at Hollywood Legion Stadium, has not been defeated to date. His career may become something for his old North Island fans to follow closely. Janke apparently still has it in both fists.

One More Good-Bye

From the looks of this column, there's nobody much left around here. 'Taint necessarily so, as the song goes. But we do want to toss a belated farewell to Rapid Robert Laible, who has ably handled the old Corner on Sports for us through the past five months. He's headed for civilian life in the cold, cruel wilds of Los Angeles. A versatile writer, he should go places as a sports writer and publicist on the outside.

Raider Softballers - NAS Waves In Navy Field Double-Header

The Naval Air Skyraiders' softball team will participate in a gigantic double-header to be held at Navy Field on July 1. The 'Raiders will meet the Amateur Softball Association's first place team, the El Cajon Cowboys in the finale, while the NAS Waves host the San Diego "Big Shots" girls' softball team in the opener.

The Airmen, who stand third in the ASA League, have shown great improvement while playing the fine commercial teams in that league, and now seem able to hold their own against any softball team in the San Diego area.

The Waves will be indoctrinated for the first time into the bracket of first-class girl's softball when they run into the "Big Shots," one of the top feminine teams in the area.

The between-game entertainment will be furnished by the Western song and TV star, Smokey Rogers. Smokey, the sponsor of the "Cowboys," in addition to providing musical entertainment of his own, will bring his trick horse for an exhibition.

Raiders Top 11ND League

In the Eleventh Naval District Major Softball League, the softballers are making their bid to run away with the number one prize. At the present, they are two full games on top, and show no signs of letting up now. Monday, they hosted Miramar here, and the final score was a lopsided 17-1. The star of the game, from a batting standpoint, was "Hap" Ivy who batted out two round-trippers, a triple, and a single. He was responsible for the driving in of 11 of the 17 Skyraider runs. Ivy, who is from Fasron 691, was a member of the All-Navy baseball team in 1949. The winning pitcher was Adolph Mason, also from Fasron 691.

In the only ASA game played last week, the Navy Skyraiders smashed the Austin Plumbers Monday, the 16th, by a score of 3-1. Harold Johnson of FAW-14 was the big man with the wood, while the winning pitcher was John Huffman of Fasron 110.

The next home game of the Skyraiders will be played Monday night at the Mainside diamond. The Naval Training Center Bluejackets will be the visiting team, and will play the rampaging 'Raiders in a 7 inning game.

FAW-14 Tops Fas 110 In Intra-Mural Final

They say that lightning never strikes twice in the same spot, but you can't prove it to FASRon 110.

For the second time in a single week, Bobby Ramsey pitched FAW-14 to a 1 to 0 decision over FASRon 110 and the second time it brought the FAD North Island Intermural champions to the Wing.

Last Friday Ramsey spun a no hitter at the major league champions to know them in a loser's bracket of the three-time double-elimination playoffs. That in itself was enough to set the Island buzzing with the possibilities of a minor league team winning the final playoffs.

Some thought it was a fluke . . . that Ramsey had caught the powerful 110ers on an off day. But that was squelched Wednesday afternoon at Murray Field.

Once again Ramsey was the master, and to add insult to injury his single in the sixth inning drove in the winning run.

Ramsey didn't pitch another no hitter at the FASRons, but he did limit them to three harmless singles, two of the bunt variety. His only anxious moment was in the final frame when FASRon catcher "Killer" Kane opened with a single to deep short and advanced on a sacrifice. But Jim Smith flied to center and Kain, trying to advance after the catch, was cut down by a perfect peg from center fielder A. Culp.

"But I thought YOU were OD!"

naga news

The Monthly Ace Golf Tournament is to be held at the Mission Valley course between the dates of July 2 and 9.

All are welcome to compete, however, only NAGA members will be eligible to win prizes.

REAM Border Lines
ALF REAM SAN YSIDRO, CALIFORNIA

3rd Sports Quarter Opens, VU-3 Enters 4 Sports Activities

With the third sports quarter of the year about to begin July first, and running till the end of September, VU-3 is eagerly looking forward to entering teams in swimming, touch football, pistol matches and the second half of the softball season.

Softball and pistol matches will begin competition July 1, while football and swimming will start July 7, with the swimming teams meeting at the Navy Field swimming pool.

All VU-3 men interested in participating in the above four sports should immediately sign up at the Welfare and Recreation Office and have the drone squadron continue to show up well for the coming sports quarter.

LCDR Knight Is New HS-2 Exec Officer

LCDR Knight will relieve CDR William Knapp as Executive Officer of HS-2. LCDR Knight comes to the Squadron from Oppama, Japan, where he was Officer-in-Charge of Detachment One, Helicopter Utility Squadron 1.

CDR Knapp, when relieved of his present duties, will commission Helicopter Anti-Submarine Squadron Four (HS-4) on June 30, at ALF Ream Field, and will be its Commanding Officer.

VU-3K Picnickers Invade Silver Strand Wednesday

By A. MARKS

Sunny skies and gentle breezes greeted Utility Squadron 3, as they held a squadron beach party, last Wednesday on the Silver Strand near Coronado.

Under the guidance of Salvatore Di Donato, ADC, and the recreation committee, the squadron was treated to a days' outing which included food, merriment, and athletics.

As such as there were hamburgers and hot dogs, there was also a softball game, featuring those aces of the diamond, Keith Deibler, "Tarheel" Eldridge, Foy Samples, Ed Cross, Olen Marconett, and Bill English, plus many more aspiring big leaguers.

Those who enjoyed the relaxation of just the beach and swimming included Harold Anspaugh, Don Wilde, Harlan "Lifeguard" Price, Herbie Thomson, Don Cheverette, Art Marks, and Johnny Woolf, just to mention a few.

Then there were those who went in for torrid competition. Transito Lopez, Earl Staege, Leonard Johnson, and Milton "Spike" Meyers fought it out for volleyball honors.

LCDR T. R. Wheatley, LTJG R. E. Odgers, ENS J. E. Hudson, ENS D. D. Dexter and LT W. C. Snellman, who was acclaimed pull-up champion of the group, were others who enjoyed eating, playing softball, and the many other activities.

As the party came to an end, the exhausted squadron, complete with sunburns, bruises, and enough food and refreshments to last them a month, wearily retreated to Ream Field, eagerly asking, "when's the next party?"

VU-3 Men Ready For July Exams

Men from Utility Squadron 3, advancement in pay grade conscious, will be looking forward with anticipation to the first, second, and third class examinations in July.

Approximately 125 men from VU-3 will take the third class test July 8 under the supervision of HU-1. Forty-five are to take the second class examination July 15 under the supervision of LT H. R. Hunzeker, Ens. J. E. Dudson, and LT F. E. Truesdale, all of VU-3. Sixteen men will take the first class tests with HS-2 handling the examinations.

To many men, it is later than they think, with these examinations just around the corner. For those that will be eligible for advancement in January, training courses should be taken, not only to help the individual, but to help the Education and Information Office help many VU-3 men pass their exams.

Shown above is part of the FAD Ream Survival exhibit now on display at Building 64.

JOHN KELLY, aviation machinist mate first class, is shown preparing chow for hungry VU-3 crew at recent squadron party.

Captain's Cup Lowdown

By LEON COX

G.C.A. dropped out of the undefeated ranks earlier in the week, by dropping a close one to Assembly by a score of 4-3. This was possibly the most thrilling game of the year, with many excellent plays on both sides, the final and winning run coming in on a wild pitch as time was running out.

The Special Services division emerged from the past week's play undisputed leaders in the second half of the Captain's Cup softball race by downing Electronics division by a score of 8-3.

Although the boys from Electronics went into an early 1-0 lead in the first inning, the Special Services team was able to tie it up and go ahead in the next inning and were never threatened again.

A win for C.G. over Special Services would throw the race into a three-way deadlock, so the pressure will be on in this game.

STANDINGS:

HU-1 Firsts

Helicopter Squadron 1 has a number of "firsts" since the beginning of the Korean war which have contributed to its enviable record. Among them: the first helicopter in the Korean Theatre, the first rescue of a downed pilot by helicopter, participation in the first night rescue performed by a helicopter, the first use of a helicopter for spotting and direction of Naval gunfire, and the first use of a helicopter for the spotting, cutting and destruction of enemy mines in history. The records show numerous more "firsts" for the Squadron since its commissioning in April, 1948, but these are by far its proudest.

Skyraider Burt Smith

(Continued from Page 7)

splurge, coupled by three MCRD errors, totaled up to five runs and the home team, and the game was over except for the formality of retiring MCRD 1-2-3 in the top of the ninth.

Burt Smith, the winning pitcher in both games, that's two in four days, gave up a total of only four runs in the combined 18 innings. In addition to that, Burt struck out 19 batters in the 18 innings.

HS-2 Takes VU-3 Nine in Upset

After an unsuccessful season of four wins and ten losses in the first half of the current softball season, the softball team of Helicopter Anti-Submarine Squadron 2 have reorganized and come up with a team which will be hard to beat.

On Tuesday, 16 June, at Buchi Field in a post-season game, the HS-2 team handed the augmented team of VU-3 the most surprising defeat of the year. VU-3, who was just recently acclaimed Ream Field Inter-Squadron Champion, were defeated 7 to 6 by the Giant Killers.

Sparked by the superior all-around playing of Frank Hess, second baseman, and a home run in the third inning by Tony Donatelli with the bases loaded were the deciding factors in the outcome of the game. Chief Boyle, the new mentor of the Giant Killers, promises keen competition for the opposing teams in the last half of the season play-offs.

Supervisors to Have Meeting on July 9

National Association of Supervisors, Local 18, will meet at Chollas Community Center Wednesday, July 9, at 7:30. W. E. Ridgeway of O&R, president, will be in charge.

Coffee and doughnuts will be served after the meeting.

Answer to Puzzle

VU-3K's Unit 16 Men Rescue Pilot

LT J. F. Wilson, Officer in Charge of Helicopter Squadron 1's Unit 16, and L. J. ron 1's Unit 16, and L. J. Harwood, AL2, crewman based aboard the carrier USS ANTIETAM, recently rescued LT A. J. Kalas, of VC-61, after he had crashed on a carrier landing.

The plane hit the ramp of the carrier, shearing the landing gear, sliding along the decq and over the port side into the water. The helicopter arrived as the downed plane was clearing the fantail.

The pilot of the downed plane was still in the cockpit as the plane started to settle. Crewman Harwood knew he would have to go into the water and without hesitation, jumped over the side, with the pilot still in the cockpit. The plane began to settle landing about six feet from the pilot. The plane began to settle pit and, when it was about four feet below the surface, the pilot slowly came to the surface. He paused there momentarily and then started down again. Harwood caught him and tried to put him in the sling.

After a few seconds passed, the pilot mustered enough strength to grab the hoisting cable. Harwood attempted to get him to release it and get in thes ling but without success.

They finally tried hoisting him aboard, but it was impossible with the pilot in this position. They next put the helicopter partically in the water in hopes of pulling him in the plant, but this also proved impossible so the pilot was lowered in the water again and after several minutes, Harwood was able to get the injured pilot into the sling. He was hoisted to the hatch level and flown back to the ship two and one-half miles away.

Harwood was picked up by B.F. Jackson, ADC(AP) pilot, and C. K. Bloom, AD3, crewman of the helicopter attached to the USS ST. PAUL.

Pilots and crewmen of Helicopter Squadron One practice rescue techniques they employ when effecting actual helicopter rescues in the Korean Area. The helicopter shown above is an HUP-2 "Retriever," the navy's newest operational helicopter. All Pilots and crewmen are thoroughly trained in all rescue procedure before being assigned to units in the Korean Area.

ALF REAM MOVIE SCHEDULES

FRIDAY, June 27—"THE WINNING TEAM" starring Doris Day and Ronald Reagan.
Shorts: "SOCK A DOODLE DOO."

SATURDAY, June 28—"WAGONS WEST" starring Rod Cameron and Peggie Castle.
Shorts: "LITTLE ANGLERS" and "CORNY CASANOVAS."

SUNDAY and MONDAY, June 29 and 30—"KANGAROO" starring Peter Lawford and Maureen O'Hara.
Shorts: "HUSH MY MOUSE" and "FRONTON GAMES."

TUESDAY and WEDNESDAY, July 1 and 2—"FRANCIS GOES TO WEST POINT" starring Donald O'Connor and Lori Nelson.

THURSDAY, July 3—"CAPTIVE CITY" starring Joan Camden and John Forsythe.
Shorts: "DOG SNATCHER."

POORE ROBERT'S ALMANAC

THIS day shalle surely come to be known as the great day for the colonies & for the free America which shalle surely evolve from its significant happings.

Poor Robert had the fourtune to be in Philadelphia when the publick announcement was iffued by the Honourable John Hancock, representative chairman of the convening Continental Congreff & first representative to affix his name to the accepted document.

Dignitaries throughout this city were quick to respond when asked to pronounce their respectful opinions concerning the document, to be knowne as the Declaration of Independence of the Thirteen American Colonies. Many spoke with much favour on the paper saying it surely would establish a nation where free men everywhere could withdraw from agreffion and enslavement. Other impreffive figures in the city accepted similar views & expreffed beliefs that this document would be the solid rock upon which a firm and lasting libertie-loving nation such as the world has never seen may be erected.

The respected & honourable John Adams, member of the Continental Congreff & representative from Maffachusetts colony at the convention, proclaimed this resolution along with other majour decisions "were independence itself."

Still other citizens of this city believe the crown shalle wage totale war upon the colonies which will cause them to be abolished. Which of these opinions shalle prevaile, only posterity will knowe.

Of primary interest to the citizenery is the name which the document pronounces for the first time & which may stande as the title for this new union which will result from the independence declaration. This union of the thirteen colonies has been referred to as "the United States of America."

The Citizenery Speake Of The News

THE very first appearance of the inspirational pamphlet composede by the great editor of the Pennsylvania Magazine, Honourable Thomas Paine, will be published here for publick satisfaction soon. Aforehand is a phrase from the work which prominence itself above all others—"These are the times that try men's souls." In these few words, Mr. Paine ably expressed the insecurity, fear, & uncertainity which is inherence in the hearts of every person in the colonies.

As of late, a number of townefolk have pronounced their ideas concerning the resolution passed by the Continental Congreff declaring independence of the United Colonies from the rule and care of the Britishe Crowne. Most citizens are aware of the significance of the resolution & the consequences it may bring. The citizenery, however, cannot be at rest, cannot fully comprehend all phases of this day & its events.

In conversation with an elderly townes-woman, I asked her for an opinion of the Declaration. The day said to me, "It is confusing that many citizens doubt the paper and its significance. Most have come to the colonies for a definite purpose & with definite ideas in their minds. These standards have not altered —they remain as they were.

"My husband & I came here so we could worship as we chose & so our children might do the same. Many countrymen had the same purpose.

"My neighbour brought her son to the colonies when her husband was imprisoned because he politically differed & she wanted security for the remainder of her family.

"Most citizens wish a separate & secure nation where they may enjoy the natural liberties—God's gift to all men. I feel as they do—that this declaration was inevitable, necessary, & finally attained through the grace and benevelonce of God."

IMPORTANT NEWS From The Continental Congreff.

IMPORTANT results from the late meetings of the Continental Congreff were made known to the American public in an official announcement made by the presiding official of the convention. the Honourable John Hancock, on this day.

The resolution of the convention establishing and enforcing complete independence from the British Empire & all subjects thereof has been accepted and passed by the majority of representatives from the United Colonies.

The document, to be known henceforth as the Declaration of Independence, underwent severe examination, observance, & discussion by the members of the convening body & was finally adopted at meetings this morning.

During earlier committee and body debates on the resolution concerning the declaration of independence, nine of the assembled thirteen colonies accepted, South Carolina and Pennsylvania refused, with the delegates from Delaware divided, & representatives from New York abstaining. It is therefore to be surmised by certain government authorities and observers that the nine colonial votes necessary for complete acceptance of the document will be forthcoming.

This formal declaration by Continental Congreff hereby formally ends British rule & domination of the Colonies which has caused extreme discord between colonial America & the crown.

It will be remembered that differences between this country & the homeland, which commenced shortly after His Majesty King George III became enthroned in 1760, caused publick opinion in this country to mount considerably against the mother country. The high feeling was advanced when it became known that Mr. James Otis had taken a dangerous & precarious stand against the use by the crown of the unjust & controversial writs of assistance to quell the smuggling which caused widespread notoriety in Maffachusetts recently. Mr. Otis stated that this act, paffed & enforced by Parliament, was contrary to natural right & was therefore unconstitutional & void.

The colonies & their congreffional representatives are augustly proclaiming the document & its authors, signers, & backers. The committee, appointed last June 7, which organised & submitted the Declaration of Independence, consisted of Messrs. Thomas Jefferson, John Adams, Benjamin Franklin, Roger Sherman and Robert R. Livingston.

The Honourable Thomas Jefferson, delegate from the Colony of Virginia, was assigned the task of preparing the draft of the document. However, Messrs. Franklin & Adams, representatives from Pennsylvania and Massachusetts respectively, attached several amendments to the paper upon observance of it. It was officially submitted for debate, discussion & ratification June 28, upon which it was laid aside until the Richard Henry Lee resolution calling for independence was considered carefully & was adopted this day, July 4, 1776, which shall without doubt be a symbol of freedom to Americans now and to come.

THE DOCUMENT FOR PUBLICK PERUSAL

HERE printed for the benefit of the domestick publick is the preamble document which through the efforts of the members of the Continental Congreff shalle be placed before the world for all to see & to knowe that this Nation shalle be free from the tyrrany of the Englishe crowne & all who would impose bondage upon its people.

In Congreff, July 4, 1776
A DECLARATION By The Representatives
Of The UNITED STATES OF AMERICA
In General Congreff Assembled

When in the Course of human Events, it becomes necessary for one People to diffolve the Political Bands which have connected them with another & to assume the Powers of the Earth, the separate & equal Station to which the Laws of Nature & of Nature's God entitle them, a decent Respect to the Opinions of Mankind requires that they should declare the causes which impell them to the Separation.

We hold these Truths to be self-evident, that all Men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Libertie and the Pursuit of Happiness—that to Secure these Rights, Government becomes destructive of these Ends, it is the Right of the People to alter or to abolish it and to institute new Government, laying its Foundation on such Principles, and organising its Powers in such Form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient Causes; and accordingly all Experience hath shewn, that Mankind are more disposed to suffer, while Evils are sufferable, than to right themselves by abolishing the Forms to which they are accustomed. But when a long Train of Abuses and Usurpations, pursuing invariably the same Object, evinces a Design to reduce them under absolute Despotism, it is their Duty, to throw off such Governments, & to provide new Guards for their future Security. Such has been the patient Sufferance of these Colonies; & such is now the Necessity which constrains them to alter their former Systems of Government. The history of the present King of Great-Britain is a History of repeated Injuries & Usurpations, all having in direct Object the Establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid World.

News From The West

July 3, 1776

Remnants of the defeated American forces retreating from Canada have brought stories about an amazing situation which does exist on the waters of Lake Champlain.

Pursued by stronger Britishe forces, the Americans made their way to the sanctuary of Lake Champlain & General Benedict Arnold's fleet of Naval ships. As there is no other means of journeying from north to south in the region save by way of the long lake, Naval control of the waters is most essential.

To this end, the reports state, the Britishe at the north end of Lake Champlain are even now calling in their shipbuilders and carpenters from Quebec, in an effort to match the strength of Arnold's fleet.

Here is probably the only instance wherein the United Colonies have attained Naval superiority over the seafaring British.

About The Britishe Fleet

Boston, Maff.
March 17, 1776

The news of the departure of the British Fleet from Bofton Harbour, bodes ominoufly for the several United Colonies.

Having already caused considerable damage upon seaports of the American coast, the British may be expected to continue their devastation. Fear is held for the safety of New York to the extent that General Washington has dispatched six regiments to the defense of that city.

Chaplain's Corner

The Voice of Conscience

Perhaps there is one virtue that stands out in the hearts of Americans and that is conscience. I believe this is the main ingredient that has given our country such outstanding prestige. We possess something of the spirit of Queen Esther. She said, "I will go in unto the king, which is not according to the law: and if I perish, I perish." Her conscience would not let her stop short of doing the thing that she felt compelled to do in behalf of the people of her little nation. Today I believe the conscience of our country is distributed over another small nation. We have heard a voice crying out in the wilderness for help. It matters not where that voice may come from but we have heard it and our conscience will not let us rest. I believe the voice that calls us to give assistance to our neighbor or to any person in need is none other than the voice of God. We do not ask why. We only ask "What can I do." This is the spirit that creates and leads to individual consciousness.

During the days when there was no king in Israel, each person did that which was right in his own eyes. This means the people had a conscience to guide them in righteous living before they had kings in Israel. Cain raised the question, "Am I my brother's keeper?" It is seen all through the ages that have been recorded in the Bible that an inner voice speaks to man. This voice is the guiding spirit of God. All through the centuries of time God has been quietly speaking to the hearts of men.

In our own nation I believe God has had a guiding hand through the conscience of man. The idea of liberty came to man as the voice of God was heard in his own thinking. Independence does not mean we are sufficient in our own selves. It means we are free to act and think on our own. If God is taken into our hearts then the voice of conscience will direct us in the way of righteous living. We will be blessed and our nation will be blessed by the guidance of God.

SAMUEL B. BENNETT

This Week's News

at a glance

Expecting to adjourn Saturday, Congress was winding up its work by passing several important measures. Last Saturday the House voted to extend price and wage controls for another ten months. Duet to expire midnight last Monday, the bill was rushed to President Truman for signing. Although the new version of the price and wage control law represents a compromise, it has changed little in essentials from the law that was to expire.

On Monday the Senate passed a $46,503,000,000 military budget bill ($46-billion, that is) by a vote of 66 to 0. The bill now goes to a conference with the House, which passed a bill previously varying slightly in amount of appropriations but importantly in the technicalities of budgeting the money to the armed forces.

Again, this bill represents a compromise and isn't quite what the President wanted. The President had proposed a military budget of $51,390,000,000.

* * *

Further evidence showing Communist charges that the US is using germ warfare in Korea are fraudulent was presented by three Canadian scientists. They say Communist pictures of germ-laden insects, allegedly dropped by US aircraft, actually show common Korean insects, and like most insects they probably carry germs.

Two Years Ago Today

July 3 Marks 2nd Anniversary Of Navy's Fireworks In Korea

It was just two years ago today that the Navy, rushed into the line to stop the murderous Ko-Red attack on South Korea, threw open its sea-going and aerial fireworks in the name of the free world that we are defending.

July 3, 1950, the day before American Independence Day, RADM John M. Hoskins threw Task Force 77 into the mounting battle against the Communist aggressors from the North.

F9F's roared into fiery action from the deck of the USS VALLEY FORGE, and other Navy units were rushed to the scene from distant points in the Pacific area. As the "fireworks" continued, the U. S. Navy demonstrated beyond possibility of refutation, the dire need for not only sea control by a powerful nautical force, but for an air-Navy with plenty of big carriers to act as portable bases for the fighting F9's and other important flying units of our defense and attack. Air-evacuation, mass transport of fighting forces to the battle scene, and countless other assignments have been met and handled in the true Navy tradition through the two years of the ensuing conflict.

The Navy has every right to be proud, on this second anniversary of its participation in the defense of Korea—proud of its part in turning the Communist tide, and showing the world how the greatest Navy in the world operates.

The Front Page

In honor of the 176th anniversary of the signing of the Declaration of Independence, the NORTH ISLANDER brings you a front page as it probably would have appeared if the ISLANDER had been in publication at that time and providing modern means of communication were on hand to relay the news to the then desolate and unpopulated "Western Territory."

This front page follows as closely as possible the style, lettering, make-up, and print used by colonial newspapers in the late 1700's as could be duplicated. Due to out-dated techniques, however, certain phases of early newspaper reproduction could not be followed.

The page was designed from an idea of Kenneth W. Hammel, SN, managing editor of the NORTH ISLANDER, and executed by the entire staff. George Bergman, Associate Editor, wrote the two small articles on the page and John Phillips, ABAN, reporter, wrote, "The Citizenry Speake of the News." Robert Jackson, JO3, Editor, wrote "Important News from the Continental Congress" and "Poore Robert's Alamanac." The replica of an old wood-cut was drawn by George Bergman.

THAT MAN

friday

A few days ago, I got on a bus downtown and happened to sit just behind two business men, probably returning from a hard day at the office.

Now, mind you, I'm not in the habit of eaves-dropping, but I couldn't help over-hearing their conversation which dealt mainly with their plans for the Fourth of July week end.

"I'm going to do nothing but take it easy this holiday," said one. "Just spend a restful, relaxing week end, that's my motto.

"A hike in the mountains in the morning of the Fourth, a relaxing game of tennis that afternoon late, and perhaps a swim just before dinner, a movie and a dance with my wife that night. Saturday and Sunday, we'll go horseback riding, golfing, bowling, picnicking, and take the kids to the zoo if we have time. Yep, this is one vacation I'm going to make a REAL vacation."

After hearing the conversation, I was so tired, I just made it off the bus when it arrived at my stop. If you don't mind, I think I'll just make this a tough, rough vacation by reclining on the beach all three days!

Valley Forge Docks At Naval Air Today

The USS VALLEY FORGE (CV-45) is scheduled to dock at the NAS quaywall at approximately 1000 this morning bringing to a close its third tour of combat duty in the Korean Zone since the outbreak of hostilities two years ago.

Returning aboard the carrier is Air Task Group 1, composed of fighter squadrons from Okron, O., Alameda and San Diego.

The VALLEY FORGE has sent 11,606 sorties over Communist territory, attacking enemy troop concentrations, supply areas, railroad facilities, and overland traffic. The carrier has spent 14 months of the past 24 months in direct support of the United Nations ground forces in Korea.

The VALLEY FORGE departed from San Diego May 1, 1950, on a peacetime cruise to the Far East with Air Group 5 aboard. Included in the air group were two jet "Panther" squardons. Eight days after the invasion of South Korea, the carrier launched her aircraft for combat, marking the first time in Naval aviation history that jet aircraft engaged in combat.

Arriving in San Diego December 1, 1950, the carrier left with a new air group and five days later again sailed for the Far East.

On completion of ner second tour, April 7, 1951, the VALLEY FORGE served as a training carrier to qualify pilots in the proficiency of carrier operations until sailing on her third cruise October 15, 1951.

Winners Of June's Transportation Div. Flower Show Named

Featuring no less than 28 rose entries alone, Transportation Department's monthly flower show last Friday, brought in some fine first-of-summer competition, promised bigger shows to follow in July and August.

Winner of five ribbons, including two firsts, two seconds and one third, was Lorena Valentine. Winner of four ribbons, including the sweepstakes, one other first, and two thirds, was S. L. Patterson.

One of the outstanding blossoms on exhibit in the show was a peace rose, just past maturity, yellow petals just entering pink phase, more than five inches in diameter and nearly perfectly formed. It was the S. L. Patterson winning entry for single blooms.

The winners:

a. Single Rose—Any variety
1. S. L. Patterson
2. F. Payne
3. John Smock

b. 3 Roses—same variety
1. F. Payne
2. F. Payne
3. S. L. Patterson

c. Gladiolus—bouquet
1. Lorena Valentine
2. Lorena Valentina
2. Lorena Valentine
3. Lorena Valentine

d. Single Bloom—any variety
1. Raymond Rabe
2. Raymond Rabe
3. Raymond Rabe

e. Best Arrangement
1. Lonera Valentine
2. Sally Rice
3. Marilyn Harkrider

f. Bouquets
1. Gentiliska Graham
2. Lorena Valentine
3. S. L. Patterson.

SWEEPSTAKES: S. L. Patterson.
JUDGES: Ernie Sarrie, Roy Palmer, John MacDougal.

'Showboat' Will Open Summer Opera Tonight

San Diego light opera enthusiasts will be given the opportunity to attend one of the most popular of all light operas tonight when the Starlight Opera Company opens the run of its first production of the season with the Kern-Hammerstein "Showboat."

Military Personnel based in this vicinity will be admitted to the non-reserved section of Balboa Park Bowl, where all Starlight Opera performances will take place, at a reduction in admission price. These men may or may not attend in unform to be granted this special reduction. One thousand of these non-reserved seats will be available to the military.

Bernard Lamb shares star billing with Jacqueline Fairbanks as "Ravenal" and "Magnolia" with Mildred Lamb portraying "Julie."

Curtain time for these performances will be 2030.

PAMI Men Provide Blood To Save Life Of Infant

Death seemed ominously close at hand Wednesday, June 18, as three months old Danny, son of Mr. and Mrs. Harold G. Leitsch, lay suffering from a blood clot on the brain. Surgeons at the Balboa Park Naval Hospital informed Leitsch, a seaman stationed at North Island, that Danny would need blood transfusions, probably many of them, in order to survive.

The call went out for blood donors. Shipmates of Leitsch's duty unit, the Personnel Accounting Machine Installation (PAMI), on North Island, responded immediately, and in force. No less than 20 bluejackets mustered at the hospital to provide the needed blood. The delicate operation, performed June 19, necessitated the use of seven pints of blood to keep Danny alive. The remaining 13 pints of PAMI blood were promptly donated to aid the struggle for life of a young leukemia victim, also lying stricken in the Naval Hospital.

So Danny is home now, with the happy and grateful Leitsch family, at their home at 1471 1st Street, in Coronado, and is able to smile at brother David, age 5, and sister Debbie, age 20 months, as if to say, "it was a close battle, but the Navy pulled me through."

HAROLD G. LEITSCH FAMILY

New CO Assumes Command of VC11

At formal change-of-command ceremonies which took place last Saturday, June 28, aboard this station, CDR Samuel R. Brown relieved CDR James R. Reedy as Commanding Officer of VC-11. After the ceremonies held at 0830, an inspection of the squadron personnel was held.

CDR Brown came to this squadron after finishing his tour of duty as Executive Officer of the Naval Air Station, Whidbey Island, Wash. CDR Reedy will assume command of the Naval School, All-Weather Flight, Naval Air Station, Corpus Christi, Tex.

Let the only "bangs" for you on the Fourth come from fireworks—not your car! Drive slowly, carefully, and sanely!

Call for Winter Bowling Teams

North Islander Civilian Winter League Bowling is about to be organized. There will be a meeting of all interested team captains and others wishing to form a team for 800 scratch, at 1300 July 9, in the Blue Room of the Civilian Cafeteria.

Handicapped Workers Given Parking Area

Arrangements have been completed to provide a specific parking area in the Harbor Drive Parking lot for those Physically Handicapped Naval Air Station Employees who have parking permits.

Effective July 7, 1952, the first row of parking spaces located at the west end of the lot and bordering the Coronado Ferry exit to Pacific Highway will be designated for the use of the physically handicapped only.

Each department has submitted to the assitant Security Officer the names of those employees who qualify for this parking. Each of these employees have been notified of this action by the Industrial Relations Officer.

The present parking permit will be the only admission required to this area. There will be no special permit issued.

Employees now parking in the Harbor Drive lot are asked to cooperate by not parking in this area unless specific authority has been granted to do so.

Material Picnic Held

On Saturday, June 28, the annual S&F Material Branch picinic was held at Felicita Park, near Escondido. Games were on hand for both the children and adults. All children under the age of 12 were admitted free.

The games for the kids were water-filled balloon battles, peanut races, baseball and many other games and contests. The adults also had their share of fun with such games as baseball, softball and square dancing.

The menu consisted of barbecued ham with all the trimmings.

PERFECT HOLIDAY—What's a Fourth of July picture without a firecracker or a pretty girl. Well, here we give you both—the little lady being red-headed Virginia Gibson, Warner Bros. star of "About Face."

COLUMN RIGHT

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

Q. I am a disabled World War II veteran. If I get VA's approval, may I still start vocational training under Public Law 16, or did the cut-off date of last July end my chances for taking the training?

A. If you meet all requirements, you still may begin training under Public Law 16. Under the law, you may start any time, so long as you can finish by the program's wind-up on July 25, 1956. The July 25, 1951, cut-off date applied only to training under the GI Bill, and not under Public Law 16.

Q. A close friend, a World War I veteran, died recently, and I paid the burial expenses, since he had no family, may I be reimbursed by VA for the expenses?

A. Yes. VA may pay up to $150.00 for burial expenses of an eligible veteran. You can get necessary application forms at any VA office. You must file your claim for reimbursement within two years after the veteran's burial.

Q. My wife and I are both World War II veterans. We want to open a dress shop with the help of a GI business loan. May we both use our loan guarantee privileges together?

A. Yes. However, your total combined guarantee may not exceed 50 percent of the loan.

Q. I understand that VA will stop mailing premium receipts on GI insurance this summer. Does that mean we won't be getting those premium notice envelopes, as well?

A. No. The premium notice envelopes will continue to be sent to veteran policyholders. Only the mailing of receipts will be discontinued.

SPORTS

BOB JOHNSON LAYS ONE DOWN—during a recent game. Johnson, a reliable man who has held down the Skyraider's shortstop position since the season's beginning, played his last game for the 'Raiders against PhibPac. He is about to be discharged from the Navy; he is planning to return to his home in Joplin, Mo.

Raging Raiders Win Again Trounce Phibpac Here 8-5

The Naval Skyraiders continued to show their striking improvement at the expense of others in downing the PhibPac Invaders 8 to 5 on the 'Raiders' diamond. Seven of the nine-man Naval Air squad came through with hits; these coupled with six Invader errors gave the airmen their fifth win in their fifth win in the last seven starts.

The PhibPackers, who are usually the Skyraiders country cousins when it comes to baseball, started off like they meant business. With no strain, they nicked pitcher Dick Kerr for one run in the top of the opening frame, but the home team was up to the test and scored two in the first—one in the second—and two in the third and fourth. These splurges were enough to assure the win, although the Invaders came through with a total of five runs in the remaining innings.

FOUR RBI's FOR FUTCH

The powerful team batting of the 'Raiders were pin-pointed by Tom Futch, catcher, who, with two hits including a double, drove in four runs. This effort coupled with Coach Harvy Speed's home run was alone enough to subdue the ambitious men from the Silver Strand. Pitcher Dick Kerr was also one of the top hitters in the affair as he connected for a pair of singles.

BOB JOHNSON SINGLES IN LAST SKYRAIDER GAME

Bob Johnson, dependable shortstop, bid farewell to the Skyraiders by smashing a single off the pitching of Invader Frank Pick. Johnson, whose tour of duty with the Navy is about up, will return to his home in Joplin, Mo. when he is released.

In coming games, the red-hot 'Raiders come up against some top not teams. Monday, the 7th, they meet the current league leaders Los Alamitos here, and on Wednesday and Friday of that same week they tangle with the formidable Marines from El Toro and MCRD, respectively. Of these three fearsome aggregations, the only which has fallen to the Skyraider bats is El Toro, but don't count them out against the Los Alamitos gang or the Pendletonians. "It's surprising what a team can do with hustle and backing from some layal fans!"

Speed, like a bad name, may catch up with you sooner or later. So slow down and let it pass you by. BE CAREFUL!

Sport Car Rally In SD August 3

The "San Diego Sports Car Club" will sponsor their "Don Diego Rally" on Sunday, August 3. This rally is open to all foreign and American sports cars and to all members of sports car clubs.

Rendezvous point will be at the corner of Federal Blvd. and Euclid Ave. in San Diego on Sunday morning, August 3. All cars participating are required to be able to pass a safety test on such things as lights, brakes, tires, etc. before they will be allowed to participate in the event.

Complete information on the event, may be obtained from The British Motor Sales Co. in San Diego, the La Jolla Motor Imports, or the San Diego Sports Car Club, 215 Cuyamaca St., El Cajon.

CHIEFS W. C. ELLINGTON and W. W. EDDINGTON.

Island Chiefs Win 11nd Skeet Shoot

Two North Island Chiefs literally ran away with the honors at the Annual Eleventh Naval District Skeet Shoot. W. C. Ellington of Fasron 7, and W. W. Eddington AMC of VR-32 went down to the wire with scores of 195 out of a possible 200 hits. In the shoot-off, Chief Ellington won with a perfect 50 while Chief Eddington had to be content with a very respectable 49-50.

The North Island team, which had won 8 consecutive District shoots, continued on its winning ways with a well deserved team victory. The team is made up of W. C. Ellington ADC of Fasron 7, W. W. Eddington AMC of VR-32, L. W. Hughes ADC of FAW-14.

Competing in the shoot, which was held a week ago Tuesday and Wednesday, June 17 and 18, were teams from Barstow, El Toro, Los Alamitos, Miramar, and the Naval Hospital.

The prize which was taken by the Air Station shooters, is the honor of representing the Eleventh Naval District in the All-Navy Skeet Shoot at Dallas, Texas.

corner on sports

By GEORGE BERGMAN

With this issue, we mark the sixth anniversary of the old Corner on Sports column. We can't say much for our excellence, or consistency, but we do want to point out that we are tenacious. We have endured since the first of July, 1946. No other Navy sports column can make that statement.

Our first "corner" spoke of a "Golden Era" of service sports being just around the corner, referring to the return of the game, notably football, to the regular Navy after the World War II era of collegiate and professional stars. The cycle was being completed at that time, and Joseph College was returning to the campus.

Sure enough, service ball did return to the "regulars" for about five years, and instead of the collegiate and professional institutions furnishing the talent to the Navy and Marine squads, the service outfits began graduating their own proteges to the schools and play for pay elevens.

The ensuing seasons saw Joe Perry of Alameda (to the '49ers), Andy Buntz and Keever Jankovich of North Island (to Iowa U. and College of Pacific), Al Carmichael of El Toro (to U.S.C.), Bill Padgett and Bob Moore of LesPac (to Tennessee and U.C.L.A.), moving up to bigger headlines.

Commencing with the 1951 season, and the Navy expansion program, the cycle of change was more than completed, as service sports revolved on to a status similar to that of World War II. Collegiate and professional performers found their way into the Navy and Marine Corps, and now power mature grid machines, just as they did from 1942 through 1945.

So the Corner on Sports has survived as a column long enough to see a complete cycle from the stepped up, big-name studded lineups, through a "rock-bottom" era which gave the game back to the sailors and provided wide-open competition among lads "on the way up," and back to the present.

Looks like another big season coming up, so we'll be seeing you on the 50-yard line.

Beach Recreational Facility Opens Friday with Will Osborne Orchestra

The NORTH ISLANDER
U.S. NAVAL AIR STATION
Vol. VIII SAN DIEGO, CALIFORNIA, FRIDAY, JULY 11, 1952 No. 28

Rare Blood Type Urgently Needed For Local Woman

An urgent appeal for blood donors who have Type "O", RH negative factor, blood has been made by Mrs. Ann Morey of O&R Administrative Section.

Mrs. Morey's mother is in a local hospital seriously ill with a blood disease. She needs frequent transfusions of this rare type blood. Because in her case blood has to be given directly, local blood bank reserves cannot be drawn on.

Mrs. Morey asks that persons with this Type "O", RH negative factor blood who are willing to donate, call IRD Employees Services, Ext. 446. Evenings and weekends, Mrs. Morey may be called at Henley 3-4080.

Leave Amendment Signed Into Law

According to recent news releases, the controversial annual leave rider attached to the Small Offices Appropriation Bill has passed both houses of Congress and was signed into law by President Truman.

This amendment requires that annual leave earned each year be used on or before June 30 of the following year. However, the law will not affect annual leave accumulations earned prior to January 1, 1952. Any leave earned prior to that date may be carried by the employee until it is used. As it now stands, employees will have until June 30, 1953, to use annual leave earned during the calendar year 1952.

Therefore, no employee should find in necessary to forfeit any leave earned this year, and the law further provides that employees must be given an opportunity to take their annual leave each year.

Approximately 400 hours remain before the first new Mercury sedan will be presented to a lucky receipt holder. DON'T MISS OUT! Contribute today and YOU may win that Mercury!

CHARLES WILLIAM KATT (in the middle) is being congratulated here, upon his appointment as Foreman, labor and equipment, Supply & Fiscal Department. At left is CAPT C. M. Boundy, S & F Officer, and at right is CDR H. H. Hunt, assistant S & F Officer. Katt, the first foreman in his department since Harry Campbell retired in 1948, came to NAS September 15, 1937. His first supervisory job was that of leadingman joiner, in 1942.

Capt. C. M. Boundy, S&F Officer Leaves NAS

CAPT C. M. Boundy, Supply & Fiscal Officer here since February 1951, leaves Tuesday for a new assignment at the Industrial College of the Armed Forces at Washington, D. C. CAPT Boundy came here from the Bureau of Supplies and Accounts.

Of his tour of duty at North Island, Captain Boundy had this to say: "It has been a very happy tour, with wonderful relations with other departments. A marvelous opportunity has been afforded me because it has been the fastest job in the Navy in aviation supply.

"During the Korean conflict, we have been the main source of supply support for F4U Corsairs, TBM's, R5C's, P4Y's, and helicopters. We have had the biggest load of any air activity in supporting aircraft carriers and aircraft tenders. We have had a tremendous work load in outfitting new squadrons, setting up ALF Ream, taking care of our fast growing satellites, Litchfield, El Centro, Miramar, Point Mugu, Inyokern, and Los Alamitos. We have had extraordinarily large air shipments of critical supplies to support the forward areas. I consider that this has been the finest billet I could have had in aviation service during the Korean conflict.

"I am sincerely sorry to have to leave the military and civilian personnel of this station."

CDR H. H. Hunt will take over the duties of S&F officer temporarily, pending the arrival of CAPT Harry Graves, from NAS Pensacola, Fla.

Aqua-Caperers to Appear With Navy Relief Carnival

Last year, the San Diego Swimming Association's "Aqua-Capers" played to turn-away crowds throughout the Navy Relief Carnival. This year, an even more resplendant array of performers bid fairly to out-shop the 1951 program, as the July 31 opening date for the carnival approaches.

The famed aquatic troupe, featuring water ballet, rhythm swimming, paddle-board and specialty numbers in addition to some hilarious comedy routines, is one of the top attractions at the annual Navy benefit show at Navy

(Continued on Page 4)

MISS LORISS PARKER, shapely Aqua Caper performer, will be just one of many reasons for attending the water show which will be a feature attraction at the Navy Relief Carnival July 31, August 1, 2, and 3.

Bldg. Boasts Latest in Beach Fun Accomodations

Special Services to Operate New Facility

With construction now nearing completion, the NAS Recreational Facility will be ready for an official opening announced for Friday, July 18, according to Special Services Officer LT Hal Boudreau.

Ideally located in the South Beach area of North Island, the new Facility faces a strip of broad Pacific beach with a commanding view of the famous Silver Gate. The structure itself provides an abundance of the latest recreational accommodations in its 15,000 square-foot floor space. The two wings of the building enclose a patio furnished with six barbecue pits, picnic tables, and other picnicing accommodations. The central portion of the Facility is designed for use as a ballroom and features a large native-store fireplace and band stage, Bathhouse facilities for beach goers, a snack bar, and a smaller recreational room are housed in the building's wings. A row of large windows run the length of the seaward side of the building. opening out on a terrace.

The Recreational Facility will be open to all NAS-based personnel, both officers and enlisted, and their dependents... Its facilities will also be available to the personnel of ships docked at the station. It will operate

(Continued on Page 5)

Will Osborne to Play For Officers Dance Saturday, July 19

The Will Osborne Orchestra, playing at the opening of the new Recreational Facility Friday, July 18, will also be featured the following night, Saturday, July 19, at a dinner-dance at the NAS Commissioned Officers Mess (Open).

Four hours of dancing and entertainment will be provided at the event. Reservations are available by contacting COM (Open).

Opening Features Osborne Company

A gala celebration, scheduled for Friday, July 18, will mark the official opening of the new NAS Beach Recreational Facility.

Headlining the event will be Will Osborne and his orchestra, providing the music for the big All-Station dance which begins at 2000 and lasts until 2400.

The festivities will also feature a variety of other entertainment and an abundance of refreshments. A large number of attractive San Diego girls—USO and YWCA hostesses—have indicated they will attend

Will Osborne

the gala celebration.

Invited to attend this big NAS summer event are all military personnel stationed at North Island and assigned to ships docked at the station. There will be no tickets or cover charge required for admission. Personnel may bring their wives, dates, fiances, or come unattached, declares the Special Services Officer.

The July 18 event will mark the beginning of a series of regular monthly All-Station dances planned by the Special Services Division.

EASY DOES IT—or does it? Art Prager, national canoeing champion, makes it look tough here, as he prepares for his comedy act in the approaching Navy Relief Carnival at San Diego Navy Athletic Field.

Mighty Good Show! Eh, Bart?

HERE IS A good deal

In the eleven years since the Series E Bond was offered to the American people the use of this bond has financed countless young people through college and into businesses and professional careers.

Today this bond is paying more than ever before, for now, after 9 years and 8 months, the bond still increases in value whereas it didn't before. Time and time again the Savings Bonds program has made dreams come true for thrifty savers.

Older people are making their future years of retirement secure by their regular purchase of Savings Bonds. Now that E Bonds are better than ever, this is the time to buy more and more. Buy those Savings Bonds today!

Only 20 more days to get those Navy Relief Carnival contribution receipts which may win you a new Mercury, so don't waste time! LET'S GO!

Chaplain's Corner

We Live With Christ

If the Divine Master were walking the earth today, we do not think that He would be telling us about groats and fishermen's nets and wheat and cockle. He would draw his examples from the life around Him. Trade unionism, collective bargaining, stocks and bonds and perhaps television and radio might have been made subjects of a parable.

His illustrations, however, usually pertained to natural relationships of men and of things. If you want to get an idea of how "mechanized" modern civilization has become try for a moment to find a few examples of things in their "natural" state in present-day capitalistic society.

The boat on the lake is now the flagship in the sky. The house on the sand, an apartment without children. The knock on the door, a telephone bell in the middle of the night.

Yet we feel sure the Divine Teacher would have found in our artificial forms of life timely illustrations for the application of His timeless doctrine. He taught, lived and acted in keeping with the times, the customs, the patterns of society of which He was a member. He would dress, act and talk in terms of the life we lived today. "Crown Heights Comment."

FATHER H. T. LAVIN,
Catholic Chaplain

Tuesday through Friday, before Mass.

THAT MAN friday

Have you ever given any thought to why the buildings on this base, and other Naval bases have not been numbered in the proper succession as to their location? This question puzzled me one afternoon while I was trying to find a certain building on this base.

A few days ago I was talking to Mr. Murray S. Smith, who is employed as Engineer in the Public Works Plant Account Department and he suggested that we print an article that would help clarify this question. He told me that he had been asked quite a number of times why the numbers of the buildings aren't changed so that they do run in proper succession and therefore make them easier to locate.

The reason for this is that the building numbers are assigned locally by the Public Works Officer and submitted to the Bureau of Yard and Docks for approval. Naval regulations require that a number once assigned to a building is not to be changed during the life of the structure, and that the number may not be used again.

The first building on NAS to be assigned an official building number was building No. 1, which was at that time a seaplane hangar. Buildings were assigned numbers in numerical sequence up until December of 1934. At this time a new plan was approved whereby buildings were segregated into four classes, according to location and type of construtcion.

This type has proven to be more or less confusing to many, due to the fact that new buildings may not be numbered in numerical order as constructed. As an example, a new building just completed may bear a lower number than one that has been built for a number of years.

Since the first building was constructed in 1919, 720 buildings and quarters have been assigned numbers on this station. Of these, 283 have been surveyed and removed, leaving a balance of 437 buildings and quarters now existing on NAS.

This Week's News at a glance

News this week was naturally centered on the Republican convention in Chicago, and those who have access to TV sets are finding this uniquely American political tradition a fascinating experience. The Republican get-together is predicted to end tomorrow and the Democratic convention will get started in Chicago July 21.

To bring the conventions in the homes of millions of Americans, three major television networks are using 30 tons of equipment with TV cameras installed in every nook and cranny of the convention hall. As a result, the American sitting in his home can probably get a better idea of what goes on than a delegate on the convention floor.

California's Governor Warren commented this week that he felt television by bringing to the public conventions and other significant national events would have the effect of strengthening the American democratic processes.

* * *

The steel strike continues with no apparent hope for settlement in the near future. Steel shortages are now becoming critical in some industries. The number of workers now laid off because of the strike and steel shortages reached 1,100,000 this week.

* * *

The cost of living reached an all-time high this week, and could go higher, according to a series of government reports. Food prices reached a point 14 percent higher than just before the Korean conflict. The report said that although food prices may not climb much higher, rent, consumer durable goods, clothing, and services are expected to rise in the next six to 12 month period.

the place is familiar

The NAS Chapel was dedicated at 1000 on the morning of December 16, 1945 by Chaplain P. W. Dickman. This new chapel replaced the auditorium in building 8, which up until this time had served as the base chapel.

The chapel building is made up of one large chapel, two small chapels, and a number of offices. The main chapel can seat 600 and is furnished with a revolving altar with three sides Catholic, Protestant, and Jewish. The choir and organ are located in the rear of the chapel.

A small Catholic chapel seating 32 is located on the north side, with the offices of the Catholic Chaplain adjacent. A small Protestant chapel seating 60 is on the south side of the building with the offices of the Protestant Chaplain adjoining.

facts about fire

The first known police regulations on fire were in Paris, France in 1371, when each householder was bidden to place a hogshead of water at his door. Lightning caused a fire in St. Paul's Cathedral in London England in 1444. Water being scarce, the fire was extinguished with vinegar. Water also being scarce in England, a fire was extinguished in Chatham, England, in 1744 with beer.

Misuse of electrical equipment and defective wiring caused 52,000 fires last year. Generally a house lighting circuit equipped with a 15 ampere fuse is a safe circuit. Fuses larger than 15 amperes will allow overloaded house lighting circuits to heat and cause fire. An extra supply of fuses of proper size should be kept on hand.

If too many appliances on a circuit cause a fuse to blow, the trouble can be corrected by disconnecting some of the appliances. Continued blowing of fuses is an indication of serious trouble, a matter that calls for the services of a qualified electrician.

Existing circuits, particularly in old houses, may be inadequate to satisfy the demands of the large number of electrical appliances found in most homes today. It is safer and more convenient to have new circuits installed than to extend old ones with temporary wiring.

Make sure any wiring additions, repairs or alterations are done by a competent electrician who will arrange for an inspection and produce a certificate of approval.

Paper or other flammable decorations should never be placed over electric light bulbs, nor should electric lights be allowed to rest against walls, wooden benches, or any flammable material likely to ignite or charr from the heat of the light.

In addition to the elimination of the causes of fire, a complete program for fire safety in the home must also include preplanning for the possibility that fire may occur. Expert advice can be obtained from the Fire Prevention Division of your Fire Department.

The NORTH ISLANDER

Vol. VIII July 11, 1952 No. 28

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

TELEPHONE EXTENSION 1475. Call this number to report news.

Contributions of news, features, pictures and cartoons will be gladly considered, and material submitted will receive careful handling. However, the NORTH ISLANDER assumes no responsibility for the return of material contributed. The editors reserve the right to make such corrections, changes or deletions in submitted copy as they deem necessary in conforming with the policy of the paper and of the Navy.

The opinions or statements made in articles published herein are those of the writers and are not, in any case, to be construed as official or as reflecting the views of the Commanding Officer or of the Navy Department.

Armed Forces Press Services (AFPS) material appearing in this publication may not be reprinted without the written permission of Armed Forces Press Service. Material in this paper may not be reprinted unless authorization is obtained from the editor.

Toast Mistresses Install Officers At June Meeting

On June 25 the Toastmistresses Club sponsored by the North Island Civilian Welfare & Recreation Department installed the following for these special offices: Mary O'Shea, President, Statistical Division of O&R; Janet Gates, Treasurer, formerly with NAS Public Works Department; Fannie Cupples, Payroll Division of S&F; and Mrs. Sally Murphy, Budget & Finance Office, Public Works Division, Club Representative. Mrs. Rosiena W. Graves, night telephone operator at NAS was installing officer.

The purpose of the club is to teach correct and proper club procedure as well as parliamentary procedure and to improve one's speaking ability. The Club will meet on the second and fourth Wednesday in each month at a local restaurant in Coronado. Membership is to take place soon.

Handing the gavel to Mary O'Shea is Rosiena W. Graves, Anita Armstrong and Mrs. Sally Murphy are sitting from right to left. These are the officers that were installed on June 25.

New Supervisory Pay Plan Goes into Effect at NAS

The Navy Department has announced the new ungraded supervisory pay plan to be effective on 7 July, 1952, at the Naval Air Station.

As a result of a study of past Navy and private industry practices with respect to differentials for Leadingman, Quarterman and Chief Quarterman, an analysis showed wide ranges of percentages to determine the differentials for pay rates of the supervisory ratings.

In order to present a more workable plan the Navy supervisory and "semi-supervisory" ratings and related additional pay assignments have now been grouped into five pay levels.

A percentage differential has been set for the various levels and the value of the differential in cents per hour has been announced as an amendment to the Schedule of Wages for the San Diego-Oceanside Area.

The value of the differential in cents per hour of each level for the supervisory ratings and allied ratings are: (5) Chief Quarterman, $1.04; (4) Quarterman, Supervisory Planner and Estimator, and Supervisory Progressman, $.76; (3) Leadingman, Planner and Estimator, and Progressman, $.47; (2a) Shop Planner, $.23; (2b) Snapper and Instructor, $.15; (1) Layer Out, $.08. This differential is added to the second step of the basic trade rating which the supervisor holds. The first, third and fourth hourly step rates will be determined, respectively, as 96%, 104% and 108% of the second step rate of each supervisory rating. The exception to the above is that for the levels of Snapper, Instructor and Layer Out, the differential will be added to the actual rate of the employee, but not less than the third step of the occupation.

Polio Insurance Renewals Swamp Emp. Ser. Office

Record numbers of applicants for new policies and for renewals of existing policies crowded the July 7 deadline for polio insurance, according to Employee Services office personnel.

No final figures are immediately available concerning the total number of those families insured, but it is believed that a new record may have been set for the station.

ON HAND TO GREET THE VALLEY FORGE when it returned to San Diego and the NAS quaywall were two of the six beautiful Mercury sedans to be given away at the forthcoming Navy Relief Carnival. Waves and Women Marines accepted contributions from the VALLEY FORGE crew and from other military men.

Thousands on Hand to Greet VALLEY FORGE

Totaling literally thousands in number, friends and relatives of men aboard the USS VALLEY FORGE (CV-45) jammed the Naval Air Station quaywall Thursday, July 3, when the big carrier returned from its third tour of duty in the Korean Theater operations.

Shortly after 1000, the VALLEY FORGE cleared the NAS Main Landing pier and came into view of the throngs which had begun to arrive aboard this station many hours before the estimated arrival time of the carrier. It was only a matter of minutes until the VALLEY FORGE was docked and members of her company were being embraced by families, sweethearts and friends.

Unkonwn to many of these people was the fact that this day marked the second anniversary of the Navy's entrance into the Korean conflict which was initiated by planes from the deck of the VALLEY FORGE.

The carrier had departed from San Diego on a peacetime cruise to the Far East on May 1, 1950, and was in the area at the outbreak of hostilities.

Payday Tuesday

Schedule for payday, Tuesday, 15 July, 1952, disbursing office, Naval Air Station, San Diego, California.

Officers will be paid between the hours of 1015 and 1130.

Chief Petty Officers will be paid between the hours of 0800 and 0815.

Enlisted personnel (except Chief Petty Officers) will be paid in accordance with the following alphabetical schedule:

NORTH DOOR		WEST DOOR	
0815 - 0820	Messmen	0815 - 0830	Messmen & Waves
0820 - 0825	K	0830 - 0835	A
0825 - 0830	L	0835 - 0900	B
0830 - 0850	M-N	0900 - 0915	C
0850 - 0900	O-P-Q	0915 - 0925	D
0900 - 0910	R	0925 - 0930	E-F
0910 - 0930	S	0930 - 0935	G
0930 - 0935	T-U-V	0935 - 0945	H
0935 -	W-X-Y-Z	0945 -	I-J

Stragglers will be paid 15 July, 1952, at 1200-1230.

NEA to Hold Benefit Dance at Linda Vista

Naval Employees Association will sponsor a special dance tomorrow evening, July 12, for underprivileged children, at the Linda Vista Community Building. Jack Bassett's orchestra will provide the music, and proceeds will be contributed to the Linda Vista swimming pool fund, according to Leon B. Coyle, dance committee chairman.

Linda Vista, with a population including more than 500 North Island civilians according to an NEA survey, has set a$50,000 goal for building of the swimming pool.

"Suds in Your Eye" Opens With 3 Islanders in Cast

A jam-packed, enthusiastic audience greeted the cast of the Lasswell-Kirkland play "Suds in Your Eye" at last night's opening performance by the Coronado Players at the Playhouse on the Silver Strand.

Theater-goers had an additional surprise in store when Mary Lasswell, author of the popular novel from which the play was taken, made a personal appearance at the Playhouse. She was visiting her son who is in the Navy and now stationed at the Naval Amphibious Base, Coronado.

The Little Theatre group opened their summer portion with the three-act comedy which marks its third season of presentation by the company. Performances are scheduled for Thursday, Friday and Saturday evenings at 2015 during the next three weeks.

The three Islanders featured with the cast of "Suds" are Lucille Neal Parsons, civilian employee at the NAS Family Hospital, who portrays the daughter-dominated "Mrs. Rasmussen;" French A. Tickner, SN, assigned to the station Transportation Department, playing the dashing "Danny Feeley;" and Bob Jackson, JO3, Naval Air Public Information Office, in the role of "John P. Fitzgerald," the misunderstood tax collector.

Others in the cast include Gwen Challacombe and Henrietta Atkins as the incomparable "Nora Feeley" and "Harriet Tinkham," respectively. Bea Hamby portrays "Conchita," Nancy English is "Kate Logan," Roy Erwin doubles as "Kennedy" and "Elmer," with Nancy Dillard as "Mrs. Reynolds" and Mrs. Rasmussen's daughter Suzita Meyers is seen in the role of Mrs. Miller," Clare Garney is "Mrs. Katz," with Tom Rhodes as "Mr. Watson" and "Mac" and Marianne Tuttle as "Miss Fergu son."

"NOW AIN'T THAT SWEET" is the only comment the envious Conchita, the wild 'n wooley gal, can make upon viewing the attractive couple, Kate Logan and Danny Feeley. The above scene was taken from the Coronado Players' production "Suds in Your Eye" which opened last night at the Playhouse on the Strand. Pictured above are Bea Hamby, Nancy English, and French A. Tickner, SN, stationed in the NAS Transportation Department.

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

COLUMN RIGHT—Is your column. Its purpose is to answer questions of general interest which affect your employment. Forward all questions to, "COLUMN RIGHT," c/o Industrial Relations Department, Building 415, or deposit them in the Beneficial Suggestion Boxes.

Q. I was recently promoted from Helper 3rd Step to Aircraft Assembler, 1st Step. Why can't I be promoted to Assembler 2nd or 3rd Step since I have held Helper 3rd Step since July, 1950?

A. In determining the proper pay step when effecting position changes within the ungraded service, the actual pay received by the employee is the basis upon which his pay in the new position is arrived at. He is normally placed at Step 1 in the new position unless he is already receiving pay in excess of Step 1. If this is the case, he may be placed at the step which is equal to his present rate of pay or if his present pay falls between two steps of the new ratings he may be given the higher step.

Q. If an employee has 52 weeks creditable service for 4th Step and the 4th Step has been disapproved on a Step Pay Increase Review Form, will this be made an official record in his Personnel Jacket?

A. Yes.

Q. What are the requirements for Administrative Pay Increase from Step 2 to Step 3 having 52 weeks Creditable Service?

A. After completing 52 weeks of creditable service at Step 2 an employee may be recommended for Step 3 provided his performance is recognizably better than the normal performance requirements of the rating currently held and his conduct must be satisfactory, with no disciplinary action during the waiting period.

Q. I am a qualified Machinist and have a work restriction. I have served the necessary time in the 3rd Step and have received no disciplinary action or letter of warning. If I qualify for the 4th Step under these conditions would my physical work restriction affect a recommendation to the 4th Step?

A. This question has been referred to the Navy Department for decision.

Q. Under the new regulations governing the 4th Step, must the employees Supervisor contact the individual employee before he is or is not recommended for the 4th Step?

A. Current station policy provides that eligible employees be informed as to whether they were or were not approved for 4th Step. No specific time is prescribed for the notification.

Tops in Their Departments

Two more NAS civilian employees have achieved outstanding records as representatives for the Navy Relief Carnival drive. Danny V. Cason (left) carpenter in the Public Works Dept., leads his department in the number of Carnival donations received. Danny already has topped the 120-receipt mark and is still going strong. R. M. MacIver (right) of IRD Training Div., is past the 75 mark, shooting for 100. Together, they have given a lot of people in their departments some fine opportunities to become owners of 1952 Mercurys.

Navy Exchange Maintains Lead In Carnival Race

The Navy Exchange held on to its lead this week in the big Carnival Race, but the Supply & Fiscal Dept. is rapidly narrowing the distance. Communications moved out in front of Overhaul & Repair Dept. to capture seventh place. Although it's only two weeks until the end of the race, any of the 11 divisions and departments shown in the graph below still have a chance to win. Your contribution to the Navy Relief Carnival will give your outfit a chance for victory and yourself an opportunity to own one of the 1952 Mercurys.

LEARNER CLASS EXPANDS

Vocational Training Division is expanding its shop learner training program to accommodate a larger hire of personnel in these categories. One to six weeks of intensive training is provided to fit these new hires for their jobs.

Christmas Shopping Begins At Island Fire Department

Only 166 days until Christmas!

A long time you might think, but for the personnel of the NAS fire department it's close enough. They have a big job to do between now and December 25 to help bring a Merry Christmas to under-privileged kids in the San Diego area. Maybe you can help.

On Tuesday, July 1, special containers were set up at the East Beach, Coronado, and Main Landing gates, beginning the used toy collection drive on the station. Personnel are urged to bring used toys of all sorts, sizes, and descriptions, suitable for children in all age groups. The NAS fire department personnel, military and civilian, will renovate these articles and distributed them next December.

Toys have already started coming in, according to CHBOSN W. S. Mainord, NAS fire marshal, but he hopes to see an early deluge of toys coming in the containers so his personnel will have time to properly rapair them.

All-station personnel are earnestly requested to give the attics and basements of their homes for any discarded toys which can be repaired and repainted. It will bring happiness to some unfortunate youngster next Christmas.

MEET YOUR SHOP COMMITTEE MEMBERS

"IF JESSE LUX were only here," says Walter Crews, (left) "we would be at full strength for this shop committee picture." Agreeing with him is James McCarrier, third member of the active O & R Inspection Group shop committee, shown above. Below, Emmett Dawson bends an unseen fellow worker's ear on Welfare and Recreation committee business. Chairman of the O & R Inspection Group's W & R unit, he is receiving the approving attention of J. P. Barth (left) and E. M. Garland, other members of the committee.

A day less than three weeks until the gigantic and spectacular Navy Relief Carnival gets underway. Make plans now to attend the extravaganza July 31, August 1, 2, and 3.

Lester L. Smith, Jr., airman of VU-3, has joined the football team at North Island. Smith, a member of the communications department, was a star football player in High School.

I.A.M. President Here For Talks, Meeting

Mr. N. P. Weathersby, president of International Association of Machinists, District 44 of Washington D. C., will arrive in San Diego on 16 July to meet with top naval officials in this area.

In addition, he will conduct an open meeting at 0800 on Wednesday, 16 July, in the Machinist Hall, 3911 Pacific Highway, and all employees are invited to attend. At this time Mr. Weathersby will discuss and answer questions on wages and other problems.

Delegates From 11ND Attend Tr. Conference

Representatives from practically every Navy shore establishment in the Eleventh Naval District are attending the District's quarterly training conference here at NAS. Conference started yesterday and ends today, including exchange of ideas and latest techniques among specialists in training subjects.

At press time, about 35 representatives were expected, some from as far as NOTS Inyokern, NMTS Pt. Mugu, and NCBC Port Hueneme.

CDR. M. T. Wells, NAS Industrial Relations Officer, and numerous other speakers were on the agenda. Roscoe Creighton, of Vocational Training Division, is coordinator for the conference.

HOW JACKPOTS ARE HIT IN SUGGESTION BOXES

HERE'S HOW

Here are some hints on how to get a winning idea. Any of the tips listed may mean a $10.00 to $275.00 check for you. Go over the list slowly and don't try to do anything except think of a specific problem—especially a problem in Later, make your own list of specific problems.

To produce a beneficial suggestion, simply find the answer to one of your own problems. Your idea, which should be outside of the range of your normal duties, ought to save time or money or improve employee welfare.

Here's the list:

Do you know of an unsafe working condition? Can you find a dangerous condition in your shop or office?

Can you improve housekeeping in your shop or office? Is there "a place for everything and everything in its place?"

Is there any waste of materials on your job? In your shop or office? Elsewhere on the Air Station?

Is there any waste of steam, electricity, or water in your activity?

Can you eliminate unnecessary steps in operations by introducing a more streamlined system?

Can you eliminate breakage or inferior products?

Can you get rid of a fire hazard or a health hazard?

Can you combine reports or simplify reports, or otherwise make a report more useful?

Can you improve the quality of the work you do?

Can you improve or devise new tools, machinery, or other equipment.

Can you think of a practical way to contribute to the well-being and welfare of your fellow workers?

Can you think of more effective ways to protect Government property or to increase Air Station security?

Can you think of better means for utilizing manpower?

Can you think of anything you would do if you were the "boss"?

Aqua-Capers At NR Carnival

(Continued from Page 1)

Athletic Field, San Diego.

In the ballet group are: Neysa Barth, Kathy Hubbard, Lolly Parker, Janet Luckenback, Bessie Sabol, Carol Tibbets and Peggy Wilkerson. Rhythm swimmers include Betty Gwynn, Phoebe Brunson, Charlotte Gibbs, Doris Colburn, Dee Ross, Bonnie Bullock and Jerry Schneider.

A dash of breath-taking fun is interjected with Art Prager and Herb Knight's canoe act, while slapstick fun at its best is exhibited in the "Dance from Hunger," featuring Frank Munson, Jim Kennedy, Fred Bertch, Carl Ehlers, Sonny Altheimer and Bones Jones. Prager is renowned as national trick canoeing champion, while Knight is Water Safety Director for the San Diego Red Cross.

The Aqua Capers show is a production of the San Diego Swimming Association, appearing through the courtesy of the San Diego Park and Recreation Department.

Recreational Facility Has 'Everything'

"Yes, it will have everything" is the only way to sufficiently describe the many offerings in the way of fun and pleasure the new Naval Air Station Beach Recerational Facility will bring to personnel aboard this activity. If you don't want to take our word for it, just take a look below and, through the medium of the cartoon done in the inimitable S. D. Jones style, see for yourself.

The drawings speak for themselves, but we'd like to add just a few words about the great number of pleasure accommodations the newest addition to the NAS recreational facility set-up will bring to Air Station personnel.

Dancing remains one of America's favorite past times and NAS is no exception to this rule. Special Services has announced that periodic dances will take place throughout the year for military personnel stationed at NAS. So don those dancing shoes and make way for the light fantastic!

Tired of dancing? Well, then how about a dip in the blue Pacific? Just step right into the appropriate dressing room, put on the swim suit, and the NAS beach just outside the door of the Recreational Facility awaits you.

How about getting back into full dress and joining buddies or girl friends at the convenient snack bar at your disposal in the building? They'll have just about anything you could want in the way of a quick snack.

A party, you say? Okay, then! Just call the Special Services Officers and make reservations and take it from there! There are places for picnics, wiener roasts, and just plain relaxing after you're through eating.

Other facilities include television, radios, reading space, and . . . well, you name it and the new NAS Beach Recreational Facility has it!

movie menu

SATURDAY, July 12—IT'S A BIG COUNTRY starring Ethel Barrymore and Gary Cooper. Unfolding in eight episodes, this has one central theme that the U.S. is not one unit, but many, depending upon the viewpoints of the people who dwell in different sections and earn their living in different ways. In each episode it is almost proven through tolerance and mutual understanding the nation is certain to progress in wealth and achievement. It's the Land of the Free . . . And the Home of the Brave . . . Truly an American picture.

SHORT, "Mountain Ears."
Running time, 1 hour and 45 minutes.

SUNDAY AND MONDAY, July 13 and 14—DIPLOMATIC COURIER starring Tyrone Power and Patricia Neal. When diplomatic courier Tyrone Power, who is attached to the state department, flies to Salzburg to meet an old Navy friend now of the American embassy in Budapest and take "something" from his old friend. On arrival, Power's friend shuns him and takes off on the Arlesburg Express. Power follows him into Russian espionage and conflicting murder.

SHORT, "Dizzy Dinasours."
Running time, 1 hour 51 minutes.

TUESDAY AND WEDNESDAY, July 15 and 16—SALLY AND SAINT ANNE starring Ann Blyth and John McIntyre. As a child, Ann Blyth's prayers to Saint Anne are always miraculously answered; growing into womanhood, she continutes to appeal to her patron saint for help. Her family's mortal enemy, John McIntyre, an influential alderman, holds a heavy mortgage on their home, and puts over a deal to have a highway run right through the house so they'll be forced to sell at a loss. An appeal to Saint Anne enables Ann to capture her boy friend from a man-hunting sophisticate; Ann's house is moved on to a lot owned by McIntyre who's life is made miserable by Ann Blyth's superstitions.

SHORT, "Fraiddy Cat."
Running time, 1 hour 45 minutes.

THURSDAY AND FRIDAY, July 17 and 18—WE'RE NOT MARRIED starring Fred Allen and Ginger Rogers. Usually when people get divorced they feel they were once legally joined together by a legal justice of the peace, but when a bumbling justice of the peace gives the ceremony a full week before his commission goes into effect and the errors are not discovered until three years later when one of the five couples involved launches a divorce action. Then it becomes necessary to inform the others that they are not married. Just imagine the outcome!

electrons

By "WINDY" SPLICHAL

W. W. Weaver is back on the job after spending a month's vacation at home and in Los Angeles getting better acquainted with his new daughter-in-law.

* * *

Eulah Garland spent two weeks vacationing and entertaining friends from out of town.

* * *

S. A. Rybery spent three weeks of his vacation repairing his roof and getting the place in tip-top shape. Took a week of the vacation in the San Bernardino mountains.

* * *

Cora Hodges entertained her sister from Missouri during her time off work.

* * *

Rita Hunt has been vacationing for there weeks in Kings Canyon, Sequoia National Park, and Reno. She reports she had a very nice trip.

* * *

Teddy Baker and her husband spent a week's vacation in the San Bernardino mountains.

* * *

Lucy Sanders and her husband traveled in Arizona, Nevada and parts of Oregon.

* * *

Helen Fugmann has spent four weeks vacationing in Kansas, Miscouri, Nebraska, Colorao, and Illinois. She had a grand time, but is glad to be back in California.

Spec. Services Operates Facility

(Continued from Page 1)

on a seven-day schedule during the summer season, between the hours of 0900 and 1800.

Organized groups may use the Facility after 1800 for picnics and parties by making advance reservations with the NAS Special Services Officer. LT Boudreau emphasizes that the new Facility is for "all hands," and they are invited to reserve it for their group picnics and parties.

During the off-season, LT Boudreau, the new Facility will not operate on a regular daily schedule, but will open only for station dances and groups requesting its use for recreational activities.

Work began on the building last February 6 with the moving in of sections of the Naval Ground Defence Force Bldg. across Rogers Road to the beach.

Construction work for the Facility has been under the supervision of the NAS Public Works Dept. Twenty-six enlisted men and 15 civilian employees have been working on the project. CDR J. R. Davis, NAS Public Works Officer, is in charge of the job with CHCARP Fred Renner and CARP L. M. McKnight acting as assicoate on-the-job supervisors of construction. In charge of the Navy crew is J. Doemer, DCC. Public Works Spanners C. P. Fuller and Jack Faulkner direct the civilian workmen.

PRODUCTION PICNIC SOON

The personnel of the Productions Control Division of O&R are having a picnic on July 26 at El Monte Park just beyond Lakeside. All personnel of Productions Control Division who request tickets should contact their section supervisor.

COED FASHION NOTE—What every graduating coed should wear is the theme of this pin-up by Virginia Mayo, shapely Warner Bros. star. Miss Mayo, who is currently working in "The Iron Mistress" at Warners, will next be seen in the studio's Technicolor musical "She's Working Her Way Through College."

powerplant paragraphs

By B. Dreher

C. J. ELLIS is a new father "by adoption" since last weekend when he and his wife brought home their new four months old son, Robert John.

Lots of vacationing going on around the country and we've heard that MILT HUGHES of Final Check is on leave in Nevada; GLADYS WILSON of Technical Files is roaming around the state taking in scenery and some of the National Parks; PENNY PENMAN of 6248 was last heard of at Crestline where she was being lazy; LEON COYLE of Machine Shop is "conventioning" somewhere; BOB BROWN of Carburetor Shop is back East and J. A. O'MALLEY of the same shop is in Arizona; OLIVER J. QUAPP and his family are vacationing in Lincoln, Nebraska; and PETER KATOLICK is at Yosemite.

FRED HOPKINSON's property was in the road of the runaway bulldozer this week and a trailer in his yard was left sort of wrecked. "HOPPY" lost his voice since then but guess its just from explaining what happened to all the curious North Islanders.

HAROLD MEADOWS of the Machine Shop is the father of a new baby girl.

ROBERT McCLURE of the Regulator Shop is absent on official business for the Division and will have seen the Air Stations at Cherry Point and Norfolk and also the Bureau of Aeronautics at Washington before returning to Naval Air Station, San Diego.

We hear that CLARENCE MONSON of the Carburetor Shop has been painting his house since he's been on leave. Just when he had the job about completed without spilling nary a drop—the step ladder tipped over, Monson landed on the ground and the paint landed all over.

THOMAS "SLUG" NORTON will be quitting the 25th of this month and heading for the open country. He and his wife have sold their home and brought a trailer and plan to head first for a good spot they have picked out along the Colorado River. FINDLEY ELMS, of Blower Shop, recently resigned and is moving his family to Texas where they will once more be leading a farmer's life. P. H. FLANDERS of Final Assembly line resigned to get a job closer to his home in Perris, California, where he has been commuting from every weekend.

trading post

Absolutely no "for sale" ads are accepted for the Trading Post column. Ads may be submitted for rides, rentals, and lost and found to the North Islander, Bldg. 8, Room 1, in person or by mail. Ads cannot be accepted over the telephone.

DRIVER WANTED — Non-driving Navy wife—two boys (10-14), want driver for '51 Ford to Key West, Fla., or vicinity. Leave July 15 or soon after. 4352 Swift Ave., San Diego 4, Calif.

RIDE WANTED—Ride wanted from El Cajon to Fleet Landing or North Island. 0730-1630 Shift. Call H-4-4731 after 1800.

CAR POOL—Vicinity of 70th St. to Navy Std. or NAS parking lot. 0645-1515. Or will ride. Call H-6-8070.

RIDE WANTED—Ride wanted from Cholas View Housing to NAS parking lot. 0730 to 1600 Shift. Call I. Masters at Main 4-6232.

FOR RENT—Attractive bedroom with twin beds, beauty rest mattress, adjoining bath, 1 block from transportation and beach. Also rear sleeping cabin. No cooking. Call Henley 3-3342.

RIDERS WANTED — Driving to Denver, leaving at 0001 on July 16. Contact Tom Pade at Special Services.

CARNIVAL ARTISTRY as executed by Willard J. Brewer, AMC, includes two dozen signs similar to the one shown above for exhibits and concessions at the July 31, Aug. 1, 2, and 3 Navy Relief Carnival at 5th and Harbor Drive. Brewer, who is assigned to the Public Works Docking Office, has also painted several billboards including the one at the Coronado ferry landing.

VU-3 Contributes Guards To Insure Ream Security

Nothing is more vital to any military installation than the protection and assistance of the rules and regulations which govern the security of that station. Since this is true, a competent and trained crew must be maintained constantly by all military bases to perform this indispensable task.

VU-3K, doing its share to aid in this job, has "loaned" some twenty-two seamen guards to the station complement, which at present, totals more than fifty men.

Besides security, theft and the welfare of the personnel aboard the base are more important. In charge of security is CMDR Richie who, with CPO's Sheppard and Hall, is mainly responsible for the observance of station and uniform regulations and the supervision of the seaman guards.

Special Training

Prior to becoming an active seaman guard, ten days of special instrutcion are required. Getting "checked out" on station regulations, firearms, and general seaman guard duties is just part of the preparation these men go through.

The two section leaders under the Sergeant of the Guard see that the two duty sections, starboard and port, function properly. As far as watches and duties are concerned, the guards have many. They stand sentry duty at the main gate, four on and eight hours off; roving patrol, which includes a Corporal of the Guard; assisting the Paymaster on pay days; Color Guard; enforcing speed limits on the station, watching over the housing area, and taking care of any downed aircraft.

Roving Patrol

Perhaps the most interesting duty of the Guards is the roving patrol. They cover the perimenter of the base and usually travel in two's.

James Brewer, AD3, John "Pappy" Meyers, ALAN, Bernard "Mooch" Motishka, ABAN, and all the VU-3 Seaman Guards on the station, are doing a creditable job in their work of seeing that the security of Ream Field is always observed and that the safety and welfare of not only VU-3, but of all personnel on the base, is being protected.

Mrs. Jeanette Kinser, Mrs. Ora Brian, Mrs. Betty Wolle, Mildred Splichal, Toni Vasquez and her husband and family, and several others not employed on NAS spent the Fourth of July weekend camping at Estrado Beach, Baja California. A wonderful time was had by all.

LT Young Assigned to NAS, Corpus Christi

One of the first helicopter pilots to enter the Korean Theatre was detached from Helicopter Squadron 1 based at ALF Ream and was ordered to shore duty at Naval Air Station, Corpus Christi, Texas, this week.

As Officer-in-Charge of Helicopter Unit aboard the USS ROCHESTER in 1950, LT. Robert S. Young had just completed piloting Admiral Radford throughout the Trust Territories in the Marshalls and Carolines when the Korean Conflict started.

He made his first rescue on July 4, 1950, off the west coast of Korea. Young also remembers how he was about the last one out of Hungnam during the evacuation, and as a former fighter pilot he has the greatest pride and nothing but praise for the helicopter.

A veteran of two Korean tours of duty in helicopters, LT. Young was awarded the Distinguished Flying Cross for the rescue under fire of nineteen trapped United Nations troops. He also holds the Air Medal for assisting in the cleaning of mines from Wonsan, Hungnam, and Sogjin, and other parts along the east coast of Korea.

During Young's tour with Helicopter Squadron 1 he is credited with 27 life saving rescues.

Men From Hornet Offered Reunion

Here is good news for anyone who served aboard the old CV8, USS HORNET. A few men who were aboard this ship at one time or another would appreciate hearing from any of their former shipmates.

As of yet no plans have been made concerning a date, whereabouts, or entertainment for a reunion. It is hoped though, that if and when a sufficient number of men have been contacted plans may be made for such a reunion.

If there are any men at NAS who were aboard the USS HORNET and are interested in having a reunion, please contact either H. A. Lane in building 21 at the Test Line, or call C. M. Bech at R-1471.

rod 'n rifle ramblings

By GEORGE BAKER

About those special deer seasons we spoke of two weeks ago in our initial Ramblings. The state fish and game commission informs us that tags, to be issued on a first come, first served basis, will be available July 19, at 0900, at a number of designed points in the state.

North Islanders will be particularly interested in the 500 tags to be issued for hunting bucks in San Diego county. These will be available at the Youth Center in Escondido, and will be for the special season of January 3 to 18. At Sherman Institute Gymnasium, in Riverside, the same day(July 19), 2,850 tags will be available for the same season, to hunt bucks and antlerless deer in various parts of Riverside County. At the Orange County Fairgrounds, in Santa Ana, same date, and for the same season, 500 tags will be on sale for hunting bucks.

Other information, regarding places throughout the state where these special deer tags may be obtained, is available through the Employee Services office, ext. 446.

Regular monthly meeting of the Federal Employes' Rod and Reel Club will be held next Thursday, July 17, according to John Gizo, of Electronics Division, president of the club. Major topics of discussion will be the possibility of obtaining deep sea and fresh water fishing facilities for the exclusive use of club members.

Softballers Soar in ASA League Smash El Cajon, Austin Plumbers

The Skyraiders' softball team came up with some slashing victories to move into a good position for the run to the wire in the Amateur Softball Association's League. Playing against real top-notch competition, the Airmen seem to finally have found their stride, and now it behooves the other ASA League teams to stop the rampaging 'Raiders.

On July 1st the Skyraiders met the vaunted El Cajon "Cowboys" in a game to promote sales for the Navy Relief Carnival. In this ASA League contest, played steady ball and capitalized on some good breaks to win the affair 3-2.

"COWBOYS TAKE EARLY LEAD"

The El Cajon "Cowboys" took an early lead in the hotly contested game, and at the end of four innings led 2-0. In the fifth, with one man out, Smith tripled; Johnson went to first on a fielders choice with Smith scoring; Ivey singled sending Johnson to second; then after Glick struck out, Lucas walked to load the bases, but Johnson was picked off third. At the end of the fifth, the score was 2-1 in favor of the El Cajonians.

In the seventh inning the Skyraiders combined some taking advantage of the breaks with heads-up base-running to score two runs and win the game 3-2.

The winning pitcher was Huffman, and while he was tagged for 2 runs and four hits, he only allowed 4 hits himself, and what's more important, he allowed but two runs.

In another ASA League game, the Skyraiders smashed the Austin Plumbers by a convincing score of 8-1. This game, which was played in La Jolla, was featured by the three-run home run of the 'Raiders' Kozeleski. The winning pitcher was George Brown.

SKYRAIDERS DROP TO SECOND PLACE IN 11 ND SOFTBALL LEAGUE

In Eleventh Naval District Major Softball competition, the Skyraiders have not fared quite so well. In their last two starts, they have gone down to defeat to NTC and MCRD respectively.

In the NTC game, Gerhardt, the NTC pitcher, allowed us but three hits while the training men were tagging losing pitcher Huffman for 8 safe blows. One golden opportunity for the 'raiders came in the fifth when Gerry Glick led off with a triple to deep right centerfield; the next two men struck out however, and then Huffman singled but Glick was held on third. The inning ended when Smith popped up to the second baseman.

"Hap" Ivey, Slugging Softballer

Skyraiders Cop ND Tennis Title

The Naval Air Skyraider Tennis Team met and defeated all competition to win the Annual Eleventh Naval District Tennis Tournament. Led by LT Elston Wyatt of the USS CURTISS AND LCDR "Chuck" Jones, operations officer of FAIRBETUPac.

In the final competition, Mr. Wyatt defeated Tom Cook of Camp Pendleton in the singles. After a shaky start in which Tom Cook won the first set, Mr. Wyatt settled down to make short work of the remaining two sets and take the 11th Naval District Singles Championship.

In the doubles, LT Wyatt teamed up with LCDR "Chuck" Jones to also bring the District doubles championship to the Naval Air 'Raiders.

Captain's Cup Lowdown

By LEON COX

The second half of the Capt's Cup softball race is rapidly coming to a close. With only a week of play remaining we find Special Services on top and three teams, Planning, G.C.A. and Boat House are deadlocked for second place.

The Championship playoffs will be between Supply and Fiscal, the winner of the first half and the winner of the second half. The playoffs will be held on diamond No. 1 behind the gymnasium. There will be a two out of three series on 16, 17, and 18 July; the winner will receive a large championship trophy and the Capt's Cup perpetual trophy.

ATTENTION: All Capt's Cup Representatives:

There will be a Capt's Cup representative meeting in Bldg. 650 Monday 14 July. All representatives are urged to attend. If it's not possible, notify R. F. Williams at ext. 1080.

pigskin previews

ONE OF THE SPARSE CROP OF returning veterans who greeted Coach Dean Johnson on the football field last week was quarterback Pete Steel, holdover from last year's Skyraiders, and prior to that a member of the North Island Fliers, and the NAS Alameda Hellcats gridiron machines.

Coach Dean Johnson

Pete, a solidly built 185 pounder, is 29 years old, 5'10" tall, and comes from Norfolk, Va. Although he worked into Coach Stan Williamson's single wing formations last season to advantage, Pete is more accustomed to the "T", and may see service in that category.

IT'S A LONG ROW that Coach Dean Johnson must hoe this season, as his Naval Air Skyraiders tackle their eleven-game football schedule August 8, starting with the Los Angeles Professional Rams. As additional "tools" arrive on the gridiron scene, Coach Johnson's chances for a crop of victories are likely to improve. Very few perennials answering his first call last week, the newly arrived coach commenced his "plowing" with relatively barren soil. Now comes the rain of strenuous conditioning, and the sun of steady coaching which combine to make the stuff for winning football squads.

Pete Steele

Coach Johnson, a native son from Berkeley, has been turning out championship high school teams at Taft, California, favors a Winged 'T' formation and will probably build his Skyraiders' attack accordingly.

Skyraiders Blow Lead, Lose to Alamitos, 7-4

The Naval Air Skyraiders blew an early lead and as a result were defeated by the 11 Naval District League leaders Los Alamitos, 7-4. At the end of the fifth inning the 'raiders held a 4-2 margin, but the six errors made by the home team began to make themselves felt, and the early lead melted away to the 7-4 defeat.

In the second frame the 'Raiders took an early lead when Tom Weaver led off with a triple, and was scored a moment later when Bill DeGeer, new Airmen first sacker, drove a single into right field.

The Airmen boosted their lead in the third when, after Graham and Weaver received walks, Bill DeGeer again met the ball with his big bat and lined out a double to score two runs. The final Skyraider tally was made in the fifth when, after Graham was hit by a pitched ball, Tom Futch tripled to deep left field.

The winning pitcher was Schedelmeyer who relieved George Stanich, 1948 Olympic highjumper from UCLA. The loser was "Mary" Campbell. Top Skyraider as far as hitting went, was Bill DeGeer who had 3 for 4 including a triple and double.

The next 'Raider home game will be Monday, July 14, against the hard-hitting NTC Bluejackets.

Runners-up Meet In AirPac Games

By Bob Swisher

While the champion FAW-14 softball team awaits the outcome of a Ream-Miramar clash before diving into the ComFair San Diego title, a battle-royal rages for second and third place in the final FAD North Island standings.

Last week eight teams started a double-elimination tourney for the runner-up and place spots. These were the top three teams in the Major league and Minor league "B", and the second and third teams behind FAW-14 in Minor league "A". As of Wednesday, four teams, VC-11, FAIRBETUPac, FASRon-110, and VS-23 were still in the running.

VC-11 must now rule as favorites; the Comets defeated VS-23, Ready Issue and FAIRBETUPac to take the winner's bracket.

Entree deadline for the AirPac summer sports program is 15 June. Squadrons who wish to enter teams in touch football, softball, pistol or swimming are urged to send their application to the Force Athletic Officer.

corner on sports

By GEORGE BERGMAN

When Jack Scheberies was given mention in the daily newspapers as the lad who lost the Olympic heavyweight boxing eliminations final to Big Ed Sanders, of NTC, no mention was made of Scheberies' past. We remember Jack as one of Naval Air Station's two top-flight heavyweight scrappers of 1947. Probably the second best heavy in the entire Navy at that time, Jack was the only battler of the year to answer the bell for the third round against North Island teammate Maynard Jones' heavy artillery. Jones was All-Navy that year, Scheberies might well have been had Jones not been on hand.

A memorable occasion involving Scheberies was the 11th Naval District championships of 1947. San Diego's contingent tangled with the Long Beach-San Pedro area's best, top two men in each weight from each area.

Northern supporters hit town crying that through unusual circumstances, second best heavyweight, Andy Caldwell, would tie into San Diego's top performer, Jones. Their best man (lucky for Jones, they called it) would be relegated to taking our consolation bracket man, Scheberies, to pieces.

Jones, on his way to All-Navy, chilled Caldwell in 1:30 of the first round. Then came the consolation match. Scheberies teed off on the North's "best battler," Jack Robinson, smashing him to the canvas for keeps in the midst of a hectic second round.

Yep, we think of Scheberies as the Number Two fighter in the whole Navy in 1947, and figure that if Big Ed Sanders could stop him in the Olympic tryouts, he is really a pretty good heavyweight.

What's the Catch?

This week, fishing showed a marked improvement over the results of recent weeks. Not only were the always hunted Yellowtail hitting more frequently, but Barracuda were being taken in ever increasing numbers.

LT Elliott of VC-11 was the lucky man who brought to gaff the largest "Yellow" of the week. His catch, which will win for him a rod, reel, and line, tipped the scale at 16 lbs. This fish was taken while fishing near South Coronado Island aboard the "Salty".

With fishing steadily improving, this writer suggests individual divisions try to line up a fishing party for the officers and men of their division. Don't forget, the largest "yellow" of the week receives a rod, reel, and 200 yards of line.

Winners of the FAD North Island intermural softball league, FAW-14 now sets their sights on the ComFair San Diego area championship. The Wing meets the winner of the Ream Field-Miramar playoff.

VU-3 Nine Adds New Players, Prepare for FAD Playoffs

Utility Squadron 3, current softball leader of the Fleet Air Detachment at Ream Field, has been augmented by several players from HU-1 to represent Ream in FAD playoffs against Miramar, Los Alamitos and North Island.

Ream will first oppose Miramar and the winner will meet Los Alamitos. The victor of the Alamitos game will in turn meet the Skyraiders from NAS North Island for the Fleet Air Detachment championship. The champion will then field a team in the West Coast Regional playoffs.

The Ream squad boasts a team with both power and fielding ability. Behind the plate will be Carl Ackner and Walt Lindberg, of HU-1. Harlan Price, first base; Charlie Stevens, second base; Harold French, team captain, at short; and Jack Jones, the most feared hitter on the squad from HU-1, playing third.

In the outfield will be Ken Brooks, leading hitter for VU-3, in right field; Milton Lachowski, in center; and Bill English covering the left pasture. Backing up the outfield trio is Tom Fennell, Dame Taylor and Dick Allen, of HU-1, will handle the pitching chores. Allen, one of the better pitchers of the Intra-Squadron league, has consistently defeated the dronemen in squadron play during the past quarter and should prove to be a valuable asset to the team.

With good pitching, timely hitting and lots of hustle, Ream Field will be well represented by this fine aggregation.

CARL ANCKNER, star catcher for VU-3 at bat, and Walt Lindberb of HU-1, shown in squadron competition, are now teammates on the Ream Field squad. Umpire is B. J. Warrick, ADC.

REAM Border Lines
ALF REAM SAN YSIDRO, CALIFORNIA

HS-2 Takes 6 Out of 9 Events, Wins Swim Meet

ALF Ream Inter-Squadron Swimming competition got underway Monday, July 7, at Navy Field Pool. HS-2 won 6 events out of 9, to win first place with 56½ points. Their nearest contender was VU-3 with 23 points and HU-1, third place, with 8½ points.

The nine events and winners were: 150 yd. medley—(HS-2) D. E. Williams, R. L. Dolmseth, E. R. Bergman; 200 yd. free style—(HS-2) W. D. Pentecost; 150 yd. indiv. medal—(HS-2), D. E. Williams; 50 yd. free style—(VU-3), J. Foster; diving—(HS-2), E. C. Tilley; 100 yd. free style—(VU-3), D. E. Williams; 50 yd. breast stroke—(HS-2), R. L. Dolmseth; 50 yd. back stroke—(VU-3), J. E. Anderson; and 200 yd. free style relay—(HS-2), P. A. Sullivan, W. D. Pentecost, D. E. Williams and E. R. Bergsma.

Ream Field Inter-Squadron swimming competition will continue throughout July, August and September with nine more meets scheduled.

Incidentally, HS-2 Swimming Coach LT Earl Bergsma showed his aspiring splashers that he was more than just "coach" in name when he entered the officers dependents swimming meet at North Island on July 4, and won the 50 yd. free-style and the 75 yd. medley.

HU-1 Unit 10 Returns Aboard VALLEY FORGE

Arriving at San Diego Thursday, July 3, on board the aircraft carrier USS VALLEY FORGE was Unit 10 of Helicopter Squadron 1 (HU-1) based at ALF Ream.

The helicopter unit provided rescue services, personnel transfer, guard mail deliveries, and various other untility services during the seven month tour of duty in the Korean theater.

Officer-in-Charge of the Unit is LT G. Johnson. Sharing the flying duties are Chief Aviation Pilot H. Tierney; Crew Chief is Chief M. J. Kadlecik. Other members of the crew are P. P. Cavanagh, AD2; T. "J" Woodall, AD3; C. W. Schiefiebein, AL3; G. A. Tupper, AN, and J. T. Dean, AN.

New 'Copter Squadron Commissioned June 30

The third helicopter squadron to be stationed at ALF Ream Field, Helicopter Anti-Submarine Squadron Four (HS-4), was commissioned Monday, June 30, at 1400.

CDR W. G. Knapp, USNR, is the Commanding Officer of the new squadron and LT J. R. Morrison, USNR, is acting Executive Officer.

The primary function of the squadron will be anti-submarine warfare and for the present, the training syllabus is being set up to use HUP-2 Piaseki helicopters.

The Commanding Officer of HS-4 has the distinction of holding Helicopter Pilot's Card Number One. Before returning to active duty in 1948, CDR Knapp was employed by the Piaseki Helicopter Corporation as Chief Test Pilot where he gained valuable knowledge which he will put to use as skipper of HS-4.

HU-1 Unit Four Rescues Pilot

Helicopter Squadron 1, Unit 4, which is based aboard the heavy cruiser USS HELENA, has been busy the last few days.

On June 24, Pilot LT James Wilkins rescued the only pilot reported shot down last Monday in the biggest air raid of the war. LCDR Ward Miller, of Santa Rosa, was lifted out of the hands of the enemy near Tachon in Northeast Korea. Three Corsair fighters from aircraft carrier USS BOXER strafed the enemy gun positions while the Sikorsky helicopter hovered over Miller and took him out of the water.

The following day, June 25, Chief Aviation Pilot B. D. Johnson was called upon to rescue a pilot who had ditched his aircraft in the water near the enemy shore line. Chief Johnson made the pick-up while escorting fighters worked over the enemy gun positions to divert the gunfire from the helicopter.

"Previews of Progress" show which was presented for ALF Ream audiences at the station theater Wednesday, July 2. The speaker in the picture shows how to pound a nail successfully with a glass bottle. There were also many other unusual and interesting feats performed during the show.

Meet Sam Baris, Ream Field's Top-notch "Dapper Grappler"

Twenty-two years as a wrestler with shelves full of trophies and medals, all earned while in the Navy, is the outstanding achievement of Sam Baris, SHC, manager of the Ream Field Navy Exchange.

He was born in New York City on April 8, 1915. Not caring much for civilian lite, at the age of 15 Sam was able to make the recruiting officer believe he was several years older and thus began his Naval career. He later at a more mature age sent a request to the Bureau to have his age officially changed and the request was granted.

After completing his recruit training, he was assigned to the USS SALT LAKE CITY where he spent ten years. First of his many honors was when his whale boat crew won the Battenberg Cup.

During World War II, Sam's home base was Espinito Santos, New Herbides. During his 22 months of duty there he gave many exhibitions of his skill in the "grunt and groan" profession. Also he prepared plans, helped construct and took charge of the largest ship's store and soda fountain in the entire South Pacific. It was for such service that on a surprise visit Admiral Halsey had the C.O. present Sam with a Commendation.

His career in the Navy has been full of excitement and color and even though it has been a long one he is still in top physical condition. It has been almost a year since he last wrestled in competition, but he still works out and spends his leisure time water skiing.

When asked how many matches he has won and lost Chief Baris answered, "Well, I've had 238 bouts and to my knowledge I haven't lost over a dozen."

A complete listing of everything that Chief Baris has done would run too long for this publication, but following is a list of titles that he has earned between the years of 1932 and 1952:

Chief Shipserviceman Sam Baris with his many wrestling trophies which he has won in the past 32 years of active Navy sports.

1934-35: Light-Heavyweight Champion of the Fleet.

1938: "All Service" Tournament San Diego. Wrestled 18 men in two nights, placed second. Army and Navy Light-Heavyweight of the PMCA's of greater New York.

1939: Outstanding athlete of the Fleet.

1946: Army and Navy Light-Heavyweight Champion of the YMCA's of Greater New York.

1950: Light-Heavyweight Champion Pacific Fleet.

1951: Honorable mention on the All-American AAU Wrestling team. Runner-up in 11ND championship. Wrestling Coach at North Island.

HU-1 Team Beats HS-2

The latest softball game between HU-1 and HS-2 was played Wednesday, June 25, on Buchi Field at ALF Ream. HU-1 put away the opposing team to the tune of 20 to 5.

HU-1 had LT C. C. Coffey on the pitching mound and he held a tight rein on the anti-sub boys by allowing only 5 hits for the game. Williams, of HU-1, scored two home runs, one in the second and one in the fourth innings. He scored 4 runs for the game. During the fourth and seventh innings, HU-1 scored 6 runs each. Lindberg backed Coffey up as catcher, with Bilby on first; Wheeler at second; Hogan on third; Pate as shortstop; Grace, left field; Huff and Bates, center field, and Williams, right field.

ALF REAM MOVIE SCHEDULES

FRIDAY, July 4—"CAPTIVE CITY," starring Joan Camden and John Forsythe

President Truman Signs Korea-Veteran Legislation

As promised, Congress delivered the eagerly awaited K-Vet Bill in time for the fall school term. The President promptly signed it.

The Bill would give educational loans and unemployment benefits, as well as mustering-out pay, on-the-job and on-the-farm training to veterans who served in the Armed Forces on or after June 27, 1950.

The big problem posed in the conference committee was how much the veteran would receive to pay for his subsistence, books and tuition. It had already been agreed that he would receive the money himself from which he would pay all expenses including tuition.

The final version of the bill gives him $110 a month if single, $135 if he has one dependent and $160 if he has more than one dependent. This of course would be for full-time schooling.

For three-quarters time schooling he would receive $80 single, $100 a month with one dependent and $120 a month with more than one dependent. Provisions are also made for half-time students and students who attend less than half-time.

No limitations have been set on the amount of money a student-veteran can earn privately. Schooling time will be computed on the basis of one and a half days for each day of active service not to exceed 36 months.

Mustering-out pay remains on the same $100, $200 and $300 ratio which appeared in the Senate Bill. Men with less than 60 days' service who spent their active duty in the U.S. would receive $200 and men who served overseas would

(Continued on Page 8)

Island Civilians Will Be X-Rayed Beginning Tuesday

A station-wide chest X-ray survey will be conducted for all civilian personnel at NAS between July 21 and August 8. The survey is being carried out with the assistance of the U. S. Naval Hospital, which is furnishing the necessary technical personnel and a mobile chest X-ray unit.

All civilian personnel will be required to take the chest X-rays with the exception of employees who have been working on the station less than six months. Every effort will be made for employees who are taking leave during the designated survey period to be X-

(Continued on Page 4)

ORISKANY Docks At NAS Monday

The aircraft carrier USS ORISKANY will arrive in San Diego Monday July 21, completing a voyage from New York via Cape Horn. The ORISKANY becomes the first carrier to round the Cape.

Named for a Revolutionary War battle fought in 1777 in Oneida County, N.Y., the ORISKANY was launched October 13, 1945, but construction was halted several months later because of an economy drive.

When eventually commissioned in June, 1950, the ORISKANY was the first of the Navy's modern fighting ships. She was modified to operate larger aircraft. This called for more powerful catapults, a stronger flight deck and more space for the stowage of plane fuel.

The carrier, with a crew of nearly 2600, reports to the command of VADM H. M. Martin, Commander Air Force, Pacific Fleet, who flies his flag aboard NAS San Diego.

FOUR OF THE BIGGEST DAYS OF YOUR LIFE! That's right! July 31, August 1, 2, and 3 will bring the biggest and best Navy Relief Carnival and the time of your life. Plan to attend all four days for a great time!

Parking Lot to Close Next Week

Off-station parking will take a temporary set-back during the week of July 23 through July 31, when the Alameda Avenue (Coronado) parking lot is shut down for re-paving and enlarging.

Cars remaining on the Alameda Avenue lot by 0800 July 23 will be hauled away and impounded by the NAS civil guard, to be reclaimed later by the owners.

Islanders Give Rare Blood for Mrs. Hanson

A plea in last week's NORTH ISLANDER for Type "O" (RH-negative) blood donors was met with the wholehearted response of 30 NAS military and civilian people.

The rare type blood is needed for Mrs. Anna Hanson, who is seriously ill in a local hospital. Mrs. Hanson is the mother of Mrs. Ann Morey of O&R administrative section.

One of the 30 volunteers has already given blood for Mrs. Hanson, while the others have offered to be available for any emergency.

Mrs. Morey said that she was overwhelmed "by the wonderful response of these people." "I would like to thank them all personally," she declared. "Their cooperation has removed so much anxiety and worry about finding this rare blood type."

Dance Will Open NAS Rec Facility Tonight

Four hours of dancing and other entertainment will officially ring up the curtain tonight on the new NAS Recreational Facility. Featuring Will Osborne and his nationally prominent orchestra, the festivities will get underway at 2100, lasting until 0100. All North Island-based military personnel are invited to attend.

No tickets or admission charge will be required. Uniform for the event will be dress blue for officers, chiefs and enlisted men.

The gala occasion will include a series of dancing contests—with prizes for winning couples— specialty acts, and free food and refreshments—turkey, ham, potato salad, soft drinks, and coffee among the items on the menu.

Personnel not accompanied by wives or dates will be gratified to know that over 200 junior hostesses from the San Diego area, representing the USO, YWCA and other social organizations, are expected to attend. Mrs. Rosiena Graves, NAS night telephone operator, will be chairman in charge of senior hostesses for the dance from the Gen. Henry D. Styer VFW Post 2422 Auxiliary in Coronado. Mrs. Graves has also as-

(Continued on Page 4)

Housing Officer Announces Units Ready for Occupancy

LT J. T. Waldron, I&E Officer, also serving as NAS housing officer, announced this week that a number of housing units located in the Navy Housing Project No. 1, near the Naval Station, San Diego, are available for immediate occupancy by eligible personnel.

The project offers duplex units either furnished or unfurnished. All are equipped with electric refrigerators and cooking ranges. Family units are available in three types: (1) one-bedroom units for officers or enlisted men with one or more dependents; (2) two-bedroom units for officers or enlisted men with two or more dependents; and (3) three-bedroom units for officers or enlisted men with three or more dependents.

Rental for the units, which are designated as "public quarters," is based on BAQ allotment or rental allowance by the occupants. Gas, water, and electric utilities are included in the rent.

For further information regarding housing, NAS personnel (ship's company) may consult LT J. T. Waldron or H. R. Marcantel, IMC, at the I&E office bldg. 317A. They will assist family men in obtaining suitable housing as quickly as possible.

Congress Passes New Reserve Bill

Congress has passed the long-awaited Reserve Bill. Most provisions will take effect six months after the President signs the bill.

The bill would limit the strength of the Ready Reserve to one and one-half million men. However, all reserve obligations would remain the same as set by previous bills.

The Ready Reserve may be called to active duty during an emergency declared by the President, but it would be up to Congress to determine the number of men to be called.

The bill also prohibits the President from extending enlistments in an emergency without special legislation. The Standby Reserve could be called only in time of war or national emergency declared by Congress.

Also stipulated in the bill is the "sense of Congress" to recall those men who suffered the least hardship during their previous service. This particularly refers to Korean combat veterans who would only be available when others who had sacrificed less were already called.

The bill also makes officers' commissions valid indefinitely and retains the active duty contact clause for reservists. Those officers who currently hold reserve commissions could allow them to expire or declare in writing that they wish them to be indefinite.

Change of Command for Fairbetupac Tomorrow

CAPT Carson Hawkins, former commanding officer of NAAS Cecil Field, Florida, will assume command of the Fleet Airborne Electronics Training Unit, Pacific in ceremonies at NAS tomorrow. He will relieve CAPT J. W. Byng, commanding officer of the Unit since June, 1950, and who will report as CO of Cecil Field, recently raised in status from an Auxiliary Air Station to Naval Air Station.

CAPT Hawkins arrived in San Diego in time for the all hands beach party Friday afternoon, but, due to the long trip, was unable to attend. He was, however, an honored guest, along with CAPT Byng, at a farewell and welcome aboard party held for them at the Commissioned Officer's Mess (Open) last Saturday evening.

By a coincidence, the arrival of the new commanding officer and the change-of-command ceremonies Saturday will herald the seventh anniversary of FAIRBETUPac. The realization of the acute need for an efficient and standardized training for fleet air electronics personnel resulted in ordering the commissioning of FAIRBETUPac, and its counterpart in the Atlantic Fleet, FAETULant at Norfolk, Va., exactly seven years ago this Sunday.

CDR D. E. Herrold was the first commanding officer with 688 officers and enlisted men, and an aircraft complement of sixty-two planes, for the mission of furnishing airborne electronics training to squadrons forming or reforming on the West Coast.

The training unit consisted, then as now, of two main phases of instruction; the ground school training, which stresses theory, operation, and maintenance of the electronics equipment and airborne training, which stresses operation under flight conditions of this equipment.

CAPT Hawkins and CAPT Byng

Waves Celebrate Birthday July 30

More than 9,000 officers and enlisted personnel of the WAVES will celebrate the first decade of service furnished by the Navy's women in ceremonies to be held throughout the Naval Establishment on July 30.

Official ceremonies for the occasion will take place at Washington's Hotel Statler where more than 1,220 former WAVES will participate in a gigantic reunion. ADM Lynde D. McCormick, Supreme Allied Commander, Atlantic, will be the guest speaker with CAPT Joy B. Hancock, director of the WAVES, opening the event with the traditional cake-cutting ceremony.

WAVES, originating in July, 1942, was the name given to the women's organization and meant "Women Appointed for Voluntary Service."

Today, 28 of the Navy's 62 enlisted ratings are open to these women who have played such a vital role in the Navy's program of constant preparedness and "fighting ability."

God Changes Things

"The fool hath said in his heart, There is no God" thus wrote the psalmist centuries ago. The man about whom he wrote made a wild guess on what he bel'eved. He came to this understanding as he looked about himself and saw no purpose or reason in anything and us he decided there is no God. Strange, isn't it, to have anyone come to this conclusion?

Turn the history of creation and read the account of the Lord's work. "In the beginning God created the heaven and the earth. And the earth was without form, and void and darkness was upon the face of the deep. And the Spirit of God moved upon the face of the waters." After God had created and made everything, scripture continues, "And God saw everything that he had made, and, behold it was VERY GOOD."

When did a change take place and why? When man disobeyed God's commandment. "Because thou hast"—that is, disobeyed—"cursed is the ground for thy sake; in sorrow shalt thou eat of it all the days of thy life; thorns also and thistles shall it bring forth to thee; and thou shalt eat of the herb of the field: In the sweat of thy face shalt thou eat bread, till thou return unto the ground for out of it wast thou taken: for dust thou are and unto dust salt thou return." Quite a change isn't it? However, God continues to give us grace that we might change, but mankind continues to propense toward evil. Yes, it is the fool that saith in his heart theer is no God. After he discovers nothing but evil about him. But "God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life." God changes things.

THEODORE E. SCHULTZ
Chaplain, U. S. Navy

COURSE IN CATHOLIC DOCTRINE

The Catholic Chaplain has instituted a course in the Doctrine or Teachings of the Catholic Church aboard this station. The course began last night at 1900 in the Station Chapel and will continue each Thursday evening at 7 p.m.

The course is open to everyone, regardless of religion affiliation and is not intended to be the means of embarrassing anyone, but rather to give a clearer picture to all who may be interested in learning more about such an organized religion as the Catholic Church.

No roll call will be made or will there be any questions about a person's religious convictions. Each Thursday evening the talks will be followed by a question and answer period. All are most welcome to attend.

The exchanging of vows took place at the NAS Chapel last Saturday, July 12, when the former Miss Jean Richards became the bride of LT Joseph Dracek. Pictured above are the bride and groom cutting the traditional wedding cake at the reception given in their honor at the NAS Commissioned Officers Mess (Open).

THAT MAN friday

One Sunday morning, not too long ago, a friend of mine asked me if I would like to go sailing with him in the waters in and around Santa Monica.

I haven't been in the Navy too long, but wishing to display my ability (such as it is) on the water, I quickly accepted his offer and within hours we were sliding across the water just barely in sight of land.

It didn't take too long, however, for me to realize that my knowledge of sailing craft and boats WITHOUT motors was far more limited than I thought. Therefore, my buddy proceeded to administer instructions in the fine art of sailing.

When his confidence in my steering ability increased, my companion decided to take a sunbath and a snooze on the bow. But his rest was suddenly disturbed by my yells telling him to notice that we were being hotly persued by a group of our buddies in a 6-man life raft who were obviously bent on boarding and taking command of our craft.

My friend took control of the boat and, after some clever maneuvering, managed to put a considerable distance between our boat and the raiding craft. Once again, he resumed his position of rest on the bow and I was master of the vessel.

The distance continued to grow between the two boats, but I didn't remove my eyes from the "pirates." I was keeping my eye on them when I suddenly turned to notice that our craft was bearing down on a rowboat occupied by several fishermen who were shouting vigorously to attract our attention.

The occupants in the boat were ready to "abandon boat" since collision seemed imminent, but with the directions yelled at me by my bow-bound friend, I managed to reduce the speed of our craft, but contact with the other boat couldn't be avoided and then came the crash.

By some miracle, neither boat was injured, but the nerves of all personnel involved will never be the same. We quickly apologized and headed out boat back to the boathouse. On the return trip, we passed our raider-friends who were splitting their sides with laughter over the incident.

Embarrassing? You'll never know just how embarrassed we were and this is one sailor who thoroughly hopes that the next time he goes to sea, it will be with someone else in command and that the boat is well-equipped with a powerful engine. I've been convinced that I'm a modern sailor with no place in by life for sailing vessels.

This Week's News at a glance

Both a new altitude and speed record were credited to the Navy this week when Test Pilot Bill Bridgeman took the Navy's D-588-2 Skyrocket up to an altitude of 79,494 feet and attained a speed of 1238 mph, approximately twice the speed of sound. The flights were made last August but were not officially released by the Navy Department until this time.

* * *

Communist Truce Talk delegates were sounding more like they were willing to do business this week, possibly as a result of devastating air raids on North Korean power plants. The issue of prisoners of war was still the major problem preventing agreement but the Reds agreed to accept the terms of the Geneva Convention for the treatment of war prisoners. They asked for a two-day recess which means they may be awaiting the decision of a higher Communist authority.

* * *

This week TV cameras and radio microphones will be centered on Chicago when the Democratic Convention convenes. Expected to be as dramatic as the earlier Republican conclave, the Convention will involve five avowed contestants and a host of "favorite sons."

* * *

Included in Navy hospital expansion plans, according to the Navy Department, is the San Diego Naval Hospital. The construction, which will begin next year, calls for major permanent additions to the San Diego hospital's present facilities.

"J" Day Today

Today is a great day in naval history for this is the birthday of John Paul Jones, the distinguished naval commander in the Revolutionary War.

He was out of employment when the Revolutionary War began and went to Philadelphia to offer his services to the Continental Congress.

Probably the most important battle in which John Paul Jones was engaged was between the "Bonhomme Richard" and the "Serapis." Jones with the "Bonhomme Richard" attacked the English "Serapis," and by skilful maneuvering brought the two ships together. He lashed them fast and then the battle began.

When the commander of the "Serapis" called on him to surrender he replied that he had only begun to fight. The "Serapis" finally surrendered but the "Bonhomme Richard" suffered great damage and sank two days later.

The memory of John Paul Jones is kept fresh by the periodical exercises at the Naval Academy and other places. He undoubtedly was the most brilliant naval commander of his time.

Pretend—For Just A Moment

In just less than two weeks, the military and civilian men and women in the San Deigo area will once again be given the opportunity to render aid to a great — yes, indispensable— service whose business itself is rendering aid.

You've heard a great deal about Navy Relief and the coming Navy Relief Carnival in the past few months. But, as is the case so often these days, you haven't REALLY stopped to consider just how much service is given by this organization.

Pretend your badly needed at home, but financially unable to go; that there is serious illness in your family and you need medical care; that your going overseas and need help for your family so that they may return to your home away from San Diego. We could go on and on pretending. But, for many people, there's no pretending to it. These are real cases that happen to real people hundreds of times a year all over the world.

No, there's no pretending to it. The Navy Relief Society is an organization versed in handling only REALITY.

Stop and think. The Navy Relief Society once again calls for your support. Quickly respond because you may be helping yourself in the future by helping this organization now! Contribute to the Navy Relief Society TODAY!

the place is familiar

The building which houses the self-service laundry is in constant use by busy men, practically seven days a week, 52 weeks a year, and has been in operation since April 20, 1951. The laundry is located in Building 267, which up until that, time, had served as the "White Hat" club.

This facility is to NAS as a washing machine is to every home. Thirty-three automatic washing machines, four extractors, and 12 electric driers are available to personnel and the squadrons and units based here.

The personnel may either use the machines and wash and dry their own clothes or may leave their laundry with one of the employees of the Laundro-mat who, in turn, will do the laundry and have it for them to pick up the following day.

The laundry hours are from 0630 to 2200 on weekdays and from 0800 to 1600 on Saturdays and Sundays.

The NORTH ISLANDER

Vol. VIII July 18, 1952 No. 29

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

TELEPHONE EXTENSION 1475. Call this number to report news.

Contributions of news, features, pictures and cartoons will be gladly considered, and material submitted will receive careful handling. However, the NORTH ISLANDER assumes no responsibility for the return of material contributed. The editors reserve the right to make such corrections, changes or deletions in submitted copy as they deem necessary in conforming with the policy of the paper and of the Navy.

The opinions or statements made in articles published herein are those of the writers and are not, in any case, to be construed as official or as reflecting the views of the Commanding Officer or of the Navy Department.

John Phillips, Jr., ABAN — Reporter

New Skipper Takes Command of VS-25

CDR Elmar S. Waring Jr. assumed command of Air Anti-Submarine Squadron 25 in ceremonies held July 11 aboard this station.

He succeeds Lieutenant Commander A. Jack Kelly who has been with the squadron for two years and who returned last month with VS-25 from a tour of duty aboard the escort carrier USS BAIROKO in the Korean area.

LCDR Kelly will go to the Navy's Bureau of Aeronautics in Washington, D. C.

CDR Waring previously served on the staff of the Commander Cruiser Forces, Atlantic Fleet, as Force Aviation Officer and Force Navigator. He served aboard the Battleship USS MISSOURI, and until March of this year, aboard the heavy cruiser USS ALBANY.

Before that he served at the Naval Air Station, Pensacola, Fla., as Operations Officer. Some of his other duty stations have included the battleship USS OKLAHOMA, the destroyer USS CUSHING, flight training at Pensacola, Scouting Squadrons 9 and 71, Bombing Squadrons 1 and 16, the escort carrier USS GAMBIER BAY, Naval Air Station, Norfolk, Va.; and as Assistant Air Operations Officer aboard the large aircraft carrier USS MIDWAY.

LCDR Barton Reports To Comairpac Staff

LCDR Richard C. Barton has reported to the staff of VADM. H. M. Martin, USN, Commander Air Force, Pacific Fleet. The former Helicopter Squadron One executive officer relieved CDR Walter Sessums, USN, as cold weather operations officer.

After attending the University of Washington and Michigan State, LCDR Barton entered flight training and received his Wings in 1938. He has been executive officer of NAS Lakehurst, served aboard the cruiser USS ST. LOUIS, and at NAS Pensacola.

He reported to HU-1 in May 1951, and for a time was officer-in-charge of a squadron detachment in Japan.

CDR Sessums reports to the Wax College, Newport, R. I.

NAS Visitor Rules Told by Security

Many inquiries have been received by the Security Dept. regarding visiting by the public on the Naval Air Station. For the benefit of all personnel, the following information is briefly set forth concerning visitors at NAS.

There are no provisions permitting general visiting on the station except on special occasions. However, organized groups may tour NAS by first making a request with the Public Information Officer, who, in turn, makes arrangements with the Security Dept.

Properly identified servicemen can escort dependents and guests aboard the station to non-restricted areas. Dependents of NAS-based enlisted men may enter the air station unescorted through any of the gates by presenting a photographic privilege card or a temporary pass. They may go to the Navy Exchange, Family Hospital, the beach, Dispensary, Security Dept., theater, chapel, banking facility, or ship moorings. Dependents may also pick up enlisted men at their places of work on the station. Similar privileges are extended to wives of officers, who may in addition bring guests to Commissioned Officers Mess (Open).

Unescorted guests may visit persons listed on the Family Hospital patient register. Guests must be escorted while visiting the Enlisted Mens' and Chiefs' clubs.

Dependent children under 16, except those living in station quarters, must be escorted at all times on the station.

The privilege of coming aboard the station is extended to retired naval personnel and members of the fleet reserve.

As a rule, civilian employees may come aboard the station only in connection with their work. However, they may come aboard with their dependents for station chapel services.

New Wage Scale for SD Area Is Approved

The Under Secretary of the Navy has advised the Commandant, Eleventh Naval District, that the new wage schedule has been approved for the San Diego-Oceanside Area to be effective July 28, 1952.

Typical increases are five cents for the helper trades and ten cents for the trades of electrician, machinist and like ratings.

An overall average of eight cents per hour is reflected. These increases are in conformance with the General Regulations of the Wage Stabilization Board. A petition to the Wage Stabilization Board for further increase is being prepared.

Navy Makes Change In Initial Outfit

Starting July 1, 1952, blankets and pillows will no longer be issued to male enlisted personnel of the Navy as part of the initial outfit of clothing and will not be charged against him on his individual pay record.

Personnel issued blankets and pillows will sign a custody receipt and statement of understanding that blankets and pillows are government property and must be returned to the Navy upon discharge or released to inactive duty.

Farewell Party

MEMBERS of the Supply & Fiscal Dept. honored CAPT and Mrs. C. M. Boundy last week at a local restaurant. Pictured (left) to right) front row are: Mrs. W.B. Stuart, Mrs. Boundy, CAPT Boundy, Mrs. H.H. Hunt, and Mrs. J.D. Smith. Back Row: LT W.B. Stuart, Mrs. Ann Bloom, CDR H.H. Hunt, LCDR J.D. Smith, Mrs. Georgia Vaughn, and LCDR J.J. Scheela. The Boundys will go to Washington, D.C. where the Captain has been assigned to the Industrial College of the Armed Forces.

Georgia Byers Relates Her South American Adventures

An exciting five month journey over the towering Andean mountain chain and deep into the forbidding jungle of the Brazilian Matto Grosso is the recent experience of Georgia Byers, former IRD and Weather Central employee, now working at the Naval Supply Depot.

Her trip—which would be the envy of any member of the Explorer's Club—began last February when she headed southward by airliner through Mexico, Central America to Peru. Her final destination was a remote Indian village on the Paraguay River in the steaming interior of Brazil. Living in this primitive region is her brother, the Reverend Laurence Byers, a missionary ministering to the natives.

Miss Byers' air trip took her from Peru across Lake Titicaca, the highest navigable lake in the world at 12,500 feet, and on to La Paz, Bolivia, at 13,404 feet, said to be the highest airport in the world. After flying to the Bolivia-Brazil border, she was met by her brother. The final leg of the journey was by canoe down the fabulous Paraguay River, the habitat of the dangerous Parana fish. A week before her arrival a child, while swimming, had been torn into pieces by a school of the fierce Paranas, which can strip the flesh off of a human in a matter of seconds.

While in the Matto Grosso, she visited both the humble thatched huts of the common people and the homes of the wealthy plantation owners. Miss Byers observed and was impressed by the kindness and hospitality of the people, but says she prefers the gadgets of the American home to the primitiveness of this wilderness.

On her return trip she saw some of the more modern aspects of South America, passing through Sao Paulo and Rio de Janeiro, both up-to-date metropolitan centers, before embarking on the liner SS BRAZIL for New York.

First Aid Training Helps Islander Save Two Lives

Two lives were saved recently thanks to the quick thinking and previous first aid training of a Naval Air Station employee.

While enroute home from the San Diego County Fair Sunday morning, July 6, where he had won a blue ribbon award for his gem and mineral exhibit, Ronnie Miller, O&R Radar and Emergency Repair employee, noticed a large section of wood near plaster fragments in the middle of the highway.

As he stopped his automobile, Miller was startled by a loud noise and turned to look only to see a huge runaway bulldozer, which had already left a path of devastation in its wake, traveling down a decline.

Over the rumble of the machine, he heard a woman scream for help, so he hurriedly left his family safe in the car, took a flashlight, and ran to the house from which the scream came to find a woman in immediate need of medical attention. Miller administered first aid and applied a tourniquet to the woman's leg and then rushed to aid her husband who was in another part of the wrecked house.

The first aid treatments took fifteen minutes to perform and shortly after aid was administered, the ambulance arrived and removed the wounded pair to a San Diego hospital.

Miller learned first aid techniques during training at NAS in March, 1951, and cannot be too thankful for that training.

The training paid off once before when Miller aided a man who had accidentally fallen from a ladder and had injured his skull.

This is just one more of the many cases reported which prove the great value of first aid training. Miller, thanks to this instruction, helped save the life of these two people and may have the opportunity to do the same thing many times in the future.

Benbough, Coxey, Storms Win Benny Suggs Awards

Benny Suggs has been extremely active lately and has caused the gears to turn in the minds of creative men. Recently three employees of the Overhaul & Repair Department were struck by Benny's magic powers, and the results were extremely satisfactory to both the Department and the Suggestors.

Mr. Benbough of the Material Division noted that an excessive number of Bomb Arming Controls were being withdrawn from new issue stock.

Investigation on his part showed that a majority of these controls could not be used because the plunger extended beyond the fixed container. Mr. Benbough proposed a method of repair, acceptable to Engineering, whereby the solder which holds the electrical connector receptacle to the case is heated until the receptacle moves sufficiently to allow the extended plunger to become flush with the fixed retainer. His suggestion resulted in a yearly material savings of $9,500.00 for Naval Air Station, San Diego, and a $265.00 award for Mr. Benbough. The Committee on Awards recommended that this suggestion be forwarded to the Bureau for further study and possible application.

Mr. Coxey, of Production Control, developed a procedure to salvage and re-use the previously discarded small spark plug containers by reshaping them over a revolving plug die. Although the cost of a new container is only 27 cents each, Mr. Coxey is able to salvage a used container at a cost of 1 cent each. Considering the high volume of requirements, approximately 5,000 containers are now saved per day (1,300,000 per year) which reflects a saving of over $20,000 a year for this activity. Action is now underway to bring about Navy-wide Adoption. The Committee on Awards has granted a recognition award of $275, which may be increased when his idea is adopted at other activities.

Mr. Storms of the Electronics Division noticed that certain inverters were not being overhauled for the lack of non-procurable governor contact points. The inverters were critically needed. He proposed the use of a magneto contact assembly as a substitute. Engineering approved and now these inverters are being overhauled. This procedure results in a yearly saving of $1782.00 for which $100.00 was awarded to Mr. Storms by the Committee on Awards.

BENNY SUGG AWARDS—Coxey receives $275 beneficial suggestion check from CDR A. E. Paddock, of O&R, while Storms (left) and Benbough (right), also Benny Suggs award winners, look on.

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

COLUMN RIGHT—Is your column. Its purpose is to answer questions of general interest which affect your employment. Forward all questions to, "COLUMN RIGHT," c/o Industrial Relations Department, Building 415, or deposit them in the Beneficial Suggestion Boxes.

Q. What is the final written authority on the 4th step?

A. The final authority is Navy Civilian Personnel Instruction 195.7-2 which outlines the Navy Procedures for Administrative Pay Increases of Ungraded Employees.

Q. How would a physical handicap or limitation affect a man in regard to qualifying for the 4th step?

A. This question has already been referred to the Navy Department for a decision. As yet no final answer is locally available.

Q. How is the number of graded positions at NAS controlled?

A. The Bureau of Aeronautics assigns the total number of graded positions allowed at NAS. Separately assigned ceiling is set by the Bureau for the Overhaul and Repair Department. The apportioning of the ceiling among the other station departments is the responsibility of the Commanding Officer.

Q. How can an ungraded employee be promoted to a graded position?

A. An ungraded employee being considered for promotion to a graded position may be promoted if he merits the minimum Civil Service Commission requirements for the position.

Dance Sked Tonight

(Continued from Page 1)

sisted Special Services in contacting junior hostesses for the event.

The recently completed Recreational Facility, located in the South Beach area of North Island, is for the use of all NAS-based military personnel, both officer and enlisted, and their dependents. It is also open to personnel of ships tied up at North Island.

The Facility is primarily designed as a beach accommodation during the summer season and as a pavilion for organized parties, picnics and dances the year around. Consequently, the project will not provide a crew's lounge, television, radio and other facilities as was erroneously reported in the NORTH ISLANDER last week.

McNeil, Fuller Marry July 4th

On July 4, 1952, at 1730 in the Rectory of the St. Charles church, Albuquerque, New Mexico, Fred R. Fuller, AD1(AP), pilot attached to the BAMR office, and Jean D. McNeil of IRD were married. Fuller had formerly been serving in the Philippines and reported aboard NAS on April 6, 1951. Mrs. Fuller has been working at NAS approximately one year.

Relatives in attendance at the wedding were Mr. and Mrs. H. Randal Fuller, parents of the groom, Marjory A. Fuller and Virginia M. Barnhill, sisters of the groom, and Mary Amos, sister of the bride.

DONALD LYON, AMS3, takes time-out from his duties as volunteer carpenter for the Carnival, to get the feel of one of the many rides which will be part of the 1952 Navy Relief Carnival. The season's biggest event in San Diego promises to be the greatest in the five-year Carnival history. It's exciting! It's terrific! It's free! It's coming July 31, through August 3.

Supply & Fiscal Takes Lead!

With the "finish line" clearly in sight, S&F Dept. this week seized the lead in the big Navy Relief Carnival Drive race. The lead however is a scant 2.5 points over the former top horse, Navy Exchange. Operations, O&R, Communications, and Medical-Dental are now in a dead-heat with a fraction of a point difference among them. Security Dept. leaped ahead one place, giving the "also ran" title to Special Services this week. Still time to give your department a boost in the race—the drive will close on the Station July 29. Get in the race for the Mercurys!

Picnics Sked For This Week

The personnel of the Productions Control Division of O&R are having a picnic on July 26 at El Monte Park, just beyond Lakeside. All personnel of Productions Control Division who request tickets should contact their section supervisor.

On the 20th of July, there will be a picnic given by and for the officers of Squadron VA-702. The officers' families and guests will also participate in the festivities.

The picnic will commence at 1400 and will take place on the beach behind the COM (Open). Volleyball is scheduled as one of the main recreation activities.

A picnic is planned for Squadron VC-11 for this coming July 25. It is to take place at El Monte Park, in El Cajon. More than 600 are expected to come with their guests and many games are planned for all.

Meet Your Committee Members

"GRIPES? Yes, we get a few," commented Power Plant's Shop Committee chairman (left), when interviewed. An AMM, serving his first term on the committee, he is employed in shop 6235, bldg. 379, is a resident of Spring Valley. Center, receiving one of the more caustic type of gripes, is committeeman Charles J. Ellis, employed as AMMO, in shop 6246, bldg. 379. Ellis, also serving the committee for his first year, is a Chula Vista resident. Listening in at right is Milton Hughes, AMM, shop 6123-1, bldg. 194, an East San Diego resident serving his second shop committee term. Power Plant's Welfare & Recreation committee was pretty much on leave when the pictures were being taken, will be presented in a later issue.

Change of Command Aboard Floyds Bay

CAPT John W. Gannon, USN, took command of the seaplane tender USS FLOYDS BAY in shipboard ceremonies Wednesday afternoon. He relieved CAPT Herschel A. House, USN.

CAPT Gannon reported here from the Naval War College, Newport, R. I.

He graduated from the Naval Academy in 1931, and received his Navy Wings in August, 1934. He then went aboard the carrier USS LEXINGTON.

In 1936 CAPT Gannon went to the cruiser SAN FRANCISCO. Then from 1937 to 1943 he flew with Navy Patrol Squadrons in the Atlantic. He was on neutrality patrol in Newfoundland when World War II began.

From 1942 to 1943 he commanded Patrol Squardon 203, based in the San Juan and Norfolk area. He then went to Quonset Point, R. I., where for two years he helped train anti-submarine warfare squadrons.

CAPT Gannon entered the Pacific battle in 1944 when he became navigator of the carrier USS LEXINGTON. He saw action in the battles of Leyte Gulf and the Philippine Sea. In 1945 he was made executive officer of the escort carrier USS CAPE GLOUCESTER.

This was one of the first carriers to launch Marine Corps air squadrons. Arriving at the end of the Okinawa battle, the CAPE GLOUCESTER brought out the first prisoners from Japan. CAPT Gannon served aboard until 1946 when he was sent to the Bureau of Aeronautics, Washington, D. C., as War Plans Officer.

In 1949 CAPT Gannon was made commanding officer of NAS, Miramar, Calif., remaining there until reporting to the Naval War College in 1951.

By "WINDY" SPLICHAL

By Windy Splichal

Don Nuzzo and his wife have just returned from a five weeks vacation in Penn., visiting first his mother and then on to Elko, Nevada to visit their sons.

Julie Zatarian spent four week's vacation with friends in Dallas and Ft. Worth, Texas. We know she had a good time by the happy smiling face.

Deepest sympathy is sent to Mrs. Ward, our matron, in the loss of her husband, to Ola Weber in the loss of her father, and to Ruth Miller in the loss of her mother.

L. C. Thompson returned to work after five weeks of vacation. He and his family went to Minnesota to visit friends and relatives. On their return trip they stopped at scenic points and national parks along the northern Highway.

Production Control is having their first annual picnic on July 26 at El Monte Park. They wish to extend an invitation to all of the Electronics Division to attend. They shall have Bar-B-Que beef with all the trimmings and plenty of beverages to drink, at the cost of $1.50 per family. Tickets are available thru Mr. Waymire, Section Supervisor, and Fay McAdams Allen, Dispatch Station M. Hope to see many of you there.

The Navy relief carnival is two short weeks away and as yet the Electronics division has not reached its 100% goal. Let each of us do our part to help the Navy help its own. Get your tickets today.

X-Rays to Begin

(Continued from Page 1)

rayed. Ships Service and other non-civil service personnel aboard the station may take advantage of this opportunity for a chest X-ray by obtaining registration cards at the Civil Service Dispensary and reporting to the chestmobile at their convenience.

Department heads will arrange for scheduling their employees for the survey in accordance with the planned itinerary of the X-ray unit listed below.

AREA I—Directly north of Building 90 on Saufley St. Personnel in buildings 94, 801, 90, 36, 341, 415, 3, 4, and all smaller buildings immediately adjacent thereto, are to be scheduled for an X-ray at this location. Chestmobile will be available from 0830 through 1600.

O&R Dept.: July 21, 22, 23, 24, 25.

Public Works: July 28, morning of July 29.

Adminis., IR, and Security Departments: Afternoon. July 29.

AREA II, Northeast corner of Building 379: Personnel south of Cecil Road, buildings 334, 35, 66, 333, 65, 27, and adjacent areas, including the Spanish Bight area, will utilize this location. Hours, 0830 through 1600.

O&R Dept.: July 30, 31,

Supply & Fiscal Dept.: August 1 and 4.

AREA III, Northeast corner of Building 378: Personnel in buildings 378, 802, 314, and all outlying areas west will utilize this location. Hours: 0830 through 1600.

O&R Dept: August 5, 6, 7.

Transportation Dept. and miscellaneous units: August 8.

Six Bee-utiful Neeeew Mercureeeeeees! One of them could very easily be yours. Give to your Navy Relief today and your contribution receipt may mean one of those Mercurys in your garage soon.

LCDR Oveland Leaves Navy

LCDR Collin L. Oveland, Commanding Officer of the first Naval Reserve squadron to volunteer for active duty in the Korean action, has returned to civilian life.

Since January, LCDR Oveland has been Assistant Carrier Air Groups Training Officer on the Staff of VADM H. M. Martin, Commander Air Force, Pacific Fleet.

LCDR Oveland was one of the first Reservists to qualify in the F9F "Panther" jet . . . the type plane his squadron flew against the enemy in Korea. From May 31 to November 29, 1951, VF-781 jets streaked across enemy skies on 2200 combat sorties.

After joining the Navy in Long Beach, Calif., in February 1941, LCDR Oveland entered flight training and received his commission and Navy Wings October 1, 1941, at NAS Corpus Christi, Texas. From 1942 to 1944 he was in the Pacific, and in 1945 joined the Navy's first jet fighter squadron.

His World War II Pacific action included raids on Tarawa and Makin Islands; occupation of the Gilbert and Marshall chain; and raids on the Japanese stronghold at Truk Island. He was with the support forces during the New Guinea landings and the raids and occupation of Guam, Saipan, and Tinian in the Marianas.

He was in the famous "Marianas Turkey Shoot" in which 402 enemy aircraft were shot out of the air in one day, and also participated in the "First Battle of the Philippine Sea."

LCDR Oveland wears the Distinguished Flying Cros; eight Air Medals; the Purple Heart; Presidential Unit Citation; Asiatic-Pacific ribbon with seven combat stars; Korean and United Nations ribbons.

MAXINE GATES, "America's Biggest Glamour Girl," pictured with NAS entertainer Buddy Viotti, will be a feature attraction, along with other Hollywood stars, at the free stage show presented each night at 1900 during the Navy Relief Carnival. Maxine has appeared in over 20 Hollywood productions and is currently under contract with Columbia Pictures.

Two Islanders Receive High School Diplomas

June 13 marked a great day in the lives of two North Islander employees, as they received their well earned High School diplomas. Receiving these diplomas were "Tommy" Caldwell who is employed as a Snapper in the Production and Control Department and H. W. Truesdale.

These men deserve hearty congratulations for their efforts and successes in attaining this worthy goal. By attending night school two and one half hours a night, two nights a week for two semesters they earned enough credits to fully qualify themselves for the diploma.

WHO IS SHE? The attractive young lady chosen for this week's NORTH ISLANDER pin up has a name, but what is it? Despite her anonymnity, the pin up editor decided that this comely Miss' obvious attributes warrant the picture's publication.

Legion Post Names 1952-1953 Officers

Roscoe T. Morse, Electronics Division, and Mel Thornton, Planning Division, O&R, were elected to first and second vice commander, respectively, of the 22nd American Legion District at the regular annual election meeting at Oceanside Sunday.

Morse, who was San Diego County Council commander, and Thornton, who has held three Legion offices through this past year, has been active in veterans' work ever since World War II.

At the July meeting held in the War Memorial Bldg., Balboa Park, the North Island Service Post 753 elected its new officers for the year 52-54. Installation shall be on July 26 at 8:00 p.m. at the War Memorial Bldg. in Balboa Park. It will be followed by a dance. Everyone is urged to attend and to enjoy themselves.

The newly elected officers are as follows:

Charles Lee, Commander.
John W. Rixon, 1st Vice Commander.
Rudolph Fuentes, 2nd Vice Commander.
Harold R. Nichols, 3rd Vice Commander.
Arthur F. Burns, Chaplain.
D. "Woody" Field, Sgt. at Arms.
Archie D. Breeden, Past Commander.
James O. Vinson, Arthur F. Burns, D. "Woody" Fields, Ernie L. Powell, John H. Gibo, Robert A. Ladlow, Mel "Bunker" Hill and Harold G. Terrill, Executive Committee.

Charles E. Powell Sr. has been appointed the Adjutant, Harold R. Greenwell was appointed to the Finance Office, Rosco T. Morse is the service officer and James O. Vinson is the new Historian.

WING SHOP news

The Rinky Dink ball club, made up of the wing shop men, is now undefeated in seven straight games, and still willing to meet any other ball club.

Everyone in the wing shop, both civilians and sailors, really enjoyed the free coffee and donuts given by the fine girls, who make rates lately, Dorth, Nora, Lee, Georgie and Velma.

It was the one and only Joe Matyas who made "Snapper" in shop 3105.

Quite a few of the fellows and girls are sporting new cars of all kinds these days, such persons as Bill Harvison, Don Hayle, Nora Johnson, Carl Foresman and Bob Williams.

All of us regret very much to see J. F. Stapp check out this week. He will be missed.

Lee Spencer changed her name over the Fourth from Spenser to Garcia. She is our Bride of the Week.

The wing shop is very proud of their men. We have three more men added to the fourth-step list. They are Carl Foresman, Don Hayle and Lester Koster.

Welcome back this week after a four-week vacation to Jack Mercer, who had a swell time in Texas; and Dorothy Wemberg, who had a wonderful vacation in Florida.

The time is growing short! So hurry—contribute to your Navy Relief today. Your contribution receipt may entitle you to a brand new Mercury to be given away FREE during the Carnival. Let's Go!

"PEGGY WINTERS TALKING, just about ready for the next show at the Navy Relief Carnival, Fifth and Harbor Drive, in San Diego. Come on down and see me." Peggy and many other lovelies will perform in the delightful Bonnie Lee All-Girl revue, as just one of many fun-filled features of the big annual carnival at the Navy Athletic Field July 1 through August 3. She's an eye-ful here, but wait 'til you see her on the stage!

Fourth Estaters Help Keep Islanders Posted

Valuable part-time members of the NORTH ISLANDER staff are its columnists, who faithfully glean out the goings-on about the scores

Splichal Dreher

station and rush their weekly compilation of personals, vacations, and anecdotes to the office prior to press time.

Their's is no easy job, with other more urgent full time duties, preparing 150 to 300 words of hot copy on Tuesday so it can be put into cold type on Thursday. But despite deadlines--and no member of the Fourth Estate likes deadlines--they always manage to come through with their accounts of events of the week at North Island.

The NORTH ISLANDER's regular civilian columnists, B. Dreher and Mildred Splichal, serve as the chroniclers, town criers, and historians of their divisions. Vital statistics—births, marriages, and retirements — they faithfully report; the social events— the parties, picnics, and cake-cuttings of the division find prominence in their columns. And they are always alert to those little important things which always make a column, such as the results of Joe Doakes' fishing trip or the highlights of Lucy Jones' vacation trip to Colorado.

Mrs. Dreher, the Islander's senior columnists, has been turn-

Cox Swisher

ing out "Powerplant Paragraphs" for the last four years, missing not more than a half-dozen issues in the entire period.

"Powerplant Paragraphs" developed out of a weekly mimeograph paper, which Mrs. Dreher edited, circulated to the employees in the division. Newspaper work is not new to her: it dates back to her school days when she was editor of the North Hollywood High tabloid.

Former editor of two school papers back in Milwaukee, was Mildred Splichal. "Won't say how long ago," she mused. For the last year Mrs. Splichal has been writing Electronics Division's "Electrons." She took over the column started by Harold McComas, when Harold transferred to Production Control. She likes the cooperation she gets from Electronics people, who are alert to call in or write up news items for the column. "Millie" is also active in the North Island Legion Service Unit Auxiliary, and will be installed Auxiliary president July 26.

Scores, league standings, and the latest dope from the athletic shack are the stock-in-trade for Leon Cox and Bob Swisher, Two NORTH ISLANDER sports columnists. Leon writes "Captain's Cup Lowdown," a weekly report on the NAS intra-mural sports program. With no previous journalism experience before coming to NAS, Leon is enthusiastic about sports writing (with the exception of deadlines) and wrote most of the Skyraider basketball stories last winter.

Bob in his "AirPac Sports" column reports on the intramural sports activities of the Fleet units at NAS. A football and basketball announcer on a Kentucky network in his pre-Navy days, Bob is now sports editor of the monthly Airpac BULLETIN and handl[illegible] sports department for t[illegible] day night "Take-Off Ti[illegible] Your Navy" on KSON.

Large Military Audience Sees "Prince" Open

More than 1200 enlisted Marines and Navymen were in attendance at last night's opening of the present Star Light Opera production, "The Student Prince," which began a two-week run.

Singing the title role is Corporal Tom Batz, a locally based Marine, in whose honor the Marines attended the performance.

Military personnel are admitted, in uniform or in civilian clothes, to the non-reserved section for a large reduction in admittance price.

Also to facilitate military attendance at the performances, a special bus leaves from the Armed Forces YMCA, near the foot of Broadway, to Balboa Park Bowl, at 2000 each night of the run. The bus is also available for those wishing to return to the downtown area.

movie menu

SATURDAY, July 19—"The Lady in the Iron Mask" starring Louis Hayward and Patricia Medina. Louis Hayward is commissioned by his erstwhile enemy, France's prime minister, to go on a dangerous mission. He is informed that 20 years before, twin daughters had been born to the king and queen, and that one princess had been banished while the other was groomed for the throne. A villianous duke and Philip of Spain have conspired to substitute princesses—and the rightful heiress, consigned to a dungeon, now wears the iron mask which had been fashioned for her sister. Hayward as D'Artagnan aided by his musketeer comrades bluffs his way into prison and starts his adventurous task. This is flaming adventure, laughing at danger and sparkling with fun, frolic and romance.
SHORTS, "Turn Tail Wolf" and "Trial by Trigger."
Running time, 1 hour and 51 minutes.

SUNDAY AND MONDAY, July 20 and 21—"Pat and Mike" starring Katherine Hepburn and Spencer Tracy. When the lady athlete from a swank college meets the gambler from the shady side of Broadway, something has to happen and it does! Under his guidance Katherine puts sex appeal in the sports racket as a champion of golf, tennis, baseball, track, skeet-shooting, ice hockey, archery, basketball and judo. A love affair is involved all through the picture. This is one of the year's punchiest comedys, ringing the bell with love and laughs.
SHORT, "In Case You're Curious."
Running time, 1 hour and 51 minutes.

TUESDAY AND WEDNESDAY, July 22 and 23—"Lovely to Look At" starring Red Skelton and Kathryn Grayson. It all happens when three men try to raise money for a broadway show. They are unsuccessful in their attempts but find out that one of them has a half-interest in a Paris dress salon. The three men go to Paris to try to sell the half-interest but have no luck. The other partners of the salon won't sell, it leads to a musical comedy in the most romantic of all cities.
SHORT, "Ain't She Sweet?"
Running time, 1 hour and 57 minutes.

THURSDAY AND FRIDAY, July 24 and 25—"The Story of Robin Hood"—Again the bandit of Sherwood Forest is brought back to the screen but this time by Walt Disney. It is packed with adventure in glorious color. The man who takes from the rich and gives to the poor proves to be as great as ever. Truly an entertaining picture.
SHORT, "Buddy Morrow and His Band."
Running time, 1 hour and 45 minutes.

powerplant paragraphs

By B. Dreher

DON WARD, son of Inspector Jesse Ward, is having a very successful season in the Star-Light Opera Company cast which just finished "Show Boat" and is now rehearsing for "Kiss Me, Kate." Don is a talented dancer and instrumentalist.

CLINTON MARR of 6202 still has three weeks to try and make a killing with his fishing boat. Rough weather last week kept him anchored at Avalon for three days, but he's going out to try for the big ones again this week.

E. L. SMITH was back in the paint shop Monday, after being on leave over three months following a major operation. All the boys were glad to have him aboard again.

WINSTON McPHERSON returned from his vacation this week. He's just another one who is extolling the beauties of Yosemite National Park this year. The heavy snow is still melting and there is lots of water to brighten up the picture.

REGINALD BEANE of 6251 is being called "Pop" since Friday, July 11th, when Reginald Beane was born at the Mercy Hospital. Son is named after Pop but won't be called "Jr."

K. B. NOTSCHAELE of 6139-2 is on a real vacation. He'll be gone ten weeks and should have some interesting tales to tell when he returns to the United States. Notschaele has gone to Belgium to visit his sister and got there by flying from New York to Paris and thence by train to his old home town in Belgium.

"WOODY" SMITH of Shop 6237 got back to work this week, after a visit in Yuma. Might be the reason is a new wife, the former Corinne Johnson. Congratulations, "Woody."

E. L. "PAPPY" MOORHEAD of 6235 is on a month's leave and is spending it in Georgia.

ARDEN L. SNIFFEN came back to work Monday after being "housekeeper" for the family for a few weeks due to the birth of Arden L. Sniffen, Jr., on June 11th. A. L. Sr., says Jr., his sister and mother kept Father plenty busy too many hours every day.

ART SMITH, son of "SCHMITTY" SMITH in the paint shop, won one heat and ran one of the fastest qualifying times at the Soap Box Derby held in San Diego Saturday. This was Art's second try for the chance to go to Ohio and we understand he's started to fix his racer over already in preparation for next year's Derby—which he says he'll win—he hopes.

CHARLES HENRY LUDLOW, III, returned to work after two weeks spent aboard the USS WEIDEN. Home port is Long Beach.

The hotly contested Shuffleboard Contest held in the Paint Shop was won at long last by JIM MANUAL and "SHORTY" RAMIREZ.

"CASEY" REED was headed for the North and good fishing country the last time he was heard from at Hearoldsberg, Calif., right after going on "leave."

A. R. TROVINGER has returned to Shop 6234 after an absence of three and a half months. Welcome aboard, Art.

BOB COLLINS of the Plating Shop has two interests in life right now—the gal he's soon to marry and a coffee shop in National City where they both are busy remodeling. When the shop is remodeled—no doubt they'll find time to get married.

150 Take E-5 Exams at NAS

Last Tuesday approximately 150 of the personnel from North Island, Ream Field and Miramar took the E-5 Exams which were given here on North Island.

These Fleet-wide exams were given under the guidance of the personnel from Information and Education in the NAS Crew's Mess Hall, Building 317.

The previous week on July 8, 450 men participated in the service-wide competitive examination for advancement to pay grade E-4. Men throughout the Naval Establishment will be notified of the results of this test in October when those making their rates will be rated.

On July 22, the Fleet-wide exam for advancement to pay grade E-6 will be given.

DOING SOME LAST MINUTE REVIEW before taking the E-5 Exam last Tuesday are H.E. Adams AM3 from the X-23 Division, C.R. Harless AM3, from O&R and B.J. Hilton AM3 from Repair and Flight test.

Winter Bowling Loop Starts Play Sept. 12

At the meeting of team captains July 9, it was decided to open League bowling play September 12. The circuit, which plays at Pacific Recreation Alleys, is entering its thirteenth year of play and will consist of 16 teams.

Last year's champions, the Jiggers, are back on the firing line, with Joe Calcidise, O&R Plant Div., captain, at the helm. Quite a few of last year's squads have signified intentions of repeat performances, but with new faces in the lineups.

Steve Hudack, O&R Planning, has been elected league president for the year, with Ray Farrell, O&R Metal-Machine, vice-president, and Jack Campbell, secretary-treasurer.

All male civilian bowlers interested in joining a team for winter league play, should call Jack Campbell, ext. 605.

about books

SUBMARINE! by CDR Edward L. Beach, USN.

SUBMARINE is the stirring account of the USS TRIGGER and several of her sister ships which prowled the Pacific bringing havoc to the Japanese maritime and naval fleet during World War II.

CDR Beach, the author, was a member of the TRIGGER crew from the time she was commissioned, prior to December 7, and was on all her patrols for three years, except on her last mission into the dangerous Japanese waters from which she never returned.

In the book are the stories of the WAHOO, SEAWOLF, HARDER and other submarines which accounted for thousands of tons of Japanese shipping. Perhaps the most thrilling episode of the book is the dramatic story of the ARCHERFISH which stalked and finally torpedoed the Japanese aircraft carrier SHINANO, ending the brief career of the largest carrier ever built.

THE THUNDER ALBUM by James Thurber

If you can pry your eyes from TV and forget about conventions for a while, Thurber's latest book will offer you some top-notch summer reading.

America's greatest contemporary humorist presents 16 sketches about people—friends, relatives, ancestors, and neighbors — from his hometown in Ohio. Most of the people in his sketches are common ordinary people who cannot claim "men-of-distinction" titles, but Thurber writes about them with sympathy and skill and makes them fascinating characters.

The 16 chapters cover reminiscenses of his childhood, youth, college days, and early job as a newspaper reporter. Together they add up to a wise, humorous, and nostalgic profile of the American Middle West of the past.

Hawaiian Reserve Unit Visits NAS

Approximately 103 Naval Reserve enlisted men toured the Naval Air Station and installations based here Thursday, July 3, as part of their annual cruise.

Then, men who arrived in the San Diego area recently aboard four destroyers belonging to Destroyer Division 92, are all residents of Honolulu or the immediate area. The officer in charge of this group was LCDR Hart Wood.

During their visit in this vicinity, the reservists visited virtually all military installations in and around the San Diego-Long Beach area and underwent training at several of these bases which fulfilled a portion of their reserve training.

The group returned to their home base of operation aboard the USS MC GULFIN (APA-199) yesterday.

CAPT MacIntosh Leaves AirPac

Commander Donald E. MacIntosh, Force Operations Officer on the Staff of VADM H. M. Martin, Commander Air Force, Pacific Fleet, has been promoted to Captain, USN, and will report to the National War College, Newport, R. I.

In 1933 he was graduated from the Naval Academy and following duty aboard the cruiser USS MILWAUKEE entered flight training. He received his Navy Wings in 1936.

Prior to reporting to his present duty, Capt. MacIntosh was operations officer for Fleet Air Wing 14.

'Raiders Take 6 Games In 6 Consecutive Days

The fast-stepping Naval Air Skyraider Softball Team increased its rapid pace by beating six opposing teams in six consecutive days. In these games, the 'Raiders scored a total of 71 runs while holding down the opposing teams to 10 runs. In playing these six games, the softballers traveled from their home-diamond here at Mainside, to March Field in Riverside, NAF Inyokern, and Nellis Air Force Base in Las Vegas.

On Wednesday, July 9, the 'Raiders began their string by defeating Camp Elliott. In this game, which was halted in the fifth inning because of the lopsided score, the home gang won by a decisive 22-0 score. The winning pitcher was Jim Brown of the USS BON HOMME RICHARD, and the Airmen's hitting was highlighted by the home runs of two men who had never before collected round-trippers. They were Ken Hoffman of VF 721 and Russell Davis of FAW-14.

On Thursday the team mangled the Camp Matthews team 12-2, with John Huffman of Fasron 110 receiving the win in a game that featured many Matthews errors.

Three Road Trip Wins

Friday, July 11, the Skyraiders began their road trip which proved so successful. They first traveled to Riverside to meet the March Air Force Base. The heavy hitting of "Hap" Ivey combined with the pitching of Styles of VP-46 to set down the Flyers 12-2.

Adolph Mason was the star of the game on Saturday, July 12 when the team traveled to Inyokern to meet the Naval Air Facility's team. For the four innings he pitched, Mason threw a perfect game. He allowed no hits and pitched to the minimum of 12 men. After the 'Raiders had a commanding lead, he was lifted for another pitcher. "Hap" Ivey of Fasron 691 was the big man at bat with a home run driving in two runs.

Last Sunday, the Skyraiders played the last game of their road trip at Nellis Air Force Base in Los Vegas. John Huffman was the winning pitcher as the home team won 5-2. The game featured a home run by "Red" Lundell of FAIRBETUPac.

Upon returning home, the softballers met the Naval Hospital in an Eleventh Naval District League tilt. In this game, a new pitcher was shown for the first time. Mickey Conery of the USS VALLEY FORGE pitched and won his first start as a member of the Skyraiders. The final score was 6-1, and featured the hitting of Lee Troxler of VP-42, and once again "Hap" Ivey.

The next home game will be played Monday when the Skyraiders meet the Naval Station in a 11ND League crucial. The 'Raiders are in need of victories in most of their remaining games to maintain their one-half game 11 ND League lead.

TOASTMISTRESSES MEET

The regular meeting of the North Island Toastmistresses will take place next Wednesday at the La Avenita Restaurant in Coronado. The meeting will begin at 1730 and dinner reservations may be made by calling Jean Sheedy, ext. 1095.

FAW-14 Wins Fleet Air Crown Blanks Miramar, 10-0, 12-0

by Al Burgin

Fleet Air Wing FOURTEEN's softball team made a clean-sweep of the Fleet Air San Diego softball crown this week by defeating Naval Air Station Miramar's representative from Composite Squadron ELEVEN, 10 to 0, on Monday, and 12 to 0, on Wednesday.

Lieutenant James L. Ball, FAW-14 manager, was presented with the perpetual Fleet Air San Diego trophy at completion of the Wednesday afternoon game at Murrey Field by Chief J. "Red" Harris, of ComAirPac's Force Athletic Office.

VC-11 Swamped in First

Monday afternoon the two teams met on Miramar's Schrieber Field as Robert Ray blanked the Blue Barons, 10 to 0. In the top of the first frame, VC-11 collected one hit, but failed to follow through to score. And in the second half of the initial frame, Fleet Air Wing FOURTEEN unleashed a scoring spree with four hits for four runs.

Jim Smith, a FASRON 110 player, started the rally with a double to left field and Maurice Banks, of VC-11, singled to right field to score Smith. Jack Huntsinger scored Banks as he got on safely because of an error. Arthur Lundell, playing third base, and from FairBetuPac, was gifted with a broken bat single down third base. While Catcher Baarsde was standing in the batter's box, Huntsinger scored on a pass ball. Baarsde was later walked and Al Culp, playing center field, collected the last hit on the inning to score Lundell.

The Wing picked up one run in the top of the third as Banks singled and was safe on an overthrow. He was moved on to second and third as Huntsinger grounded out. Banks was scored on Lundell's single over third base.

Leading 5 to 0 in the fifth, FAW-14 gained one run as Smith walked and was sacrificed to third by Banks. He scored on Huntsinger's single over second base.

Rightfield Bill Reed set up the next score as he was called safe on a "slow roller," stole second and advanced to third on a pass ball. James Clemons powerhoused a circuit clout in deep center to put the Wing out in front 8 to 0.

In the final frame FAW-14 collected two additional runs. With two men away, Baarsde walked; Culp walked; Reed walked; Ray walked; and Clemons was issued the last walk of the inning, and the final score read 10 to 0 in favor of FAW-14.

11 Runs in First Inning

At Murry Field on Wednesday afternoon Robert Ramsey, FAW-14's ace hurler, was credited with the win and VC-61's Jim Moore was tagged with the loss.

Air Pac Sports

By BOB SWISHER

FAW-14's softballers, who at the season's start were regarded as just another ball club, won their second title of the month Wednesday by defeating Miramar for the ComFair crown. They replace Fairbetupac as champions of the intramural circles of North Island, Ream Field and Miramar.

The Wing actually didn't have as much trouble winning the two-out-of-three game series as they did taking their own North Island loop. Strengthened considerably by the augmentation rule, they blasted the Miramar representative, VC-61, by 10-0 and 12-0 scores. Their hurlers, Bob Ray of VC-11 and their own Bobby Ramsey, gave up only six hits while slamming the door for 14 frames.

A few records might have been shattered in the final game Wednesday during a wild first-inning. The Wing counted 11 times on only four hits as the Miramar pitcher, Jim Moore, issued eight walks. Altogether, 16 men batted during the 3--minute inning. A good idea of what a hectic opening session Moore endured is seen in the number of pitches delivered. Moore wind-milled 64 pitches, of which 39 were balls, during the 11-run uprising. Contrary to that, Ramsey, while recording his fourth consecutive shutout, threw only 34 balls the entire seven innings.

The Wing will now meet the NAS intramural champs next week for the Wright Trophy.

SPORTS

pigskin previews

NORMAN WILES is another of the returning backs who must undergo the drastic change from the single-wing formation to the wing "T."

Norman weighs 193 pounds, stands 6 feet tall, and is 22 years old. He is from Portland, Oregon, where he played his first football at Cleveland High School. He received credit for two years of high school football playing in the backfield.

At this time, it looks as though Norman will end up in the fullback spot. He is the type of man who will be invaluable in the "T" formation pets—quick openers ,and swing passes to the fullback.

With this little "Blurp," we wish Norm a fine season, and we know his ability makes this possible.

MANUEL AJA, is playing his sophomore season with the Skyraiders. Manuel, who stands 5' 9", is 24 years old, and is a native of Buckeye, Arizona.

He is one of the most experienced men of the Skyraiders team. His experience includes four years at Glendale High in Glendale, Arizona, and four years at Arizona State, Tempe, Arizona.

Manuel was named to the Border Conference's All-Star team in his last year at Arizona State.

At the present, it appears that this year Manuel will be used in the defensive backfield a great deal. In a pass-defense scrimmage held recently, Manuel covered the entire backfield to intercept many passes.

Fasron 7 Beats Ream Field, Takes Table Tennis Title

Fasron-7's table tennis team capped their clean-sweep of the FAD North Island league last Friday by knocking off Ream Field 3-2, 3-2 for the Fleet Air San Diego title. Fasron had won nine straight games in the regular North Island season.

Playing both matches of the two-out-of-three tournament the same day, Fasron was forced to win the doubles in the morning session to take that match. Trailing 2-1 after losing two of the three singles, LTJG P. Colen and M. O. Gautier teamed to win the doubles and save the day. The doubles count two points while singles count one.

Things were quite different that afternoon. Colen duplicated his morning feat by taking another set and Gautier and J. C. Purkey did likewise to give Fasron a clinching 3-0 lead before the doubles came around. They dropped this double-set to make the final count 3-2.

What's the Catch?

Last week, fishing showed startling improvement with over 600 barracuda being taken. Although the Yellowtail slowed down a little, the hot runs of "skooters" provided an action-packed day for those who ventured into the Coronado Island waters.

Two men tied for the honors of the week by both landing 16 pound "Yellows," LCDR J. C. Minyard of VU-7, and LT C. R. Wollums of FASRon 7 were the lucky men who won rod, reel and 250 yards of line.

BOXING PROSPECTS AT ALL-TIME LOW

During the past five or more years, the Naval Air Station and Fleet Units based aboard the Air Station have teamed-up to produce some of the best boxing teams in the entire fleet. However, this coming year's prospects are at an all-time low. Boxing Coach, John Goudy, told this writer that in his many years of experience at the regins of the Skyraider's pugilists, he has never seen such a scanty crop of prospects for a coming season.

All men with amateur boxing experience, or those who can see themselves as "Sugar" Ray Robinsons or Joey Maxims of the future are urged to contact Chief John Goudy through the Airpac Athletic Office.

WHO NEEDS A HAMMER?

Local newspapers recently released a story on the University of Southern California's giant shot-putter Perry O'Brien. It's reported that big Perry discovered the lack of closet space in his apartment at Helsinki, Finland. Quick to think of an answer, Perry drove nails into the bulkheads to improvise clothes hangers. This in itself wasn't so strange, but the fact is that he drove in the nails with his bare fists.

WILLING TO WORK TOGETHER

The Skyraider Football Team is showing a tremendous willingness to buckle-down and work as a single unit. If this is maintained in inter-team scrimmages, the team spirit will certainly be high when they meet such formal opposition as the Los Angeles, "World Champion" Rams.

The Naval Training Center's Bluejacket Football Team, is said to be one of the best in years. However, a team which is made-up of so many individual stars, often doesn't come up to early season expectations.

SOFTBALLERS CONTINUE FAST PACE

The Naval Air Skyraiders Softballers continued to make it a hot race for both the 11th Naval Districts Major Softball League and the Amatuer Softball Association's San Diego League. This helps prove the caliber of the team in that they are playing three to five games a week.

'Raiders, Bluejackets Stricken by 'Ramitis'

"Ram" fever hit the camps of both the Naval Air Skyraiders and the Naval Training Center Bluejackets, as each digs in for its half of the second annual Navy Relief benefit game with the champions of the world. The big gridiron classic, which will be augmented by marching military bands and other pageantry, will be played at Balboa Stadium on Friday night, August 8, starting at 2000.

The complete East side of Balboa Stadium will be reserved for the military personnel of both NTC and the Naval Air Station. This will allow approixmately 2300 tickets for the officers and men of the Naval Air Station.

Fleet units based aboard the Naval Air Station may obtain their tickets from a special committee which will be formed in each individual unit. Naval Air Station divisions, and departments may obtain their tickets through the NAS Special Services Officer, LT Boudreau. Tickets are priced at $2.00, $3.00 and $3.60.

Last year, a crowd of more than 20,000 fans turned out to see the Navy Relief spectacle, and by the appearance of this year's pregame sales, the crowd will by far exceed last year's.

The famous Los Angeles Rams, 55 strong, open their season with this game. Every veteran star and rookie is slated to play. The rookies incidentally, are nearly all ex-collegiate stars who earned All-American rating for 1951.

Captain's Cup Lowdown

The second half of the Captain's Cup Softball race came to a close Tuesday with Special Services on top with a perfect record of 12 wins against no defeats, followed closely by Boat House with 11 wins and 3 defeats, and G.C.A. with 10 wins and 3 defeats. There are four teams tied for fourth place, Supply, Metal Machine, Planning and Inspection, all sporting records of 10 wins and four losses each.

The first game of the playoffs went to Special Services by a score of 8-6, after seven innings of hard played softball.

THE NAVY RELIEF CARNIVAL JULY 31, AUG. 1, 2, AND 3

GIVE TO NAVY RELIEF TODAY AND YOU MAY HAVE A MERCURY

VU-3 Man Pitches No-Hitter Opener

John Arce, star pitcher of Utility Squadron 3, won VU-3's opening softball game of the second half of the softball season by pitching the first no-hit, no-run game of the intra-squadron league, defeating HS-2, 3 to 0, on Buchi Field, July 10.

Arce pitched flawless ball for the seven inning game. He gave up one walk while striking out five helicoptermen. Posting a season's record of six wins and two losses, Arce had a perfect day at the plate, blasting out two hits and one walk in as many times at bat to pace the dronemen to victory.

Opening the second half of the season the team is set with "Indian" Anckner behind the plate, Harlan Price at first, "Buck" Meehan playing second and utility pitcher, Ken Brooks covering the third base corner, and team captain, Harold "Dip" French at short-stop.

In the outfield, patrolling the left pasture, is Bill English. Milt Lachowski ably covers centerfield and Tom Fennell is in right field. Ed Allen and Dick Sufficool round out the outfielders. John Taroegel, "Buck" Meehan and "No-hit" Arce, will carry the pitching chores.

With the first half championship already in VU-3's pocket, the chief competition will come from HU-1 for second half honors. HS-2 and HS-4 round out the league.

Ream Names Dream Girl At Base Variety Show

Six lovely bathing beauties competing for the Ream Dream Girl, and top flight Variety Acts were part of the Utility Wing Monthly Variety Show held in the theater July 9th.

The show started with Tiny Lawrence and his Border Rangers playing several lively western numbers. Then, master of ceremonies, LT J. M. Stevens made his entrance with his quick humor and which greatly pleased the audience. He introduced Miss Alice Randall, representing Miss HS-4.

A quartet make up of a group of San Diego businessmen stopped the show with their harmony. LT Stevens then introduced Carol Malone, representing Miss Station.

Allen-Dinnes Dance

Two beautiful girls, Judy Allen and Heather Dinnes, came up and did some excellent tap dancing. The next bathing beauty was the representative of HU-1, Miss Margaret Helis.

Linda, Darrell, and Dallof Pope again stopped the show with their spine twisting acrobatics. This is the second appearance of the Pope Trio at Ream and each time they have had the audience gasping at their daring acrobatics. Maria Snow, with a VU-3 (K) ribbon, was next of the bathing beauties to make her entrance.

Western Routine

Linda Lou and Karen Kay Dodds in their cute western outfits was another show stopper with their singing and tapping. Miss FASRon 701, Mary Ann Heatherly was the next beauty to cross the stage.

Donald Reid, a concert pianist, then played several numbers. He is only 7 and is slated to be the guest artist at Carnegie Hall next month.

Miss HS-2

Janet Mann, Miss HS-2, made her appearance. Shirley Wright, the accompanist for the evening, was then applauded until she played a number.

M. C. Stevens brought all the bathing beauties back on stage and a four-man panel was recruited from the audience to judge by the applause naming the Ream Dream Girl. It was a close contest, but the contestants were narrowed down to Alice Randall, Miss HS-4, and Marion Heatherly, Miss FASRon 701.

Randall Wins

Again the applause was close but Miss Alice Randall came out on top and received the title of the Ream Dream Girl. LCDR S. L. Nyhan crowned the Queen.

Chief W. R. Proctor was again the originator of the Utility Wing Variety Show and was very much pleased at the audience's reaction.

Plans are under way for an all-girl show on August 6, which promises to be another top show. Watch the Plan of the Day and the NORTH ISLANDER for further information.

Dream Girl Alice Randall

FAD Ream's softball team from left to right: 1st row, B. English, H. Price, H. French, J. Jones, Ed Allen, Ken Brooks; second row, J. Gale, D. Taylor, D. Sufficool, C. Stevens, J. Troegil, J. Arce; third row, P. Steege, M. Lachowski, R. Dindberg, F. Bates and D. Allen.

Ream Softball Team Loses FAD Series To NAS Marimar

A. R. Marks, JOSN

The FAD Ream Field softball team lost a crucial two out of three series to FAD, VC-61, Miramar, by the scores of 3 to 4, 12 to 4, and the final game, 9 to 5.

Errors and generally sloppy softball played the dominant role in the defeat of the Ream team in the first and third games. In the opening contest, Ream led the Miramar nine, 3 to 2, in the bottom of the sixth inning, but errors by the pitcher and catcher enabled the Raiders to score two runs in the top of the seventh to eventually win the ball game. John Arce, VU-3K, pitched fine ball limiting Miramar to four hits, but lost the game himself on three errors.

The second game was all Ream as the augmented VU-3K dronemen pummeled three Miramar pitchers for twelve runs, running roughshod over the opposition. Dick Allen, HU-1, won the second game allowing four runs and five hits.

In the finale, when the chips were down, Ream completely booted the game, committing nine big errors to erase any chance they might have had to continue in FAD playoffs. Miramar jumped off to a 4 to 0 lead in the third inning before Ream could push across one run on walks to Lachowski, Fennell and English, and then hitting Allen with a pitched ball.

Miramar picked up three more runs in the fourth inning on two hits and four big errors by Ream. Two more crossed the plate in the fifth inning on three hits and one error, including a home run by Goetz, Miramar centerfielder. Ream punched one run in the bottom of the fifth on a walk to Jones, a single by Fennell and a one base bingo by Ed Allen scoring Jones from second base.

Leading off the sixth inning, Team Captain French drew a free pass. Hogan was safe on a fielder's choice, throwing out French at third on the play. Lachowski received life on an error by the Miramar third baseman. Jones also reached first on an error scoring Lachowski from third. Tom Fennell then drove a single to left field driving in Hogan and Jones to end the Ream rally and the scoring for the day.

Leading the Ream attack was Ed Allen with a series average of .400, Fennell .375 and Jones. Lachowski and Hogan batted an even .300. Dick Allen, pitcher, won one game while dropping one. Arce appeared in one game, losing the first.

Bane and McAuliffe, catcher and first baseman of Miramar, both respectively batted .444, followed by Johnson, third baseman, .400. Hagen, VC-61, was the winning pitcher of the series, with victories in the first and third games.

Sweeps Before the Sweepers, Another Helicopter Story

During World War II, one of the most dangerous but seldom publicized task assigned to the supporting elements of the invasion force was mine sweeping. This job had to be completed well in advance of the arrival of the fleet and as a result, operations were often conducted alone, close to enemy held beaches, and under adverse weather conditions. Thus was born the Mine Force slogan, "Where the Fleet goes, we've been."

At the outbreak of the present police action in Korea the little minesweepers again had their dangerous task to perform. The enemy-held ports as well as certain portions of the coast were heavily mined. The "sweeps" went to work.

The position of the mine lines were unknown, making it necessary to sweep every foot of ocean, a long and time-consuming task. A method of locating the mines from the air was needed, but the conventional aircraft proved too fast, so a helicopter was requested.

When the helicopter took station ahead of the Mine Sweepers, a new era was born. The mines were plainly visible while hovering at a low altitude, and mine fields were located, mapped, and swept, with the helicopter leading the way. No longer did the Mine Force have the distinction of being first to approach the enemy held beaches. A helicopter became standard equipment. It became the eyes of the Sweeps. Appropriately, these helicopters now have their own slogan, "Where the Sweeps go, we've been."

K-Vet Bill

(Continued from Page 1)

receive $300. Officers above captain or lieutenant in the Navy would be ineligible for mustering-out pay.

Those released prior to the passage of the Bill would still be eligible for mustering-out pay on a retroactive basis.

The Bill also gives a flat $26 for 26 weeks to unemployed veterans. But the machinery would be carried out by the state and conform to its own labor rules and standards. As for home loans, farm loans and business loans, they would be the same as those granted WWII veterans.

COMMAND CHANGE

(Continued from Page 1)

FAIRBETUPac, with its headquarters here on North Island, together with its detachments at NAS, Alameda and NAS, Whidbey Island, and under the direction of Commander Air Force, Pacific Fleet, continues to prepare thousands of officers and enlisted men for tasks in airborne electronics and anti-submarine warfare. Almost every airborne unit of the Pacific Fleet using electronics equipment has a scattering of men who have received training in FAIRBETUPac.

TUESDAY AND WEDNESDAY, 22 and 23 July—"PAT AND MIKE" starring Spencer Tracy and Kathryn Hepburn.
Short: "IN CASE YOU'RE CURIOUS."

THURSDAY, 24 July—"LOVELY TO LOOK AT" starring Red Skelton and Kathryn Grayson.
Short: "AIN'T SHE TWEET."

NTC Musical Is Given Wide Acclaim by Ream

"Manhattan Melodies," a Rodgers and Hart musical with an all Navy cast played at the Ream Theatre recently.

The cast was made up of Waves and sailors from the Naval Training Center and was under the sponsorship of the NTC Special Services Office.

Many of the top tunes of Rogers and Hart were used under the Manhattan Theme, such as "Blue Moon," "Thou Swell," "Bewitched," and "This Can't Be Love."

One of the highlights of the show was when a drunk in the audience, portrayed by Read Brooks, SN, NTC, made his way through the audience to the stage and stopped the show.

The production was under the direction of Jack Kane, SN, of NTC.

BIGGEST, BEST NAVY RELIEF CARNIVAL DUE

Thousands Expected To Jam Huge Midway

Four days and evenings of fun and frolic are in store for an anticipated crowd of 300,000 at the 1952 Navy Relief Carnival July 31 through Aug. 3.

This year's big show, which spreads across the entire south side of the vast Navy Athletic Field, Fifth and Harbor Drive in San Diego, is being jointly presented by every Navy and Marine Corps activity in the San Diego area.

Over $50,000 in prizes will be given away, including six brand new Mercury automobiles and numerous other valuable items of merchandise.

More than two dozen of the latest, most modern thrill producing rides, 145 booths and concessions, and some of California's finest side-show talent will provide entertainment for fun-seekers along a 3,000 foot double midway.

San Diego Aqua-Capers of 1952, a water spectacle that was brought back this year by popular demand, will be presented at the spacious Navy Athletic Field pool. Fourteen of San Diego's prettiest young ladies, plus one of the most hilarious water comedy teams in the business and several specialty numbers by championship performers, are billed by Aqua Capers.

Another popular attraction booked for all four days of the carnival is the famous Bonnie Lee All-Girl Revue, in eye-filling dance numbers at the Satan's Daughters show.

A 25,000 square foot tent will house a representative commercial exhibit of San Diego's leading industries and products.

Every evening, a big, free stage show will be given featuring song and music by top professional stars of screen and stage, plus the winners of recent amateur competition in this area.

There will be plenty of parking facilities, and convenient rest rooms. The whole carnival is being laid out this year with an eye to customer appeal and comfort. An easy-on-the-walking turf and sawdust midway provide the unusual feature of a completely dust-free carnival grounds.

Present indications point to a new attendance record, topping the previously established 250,000 for any four day Navy Relief Carnival in the past.

There will be a special Carnival shuttle boat service from the NAS Landing to the 5th St. Landing during all Carnival hours, July 31 through August 3.

NR Carnival Hours

Admission to the 1952 Navy Relief Carnival is free with several big free attractions inside, including the stage show, commercial exhibits, and music by the best service bands in the area.

Carnival hours are 4:00 p.m. until midnight Thursday, July 31, and Friday, August 1; noon until 2:00 a.m. on Saturday, August 2, and noon until midnight Sunday, August 3.

Plenty of free parking facilities will be provided.

WELL, LOOK HERE, PARDNER! I do believe it's one o' them there "Ghost Towns" ya hear so much about out here in the old west. Yep, that's right! Seems as though they've built one right on the Navy Relief Carnival grounds in San Diego for one and all to see! Why don't ya' come on out for a look-see?

First NR Carnival Held at NAS in '48

It was just five years ago this fall that the first annual Navy Relief Carnival opened its doors to the people of Southern California for the first time—an event which ushered into existence an annual occurence which was to prove one of San Diego's outstanding entertainment productions each year.

In 1948, as is the case this year, the San Diego Naval Air Station sponsored the event which became such a huge success and drew crowds of such proportions, that it had to be moved to San Diego's Navy Field, Harbor Drive and Fifth Street, the following year.

Many people who resided in this area in 1948 will recall the thousands upon thousands of carnival-goers who packed that first NR midway. Many hundreds of cars keep the ferries busy on those three nights. The Silver Strand remained illuminated with the headlights of automobiles until the early hours of the morning as residents of the south bay region returned home after an evening of real entertainment. Liberty boats and "nickle snatchers" shuttled from the station to the mainland carrying hundreds and hundreds of carnivalites who had done their share to make that first carnival the huge success it was.

Each succeeding year, its popularity grew. The four major military installations in this vicinity alternated summers in sponsoring the event, but, each year, these stations have contributed to the

(Continued on Page 6)

Captain W.L. Erdmann Is Promoted to RADM

NAS CO Is Notified Of Promotion Sat.

CAPT W. L. Erdmann, USN, Commanding Officer of the Naval Air Station, was selected for promotion to the rank of Rear Admiral, according to word received from the Navy Department last Saturday night. Captain Erdmann has commanded the Naval Air Station since May, 1950.

Prior to assuming command of the San Diego Naval Air Station, CAPT Erdmann was the Commanding Officer of the Essex-class carrier USS LEYTE. He was designated a naval aviator in January, 1929, and graduated from the Naval Academy at Annapolis with the class of 1924.

Mercury Awards 2300 Each Night Of NR Carnival

Awarding of the sleek 1952 Mercury automobiles at the Navy Relief Carnival will take place at 2300 each night of the event. One Mercury owner will be selected Thursday, July 31, one Friday, August 1; and two each, Saturday and Sunday, August 2 and 3.

Waves Begin Second Decade Of Navy Service Wednesday

July 30 will mark the tenth anniversary of the organization of the WAVES, who will celebrate their anniversary with a dinner party given in their honor at Davidson Hall by the San Diego USO Advisory Council. The Advisory Council represents the six National USO Agencies in the city.

CAPT. W. L. ERDMANN

An invitation had been extended to all WAVES on active duty in the Eleventh Naval District by the Advisory Council on the occasion of their Tenth Anniversary. Acceptances for the dinner should be made by 1000 on July 28. Enlisted women living on station may accept through the Master-at-Arms of their individual barracks. Enlisted women living off station and all women officers may accept by telephone or memo to LT M. V. Slaiter, USN, WAVE Billeting Officer, NTC, San Diego, telephone B-3111, extension 642. The address is Naval Training Center, WAVES Barracks 3.

The party will hold in store many forms of enjoyment for all attending. WAVE songs and entertainment from each activity are scheduled. The ceremonies attract nation-wide interest and therefore the cake cutting ceremony will be kiloscoped for television at a later date. Door prizes will also be featured.

In addition to local observances scheduled in honor of their tenth anniversary, WAVES all over the nation and the world will mark the end of their first decade of naval service with official celebrations at the Hotel Statler in Washington, D. C.

An expected 1,220 former WAVES will be on hand to attend the spectacular event. ADM Lynde D. McCormick, Supreme Allied Commander Atlantic, will be the guest speaker with CAPT Joy B. Hancock, Director of the WAVES, opening the observance with traditional cake-cutting ceremonies.

Among the hundreds of thousands of anniversary messages and congratulatory notes received by the WAVES on this occasion is one sent by Secretary of the Navy Dan A. Kimball, who said, "Their devotion to duty has been consistent with the highest traditions of the naval service. On behalf of the Navy and for myself, I offer sincere congratulations and a hearty "well done".

French Navymen Visit Naval Air

For six French naval aviators, San Diego is the next best thing to a visit to their homes in France.

Coming to North Island from Indo-China, the four officers and three enlisted men are here in connection with the transfer of aircraft to the French Naval Air Arm.

They have been away from their homeland for over 18 months, engaged in the bitter fighting to save southeast Asia from Communist aggression.

The enlisted men were found by the ISLANDER reporter preparing their plane for a test hop. Greeted with an American "hello," the men clambered out of the fuselage of the plane and replied with a series of perfectly inflected "bonjours." From then on the conversation was carried on by Paul Esteban, Maitre Radio Volant (equivalent to chief radioman) and Bernard Humbert, Second Maitre Pilote)

Fifty Men Take First Class Examinations At NAS Last Tuesday

This past Tuesday, July 22, approximately 50 of the personnel from North Island, Ream Field, and Miramar took the exam for advancement to pay grade E-6 which were given here at Naval Air Station.

These fleet-wide exams were given under the guidance of the personnel from the Information and Education Division in the Crew's Mess Hall, Building 317.

Men throughout the Naval establishment will be notified of the results of the test in a few months when those making their rates will be rated.

One of those six beautiful Mercurys may be yours! Contribute now and your contribution receipt may entitle you to take home one of those Mercurys to be given away at the Navy Relief Carnival.

NIA Aids in Making Carnival a Success

North Island Association, representing nearly one half of the entire working force of Naval Air Station civil service employees, has cooperated to the fullest of its ability in an effort to make the Navy Relief Carnival a success. Always interested in coordinated efforts of the entire command, NIA's officers formed a special committee to provide organized leadership in assisting the military to put the big show over.

Led by president Isabel K. Smith, of I.R.D., the association has not only aided greatly in the sale of tickets, but has undertaken the sponsorship of one of the outstanding attractions of the entire carnival, the 1952 Aqua-Capers. The latter, returning from a most successful appearance at last year's carnival, is being handled by NIA official Richard Keller, of Public Works. In addition, the organization has assisted the carnival committee in the over-all planning of the '52 carnival.

Ticket sales, which have been most gratifying, have been under the direction of Robert S. Putnam, of IRD.

Other members of the NIA committee working for the carnival are: W. Kirby Vaughan, Supply Dept.; E. P. Becker, Transportation Dept.; F. Geer, O&R Dept.; Al Quicker, Public Works Dept.; and R. T. Morse, Service Organizations.

Other employee organizations on North Island have assisted by appointing representatives to work with the above named committee in the sale of tickets.

College Courses Will Be Taught at Naval Air Soon

Beginning next September the California Western University (formerly Balboa University) will offer at North Island, in cooperation with the Naval Air Station, college level courses, available to both civilian and military personnel.

A survey is now being conducted to determine the number of persons, both military and civilian, interested in the program. Interested personnel are urged to contact the I&E Div., bldg. 317A, ext. 1230, between 0800 and 2100. Details of the college program will be announced following this survey.

The program will offer regular college campus courses, taught by university faculty members, for which full credit is available. Courses may be taken for credit by students who can fulfill college entrance requirements. Other students may enroll for courses in which they have interest on a non-credit basis.

Work will be offered which can be applied on bachelor of arts, bachelor of business administration, or bachelor of science degrees, or toward certificates of basic achievements in college level work.

The program will be set up on a 12-week quarter basis. A $12.50 per quarter unit charge will be made for courses. Classes will be held during non-working hours on the station, and military personnel may be

Picnics Continue to Lead Pleasure Parade

Today at 1200, Squadron V-11 is having a picnic in El Monte Park in El Cajon. The picnic is scheduled to last until 1930 this evening. All kinds of activities are planned beginning with door prizes and then special events for the children as well as the adults. Barbecue beef will be another treat in store for the participants. More than 600 are expected to

(Continued on Page 6)

THE TIP TOP HATTERS SINGING "THE ROBERT E. LEE" were one of the main attractions of the variety show given at the opening of the NAS Recreational Facility last Friday night, July 18. From left to right are; Gerry Tremble, Marjorie DeCosta, Shirley Angle, Shirley Wright, Barbara Richard and Carole Ellcott.

ORISKANY Arrives at NAS Quaywall Monday

Flying the Cape Horn pennant from her gaff, the Essex-class carrier USS ORISKANY tied up at the North Island quay-wall at 1100 Monday, completing a 15,000 mile voyage from the East Coast to San Diego. The ORISKANY is the first U. S. aircraft carrier to "collar" the stormy southern tip of South America.

Completely remodernized with a stronger flight deck, more powerful catapults, and more space for aircraft fuel stowage, the carrier joins the Air Force Pacific Fleet command of VADM H. M. Martin. Commanded by CAPT John O. Lambrecht, the ORISKANY carried on her long voyage the VF-11 Banshee squadron, which joins

SI, SI, "CCC"! The six civilians pictured here, the Coordinators of Carnival Contributions, deserve much credit for the splendid and smoothly executed work they have done and are doing to insure the success of the Navy Relief Carnival. Left to right (seated) are Robert S. Putnam, Isabel K. Smith, and F. Geer. Standing behind them are A. J. Quicker, W. Kirby Vaughn, E. P. Becker and R. T. Morse.

THERE'S NO BUSINESS LIKE DOUGH BUSINESS, so say these five beautiful queens of San Diego and vicinity. They are: (left to right) Leah Rogers, "Miss Ocean Beach"; Jackie Smithwick, "Miss Outdoor Girl"; Mae Entwistle, "Fairest of the Fair"; Rosemarie Alessio, "Miss Yellowtail Derby"; and Carol Rudolph, "Miss Pacific Beach." They will be but a few of the beauties performing at the Navy Relief Carnival on July 31, August 1, 2, and 3.

Behind the Scenes at the Navy Relief Carnival Sight

LOLLIE PARKER, 17-year-old La Jolla high school cutie, one of the co-stars in the Aqua-Capers Revue, is seen here doing her feature number—a Tahitian dance on a paddle-board. Aqua-Capers is another one of the many attractions at the July 31 through August 3 Navy Relief Carnival.

"THERE'S SOME MIX-UP HERE,"! cries pretty Peggy Winter who stopped off for a game of shuffleboard between rehearsals of the Bonnie Lee All-Girl Revue and found herself, instead of the shuffle-discs, being sent down the board. Miss Winter, along with scores of other attractive girls, will make periodic appearances with the sensational All-Girl Revue at the Navy Relief Carnival.

MEET THE MEN BEHIND THE SCENES—the Navy Relief Carnival Committee—who have had the august task for the past several months of making all arrangements for the forthcoming carnival. The committee included (left to right, seated) LCDR B.W. Williams, Donations and Prizes; LCDR H.I. Pemberton, Chairman; and LCDR R.J. Jennings, Food and Beverages. Standing: LCDR J.H. Knoche, Liaison; and LT R.W. Marshall, Planning and Estimating. Not shown are LT H.C. Boudreau, Entertainment; LTJG J.C. Smith, Financial; CHBOSN W.S. Mainord, Buildings and Grounds; CHRELE G.L. Williamson, Electrical Maintenance; PCLK C.A. Gore, Jr., Ticket Sales; WOHC T.J. Callahan, III, Medical and Sanitation; J.R. Samuelson, JOC, Publicity; and W.E. Lynch, YN1, secretary.

BUYING A TICKET WITH HOPES of winning one of the six new Mercurys to be given away at the Navy Relief Carnival is PFC Charles T. Divine, one of the first men to disembark from the USS ORISKANY after it had docked here this past Monday. Selling the ticket to the sea going Marine is CPL Rose V. Rodgers, USMC.

SCENE OF THE TIMES is San Diego's Navy Field, Fifth Street and Harbor Drive, where the forthcoming tremendous Navy Relief Carnival will take place July 31, August 1, 2, and 3. This picture was taken early this week as the workers and "roustabouts" proceeded to get the carnival sight ship-shape for the hundreds of thousands of carnivalites who are expected to jam the midway during the four-day run.

DIVER-SIFIED GENT is Pete Charlton, 19-year-old Far Western Indoor Hiboard for 1952 and this year's Oregon State AAU hiboard champ, practices up for his coming appearance with the Aqua-Caperers who will present performances during the four days of the Navy Relief Carnival.

THAT MAN
friday

Well, "that" time's almost here again. Yep, for the past few years the men and women in and around the San Diego area have begun preparing for one of the biggest events on their entertainment calendar—the annual Navy Relief Carnival which gets underway at Navy Field next Thursday.

Now, mind you, I don't like to brag, but they say "toot your own horn once in a while or it'll get rusty," so get ready for what may turn out to be a few notes from the Friday trumpet.

This is one kid who's really in on the know! For once, I've had the opportunity to "go behind the scenes," so to speak, and get a sneak preview at just what this big attraction is going to be, so I'd like to pass on a few tips to you so that you, too, can have just a small idea of what's in store for you and yours next week.

May as well begin by telling you that you've never seen anything like it! There's going to be games, prizes, rides, shows, girls, terrific food, and let's not forget those magnificent new Mercury automobiles that are going to be given absolutely FREE to six lucky people.

Got a quick look during rehearsals of the Aqua-Capers and, take it from me, THEY ARE TERRIFIC! There isn't much they can't do—they swim, dive, "dance," swing, float, and just clown around. Don't miss 'em!

Took what I intended to be a hurried jaunt over to the All-Girl Revue show the other day while they were rehearsing and stayed there almost two hours. Boys, you'd better wear goggles to keep the old peepers in their place because there are some real cuties in that show. Looked like hundreds and hundreds of them, too—everyone cuter than the other. I don't suppose you'll miss it, so I won't even bother to warn!

The rides? You name them and the Navy Relief Carnival will have them. You can go from one thrill to another and they'll keep you in a constant spin.

The games are always crowd-gatherers and the Carnival is all prepared. Bingo, darts, archery, ball-throwing, strength testers, and . . . you get the idea.

I won't even pretend that I've covered a millionth of all the opportunities for a good time that'll meet you next week. It would be impossible to do it, so why don't you bring the whole family out to Navy Field next Thursday, Friday, Saturday and Sunday. It'll take all four days for you to begin to see just what this year's Navy Relief Carnival has to offer you. See you!

He: "Well, no! I don't exactly have my new car yet, but I'm expecting my agent to deliver it to me tonight—It is a Mercury, naturally."

Fun and Insurance

It is a true fact that when you buy insurance, you are paying for the protection and comfort of yourself and your loved ones. This is even more true, too—when you contribute to the Navy Relief. Whether you know it or not every dollar invested in this great organization adds up to aiding in insuring protection for naval personnel and their families.

This Week's News
at a glance

Overshadowing world news this week is the approaching 1952 Navy Relief Carnival. Reliable sources report this great San Diego summer event to be the biggest and most exciting in the Carnival's five-year history. A 3000-foot double midway, loaded with prizes, food, rides, games shows and other entertainment, will bring to San Diego all the color of a Chicago political convention, and the glamor of New York's Broadway. A bouquet to the Navy Relief Carnival Committee, which has for months been planning this project, and a brickbat to the few who foolishly miss the event.

* * *

Tehachapi, Calif., was clearing away the wreckage of a devastating earthquake which took 11 lives and injured 40. The early Monday morning quake, which was felt in the San Diego area, brought an estimated $2,600,000 damage to the hill country community of 2000 population. The quake is said to have originated with slippage in the notorious San Andreas Fault or a nearby deep-seated earth fracture.

* * *

Observers of Russian behavior report that the Soviet's "Hate America" propaganda campaign is failing to make any significant impression on its people. The report says that the Russian masses are pretty well hardened to incessant campaigns of abuse and vilification against other people and respond only to actual events. The average Soviet citizen, it is said, is not interested in world events and prefers working in his garden in the evening to reading or listening to the controlled radio and press.

* * *

The Navy has announced that Reserve Officer Candidate schools for men and women candidates have been moved

from Treasure Island, Calif., and Great Lakes, Ill., respectively. This year male candidates were sent to the Naval Station, Long Beach, Calif., and women candidates to Bainbridge, Md. Classes began recently at both schools.

* * *

Now in its 54th day, the national steel strike was making itself felt in the nation's defense effort. Secretary of Defense Robert Lovett told reporters that the strike had damaged the defense effort more than "any bombing raid" could. He indicated that the walkout may make ammunition rationing necessary in Korea.

Chaplain's Corner

Why I Like the Navy Relief

For over fourteen year I have known about the Navy Relief Society and I have been connected with it in some way most of the time. My first experience with the Navy Relief was in 1938 while serving aboard the USS HOLLAND, a submarine tender, anchored most of the time then in San Diego Bay.

One day a third class boatswain came in to see if I could help him and his family get enough money to travel by car to Bremerton, Washington, his new duty station. He said he could only borrow $50.00 from a loan organization. But the trouble with their plan was the company wanted their interest withdrawn from the loan first. This would leave him only $33.00, and that was not enough money to make the trip. (Nowadays, no bonafide loan company can charge that kind of interest). The executive officer of my ship gave me permission to take this man to see the Navy Relief Executive Secretary, Chaplain E. W. Scott. In less than thirty minutes, a $50.00 loan was approved and this serviceman had fifty dollars for the trip. There was no interest of course, and he had ten months to repay the loan by allotment at five dollars per month.

I like the Navy Relief because this organization belongs to the Navy. Its policies are determined by various representatives of the Heads of Departments in Washington, D.C. The directives that are sent out are interpreted by the various Executive Secretaries. Each case is considered on its own merits and not according to a set book of rules. For an example, I know of one Secretary who is trying to arrange air transportation for four dependent children of a serviceman from a foreign country to the USA. The cost of the transportation is over $1200. The serviceman could not repay a loan of this amount and support his children at the same time. So what kind of arrangements can be made? Part of the loan will be made a gratuity, perhaps half of it, and the balance can be paid by allotment covering a period of twelve or eighteen months.

I like Navy Relief that cannot be granted. For an example, a man might get a traffic ticket for speeding. The Navy Relief is not permitted to assist in cases of this nature. But if a serviceman's wife gets hurt in an automobile accident and there is no hospitalization facilities for dependents of the Armed Forces, then the Navy Relief will assist in payment of medications and hospitalization.

I like the name, The Navy Relief Society. It takes care of the dependents of our men when they are in distress. The Chaplains are for the Navy Relief Society because this is the one organization that we have which we can truthfully say, "belongs to us."

SAMUEL B. BENNETT
Chaplain, U. S. Navy

THE PLACE WILL BE
familiar

The swimming pool at Navy Field is sure to be a place that will be familiar to everyone who attends the 1952 Navy Relief Carnival. It will be the scene of action for the famed aquatic troupe, the "Aqua-Capers," featuring water ballet, rhythm swimming, paddle-board and specialty numbers in addition to some hilarious comedy routines.

The "Aqua-Capers" should prove fun for both the young and old. A dash of breath-taking fun is interjected with Art Prager and Herb Knight's canoe act, while the slapstick fun at its best is exhibited in the "Dance from Hunger" featuring Frank Minson, Jim Kennedy, Fred Bertch, Carl Ehlers, Sonny Altheimer and Bones Jones. Prager is renowned as national trick canoeing champion, while Knight is Water Safety Director for the San Diego Red Cross.

The NORTH ISLANDER

Vol. VIII July 25, 1952 No. 30

movie menu

SATURDAY, July 26, "THE WOMAN IN QUESTION," starring Jean Kent and Dick Bogade. A murder of a fortune teller of a seaside amusement arcade leads into more than just a crime investigation. The police, piecing together the evidence supplied by various persons who knew the strangled victim, build up possible cases against several. The one-time fortune teller's sister is one who is known to dislike her besides a vaudeville artist, an owner of a pet store and a crippled war veteran who is on the brink of death. All have leading suspicions of being the slayer of the "woman in question."
There's no question about the Navy Relief Carnival, though. BE THERE.
SHORT: Knights of the Highway.
Running time: 1 hour and 54 minutes.

SUNDAY AND MONDAY, July 27 and 28, "LOST IN ALASKA," starring those two hilarious comedians, Bud Abbott and Lou Costello. There is no review on this picture but you can probably imagine the fun these funny men of the screen have in this film.
Plenty of fun, too, for you at the Navy Relief Carnival.
SHORT: Duck Doctor.
Running time: 1 hour and 51 minutes.

TUESDAY AND WEDNESDAY, July 29 and 30, "WASHINGTON STORY," starring Van Johnson and Patricia Neal. It all starts when Patricia Neal a reporter goes to Washington, D.C., in search of sensational material and meets a gossip-newspaper radio columnist. He suggests she concentrate on Van Johnson, popular young congressman with a record so clean that even his political foes admire him. Neal sticks close to Johnson but is unable to turn up any information until Johnson is seen in the presence of a lobbyist who is working for the passage of a new bill which would hurt the state Johnson represents, although benefiting the nation as a whole. Johnson works with this dilemma, he tries hard to do the best for what he thinks is best.
Biggest and best yet—this year's Navy Relief Carnival!
SHORT: "Triplet Trouble" and "The U.S. Navy Band."
Running time: 1 hour and 47 minutes.

THURSDAY AND FRIDAY, July 31 and August 1, "THE WORLD IN HIS ARMS," starring Greyory Peck and Ann Blyth. Gregory Peck, a seal-poacher in Russian Alaskan waters, arrives in San Francisco in 1850 and meets Ann Blyth, a Russian countess fleeing an unwelcome marriage to a prince. Posing as a servant, Ann persuades Peck to take her party to Sitka. Meanwhile, Ann gets kidnapped by the prince. Peck goes on a bender and wagers his rival he can win back the countess. Peck goes into adventure and thrives on danger for the beautiful woman who risked all for love.
COME TO THE NAVY RELIEF CARNIVAL, JULY 31, AUGUST 1, 2, AND 3.
SHORT: "Two Gun Goofy."
Running time: 1 hour and 59 minutes.

Oriskany Arrives

(Continued from Page 2)

the Pacific Fleet, and VS-32 on a training cruise.

Leaving Bayonne, N. J., May 15, the ORISKANY stopped briefly at Norfolk, Va., to take on supplies. Ten days were spent in waters off Guatanamo Bay, Cuba, in training exercises. The carrier visited Rio de Janeiro, Brazil, four days, with the crew touring the scenic city. Actual rounding Cape Horn occurred at 0930, Sunday, June 29. The carrier also paid visits to Valparaiso, Chile, and Callao, Peru.

The ORISKANY is named for the Revolutionary War battle fought in 1777 in Oneido County, N. Y. She was launched October 13, 1945, but was not commissioned until June, 1950. She was the prototype of the Navy's two other modernized carriers, USS ESSEX and USS KEARSARGE.

Payday Thursday

Schedule for payday, Thursday, 31 July, 1952, disbursing office, Naval Air Station, San Diego, California.

Officers will be paid between the hours of 1015 and 1130.

Chief Petty Officers will be paid between the hours of 0800 and 1815.

Enlisted personnel (except Chief Petty Officers) will be paid in accordance with the following alphabetical schedule:

FRENCH NAVAL AVIATORS now aboard the air station in connection with the transfer of aircraft to the French Navy are (back row) 1st Maitre Mecanicien Volant Rene Le Pretre (Warrant Officer), Ingenieuu Mecanicien 2eme classe A. A. Le Corvec (LTJG), Enseigne de Vaisseau 2eme ciasse Tafforin (ENS), and Enseigne de Vaisseau R. E. Blaise (LTJG). Front row: Maitre Radio Volant Paul Esteban (CPO), Second Maitre Pilote Bernard Humbert (PO-1), and Maitre Radio Volant Andre Rousse. The aviators have been away from their homeland for the last 18 months, fighting Communist aggression in Indo-China.

powerplant paragraphs

Both Jet Shop "Okies" returned to work Monday. McKINLEY TOMPKINS sez he spent his "leave" working on his yard being as how he recently moved into a new, three bedroom home in the Chula Vista area. ART PARMLEY took himself and family to Yosemite to enjoy the wonders of nature, but when they arrived at midnight and had to wait for a mountain lion to cross the road, Art wasn't sure whether the tent they had rented was such a good shelter or not. Coming back via Tioga Pass, Art spent four days doing some profitable fishing on Bishop Creek.

BOB EVEN, Bearing Shop impressario, is on a five week tour—combining business and pleasure. He left July 25th to attend a Bearing Conference at Philadelphia Naval Supply Depot. Enroute he visited a daughter in Missouri, took in the sights at Washington, D. C., and was planning to see his aunt in Michigan before finally getting back to California.

LAWRENCE L. NARROW, Test Cells, is the proud father of a seven pound baby boy.

E. L. DOUGLAS of the Apprentice program and presently assigned to Shop 6203, accompanied by two buddies, recently went spear fishing off La Jolla. Douglas captured a 95-pound Bat Ray which is a member of the Sting Ray family.

Johnny Durrett, Shop 6276, of the Power Plant, and his family were headed for Strawberry Lodge this week in the High Sierras and will take in the beauties of Yosemite before heading back to San Diego.

G. D. Pickett of 6248, Power Plant, is another one returning with stories of catching fish while on his three weeks vacation which he spent in Sequoia National Park and the Bishop area.

L. K. COX, of Minor Overhaul, returned to work last week after being on leave for almost a year.

Breast of Veal, Scallopini, Steamed Rice ..... .65
Baked Meat Loaf, Tomato Sauce

French Navymen

(Continued from Page 2)

(equivalent to PO-1), both of whose English is considerably better than the ISLANDER reporter's French.

When asked how they like San Diego "liberty," they replied with nods of approval and "okays," while Esteban commented that he had had such a good time last Saturday that he didn't get up till 1100 Sunday. Esteban should know a good town when he sees it. Paris is his home town.

For all but one of the group, this is their first visit to the United States. Enseigne de Vaisseau R. E. Blaise (LTJG), senior officer, received flight training at Chapel Hill, N. C., in 1945.

As guests of a French family which has lived in San Diego for the past few years, the naval airmen from France have been shown all the sights of the town, have taken in some American movies, and have tried out the food in some of the local restaurants. Before returning to the exotic wonders of Saigon, Indo-China, they hope to visit Tijuana and other famous sightseeing points south of the border.

Cox is still walking with the help of a cane because of an accident which occurred while he was hunting last summer. The way we heard it—a horse fell on him. Everyone wishes Cox a "welcome back".

Navy Airmen Get Medals Last Fri.

Three members of San Diego-based Patrol Squadron FORTY received awards this morning during ceremonies at the Naval Air Station.

Mario J. Zuffinetti, aviation ordanceman, first class, USN, was presented the Air Medal for meritorious achievement in aerial flights as a member of a Martin "MARINER" patrol bomber in the Korean area.

Two men received the Good Conduct Medal, an award given for outstanding conduct and attention to duty for the period of an enlistment. It was the fourth award for Mearle E. Pierce, aviation chief machinist's mate, USN, 2116 Eldora st., Lemon Grove. Bernard C. Jensen, aviation electronics technician, second class, USN, son of Mr. and Mrs. Hyrum Jensen, Circleville, Utah, received his first award upon completion of three years good conduct.

Zuffinetti received the Air Medal for participating in 20 patrol and reconnaissance missions in Korea where enemy aircraft and anti-aircraft fire could be expected.

He is the son of Mr. and Mrs. John Zuffinetti and husband of the former Miss Wanda M. Hartson, all of Mill Valley, Calif. The Navy man and his wife live at 1725 Robinson st., San Diego.

electrons

By "WINDY" SPLICHAL

Coincidence or oddity? While serving in the Korean War, Wayne L. Lee, Shop 4264-2D was assigned to Rocket Ship No. 412. During World War II, he saw two and one-half years in E.T.O. aboard L.C.I. No. 47. Eight days after being released to inactive duty, he hired in at Naval Air Station. His badge number? 41247!

Eula Brown and her family have returned from five weeks vacation in New Jersey, where they visited friends and relatives. They brought their daughter and her new baby back to California for a short stay.

Emily and Bill Grinsell returned from a month's vacation in Chicago, visiting with friends, and their grandson. She proudly boasts she shook the hand of Eisenhower during his visit to the Republican Convention.

Susie Hornberger spent a week at home entertaining friends from Chicago.

Ida Lantinen has returned to work after an appendectomy operation. We are glad to see you back and feeling so much better.

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

COLUMN RIGHT is a column by and for the civilian employees at the Naval Air Station, all of whom will probably be seen at the forthcoming Navy Relief Carnival, Navy Field, July 31, August 1, 2 and 3.

Q. What is meant by apportionment and nonapportionment?

A. The terms apply only to employment in the Departmental service (Washington, D.C., area) and pertain to the ratio of employees permitted from each of the states. Apportionment requirements to not apply to employment in the field service.

Q. Should a permanent employee transfer to another department in the same rate what would his status be at the new position?

A. He would still be permanent in his rating.

Q. If a permanent employee transfers to another agency will he still be covered under CSC retirement?

A. Yes.

Q. What is meant by competitive status?

A. Competitive status means that the employee has permanent or probational tenure.

Q. Under what conditions are employees not eligible for reemployment rights?

A. Reemployment rights are granted only to permanent employees and are usually granted only in the case of a transfer from a non-defense agency to a defense agency. In movements between defense agencies it is optional with the losing agency as to whether reemployment rights will be given. It is the policy of this station not to grant reemployment rights to employees transferring to other activities.

Q. Does the Training Division have a letter writing class?

A. The Training Division, Industrial Relations Department, at the Naval Air Station, San Diego, recently performed an unusual service. At the special request of the Chief of Staff, ComAirPac, approximately forty naval officers were enrolled in the popular letter writing course offered by the Training Division. This 8-hour course covers word rationing, basic grammar, punctuation, and organization and planning of the letter. The basic objective is the achievement of correctness, precision, and conciseness in writing. The course, prepared and presented by Mr. Harvey H. Hodapp, IVb Training Supervisor, also has been presented to approximately 200 key civilians.

AN EDUCATION FOR THE ASKING is available for all Navymen and LT L.J. Julian, Fasron 691 Education Officer (center), shows M.L. Johnson, JOSN, (left) and L.A. Carper, PNSN, a few of the training manuals on hand for us by the men in the squadron. Personnel throughout the Naval Establishment have access to these courses through their respective I&E Divisions.

The NR Carnival

(Continued from Page 1)

carnival—in booths, man-power, material, and ideas.

The Navy Relief Carnival has become a symbol—a monument—to men and women who have worked together for one purpose in mind—helping their fellow man through the medium of the Navy Relief Society.

This year, the carnival will continue the tradition of offering more than before. The midway will be larger, the games greater in number and in interest, the prizes will be better, the shows more spectacular, and—most important of all—the proceeds for the Navy Relief Society will soar!

It can be said without hesitation that Southern Californians will have an opportunity such as they have never had before to enjoy themselves. Don't forget, though, that while you're having that swell time at the carnival next week, you're also helping many Navymen and their families who are badly in need of that help.

Picnics Scheduled

(Continued from Page 2)

come with their guests.

On Saturday, July 26, the personnel of the Productions Control Division of O&R are having a picnic in El Monte Park, just beyond Lakeside. Barbecue should be the main specialty for the event.

The personnel of the Communications department are having a picnic on July 26 in El Monte Park. The picnic should get under way about 1100. LT Boyd of Communications Dept. has planned a weiner road for the crowd of about 100 attendants.

On July 22, Squadron VU-3 of Ream field had a picnic at the 11th Naval District Recreational Park.

On the 23rd of July, a beach party at the NAS Recreational Beach Club, for the Administrative Office, the Personnel Office and the O.O.D. was given. A steak fry and refreshments were on hand for the participants.

TIME: July 31, August 1, 2, and 3!

PLACE: Navy Field, Fifth Street and Harbor Drive, San Diego!

WHAT: THE BIGGEST AND BEST NAVY RELIEF CARNIVAL IN HISTORY!

WHO: YOU! Support Navy Relief by attending the big Navy Relief Carnival.

A Good Education While in Blues? Why Not? Here's How!

The purpose of this article is to bring to light the many educational opportunities offered by the Navy to its men. Fasron 691's Education and Training officer is in the process of completing a dissertation on Navy training for enlisted personnel in aviation squadrons and has brought out the Navy's philosophy of training in its broad form.

The primary purpose of Training, according to LT Julian, is to develop the skills and related knowledge needed to perform the jobs in the squadron. Courses and experiences must be integrated with this training which is aimed at developing desirable habits, attitudes, appreciations and broad general education. These courses contribute to the over-all development of the individual so that he will be a good worker, a good sailor, and a good citizen in the society which the Navy protects. To accomplish these aims, training must be the responsibility of every officer and enlisted man, each acting in the dual capacity of a trainee and a trainer. The means for developing the kind of men the Navy needs are the courses and experiences offered in the squadron training curriculum. The **Education and Training Manual** lists the categories of subject matter that officers and enlisted men must know. The list includes orientation and indoctrination, military training, technological training, leadership training, physical training, citizenship training, academic training and avocational training.

It can readily be seen that this curriculum is aimed at developing a well-rounded individual. An aspect of the curriculum which is worthy of particular mention here is the academic training program coordinated through the United States Armed Forces Institute, USAFI. Here, Navymen can take a wide variety of courses for the purpose of receiving academic credit toward a high school diploma, a college degree, or for merely improving his general education where he recognizes weaknesses. The academic training opportunities in the Navy are as great and, in some cases, better than those in some of our best colleges and universities. Anyone who doesn't take advantage of these opportunities is missing the boat.

Another aspect of the curriculum which is comparatively new is the series of Enlisted Correspondence Courses prepared by the bureau for the purpose of increasing a man's proficiency in his rate and increasing his chances for passing service-wide competitive examinations. Enlisted men who have satisfactorily completed any of these courses will receive credit toward meeting the requirements for advancement in their particular rates.

If each man would take advantage of these educational opportunities, his success in the Navy and in civilian life would be almost assured. If each man is successful in the Navy, it follows then that the Navy will succeed in fulfilling its mission.

College Courses Here

(Continued from Page 2)

excused from the duty during the period they have classes.

Below is listed a tentative schedule of courses that are considered of interest to North Island personnel. The number of people interested will determine which of these or any other available courses will be offered in the program.

Both military and civilian personnel are urged to contact the I&E Div., bldg. 317A (behind the Administration Bldg.) to receive further information on the program. I&E is particularly interested in determining the demand for any of the courses listed and will also assist personnel in evaluating their high school records to determine eligibility for college level work.

RIDERS WANTED—From Linda Vista or vicinity to North Island. 0645 Shift. Call W-7-2537.

RIDE WANTED — Ride wanted from Fletcher Hills to Ferry Landing. 0715 to 1545 Shift. Phone H-9-3451 or contact Goetano Avila at shop 3105.

July 28—Last Chance to Help Your Horse!

Less than a week to help your division win the big Carnival drive race! Hunt out your divisional Carnival representative and give yourself an opportunity on the six big Mercurys.

Heads of NAS divisions and departments are asked to turn in all cash and donation books to PACT C. A. Gore at the NAS Disbursing Office not later than 1400, Tuesday, July 29.

Deciding to put its own horse in the race, IRD broke its combined effort with Administration Dept., and surged ahead of Navy Exchange to a 215.58 percent mark. Administration fell to the 11th spot. But the situation can change in the next few days. Watch next week's ISLANDER for the final results.

Skyraiders Show Bumps, Bruises After First Full-Game Scrimmage

REX YERBY PICKS UP FIRST DOWN during full game scrimmage held at Towers Field last Saturday morning. The players of both squads gave their all while fighting for a berth on the 1952 edition of The Skyraiders football team.

The Naval Air Skyraider football team held its first full game scrimmage of the season last Saturday at Towers Field. The entire team, 55 strong, was divided into two opposing squads and an entire game was played.

Although scores of inter-squad scrimmages mean nothing, as a point of information, the final score was 18-12 with the "yellow" squad winning. For the most part, the winning squad was quarterbacked by veteran Pete Steel and southpaw Larry Levine. These two spirited several sustained drives that gave the "Yellow" squad the victory.

"TRIGGER" PHILLIPS OUTSTANDING

The one man that overshadowed all others, in the opinion of this writer, was defensive linebacker, and offensive fullback "Trigger" Phillips. He was a "tiger" on defense, and showed unusual drive when given the ball in his fullback position.

Other men who showed to good advantage were: Center DeFrietas, end Glick, fullback Mancuso and quarterback Davis.

GARTISER INTERCEPTS RUNS TO TD—85 YARDS

Bud Gartiser, halfback, and world 60-yard low hurdles holder, made the longest run of the day when he intercepted a pass and ran some 85 yards to one of the "white" team's touchdowns. The play came just when the "Yellows" looked as though they were going to generate a touchdown.

RAMS LOSE GLEN DAVIS

The Los Angeles Rams, World Champions, have reported the loss of ex-Army all-American Glen Davis for the remainder of the season. His loss was attributed to a leg injury which had plagued him for two years.

SPORTS

pigskin previews

"TRIGGER" PHILLIPS, Skyraider fullback and middle linebacker, showed during the full-game scrimmage last Saturday that he will be one of the most valuable men on the squad this season. In his fullback position, he showed unusual drive, which was a large factor in the "yellow" squad winning the scrimmage. On defense, he consistently was in on tackles and he also had a second sense on what occasions to bridge the gap into the opposing backfield.

At this time, Phillips looks to us to be one of the key men in the set-up of the 1952 edition of the Naval Air Skyraiders football team.

"WILD" BILL HULSEY, one of the outstanding Naval Air Skyraider footballers, is making his challenge for starting position in the ever important quarterback slot. During last Saturday's scrimmage, he showed a fine ability to run the ball from a passing situation when the opportunity presented itself.

With four quarterbacks as capable as Bill Hulsey, George Davis, Pete Steel,, and Larry Levine, the 'raiders show promise of being once again a rough team against service opposition. Although last year's record will be a tough one to beat, this team has the material to assault that record. Top coaching, plus good material may prove the key to this year's success.

Ramsey Flips FAW-14 to Win

By Bob Swisher

Two months ago FAW-14 was virtually unknown to softball circles at North Island. Now, it is the triple crown champ of Fleet Air San Diego intermural softball.

With the uncanny pitching of Bobby Ramsey and a deeply instilled team spirit, the Wing rose from the ranks of an obsolete minor league team to take everything there was to offer.

Cast into Minor league "A" in the North Island league during pre-season seeding, FAW-14 romped over the loop opponents undefeated to qualify for the playoffs between the Major league winner, FASRon-110, and Minor league "B" champs, Ready Issue.

Not expected to knock off the powerful FASRon-110, the Wing, with Ramsey pitching one no-hitter, edged the FASRons by two 1-0 scores to become champs of the FAD North Island league.

Their next step was the Com-Fair San Diego tournament, and they blasted the Miramar champs, VC-61, by 10-0 and 12-0 scores as Ramsey hurled his fourth consecutive shutout.

With two scalps under their belts, they disposed of the NAS intermural winners, Special Service, by 3-0 and 16-0 scores for the annual Wright Trophy. Ramsey ran his scoreless string to six games in this one.

With no other fields to conquer, the Wing has started the second half of the AirPac intermural league, but in the Major division. The loop has changed from one Major and two Minor leagues to one apiece, with eight teams making up each circuit.

FAW-14 Beats Special Services, 3-0, 16-0; Takes Wright Trophy

By Al Burgin

Fleet Air Wing FOURTEEN continued its undisputed rule in the North Island Intramural softball diadem by copping the Wright Trophy Wednesday afternoon. FAW-14 blanked the NAS Special Services squad in the two-out-of-three series, 3 to 0, and 16 to 0.

Robert Ramsey, the pitching ace of Fleet Air Wing FOURTEEN, registered his sixth straight shutout in the past two weeks of championship and trophy play.

Fleet Air Wing FOURTEEN, champion of the Minor "A" League, Fleet Air San Diego Champions, and now North Island Intra-mural Champions, was an unheralded and unsung softball nine when the season commenced. Much credit for their present standing is due to the managing and coaching staff, consisting of LT James L. Ball and Merle Harbin, ADC.

In Monday's contest, Shortstop Becker gave Ramsey a one-run cushion in the first inning as he connected for a homerun in deep left field. Leftfielder Bill Reed, of FAW-14, singled down the third base line and later scored on an overthrow at first base as the Special Service team attempted putting out Ramsey, who had laid down a first baseline bunt.

Phillips and Waldron, of Special Services, doubled to pace the losers at the plate, and Brooks singled through the box for the only other safety of the game.

Wednesday afternoon at Murry Field was a different story, as Fleet Air Wing FOURTEEN collected 15 hits, for a 16 to 0 win.

In the first inning, Becker, FAW-14 shortstop, connected for a triple, Rightfielder Reed lined a double down the third base line, Centerfielder Clup doubled to center, and First Baseman Clemons singled to score 3 runs off of the 4 hits.

In the bottom of the second, FAW-14 scored 5 runs on 3 hits to stretch their lead to 8 to 0 as Rightfielder Stickney homered to deep center. Clemons and Beckers were walked, and Catcher Al Trube singled to drive in one run. Second Baseman Jack Huntsinger clouted a homerun blow to centerfield to score runs 6, 7 and 8.

Six runs were scored in the bottom of the third on 5 hits and 2 errors. Stickney was safe on a centerfield fly bobble, Ramsey singled, and Becked drove in the first run with a base hit through the box. Trube was walked and Huntsinger doubled to leftfield to score Becker. Culp was safe on an error and Reed followed with a single to leftfield.

Becker scored the last two runs of the game in the fourth inning with a homerun deep in rightfield with one man aboard.

corner on sports

By Bill Feeney

THE SPOTLIGHT IS ON THE NAVY RELIEF CARNIVAL

This week, the sportlight is dimmed by the bright lights of the midway at Navy Field. The 1952 edition of the Navy Relief Carnival, which is being sponsored by the Naval Air Station, is about ready to get underway. This most gigantic of all Relief Carnivals, is scheduled to open July 31, and will run to August 3.

Top-Notch Talent from Show World

Along with the huge assortment of side-shows and exhibits, will be the largest contingent of individual talent seen in these parts for many years. Some of the better known talent from up in Hollywood, is Lina Romay, ex-singer in the Xavier Cugat organization, and John Arcessi, CBS singing star who has his own coast-to-coast radio show twice a week. Local talent will include Lou DiMaggio, who won both the Horace Heidt radio and TV contests with his fancy accordion renditions, and the five San Diego area "Beauty Queens": Miss Ocean Beach, Miss Pacific Beach, Miss Yellowtail Derby, Miss Outdoor Girl, and Fairest of the Fair. These girls will take part in a dance routine as well as being on stage for your approval.

Big Roll for North Island Talent

Names familiar to all North Islander personnel, such as: Buddy Viotti, Ken Sansom, Bob Bill and his Western Rhythmasters, and many others will also lend their personalities to the Navy Relief Carnival.

Water Stars in Aquacapers

One of the highlights will be the presentation of the watershow, "Aqua Capers." This splashing revue will feature many of the finest swimmers in the San Diego area. The show will use the swimming pool at the Navy Field for its home, and will be featured on every night during the Carnival run. Each night, there will be two performances.

Your Support is Needed!

This great weekend of talent and fun will give everyone an opportunity to directly assist the Navy Relief Society in its work which so wonderfully assists the officers and men of the Navy. This year's slogan is typical of the attitude desired. "BACK UP YOUR BELIEF IN NAVY RELIEF."

What's the Catch?

Fishing from Island boats was once again good for last week. On July 15th, men aboard the "Shipmate," brought in 16 yellows and 27 barracuda. The top catch for that day and for the week, was a 17-pound "Yellow" taken by J. B. Garrick of VR-32.

The always sought Albacore was also starting to run not far from here. Chief Chambers of the Boat House brought in one last week that tipped the scales at 20 pounds.

Captain's Cup Lowdown

By WALT BREELAND

This week has been a very busy one as far as the Naval Air Captain's cup program is concerned. Special Services won first place laurels in Softball, Golf and Swimming.

The softball trophy was taken by the Special Services nine when they defeated Supply, two out of three in a series. They were, however, then defeated twice consecutively by FAW-14, to lose chances of obtaining the coveted Wright Trophy.

Special Services won their second victory of the week by taking the annual golf tournament. Scores are not available at this writing.

The Captain's Cup swimming title was also taken, without much trouble, by the men from the Special Services Division. In this event, they splashed Supply out of contention with a 39-21 victory.

Ramsey Pitches Both Victories

As far as the Wright Trophy playoffs are concerned, although Special Services showed fine spirit throughout, they didn't have the guns to defeat the heavily armoured FAW-14 outfit. Robert Ramsey hurled both games for the victors, and there was little doubt from the first of either game that he would chalk up victories. Ramsey is the same gent who pitched a no-hitter earlier this season.

Ream Field Personnel Ready For Navy Relief Carnival

HS-2 'Einsteins' Can't Figure It!

All the mathematicians of HS-2 are figuring the odds on winning one of the new Mercurys to be given away at the Navy Relief Carnival, being held July 31 through August 3 at Navy Field.

Charts, graphs and other devices have been put to use but the Einsteins have yet to agree on the odds.

They have agreed that it is a worthy cause and have convinced the personnel of the squadron to the extent that they have purchased over $500 worth of tickets.

VU-3 Man Father

Milton M. Meyers, Yeoman third class, of the Utility Squadron 3 Personnel Office, was presented by his wife, Emily, and the stork with a seven-pound, six and one-half ounce baby girl Monday, July 14th.

Freda Mae, the new addition to the Meyers' household, was born in Balboa Hospital and mother and daughter are doing well.

Meyers, who hails from San Antonio, Texas, has been in the Navy some nineteen months. He received his boot training at the Naval Training Center and has been a member of VU-3K for the past 17 months.

HU-1 Realizes Need; To Aid In Every Way for Carnival

A few men may be asking just why there's going to be a Navy Relief Carnival in San Diego next week. "What does Navy Relief have to do with us?" they ask.

To start with, just take a look right here at home. So far this year, over $550 has been given to men from HU-1 by the Navy Relief Society.

With money like that going out to people of every Navy unit, it is obvious that there must be a replacement of funds.

Here in San Diego there are two ways in which the Navy Relief Society has to replenish its finances to meet the many "bad luck" set-ups which confront many men in the Navy.

The first method is the annual call for contributions to the Navy Relief Society which netted $42.00 from HU-1. The other means is the sponsoring of a king-sized carnival such as the one coming up.

Highlighting this huge spectacle on July 31 and August 1, 2, and 3 at Navy Field, will be the presentation of six new Mercurys, to six lucky people, and that is where HU-1 can really do its part. HU-1 has been allotted 500 tickets to distribute at one dollar each, and though a man shouldn't expect to make a bank roll for himself on this deal, there are compensations.

First there is a dollar to the contributions collector for every book of twenty tickets distributed. Secondly, the contribution-taker of each car-winning ticket gets $25.00. And last, but not least, there is the Helicopter Squadron 1 "Champion Buck Hustler" trophy to be awarded to the person collecting the most donations in HU-1.

As we go to press, it is impossible to tell you who is leading in the Buck Hustler contest since the scene is obscured by a flurry of fleet fingers grabbing at the green backs. However we have from a reliable source who has reported some of the Hustlers as passing the 20 ticket mark with others closing the gap rapidly.

There is still time to join in and help hustle a few bucks. See LTJG McMillian of HU-1 for your book of tickets.

HU-1 To Sponsor Dart Booth at NR Carnival

This year Helicopter Squadron ONE (HU-1) will take part in the forthcoming Navy Relief Carnival to be held at Navy Field by operating one of the carnival's concessions.

HU-1 will have booth 18, which will consist of a dart throwing game. The targets will be balloons and the prizes are very tempting.

Bring the wife and kiddies. The Navy Relief Carnival is for all the family.

HU-1 Will Present Novel Booth at NRC

For six days, starting July 31, the lowly seaman will have the chance of his lifetime to bring revenge on the favorite object of affection (?) in the Navy.

HS-2 of ALF REAM has the only ball throwing booth at the huge NAVY RELIEF CARNIVAL,, but that's not all!

It features a galaxy of valuable prizes ranging from table lamps, ball gloves, pen and pencil sets and hose for the ladies, to dolls for the kiddies—all which may be won by doing what many men have secretly longed to do for years.

Yes, by simply throwing a ball at a target you can knock a Chief Boatswains Mate off a perch into a tank of icy water. This novel idea, a brainchild of LT Earl Bergsma, is expected to be the outstanding attraction of the midway and will not only feature a Chief Bos'un, but also a real live Marine. So save your money, fellows, and warm up your pitching arms and come over to HS-2's booth. (Professional Ballplayers welcome).

HS-2 Takes 4 Wins In Inter-Squadron Competition Here

With a new quarter just starting in inter-squadron competition at ALF Ream, everyone is picking their favorites as to who will be the champs at the end of the Quarter. Competition this quarter will be in touch football, swimming, softball, and pistol matches.

HS-2 touch football team has won the first two games by defeating HU-1 6-0 and VU-3 26 to 7. All touchdowns were made on pass plays with LTJG Ulm doing the pitching. On the receiving end Burdon has caught three touchdown passes and Resh and Donatelli one each.

LT Earl Bergsma, swimming coach, led his team to their second win Monday, July 14, by defeating VU-3 and HU-1. The scores for the meet were HS-2 points VU-3 37 and HU-1 32.

HS-2's fourth win came by way of the pistol team who defeated HU-1 1929 to 1790. LT "Rog" Gill was high man for the victories with 424 points.

Competition in the above sports will continue throughout July, August, and September. Trophies will be awarded to the champions in their respective sports and will represent FAD REAM in competition for ComFair Championship.

VU-3's Contribution Booth 'All Set to Go'

Step right up ladies and gentlemen! Each and everyone wins a prize! Step right up to the biggest little booth in the Navy Relief Carnival at Navy Field and be the guest of Utility Squadron 3.

Bearing the squadron insignia, the red booth will be located in the middle of booth row, paralleling Harbor Drive where Navy Relief contributions may be made. High atop the booth will be a four by twenty-five foot sign, Utility Western Pacific Fleet, which will feature a blue background and yellow lettering.

The Hi Mystic Helmet, symbol of VU-3's mystic art of radio control, will be on display along with a secret member of that important order.

By the way, although only about 50 percent of the tickets alloted to the squadron have been sold, a great majority of the crew has bought their tickets elsewhere and are looking forward to winning a new Mercury.

LCDR Hobson Named VU-3 Exec Officer

LCDR Robert F. Hobson was installed as Executive Officer of Utility Squadron, based at Ream.

Reporting aboard from West Pacific Drone Unit, where he was Officer-in-Charge, LCDR Hobson is a veteran of drone work and has had a long and illustrious career in the naval service.

Holder of the Air Medal, World War II Victory Medal, American Theater, American Defense, Good Conduct Medal, United Nations, and Korean Medal, Hobson enlisted in the Navy and received his recruit training at the Naval Training Center, San Diego. He saw service aboard the USS SARATOGA, Torpedo Squadron 2, Naval Air Station, San Diego; Patrol Squadron 43, Seattle; and Flight School at Pensacola, Florida, where he was commissioned as Ensign in March, 1942.

Upon graduating from Flight School he was attached to VU-5, Cape May, New Jersey; VR-3, Olathe, Kansas; and with VX-2 aboard the USS SHANGRI-LA. It was aboard the SHANGRI-LA that he piloted a radio-controlled aircraft in the first A-bomb test at Bikini in 1946.

From August, 1948, to December, 1949, Hobson attended the University of Washington for a five-term program. From the University at Seattle he attended the General Line School at Monterey, California, as a Naval student. Following all the book learning, he reported to VU-3K in December of 1951 as Pacific Administration Officer.

Chapel Services will be held at ALF Ream Sunday as follows:
Protestant Services 0930
Catholic Services 1030

National Model Airplane Meet to Include VU-3 KD's

LT Billy J. Long, Officer in charge of KD Unit 30, of Utility Squadron, will represent the squadron with a static display at the National Model Airplane Meet at the Los Alamitos Naval Air Station, Long Beach, California, running from Monday, July 28, to Sunday, August 3.

The National Model Airplane Meet is THE meet of all model builders as well as enthusiasts from all over the nation. It is composed of three general classifications; junior, senior, and open division, which all fall into different age groups. LT Long and Lloyd Zink, ATAN, of KD 26, are entering models in the open class. Mr. Long has built a half "A" free flight, pay load vent model, while Zink has a jet speed fuel control model for competition.

Displaying three KD's, the KD 2G2, jet propelled, KD 2R3, and the KD 6G1, there will also be an added feature. An F6F drone "Hellcat" will be shown in its relationship to the KD in ground operations as well as firing up the "birds" in a demonstration of naval service for all those attending the meet.

Representing KD 30 will be Ronald Ford, AT1, Ray Degarmo, AD2, Charles McKenna, AD2, James Stott Jr., AN, and Teddy Givens, AN. Tending the F6F will be Fred Noble, AD3, and Harold Condit, ALAN.

naga news

The Naval Air Skyraider Golf Team pulled a startling upset in trouncing the highly favored Los Alamitos team on the losers home course.

The match, which was an added attraction to the season's play, showed the caliber of the Airmen, who although they were playing on the other team's home course, always a golf handicap, came through to win 13-11.

The match was played at the Riviera Country Club in Beverly Hills. This course, incidentally, is where MacHunter, ex-Skyraider golfer, is acting as assistant pro under his father, Willie Hunter.

VU-3K Nips HU-1 Nine by 9 to 8

Utility Squadron THREE put out a HU-1 fire in the top of the seventh inning, to defeat the helicopter squadron, 9 to 8, notching win number three in the second half of the softball season in a game played Monday at Buchi Field.

Bill English, star leftfielder, blasted out three hits in four trips to the plate, including three runs batted in, and Ed Allen's two hits in four times at bat, led the drone men to victory.

John Arce pitched his fourth straight game and picked up win number three in the current quarter and his eighth win for the season.

As the fourth game slipped into the scorer's books, VU-3 continued to get power from unexpected sources. Bill English, who finally rose out of a prolonged slump, is pacing the team with Ed Allen, both batting a fine .417, followed by Dick Sufficool's .400, and John Arce with a .272. English leads in the RBI's with seven.

ALF REAM MOVIE SCHEDULES

FRIDAY, 25 July—"LOVELY TO LOOK AT," starring Red Skelton and Kathryn Grayson.
Short: "AIN'T SHE TWEET."

SATURDAY, 26 July—"DUEL AT SILVER CREEK," starring Audie Murphy and Faith Domerque.
Short: "SO YOU WANT TO GO TO A CONVENTION?" and "FOOD FOR PARIS."

SUNDAY and MONDAY, 27 and 28 July—"STORY OF ROBIN HOOD," starring Richard Todd and Joan Rice.
Short: "BUDDY MORROW ORCHESTRA."

TUESDAY and WEDNESDAY, 29 and 30 July—"LOST IN ALASKA," starring Bud Abbott and Lou Costella.
Short: "DUCK DOCTOR."

THURSDAY, 31 July—"WASHINGTON STORY," starring Van Johnson and Patricia Neal.
Short: "TRIPLET TROUBLE" and "U.S. NAVY BAND."

Volunteers for Commissary Store Nursery Sought

Volunteers to work in the Commissary Store nursery are urgently needed, according to Mrs. George Henderson, chairman of the Navy Relief Volunteers. The nursery has been established to care for children while parents are shopping in the store.

Mrs. Henderson says that the assistance of any Navy wife who can spare a few hours each week will be welcomed. The Commissary Store is open Tuesday through Saturday with 0830 to 1130 and 1130 to 1430 shifts for volunteers in the nursery.

Persons interested in giving their time and aid to the nursery are asked to contact Mrs. Henderson, H-361d, ext. 1294, or Mrs. L. W. Williams, co-chairman, at ext. 361.

Two Carriers Get New COs

CAPT Oscar Pederson turned over command of the aircraft carrier USS VALLEY FORGE to CAPT Robert E. Dixon in shipboard ceremonies last Friday morning.

In command since July 27, 1951, CAPT Pederson led the carrier in her record shattering third Korean combat tour, returning here July 3, 1952. He reports to the Staff, Naval War College, Newport, R. I.

He was graduated from the Naval Academy in 1926 and completed flight training in 1930.

Captain Dixon, a World War II Navy hero, was formerly Director, Flight Test Center, Patuxent River, Md. He is a two-time winner of the Navy Cross, the Navy's second highest award.

He was graduated from the Naval Academy in 1927 and received his Navy Wings in 1930.

CAPT Courtney Shands assumed command of the aircraft carrier USS ORISKANY in shipboard ceremonies Thursday, July 23. He relieved CAPT John O. Lambrecht who reports to Supreme Headquarters Allied Forces of Europe.

CAPT Shands was a student at the National War College, Washington, D. C., for the past year. He was graduated from the Naval Academy in 1927 and received his Navy Wings in 1929.

Captain Lambrecht, in command of the ORISKANY since July 26, 1951, brought the ship to San Diego from the East Coast via Cape Horn. This is the first time a U. S. carrier made the trip around the southernmost extreme of South America.

Joe Archer--the Navy Relief Carnival's 'Mr. Show Business'

Helping make the Navy Relief Carnival the biggest in its five year history is Mr. Joseph Archer, consultant to the Carnival Committee. With over 30 years carnival and show experience to his credit, he volunteered early this year to serve at no expense to the Navy Relief Society and has been working steadily on the project since the first of May.

Mr. Archer has dedicated his efforts for the Navy Relief Society to the memory of his son, the late Hermann Archer, U. S. Military Academy class of '54. Cadet Archer was killed in a tragic aircraft accident following a Christmas visit with his parents in Burbank last December.

In memoriam to their son, Mr. and Mrs. Archer have dedicated their lives to rendering assistance to servicemen and their families.

Cadet Archer was 21 years old at the time of his death. He had been an honor student in school and at the Military Academy. He was an outstanding athlete at both the University of California, Los Angeles, and at West Point.

"Mr. Archer's advice and assistance," says LCDR H. I. Pemberton, Carnival chairman, "in the professional phases of the carnival have proved invaluable in the successful presentation of the Carnival. Moreover, the spirit in which he has undertaken this difficult task deserves the appreciation of all of us in the Service."

JOSEPH ARCHER

Patent Attorneys Here

Mr. R. W. Butrum, Navy patent attorney, will be in IRD's Beneficial Suggestions Office, Building 415, next Friday. Mr. Butrum's visit has been arranged to facilitate both civilian and military personnel at NAS who desire answers to questions concerning government and Navy patent rules and regulations.

SD Throngs Pack Midway at Opener

NAVY FIELD, Thursday, July 31 (Special) — All time Navy Relief Carnival records were threatened tonight, as a vast, hilarious throng of sailors and civilians surged onto the gaily lighted, noisy, fun-packed carnival grounds here. At the current white-heat of public enthusiasm, it would appear that the anticipated mark of 300,000 for the four days show will easily be attained.

Kids and grown-ups alike swarmed through the fabulous 3,000 Navy Relief midway as the biggest carnival yet opened all stops and all else in San Diego came to a virtual standstill as every road seemingly led to the carnival grounds.

Highlighting the program were the talent-laden free stage show, the Aqua-Capers water show, the saucy, spicy Satan's Daughters girl revue, and the lavish free commercial and manufacturers' exhibit.

The Taxi Dance hall was jammed and the girls were as lovely as the posters depicted. Music blared, refreshments flowed from booths to customers in a steady torrent, and a hundred brightly decorated game wheels clicked merrily as all manner of valuable prizes were claimed by the thousands of carnival-goers.

Following the theme of "Fun for your Money," this year's carnival committee has gone to great lengths to assure the public a convenient, well-run show with a thousand things to do over the amply spaced grounds of the vast Navy Field area.

A quick circuit of the carnival grounds by a North Islander reporter brought an assurance that the customers like the show, and most of them will be back for the Friday, Saturday and Sunday stands.

"Best carnival yet," remarked a five-hashmarked chief, between handfuls of popcorn and gulps of liquid refreshments. "Those girls in that Bonnie Lee revue sure put

(Continued on Page 5)

New Jet Engine Of Longer Life Is Developed

A new pulse-jet engine with an operating life of 200 hours has been developed by the Navy.

The engine has a six-inch diameter and runs at approximately 150 mph. It is expected to find military use primarily in expendable appliances, such as the guided missile field.

Because the long operating life compares favorably with the normal flight time before overhaul of conventional reciprocating aircraft engines and because the engine is light, simple, and easy to construct, it is expected to advance the application of pulse-jet engines to helicopter rotors.

The engine has no pistons, flywheels, or well-defined combustion space and the theory of its operation has not been fully determined. Consequently the Naval Research Laboratory feels it is not practicable to predict all of the engine's potential uses or even its ultimate capabilities.

50th Birthday for 'BJM'

The sailor's bible—the Blue jackets' Manual—is celebrating its 50th year of publication.

First published in 1902, the book has held its place in instructing and familiarizing Navy personnel through the era of wooden, steel and atomic ships.

According to the first edition, personnel were divided into four conduct classes. The pay they drew and the liberty granted them depended on their individual status.

Waves Celebrate 10th Anniversary

The tenth anniversary of the Waves was marked in San Diego Wednesday evening at a dinner party held at the Armed Forces YMCA.

The 400 guests say LCDR Etta Belle Kitchen, ranking Wave officer in the 11th Naval District, receive the USO Service Award, a citation given for outstanding service to the USO.

RADM Wilder D. Baker, who retired Wednesday as the Commandant, 11th Naval District, gave a brief congratulatory message to the birthday celebrating Waves, commending them for their outstanding service.

A giant three-tiered birthday cake, with its ten candles lighted by Waves during a room-darkened ceremony, was cut by RADM Baker and LCDR Kitchen. As the tenth candle was lighted, Waves were termed "a proud service in a proud Navy."

Underlying note of the program was light-hearted "ribbing" and fun, with the Waves presenting a program of songs, monologues and skits. NAS Wave Betty Haddy deftly emceed this portion of the program.

Mustering-Out Pay Due in One Hundred Dollar Payments

WASHINGTON—Personnel on active duty can expect their mustering-out pay in $100 installments, the Defense Department has announced.

Regulations and procedures for administering mustering-out pay authorized by the recently signed K-Vet Bill were also outlined in the announcement. Only veterans already honorably discharged or released will receive the payment in a lump sum. They must, however, request payment through application.

The new law stipulates that mustering out pay will be paid to enlisted personnel and officers below the grade of major and lieutenant commander. The exact sum of payments are given as $100 for less than 60 days service, $200 for more than 60 days service without foreign duty, and $300 for more than 60 days service including foreign duty.

Personnel honorably discharged or released after June 26, 1950, are eligible for the pay except:

1. Personnel transferred or returned to the retired list who receive retirement or retainer pay. Those retired or separated because of physical reasons are excepted.

2. Personnel who are discharged or released on their own request to accept employment and have not served outside the continental limits of the U. S.

3. Personnel whose total period of service has been as a student in a civilian institution.

4. Personnel discharged to enter the U. S. Military Academy, Naval Academy or Coast Guard Academy.

5. Personnel whose only service has been as a cadet or midshipman in the three Service academies or in a prep school for candidates to one of the Service schools.

6. Personnel ordered to active duty merely for training or physical examination for a period of less than 60 days.

Personnel who are honorably discharged in order to reenlist will also receive mustering-out pay in monthly $100 installments. They will have the option of collecting the money either at the time of discharge or at the end of their reenlistment period.

Personnel who have been discharged to reenlist before the passage of the K-Vet bill and who are

(Continued on Page 5)

Three Comairpac Commanders Are Presented Awards

VADM Harold H. Martin, Commander Air Force, Pacific Fleet, presented awards to three Navy commanders in ceremonies at the Naval Air Station recently. CDR Paul N. Gray, former skipper of VF-54, now All-Weather Training Officer on the staff of ComAirPac, received his second and third award of the Distinguished Flying Cross for leading his squadron on initial strikes against North Korean military installations. He returned to San Diego with his squadron on March 25 aboard the aircraft carrier USS ESSEX.

CDR Robert F. Farrington received the Bronze Star for his exceptional planning, resulting in low accident record of his air group. CDR Farrington is Carrier Air Groups Training Officer on VADM Martin's staff. He was Commander of Air Group 15 which returned to the states aboard the aircraft carrier USS ANTIETAM on May 2.

CDR N. A. Commons received a Commendation Medal for his part in planning logistics support of units in the Far East. He was at that time on the staff of Commander Fleet Air Japan. Commons is now commanding officer of Fleet Aircraft Service Squadron SEVEN at the Naval Air Station.

GETTING AN EARLY START for Christmas are the personnel of the NAS Fire Station No. 2. They have to—if the dozens of collected toys and hundreds more expected are to be repaired and renovated by December. The toys will be given to underprivileged children in the San Diego area. Pictured left to right, are: M. E. Heniser, SN; K. M. Davenport, AN; R. L. Evans, AA; J. T. Simpson, AN; and T. E. Williams, AN. Station personnel are urged to deposit toys in the four collection boxes at various points on the station.

Station Firemen Continue To Collect Christmas Toys

Bicycles, tricycles, scooters, dolls, boats, cars, roller skates, games—these are just a few of the toys now being repaired by NAS firemen and are slated to be Christmas gifts for underprivileged children in the San Diego area.

CHBOSN W. S. Mainord, station fire marshal, in charge of the toy drive, reports that the call for donations of used toys has been met with a fine response by station personnel. Since the drive continues into November, he urges personnel to check their basements and attics for discarded toys of all sizes and descriptions which may bring happiness to some San Diego youngster. Toys may be deposited in any of the collection boxes at various points on the station.

A toy collection box has been set up at the entrance of the Harbor Drive parking lot in addition to the three at the Coronado Gate, NAS landing, and East Beach landing.

Security Explains On-and-Off-Station Parking Rules

An average of 12,000 cars enter the Naval Air Station daily. With parking space available for only a fraction of this number, NAS traffic authorities are faced with a serious problem.

To meet the situation, the Security Dept. traffic section has evolved rules and regulations concerning parking at NAS designed to allot the available space with fairness and equity.

Key to Security's system of regulating traffic are the various windshield stickers issued for automobiles. Each sticker, according to its category, carries certain privileges and restrictions regarding the movement and parking of autos on the station.

Autos carrying the "E" sticker, issued for cars of enlisted personnel, are permitted to enter the station through the Coronado Gate, and may park in Stockades 1 and 2, at the Navy Exchange for the designated time, in the marked parking area at Bldg. 653 (quaywall lot), at the EM club, and at the Fairbetupac lot (for personnel attached there).

Cars carrying the CPO sticker have the same privileges as those with the "E" emblem, but in addition may park in the CPO club lot during club hours and at the Barracks G lot. Parking in the Barracks F lot is by special permit only.

"Restricted" stickers are issued to cars not fulfilling station auto insurance requirements. Cars carrying this sticker are permitted to park only in the parking area just inside the Coronado Gate.

Cars carrying the following stickers may park in non-reserved areas: 1. White Wing, issued to retired captains and above, and captains and above who are not attached to the station: 2. Blue Wing, for commanders and above attached to the station; 3. "Standard" Officer, for commanders and below not attached to the station, and lieutenant commanders and below who are attached to the station.

The Security Dept. authorizes special parking in the building 415 and Chouree Street lots. Reserved for Supply & Fiscal and O&R personnel, both military and civilian, is the Gowan Street lot. Special parking there is authorized by the two departments.

Other parking on the station is under the authority delegated to four parking officers, who each has a certain area under his jurisdiction. Parking space in squadron, hanger, shop, and other outlying areas are typical examples of parking facilities under their authority. Requests for this space by personnel must originate in their own department or squadron. The parking officer for the area concerned takes final action on issuing the special permit.

One other parking area, the Harbor Drive lot, accommodates the autos of station personnel. Located near the San Diego entrance of the Coronado ferry, the space is pro-rated on a departmental basis. Primarily for civilian personnel, the lot in addition accommodates approximately 100 cars of shore-based personnel. Permits for parking are issued under the supervision of the Security Dept. in accordance with the established quotas of the various departments. A special area in the Harbor Drive lot is reserved for physically handicapped employees at NAS.

How to help alleviate the station parking situation—Security Dept. officials have one suggestion which cannot be emphasized too much. They say the use of car pools can materially reduce the number of vehicles on the station.

Industrial Relations Dept. to Have Picnic

A gala celebration gets underway for the Industrial Relations Department on August 9 with a picnic which will be held at Pine Valley.

The activities, such as swimming, horseback riding, and other games, should start at 1100 and in the evening there will be square dancing offered at the lodge.

Those who are planning to come are reminded to bring box lunches, but the department will supply the beverages. Those of IRD who are interested in participating should contact Millie Rose of Ext. 1184.

Sea-Going Navigation Course to Be Offered

Sweetwater Evening High School has announced that a new class for beginners in sea-going navigation will start Monday evening, August 4, at 1900. The course is free of charge and the only student expense is for his own books and equipment.

Starting at the beginning of modern navigation, the course covers piloting, dead reckoning, and navigation along the coast, and then continues to cover celestial navigation.

Simple arithmetic is the only requirement and knowledge of higher math is not required. The courses are open to servicemen of any rank or grade, prospective merchant marine officers, civilians, fishermen and yachtsmen. Navy personnel are especially welcome.

Certificates are issued upon passing the final examination and school credits may be obtained if desired.

Sweetwater Evening High School is located at 28th and Highland Avenue, National City, Calif. The telephone number is G. 7-1196. In order to get there, take the "V" bus in San Diego.

New Wage Scale for Supervisors Listed

The Navy Department last week released the new wage schedule for civilian naval employees. The new schedule went into effect Monday.

Last Friday's NORTH ISLANDER listed the wage schedule for ungraded employees. This issues carries below the schedule as it applies to employees of supervisory level.

SUPERVISORY MECHANICAL SERVICE

Short Hop Enables Three Brothers to Meet at NAS

Three Rotchstein brothers, Morris, Herschel, and David, got together for the second time in 18 years when Herschel flew into NAS San Diego on July 26 for a brief refueling stop.

The three brothers, who have a combined total of 44 years Naval service, are all assigned to Naval Aviation. LCDR Morris Rotchstein, a pilot, is Administrative Officer of Utility Squadron 7, based here. LT David Rotchstein, also a pilot, is Anti-Sub Warfare Training Officer for the San Diego-based Fleet Airborn Electronics Training Unit, Pacific. Chief Aviation Machinist's Mate Herschel Rotchstein is plane captain of a P4M "Mercator" patrol bomber assigned to Patrol Squadron 21, based at NAS Patuxent River, Md.

The only previous meeting of the three brothers since 1934 took place in 1948, when their paths crossed briefly at Norfolk, Va.

Still another brother, Boatswain's Mate, Third Class, Lewis Rotchstein, is in the Navy. He is stationed on board the USS BUSHNELL, a submarine tender.

Morris, Herschel, and David Rotchstein

Rides! Games! Food! Exhibits! Shows! Girls! Fun! All at the Navy Relief Carnival now in the second of its four-day run. Place: Navy Field, Harbor Drive and Fifth Street, San Diego! Don't miss it!

COMMISSARY STORE OPENS

CAPTAIN W. L .ERDMANN, Commanding Officer of the U. S. Naval Air Station, was one of the first patrons to visit the new commissary store which opened at NAS last Friday. All customers found the store more than able to satisfy their needs at reasonable cost.

CHANGE IN STORE is absolutely necessary in the new Commissary Store which opened last Friday aboard this station. Five cashiers on hand with this change are (left to right), A. E. Shay, SA; A. E. Comstock, SA; R. A. Neal, SA; and D. L. Hayworth, SA; who are shown with LT E. E. Smith, the Officer-in-Charge of the new store. The cashier not shown is J. W. Gale, SA.

Life at the Navy Relief Carnival Is Fast, Fun and Entertaining

GETTING IN STEP for the big show are (left to right) Nanna Jean Dodge, Darlene Denton, Jane McGaugh, Danny Bramer, Patsy Rader, Maggie McIntosh, Betty Jowers, Jane Williams and Jeannie Mullen.

ROUNDING UP A GOOD TIME isn't very difficult at the Navy Relief Carnival. Paul McKinnon, a hard worker behind the Carnival scenes, displays some rope-trickery for some of the girls in the variety show.

"FREEZIE," the "Mystery Boy" of the Navy Relief Carnival's Business Men's Exhibit, is attracting a lot of attention wherever he goes. Here he explains about the big Navy Show that will be held at the Navy Field, Fifth at Harbor Drive, July 31 to August 3, inclusive, to Miss Mae Entwhistle, Howard Duff, and Miss Nancy Kelly at the La Jolla Playhouse.

IT'S HERE AT LAST! THE BIGGEST AND BEST NAVY RELIEF CARNIVAL IN HISTORY! Come on out tonight, tomorrow, and Sunday for the time of your life!

ONE OF THE MANY Aqua-Capers stars prepares for a dive into the "deep blue yonder" at the Navy Field Pool where the Aqua-Capers were presented for the first time last night. Offering the last word in graceful aquatic stunts, the water-borne troupe will be at the Navy Relief Carnival tonight, tomorrow, and Sunday.

HOT TIME IN THE OLD TOWN LAST NIGHT! That's the only way to put it. Just ask any of the above "strangers" who wondered into the Amphib Base's replica of an old western town last night at the Carnival opening.

THAT'S SOLID, JACK, in more ways than one. Jack Wilson, one of the featured male vocalists at the carnival's variety show "gives out" with a special rendition for a few members of the show between acts last night.

For the time of your life, join the crowds hurying to the huge Navy Relief Carnival now underway at Navy Field. This is your big chance to help Navy Relief and have lots of fun, so LET'S GO!

news at a glance

King Farouk abdicated the Egyptian throne last Saturday after a tank-supported army forced a coup. The king sailed with his family aboard the royal yacht for Italy after the Egyptian cabinet proclaimed Farouk's seven-months-old son to be King Fuad II of Egypt. Leader of the bloodless move was General Mohammed Naguib.

A similar situation may be brewing in Iran where Mossadegh regained his premiership a few days after resigning the post as a result of a dispute with the Shah of Iran. The frail but popular old Mossadegh returns with more power, while the Shah has lost face with the masses as well as power to control the destiny of his country.

* * *

Idle for 53 days, the chimneys of the steel mills were smoking again. But in that period the nation had lost 20 million tons of steel. Thats' a whale of a lot of metal — more than Britain produces in a year or more than half of Russia's annual production.

The steelworkers got a raise of 16 cents an hour (had demanded 17.5 cents), got their eight cent an hour fringe benefits as demanded, but didn't get their "union shop." The companies were given a $5.20 boost per ton of steel. The military estimated that 20 to 30 percent of the scheduled arms production for 1952 would be lost because of the strike.

* * *

Mrs. Eva Peron, one of the most glamorous and powerful women in the world, died dast Saturday in Buenos Aires after a lingering illness. A poor provincial girl, whose rise to political power has been called a real-life Cinderella story, Mrs. Peron was idolized by the Argentine masses. A mammouth tomb, which will take two years to build will be her final resting place, the Argentine government announces.

Mystery!

Theres' a mystery at NAS! Nope, no one's missing nor are there any butlers running around to suspect. But, nevertheless, there's a mystery that all civilians on the station can help solve. So, lend an ear, all potential Sherlock Holmes, and help us end this mystery!

It has come to the attention of the Civilian Cafeteria management that a large number of the cafeteria's coffee cups have been missing the past several weeks. Many workers come in for coffee, take it back to their shops, linger over it before work chatting with other workers, and just forget to bring the cups back when they're through.

So, all you amateur sleuths, if you see the missing coffee cups, take them immediately to the Civilian Cafeteria and remember to always take them back when you are through with them.

"Coffee Shop? Yea, right down that way . . . HUH???"

Why Not Go for a Drive

In exactly 11 days, the big bond drive which was postponed a few weeks ago will get underway aboard the Naval Air station.

For the several weeks following, the civilians employed here will be given the opportunity to make one of the wisest, most profitable investments now offered on any market in the world. Materially, this investment couldn't be more sound, but look at it from a different angle.

"Banner waving," as it's called, doesn't go over very big with anyone. But to expound on the advantages of purchasing U. S. Savings Bonds isn't "banner-waving." It's just common sense being put to use. Patriotic?

Well, of course, that's one thing that's always important, but HOW is it important?

Patriotism begins with the individual. He must be willing to back his country in every way. These individuals make homes which must work in harmony and practice the ideals of American life. These homes make communities which must produce with all other communities in this country the products—materially and spiritually—which form this country's beliefs.

This latter step cannot be carried out without financial backing from the individuals concerned. It takes money — a great deal of money to support America and to insure her future. U. S. Savings Bonds are one answer to the question, "How can America's economy be insured?"

So, why not get behind this campaign. This is one drive you can go for in a big way.

GET ON THE BOND BAND WAGON!

THAT MAN friday

Why doesn't the NORTH ISLANDER publish jokes? This is a frequent question coming from readers. For their benefit we publish a choice group of witticisms coming from a service clipsheet:

"My girl plays the piano by ear."

"That's nothing. My old man fiddles with his whiskers."

Exercise kills germs, but the trouble is to get the darn things to exercise."

Pat: "Dad and Dooley have been fighting for 20 years, but, begorry, they've quit."

Mike: "Buried the hatchet, eh?"

Pat: "No, they buried Dooley."

The floor is the only thing sure to stop falling hair.

"Theres' only one thing that keeps you from being a barefaced liar."

"What's that?"

"Your mustache."

Druggist: "Did the mudpack I suggested improve your wife's appearence?"

Customer: "It did for a few days, but then it wore off."

"Miss the train, Sailor?"

Naw! The engineer and I had a squabble and I just chased him out of the station."

Is any more explanation necessary why the NORTH ISLANDER doesn't publish jokes?

Chaplain's Corner

Self-Respect

There are two determinators that center into the lives of all of us. One is self-respect; the other human respect. The former has as its object the praise of fellow men. One looks to Heaven the other to earth. Self respect stands for knowledge of self; in the sense that a man understands that God made him according to His Own Image and likeness and that God has obligated him in every thought, word and action. He respects himself simply because God thinks so highly of him. Human respect stands for approval of our fellowman. A man with mostly human respect seeks as his objective in life the knowledge and accord of his associates. Such adulation is the standard he follows. If he wins that, he is satisfied with himself and with the life that he leads. Such a success is, of course, barren and shallow but many men think it is the greatest thing in life. And the reason is simply that they have lost sight of God and they make a God out of human relationships.

We must always think well of our fellowmen. But we must never for any reason put them ahead of our God. The first and greatest command God gave was to love Him: the second was to love our neighbor.

No one can long respect his fellowman who has lost his respect for God. One the other hand the man who recognizes his God will see the image of God not only in himself but in his fellowman.

Life is not a popularity contest; it is a solemn obligation to the God who made us. Popularity is a luxury but self respect is a necessity. Without it we cannot long live with ourselves or with others, but with it we can live forever.

H. T. LAVIN
Catholic Chaplain

movie menu

SATURDAY, August 2—"The Black Swan" starring Tyrone Power and Maureen O'Hara. This is a re-release which first came out in 1942. This picture has adventure, glorious technicolor, and a terrific cast with George Sanders playing the villain.
SHORT—Perez Prado.
Running time—1 hour and 47 minutes.

SUNDAY and MONDAY, August 3 and 4—"Lure of the Wilderness" starring Jean Peters. Again no review was available on this picture.
SHORT—"To the Rescue."
Running time—1 hour and 49 minutes.

TUESDAY and WEDNESDAY, August 5 and 6—"Jumping Jacks" starring the laff riot duo of Dean Martin and Jerry Lewis. This time they're up in the air as paratroopers. Dean Martin gets sworn in, but Lewis is rejected. Lewis tries to help the boys at camp by staging a show, but the only way he can do this is by masquerading as a paratrooper. Lewis gets the show over with success, but his frantic efforts to leave camp and get out of uniform are frustrated. The scenes in their maneuvers are hilarious. It's another fantasically funny comedy riot with an unlimited number of laughs.
SHORT—"Sporting Oasis."
Running time—1 hour and 55 minutes.

THURSDAY and FRIDAY, August 7 and 8—"The Wild North" starring Stewart Granger, Cyd Charisse, and Wendell Corey. Stewart Granger, north country trapper, accidently kills a bully during a quarrel. Though believing himself innocent, he heads north, knowing the mounties will be on his trail. In a blinding blizzard he is captured by Wendell Corey of the mounties, and they set out on the return trip despite Granger's plea that it is madness in such weather. Wolves attack; Corey, badly mauled, blacks out. Granger nurses him back to health, physically, but he remains mentally unbalanced. Subsequently to snap Corey out of his trance, Granger loads him aboard his canoe and heads for the rapids, hoping the sudden shock will do the trick. The dazed mountie tries to shoot Granger as the canoe capsizes; the bitter fight of man against man. Filmed against the breathtaking panorama of the frozen north, here is matchless motion picture adventure.
SHORT—"One Cat Family."
Running time—1 hour and 51 minutes.

THE PLACE IS familiar

The Fleet Landing along Harbor Drive in San Diego, which was built in 1944, is certainly a place that is familiar to the majority of the civilians and sailors of this area.

It is the main docking area for small boats coming from either the ships anchored out in the bay or from North Island. These small boats can be seen constantly carrying liberty parties from the ships and NAS to San Diego and back.

The Fleet Landing is a busy spot most of the time. But it will be exceptionally busy this week end, when boats carrying personnel going to and from the Navy Relief Carnival will be pulling in and out of the landing continually.

The NORTH ISLANDER
Vol. XI August 1, 1952 No. 31

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

Get Acquainted

Meet LCDR Rogers

We would like to introduce you to LCDR W. H. Rogers who is one of the men behind the scenes of the Navy Relief Carnival. He is the ComAirPac Liaison Officer and is in charge of ticket sales for the six new Mercurys to be given away at the Navy Relief Carnival.

LCDR Rogers commenced his military career by entering the Army Air Corps in 1932 and was stationed at Fort Sill, Okla. Here he was a member of the first ballon squadron to be formed and later served with the 16th Observation Squadron, flying Thomas Morse 0-19E's.

Three years later he entered West Point and in 1937 went to Texas where he was employed by theAir Corps as Civilian Flight Instructor. His Naval career began in Dallas, Texas, in 1942 and after a three-week refresher course received his Navy Wings. He later served with a Squadron in the Pacific.

In December of 1945 he was re-

leased to inactive duty and accepted the position of Air Port Manager at the Battle Creek-Kellogg Municipal Air Port in Michigan. LCDR Rogers returned to active duty in May of 1947 and was put in charge of all the USNR Training Centers in Southern Michigan. Later he was assigned to VC-11 as Assistant Operations Officer.

Returning from Korea on May 2, 1952, where he served aboard the CV36, USS ANTIETAM, he was placed on the Navy Relief Carnival Committee, and is expecting orders to shore duty in October.

LCDR Rogers, a native of Austin, Texas, is now residing in Coronado with his wife Bettye and his daughter Suzanne.

Mustering-Out Pay

(Continued from Page 1)

eligible for the mustering-out pay should first contact their Finance officers to begin processing their claim for payment.

Veterans discharged or released before the passage of the bill have until July 16, 1954, to submit an informal application for the lump sum payment. Included with the application must be the original copy of Report of Separation from the Armed Forces of the United States (DD214).

The application should be on 8x10½-inch paper and contain the following:

a. Veteran's name and address, printed or typed.

b. Service number, serial number or file number.

c. Statement that he was not discharged or released from active duty to accept employment without service outside the U. S.

d. Statement that he is not now serving on active duty.

e. Statment that he has not received any mustering-out payment or that he has not or will not make any other application for the mustering-out payment for service after June 26, 1950.

f. Statement as to whether or not he has had any foreign service and the date of his return to the U. S.

"Did you hear a dull thud when we started the engine?"

LT R. T. RICCI, J. E. Feaster, Acceptance and Transfer Chief, and LT J. L. Martin, Fasron 691 Maintenance Officer, sign the "O. K." for Fasron 691's 1000th Aircraft serviced by the squadron.

691's 1000th

Fasron 691 this week celebrated the servicing of its 1000th aircraft since its recall to active duty.

Just 22 months ago a small organized reserve Fasron was recalled to active duty from Columbus, Ohio. This group of 120 men was made up of personnel from all walks of civilian life with relatively little naval experience or former training in aircraft repair and maintenance.

The squadron, commanded by CDR Norman A. Young, has been known as "The Air Garage of San Diego" for its exceptional work in turning out top conditioned aircraft. It has turned out more aircraft than all other Fasrons in this area combined.

Nav. Academy Class of '44 Sked Reunion

Members of the Naval Academy graduation class of 1944 will hold a reunion of all class members now residing in this area next Saturday, August 7, at the Naval Station Club.

The reunion party will consist of dinner and dancing and will get underway at 1830.

According to a rough estimate, there are about 25 to 40 members of the 1944 class now stationed in this vicinity. Since all members may bring guests, approximately 75 persons will be in attendance at the celebration Saturday.

All graduates of this class are cordially invited t o attend and may obtain further information by contacting the Naval Station Club.

Throngs Pack Midway

(Continued from Page 1)

the motion before the house!"

"Sure, we're having fun!" answered a young whitehat, pointing to the bacon, dolls, pounds of coffee, and other trophies carried by the pretty girl he was escorting. "Carry the prizes? I'm too busy winning more stuff!"

"I just won a whole ham!" squealed a buxom blonde lady to her Marine sergeant escort who was just coming out of the Hula Hut.

So it will go tonight, tomorrow and day after tomorrow. Fun for everyone. Be there!

Are YOU An Enemy Statistic?

"How can this be?" you ask, as you work on your job at the Naval Air Station. Have you ever taken a few moments to analyze the old saying, "The pen is mightier than the sword?"

An excellent example of enemy strategy can be found by exploring the opportunities we provide an enemy by not buying our share of U. S. Savings Bonds. This program is not the whim of any one person. It is a program urged by Congress as essential to the well being of our country.

An enemy knows that if there is 100 percent cooperation, there is little chance of dividing an opponent, but if there is a loophole or stepping stone provided, they make "hay" of the opportunity.

The U. S. Saving Bond Program participation rate at NAS is 59 percent. . . The enemy can use this fact as a devastating statistic, and state that a little more than half of the people at this station support a vital part of this country's "National Defense Effort"; the other 41 percent are not in sympathy with the American way of life and do not wish to cooperate. We know that this is not so, but the figures can be twisted to mean almost anything if the opportunity is provided.

Material such as this is not used broadly in the United States, but it has serious repercussions in Europe and Asia where aggressive forces are constantly trying to tear down the reputation and prestige of the United States.

It's a fact. This Air Station could be the example cited by enemy forces and represented with firm facts proven by press releases.

To further explore this strategy and show that this principle can be applied to other behavior of the conscientious but procrastinating citizenry of San Diego, let's take a look at the last water election. Everyone in San Diego likes lots of water. We are aware of the need for voting so that we can provide the means for getting water. But on the last election one San Diego paper reported that only 40 percent of the registered voters went to the polls to vote on this very important issue.

Every communist official the world over watches these election returns and on this basis, he uses this information as convincing propaganda that his way is better because in a democracy such a small minority actually puts a thing over.

Statistics make a tremendous impression on other people. For example: We boast that we are in the vast majority, a Christian nation. That has no apparent basis in fact because, according to the published statistics, church attendance is low. These statistics are read and twisted by foreigners to mean that we no longer have a moral code; are no longer a church attending nation.

Are you assuming your responsibilities for cooperating and promoting the democratic principles of our nation by subscribing to U. S. Savings Bonds? Can you see the possibilities that your failure to subscribe offers to subversive elements. Think about it! Then subscribe for a bond. . .

Hornet Reunion To Be Scheduled

A few weeks ago an article was published in the NORTH ISLANDER suggesting a reunion be held by the men who were once crew members aboard the CV8, USS HORNET. Great interest has been shown so far and a letter was received from ADM C. P. Mason (ret.), who at one time was skipper of the USS HORNET, stating that he would do his best in helping to make the reunion a success.

He suggested that the date for the reunion be June 3, 1953, and that he expected to attend along with several other officers who had served aboard the USS HORNET.

If there are any men at NAS who were aboard the CV8, USS HORNET and are interested in participating in the reunion, please contact either H. A. Lane in building 21 at the Test Line, or call C. M. Bech at R-1471.

By "WINDY" SPLICHAL

Your reporter today wishes to take this opportunity to thank everyone in the Electronics Division who helped me with the Navy Relief Drive. We are well over our 100 percent goal. As of the writing of this column our division has turned in $1119. Electric Shop 4248 turned in more than any other shop within the division. Gladys Cockran of Cable Shop sold 11 full books of tickets to become the outstanding salesman in the division. Thanks again to all who were so willing to help in such a great cause.

This past week has seen the Cable Shop bursting with cakes for the many employees who recently celebrated their birthdays. The birthday kids are Bob Howard, Lorene Lott, Ellen Bronson, Nathalie Steill, Lavandia Mack, and Bill Pleasants.

Welcome back to Mrs. Ward. Our well wishes are with you.

Irvin L. Butcher and family spent some time in Ohio, and Minneapolis, Minn. to see a daughter. They were on a 6,100-mile trip which took them five weeks.

Marie Breck and her husband spent three weeks vacation in Oregon, Washington and Olympic Peninsula.

John Talnagi and his wife spent a two weeks vacation in Hollywood and Catalina Island.

Dorothy MC Brown has been on the sick list for some time. She just returned to work and we were all very happy to have her back.

H. T. Spradley, Inspection group of the Electronics Division was voted the best speaker of the evening at the regular meeting of the North Island Toastmasters Club. Visitors are always welcome at the meetings of the club, each Monday evening at 7 p.m. at the North Park Lions Club.

By B. DREHER

SUE HARMON, Shop 6236, was winner of the Kitty Muhl perpetual trophy last week when she won the Ladies Handicap at the Coronado Yacht Club. Sue was skippering the Harmon boat "Six Bits" a 32-ft. P. C. class sail boat, which she is also entering in the Powder Puff Derby at San Diego Yacht Club. Good luck, Sue.

HILDA RAY of 6246 is on a month's vacation. During this time she will attend the State and National Conventions being held in Los Angeles and San Diego of the Federation of Colored Women.

Missing from the Machine Shop for the past three weeks is L. J. SUSANS who has been ill. E. I. RALSTON of the same shop has been home two months because of a leg operation. Hope they will be back with us soon.

When RAUL PERAZA turned up missing a week ago Tuesday his friends in the Jet Shop couldn't help wondering if that annual leave he took was to "help launch" the Del Mar racing season.

Don't remember if we mentioned that JOHNNY OLIVER of the Technical Files, has transferred to O&R Engineering Division where he wil be working with Mr. FELIX KALLIS in the Jet Engine Section. V. A. SCOTT, formerly of 6201, has replaced Johnny in Technical Files.

It's rumored that TOMMY KNIGHT, Shop 6123-2, broke the springs on his truck and now has to drive to work in that gorgeous Lincoln!

We understand that CLAUDE PRIBBLE, boss of the Spark Plug Shop, is still in the Naval Hospital, but is feeling much better. He is in Building 10 on the second deck. In case any of his friends or relatives may like to pay him a visit between one and four o'clock Saturdays and Sundays.

STANLEY GROBECKER, IRVING KELLEY, L. A. ALFORD, MARTIN E. ETTEL, ARCHIE L. HAYNES, and C. V. FALARDEAU were recently presented with certificates of completion from a Metal Class they attended. LCDR DICERCHIO, Division Officer, made the presentation.

Leadingman C. J. WILLIAMS of Engine Test returned last week from a three weeks vacation. With his family and trailer, Williams made an extended trip through the Bishop Country.

CLETUS FALADEAU, the guy who helps draw up all those blueprints around the Division, spent last week enjoying life at Sequoia National Park.

HAYES CAMPBELL from Test Cells recently returned from a five weeks' visit in Oklahoma. He says he "ain't a'going back!"

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

COLUMN RIGHT—Is your column. Its purpose is to answer questions of general interest which affect your employment. Forward all questions to, "COLUMN RIGHT," c/o Industrial Relations Department, Building 415, or deposit them in the Beneficial Suggestion Boxes.

Q. Why can't pay-off checks, at time of resignation or discharge, be issued the same day, like the majority of good business firms, or at most, the following Friday?

A. When an employee resigns or is discharged he is routed on Form 37 "Disposition Record, Civilian Personnel" to the Fiscal Division, Supply and Fiscal Department for clearance. Standard Form 52 "Request for Personnel Action" is prepared by the Department concerned and delivered to the Industrial Relations Department on or before separation date. The Industrial Relations Department prepares Standard Form 50 "Notification of Personnel Action" immediately and forwards it to the Fiscal Division, where prompt action is taken to show his separation on the current payroll which places him in line to receive his final wage check, including lump sum leave payment as may be due. Payment is made on the Friday following the close of the payroll period, the same as the wages of employees not being separated. It would be impracticable to attempt to handle the volume of separations as special payments, as it would jeopardize the ability of the Fiscal Division to meet the required paydays for personnel currently employed.

Q. Annual leave is computed for completed bi-weekly pay periods. If I resign one day short of a pay period will I be deprived of any leave that I have earned?

A. If you are paid bi-weekly and you resign at any time within a bi-weekly payroll period other than at the close of the last working day of the period, you do not accrue leave for that incompleted payroll period. If you are paid weekly that same rule applies for the weekly pay period.

THE SHOW must go on! And to make sure it does, projectionist W. D. Hixson examines the arc lamp in the projector while G. O. Harler loads the projector. The NAS theater has two 35 mm and one 16 mm projector.

Archangels of the Arc-Lights—The Story of NAS Movie Men

Seldom heard or seen are the five NAS Theater projectionists who, in bringing station audiences their "12-cents worth," are responsible for the station's biggest single recreational activity.

Audiences rarely are aware of this quintet's existence except when a film breaks or the projector falters. Then, of course, the projectionist finds their sudden elevation from obscurity to notoriety a bit distasteful.

Although they are content to perform their job with as little fanfare as possible they feel that their "clientele" should know a few things about their job. "It isn't a lark," they say. "Plenty of hard work—a lot more than pulling a few switches and sitting back to watch the movie."

The five men, Bob Foster, SN; Harold Bell, AN; W. D. Hixson, AN; and G. O. Hahrler, AM3, under the supervision of Theater Manager P. J. Gauthreaux, EM1, work on a two duty section schedule, with each group alternating in putting the movies on the screen.

They claim they rarely have the opportunity to watch a movie in the proper sequence—other chores keep them occupied. Reels must be loaded in the two projectors; other reels must be rewound; functioning of the projectors must be closely watched; films must be spliced and mended. But most important, a sharp eye must be kept on the screen—on the upper right-hand corner—where a dot, known as the "cue," will appear. The "cue" tells the operator when to switch on the next reel. If he misses this signal, a vacant screen will be the result, something which is always embarrassing to projectionists and irritating to audiences.

Although audiences frequently manifest their indignation in a boisterous manner when a film breaks, it has little effect on the projectionists. Their booth is soundproof. They quickly remove the film from the machine and put it in the splicer for mending. Total time for the job averages a minute and one-half. Breaks are usually caused by old, brittle film.

How is it, seeing a movie three or four times? The five men unanimously agree that even if movies are better than ever, viewing them once is enough. Hixson estimates he has seen 500 movies at least twice, and he, like the others, confess they don't attend the theater when on liberty.

But despite many of the pitfalls of the movie projectionist's life, they find their occupation a fascinating one, and take pride in working in one of the best equipped theaters on the West Coast.

E. C. McCORMICK
Commander, Old Town Legion Post 564

Legion Names Officers, Reps Conclave-Bound

Last Saturday evening many members and friends of the North Island Service Post and Unit 753 saw the installation of new officers. The next regular meeting will be on Thursday, August 14. All members are urged to attend this meeting as it will be the first of the new year for your new officers and your yearly projects will be decided.

The Post is going to try to publish a monthly paper to be sent to all members. August is set aside as a month to solicit advertisements for our paper. If you wish to advertise or have friends who would like to advertise in it, be sure to be at the meeting and receive first hand information.

Through the efforts of the Service Officer of the Post, IRO now has the paper for veterans discharged since June, 1950, to file for benefits of mustering-out pay. These papers will be in the hands of the supervisors in the very near future.

NORTH ISLAND Legionnaires pose for picture prior to departing yesterday for the state Legion convention in Fresno.

This evening will see several American Legion Post members from various posts leaving the city to head for Fresno, California, for the State Convention. Only one auxiliary member from NAS is leaving that we know of and she is the newly installed president of the North Island Service Unit 753, Mrs. Mildred D. Splichal. In two weeks we shall print a report of the convention.

HAROLD BELL, AN, (left) shows new projectionist Bob Foster, SN, how film splicing is done. It takes minute and a half to mend film and get it back in the projector, although it seems much longer to movie audiences.

Bigger and better than ever—the gigantic Navy Relief Carnival at Navy Field. Come one, come all, for the time of your lives.

RIDE WANTED—Ride wanted from 47th and El Cajon Blvd. to ferry landing, 0800 to 1630 shift. Starting August 4. Contact S. Phillips by calling T-1-7077

FOR RENT—Studio apartment in National City. To rent until September 1. Contact CDR Knapp by calling Greeley 7-8307.

LOST—Wallet containing Identification and Liberty card, California drivers license, station taxi pass. Reward offered. Contact R. E. Carver in Bldg. 8A, Room 108.

APARTMENT WANTED—Wanted partly furnished or furnished apartment in Coronado. Navy couple, wife civil service and 9-year-old daughter. Up to $85 per month. Phone H. 3-4637. Will also buy furniture.

RIDE WANTED—Ride wanted to East Coast, preferable North Carolina. Leave starts at 0001 August 11. Will share expenses and help drive. Contact W. B. Andrews. Building 317-A, Information and Education.

FOR RENT—For rent, homelike room, with private family. Ride also if desired. Point Loma. Contact Jim Boxwell, Bldg. 36, or Phone Henley 3-6611.

RIDERS WANTED—Two riders wanted from City of El Cajon. Leave El Cajon Theater, 0800 to 1630 shift. Phone H-4-7430.

RIDERS WANTED—Riders wanted from Valencia Park or vicinity to Harbor Drive Parking Lot. 0800 to 1630 shift. Phone M. 4-4875.

RIDERS WANTED—Riders wanted from Bostonia, Santee and El Cajon north of 80 to parking lot. 0645 to 1515 shift. Phone H. 4-7504 at 0500 or 1700 or contact Charles Howl at Shop 3226, Bldg. 1.

RIDE WANTED—Ride wanted from Campo and Imperial, La Mesa. 0715 shift. Phone H. 9-1766. B. Stinson.

FOR RENT—Attractive bedroom, twin beds, beauty rest mattresses, adjoining bath. Also rear sleeping cabin, no cooking, suitable for one employed man, one block from transportation and beach. Phone H-3-3342.

RIDE WANTED—Ride wanted from vicinity of Rosecrans and Pacific Hiway to either Star and Crescent or NAS. 0800 to 1630 shift. Call J-7105 or contact Ann Conner, Tech. Library, Bldg. 94, Shop 331.

DRIVER WANTED—Driver to share car pool. Fletcher Hills to Navy Parking Lot, Harbor Drive. 0745 to 1615 shift. Phone H-6-4717 or H-6-8272 after 1800.

RIDE WANTED—Ride wanted from San Diego to Corpus Christi, Texas, or vicinity. Leaving 0001 August 4. Contact Arthur A. Lozano, at BOQ Personnel office, or Bldg. 318, room 5, bunk 90.

CAR POOL—Car pool drivers wanted from vicinity of 71st. Tower, Rolando, or Union Avenue to Std. lot. 0645 shift. Phone H-6-8070.

APARTMENT—Navy wife desires to share new home with couple while husband is overseas. Location is at Imperial Beach. Phone H. 2-9432.

FOR RENT—Two bedroom home with garage, in Imperial Beach, $85 per month. Call T-5942.

SPORTS

WORTH FIGHTING FOR are the trophies being presented to Dale Kraushaar, (left) and Dave Barker, (right). Kraushaar, won first place in the 100 meters backstroke during the recent Eleventh Naval District Swimming and Diving Championships. The trophies are being presented by lovely Kaye Wessinger, one of the cheer-leaders for this year's Skyraider Football team. The Airmen took second place in the District meet.

pigskin previews

Doug Finlay, the Skyraiders' experienced end, is this year lending his talent to the 'Raider's team. As it now appears, Doug will be most valuable in a defensive position. He has shown to fine advantage in the scrimmages up to this time, and will be in the thick of the scrap to attain a starting position.

Finlay is a fine pass catcher and a savage blocker. He is the type of man that will make the Skyraiders formidable enough to give any opposition a tough time this year.

DOUG FINLAY

Bud Gartiser is by far the fastest man on this year's Skyraider football squad. He has had a great deal of experience in this game, and is proving valuable not only as a halfback but also as a playing coach. He is well known throughout the United States as the co-holder of the world record for the 60-yard low hurdles. In this department, he is tied with Harrison Dillard. In one of the earlier scrimmages, he showed his speed when, after intercepting a pass, he scampered 80 yards to a touchdown.

BUD GARTISER

What's the Catch?

Last week was the best all-around week for NAS fishing boats so far this season. The largest composit catch of both yellowtail and barracuda was reported.

The largest "Yellow" caught was a 19 pounder hauled in by R. J. Boynton, AKC, of Comairpac. This catch entitled him to the usual weekly prize of a rod, reel and 250 yards of line. This top catch was taken off of the Salty while fishing off the Coronado Islands.

The barracuda taken this week weer all averaging between 4 and 6 pounds.

You may still be the owner of one of those new Mercurys. Contribute today and you may take home a car tomorrow!

'Raider Swimmers Surprise Second In Eleventh Naval District Meet

The Naval Air Skyraiders Swimming Team, came up with a surprise second place in the hotly contested Eleventh Naval District Swimming and Diving Championships. Although the Naval Training Center won by a large margin, it was considered by many a stunning upset that the Airmen wound up in second position.

NTC's Roy Brown Sets Records

The sensation of the two evenings was the tremendous performances by Roy Brown of the Naval Training Center. Brown competed in three events, and in all three he set new records. In two of the cases, he broke the record which was previously held by himself. In the 1500 meters freestyle, he won by two pool lengths in the new record time of 20 2/10 seconds. In the 200 meter freestyle he won in the new record of 11 minutes and 6/10 seconds for a new record, and in the 400 meter freestyle he won in 5 minutes and 13 seconds for another new record.

Dale G. Kraushaar, Top Skyraider

The top man, as far as the Naval Air team was concerned, was Dale Kraushaar of Special Services. He copped two first places, to lead the 'Raiders to their second place.

In the 100 meter backstroke he took first place in 4 minutes 12 5/10 seconds. In that event, Dave Barker was third to also give out team points a boost.

During the second night of competition, which was Friday, July 25, the same Dale Kraushar won the 100 meter freestyle to gain the majority of the Skyraiders' points.

The final score showed NTC far in the lead with a total of 121 points, and the Skyraider team second with 55 points. Throughout both evenings of competition,, the crowd was entertained by the fine CruDesPac band.

Large Crowd Present

Although the meet was held amid the hustle and bustle of the feverish preparation for the Navy Relief Carnival, which is to be held from June 31 through August 3, a large crowd turned up to witness the annual event. Both nights the bleachers which border the pool on the west side were full.

Airpac Softballers Begin Second Session of Season

By BOB SWISHER

The second half of the intermural softball league got underway last week with VS-23 grabbind undisputed leadership of the Minor loop while three teams tied for first in the Majors.

VS-23, which made such a strong finish in the first half, won from Comcardiv 15 and VR-32 by 7-0 and 7-3 scores respectively to take first place. Comairpac Personnel was very impressive in their only start to date, smashing VP-2 by 10-2. VP-46 also won their opener from ComCarDiv-15 by a 15-2 score.

The big surprise to date in the Minors was scored by VP-42 when they upset Ready Issue 8-1. The Storekeepers were the winners of Minor league "B" in first half play and were out of the favorites to cop this half's bunting.

Up in the Majors, FAW-14 continued their sizzling pace by walloping VU-7 by a 17-0 score as Bobby Ramsey, the Wing's bril-

(Continued on Page 8)

J.M. HARRIS, ADC, (left), AirPac intermural director, presents Wright Trophy to Bobby Ramsey, FAW-14 pitcher. The Wing won the trophy by defeating the Naval Air Station intermural champs, Special Service, two straight games in the two-out-of-three game playoff.

corner on sports

By Bill Feeney

With the Ram game rapidly approaching, it seems that this year's crowd will be far surpass those of any recent games. The Balboa Stadium will hold approximately 22,000 people, and by the way pre-game sales are going, it will be filled to the brim. Just reminding you once more, tickets may be obtained from squadron special services officers, or NAS personnel may obtain their tickets from LT Bourdeau at the Naval Air Station Special Services office in building 650.

First Olympic East-West Feud

For the first time, the expected flare-up between athletes of the East and West materialized. During the Weight Lifting competition, the Russian strongmen energetically protested the form used in the competition by one of the U. S. athletes. Two of the three judges at the contest upheld the American's lift, but after all the decision didn't mean too much. A Russian later won the event.

Rams Lose Another Top Man

The Los Angeles Rams continued to lose their most publicized players. Les Richter, formerly of the University of California, and a two-year All-American, received his induction notice into the U. S. Army. The Rams, had to trade a full team—ELEVEN men to the newly formed Dallas, Texas team to obtain Ritcher in the first place. Looks like the Texans got the best of this trade. Previously, the Rams lost the services of Glen Davis when he received a knee injury.

Janke Loses First Professional Bout

Pete Janke, former Skyraider boxer, lost his first professional bout after being undefeated in nine starts. Tony Renteria was the man who put the damper on Janke's hopes for another winning bout.

Six Beautiful New Mercurys To Be Given Away At NR Carnival

Ream Courtmen Smash FAD SD to Win Comfair Title

Captain's Cup Lowdown

By WALT BREELAND

The first half of the 1952 race for the Captain's Cup excellency trophy is rapidly drawing to a close with Supply and Special Services leading the field. These two divisions have thus far dominated all major sports with Special Services taking the lead up to this stage of the competition, but with Supply very much still in the running and Boat House with an outside chance of winning.

Basketball started the season off with Special Services walking off with the honors. Volleyball followed with Test Line clinching the title with an undefeated season. Special Services then took the handball title and Supply won the tennis championship, and then Special Services took softball, golf and swimming and diving.

There are only two sports left in this half of play, horseshoes and table tennis.

This season of play has been studded with thrills and close contests, and has produced some of the best teams that the NAS intramural program has ever fielded.

The mighty Davids of FAD Ream drubbed the Goliath from FAD San Diego 5-0 in two matches to take the ComFair San Diego Tennis Championship.

LT. Jack Hampton, Operations officer for HS-2, continued the outstanding court superiority which he has shown throughout the current play-offs to pace the team to victory.

Following is Monday, July 21, results:

REAM	SAN DIEGO
LT Hampton 2-6-6	LT Doyles 6-1-1
LT Stevens 2-6-6	LTJG Colen 6-3-4
Cook 6-6	Mohler 1-1
LT Hampton and	LT Brand and
McCollum 6-6	Mohler 3-0

Following is Thursday, July 24, results:

REAM	SAN DIEGO
Torr 4-6-6	LT Doyle 6-2-2
LT Hampton 6-7	LT Brand 1-5
Cook 6-6	Mohler 2-4
LT Hampton and	LT Brand and
McCollum 0-6-6	LTJG Colen 6-3-3

This is the first ComFair San Diego championship that has been won for Ream Field since VU-7's tie with Fairbetupac's boxing team in January.

A hearty well done goes to the tennis boys for their outstanding performance to bring the championship to the base.

Chapel Services will be held at ALF Ream Sunday as follows:

Protestant Services 0930
Catholic Services 1030

civilian vacancies

NAS PER ANNUM VACANCIES

Aircraft Inspector (General), GS-7, Overhaul & Repair Department.
Aircraft Inspector (Trainee Billet, GS-7 level), Overhaul & Repair Department.
Open thru 11 August 1952

VACANCY AT ELEVENTH NAVAL DISTRICT PUBLIC WORKS OFFICE, SAN DIEGO

HU-1 Unit Arrives

Helicopter Squadron 1 Unit 4 arrived home from Korea July 24 after completing a tour of duty in the Korean area on board the USS HELENA.

Officer-in-Charge of the Unit was LT. J. C. Wilkins. Chief Aviation Pilot B. D. Johnson shared the flying and the crew chief was D. H. Grubbs, ADC. Other members of the uint consisted of J. B. Bennett, AD2, T. E. Merrit, AM2, L. G. Stark, AE3, R. A. Myers, AD3, and E. P. Hermes, ADE3.

During Unit 4's Korean tour they provided numerous helicopter services, rescue missions, personnel transfers, and mail delivery.

Needless to say all members of the Unit were glad to get back home to their families and some of the gold old stateside duty.

Softballers Begin

(Continued from Page 7)

liant mound star, hurled his seventh consecutive shutout.

The second-place winners of the first half, VC-11, got off to a good start by blanking Fetupac 6-0. FASRon-110, which copped the first half season play, eked by VU-7 in their opener, 7-6.

The league setup for second-half play is slightly different than the first half. Where the initial half had two Minor leagues, the current circuit has only one Minor loop, consisting of eight teams. The Major division also has eight teams.

Variety Show Producer Transferred from Ream

"Mr. Producer and Director," William R. Proctor, AOC, the man behind the Utility Wing Variety Shows, has just been transferred to Albuquerque, New Mexico.

Proctor first became interested in show business while stationed at Barber's Point. There hadn't been much entertainment at Barber's Point in six years so he went out on his own time and put together a group of amateur entertainers for a show. It was such a big hit that he was asked to take it all over Honolulu to such places as Tripler's General Hospital, the boys' home and the prison.

In May, 1951, Chief Proctor returned to the states where he was sent to VU-7 at Miramar. After being stationed there a short time, word got out about his talents for arranging shows, and he was soon put to work producing a base personnel-dependent talent show. The show went over so well that he was asked to perform at Camp Pendleton and Balboa Hospital.

During the Navy Relief Carnival last year, Chief Proctor furnished the talent for Miramar's Midway Cafe.

When the big move came, Proctor came along with VU-7. Due to lack of facilities, show business was cut down and his first work was providing entertainment for squadron parties. Christmas saw Bill playing base Santa Claus to 400 child welfare cases.

First of the Utility Wing Variety Shows started February 6 and was such a success that it was decided to make it a monthly affair. This presented a problem for Chief Proctor as new talent was needed for each show. Every Friday and Saturday night, he could be found at the Armed Forces YMCA and at the USO shows watching for something new taht would be a hit at Ream.

When word was received that VU-7 was to move, Proctor was transferred to HU-1 and sent to the Wing TAD so he could carry on his work.

Chief Proctor is well known in San Diego and has been called upon often to arrange shows for Miramar. He recently aided is the entertainment at the opening of the NAS Beach Pavilion.

ALF REAM MOVIE SCHEDULES

FRIDAY, August 1—"WASHINGTON STORY" starring Van Johnson and Patricia Neal.
Shorts: "TRIPLET TROUBLE" and "U. S. NAVY BAND."

SATURDAY, August 2—"LADY IN THE IRON MASK" starring Louis Hayward and Patricia Medina.
Shorts: "TURNTAIL WOLF" and "TRIAL BY TRIGGER."

SUNDAY and MONDAY, August 3 and 4—"THE WORLD IN HIS ARMS" starring Gregory Peck and Ann Blythe.
Short: "TWO-GUN GOOFY."

TUESDAY, August 5—"LURE OF THE WILDERNESS" starring Jean Peters and Walter Brennan.
Short: "TO THE RESCUE."

WEDNESDAY, August 6—"UTILITY WING VARIETY SHOW" with Master of Ceremonies J. M. Stevens and featuring Nina Tols and her Top Hatters, Mary Hickman and Her All-Girl Orchestra.

THURSDAY, August 7—"JUMPING JACKS" starring Dean Martin and Jerry Lewis.
Short: "SPORTING OASIS."

R. A. Powell Leaves for Archery Meet

R.A. Powell, ADC, of HU-1 is planning to attend the National Archery Meet to be held August 24 to 28 in Minneapolis, Minn.

Chief Powell is the defending National Archery Champion of Canada, Australia and the U. S. His shooting in the Archery meets has set many impressive records. Powell holds the record for the highest score ever shot in one tournament which was 956, the record in the Indoor Mail Tournament where he had 1017 for a three month period and the record for the Male Field Tournament of 919 for the best four month score out of seven.

R. A. POWELL

While stationed in Japan, Powell shot in 2 matches against the three best archers in Japan. The Japanese, using 7 ft., 4 in. bows bowed to defeat both times at the hands of Powell and his crew in the only U. S.-Japanese archery meet ever held.

Shooting a Stew Hamilton 5 ft., 11 in., laminated reflex bow, Chief Powell has won about 135 medals, cups, and ribbons in his 3 years of archery.

All the men of this station wish Chief Powell the best of luck in defending his National Archery Championship and hope that he will again bring back the title.

Election Information Available from I&E

With the November elections approaching, voters in the 48 states are preparing to elect a president and vice president, senators and representatives to the U. S. Congress, and important officers in most of the states, such as governor, lieutenant governor, secretary of state, attorney general, and state treasurer. In addition, most ballots will list candidates for city and county offices in the states.

In many cases members of the armed forces will not be able to vote in person because of being stationed at bases outside their home states or on ships or overseas installations. Moreover, Congress failed to pass a law providing uniform voting procedures for all members of the armed forces.

Most states, however, provide for absentee voting. All servicemen are urged to take advantage of the voting provisions their state offers.

Personnel of the I&E Div. (Bldg. 317A) will furnish NAS military personnel with information concerning absentee voting regulations in their home states. Questions regarding qualifications for voting, registration procedures (if required), offices open to election, application for ballots, and how, when and where to apply will be answered by the I&E staff. The information has been compiled by the Armed Forces Information & Education Div. this year from the various state agencies responsible for voting.

Postcard application forms for requesting official application material are also available at the I&E Div.

USS Philippine Sea Docks At Naval Air This Morning

The aircraft carrier USS PHILIPPINE SEA is scheduled to arrive in San Diego this morning at 0900 as a crowd numbering thousands jams the NAS quaywall to welcome her home from duty in Korean waters.

One of her recent major combat engagements was the blasting of the Suiho power plant on June 23 in the first, four-carrier air strike of the Korean war.

Suiho, never before bombed, is located on the Yalu River, ½ mile from Manchuria and 40 miles from Antung, one of Manchuria's largest MIG bases.

With Navy and Air Force jets flying protective cover, the AD Skyraiders and F4U Corsairs dropped tons of bombs in the most destructive single raid of the war. The plants are said to have produced 60 percent of the hydro-electric power in Manchuria.

While the Communists smarted from the Suiho destruction, follow-up raids were made on Kyosen, Fusen, and Kojo power plants located throughout North Korea.

In battle for the past seven months, this is the carrier's second Korean tour. Her first cruise—11 months long—began July 5, 1950, a few weeks after the outbreak of Korean hostilities.

The carrier was in San Diego when orders came sending her to the Far East. August 5, 1950, planes of Air Group II roared from the flight deck to strike at the Reds.

In September PHILIPPINE SEA pilots helped soften the beachheads for the famed Inchon invasion. When the troops stormed

(Continued on Page 2)

More Navy Housing Is Now Available

A number of housing units in the Navy Housing Project No. 1 are available for immediate occupancy by NAS military personnel with two or more dependents, LT J. T. Waldron, NAS Housing Officer, announced this week.

The one bedroom units are filled at the present time, LT Waldron said, but he urged eligible NAS shore-based personnel who are in need of housing to submit their names to I&E in Bldg. 317A for openings that will appear.

Naval Housing Project No. 1, located near the San Diego Naval Station, has duplex units either furnished or unfurnished. All are equipped with electric refrigerators and cooking ranges. Family units are available in three types: (1) one-bed-room units for officers or enlisted men with one or more dependents; (2) two-bedroom units for officers or enlisted men with two or more dependents; and (3) three-bedroom units for officers or enlisted men with three or more dependents.

Rental for the units, which are designated as "public quarters," is based on BAQ allotment or rental allowance received by the occupant. Gas, water, and electric utilities are included in the rent.

For further information regarding housing, NAS personnel (ship's company) may consult LT J. T. Waldron or H. R. Marcantel, IMC, at the I&E office in Bldg. 317A. They will assist all family men in obtaining suitable housing as quickly as possible.

Winners of Six NR Mercurys Announced

The six lucky winners of the beautiful 1952 Mercury sedans which were given away at the recent Navy Relief Carnival have been announced by the Navy Relief Carnival Committee.

This group of winners, presented with their automobiles at drawings at Navy Field, had contributed to the Navy Relief Society and had, in turn, received numbered contribution receipts which made them eligible to take one of the Mercurys at drawings held each of the four nights at the Carnival.

The names of the winners in the order in which they won are listed below:

Thursday: Mrs. W. C. Margraf, Ticket Number 47181, 1319 Fifth Avenue, Coronado, Calif.

Friday: The First Division, Ticket Number 13225. USS TALLADEGA (APA 208).

Saturday: D. E. Moore, Ticket Number 99829, Gray, Georgia. W. P. Beard, HM2, Ticket Number 196995, U. S. Naval Hospital.

Sunday: David G. Galusha, PFC, Ticket Number 150878, Marine Corps Recruit Depot, San Diego, California.

LT G. H. Abbot, Ticket Number 148539, Bachelor Officers' Quarters, Naval Amphibious Base, Coronado, California.

Special NR Benefit Premier to Be Held In SD on August 28

"What Price Glory," the 20th Century-Fox smash technicolor hit which stars Corrine Calvet, James Cagney, and Dan Dailey, will have its special Navy Relief Benefit premier in the San Diego Fox Theater, it was announced by the Navy Relief Carnival Committee this week.

The gala spectacle will take place at 2030 Thursday, August 28, with advanced ticket sales beginning next Monday and continuing through August 25th. All seats for the premier are reserved and will be allotted in each section on a first come, first served basis.

On page 2 is printed a reservation form in order to facilitate those people desiring to make reservations early.

Civilians to Be X-Rayed This Week

For those employees not X-rayer on their scheduled day, the X-ray chestmobile will be in the following two locations next week:

North end of Bldg. 90—August 11, 12, 13.

Northeast corner of Bldg. 379 August 14, 15.

Since this is a compulsory survey, employees are urged to utilize the chest X-ray mobile unit in the convenient areas provided Otherwise they will have to go to the Main Infirmary which will result in loss of man hours.

NROTC Examination Scheduled for Dec. 13

Tests for entrance to the Navy's college training program (NROTC) will be held for enlisted personnel Dec. 13, 1952, the Navy announces.

Personnel interested in participation in the program should apply to their commanding officers on form NAVPERS 953-A. After proper recommendations, physical exams and eligibility reviews, they will be allowed to take the test.

If they successfully complete the test, they will be sent to the U. S. Naval Preparatory School, Bainbridge, Md., before entering one of the 52 universities having NROTC units.

350,000 Attend Huge Navy Relief Carnival

NAVY FIELD, MONDAY, AUGUST 5—1952's spectacular Navy Relief Carnival came to a dynamic climax last night as a jam-packed crowd nearing the 100,000 mark sent all standing records smashing to the ground. Unofficial estimates placed the total attendance for the four-day extravaganza at 350,000, far exceeding those of previous years and pre-carnival estimates.

Men, women, and children of all ages swarmed through the tents, booths, and displays as San Diego and surrounding communities went all-out to insure more than just a successful venture. Every show, every display seemed packed to capacity, but always made room for just a few more fun-seekers.

Total figures of funds collected during the four days have not as yet been released, but early results seemed to assure that once again, all records would be broken.

Highlighting the program were the magnificent Aqua-Capers water show which continued to draw huge crowds. Another drawing card was the saucy, spicy all-girl revue, Satan's Daughters, which more than answered the wishes of every one in the throngs.

Despite the large number of people, however, the Navy Field midway was arranged in such a manner that no person was made uncomfortable and everyone found each and every booth easily accessible.

It goes without saying that this spectacle will long remain in the minds of everyone who aided in making it the success it was as the "time of his life".

A NIGHT AT THE CARNIVAL

NAS Woman Named Gold Star Wives Vice President

Mrs. Hugh Alexander, of O&R Work Load Div., was elected national vice-president of the Gold Star Wives of America at the organization's convention held in Chicago early in July. Mrs. Alexander is an active member of the San Diego chapter of the Gold Star Wives.

She will report on the national convention at the next meeting of the San Diego County chapter, Monday, Aug. 11 at 7:30 p.m., held in Red Cross Bldg. auditorium, 1113 Adella Ave., Coronado (across the street from El Cordova hotel). An invitation for all widows of servicemen to attend the meeting is extended, says Mrs. Frank B. Quady, president of the chapter.

Mrs. James Huser, welfare chairman of the local chapter, will outline next year's proposed children's camping program. This summer, four Gold Star children from San Diego and Coronado attended Camp Marston, Life Line Boys' Camp, and Hi-Hi Guest Ranch under the auspices of the Gold Star Wives Service Foundation. In addition to the camping program, the Foundation has a program dedicated to the education, health and general welfare of the dependents of deceased servicemen. This program includes aid in medical and dental care for Gold Star mothers, widows, and children, and educational assistance to numerous youngsters.

The Gold Star Wives organization was formed shortly after World War II and now has a membership of approximately 5000 members. The San Diego County group has the distinction of being the largest chapter in the country. However, the chapter is keenly interested in enlarging its membership and urges all eligible women to attend the August 11 meeting.

THIS IS IT! The first photograph of the Navy's new F4D "Skyray," especially designed to take off from carriers and destroy enemy bombers, was released for publication this week. The Skyray is so named because of its resemblance to the dangerous, sea-dwelling manta ray. The plane is scheduled for production in El Segundo.

NAS Civilians to Appear in Local Drama Festival

Five Supply & Fiscal Dept. employees will be members of the cast of a group of one-act plays to be presented at the Puppet Theater, Balboa Park, Tuesday, at 8:00 p.m.

They are: Sam Rees, of Receiving Unit; Joe Machtal, of Machine Records; Julie Babich, of Administration Div.; Don Taylor, of Storage Sec.; and Betty Woodling, of Planning Div.

They are all members of the Hoover Drama Guild, a local amateur theater group.

Included in the offering of plays Tuesday night are "Hello Out There," "The Palmer Way," "Trifles," "Jinxed," and several others The selection will offer both comedy and serious drama.

JUST A FEW MORE INCHES and it will be just right says Mr. E. H. Thompson (right) to Frank Fowler as they near completion of the new bus safety zone south of the Administration building. In the background, busily at work with a saw is Charlie Sparks.

New Bldg. 8 Bus Stop Underway

Work got underway last week on the new bus safety zone which will be located just south of the Administration Building at Quentin Roosevelt and Saufley Street intersection.

The sidewalk which ran along Saufley Street has been removed to allow excavation for the bus dock which will eliminate much of the conjestion now caused by the present bus stop across the street.

This new improvement will also enable motorists to see more clearly and with a virtually unobstructed view of the intersection as they approach the crossing.

A tentative date of August 22 has been set for completion of the project.

CDR Burke Assumes Command of VC-35

CDR Louis E. Burke, Jr, assumed command of San Diego based Composite Squadron 35, recently in ceremonies at the Naval Air Station. He had been the Bureau of Aeronautics representative at Consolidated Vultee Aircraft Corp. in San Diego.

Former squadron skipper, CDR David A. Marks, will report to Armed Forces Staff College, Norfolk, Va., for administrative and operational training. He has been commanding officer of VC-35 since May, 1951.

After Captain's inspection, three officers received Air Medal awards for meritorious achievement in night aerial flights while on duty in the Korean area. LCDR Felix F. Bertagna received a Gold Star in lieu of a third Air Medal. Gold Stars in lieu of the second Air Medal were presented to LT Ernest F. Delmanowski and LTJG Norman V. Donahoe.

Good Conduct Medals were presented to three enlisted men by CDR Marks for their outstanding conduct and attention to duty. Joseph W. Henderson, AO, rereceived his third award of the Good Conduct Medal for his excellent record since entering the Navy during World War II. Herman D. Hopkins, AD3, earned his second award and the first award of the medal went to Dale R. Aggers, AD2.

Since entering Naval Aviation in 1942, CDR Marks served aboard three well known Navy aircraft carriers: USS LANGLEY during the Central Pacific campaign in the last war; USS FRANKLIN in 1945 on the staff of Commander Carrier Division FOUR; and USS BOXER on the staff of COMCARDIV FIVE from September, 1945, through September, 1946.

He wears the Distinguished Flying Cross with two stars, the Air Medal with eight stars, and the Presidential Unit Citation.

CDR Burke was commissioned in 1940 and entered flight training in 1942. During World War II he served aboard the USS SARATOGA in the Solomons campaign, and later in the aircraft carrier USS HANCOCK in action against Japanase home islands. He made a world cruise aboard the USS TARAWA as a member of Fighter Squadron 14 in 1948-49. The new commanding officer wears the Navy Cross, Distinguished Flying Cross, the Air Medal and the Navy Unit Citation.

CAG-11 Returns Aboard Philippine Sea Today

After seven months Korean combat, Carrier Air Group II returns to this station this morning at 0900 aboard the aircraft carrier USS PHILIPPINE SEA. CAG-11 is commanded by CDR Jacob W. Onstott.

As a parting gesture to the North Koreans, he led the air group in a four-carrier, coordinated attack against vital Communist hydro-electric plants.

Fighter Squadrons 113 and 114, flying Corsair fighter-bombers; Fighter Squadron 112 with Panther jets; and Skyraider attack bombers of Attack Squadron 115 make up the lethal punch of CVG-11.

June 23, the PHILIPPINE SEA and three sister carriers readied planes for a strike with Marine and Air Force pilots. The target was Suiho power plants on the Yalu River, ½ mile from Manchuria.

VF-112 teamed with Air Force and other Panther Jets to furnish protective cover, VF-113, VF-114 and VA-115 joined fellow fighter and attack bombers for the war's largest single raid.

Sunho, said to produce 60 percent of the hydroelectric power for Manuchuria, was only first on the list. Follow-up raids saw CVG-11 and fellow pilots blast North Korean power plants at Kyosen, Fusen and Kojo. In all, the Task Force destroyed seven and damaged two of the plants.

CDR Onstott, with two Korean tours under his wings, was awarded the Bronze Star, Distinguished Flying Cross and Commendation Ribbon for "meritorious service" during operations against North Korea.

Commanded by Cdr James V. Rowney, VF-112 is the first squadron to return from combat without the loss of a single plane.

CDR Rowney has had two Korean tours aboard the carrier; the first as CVG-11's Maintenance Officer, flying Corsairs. He wears the Korean ribbon with five battle stars.

LCDR John R. Strane heads VF-113. He won his 14th and 15th Air Medal while flying against North Korea. During World War II, LCDR Strane won the Silver Star for shooting down four Jap planes in a single fight, and 13 Air Medals.

Fighter Squadron 114 is led by LCDR Gordon B. Bjornson who, during World War II, won the Distinguished Flying Cross for shooting down two Jap planes and the Air Medal for getting an enemy reconnaissance plane.

For Korean service, LCDR Bjornson was awarded his second DFC and two Commendation Ribbons with combat devices. VF-114 lost no personnel from operational or combat flying.

CDR Charles H. Carr commands VA-115. Early in July his Skyraider was hit by enemy anti-aircraft fire, forcing him to ditch. Suffering from a broken arm and other injuries, he was picked up off the Korean coast by a Navy destroyer.

Supporting CVG-11 were detachments from Composite squadrons 3, 11, 35, and 61. VC-67 photo pilots flew 156 photo sorties, getting vital pictures for use in determining damage inflicted and planning of strikes.

Philippine Sea Returns

(Continued from Page 1)

ashore on the 15th, the carrier's planes winged far inland, hampering enemy attempts to bring up reinforcements.

When the Chinese Communists entered the war a few months later, the flat-top's planes blasted paths for the U. S. Marine's retreat from Choain, and then covered the Hungnam withdrawal.

In late March the ship replaced Air Group 11 with Air Groups 2. That same day the PHILIPPINE SEA became the flagship of VADM Martin, then head of the SEVENTH FLEET.

Returning from combat, the carrier set a new Pacific crossing record, breaking the carrier USS ROGER's mark by five and one-half hours. She arrived in San Francisco June 9, 1951, 7 days and 13 hours after leaving Yokosuka, Japan . . . an average speed of 25.2 knots.

After overhaul she left on her present cruise December 31, 1951. with CAG-11 aboard. February 2, 1952, she joined Task Force 77 and began strikes against North Korea.

Built too late for World War II, the carrier was commissioned May 11, 1946. She was part of the Navy's Antarctic Expedition "Operation Highjump." January 28, 1947 RADM Richard E. Byrd and his party were flown from the ship to begin their polar explorations.

In November, 1948, she explored the lower rim of the Arctic Circle in cold weather operations to test our planes, ships and equipment.

Commanding officer of the 27,000 ton Essex Class carrier is CAPT Allen Smith, Jr., of Pensacola, Florida.

Capt. Allen Smith Commands Philippine Sea Since February

Commanding officer of the carrier USS PHILIPPINE SEA, is CAPT Allen Smith, Jr. He relieved CAPT Ira Hobbs on February 4, 1952.

CAPT Smith was graduated from the Naval Academy in 1927 and was designated a Naval aviator in 1930.

Prior to World War II he was with scouting squadrons, aboard carriers, and at NAS Pensacola. When the war began, he was executive officer of Patrol Squadron 31 and later became the squadron's commanding officer.

In late 1942, he bacame Chief of Staff Officer of Fleet Air Wing NINE, and in early 1943 was executive officer of the USS BOGUE. The ship was presented the Presidential Unit Citation for North Atlantic anti-submarine operations.

Next, CAPT Smith was in the office of the Chief of Naval Operations, Washington, D. C. Between 1945 and 1947 he commanded the USS THETIS BAY, USS SOLOMONS, and the USS NORTON SOUND. He then had two yearse duty in the aviation section of the Bureau of Naval Personnel.

After attending the Armed Forces Industrial College in 1949, he was Chief of Staff, Commander Fleet Air, Jacksonville, Fla. CAPT Smith then reported to his present command.

NAVY RELIEF BENEFIT PREMIER

of the 20th Century-Fox Production

From the Carnival 'Album'

"MISS NAVY RELIEF," Mae Entwhistle, assisted by Chief "Tiny" Brewer, selects a lucky owner of one of the six brand new 1952 Mercury sedans given away at the Carnival.

Chief Warrant Officer T. J. Callahan, Sanitation Officer of the Carnival, also acted as "Officer-in-Charge of Lost Children Department" during the four-day festival.

NOT QUITE THE GREATEST show on earth, but by far the greatest show that San Diego has seen since the 1936 World's Exposition, was the fabulous Navy Relief Carnival just finished at Navy Field.

Pictured on this page are some of the "stars behind the scenes" who pulled the wires and shouldered the load which made the Carnival a super-success both financially and in the eyes of the 350,000 who turned out for the gigantic four-day production from July 31 to August 3.

Five years ago, the Navy Relief Carnival first appeared on the San Diego scene, sponsored by the Naval Air Station, and held on North Island. It was the first of a series of tremendous, scintillating successes in the Navy's effort to care for its own in this area. During the ensuing years, the show moved from Naval Training Center, to Marine Recruit Depot, and on to Navy Field under the sponsorship of the Naval Station. This year, it was only fitting that the, by this time, well established show be once more sponsored by the Naval Air Station, and presented on a vast scale to dwarf all previous efforts.

To all of those pictured here, as well as to the many hundreds of others who spent weeks of toil in the production of this colossal Carnival must go a measure of recognition for a superlative job ably executed. With the noted exceptions, there was not a professional carnival man among the Naval Air group, or the hard-working gangs of assistants from other Navy and Marine establishments who helped make it a San Diego-wide effort. But they carried out their missions like seasoned show operators, setting a staggering mark for those who follow them in future years of the Navy Relief Carnival.

DANNY BRAMER, director-producer of the Carnival's nightly free shows, is shown here drawing a large crowd to the stage for one of the prizes given away each hour of the carnival based on the sale of the souvenir programs. Danny staged and rehearsed the entire show that played to capacity audiences at each performance.

ALL HOLLYWOOD assisted in the pre-Carnival publicity by recording "spot" announcements for radio stations throughout Southern California. Here Lou DiMaggio, Aldo Ray and John Arcessi record their Navy Relief messages.

(Left) LCDR "Buck" Rogers, AirPac liaison officer, rehearses a dance step with the Carnival's bathing beauties.

(below) the CALENDAR GIRLS from Bonnie Jean Studio of Pacific Beach were seen in colorful opening and closing numbers of each free stage show at the Carnival. Miss Bonnie Jean also acted as chorgrapher.

THE PLACE IS **familiar**

Crews Park is the place of peace and quiet, of relaxation and seclusion for the enlisted personnel from NAS North Island and the units and squadrons based here.

The park is one of the many beautiful spots aboard this station. It is indeed a pleasure to be able to relax in this small park and read, write or just sit and rest.

The only men allowed in the park are enlisted men below the rank of Chief Petty Officers. The park contains a number of benches, a few tables and numerous flower plants.

Many of the men use the park as a place of relaxation during the noon hour and others find it a wonderful place to enjoy a quiet and peaceful evening.

This Week's News **at a glance**

The Air Force warned 78 North Korean towns that they were marked for heavy air attacks. These cities are Communist military supply and industrial centers. Warnings, issued both by the Seoul radio and leaflets dropped over the area, advised non-combatants to move out before the bombings come.

The Air Force's strategy may have the effect of bringing the stalling Red truce negotiators to terms on an armistice agreement.

In the negotiations this week, the Reds were requested to let Allied war prisoners in North Korea camps receive parcels of food, medicine and clothing.

The Communist response to this request will show how sincere they are in accepting last month the 1949 Geneva Convention on the treatment of war prisoners.

* * *

Another link in the defense of the free world was being forged this week as representatives of Australia, New Zealand and the United States met this week in Honolulu to implement the Pacific Defense Pact.

Under the chairmanship of Secretary of State Dean Acheson, the representatives discussed means of strengthening the other free nations in the Pacific region.

* * *

Ground Observer Corps aircraft reporting and tracking activities are now operating on a 24-hour-a-day schedule and have bolstered the nation's air defense system, the Air Defense Command has announced.

Reports indicate that the GOC is operating at about half strength in the number of observation posts expected at this time, and many posts are not up to full strength in personnel. However, GOC tracking activities are still faster and more efficient than at any previous time.

Chaplain's Corner

Something to Stand On

Archimedes, a Greek inventor, who lived during the third century before Christ, once said, "If I had something to stand on, I could lift the world." He was thinking about the significance of the fulcrum, which is a lever used to pry and move heavy objects.

When we, as individuals, discover the need of something to stand on beside this great earth we have made a discovery indeed! We just can not live through all the turmoil of this life without a faith that is based upon a personal God. Jesus Christ revealed unto mankind a Heavenly Father who thinks and feels and wills. Jesus based his life upon God who knows us as individuals, who loves us as a father and who purposes his will for us according to our faith.

When we have a real belief and trust in God, as Jesus did, then we have something to stand on. There may be separation from our loved ones, there may be famine which causes great hunger and distress, there may be wars and rumors of wars, but faith in a personal God enables us to stand fast.

It all seems so simple to me; I trust God completely; he is forever faithful, yet I see people who "fall apart" when tragedy comes into their home. Their God must be only a man! We are on solid ground when we walk with God as Jesus did, the fulcrum of our faith will be strong and we will have something to stand on.

SAMUEL B. BENNETT
Chaplain, U. S. Navy

L. D. S. Services will be held at the North Island Chapel Thursday, Aug. 14, and every succeeding Thursday evening thereafter at 7:00 p.m. A cordial welcome is extended to all.

It's the Method That Makes Work Easier

Methods improvement is often said to be nothing more than "common sense". Actually, it is the organized application of common sense to find easier and better ways of doing the work. Emphasis is placed on the fact that the person actually doing the job is in the best position to find improvements. American industry, as well as government, has often ignored its most precious resource—the intelligence latent in every worker.

The person on the job has three of the four ingredients necessary for making improvements. He has the knowledge of the job itself; skill in doing the job; and experience on the job. All he lacks is a technique he can apply to see if there is any possible improvement in the way the work is being done.

Methods improvement attempts to inform the workers of some of the basic principles used by methods engineers. Most of us are engineers at heart. Every day you hear people explaining how, in their opinion, something may be done more simply.

But all too often these good ideas are wasted for want of a systematic plan to seek them out and put them to use immediately when they will do the most good.

This approach does not do away with the need for a staff of experts to supply technical advice to those who are actually doing the job. However, it does supply each supervisor with a staff of "home made" experts who have adopted a questioning attitude towards the current methods they are using.

Methods improvement has an advantage over the "experting" technique for it develops ideas at every level and encourages workers to participate in management.

Another advantage to methods improvement is that it does not advocate working harder or faster. It makes the work easier to do because it eliminates unnecessary details, thus enabling more work to be done in less time and with less effort.

Two human tendencies have held up improvements. The first is resistance to change. We all resist change in some measure, but it is self-evident that progress implies change, and perfection is made up of a series of changes. Our nation would never have achieved the position it holds if our industry had assumed the attitude that it had found the everlasting one best way. The second is fear of criticism. Too often we are inclined to think that we will be criticized for not making changes sooner.

However, no one has criticized Edison for not giving us the fluorescent light at the time he first developed the incandescent lamp. Both these tendencies, resistance to change and fear of criticism, are natural reactions, but they are wrong and can be overcome by recognizing them as faults and guarding against them.

You're Indespensible In November!

Although more people went to the polls than ever before in the 1948 election, nearly 50 million Americans of voting age failed to exercise their right to vote.

This figure of 50 million represents more than half of the potential voters. Consequently a minority—yes, barely more than 25 percent—of the people of voting age elect the President of the United States.

In an article published in the Legion Magazine, Donald R. Wilson, national commander of the Legion, writes the following:

"Our political system is as beautiful and effective as any that has ever been devised by man — as long as it works the way it is supposed to. It is founded on a basic expectation of the participation of each of us in the selection of candidates and — through candidates — the policies they represent. But what good is any recipe if you leave out the chief ingredient—in this case the participation of the people. There are clear and compelling reasons why democracy suffers when the people don't participate wholeheartedly. These are found in the very foundation of our way of government . . ."

To safeguard our form of government it is essential that a larger segment of the public exercise their voting privilege, regardless whom they vote for. In the case of the serviceman, to exercise this right presents a little more difficulty. This is especially true since Congress failed to set up a uniform system for the serviceman to cast his absentee ballot. But even without this legislation, most members of the armed forces are not prevented from casting their vote in the November elections.

Most states have enacted their own laws which provide for absentee registration and balloting. Naturally, it is a little more complicated than walking down to the precinct poll. It requires communication with your state officials, and filling out a form or two.

The I&E Division has made efforts to simplify the whole process of absentee voting. By dropping into Bldg. 317A, the I&E staff can tell you in a few minutes what provisions your state makes for absentee balloting and by what method it is done. Then they give you a special postcard application form (no postage required) for requesting registration material (if required) and a ballot.

That's it! A lot of work—it may take all of five minutes. In making this effort, you will be lending your support to the vital task of preserving our democracy. Don't put it off. See I&E today!

THAT MAN **friday**

With football season just around the corner and the football teams out on the field practicing, sport fan's thoughts turn from the baseball diamond to that ever-popular gridiron.

To me there is no other sport that can match the game of football. The sound of cleats echoing in the locker room, of the football whistle and the horn, of one body hitting brutally against another with a solid impact, and the voice of the quarterback calling signals. Yes, this is all part of the wonderful game of football.

Football is one game that is played straight from the heart, and if the "love of the game" isn't within a person's system, he might just as well not play the game. Most people seem to think that a person has to be a giant, standing six feet tall and weighing 200 pounds in order to participate in this sport. In some cases, height and weight are an advantage but not a necessity.

My old coach had an expression that only expressed the fact that size and strength were not necessary in order to be a football player, the expression being: "It is not the size of the man in the fight, but the size of the fight in the man." This statement has been proved time and time again, the very first example being that of David and Goliath. A living example to me was a member of our football team, who stood only five feet four inches tall and weighed 127 pounds. They referred to him as the "mighty midget" and if you could have seen him tackle a man weighing at least 200 pounds, you would know what I mean.

So, take notice when wou are watching a football game this year and I am sure you will be able to tell the difference between the man playing because he loves the game and the "grandstand" player.

The NORTH ISLANDER

Vol. XI August 8, 1952 No. 32

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

TELEPHONE EXTENSION 1475. Call this number to report news.

Contributions of news, features, pictures and cartoons will be gladly considered, and material submitted will receive careful handling. However, the NORTH ISLANDER assumes no responsibility for the return of material contributed. The editors reserve the right to make such corrections, changes or deletions in submitted copy as they deem necessary in conforming with the policy of the paper and of the Navy.

The opinions or statements made in articles published herein are those of the writers and are not, in any case, to be construed as official or as reflecting the views of the Commanding Officer or of the Navy Department.

Armed Forces Press Services (AFPS) material appearing in this publication may not be reprinted without the written permission of Armed Forces Press Service. Material in this paper may not be reprinted unless authorization is obtained from the editor.

about books

MAN, MONEY, AND GOODS, by John S. Gambs.

This book is about economics—but don't let the subject scare you away. It surveys the complexities of the economic science in a clear, non-technical manner, making the book absorbing to the average reader who is not well acquainted with the subject.

Evaluating different economic systems, Mr. Gambs explains money, taxes, banking, business cycles, international trade, prices, and values as seen by the different schools of economic theory.

Important figures in the development of economics are introduced — Thorsten Vebler, Karl Marx, and Lord Keynes.

Ever wonder how the public debt, or defense spending affect our economy — and ultimately yourself? Man, Money, and Goods cuts through some of the technical jargon associated with the subject and presents a plausible answer.

SAILBOAT TRAMP, by Tom Chrichton.

A carefree, pleasant little travel book, **Sailboat Tramp** has one unusual feature — the method of travel. Crichton traveled across Europe in a 25 foot sloop. Regions like Scandinavia and France have a network of canals connecting the major rivers, making interior navigation quite possible. The author voyages from Havre, on the Atlantic coast in northern France to Marseilles on the Mediterranean without even passing a thimblefull of salt water under the keel of his craft.

In this rather curious "sea" saga, Crichton meets a host of interesting people in the provinces of France and writes about them with a humor and charm that makes this book good summer reading.

POST MARKED MOSCOW, by Lydia Kirk.

The wife of former U. S. Ambassador to Russia, ADM Alan G. Kirk, gives an American woman's point of view of the mysterious U.S.S.R. Acute and informal, the book delves into the fascinating aspects of every day life in Moscow rather than giving a pretentious political analysis.

Post Marked Moscow covers a range of subjects from tea with Madame Vishinsky to a report on the price of fresh vegetables in Moscow markets; from Stalin's mammouth birthday celebration to a description of Soviet fashions in women's clothes.

Meet Your Committee Members

METAL BRANCH of O&R Metal & Machine Div., has an active, and extremely cohesive group of shop and welfare and recreation committeemen. And it's easy to see that they work closely together, for Harry Hottenstein (third from the right) metalsmith, snapper, is chairman of both the two groups. Left to right are: Carman M. Parish, aviation metalsmith; and William J. Thomas, aviation patternmaker (both shop committeemen); Hottenstein, and L. L. Rane, metalsmith, (recreation committeeman). Absent from the picture was Homer Lewis, of the latter committee. Hottenstein is seen here trying to listen two ways at once.

powerplant paragraphs

By B. Dreher

CLAUDE LINDSAY of the Machine Shop is "one of those lucky people" as a result of the Navy Relief Carnival. Claude's one ticket on a pair of Chincillas—won him the pair and now he's trying to decide whether to keep these potential wage earners or sell to the highest bidder.

HELEN RYDER, SHOP 433—Procurement Unit, is leaving today and will be returning to her home in West Virginia to await her husband's return from Korea. Her replacement in the shop is CATHERINE KILE who is new to the Air Station but comes to us from Washington, D. C.

BOB HAMMEL is back on the job in the Dispatch Station after three months spent wandering around Canada, England, France, Italy, Spain and Germany. Bob said he bought a German car which he used for transportation abroad and which is enroute here, to be proudly displayed to Bob's friends.

MURRAY CARROW recently sold his home in Point Loma and will henceforth call Lakeside his home town.

MORT MORTENSON of Tool Crib fame took his family to Sequoia recently for a well earned rest—anyhow that's what he said.

R. L. JOHNSON, former Power Plant employee, is back in the Division again after a jaunt to Miramar for a while. Bob will be working in Final Assembly.

WILLIAM WESTERGARD of Shop 6248, an ex-apprentice, has transferred to the Repair and Flight Test Division, and E. L. BERNI of 6123-2 has transferred to McClellan Field, Sacramento, California.

Men May Apply For Photo Center

The Navy has announced that it is seeking applications from officers and enlisted men to attend courses conducted at the U. S. Naval Photographic Interpretation Center.

Three courses will be given, two eight week courses in photo interpretation and photogrammetry and one 24-week course dealing with both subjects.

Officers must be in the 1,100 or 1,300 series with the rank of ensign through commander or corresponding ranks in the Marine Corps. Enlisted men must be aviation photographer's mate, photographer's mate or possess quartermaster ratings with the rank of second class petty officer or above.

NAS Personnel Donates 132 Pints of Blood

Donations by North Island personnel last Monday yielded 132 pints of blood for the armed forces overseas.

Largely a civilian employee effort, the donation took place at the Main Dispensary. Military personnel donated 12 pints in addition to the 120 given by employees.

Red Cross volunteers assisted the San Diego Blood Bank mobile unit staff in directing the 0830 to 1330 donation.

The next scheduled donation for the armed forces will be on Friday, September 5. The donation will be made by North Island military personnel. Personnel desiring to give blood should make arrangements through their division officer or squadron personnel officer.

Get Acquainted

Meet CHCARP Melles

This week's column introduces CHCARP Donald J. Malles, who has been assigned as the Barracks Officer for NAS.

Mr. Melles enlisted in the Navy on July 18, 1930 at La Crosse, Wisconsin. He received his basic training at the Great Lakes Training Center in Illinois. Upon completion of his basic training he reported aboard the USS MARYLAND and there was assigned to the CR Division.

His career in aviation began here at NAS in 1940. He was a crew member aboard the X-PB-2Y-1 which at that time was the flag ship for ADM Cook and was also available for use by the Secretary of the Navy Knox. During this time he was attached to Comairlant on the east coast.

In 1943, Mr. Melles reported to the Glen L. Martin Company and was attached to flight tests. During this time he was also a flight crew member aboard the "Mars." Upon completion of these flight tests he reported to Alameda, California and flew a regular flight route from Alameda to Honolulu, Majuro, Saipan, Sandley Point and back to Alameda. This work continued until 1947.

CHCARP MELLES

In 1948 he was transferred to NATTC in Memphis, Tennessee where he served as Training Officer of the AM "A" School. Mr. Melles remained there until 1950 when he was transferred to Port Lyote, Africa.

Upon completion of his duties there, Mr. Malles reported here at NAS on July 30, 1952 and is now the NAS Barracks Officer.

'Pops' Jazz Concert Is Scheduled Soon

Special Services has announced that in the near future a Pops Jazz Concert will be held at the new recreational facilities here at NAS. A professional Jazz Band will be secured for the concert.

Tables will be arranged around the Band, so that people attending can comfortably enjoy food and beverages during the concert.

electrons

By Clara E. Wheeler

Lottie and Pat O'Neil are leaving us to make Texas their home and await the arrival of the big bird to deliver their bundle of joy.

Georgia Junger's son is at home from Kelly Field, Texas, leaving here he goes to Alaska.

Dave Avery is back at work after a four week vacation, spending part of the time on a camping trip with the family, reports a wonderful time.

A. T. Lee reports fishing at Lake Otay wonderful, and she reports a good catch.

Ruth Gay is back from her vacation.

Ferris Mounts is back reporting that she attended a nephew's wedding in Las Vegas—and spent time in Los Angeles and then on to Catalina Island for 2 days.

Cora Woodley of 4248-3 celebrated a birthday, with a picnic dinner near Julian.

Willie Marrow is back after a four week leave from having an operation.

Mr. G. J. James had to leave his Cadillac in Utah, due to meeting a horse on the road.

M. R. Andrews and wife had a three week vacation in Washington State and British Columbia, reports fishing good.

Mr. Thompson, division foreman, is in Berkeley, Calif., attending a special six week school for foremen on station.

Establish Navy Picnic Grounds

The new Navy picnic area, consisting of approximately thirty acres, is located on the Santee Road about one mile north of the Mission Valley Freeway.

Available facilities include picnic tables, fire places, volleyball courts, softball diamonds, horseshoe pitching pits and touch football field. Ample area for large parties of 1000 is available.

The grounds will be available to both organized groups and individual family groups commencing August 28. The Naval Training Center, San Diego, will maintain and operate the park.

A formal dedication of this area will be scheduled for early August.

Reservations for this area for organized parties or 25 or more will be made with the Director of Special Services, Main 3871, Ext. 774. Parties will be scheduled from 1000 until sundown.

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

COLUMN RIGHT—Is your column. Its purpose is to answer questions of general interest which affect your employment. Forward all questions to, "COLUMN RIGHT," c/o Industrial Relations Department, Building 415, or deposit them in the Beneficial Suggestion Boxes.

Q. If I enter in-service training, will I automatically be granted the fourth step upon completion of training?

A. No.

Q. If not, why not?

A. To be granted 4th Step, you must meet the following two requirements:

a. You must have 52 weeks of creditable service at step 3 with no disciplinary actions during this period; and

b. You must be able to perform the major operations normally required of your trade or occupations and your performance must exceed normal requirements with respect to quantity and quality. In addition, you must meet at least one of the following criteria:

1. Readily adapt yourself to new and changing job situations with much less than the usual amount of supervisory instruction and follow-up; or

2. Given assignments which demand a higher degree of quality, skill, speed or accuracy than is normally required; or

3. Frequently given assignments requiring solution of problems unusual to the operation or type of work involved; or

4. Frequently selected to work with and "break-in" new employees or other employees on new or changed operations.

If the above requirements are met, you can be recommended by your supervisors. This recommendation must be processed through channels and be approved by the Commanding Officer before the advancement to 4th step can be placed into effect. Under this procedure, no employee can be automatically advanced to 4th step.

Q. The latest San Diego area wage survey resulted in no increase for the rating of laborer, while in the Los Angeles area laborers received an increase of 8 cents, why?

A. Inquiry has been officially made in regard to this question.

Lest We Forget Any Special Occasion . . .

Oscar Villasenor, SHSN, is the NAS man who reminds North Islanders of all those special occasions like Mother's Day, Easter, Father's Day, and sundry other events which require a gift or a remembrance.

For the past 18 months as the window decorator of the NAS Navy Exchange, Oscar is probably responsible for a lot of mothers and sweethearts receiving a box of chocolates which never would have been sent if it weren't for the pleasant reminders that go into his attractive window displays.

He never forgets a day either. While the windows in the store are now exhibiting some fall clothing fashions and hunting equipment, Oscar has already completed his designs and sketches for "back-to-school," Thanksgiving, and Christmas windows. It won't be long before he'll be hard at work on spring and summer displays again.

He is rapidly winning himself a wide reputation for his versatility in store decorating. The NSSO, monthly Navy-wide publication for Navy Evchanges, has mentioned his work on several occasions, and in the June issue carried a half-page photograph of his Mother's Day window.

Before joining the Navy three years ago, Oscar was a window decorator in a Tucson, Arizona, department store. He plans to continue in that business when he is discharged from the service.

While not working on his window displays, which he changes every two weeks, he assumes clerking jobs in the store. Oscar shows unusual resourcefulness in his displays, seldom having to purchase any of the items that go into them. He usually improvises his backdrops, occasionally having an item built. Other "props" for the window he gets from the store stock. All art work and lettering he does himself.

Handicapped Parking Permits to Be Issued Beginning Next Wed.

Auto parking permits for physically handicapped employees in the Harbor Dr. parking lot will be available from August 13 on, the Industrial Relations Dept. announced.

The permits may be picked up by eligible employees from their shop personnel supervisors.

The first double row of parking space along the west side of the Harbor Dr. lot has been designated as the parking area for physically handicapped employees. This area borders the Coronado ferry exit to Pacific Highway.

Cars parking in this area without the special permit will be issued parking violation warnings from the Security Dept.

WINDOW DECORATOR Oscar Villasenor prepares a fall display at the NAS Navy Exchange. Ship's Serviceman Villasenor has been doing window trimming for the store for the past 18 months. He changes displays every two weeks.

Military Invited to Attend Dance at Tropical Gardens

To supplement off-post recreation in San Diego area, particularly for forces afloat, the Commandant, and the USO are jointly sponsoring a series of military dances to be held at Tropical Gardens, Navy Athletic Field, Fifth and Harbor Drive.

The initial dance in this series will be a formal affair held 2000-2330 Saturday evening, August 9. The USO-YWCA hostess program will provide in excess of 300 senior and junior hostesses so that ample dancing partners will be available to all men who may attend. Consequently, all dancing partners must be registered USO Hostesses. Therefore, it is to be noted that if married personnel or personnel having girl friends desire to bring their own partners, these ladies must register in advance with USO-YWCA, telephone M-8-1893.

Soft drinks and sandwiches will make up the refreshment menu.

The second dance in the series will be held August 23, and thereafter each Saturday night beginning September 6. All dances will be conducted at the Tropical Gardens, Navy Athletic Field. Although the dances are for all forces abloat, each dance will honor a different command which will be designated as host for the event.

trading post

RIDE WANTED—Ride wanted to east coast or vicinity of North Carolina. Leave starts at 0001 August 11. Will share expenses and help drive. Contact W. B. Andrews at building 317-A, Information and Education.

RIDE WANTED—Ride wanted from Bonita to NAS via Strand. Contact Brown, building 5.

movie menu

SATURDAY, August 9—"SEA TIGER," starring John Archer and Margarette Chaplin. No review.
SHORTS: "Sails of Acapulco" and "He Cooked His Goose."
Running time: 1 hour and 44 minutes.

SUNDAY and MONDAY, August 10 and 11—"THE HAPPY TIME," starring Charles Boyer and Linda Christian. No review.
SHORT: "The Embers."
Running time: 1 hour and 50 minutes.

TUESDAY and WEDNESDAY, August 12 and 13—"SON OF PALEFACE," starring Bob Hope and Jane Russell. Star studded Bob Hope and Jane Russell woo and pursue in a fast moving, laugh-loaded western riot. After Hope graduates from Harvard and goes home with a lot of illusions about the money his father has left him (in his head), he meets his greeting crowd with more of a surprise than what he expected. The banker explains that the greeting crowd is waiting to collect unpaid bills left by his father. Hope thinks of taking off from town in his crimson Ford of early vintage in somewhat of a hurry but he can't; they have removed his tires. Jane Russell attracts Hope, she is a nightclub entertainer and Hope decides he should stay and try to win her and her money. With the help of an old friend of his father, Hope braves a desert trip, an attack on a deserted city and has other assorted adventures besides his romance.
SHORT: "Fit to be Tied."
Running time: 1 hour and 50 minutes.

THURSDAY and FRIDAY, August 14 and 15—"AN AMERICAN IN PARIS," starring Gene Kelly and Nina Foch. Gene Kelly, an ex-GI, decides to stay on in Paris after the war because of his love for the city, and dabbles at being an artist while living on a small pension. Among his neighbors is Oscar Levant, a concert pianist, who introduces Kelly to a singing star. After meeting the singer Kelly encounters Nina Foch, wealthy American, who falls in love with him and uses her money to help him in his painting career. However, Gene Kelly meets a French girl and they fall madly in love, the French girl is engaged to the singer Kelly has met. With the magic of Paris in the spring and the immortal melodies of George Gershwin, here is one great entertainment treat.
Running time: 2 hours and 1 minute.

Skyraiders Meet 'Champs' Tonight In Navy Relief Football Gigantic

Bluejackets Take on 'Rams' in First Half; Skyraiders Test World Champions in Finale

By BILL FEENEY

Tonight, the Naval Air Skyraiders meet the world champion Los Angeles' "Rams" in the second half of the gigantic Navy Relief Football Extravaganza. The 'Raiders will share the spotlight with the Bluejackets from the Naval Training Center, who will play the Los Angeles dreadnaughts in the 30 minutes.

The game, which will be played at San Diego's Balboa Stadium, is scheduled to begin at 2000, with pre-game festivities beginning at 1930. Ticket sales indicate that had the game been scheduled for a stadium holding 50,000, this hypothetical arena would have been sold out.

RAMS BETTER THAN LAST YEAR

Reports have come from the Los Angeles "Rams" training camp, that this aggregation of all-Americans from almost every large college in the country is an all-around better team than the one fielded by "Jumbo" Joe Stydahar in 1951. This could be true, but it's hard to comprehend. Last year, the Rams conquered every jinx built up during the seven years the team has been playing under the Los Angeles franchise. It may be that the Rams are better this year, but how can this be when they traded 11 men for the sensation from the University of California, Les Richter, only to have him recently inducted into the armed forces.

QUARTERBACK MAGIC

The Champions from Los Angeles have one position in which more than twoIman depths would be a nuisance. This position of quarterback is handled by Bob Waterfield and Norman Van Brocklin. Last year, these two were first and second in yards gained by forward passes in the very tough National Football League.

The brilliant ends of the L. A. team made much of this possible. Tom Fears and Elroy "Crazylegs" Hirsch, are only two of the sticky-fingered pass catchers who seem to be able to fake the opposition out of their "shoes" then make impossible catches.

GREAT EXPERIENCE FOR SKYRAIDERS

No one can talk themselves into thinking that the 'Raiders have anything but a very difficult road to hoe in this game, but think of the huge amount of experience that will be gained and then used in Eleventh Naval District competition.

With 8 wins against 2 league losses, thes quad of '51 showed a great fighting spirit under Coach Stan Williamson.

"T" FORMATION SWITCH

This year, the '52 edition of the 'Raiders under the guiding hand of Coach Dean Johnson, will run from the fast-starting "T" formation.

The team is perhaps deeper at quarterback than any other position. The top candidates for starting team honors at this key position are: George Davis, Bill Hulsey, Pete Steel and Larry LaVinne.

The fullback position, which is usually used to gain those few precious yards for a first team, will be handled by Jim Mancuso, former all-city star from Los Angeles, and Joe Blackerby who has four years college experience.

The halfbacks, which handle the quick openers, end runs, and swing passed from the "T" formation, are to name a few of the more promising: Mark Markenchivich, Rex Yerby, Bud Gartiser and Manuel Aja.

LINE IS TEAM QUESTION MARK

At this time the big question mark of the team seems to be the line. There are men in our line which have had much experience, but these men are too few and far between. The first line is fast and rugged, however, when we start talking of reserve strength we hit the stumbling block. If the coaches can improve the line with some good teaching and perhaps the addition of a few key men, there is no reason why this year's Skyraider team can not be as good or better than the still remembered team of 1951.

TAKE A PEEK AT NTC

The Naval Training Center's Bluejackets have probably as impressive an array of football talent as ever assembled in a service team.

Just a few of the big names of the NTC team are: Bob Boyd, former Ram; Jim Monachino, former California All-American; Odie Posie, another Ram, and on and on go the names of big stars.

Against the Washington "Redskins" in a recent scrimmage, the team did look good. However, how often does a team made up of so many great individual stars crack wide open during the strain of a rugged season of tough competition?

referee hand signals

SPORTS

Air Pac Sports

By BOB SWISHER

Undefeated teams are rapidly disappearing in the AirPac Intermural Sofaball circuit.

On Monday six teams were displaying unmarked slates in the two leagues. But, after two days of action only VC-11, VP-46 and VS-23 were left. Fasron-110, Fasron-691 and Personnel all felt the sting of defeat.

The two-day purge of leading contenders left VC-11 all alone in first place in the Major league and VP-46 tied for leadership in the Minor loop. The Comets of VC-11 assured their top position by dumping their nearest rival, Fasron-110, by a 5-3 count.

FAETUPac bounced back from their stunning 11-0 loss to Fasron-110 lastweek to end Fasron-691's two-game winning streak with a 3-2 victory on Monday. FAW-14, first half champs, lifted their record to a 2-2 with a forfeit over VC-35.

A shocking upset of previously undefeated Personnel by VR-3 left the Minor race with only VP-46 and VS-23 unbeaten. The two squads head the pack with 3-0 records.

Touch football got underway Monday as nine of the 11 teams saw action in the first two days.

VC-35 began defense of their 1051 crown by defeating VU-7 and PAMI by 35-0 and 14-6 scores, respectively. Only other club escaping defeat in the opening days was VP-42. They edged by Fasron-691 by 13-6 and Fasron-7 by 7-6.

VP-46 blew the lid off the pistol league Tuesday by blasting PAMI 1143-674. VP-42 won from ComCarDiv-15 in the only other match 1178-1060.

ATTN: BOWLERS

All male civilian employees interested in the formation of an 800-815 bowling league, are urged to attend a meeting in the Main Civilian Cafeteria Blue Room at 1300 Tuesday, August 19.

NAS Wave Wins ND Golf Title

Muriel L. Ferguson, ESB-1, who is now chief Master-at-Arms of the Waves barracks, won the annual Eleventh Naval District Golf Championship for Women.

The tournament, which was played July 24 and 25, took place at Mission Valley. There were eight participants from the district, and top woman swinger, after the fast and furious 36 holes had been played, was Muriel.

Her low gross was 207; this was a full seven strokes ahead of the next woman, who had a low gross of 218.

Muriel had not played for two and one-half months when she decided to enter the tournament. She is from Los Angeles, and her all time low is an 84 scored on the Naval Training Center course.

ATTN. NACRA BOWLERS

All bowlers interested in participating in the forthcoming winter bowling league, which will start in September, are urged to contact Mr. John Allison at X-697 for further information.

naga news

The Skyraider Golf Team maintained its hold on second spot in the Eleventh Naval District League by defeating the Amphibious Base on July 24, 20-4; then on July 31, they defeated the men from the Naval Station, 18-6. Low man in the Amphib victory was Charles Bartlett, who carded a 70, while Leon Drelicharz shot a 74 for low honors against the Naval Station.

The Monthly ACE tournament began last Wednesday and will continue through Wednesday, Aug. 13. All golfers are invited to participate, however, only those with established handicaps may win the trophies.

All golfers are urged to keep a close tab on the bulletin board at the golf range.

LAST MINUTE SIGNAL CHECKING for the big Ram game tonight is being done by quarterback George Davis. The others are: Center, Chuck DeFreitas; right half, Rex Yerby; fullback, Jim Mancuso; and left half, Manuel Aja.

Utility Squadron Three's Grocery Booth At Navy Relief Carnival, 'Brings Home the Bacon'

VU-3K Drops HS-4, 9 to 3

Utility Squadron THREE continued their dominance of the Helicopter squardons by blasting HS-4, 9 to 3, Tuesday, August 5, at Buchi Field.

Picking up two runs in the second inning, four runs in the third inning, and three runs in the fifth, the dronemen knocked two HS-4 pitchers from the box as they rang up victory number six.

Winning his third straight game, "Buck" Meehan allowed but seven hits to register the win. Meehan is the fifth pitcher that VU-3 has used since the season began. John Arce, with a record of 8 and 3 for the season, was the third pitcher transferred, leaving the burden on John Troegel and "Buck."

With the second half of the softball season almost at the halfway mark, VU-3 has a six win and two loss so far this quarter.

When six hospital men at Camp Lejeune, N. C., saw the mysterious smile of the fetching young lady above in a newspaper advertisement, they sent requests for autographed pictures and an invitation to come to the camp as a guest of the Marines. Linda Lombard, a 22-year-old model, obliged. Most of her visit at the base was spent posing for photographs as hundreds of Marines suddenly became inspired camera fans.

HU-1 Skipper Presents Awards at Inspection

After completion of personnel inspection of HU-1, today, CDR H. M. Kosciusko, Commanding Officer of HU-1 presented the Distinguished Flying Cross to LT J. M. Farwell and Chief Aviation Pilot C. W. Buss for heroic helicopter rescues of downed pilots in Korea; LT H. F. Snowden was awarded the Air Medal for a combat rescue mission in Korea; LT C. C. Coffey was presented a letter of commendation for his outstanding helicopter services while serving on board the USS ESSEX.

Good Conduct Medals were presented to Chief E. D. Marsh; R. W. Gipson, AD2; D. C. Goodron, AD3; T. E. Harper, AD3; R. C. Partain, AE3; M. J. Grant, AEAN; and W. H. Henley, AD.

"Winged S" helicopter rescue awards were presented to LT J. M. Farwell; LT H. F. Snowden; LT C. C. Coffey; LT B. L. Samuels; LTJG R. G. Powell; C. W. Buss, ADC (AP); R. Karls, ADC (AP); H. D. King, ADC; R. E. Morton, AMC (AP); C. D. Dever, AD1; G. Moore, AD2; H. W. Williams, AD2; H. S. Borowski, AD3; J. H. Hicks, AD3; J. L. Fanning, AD3; R. G. Skarbon, AD3; R. M. Browning, AN; and C. C. Gooding, AN.

What's the Catch?

Last week the fishing, which has been very good for several weeks, dropped off. The boats from NAS averaged 15 to 20 yellowtail per trip.

The fish of the week was a 17 pound "Yellow" taken by LTJG Hensely, of VC-35.

VU-3 Sets Up Sports Program, 'Dope Sheet'

A VU-3K Perpetual Trophy, "the Captain's Cup," will be presented at Captains inspection each month to the departmental group which has earned the most points during the preceeding month in the intermural sports program.

Under the new "SPECIAL SERVICES DOPE SHEET" program, each week athletic events will be scheduled and the squadron organization will be grouped into four departments. 1, Administration and I and E, 2, Operations and KD's, 3, Electronics and Communications, 4, Maintenance and Material.

Volleyball, softball, touch football, basketball, ping pong, badminton, horseshoes, archery, backgammon, acey-duecy, chess, checkers, pistol and skeet will provide a wide field for inter-squadron competition.

All VU-3 men should contact their division officer or his chief to be represented in the above sports. SPECIAL SERVICES DOPE SHEET will be distributed Monday mornings of each week showing department standings and schedules plus information for the crew.

HU-1 Leading Chief Re-enlists After 32

Chief Aviation Machinist Mate, Raymond Hartley, the Leading Chief Petty Officer of Helicopter Squadron ONE, completed 32 years of Naval service on July 31. To show all hands how he feels about the Navy he was re-enlisted by CDR H. M. Kosciusko, Commanding Officer of HU-1, for another 6-year enlistment. Upon completion of this present enlistment he will have 38 years of U. S. Naval service.

Chief Hartley enlisted in the Navy in 1919 and was appointed Chief Petty Officer in 1938. He has served 20 years of foreign or sea duty.

HU-1 is proud to have such an outstanding Leading Chief.

RAYMOND HARTLEY, ADC being sworn in for another six year enlistment by CDR H. M. Ksciusko, Commanding Officer of HU-1.

VU-3 Man's Jet Model Takes 2nd Place in Model Plane Contest

Under the combined sponsorship of the Academy of Model Airplane Association and the United States Navy, Lloyd Zink, ATAN, of Utility Squadron THREE's KD unit 26, won second place in the senior division with a jet speed model in the twenty-first annual National Model Airplane Championships held at Los Alamitos Naval Air Station, July 28 through August 3.

The final day of the meet, after week-long competition in all model aircraft, featured miniature jet planes zipping along at more than two miles a minute and small aircraft landing on a scale Navy carrier which the Navy brought in for the special landings event and it was even christened the USS SMALLFRY by Secretary of the Navy Dan Kimball. Entrants had to have scale planes of Navy Combat Craft and land them using control wires.

LLOYD ZINK, ATAN, of VU-8K, shown with his prize winning jet fuel model at National Model Airplane Meet at NAS Los Alamitos.

Surprising enough, it was a girl that took the title in the new jet division in the finals. Violet Hoyt, of San Diego, flew her model at a speed of 144.23 miles per hour to win the open class. Bobby Patty, of Phoenix, took junior honors with a speed of 128.57, and Eugene Stiles, of Sheppard Air Force Base, Texas, was senior champion with 143.54. Zink followed with a 123.54 to secure second place, and was awarded a trophy. Zink has had eleven years of model airplane experience and has entered the Nationals four times and the International Championships twice.

VU-3K put on a static display of four KD's, catapult from which these birds are launched, from Unit thirty, and a F6F radio controlled drone which drew many inquiries from the thousands of spectators present. Along with the drone exhibit, there were many of the latest Naval aircraft and a World War I Spad and a "Jenny" for comparison. LT Billy Long, Officer in charge of KD Unit 30, entered a free flight pay load vent model in the open division, but went unplaced among the hundreds that were in competition.

There was happiness and heartaches among the hundreds of contestants from all over the United States, which ranged in age from ten years to sixty years. The workmanship and time spent on their model aircraft was indeed inspiring to those who had never seen these enthusiasts in action and to those who have entered meets for many years. One of the most interesting of the different classifications was that of the radio controlled planes which correspond to the work of Utility Squadron THREE. Sending their models aloft by radio control and and landing them under the same circumstances was one of the highlights of the meet and drew many of the vast crowd.

KGER, Long Beach radio station, covered the meet as well as represntatives from the press and model and airplane magazines. To wind up the week-long contest, there was a barbecue and presentation of trophies and awards to crown the champions and runners-up in the respective divisions. All in all, this was proclaimed the outstanding National met of the twenty-one annual championships that have been recorded in model airplane history.

Chapel Services will be held at ALF Ream Sunday as follows:

Protestant Services 0930
Catholic Services 1030

ALF REAM
MOVIE SCHEDULES

Friday, August 8—"JUMPING JACKS" starring Dean Martin and Jerry Lewis.
Short: "SPORTING OASIS."

Parking Warnings To Be Issued Begining Monday

Effective Monday, August 18, only cars with special permits may be parked in the area reserved for autos driven by physically handicapped employees in the Harbor Drive Parking Lot. Unauthorized cars in this area will be issued only one warning by the Security Department. Other action will be taken for repeated violations.

The first double row of parking spaces along the west side of the Harbor Dr. lot has been designated as the parking area for physically handicapped employees. This area borders the Coronado ferry exit to Pacific Highway.

Issuance of the special parking permits for physically handicapped employees was begun last Wednesday. Eligible personnel may receive these permits from their shop personnel supervisors.

Witnesses of Navy Club Fire Sought

Civilian investigating authorities are urgently seeking military personnel who witnessed the Memorial Day fire at the "Navy Club," corner Fourth and E Streets, near the Plaza, in downtown San Diego.

Men who witnessed the fire are urged to contact the NAS Public Information Officer, ext. 1337, Room 1, Bldg. 8, immediately.

First Waves Report To Fleet Air Wing 14

August 1 of this year marked the entry of the Waves into Comairpac for the very first time. The Aviation Training Aid Unit, which up until this time had been attached to NAS, is now a part of the Flag Administrative Unit of Comairpac.

These Waves perform the numerous important duties that are such a vital part of this Aviation Training Aid Unit. Some of these duties include those of a Link Trainer Instructor and operator. Also instructional duties in the field of celestial navigation, taking charge of the film library, such as keeping it up to date, and seeing that the films are filed properly.

Other duties of these first 12 Waves to enter Comairpac include operating the numerous projectors used in the aviation training courses. One of the most unusual tasks that these Waves perform is that of PBM operational flight trainer instructor.

The officer in charge of this Aviation Training Unit is LCDR James O. Nesbitt.

Station CO Receives Rear Admiral Stars

NAS Commanding Officer, RADM W. L. Erdmann, was promoted to his present rank during informal ceremonies Monday. His selection was announced last month by the Navy Department.

Prior to assuming command of NAS in May, 1950, RADM Erdmann was commanding officer of the USS LEYTE.

"What Price Glory" To Aid Navy Relief

One of the great motion pictures of all times "What Price Glory," will be premiered at the San Diego Fox Theater at 8:30 p.m., Thursday, August 28, the entire proceeds of the showing to go the to Navy Relief fund.

Starring in this technicolor revival of the world-famous war picture will be Corinne Calvet, James Cagney and Dan Dailey. Twentieth Century Fox, makers of this stirring film, have made the picture and their top San Diego theater available to the Navy Relief Society for the premier showing, as the final of the summer season of Navy charitable events.

Reservations are now available on a first come, first served basis, and may be obtained by sending check or money order to the 1952 Navy Relief Carnival Fund, in care of the Public Information Officer, U. S. Naval Air Station, San Diego 35, California. Personnel on the Naval Air Station may also make reservations by contacting the NAS Public Information Office, Bldg. 8, Room 1. Tickets are priced at $1.25 and $2.50. All seats will be reserved for the performance.

This magnificent second picturization of "What Price Glory" retains all of the ribald humor and rough-and-tumble comedy of the famous Maxwell Anderson-Lawrence Stallings war play, which was a Broadway hit and then one of the greatest Fox film successes in 1926.

James Cagney is a superb choice for the old Victor McLaglen role of the scrappy Captain Flagg, and Dan Dailey is a fine fighting match for him in Edmund Lowe's role of Sergeant Quirt. Corinne Calvet gives her best screen performance to date as Charmaine. The new screen version, under the direction of John Ford, has a tender and tragic-romantic subplot between Marisa Pavan, a young French girl, and a young company clerk.

Photographs of scenes taken from "What Price Glory" and a convenient coupon for making reservations by mail appear on pages 5 and 2, respectively, of of the NORTH ISLANDER.

Navy Receives Robot Which Will Test Guided Missiles

The Navy now has an electric brain that catches its own errors.

A new multi-million dollar electronic digital computing machine, developed over a period of six years, not only is capable of 3,000 to 5,000 mathematical operations per second, but stops its operation when an error creeps in.

The mechanical brain is called the "Raydac," an abbreviation of Raytheon Digital Automatic Computer. It was developed by the Raytheon Manufacturing Company for the Navy Bureau of Aeronautics.

Ten different types of accuracy checks are made of the "brain." All work is preserved up to the instant an error is flashed on the control board. After the correction is made the machine immediately continues its lightning calculations from the point where it stopped.

Following acceptance tests, the machine will be shipped to the Bureau of Aeronautics Naval Air Missile Test Center at Point Mugu, Calif. There, by radar and other checking devices, the machine will receive information and act as an "intelligence center" to study the flight behavior of the missiles.

It has taken teams of workers from 20 to 30 days to perform mass calculations from a single missile's flight data. The new machine is expected to solve these problems in minutes.

New Courses Are Added To USAFI Curriculum

A number of new courses have been added to the USAFI self-study course curriculum, the I&E Div. has announced. Since these courses will be of interest to all hands continuing their education while in the service, the NORTH ISLANDER will periodically publish a description of these courses.

Carpentry I, one of the newest courses on the USAFI list, provides practical information to anyone who wishes to work with wood, whether it is in the carpentry trade or some allied vocation. The material covered in this course is similar to that offered in many technical high schools and junior colleges.

It describes and discusses each tool used in the construction of wooden structures and gives simple step-by-step directions in the use of these tools for each fundamental process in carpentry. The student in wood construction will find this course most helpful.

The course is considered especially valuable to personnel who will make use of the NAS hobby shop woodworking facilities. See I&E in Bldg. 317A for further information about this course and other USAFI educational opportunities.

Skyraiders in District Softball Finale Today

John "Hollywood" Huffman draws the all-important pitching assignment today as the Naval Air Skyraiders play at Navy Field Diamond 4 at 1500 for the District softball crown. The 'Raiders won the major division 11th Naval District title last week and are now at the climax of the inter-league playoff tournament, in the "winner's" bracket.

They will tangle with the winner of last night's "loser" bracket final between Naval Station, San Diego, and Point Mugu.

A win for the 'Raiders today would give them clear title in the double elimination affair which has brought together the best softball talent in the entire District. A loss would throw them into a second game later this afternoon.

Tourney elimination victims of the Skyraiders to date are Point Mugu (4-3) and Naval Communications Station 5-0). Adolph Mason and Huffman have shared the winning pitcher efforts.

Hap Ivey, turbulent centerfielder, has come through with the heavy stick work so far, breaking up both ball games with timely homerun smashes.

Outfielders Jimmy Smith and Leo Pich have combined with Ivey to sparkle defensively, Smith making astounding "off-the-shoulder" catches while the entire trio have displayed accurate throwning arms throughout the tournament.

Former Skyraider Makes Big Time

Tom Weaver, who was discharged from the Navy only a month ago, was this week signed to a baseball contract with the Oakland Oaks of the Pacific Coast baseball league.

Tom, who was a member of the Skyraider team until his discharge, was the leading batter in the 11th Naval District baseball league in 1951, and this year he batted a hefty 370 in the games in which he participated.

Weaver, a 21-year-old outfielder, played ball at Evanston High School, Evanston, Illinois, prior to entering the Navy.

'Paint Rescue Gear Red' Say Navy Research Men

The Navy may be in for a gigantic paint job.

Navy researchers report that bright scarlet seems to be a better attraction than the life-raft yellow now universally used.

"A light bright scarlet (Munsell 7.5 red) can be seen at greater distances than the chrome yellow now in wide use for rafts, lifeboats, life-preservers and similar equipment for air and sea rescue," say scientists at the Naval Medical Research Laboratory, Naval Submarine Base, New London, Conn.

Yellow was originally selected for painting rescue equipment because it is conspicuous at close-up

Local Group Will Present Opera for Spastics Benefit

On the evenings of August 28 and 29 commencing at 2015 each night the San Diego Park and Recreation Department's annual summer operetta, "The Bartered Bride," will be given in the Balboa Park Bowl. The music is by Bedrich Smetana, and the libretto by Karel Sabina.

The opera, the benefits of which go to the Cerebral Palsy Foundation of San Diego County, will give the younger people of San Diego an opportunity to display their talents and obtain valuable stage experience.

The cast is made up of the Junior Civic Ballet, the Junior Civic Chorus, and the San Diego Youth Symphony.

Tickets have been on sale since August 1, and they can be obtained from foundation members, members of the cast, at playgrounds and community centers, and at the Park Administration Building. All tickets are unreserved.

NAS Officers To Have Luau

The annual Officers' Luau will be held Saturday, August 23, at the Naval Air Station Commissioned Officers Mess (Open).

All officers of all branches of the armed forces, retired and reserve, as well as active, and their guests are cordially invited to attend.

Dinner—a sit-down meal—will be served from 1900 to 2200 with dancing and other festivities in the true Hawaiian tradition continuing from 2200.

Entertainment for the popular annual event includes Johnny Ukulele, ukulele impressionist; Johnny Bright and his Hawaiian Orchestra; Vic Vincent and his orchestra; Kim and Lualla "Hawaiian Samba"; Ethel, hula comedian; and Kim, Lualla and Grace, the "Hawaiian Skies."

Informal Hawaiian costume is recommended to those attending. Reservations, at $2.75 per person, will be limited to the comfortable capacity of the Club. Persons making reservations should state their preference as to pool or dining room accommodations.

Authentic Hawaiian cookery will be featured at the Luau. The menu includes combination fruit salad with cocanut, roast, smoked pork loin, sweet and sour pork spare ribs, breaded filet of fish, corn on the cob, fried rice, sliced string beans, and apple cobbler with cheese.

New O&R Officer Assumes Duties at Naval Air Station

Reporting Monday, August 11 to the Naval Air Station was CAPT. G. A. Hatton, new head of the Overhaul and Repair Dept. He takes the post vacated by CAPT A. L. Baird several weeks ago. CAPT Hatton comes to NAS from the Personnel Div. of the Bureau of Aeronautics, Washington, D. C.

A graduate of the U. S. Naval Academy class of 1931, CAPT Hatton was awarded his "wings" at the flight school in Pensacola in 1934. He did post praduate study at Annapolis and the California Institute of Technology prior to World War II.

During the war he served with various patrol squadrons in the Pacific, followed by duty at NAS Pearl Harbor, and with ComFair Seattle. At the close of the war he was assigned to the NAS Miami and later, 1946-47, to NAMC Philadelphia. For two years he was also on the staff of ComAirPac.

CAPT Hatton resides in Quarters "P" at NAS with his wife Margaret, and three children, Mary Lou, 11; Bobby, 7; and George, Jr., 2.

CAPT G. A. HATTON

Come and Get It!

Shown above serving grilled steaks to FASRon 691 men are F. D. Paulson AEAN, (left), and A. K. Rankin, AO3, during their squadron picnic last Friday afternoon at El Monte Park. With over 300 men and guests attending, the affair turned out to be one of the most successful social gatherings of the squadron since its recall to active duty 23 months ago.

CHCARP Renner Leaves Station

Naval Air's Assistant Structures and Finish Officer, CHCARP Fred Renner, has been transferred to Port Lyautey, French Morocco, and will leave this station for his new duty around September 1.

CHGARP Renner has been aboard NAS for just over one year when he assumed his present duties after being sent from NAS Miramar. Since that time, he has aided in the construction of many new station buildings, including the recently-opened NAS Beach Recreational Facility.

Mr. Renner enlisted in St. Louis in 1929 and came to the San Diego Naval Training Station for training. Since then CHCARP Renner has had some never-to-be-forgotten memories gathered from duties at various stations.

When, for example, Mr. Renner was a member of the flight deck plane pushing crew on the old USS LEXINGTON he recalls the time he was hanging by his toes on an upper wing of a TBM, loosening a couple of hinges so the wings could be folded. The plane had to have a "dolly" placed under the tail wheel so it could be pushed into the desired spot. The tail section was raised too high by crew members, placing him in a forward sliding position on the upper wing. As Mr. Renner was sliding forward, he noticed the propeller going around as big as a windmill. He was headed straight for it. All he could do was hang on, and as he neared the engine he managed to catch a couple of flying wires. (The old planes had two wings then and flying wires with struts were used to keep them together). This was the only way he could keep from being pulled into the propeller.

From the LEXINGTON, Mr. Renner went to the A.M. school and then back to the fleet. He has had duty in the Canal Zone, various air stations, squadrons and Kodiak. During the last war he was in New Caladonia and later on Guam and his last duty was aboard the USS LEYTE in the Korean campaign. Renner now goes to the Mediterranean where he will report to Port Lyaute.

BENEFICIAL SUGGESTIONS

On Monday, August 11, 1952, LT R. P. James, the Division Officer of the Assembly Division presented Beneficial Suggestion Awards to: H. Smith, C. A. Nichols, H. A. Patten Jr. and C. J. Collins to the amount of $75.

Mr. A. C. Banholzer, Quarterman AMG and K. S. Baker, Quarterman Metalsmith, witnessed the presentation in the Assembly Division, Area III, Hangar 68.

LT James commended the men on their fine work and suggested that more beneficial suggestions be submitted.

Island Legionnaires Return From Conclave

With the temperature soaring to 112°, the American Legion Convention for Department of California started with a bang in Fresno, California.

Roscoe T. Morse, D. "Woody" Fields, and John Rixon of North Island Service Post 753 were delegates for the post, and Mildred D. Splichal was the delegate for the Auxiliary.

The 40 and 8 train from Post 753 took first prize in the division. It was entered in the big parade.

After the registration of delegates and the parades on Saturday and Sunday the convention got down to business as usual on Monday. Committee's reported their progress for the past year and their resolutions for the coming year.

Tuesday saw nominations of candidates for the various offices of Department for the coming year. The presidential dinner and the Commander's Ball finished the day.

On Wednesday, delegates were polled and seated and the election was of top importance.

Rosco T. Morse was elected Alternate Delegate at Large to National Convention by the Department of California.

NAVY RELIEF BENEFIT PREMIER

of the 20th Century-Fox Production

"WHAT PRICE GLORY"

Starring James Cagney, Dan Dailey, and Corinne Calvet

I, ..., of .....

herewith enclose my personal check or money order in the amount of $..... for ..... reserved tickets to the premier. I desire (circle) $1.25, $2.50 reservations. Please make all money orders or checks payable to the 1952 Navy Relief Carnival Fund, c/o Public Information Officer, U. S. Naval Air Station, San Diego 35, California.

ALL SEATS RESERVED

Firemen Finish First Stack of Christmas Toys

The firemen of Firehouses 1 and 2 have shown great progress in their work on rebuilding used toys during their off-hours. These toys, contributed by Islanders, are to go to the underprivileged children of San Diego at Christmas time.

At present there is a need for used and new toys, and if they aren't in too bad a condition, they are greatly appreciated.

Toys alone are not the only items that are acceptable for all types of toy parts are needed also. Parts such as tricycle wheels, bicycle pedals, wagon wheels, and almost any part that can be used in the repairing of some toy are needed.

One exception is made on the request for toys and that is plastic toys. If the plastic toy is too badly damaged it will not be accepted. Any kind of toy is needed, regardless of its age, just so it is fixable. If it needs to be welded, painted, or overhauled, the firemen can do the work.

The supervisor of the repairing and painting and the other work done on the toys is G. L. Looper, AMC. He has been working with this project since it began a few months ago and has worked with civilian as well as military personnel.

There are four locations where toys may be deposited on and around North Island—the Harbor Drive parking lot entrance, the Coronado gate entrance, the East Beach Landing, and the Main Boat Landing at pier Jig-King.

The toys are being stowed at building 874 until some time in December when they will be distributed to the local homes for underprivileged children as Christmas presents.

BEFORE (above) the toys are brought to the firehouses, some are in pretty bad shape, but AFTER (below) they will grace any Christmas tree. Above, B. P. Boon, AN; J. A. Lawson, AA; K. M. Davenport, AN; J. M. Vieweg, SA; M. E. Heniser, SN; and G. W. Woods, AN, begin work on a new group of toys. Below, Bob Bramson, AA, ISLANDER reporter examines the finished products with E. J. Owens, AN.

A REAL "DAHL" who's lovely, vivacious, glamorous, personable, charming, and . . . well, you get the idea. Beautiful Arlene Dahl, one of Paramount's gifts to the male population, is truly a "doll" in every sense of the word!

Fall and Early Winter Hunting Rules Listed

Last Saturday, August 9, marked the opening of deer season in the California coastal region and the season will remain open until September 14. In the inland (Sierra), northwestern areas, the season on deer opens on September 20 and closes October 19.

Open season on bear also starts on August 9 in the coastal regions of California and continues on until December 31. September 20 will mark the opening of bear season in the inland (Sierra), northwestern area, and this season also continues until December 31.

The season for hunting pheasant in all areas will commence on November 22 and continue until December 1. Open season on quail begins on November 1 in the north coastal region and runs until December 31. In Districts 22, 4½ and 4, the season on all species of quail will begin on November 22 and end on December 1. In District 1¾ the season on quail (all species) will begin on November 22 and ocntinue until December 15. In the balance of the state the season begins on November 22 and ends on December 31.

For those interested in hunting mountain quail, they will be glad to know that the open season on mountain quail in District One will begin on October 11 and run until October 19.

The open season on brush and cottontail rabbit in the Districts 3, 3½, 4, 4⅛, 4½, 4¾, 22, and Marin Sonoma, Mendocino, Humboldt, and Del Norte Counties begins on September 1 and remains open until December 31. In District 1¾ the season on these small game opens on November 22 to December 15. In the balance of the state there is an open date from November 22 to December 31.

Districts 4, 4⅛, 4¾, 19, 20 and 22 have an open season on jack rabbits from September 1 until December 31. In the balance of the state there is no closed season on the hunting of jack rabbits. The Sierra hare can be hunted only in District 4½ from November 22 until December 31.

The hunting season on tree squirrel in the Districts 1, 1⅜, 23, 25, Trinity, Siskiyou, Santa Clara, San Mateo Counties begins on November 22 until December 31. In the remainder of the state there is no open date on tree squirrels.

There is only one day allowed for the hunting of sage hen and that is September 1, in the counties of Mono, Lassen, and Modoc.

METALSMITH JOHN ROHN, operates on a torn down F4U wood aileron in Shop 3106—an example of versatility often required in this group.

TOM ANDERSON, carpenter (left), Jack Evans, preservation mechanic (right background), Grace Polsley, carpenter, and Victor Michea, metalsmith, steaming and forming over heated blocks, plywood skins for re-covering F4U ailerons.

The Build-Up

Shop 3106 Style

Sudden increases or slackening of workload are taken pretty much in stride by the most adaptable crew of workmen — and women of Structures Division's Small Surfaces Shop 3106. This group pretty well typify the highly specialized, yet broadly adaptable, nature of the North Island aviation workman.

Joe Stetser, area supervisor down Building 801 way, is justly proud of the versatile nature of his Shop 3106 personnel—a versatility that enables them to get jobs out on schedule under pressure. At the time the accompanying pictures were taken, the pressure was definitely on, and a number of outside assistants were called in, to complete a large assignment in addition to the regular routine of major repair work. The job placed numerous employees of five allied, but separate ratings, onto a hurry-up repair and resurfacing of wooden structures. Metalsmiths, Aviation Mechs, Carpenters, Aviation Woodworkers, and Preservation Mechs. pushed the job through.

Under normal circumstances, Shop 3106 uses the 77 employees currently on the job. They overhaul damaged wood or metal control surfaces, helicopter rotors, and allied components, return them to virtually new condition.

If you should drop in at Building 801, and see a well known "tin-bender" making like a carpenter, or vice versa, it's another temporary emergency measure in Shop 3106's working together to complete an urgent work assignment.

JOE LOPEZ, preservation mechanic (left) and Avel Rios, metalsmith, finish-sanding resurfaced wooden ailerons prior to fabric covering.

AL ESCALANTE, metalsmith, suction-cup testing to determine skin adhesion on finished wood surface F4U aileron.

Navy-Marine Medal Presented To Man From VS-892 Recently

On July 29, of this year the Navy Marine Medal was awarded to Leo John Estergreen for his quick action on the flight deck of an aircraft carrier last fall.

Estergreen, a member of Air Anti-Submarine Squadron 892, was working on the flight deck of the aircraft carrier USS RENDOVA during early morning landing operations when a parachute flare broke from beneath a plane that was landing. Without hesitation, Estergreen ran out on the flight deck, picked up the flare and heaved it over the side. The flare takes only a period of 90 seconds after discharge to ignite and could have caused possible damage to the flight deck and the near-by personnel.

The carrier was in operation in the Japanese Sea on September 6, 1951, when this incident occurred at 0400. In command of the squadron at that time was CDR Weatherup.

Estergreen is a native of Montesano, Washington and entered the United States Navy on January 4, 1951, and upon completion of his basic training at the Great Lakes Training Center reported to VS-892, and has remained with them since.

Navy Develops Plant To Fuel Jets At Sea

The development of new oxygen plants, capable of making Navy aircraft carriers self-sufficient in providing oxygen for jet planes, has been reported by the Navy. The new units will be installed aboard carriers of the Midway class and the new flattop Forrestal.

The oxygen plants were designed to meet the constantly expanding needs of high-altitude jet planes that operate from large carriers. As a by-product, the plants also produce nitrogen, which is used to purge gasoline lines aboard the big ships.

Besides making the carriers self-sufficient in oxygen, use of these machines results in substantial savings of space and weight aboard ship. In the past, carriers have been dependent upon shore bases or refueling ships for oxygen.

rod and rifle ramblings

BY GEORGE BAKER

As the deer season gets started in the Northern coastal areas, and opening date approaches locally, emphasis will undoubtedly switch from fishing to hunting among North Island sportsmen.

But nothing, absolutely nothing, seems liable to detract from the intense interest that always goes with the final stages of the current Yellowtail Derby. With the 20-week qualifying period ending this Sunday, August 17, the following North Island anglers (and a few we may have missed) appear to be "in," among the top 100: Marron Sumrall, fifth from the top with a 40 pound 10 ounce catch; and M. L. Robertson, with a 46 pound 12 ounce catch which puts him in third spot.

They will compete during the big finals event the weekend of August 23-24.

But hunting is definitely on the horizon. The North Island Civilian Employees' annual hunting tournament officially opens today, to run until the first of December. There will be first prize money of $25.00 for heaviest deer taken in San Diego county, and a similar first prize for the heaviest deer from outside the county. Second prizes of $10.00 each class, will prevail as usual. An additional bogey prize will be offered, with names of all contestants in the tourney being subject to an impartial draw, the winner receiving five bucks. ALL civilian employees are eligible. ALL contestants must register with the Employee services Office, Building 415, before entering contest. Rules and regulations for contest may be procured from Madge Mulloch, at time of registration. Hunting licenses, and deer tags may also be procured through Employee Services Office.

SAFETY AWARD GIVEN VS-892

The Commander Air Force, Pacific Fleet last week forwarded the VC-VS Safety Award to Air Anti-Submarine Sqaudron 892 in recognition of flight safety accomplishments during the fourth quarter of the fiscal year 1952.

Records indicate that during the quarter, VS-892 flew 2029 hours with one accident, accumulating a safety score of 95.1 and achieving first place in safety competition among units of similar type in Air Force, Pacific Fleet.

FRIENDS AND RELATIVES of the PHILIPPINE SEA crew members lined the NAS Quaywall last Saturday to give the carrier a royal "welcome home" from duty in the Korean theater. The PHILIPPINE SEA had been on duty in that area for seven months.

This Week's News
at a glance

Tensions in the Middle East have far from decreased, although they have been partially obscured by U. S. presidential campaign headlines. British and U. S. efforts to reach an agreement with the Iranian government have all but failed. Considerable pessimism has been expressed by British officials regarding the reopening of the rich oilfields in that country. They feel that Premier Mossadegh, even if he sought accord with the allies, has bargained away much of his power to the Iranian Communist Tudeh party.

Elsewhere in the turbulent Middle East, the new Egyptian government carries on the usual anti-British attitude there. A government spokesmen said that Egypt would not join any alliance of Mediterranean nations until the British turned the Sudan over to the Egyptians.

The Soviet propaganda machine has now embarked on a concerted campaign to drive wedges among the democratic nations. Hoping to apply the principle of "divide and conquer," the Communists are doing their utmost to sow discord. Last week they branded the ANZUS pact (Australian, New Zealand, U. S. defense alliance) as a plot of the United States to kidnap Britain's "children." Similarly, the Communists have used the news of reduction of the military training period for Belgian draftees as political ammunition. They term it as another indication of the breakdown of the North Atlantic alliance.

THAT MAN
friday

The problem of youth against experience has often been matched and the matching place for these two to be proven where almost anyone who cares anything about this subject has often been the prize fighting ring.

Recently such a fight was matched. One pugilist was 32 years old and had been boxing 17 years as a professional, while the other was 25 years old and had been fighting professionally for only five years. A look at the statistics of the two fighters showed they both were of almost equal stature, only seven pounds difference in weight, besides a few small details of muscular devlopment.

This fight was known as the "Dempsey-Tunney fight of 1952." One light heavyweight against a not-too-large heavyweight. "Mr. M" the boxer and "Mr. R.M." the slugger. The boxer had not lost a fight since 1943 and was active for these nine years.

Mr. R. M. was totally undefeated and out of 42 fights boasted a record of 37 knockouts—a good strong puncher.

Both fighters had given exhibitions recently against lethal contenders in the heavyweight division and they were both given about the same appraisal by the sports world. To describe "Mr. M." display his moxie (boxing sense) he was clever, a counter-puncher and often relied upon a fast right cross which he used very efficiently. The man's age often showed up in his footwork. He lacked the spring which is usually found in most young prospective fighters. "Mr. R. M." relied on his bully young strength, throwing punches from almost all angles, mostly left hooks and right crosses, and it had been that type of fighting which spelled victory in his previous ring encounters.

Although this fight had been listed as somewhat of a "Dempsey-Tunney" fight, meaning boxer against slugger, it was not based on the ideal that age represented so much a part in the climax. The fight was staged at Yankee Stadium and a good crowd of enthusiasts were on hand for the evening's entertainment. The usual good summer's night was the outcome for the weather, not too warm and not too cool.

The gladiators climbed into the ring one at a time, both received great rounds of applause and cheering from the crowd. As usual, the National Anthem was played and it was only a matter of seconds before both fighters were receiving instructions from the referee. The ten-second warning was sounded, the crowd simmered down to a low tone and then the opening bell rang out.

Both fighters circled one another and after an exchange of fists, the onrushing aggresiveness of the younger contender started to work to his advantage and it definitely showed upon "Mr. M." The chase had begun and it was slugger rushing boxer, right cross against left jab. A fast first round showed weakening signs from the boxer who was tagged quite a few times to the head by the younger of the two.

Round two got off to a fast start—that is for the slugger who landed a series of short punches. They jolted the more experienced man and it looked as if it would only be a small matter of time and it was a small matter of time for the heavier punches had landed and the result lay on the canvas in a prone position. "Mr. M." felt the bitterness of defeat for the first time in nine years and once again the younger gladiator emerged triumphantly.

Today, "Mr. R. M." is at his prime, but "Mr. M's" is passed. The fight which had been a natural, good, crowd-pleasing affair was a jolt to many and to me, but time waits for no one and this was certainly proven that night. "Mr. R. M." earned a ticket that night to another bout against age and experience and it might figure just the other way when he meets the oldest of them all for the world's heavyweight championship this September.

Chaplain's Corner

"What's all this talk about faith?" thus with a puzzled mind has the question been asked many times.

The meaningless definition concerning faith scattered about like the sower his seed has gotten many all fouled up. Something like the following quotation, "In thine own self believe: all thou hast hoped for thou shalt yet achieve" has added more confusion to the situation. It's like pulling yourself out of difficulty by your own bootstraps. It's the kind of faith that makes foolish promises to the self with the understanding that things will turn out at last as they had planned. No wonder the word "faith" has added so much confusion to the state of mind which should have brought peace and comfort.

Note the difference in Holy Scripture concerning faith. It's like the lifting fog in the morning hours, permitting the bright warm sun to appear. With clearness and simplicity, yet with power and dignity it marches on from chapter to chapter.

"Now faith is the assurance of things hoped for, the conviction of things not seen. For by it men of old received divine approval. By faith we understand that the world was created by the word of God, so that what is seen was made out of things which do not appear . . . And without faith it is impossible to please HIM. For whoever would draw near God must believe that he exists and that he rewards those who seek him. By faith Noah, being warned by God concerning events as yet unseen, took heed and constructed an ark for the saving of his household; by this he condemned the world and became an heir of the righteousness which comes by faith. By faith Abraham obeyed when he was called to go out to a place which he was to receive as an inheritance; and he went out, not knowing where he was to go. By faith he sojourned in the land of promise, as in a foreign land, living in tents with Isaac and Jacob, heirs with him of the same promise. For he looked forward to the city which has foundations, whose builder and maker is God."

Facts About Fire

By M. R. SMITH

Throughout all ages, a frantically excited householder running through the streets yelling for help was the most common, and still used, method of sounding a fire alarm. Next came the persistent blowing of a cow horn by early New England colonists to call for help, or announce the approach of danger—Indians or fire in forests, field, and homestead.

Dutch colonists in New York, in the days of Peter Styesant, appointed watchmen whose duty it was to patrol the streets and lanes between sundown and sunrise. These watchmen were authorized to peer in windows to see all fire places were either black or their fires properly banked. These early American fire wardens (called "Prowlers" by the less respectful citizenry) were instructed to keep alert for fires. Fire watchmen were later used in many large cities. Every hour they stood on street corners and bawled out the time, state of weather, and the admonition, "See to your fires and candles."

With careful use and maintenance, electrical appliances offer one of the safest and most convenient means of illumination, power and heat for the home.

Buy "inspected" appliances. Underwriters' Laboratories' label on an appliance is your guarantee that the appliance has been tested and meets safety specifications as set forth in the National Electrical Code and the standards of Underwriters' Laboratories, Inc.

Treat flexible cords with care. Flexible cords with broken insulation can start fires. Cords should be replaced as soon as they are damaged or show appreciable wear, and wherever practicable should be replaced by fixed wiring. Cords in door jams or under rugs, cords heated by radiators or pipes, and cords punctured by tacks or other fasteners are liable to insulation failure.

Follow eletcric iron safety rules. Keep irons away from combustible material when not in use—keep current shut off except when the iron is in use —replace damaged cords. Thermostastic controls, with which most irons are equipped, do much to reduce the fire hazard of irons. Iron stands retard the flow of heat to the combustible ironing board, Pilot lights give warning that the iron is on.

Clean and oil motors. Oiling and cleaning motors maintains their efficiency and fire safety. Motors oiled periodically and kept free from dust and lint are not likely to overheat and burst into flame.

THE PLACE IS
familiar

The Navy Exchange building aboard this station, as aboard other stations, is one of the busiest buildings since it houses the Navy Exchange Cafeteria, the Navy Exchange Store, and Base Library and numerous offices.

The Navy Exchange store is used a great deal since it holds in stock practically everything that would be of need to its customers. For example, a person may buy anything from stationary, soap and silverware, to radios and golf clubs. Practically any time of the day it is busy serving the Navy personnel and their dependents.

The Navy Exchange cafeteria, which is in the same building, not only serves Naval personnel and their dependents, but also certain employees of the Airstation. Hot meals are served in cafeteria style, also a small counter which handles sandwiches, and fountain service is available for those who just wish a snack.

Topside is the Navy Exchange building is the NAS library which holds a large collection of fine books and magazines. Lounge chairs make it a comfortable spot for reading, and tables and chairs are available for those who wish to write.

These Hours Remaining

The men and women civilian employees of the Naval Air Station have just a few more hours in which to participate in the big Bond Drive which has been going on for the past several days. Now, we won't pretend that this is one of those "only once in a lifetime" deals you hear so much about. We know better and so do you. Bonds are good anytime and should be purchased throughout the entire year.

But, we all know this, too. The sooner those bonds are bought, the sooner they start working for you and for this country of ours. Buy 'em now!

Robert Bramson, AA — Reporter

A FEW QUICK LOOKS at a few of the scenes of the spectacular technicolor triumph, "What Price Glory," give a brief idea of what's in store for San Diegans who attend the special Navy Relief Benefit Premier of this motion picture Thursday, August 28. This big event, presented at the Fox Theater, 7th and B Streets, stars some of Hollywood's great talent including the irresistable Corrine Calvet, the scrappy James Cagney, and the top-notch terpsichorean Dan Dailey. All proceeds for this special premier will go to the Navy Relief Society. Reservations may be made by mail or in person at the NAS Public Information Office, Room 1, Building 8.

Get Acquainted

Meet LCDR Scheela

This week's column introduces LCDR Jerome J. Scheela, the Fiscal Division Officer aboard NAS, North Island.

LCDR Scheela received his commission as Ensign in the United States Navy in June, 1942, in Washington, D. C. He was called to active duty and attended the Naval Training School at the University of Minnesota in January, 1943.

He then attended the Supply Corps School at Harvard University. This lasted for a period of four and one-half months and after completing this school, he was shipped overseas and served as Staff Supply Officer of the Gun Fire Support Group, an amphibious group which aided British landing craft at Normandy. He held this position from September, 1943, to September, 1944.

Upon return from overseas, LCDR Scheela was assigned as Supply Officer aboard the USS DUPLIN AKA-87. He was aboard the ship when it was put into commission, all the while it was in operation, and when it was decommissioned on May of 1946.

From June of 1946 to August, 1949, he was assigned to the Bureau Supply Accounting on the Staff of the Fiscal Director in Washington, D. C. Previous to reporting to NAS North Island, LCDR Scheela was Assistant Fiscal Officer at the Pearl Harbor Naval Shipyard.

LCDR Sheela is a native of International Falls, Minn., and reported aboard NAS in September of 1951 and upon arrival was assigned as the Fiscal Division Officer.

Today Ray and Betty Minor of Electronics, and children head north for a visit with Mrs. Minor's parents in Oakland.

Nickel Snatcher Schedule

The "Nickel Snatcher" schedule is published herewith for the information of all concerned.

SATURDAY: From 0800 to 2000, every ten minutes on the hour.

movie menu

SATURDAY, August 16—"DREAMBOAT" starring Clifton Webb and Ginger Rogers. Clifton Webb, a stolid college professor, who at one time was known as a matinee idol of silent films, is horrified when he sees an old silent flicker in which he starred on his television screen. It isn't long before his pictures are shown more often and he becomes a national figure all over again. The belated reissues are sponsored by a perfume company, with Ginger Rogers, his former co-star, acting as commentator. Webb appeals to the U. S. Supreme Court to restrain the TV industry from showing his old pictures on the grounds that the films take away his rights of privacy and they are making a laughing stock of him besides interfering with his career as an educator. He's "Old Ironsides" on the campus, but he soon simmers down when the ancient silent star comes back to life.
SHORT: "FUN AT THE FAIR" and "HIGH-STEPPING TROTTERS."

SUNDAY and MONDAY, August 17 and 18—"UNTAMED FRONTIER" starring Joseph Cotten, Shelley Winters, Scott Brady and Minor Watson. Minor Watson, his uninhibited son Scott Brady and arrogant nephew Joseph Cotten, control a cattle empire and refuse to allow homesteaders to make use of free government range. In a street fight, Brady kills a man and is charged with murder. He dupes Shelley Winters, a saloon entertainer, into marrying him, since—as the star witness—she could not, as his wife, testify against him. Shelley wins the family's respect, but locks Brady out when she discovers the trick. Meantime, unrest spreads among the frustrated homesteaders. Brady gets into more trouble, this time by a cattle-rustling attempt and the fight against the feudal empire begins. Blood runs cold in the spearing saga of a fronier firebrand.
SHORT: "DOG TROUBLE" and "FARMING IN SOUTH CHINA."

TUESDAY and WEDNESDAY, August 19 and 20—"ONE MINUTE TO ZERO" starring Robert Mitchum and Ann Blyth. Mitchum and Blyth team up in a terrific Korean war film. It all starts when two colonels are military observers at Seoul when Korea is invaded. One of them falls in love with an American girl who is with the United Nations, but she, the widow of a soldier killled in World War II, refuses him for fear of becoming a widow again. This colonel is wounded and the American girl nurses him. At a crucial moment during the enemy break-through, the colonel takes a patrol behind enemy lines to shatter their lines of communications. One by one his men are killed. The other colonel commands planes coming to his rescue, but he has bad luck. A story of a tender romance set against a background of fighting, dying men in Korea.
SHORT: "SUZIE'S LITTLE BLUE COUPE."

THURSDAY and FRIDAY, August 21 and 22—"SKIRTS AHOY" starring Esther Williams, Joan Evans, Vivian Blaine and Barry Sullivan. "Batten down the hatches" and "Anchors Aweigh" mates, this one is about the gals who become sailors. Esther Williams, a spoiled society girl, joins the Waves to escape the boredom of her wealthy life. Reporting to the Great Lakes Training Station eight hours late she gets off on the wrong foot. She encounters Vivian Blaine, brassy New York salesgirl, who joined because of hopes of finding an old flame who joined the Navy three years before. Joan Evans, shy small-town miss who was jilted by her sweeheart, meets Williams and Blaine and they become "buddies." Esther goes all out in pursuit while on liberty for Barry Sullivan at a Chicago nightclub, she finds she has competition looking her in the eye by three Wacs and decides to take the situation in hand. She does and it leads to a Captain's Mast. Luckily she proves in the right and is excused. The fun has started with the gals who leave the guys at home.

electrons

By "Windy" Splichal

Thanks to Edna Wheeler for writing the Electronics column last week in my absence while I was attending the American Legion Convention in Fresno.

Jesse Anderson, wire section of 4259, is leaving us to go to the Naval Station. Good luck, and we'll all miss you.

Gertrude Paradise celebrated her birthday this week with a big cake and many well wishes.

Vernon Bearden leaves today for four weeks. She will enter the Quintard Hospital on Monday for an operation. Cards from her friends will help pass the time away.

Mr. Bernauer is back to work after a wonderful vacation of resting and taking things easy.

Virginia Johnson flew back to Michigan for a visit with relatives and friends.

Dan Gies returned from his vacation in Minnesota. He is glad to be back in sunny, but cool, California, after the terrific heat of the midwest.

While on a fishing trip with the Federal Rod and Reel Club, Jack Spradley, Inspector, took the jack-pot prize with a four and a half pound fish. It was big enough to win—but not big enough for a fish story.

Vickie Alvarez and her husband, Louis, spent last weekend enjoying the beauties at the Santa Barbara Fiesta.

COMCARDIV 15 TO PICNIC

On Saturday, August 16, the enlisted personnel of Comcardiv 15 are to have a beach party at the NAS Beach Recreational Facility. The festivities should commence at 1930 and last until 2300. Those personnel that attend are reminded to bring no more than one guest.

A wiener roast and hamburger barbeque are expected to be the main food for the evening with coke being the drinks for the participants.

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

COLUMN RIGHT—Is your column. Its purpose is to answer questions of general interest which affect your employment. Forward all questions to, "COLUMN RIGHT," c/o Industrial Relations Department, Building 415, or deposit them in the Beneficial Suggestion Boxes.

I was a permanent Civil Service employee recalled to active duty in September, 1950. I am now due for release in three months and have a certain question to ask concerning my re-employment:

Q. I have heard that I am entitled to a promotion after being re-employed for one month, is this true:

A. Employees absent in military service are considered for any promotions that they would normally have been considered for had they not gone into military service. There is no provision for promotion within one month after return to work.

Q. Am I entitled to get my job back when I report back for it?

A. You are entitled to restoration to the position you left provided that you apply for re-employment within 90 days of your discharge from military service. The employing activity is obligated to restore you to your former position within 30 days after you make application for restoration that you are still qualified to perform the duties of your position.

Q. Is it essential, that I present complete and factual information on a Form 57 (Application Form)?

A. Yes, several cases have recently come to the attention of the U. S. Civil Service Commission which indicates that some Federal employees and applicants for Federal employment do not fully realize the importance of truth and completeness on application Form No. 57 and other forms which serve as a basis for personnel actions.

Some employees who have made false statements on applications have stated that no one ever pointed out to them the necessity for honest and complete information and the penalties to which they might be subject.

False statements are the basis for dismissal from Federal service and may even lead to criminal prosecution. The signature of an applicant on an application form is legally as binding as an oath certifying to the correctness of the information.

BLACKSMITH D. C. Teel, of the O&R Dept. Plant Div., shapes a piece of iron on the drop-forging hammer, a modern blacksmithing tool.

PUBLIC WORKS' blacksmith Ralph J. Graham still finds use for the traditional anvil and hammer for some metal shaping jobs. Graham makes his own coke from soft coal, which he says is the "hottest, cleanest forging fuel possible." Graham and Teel, the only two blacksmiths on the station, have been in the trade for over 35 years.

naga news

Six members of the Skyraider's golf team are participating in the annual San Diego City Golf tournament. The first and second rounds were played last Friday and Saturday at the Municipal Course. As the Raiders now stand, still in the running are: Charlie Bartlett, Bud Schletter, Jerry Sota, Bob Tanner, George Aggas and Mike Kukhahn.

The final rounds of this tournament will be played at the same Municipal course this weekend, Saturday and Sunday, August 16 and 17.

'Paint Rescue Gear Red' Say Navy Research Men

(Continued from Page 1)

distances, the Navy scientists report. But they maintain that yellow is very likely to blend in with the sunlight at sea even at short distances.

"Moreover," they say, "under certain conditions all people, even with the best of color vision, are color blind to yellow and blue."

trading post

FOR RENT—Attractive bedroom, twin beds, beauty rest mattresses, adjoining bath. Also rear sleeping cabin, no cooking. Suitable for employed man. One block from transportation and beach. Phone Henley 3-3342.

CAR POOL—Car pool drivers share drive from vicinity of 71st Street, El Cajon and University Ave. to Std. Lot. 0645 shift. Phone H-6-8070.

FOR RENT—Temporary housing at "Brown Field" (90-day limit). Quonset Huts, 2 bedrooms; completely furnished—except linens. Rent—Enlisted men $43.50. Officers $49.50. Brown Field is located approximately 18 miles from Naval Air Station. For further information contact housing office, Ream Field. Phone H. 2-8111, Ext. 6.

LOST—Red coin purse on seven o'clock Ferry Monday morning. Had car keys, tool box keys and $12.95, also some cards. Not so anxious about money but would like keys, and cards back. If found contact M. C. Loomis, Electronics Division, O&R Dept. or call M-5737.

RIDE WANTED—From Fairmount and Poplar Sts. to Star and Crescent Ferry or to NAS via Ferry. 0730 to 1600 shift. Contact F. C. Senn at T. 1-8390 evenings or weekends.

WANTED—Two drivers for car pool, 0730 to 1600 shift. Vicinity of 54th St. between University and Euclid Ave. Contact Don Nuzzo at T-1-3839.

RIDERS WANTED—From Chula Vista via the Strand to NAS. 0715 to 1545. Phone G-7-0394.

RIDE WANTED—Ride wanted for 3 or will join car pool which has room for 3 people, from Chula Vista, Hilltop Circle, down "J" Street, via Silver Strand to North Island. Shift 0745 to 1630. Phone Hancock 2-1683.

FOR RENT—Two bedroom unfurnished home, in Redwood Village, very close to the Chollas Heights Radio Station. Two children and pets acceptable. Landscaped, venetian blinds and stove furnished. Water. $100 per month. Available about Sept. 17. Contact Lt. Henshke, Communications Office Bldg. 319 or at 6092 Streamview Drive, San Diego.

WANTED—Room and bath with good family, or small apartment wanted. Man with good references, employed at the Naval Air Station. Phone J-2584

RIDE WANTED—Ride wanted from 3,000 block and Fairmount Avenue to Star and Crescent. 0800 to 1630 shift. Contact W. Westergard in Bldg. 805 or call T-1-3218.

FOR RENT—Large room, twin beds, separate entrance, connected with bath. For one or two persons. Phone H-3-4497 or contact 1608 Miguel Ave.

RIDER WANTED—To Sioux City, Iowa. Leaving Sunday. Call T-1-5803.

No Spreading Chestnut Trees For The Island Blacksmiths

"The Smith, A Mighty Man Is He" . . . and he is still doing a mighty job at NAS despite the absence of horses and the poetic spreading chestnut tree.

With all the progress in industry, the demand for the smithy is far from being eliminated. The station's two employees, still practicing the venerable metal art, will attest to this fact. When one of the liberty boat's propeller shafts needs straightening, it goes to Ralph J. Graham, Public Works blacksmith, for repair. When machine tools need sharpening, tempering, or dressing, they are sent to O&R's blacksmith, D. C. Teel. These are only two examples of the numerous jobs which require their skilled attention.

Graham, who has been at NAS since 1939, entered his trade in 1910. For 23 years he worked in the rough and tumble mining towns of Globe and Miami, Arizona. "Never shod a horse in my life," says the PW smithy. His work in those mining towns was devoted mostly to repair of mining equipment and fabrication of tools.

Teel, who went into the business at Rochester, Ind., in 1915, was a general blacksmith before coming to NAS seven years ago. He did horse-shoeing but doesn't lament the fact that there are no horses around the Island. "It was no picnic," he declares, "wrestling with a big-footed draught horse, which might decide to sit down on you."

What's the future of the blacksmithing trade, they were asked? Graham claims that industry will always need the smithy's services, especially for tool making and dressing, heat treating and tempering, and die and punch hardening. Teel agrees and adds that traditional horseshoeing business is far from dead. Riding stables and race tracks need the big-muscled man and his forge.

Skyraiders Tally Only Touchdown Against World Champion L.A. Rams

Mancuso Scores One and Only

JIM MANCUSO RINGS UP THE ONE AND ONLY TD for the forces of the Navy in the Navy Relief game played last Friday night before 22,000. In the play shown, Mancuso has just plowed seven yards for the only service team score ever, against the Rams. Shown trying in vain to hold the Skyraider fullback, are: Number 42, Ram halfback Herb Rich; and Bob Hecker, number 57, Don Paul also of the Rams. The final score was 45-6 in favor of the world champion Rams, as they extended their victory string over San Diego area service teams to two years straight. In the first half of the game, the world champion Rams encountered the Bluejackets from NTC. In that game, the NTC men showed a stout defense holding the Rams to 10 points. However, only the Skyraiders could score on the highly publicized pros.

SPORTS

Skyraiders Travel 52 Yards in First 53 Plays; Mancuso Scores

By Bill Feeney

Last Friday night, a very rusty Los Angeles Ram team rolled with ease to a 45-6 victory over the combined efforts of the Naval Training Center and our own Naval Air Skyraiders. The crowd of 22,000 saw the Ram team look only fair, even considering it's had only four weeks of practice; however, this same crowd saw a Ram team who, with a tremendous amount of work, will be odds-on favorites to repeat as World's Champions.

'Raiders Score Only Navy TD

The Rams, who were held to a hard earned 10 points in the first half, came on the field in the second half destined to use the 'Raiders as a springboard for a slaughter. At this time, however, the surprise of the game was about to be unveiled.

The Rams received the kick-off, and after two running plays, they attempted a pass from Van Brocklin to Elroy "Crazylegs" Hirsch. 'Raider defensive halfback Mark Markichevich, with a sudden burst of speed, intercepted the aerial, and the Airmen had the ball on their own 48.

First Play, "Ace in Hole"

On the very first play, the 'Raiders used their "ace", and momentarily took the Rams, as well as the crowd, by storm. Bill Hulsey took the handoff from center and shoveled the ball to "Manny" Aja as though an end sweep were developing. Then Aja faded back, and before the Rams or anyone else knew what was happening, a 40 yard pass to Jack Bighead, former Pepperdine star, had been completed. On the following play, Hulsey flipped a jump-pass to Bighead, and the 'Raiders had the ball 2nd and five on the seven. The next play netted the Navy's only touchdown, as Jim Mancuso took a handoff from his fullback position and plowed the seven yards between tackle and guard. The conversion was no good, but the 'Raiders had left their mark on the hearts of the cheering crowd.

Rams Begin to Click

After receiving the shot of adrenalin provided by the Airmen's touchdown, the Rams began, for the first time, to look like their 1951 selves. They tallied 5 touchdowns in the last two quarters, and the score soared to 45-6.

Following the Skyraiders' score, the Ram's V. T. Smith punched over from the three for the first of five quick touchdowns. Waterfield passed to Smith for 24 yards and a score; the same quarterback then passed to Tommy "Cricket" Kalmimir for another; then Norm Van Brocklin took over and flipped one to V. T. Smith and Skip Quinlan for the final two scores.

Bluejackets Show Stout Defense

The opening half gave the vaunted Bluejackets a chance to show off their loads of material, and they gave the lethargic Rams a run for their effort. The Rams were held scoreless for 11 and one-half minutes, but then the fabulous Mr. Waterfield hit Tom Fears on the 20, another pass to the 5, and then former UCLA star "Moose" Myers went over for 6.

It was just after Mr. "Pro Football", Waterfield that is, kicked a 40 yard field goal that the NTC men began to show signs of a scoring drive. From their own 5, with the aid of their third-string quarterback Don Bahrman, and despite two heart-breaking penalties, the 'Jackets pushed down to the Rams 5, but then Woodly Lewis intercepted a pass in the end zone to stop the threat.

Recruit Cheers Add Color

The color of the game was greatly added to by the 4,000 men from the Training Center's Recruit Corps. These massed sailors, along with the bands from MCRD, NTC, and Airpac, and including the cheer-leaders of our own Skyraiders and NTC, provided a pre-game and half time spectacle which will long be remembered.

Experience Gained Invaluable

Although the final outcome of the game was never in doubt, the experience gained by both teams will be invaluable. The Skyraiders in particular had a chance to test their "X" quantity. After the game, it could be honestly said that the Naval Air Skyraiders showed tremendous spirit and an unbeatable mental attitude. There will be many surprised teams in this Eleventh Naval District Football League before the season ends in December.

corner on sports

By Bill Feeney

THE RAMS FROM THE SIDELINES

When the Skyraiders met the highly publicized Los Angeles Rams last Friday night, the 'Raiders along with the Bluejackets from NTC exploded the myth that the "Pros" were mechanical giants. The Rams, to be sure, are a great team, and to anyone who saw the game, the Ram team will be difficult to recognize after another month of workouts. However, it is this writer's opinion that any of the pro teams, which were slaughtered by the Rams in '51, could have reversed that decision the other night.

TOM FEARS DISAPPOINTING

Tom Fears, one of the most dreaded pass-catching ends in football, and the record holder of number of passes caught as well as yards gained from forwards during one season, showed an extremely bad case of "out of shape-itis." Three times Mr. Fears dropped perfect passes thrown from Waterfield, any of which the 'Raider ends would have easily gobbled up.

WATERFIELD, WATERFIELD, WATERFIELD

Against the Bluejackets, who held the "Champs" to 10 points, Bob Waterfield was the difference between a 0-0 and a 10-0 halftime score. He kicked a 40-yard field goal; then he engineered a drive which was culminated by a pass to V. T. Smith to chalk up 6. Needless to say, the extra point was good. Who kicked it? Waterfield, of course.

OUTSTANDING SKYRAIDERS INCLUDE HULSEY, BIGHEAD, AND PHILLIPS

Among the Skyraiders who showed to advantage against the professional opposition, were: Bill Hulsey, who called a fine offensive game, and who was very sharp during the 'Raiders opening drive; Jack Bighead, whose pass-catching made possible the only Navy score of the game, and "Trigger" Phillips, who, the majority of the time, drew the assignment of stopping the hard-charging Ram fullback "Moose" Myers.

ISLANDER PHOTOG SEES ACTION

Phil Healey, North Islander sports photographer, saw as much action during the Ram game as many of the players. While in position for an action shot, an end sweep developed. As the ball carrier and his blockers raced toward the sideline, Healey stood his ground for the shot of the night. Then it hapened; the photog was hit high and low. Healey went this-a-way and his camera went that-a-way. Latest report shows no serious damage to the shutter-bug, but the camera has seen better days.

Air Pac Sports

By Bob Swisher

VC-11 moved a game closer to the Major league softball flag this week while Ready Issue took the lead from VP-46 in the Minor loop of the Airpac intermural softball circuit.

The undefeated Comets scored a 5-0 shutout over Fasron-7 Tuesday to lift their record to 6-0. This is one game better than second place Fasron-110's 5-1 mark. The 110ers, beaten only by VC-11 in second-half play, gained a forfeit victory over VC-35 Monday.

FAW-14, winners of the first half, edged back into contention by squeezing past Faetupac 3-2. The win lifted them into third place two games off the pace.

Rebounding from an opening day defeat, Ready Issue smashed VP-46 by 10-2 to take over the Minor league leadership. VP-46 had held the top spot with four straight wins. The victory gave the Storekeepers a half-game bulge with five victories and one loss.

Comairpac Personnel slipped into a second place tie with VP-46 by winning an 18-15 slugfest from VS-23. Pitcher "Mac" McDaniels climaxed a four-run seventh-inning rally by pounding a three-run homer.

* * *

Entrees in the touch football league are faced with the problem of stopping the defending champion VC-35 powerhouse. As of Wednesday of this week, the 35ers had rolled to four straight wins, scoring 78 points while holding their opponents to six. Their latest victim was VS-23 in a 26-0 romp.

VP-42 and Faetupac also remain unbeaten with two wins each. The Raiders dumped Fasron-7 by a 20-6 score Monday while VP-42 was idle.

Captain's Cup Lowdown

By WALT BREELAND

The NAS Boat House won top honors in the intermural program this week with R. C. Wise taking first place in the horseshoe pitching singles. Joe Hamernick of Ordnance took second place in this event. As for the steel shoe doubles, Boat House again came in first with Ordnance placing second.

One other event, ping pong, will be played off the last of this week. We will have these resudts for you in next week's issue.

This year's touch football games should prove to be exciting as the competition proves to be evenly matched. Two teams that this writer has watched work out, Supply and Special Services, both have a good turnout of players and promise to be powerful teams this year. Incidentally, Supply won the touch football title last year.

We will try to get more touch football news and also the results of the ping pong tournament by the next issue of the North Islander.

Sixth Ream Variety Show Scores Hit with Station Audience Wed.

Utility Wing Variety Show number six, "U.N.M.," (under new management) played at the Ream Theater on Wednesday, August 6.

LT Jack M. Stevens warmed up the audience before the show with a comical burlesque of a radio commercial. He then turned the show over to Donna Dee Ball who MC'd the first half of the program.

The many beautiful girls were furnished by Nina Toles, who was accompanist during the evening.

Highlights in the first half were Jerry Tremble and her amazing ability to twirl a baton, the Can Can chorus line, Shirley Wright and her accordion which was a show stopper, and Margi DeCosta's singing which again had the audience clamoring for more.

Ream's own Dean Jones went into a couple of numbers to give the girls time to change costumes and stopped the show again.

After the finals of the Nina Toles show, LT Stevens introduced Mary Hickman and her All-Girl Orchestro.

Mary in turn introduced Don Perdue, MM1, of Sub Group Two, who gave a highly entertaining report of battles in Korea with sound effects, and a comical version of a Jet experimental flight here at Ream, also with sound.

Mary and the girls started the music with "Gonna Rock This Joint," which they really did. All the girls in the band, Mary on the bass fiddle, Binny on the drums, Shirley on the trumpet, and Edie on the piano, were featured it at least on number before the close of the show.

Mary Hickman and her All-Girl Orchestra appeared through the courtesy of Ray Martin, club owner in National City, where they are playing nightly.

This was the first show produced by Dean Jones, "TNM," ("the new manager"), after taking over from Chief Proctor, "TOM" ("the old manager") who was recently transferred to Albuquerque, N. M..

The show was highly successful and plans are underway for another big show in early September.

MARY HICKMAN and her All-Girl Orchestra at the Ream Field Variety Show.

HU-1 'Copter Crew Saves Boy from Drowning in Bay

Last Friday afternoon while pilots aind crewmen of HU-1 were conducting practice helicopter rescue operations in the South Bay area of the Silver Strand, a "drowning boy" turned it into the real thing.

The helicopter pilots and crewmen were busy practicing hoisting the crewmen in and out of a life raft when a lad of about 8 years called out for help. The boy was a member of a beach party and had drifted out into the bay about 100 yards in the inner tube he was riding; somehow he lost his hold on the inner tube. The wind carried the tube across the water and the lad soon tired swimming after it.

His call for help was heard by the crewmen in the life raft some distance off. J. L. Stitt jumped from the raft and started for the boy. The boy's brother was on the beach and also saw that his younger brother was in distress and started swimming out.

The radio-control jeep which was controlling the helicopters saw that neither Stitt from the raft or the boy's brother would be able to reach him in time. Although the boy seemed to be a fairly good swimmer he had tired and had gone under once or twice.

The control jeep radioed one of the approaching helicopters, which was piloted by LTJG L. D. Nelson. Nelson immediately maneuvered his helicopter to a hover over the drowning boy. Hoist operator J. D. Saylor lowered crewman L. H. Brown into the water alongside the boy and he was towed to the beach.

He required no first-aid and showed no ill effects from his narrow escape. However, both the boy and his brother were thankful that the helicopter was "Johnny-on-the-Spot."

To complete the story another helicopter used its power rotor blast to send the inner tube across the water onto the beach.

Please Note!

Public Information Officers are quite often looking for a crusade or an unsung hero to write about, but this P.I.O. is well supplied with unsung heroes. The reference is made to the members of the touch football team whose efforts have given us a clean slate with four wins and no losses, in games with the other members of the FAD Ream intra-squadron competition.

Contrary to the softball team, whose every play is cheered by bleachers full of enthusiastic spectators, the football squad has furnished its own morale impetus by way of the victory route, almost completely lacking in support from the bleachers. Those who fail to appear at the games are missing a fine show of passing and running sparked by LTJG Bob Ulm and fine defensive play by Vache, Wild and Lt. Bergsma. Let's give our football representatives some support and see the already perfect record remain so. A good crowd at the netx game on Friday, August 22, will make the heat, dirt, and expended effort a little more worth while.

LT W. J. HAMPTON AND T. M. McCOLLUM are shown with their FAD Ream and ComFair San Diego Tennis Championship trophies that they were awarded by CAPT R. W. D. Woods, Commander Fleet Air Detachment Ream.

REAM Border Lines

ALF REAM — SAN YSIDRO, CALIFORNIA

Show-Case Planes

Utility Squadron THREE on static display at the recent National Model Airplane Meet at Los Alamitos Naval Air Station.

VU-3K Pistol Team Still Undefeated

Utility Squadron THREE's Pistol team has everything its own way with eight wins and no losses, with but four contests left in the schedule.

Using the 1952 National Match rules, the matches are held at the Pistol Range on the southwest corner of Ream Field. LCDR Lyons, team captain, Chief Hester, Chief Fuller, Graupman, Webb and Brodt are doing an outstanding job representing VU-3K.

HU-1 Unit Five Arrives From Korea Aboard CV-47

Arriving at San Diego, on board the aircraft carrier USS PHILIPPINE SEA last Friday was Helicopter Unit Five of HU-1, based at Ream Field.

During their tour in the Korean area they effected eight rescues in addition to the various other utility services such as personnel transfers and mail delivery.

Tennis Trophies Awarded By CAPT R.W.D. Woods Friday

Captain R. W. D. Woods, Commander Fleet Air Detachment, ALF Ream, attended the 8 August HS-2 Personnel Inspection and presentation of awards to present the athletic trophies earned by the tennis team.

Captain Woods congratulated and commended the tennis team and the squadron's overall athletic endeavor in a statement which said in effect: This squadron has won the first ComFair San Diego championship outright for Ream Field by defeating the Fleet Air Detachment, San Diego, two straight times, 5-0. The squadron is favored to win the Fleet Air Detachment Ream Athletic excellence trophy and have the most active athletic program on the field to win over ComFair.

The tennis team won both singles and doubles matches to win over ComFair San Diego. Those present to accept awards were LT W. J. Hampton and T. M. McCollum, PNSN, who received trophies for singles and doubles wins in both FAD Ream and FAD San Diego. LT R. J. Gill, Special Services Officer, accepted the team trophies which will grace the squadron's trophy case.

Chapel Services will be held at ALF Ream Sunday as follows:

Protestant Services 0930
Catholic Services 1030

Answer to Puzzle

Annual Officer Luau Saturday

August 23 will mark the date for the annual Officers' Luau which will be held at the Naval Air Station Commissioned Officers Mess, (open).

All officers of all branches of the armed forces, retired and reserve, as well as active, and their guests are cordially invited to attend.

Dinner will be served from 1900 to 2200 with dancing and other festivities in true Hawaiian tradition continuing from 2200.

Entertainment for the event includes Johnny Ukulele, ukulele impressionist; Johnny Bright and his Hawaiian Orchestra; Vic Vincent and his orchestra; Kim and Lualla "Hawaiian Sampa"; Ethel, hula comedian; and Kim Lualla and Grace, the "Hawaiian Skies."

Informal Hawaiian costume is recommended to those attending. Reservations, at $2.75 per person will be limited to the comfortable capacity of the Club.

'What Price Glory' Premier Takes Place Next Thursday

There are still many excellent seats available for the big premiere showing of the motion picture "What Price Glory" at the San Diego Fox Theatre, Thursday, August 28. But reservations are coming it at a rapid rate, and time is short for those who wish good locations in the theater.

Rated among the all-time great films, "What Price Glory" is being premiered for the benefit of the Navy Relief Society through the cooperation of 20th-Century Fox, makers of the film. This finale of the summer series of headline Navy Relief events is a fitting climax to the fine entertainment which the Society has brought to the public of San Diego and to the service population in this area.

Reservations may be made by sending check or money order (or bringing in the cash) to the Public Information Officer, U. S. Naval Air Station, San Diego 35, California. Tickets are $1.25 and $2.50. All seats will be reserved.

A convenient reservations form is printed on page 2 in order to facilitate those people wishing to make reservations by mail.

King of Iraq to Visit Oriskany

Seventeen-year-old King Faisal II, of Iraq, will arrive in San Diego next Thursday for a 24-hour visit aboard the aircraft carrier USS ORISKANY docked at NAS, according to word received in San Diego recently.

The young monarch, accompanied by his uncle, the regent Prince Abdul Ilah, arrived in New York City August 12 for a five-week diplomatic visit in this country during which he will study irrigation and agricultural projects.

Shortly after his arrival in the United States, the youthful king lunched with President Truman and several domestic and foreign dignitaries in Washington, D. C.

A 21-gun salute will greet King Kaisal upon his arrival aboard the ORISKANY. He will remain aboard the carrier and will make no public appearances during his visit. He will depart from San Diego the following day.

The NORTH ISLANDER

U. S. NAVAL AIR STATION

Vol. VIII SAN DIEGO, CALIFORNIA, FRIDAY, AUGUST 22, 1952 No. 34

USS Bataan Arrives at North Island Next Week

Arriving in Pearl Harbor Tuesday was the light aircraft carrier USS BATAAN which is due in San Diego the middle of next week. The carrier entered the fighting in February, 1952, with Commander Carrier Division 15, RADM D. S. Cornwell, and Air Anti-Submarine Squadron 25 with its Grumman AF Guardians aboard.

These aircraft conducted both air and surface anti-submarine exercises in the Sea of Japan on a twenty-four hour basis. The AF Guardians are the largest single-engined carrier-based planes in the world.

Comcardiv 15 and VS-25 departed the carrier in April, and Marine Attack Squadron 312, the "Checkerboard Squadron" came aboard. Old hands in the Korean fighting, the Marine aviators knew the terrain and settled down to steady pounding of communist targets in North Korea.

Last June, a quartet of these Leatherneck fliers caught 1000 enemy troops in the open in a bivouac northwest of Pyongyang and killed an estimated 300. Flak was heavy, but none of the raiding Corsairs were hit. While aboard the BATAAN, the Marine Corsair pilots also provided Naval gunfire spotting services for warships engaged in bombardment of Korea's west coast positions. When the BATAAN left for home, the Marine squadron transferred to another carrier to continue harassing the enemy.

During her Korean tour, the BATAAN worked with a destroyer screen that was truly a United Nations unit. From time to time it consisted of ships from Australia, Canada, England, the Netherlands, and the United States.

September 5 Will Be Blood Donor Day Here

Friday, September 5, will be Military blood donor day on the Naval Air Station. Blood is urgently needed now, for emergency use among wounded undergoing treatment and for replenishing reserves for overseas use.

Volunteers are urged to submit their names to division, or personnel officers, who will contact CWOHC J. J. Holewinski, at ext. 1321.

Prospective donors are advised that they may have black coffee, dry toast, and all fruit juices prior to giving blood.

Training Division Adds More Classes for Island Civilians

The Training Division, in an effort to serve more fully the employees of the Naval Air Station, is making available a wide variety of interesting classes for after-hours participation.

Many people realize that opportunity develops as a result of continued education and self-development. With this thought in mind, the Training Division will start classes this September in the following subjects:

Shop Mathematics
Electronics
Welding
Supervision (Complete background of Supervisory principles)
Machine Shop Theory
Aircraft Eigine Theory
Jets
Blueprint Reading (Including related trade drawing—Mechanical Drawing)
Electricity
Machine Shop Mathematics

These classes will meet twice a week. The hours and days can be arranged to suit the convenience of the group.

For those persons interested in self-improvement, but who find it difficult to attend the above classes, correspondence courses are available in Shop Mathematics, Electricity, and Jet Engine Theory.

To register for these classes, or for further information, please call Ext. 658 or contact the personnel in Bldg. 5.

Valley Forge Engages in Anti-Submarine Exercise

The boys who fly them off the Navy's flattops in dark of night, pea soup weather, and other hazardous flying weather, the anti-submarine warfare aviators, had a little different base to fly from last week.

The USS VALLEY FORGE, with Air Anti-Submarine Squadrons 21 and 871 aboard, and in company with eleven destroyers and two submarines, returned to San Diego Friday after a week-long problem at sea of anti-submarine warfare exercises. The operation was under the overall command of RADM D. S. Cornwell, Commander Carrier Division 15.

It was the Navy's first use of a large Essex-type carrier, such as the VALLEY FORGE, on anti-submarine warfare exercises. It was explained that due to absence of a CVE or CVL type carrier, such as commonly used for this work, from San Diego area, it was necessary to use the VALLEY FORGE, recently returned from a third tour of Korean duty, for this exercise. Then too, by use of a large carrier, two anti-submarine aviation squadrons could be employed in the vital and much needed training.

"Anti-submarine warfare training," RADM Cornwell stated, "is an essential part of the training of today's Navy. It represents the ultimate in coordination, since all elements of the Navy are involved, air, surface, and under-sea elements, and presents an intregation of fighting forces that demands the best of personnel and ships. All units involved are deserving of high praise for the successful conclusion of this exercise."

No actual details of training involved are available, since anti-submarine warfare training is of necessity highly classified information.

Ships other than the VALLEY FORGE involved were the destroyers PORTERFIELD, HALSEY, POWELL, MANSFIELD, COLLETT, MADDOX, S. N MOORE, G. K. MACKENZIE, LAWS, TAUSSIG, MARSHALL, and GREGORY; the submarines POMODON and BLACKFIN.

Variety Show To Be Staged At NAS Tues.

A variety show sponsored by the East San Diego Navy Mothers Club will be staged at the NAS theater on Tuesday, August 26.

The show includes a cast of 30, and is scheduled to last for one and one-half hours. Starting time for the show is 1930. Comedy acts, dancing and singing are just a few of the many acts which will be featured at the variety show.

One of the main attractions of the show will be the dance numbers, which will feature girls, girls and more girls. Don't forget now, August 26 is a date to remember.

New S&F Officer Assumes Duties at Naval Air Station

Captain Harry C. Graves, SC, USN., assumed duties as the Supply & Fiscal Officer for Naval Air Station August 8. It was in the nature of homecoming for the Captain, who had served previously as Staff Supply Inspector on the staff of ComAirPac, and is familiar with North Island and San Diego. He is a West Coast man, calling Oregon his home state. Captain Graves was detached as S&F Officer, NAS Pensacola, Florida, July 18. He had served in that capacity for three years.

During World War II, Captain Graves' assignments included tours as Supply & Accounting Officer with additional duty as Staff Supply Officer, NATC Patuxent River, Md.; Asst. Staff Supply Officer, Fleet Air Command, South Pacific; and Supply Officer, NAS Pasco, Washington. After his tour with Comairpac, he served a post-war tour as Supply & Fiscal Officer at NATC, NAS Patuxent River. Captain Graves then attended the Naval War College, Newport, R. I., prior to his duty at Pensacola. He is a graduate of the U. S. Naval Academy, class of 1934.

CAPTAIN H. C. GRAVES

Captain Graves replaces Captain C. M. Boundy, SC, USN, who was detached last month to attend the Industrial College of the Armed Forces in Washington, D.C. During the interim period, Commander H. H. Hunt, SC, USN, Sr. Asst. S&F Officer, was in charge of the department.

Commander R. S. Klunk, SC, USN, relieved Captain Graves at Pensacola.

Donkey Ball Game At Naval Air Mon.

Donkey ball game will take the limelight here at NAS on Monday, August 25, when the NAS Skyraiders meet Fleet Air Wing 14 at Murray Field.

For those who have never seen a Donkey softball game, it unfolds an entirely new version of softball. It's softball at its funniest and also at its roughest, for the mere fact that donkeys are the proverbial stubborn animals.

Everyone on the team is equipped with a donkey except the pitcher, catcher and the batter. If the batter hits the ball he gets on his donkey and takes off for first base, that is if the donkey doesn't have different ideas.

The game is sure to bring a smile to anyone's face. In fact, a prize will be given to any person who can sit throughout the entire game without smiling.

Courses in TV, FM, and Radio Added to USAFI Curriculum

A new USAFI course in Television is designed to give the student an understanding of the basic principles of a television system and the various circuits involved. It begins by presenting an outline of the various electronic units found in a television system. In each succeeding chapter, a different section of the television receiver is discussed. The function of every part in relation to the entire receiver is discussed, The course includes material on the intercarrier sound system and color television.

The television course is available for self-teaching and group methods of study as MB 893. It is available for correspondence study as CB 893. Students who wish to enroll for the correspondence course should enroll in CB 893. Students who wish to enroll individually and not submit lessons should enroll in MB 893. Eeither course may be completed by passing the end-of-course test.

The purpose of the course is frequency modulation is to instruct the student in a relatively new type of radio transmission and reception. The student will learn the basic fundamentals of frequency modulation as well as the operation of FM transmitters and receivers. The methods used in alignment and servicing of FM receivers will also be studied.

The frequency modulation course is available for self-teaching and group methods of study as MA 892. It is available for correspondence students who are interested in enrolling for the correspondence course should enroll in CA 892, which included sixteen lessons. Students who are interested in individual enrollment, and who do not wish to submit lessons should enroll

(Continued on Page 6)

Get Acquainted

Meet CHBOSN Mainord

This week's column introduces CHBOSN W. S. Mainord, the Fire Marshal of the Naval Air Station.

Mr. Mainord entered the United States Navy in September of 1935 and received his basic training at the Naval Training Center, San Diego, California. Upon completion of basic training, Mr. Mainord reported for duty at the Fleet Air Base in Pearl Harbor, and there was assigned to A&R. But Mr. Mainord being an old farm boy, with a love for the out-of-doors, asked to be assigned to some outdoor work, and so was

CHBOSN W. S. MAINORD

transferred to the boat house. Mr. Mainord remained at Pearl Harbor until September of 1939, when he was assigned to Patrol Wing 2, as ADM Bristol's barge coxwain and later returned to the United States.

Mr. Mainord reported to Comcardiv 1 on October of 1940, and while attached to Comcardiv 1 he served aboard the USS LEXINGTON and the USS SARATOGA. He remained with Comcardiv 1 until January of 1942, when he was assigned to Fort Island, Pearl Harbor. On April 1, 1942 he again reported aboard the USS LEXINGTON and remained aboard her until the time she was sunk on May 8, 1942. CHBOSN Mainord then returned to the United States aboard the USS CHESTER, which served as an escort for two transports returning to the United States. He then returned to Fort Island aboard the USS CHESTER.

Mr. Mainord was transferred to ComAirPac on July 1942 and here served as boat coxwain and later was put in charge of the boat house. He remained here at Fort Island until June of 1944.

Mr. Mainord rose to the rank of Warrant Officer on April 15, 1944 and was then ordered back to the United States for flight deck training. He received this training with ComFair, in San Diego aboard several CVE's. Upon completion of this training he received his orders to report aboard the CVE-16 the USS VASAU, and remained with the ship until it was decommissioned on October 1946.

He was then assigned to the Under Way Training Unit San Diego, California. Here at the Sonar School, Mr. Mainord taught damage control and seamanship up until the time he was transferred on July 1948.

Mr. Mainord reported aboard the USS BOXER CV-21 and there served as flight deck Boatswain. In May of 1950 Mr. Mainord met with an accident and suffered a broken leg. After being transferred to several different hospitals, ended up in the Balboa Hospital, San Diego, California.

From Balboa Hospital Mr. Mainord was transferred to NAS, North Island, for duty and at first was assigned to Public Works as Water Transportation Officer. Then on June of this year, he reported to the Security Department and there was assigned to his present position as NAS Fire Marshal.

New Day Dawns

Paul Howard Day arrived aboard 4415 Illinois Street, San Diego, this week after a brief stay at North Island family hospital, where he was born August 15 (payday) to Mrs. Mary Margaret Day.

Father, Ralph Edward Day, DMI3, of Public Information Office, who received this extra dividend on payday, is proudly passing out the cigars this week . . . passed them out twice in the NORTH ISLANDER office, that's why the special treatment of this story.

electrons

By "Windy" Splichal

Congratulations to Emma and John Allen on the newest arrival in their household. His debut was made at the Mercy Hospital recently and tipped the scales at 8 lbs. 7 ozs. His 13 month old brother, John Allen III thinks that Walter David Allen is a wee bit small to romp and play with.

Nikki Avery is back to work in Production Control after an absence of five months. We are glad she decided to return to NAS.

Any veterans who desire POW Compensation Forms may obtain them through J. P. Tate by calling him at ext. 630.

Helen Patton just returned from San Francisco where she spent two weeks visiting with old friends.

Iris Johnson has returned to work after two weeks vacation. She spent one week of her leave at the Veteran of Foreign Wars Convention, and the other week entertaining her parents who were visiting here.

Toni Vasque is back to work after a three weeks vacation. She and Joe and the children visited various parts of California Oregon, Washington, and Canada, having a grand time.

Wm. E. Burns, of Cable Shop is very happy indeed. His brother came from Waycross, Georgia to visit him. They had not seen each other for the past 26 years.

A surprise party was given to John Dudley Downs by members of the Cable shop on Monday. They had lunch for him and a big birthday cake. All he had to say was "Today I am a Man."

Final Results In Carnival Race

Lt. Halvorson Is New I&E Officer

On August 18, LT J. T. Waldron will be relieved of his duties as Range Officer, Operations Department (collateral duty as Information and Education Officer, Administration Department), and will assume the duties of the Assistant Security Officer.

Relieving Mr. Waldron is LT (W) M. A. Halvorson, who has been assigned duty as the Information and Education Officer, Administration Department, with collateral duty as Wave Representative.

Comcardiv Fifteen Picnic Saturday

Last Saturday, August 16, the enlisted personnel of Comcardiv 15 held their annual beach party at the NAS Recreational Beach facilities. The festivities began at 1930 and continued until 2300.

The refreshments for the party included a wiener roast along with a hamburger barbeque. Beverages were also served. Many forms of entertainment were on hand for those who wished to make use of them.

Cerebral Palsey Victims To Get Glass Profits

In a few weeks NAS personnel will have the opportunity to buy a novelty in high ball glasses and at the same time help to fight the dreaded cerebral palsey. This is another of those wonderful Bob Hope enterprises, to help a worthy cause. A certain amount of money received from the sale of these glasses will go toward combating cerebral palsey.

So when these glasses go on sale in the Navy Exchange store remember that by buying them you are not only buying something new for the home, but you will also be helping someone who needs that help badly.

Traffic accidents since 1900 have killed almost twice as many Americans as have been killed in action or died of wounds in all the nation's wars.

La Belle Femme Skunk Fatale!

Found: One Skunk! No, we're not joking. If you don't believe us, just ask the men and women in the NAS O&R Locomotive Shop, Building 315, who had the honor of being hosts for the two-striped visitor during his hour-long visit Tuesday. Fortunately, Mademoiselle (?) Skunk's facilities for chemical warfare had been de-activated as the shop members found out when Robert Mowrey, P.W. Machine Shop employee, retrieved her from her hiding place beneath a bench. If not claimed, she will become mascot of the shop. (P.S.—In case you don't know French, "La Belle Femme Skunk Fatale" means "The beautiful and fatal Skunk!")

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

Q. Why is San Diego, seemingly, always the last installation in the District to hold wage surveys?

A. The Navy attempts to schedule wage surveys as prevailing wages in private industry change. There is no set priority on which wage area will be surveyed first. During the past two surveys, the surveys were not started until wage contracts in industry were completed or near completion. If surveys were conducted before wage agreements were made, this and other San Diego Navy installations would not benefit from increases which may result from these agreements.

Q. What is the reason for the excessive length of time taken in this present wage survey?

A. There is no local information available as to why the current survey results were delayed. However, it is assumed that because the results had to be submitted to the Wage Stabilization Board, it took longer than normal to receive the results.

Q. Is it possible to have a sliding scale contingent upon the cost of living?

A. Present methods of setting pay for the ungraded service by wage surveys is the result of Congressional Act. As long as the law remains as it is, there is no possibility of a sliding pay scale contingent upon the cost of living.

Q. What does it mean on the vacancy announcements "veterans' preference is not required"?

A. Credit for veterans' preference is allowed only in "Open Competitive Examinations." There is no provision for allowing veterans' preference credit in station promotional opportunities.

Q. Can a man returning from military furlough open the register for leadingman and quarterman?

A. Yes. He should file application with the Board of U.S. Civil Service Examiners, 1215 7th Avenue, San Diego, California, within 120 days after discharge from the military service. Information concerning this procedure may be obtained from the Employment Division, Extension 1129.

Q. Who is entitled to the use of recreation facilities and funds?

A. Every civilian Civil Service employee is entitled to recreation facilities and funds AS A MEMBER OF HIS GROUP OR DIVISION. Recreation equipment may be provided for noon time use upon request of the division Civilian Welfare and Recreation Chairman, and such equipment is checked out to the division chairman. Picnic and party funds are allocated to the group, also. If any employee wishes any recreation equipment, he should see his division CW&R Chairman.

ALL SEATS RESERVED

Speak Up, Men . . . . And They Do!

Silver Tongues Speak Golden Words

Elequence Prevails Throughout When 'Dinner Wits' Get Together

By L. ROBERT JACKSON

"Silence," someone once said, "is always golden," but if the person who made that statement were around today, he might think a bit differently.

This exponent of silence would find the validity of his statement under considerable question since the birth as an organization which has undertaken the task of proving this phrase completely and entirely WRONG!

Just over two decades ago, a group of men in Santa Ana, Calif., organized the first chapter of what was to become the world renowned Toastmasters International. They had but one purpose in mind: "Make ourselves better speakers!" But when the gavel fell on that first meeting, the founders and first members didn't realize that this idea—like all good ideas—would take roots elsewhere, that men, and women, too, all over the world would join them in attempting to achieve this goal.

Enjoyment Aplenty

The purpose was one, but the methods of accomplishing this purpose were many. The club was organized under regular parliamentary rules, but the meetings were arranged so that they were anything but routine, dry or uninteresting. On the contrary, enjoyment was and still is the key-word. These meetings were informative, entertaining, amusing, and often quite humorous. Potential speakers-au falt not only found this atmosphere conducive to learning but found speaking almost "second nature" after awhile.

Unknown to many Islanders, this desire for better speaking abilities spread some years ago to the Naval Air, resulting in the organization of two chapters of the Toastmasters International which meets weekly for the express purpose of improving Island speakers and turning out more "silver-tongued orators."

These two clubs, the Flying Toastmasters and the North Island Toastmasters, just as all branches of this organization, operate under the International rules. Their meetings are quite similar and their parliamentary setup identical.

Each week, the members of these two clubs engage in an hour and forty-five minute period of thorough enjoyment which, simultaneously, gives them the opportunity of participating in speech practice and parliamentary procedure. The "TTD" (Toastmaster for the Day) presides over each meeting.

Every member of the club has periodic speech assignments and delivers them in turn at the specified meeting. Speeches by the Flying Toastmasters are made by a number of men at the close of the meeting, and then the "table topics" session begins. Meanwhile, "Table Topics" is the first item on the Island Toastmasters agenda.

During this phase of the meeting, one member introduces a subject of his own choice. Following the introductory speech, the members deliver one minute extemperaneors talks explaining his views on the subject. Subjects of every description are brought up—from horse races to stocks, to how to become an expert tennis player.

Gooney Birds

Mistakes are inevitable with everyone at sometime or another and, though they wish they were, the Toastmasters are no exceptions. Realizing that it's only human to err, these clubs take much of the pain from the mistake wounds by making light of these errors and by presenting the weekly "booby prize" to the speaker making the "biggest, blaring, babbling, beautiful blunder" of the week. The Flying Toastmasters' prize is called the "Gooney Bird," a comic ceramic figurine resembling a Dodo bird. The North Island Toastmasters present the "Gooney Badge" to their "tangue tungler of the day. Both clubs present a gold loving cup to the best speaker of the week.

Five-Minute Speeches

The training manual used by all Toastmasters includes instructions and speech information as well as 12 speaking assignments, one of which is delivered at 12 different meetings. Each assignment stresses a different phase of speech deliverance, such as vocal variety, gestures, reading, quoting, etc. These assignments are five minutes in length and all are prepared speeches.

Aside from the 12 speaking assignments, each member has the opportunity to make several other talks and may compete with fellow members for the honor of representing his branch in the annual area finals. It is from the area finals competition that the representative is selected to go to the district finals, and then, with success, to the zone and national contests. The national finals are part of their annual International convention. Last year, San Diego played host to the thousands of delegates while Chicago had the honor this year when the convention took place August 14 through August 16.

The Commissioned Officers' Mess (Open) aboard this station is the scene of the meetings held

(Continued on Page 6)

1—CDR Norman A. Young, member of the Flying Toastmasters Club, begins one of the 12 five-minute speeches he must make to complete the Toastmasters' training course.

2—Enjoyment is the keynote of all Toastmasters' meetings. The majority of members of the Flying Toastmasters are shown here as they prove that speechmaking can be fun and very enjoyable.

3—The officers of the Flying Toastmasters Club get together after a recent meeting to discuss the day's happenings. They are (left to right) LCDR J. O. Nesbitt, educational chairman; CDR Tony Antonides, secretary-treasurer; LCDR W. R. Campbell, vice-president; CAPT J. F. Tenney, president; CDR W. C. Bryan, deputy governor; and LT Harry L. Conner, sergeant-at-arms.

4—CDR G. Curren, stationed at Camp Elliott, (standing, left), receives the gold loving cup, the award for the best speech of the meeting. Henry Knopp presents the cup as other North Island Toastmasters look on.

5—Gardon L. Branch, (sitting, right) listens as CDR Curren deliver the speech which won him the gold loving cup.

6—Bob Crosby (left) is congratulated on his speech immediately following initiation ceremonies held recently. Audie Shipp holds the training manual used by all Toastmasters and Don Johnson is seated at the right.

THE PLACE IS familiar

Everyone who has ever reported aboard NAS, North Island is sure to have to come in contact with the Information and Education Division one way or another.

In this division, many important tasks are handled—such as the checking in and out of the personnel reporting aboard and leaving the station, the supervising of the examinations given for advancement in rate, and taking charge of USAFI courses and requirements for the different service schools.

Whenever newly arrived personnel report aboard this station they report to Information and Education for a week's instruction and indoctrination.

This Week's News at a glance

Hundreds were expected to attend the forthcoming gigantic premiere of "What Price Glory" which is to be held in the San Diego Fox Treater next Thursday, The proceeds from the special show will go to the Navy Relief Socitey.
Tickets are now on sale at the Fox West Coast Theaters.

* * *

The United States served notice over the past weekend, that it will not tie its hands against using A-bombs, germ weapons, or chemical warfare against aggression until there is an ironclad world guarantee against mass destruction weapons. U. S. Delegate Benjamin Cohen reminded the 12-nation U. N. Disarmament Commission that the U. S. will support methods to eliminate all atomic, chemical, and bacteriological weapons from the world.

Government officials are worried over the rent control issue this year, but have not given up hope of retaining controls over a large part of the nation, despite congressional weakening of the rent law.

Six weeks have gone by since areas still under rent control were given option of voting to retain rent ceilings, or seeing them lapse September 30. Of 2300 communities affected, only 209 thus far have voted to retain the ceilings. In cities where rent ceilings have been removed, rents have increased in varying amounts from 13 to 53 per cent.

Korean fighting was held up briefly early this week by a powerful typhoon, which for the most part immobilized both UN and Communist forces.

* * *

Gene Littler, SN, stationed at the Naval Training Center, advanced to the fourth round of the U. S. Amateur Golf Championships. By defeating Bud Ward, the British Champ, Littler advanced into one of the favored roles of the tourney. The Navy golfer is originally from LaJolla, California.

facts about fire

By M. R. SMITH

Every 48 seconds, a new fire starts somewhere in the United States. Fire attacks a home every 1½ minutes, a store every 11 minutes, a factory or place of business every 14 minutes, farm buildings every 15 minutes, a school every three hours, and a hospital every six hours. Maniacs deliberately set about 4,000 of the 700,000 fires. Our annual fire cost is 15,000 lives, 20,000 permanently disfiguring injuries, and $750,000,000. Fire fighting experts claim that 80-90 percent of all fires could be easily prevented.

Flammable liquids comprise a large group of fluids, many of them in common use, that can be readily ignited. The fire hazard they represent in the home can be eliminated by following strict, safe handling and storage rules, or, preferably, by using non-flammable substitutes wherever possible.

There is no sharp line of demarcation between flammable liquids and gases. Liquids become gases at elevated temperatures, and gases become liquids at low temperatures. Flammable liquids, or inflammable liquids (the two terms are identical in meaning) are found in various forms in many occupancies, and their improper use and handling cause many fires with resultant loss of life and property.

There are fire-safe substitutes for gasoline, naphtha, benzine and similar volatile flammable liquids. Liquids labeled "non-flammable" by Underwriters' Laboratories, Inc., will not burn. People who use the services of professional dry cleaners do not have to be concerned with the flammability of dry cleaning liquids.

It is the vapor from the evaporation of a flammable liquid which burns rather than the liquid itself. If it is necessary to keep flammable liquids in the home, storage in closed containers, preferably a standard safety can, will prevent evaporation and spills.

Gasoline and other flammable liquids produce vapors which are heavier than air and tend to settle on the floor or in pits or depressions. Such vapors may flow along the floor or ground for long distances to be ignited at some remote point and flash back.

Flammable liquids, especially gasoline, are treacherous in that they may be used many times without accident where atmospheric conditions may not be right for an explosion. If you are forced to clean, using a flammable liquid, do so outside in the open air, but never bring gasoline, benzine, naphtha or similar volatile flammable liquids into the home for any purpose. Use non-flammable cleaners for removing spots from clothes. Send to the dry cleaners any garments needing extensive cleaning. If kerosene is used in lamps or stoves, refill outside, during daylight only. Do not use kerosene or gasoline to start stove fires.

Chaplain's Corner

A few years ago a man died who was beloved by many people. For a quarter of a century he had been a sportswriter, a chronicler, a motion picture scenarist and above all a great humorist. In the last year of his life he was speechless because cancer, the dread disease, had affected his vocal cords and all communications had to be done by scribbling on paper.

It is not a pretty sight to see someone you love wasting away. Finally the end come, painful and racking, and Damon Runyon was no more.

Soon after his death a few close friends like Walter Winchell made an appeal for a collection to fight cancer. The response that was made far exceeded the fondest hopes of these men. From all walks of life came donations until it was evident that the heart and purse strings of America had been touched.

Millions of dollars poured into the Damon Runyon Cancer Fund until today it is one of the biggest single privately managed collections in the United States.

It is a fine thing for people to be generous and self sacrificing but I wonder how many would have the same spirit if a campaign was conducted against an evil which is far more terrible than cancer—mortal sin.

Our bodies are pampered and comforted from the time we begin to think until finally having been worn out it is placed in a satin lined box and placed in the earth. We all believe that man is composed of body and soul and thus made to the image and likeness of God. There is an old saying that chemically speaking our body is worth a little more than a dollar but for some of us it is far more important than our souls. If a campaign was inaugurated to save men from a disease which was worse than cancer, people would be eager to contribute until they learned he disease was sin and then they would laugh and scoff.

The world today is incredulous about things they cannot see, hear, feel, smell. For many, sin is nothing more than a word. Actually it is the greatest evil in the world today because sin can deprive us of the end for which God created us. If I do not reach that end then I am like the clock that was assembled but never worked and so it is discarded.

Cancer may destroy the body and cause its death, but only for a time. Mortal sin can destroy the soul, and that may be forever.

Father H. T. LAVIN,
Catholic Chaplain.

THAT MAN friday

About three or four weeks ago, I took you behind the scenes of the gigantic Navy Relief Carnival and tried to give you just a brief idea of what to expect when the big event came off.

Well, this week, I'd like to do something similar to that once again. You've seen the write-ups in the NORTH ISLANDER concerning the forthcoming Navy Relief premiere showing of 20th Century Fox extravaganza, "What Price Glory," and are probably all set for the picture of your life.

Well, being the inimitable Man Friday, I've rangled my way in to see a preview of "What Price Glory" without anyone knowing I was there and I'm here to tell you that its GREAT in every sense of the word. Cagney and Dailey are superb in their military roles, but (naturally) my favorite is that exotic Corrine Calvert, and boy! Is she terrific! I wasn't wrong about the Navy Relief Carnival, was I? Well, you can take my word for it again—you're in for an evening of fine entertainment when you attend the "What Price Glory" premiere next Thursday.

While you're sitting there waiting for the show to begin, stop for a moment and think. You know, you'll have the right to feel mighty proud of yourself. Once again, you'll have aided in helping the Navy Relief Society raise those badly needed funds necessary to carry on its august task of caring for the men and dependents of the Navy. See you there!

Safesence

Here lies the bones of Wilbur Gray
Who died defending his right-of way.
He was dead, dead right as he sped along.
Now he's as dead as though he'd been wrong.

Carelessness, and too much attention to one's right-of-way when someone else has made a mistake or trespassed, have caused many a highway accident. These conditions when combined with too much speed, can be deadly.

A few days ago we saw an accident in which a sailor driver did have the right-of-way on a marked boulevard, as another car failed to stop, shot across in front of the sailor. Fortunately the sailor WAS NOT driving fast, and WAS NOT too impressby his right-of-way. He stopped just short of missing the onrushing other car, his front bumper raking its side severely as the other driver careened on across the intersection.

The NORTH ISLANDER

Vol. XI August 22, 1952 No. 34

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

Exotic Landmarks of NAS

From the Four Corners of the Earth Come the Trees Which Adorn NAS

By GEORGE BERGMAN

From the lands that border the Seven Seas, and from the fabled Four Corners of the Earth, come the trees and shrubs which adorn North Island.

And fittingly enough for a Navy base of world-traveling sailors and airmen, the greenery of this station marks the many climes to which the Navy planes go, and the foliage of the ports where Navy ships put in.

Commonplace to the thousands of service and civilian personnel who daily traverse the Island in the course of their occupations, the luxuriant verdure of NAS has a varied and interesting origin. For NAS possess a mild, sufficiently moist, sufficiently sunny climate which lends itself admirably to the growing of an amazing range of plant life—from the tropical Pacific Islands to Mediterranean Europe; from the coast of China to the jungles of Brazil, and other equally distant lands, have been gathered a wealth of specimens of growing scenery which go relatively unnoticed by the many, serve as landmarks for the few who know their stories.

"Some of the trees on the island," comments supervising gardener Harold Smart, "have been here since the days of World War I, at the very least. The huge rubber tree to the rear of the senior officers' quarters is an old timer. With its aerial roots, it brings a bit of the tropics to us here."

There are royal palms from the West Indies; elms and orchid trees from China; colorful lantana from Central and South Pacific; Nat plums, rubber trees and Araucaria pines from Brazil; camphor, tea and eucalyptus trees from Australia; cypress from Italy—just to name a few.

That the trees and shrubs of North Island receive thoughtful care and proper attention is attested by the size and beauty of some of the prize trees. A common eugenia (eugenia myrtifolia) from Australia, usually thought of as a hedge plant, has reached a stately 35 feet in height. A grove of torrey pines, which would normally grow gnarled and straggling on exposed cliffs, form straight and beautiful trees here. Bouganvillea, brought to the U. S. from South America two centuries ago, is reproduced in flowering profusion on NAS. Tree-sized hibiscus rival those of humid Hawaii in splendor, while in contrast, several varieties of eucalyptus from the dry reaches of Australia do equally well. Also from Australia comes a showy pepper tree which shades a corner of the enlisted men's park.

East is still East, and West is West, and the twain do meet among North Islands' trees.

FROM PALMS TO PINES on North Island—(top, left) Torrey pines are same as those seen along Highway 101, but they grow tall and straight here. (top center) Far from home is this Araucarian pine, common in temperate South America. (top right) Fan-leaf palms lend a semi-tropical appearance to the NAS scene. (above) PW gardener James Lee trims eugenia hedge. Background trees are Monterey cypress at left, twin Italian cypress center left, Australian tea trees at right. In right foreground, is end of branch from large South American rubber tree. (bottom left) PW Gardener T. Llenaresas trims Natal plum tree which grows alongside enlisted men's barracks. Used in South America for hedges, it has huge thorns, grows in thick, impenetrable mass. (bottom right) PW Supervising Gardener Harold Smart points to new growth amid divided trunk of rubber tree. Rough strands on trunks are aerial roots.

BILL FORNEY SEEMS TO FALL FOR JODY SIMMONS, but Jody will have nothing to do with him in one of the scenes from the forthcoming presentation, "The Bartered Bride." The opera will be presented in Balboa Park August 28 and 29 as a benefit for the San Diego County Cerebral Palsy Foundation. Forney is attached to the NAS.

Two Island Men To Appear In "Bartered Bride" Presentation

A cast of over 200 young people who have rehearsed throughout the entire summer will begin dress rehearsals early next week for the August 28, 29 Balboa Park Bowl production of "The Bartered Bride." The folk opera, music for which was written by the famous Czech composer, Bedrich Smetana, is being given as a benefit for the San Diego County Cerebral Palsy Foundation.

Leads in the colorful show, produced by the San Diego Park and Recreation Department, will be taken by a pair of North Island sailors, Jene Smith and William Forney as "Jenik" and "Vashek" respectively, and by Barbara Moody and Jodee Simmon alternating in the role of "Marie" on succeeding nights.

"The Bartered Bride" is a story of young love complicated by the marital machinations of parents and matrimonial agents. The scene is set in old Bohemia on a feast day, which provided for a continual backdrop of gay dancing, acrobats, clowns, festivity and ornate costumes.

Tickets are on sale from foundation members, members of the cast, and at all playgrounds and community centers. All tickets are unreserved.

Civilian Supervisors To Install Tonight

Civilian Supervisors' Association will hold their annual installation of officers and dinner at the Altes Banquet Room, 2301 Main Street, at 1830 tonight, August 22.

To be installed are: John C. Smalley, Supply & Fiscal, president; M. E. Pike, I.R.D., secretary; Dudley Oatman, O&R, vice president; George Albright, S&F, vice president; Earle Stone, P.W., vice president; and R. W. Workman, I.R.D., vice president, at large.

New Courses Offered

(Continued from Page 1)

in MA 892. Either the correspondence course or the self-teaching course may be completed by passing the end-of-course test.

The next course available is the course in intermediate radio. The purpose of the course in intermediate radio is to present at an intermediate level, a comprehensive study of the principles of vacuum tubes, their basic circuits and the application of these circuits to low frequency radio receiver sets. Types of test equipment, test procedures and the operation of transmitters will also be covered.

The material covered in this course corresponds to that offered in many technical high schools and junior colleges.

The intermediate radio course is available for self-teaching and group methods of study as MA 887. It is available for correspondence study as CA 887. Students who are interested in enrolling for a correspondence course should enroll in CA 887, which includes fifteen lessons.

NAS Silver Tongues Speak Golden Words

(Continued from Page 3)

each Monday by the active Flying Toastmasters club which, at present, is composed of 20 NAS-based officers and one civilian. There are several vacancies in the club and any Island officer or civilian holding a reserve commission is invited to join. Meetings take place each Tuesday from 1145 until 1300.

CAPT J. F. Tenney is president of the Flying Toastmasters with LCDR W. R. Campbell as vice president. Secretary-treasurer is CDR J. W. Antonides; LT H. L. Conner, sergeant-at-arms; CDR W. C. Ryan, deputy governor; and LCDR J. O. Nesbitt, educational chairman.

Across San Diego in North Park, the "dinner wits" calling themselves the North Island Toastmasters, meet each Monday evening at 1900 at the North Park Lions Club.

Composed primarily of Islanders, this branch also has several San Diegans in its membership. It was organized in December, 1948, with 30 Islanders in the original membership.

President of this club is Naval Air's Gordon L. Branch, and vice president is Audie Shipp. The secretary is Ken Winship; Elmer Russell is treasurer; Paul Harshberger is deputy governor; sergeant-at-arms is Dan Johnson, and educational chairman is D. Snell.

So this advocate of silence had better watch out. His famous saying has seen better days and we venture to say that within the next few years and with the continued efforts of the Toastmasters, a new phrase will take its place—"Silence is golden, but silver words are worth their verbal weight in diamonds."

O.J. Olsons Welcome Fourth Son August 5

James Lynn Olson arrived August 5, to take his place as the seventh child in the family of Chief and Mrs. O. J. Olson.

Olson, an Interior-Communications Chief, is attached to K-1 Division, NAS, where he is just rounding out two years of his 24-year Navy career. James Lynn, weighing six pounds, four ounces, is the family's fourth son.

movie menu

SATURDAY, August 23—"FEARLESS FAGAN," starring Janet Leigh, Carleton Carpenter and Keenan Wynn. Unable to find a home for Fearless Fagan, the lion with which he performed in a traveling circus, Carleton Carpenter takes the animal with him when he joins the army. Janet Leigh, a singer scheduled to entertain at the base, encounters Fagan and sounds the alarm, and Keenan Wynn, Carpenter's sergeant, is ordered to find a temporary home for the lion.
SHORTS: "PARDON US PENGUINS" and "VILLAGE METROPOLIS"
Running time: 1 hour and 46 minutes.

SUNDAY and MONDAY, August 24 and 25—"THE BIG SKY," starring Kirk Douglas, Dewey Martin, Elizabeth Threatt and Arthur Hunnicutt. Kirk Douglas and Dewey Martin join a keelboat expedition up the Missouri from St. Louis in 1830 bound for the Blackfoot Indian country to establish a trading post in the fur-rich territory; aboard the vessel as a hostage to ensure their safety is as a Blackfoot maiden, Elizabeth Threatt. The expedition survives hazards including a stretch of rapids, Indian attacks and sallies by agents of a rival fur trader, Paul Frees, who abducts Elizabeth.
Running time: 2 hours and 27 minutes.

TUESDAY and WEDNESDAY, August 26 and 27—"MERRY WIDOW," starring Lana Turner and Fernando Lamas. Crystal Radek is the wealthy widow of a man who came from the impoverished kingdom of Marshovia. She is lured to the kingdom on the pretense her late husband is to be honored, but the actual plan is to get hold of her wealth by having Count Danilo marry her. The plot becomes apparent and she and her aide, Kitty Riley, go to Paris where to keep fortune seekers from annoying her, the maid poses as the heiress.
SHORT: "OILY HART"
Running time, 1 hour and 59 minutes.

THURSDAY and FRIDAY, August 28 and 29—"AFFAIR IN TRINIDAD," starring Rita Hayworth, Glenn Ford and Alexander Scourby. Rita Hayworth, a nightclub singer, is told by Torbin Thatcher, of the British Colonial Police, that her husband has been murdered. She agrees to cooperate in tracking down the killer. Thatcher suspects him to be Alexander Scourby, an international crook. Their plans are almost upset when Glenn Ford, her dead husband's brother, starts an investigation of his own.
SHORT: "CRACKED QUACK"
Running time, 1 hour and 53 minutes.

FOR RENT—Attractive bedroom, twin beds, beauty rest mattresses, adjoining bath. Also rear sleeping cabin, no cooking, suitable for one employed man. 1 block from beach and transportation. Call Henley 3-3342.

FOR RENT—Newly decorated room; full house privileges; 2 blocks from NAS gate. H. 3-4014 or H. 3-4032.

RIDERS WANTED—Anyone desiring a ride to New Orleans, last week in August, contact Mrs. W. B. Barrow, c/o Mrs. R. H. Whitmore, 1913 Benecia Avenue, W. Los Angeles 25, California.

RIDERS WANTED—Riders wanted from Mission Hills, vicinity University Ave., Reynard Way, State St. 0800 to 1630 Shift. Phone W-0329.

Tip to motorists: The best safety device ever invented is the one about nine inches above your shoulders.

Softballers Smash Point Mugu; Take 1952 11 Naval District Title

SPORTS

Huffman Flips Three-Hit Victory; Lundell, Ivey, Leading Batsmen

The Naval Air Skyraiders culminated a highly successful 1952 softball season by defeating Pt. Mugu in the Eleventh Naval District finals, 7-3. This win gave the 'Raiders the title of Softball Champions of the Eleventh Naval District for 1952. Following this win, the team will travel north to San Francisco in September to play in the All Western Service Tournament. A victory in this tourney would put another feather in the already crowded 'Raider hat.

Huffman Notches Another Win

John Huffman, one of the mainstays on the Skyraider pitching staff, twirled a neat three-hit performance to give the Airmen the coveted trophy. Although the Pt. Mugu team did muster three runs, all were un-earned, and they could touch Huffman's offerings for only three hits.

Fireworks Begin In Third

In their half of the third, the 'Raiders began to kick up some dust as they got off to a 3-0 lead. Smith led off the doings with a base on balls, "Red" Lundell and "Hap" Ivey followed with single base blows, Adolph Mason got on via the error route, then Leo Pich came through with a base knock.

Things looked fine, but the joy didn't last long. In the bottom of that same inning, The Pointers scored three un-earned runs without benefit of a single hit.

'Raiders Go Ahead in Fourth

In the fourth, the 'Raiders got back into the lead column by scoring two runs on three hits.

Huffman lead off with a single to left, Smith then followed with his second consecutive base hit, Lee Troxler got on when the Mugu first baseman committed a 2-base error, and "Red" Lundell then smashed his second consecutive single. The score was then 5-3, with more to come.

Game Iced in Seventh

In the final inning, the Skyraiders iced the fray by scoring two more runs. Lundell led off the inning with his third hit of the day; he was followed then with hits by Ivey and Pich and the Naval Air Skyraiders had won themselves a district title.

Battle For Lead in ASA

While most of the local attention was focused on the District competition, the 'Raiders pulled up to a tie for the league lead in the Amateur Softball Association League. Last night, the 'Raiders played Anderson Furniture; a win over them would guarantee no worse than a tie for the second half of that play.

Should they tie, they would play off with the very tough Plymouth Mopars teams for first place in the second half of that season. Then if they were to defeat them, they would play them again for the season championship. The "Mopars won the first half of season play."

Skyraider Consistency Great

The Skyraiders have proven themselves to be one of the most consistent softball teams in the San Diego area. They have lost games during this long season, but what team playing sometimes six games per week wouldn't; also, they have lost quite a few games by one run, which could easily have gone either way.

Lt. Greely Top Man

The coach of the successful 'Raider Team, LT Greely, has proven to be an inspiration to the men who played under his guidance. As coach, he had the enviable technique which enabled him to get the most from his players. One of the most enthusiastic sportsmen on North Island, Mr. Greely certainly deserves praise for the job he has done.

Captain's Cup Lowdown

By Walt Breeland

The table tennis tournament was played off in the Mainside Gym this week, with Supply taking first in the singles and doubles. George Wells of Supply, who is always active in Captain's Cup Sports, was high point man in the table tennis playoffs.

Table tennis finished the second half of the Captain's Cup intermural program this year. Special Services won the big cup this half from Supply, who has been holding the trophy for a lengthy period.

We mentioned in this column last week that the touch football games this year promise to be worth watching. Since then we have talked to the Captain's Cup Director and learned that so far there have been eleven teams entered in this event. Since the last issue, we have been informed that the Metal Machine outfit has had a good turnout of players and expect to be one of the top teams this year. With the expected powerhouses from Boat House, Supply, and Special Services, a very interesting and exciting touch football season is in prospect.

A few of the dark horses for this year's season seem to be the Power Plant, who with a few breaks may cause trouble, and the spirited Marine Barracks.

Eleventh Naval District Champs

A WELL EARNED TROPHY is being shown with justified pride by LT Greeley, Naval Air Skyraider softball coach. The team won the Eleventh Naval District title by defeating the Pt. Mugu Pointers by a score of 7-3 last Friday at Navy Field.

Tickets For USC-Army Game

The Airpac Athletic Office announced the availability of tickets for the forth-coming outstanding football game between the University of Southern California and the United States Military Academy from West Point.

The game will be played October 4th at the Los Angeles Memorial Coliseum. Tickets are available at the Comairpac Athletic Office up to, and including August 29.

The price of tickets is $3.50 each. Checks should be made payable to the Army Athletic Association.

The present series began last year when USC traveled to Yankee Stadium to play the Black Knights of the Hudson. The game, which was played in a driving sleet and rain storm, ended with the victory being added to the USC slate. The west coast football fans have long sought to see the Army team, and the spectacle promises to be one long remembered.

naga news

Air Station men, who led in last month's ACE Tournament, were: Sota, 70-4-66; Slater, 74-5-69; Campbell, Crawford and King with low grosses of 68.

The Skyraider golf team smashed the MCRD team last week at the Mission Valley course, 20-4. Yesterday they met the El Toro team, but results were not available for today's paper.

There will be a meeting of all military golfers on North Island between 1100 and 1200 on August 26. Winter season matches will be discussed.

What's the Catch?

Last week, the fishing was as good as any time during this season. From the Point Loma area, good catches of barracuda and white sea bass were taken.

At the Coronado Islands yellowtail fishing remained good, while barracuda continued to bite well. The first albacore boat from NAS took 14 of the long fins last week.

airpac's sportlight

By BOB SWISHER

Pitcher Cecil Lair and his Fasron-691 teammates assumed the role of "giant-killers" in the Major division of the AirPac intramural softball league as they upended previously undefeated VC-11 by a 4-1 count on Tuesday.

The loss pushed the Comets out of first place by a half-game and Fasron-110, by virtue of a 5-4 win over Fasron-7, moved into the top spot. Fasron's record is 8-1 and VC-11 has 7-1.

In the game prior to the VC-11 upset, Lair spun a one-hitter at the first half champs, FAW-14, as Fasron-691 edged out a 1-0 verdict.

Over in the Minor loop, Ready Issue is still on top with AirPac Personnel running second and VP-46 third. The Storekeepers smashed VP-42 last week by a 14-0 score to take over the top rung. They have now won seven in a row after dropping the curtain-raiser.

After winning their opening six games, VP-46 continued in their slump by dropping a stunning 11-4 decision to seventh-place Comcardiv-15. Earlier, they had been knocked from second place by Personnel in a 5-4 game. As of Wednesday of this week, Personnel had a 6-2 record and VP-46 had 6-3.

Powerful VC-35 continued to run roughshod over opponents in the touch football league in search of their second consecutive crown. They ran their victory string to seven this week by dumping Fasron-691 and Fasron-7 by 17-0 and 25-6 scores. The touchdown scored by Fasron-7 was only the second registered against the 35ers this year.

PAMI gave the league-leaders a big assist Tuesday when they stopped the only other undefeated team in the league, Faetupac, by a 14-0 count. Prior to the PAMI meeting, Faetupac had five successes. The win moved PAMI into second place with a 7-1 record.

pigskin previews

CHUCK DE FREITAS, Skyraider center, wearing number 50 for the 1952 season, is five feet eleven inches tall, weight 170, and is 22 years old. He is from San Fernando, California.

This is Chuck's third year as a member of the Naval Air team. In 1950, he was with the old Airpac squad, and last year, he played with the highly regarded Skyraiders. De Freitas' experience began at San Fernando high school.

Chuck has an ever present will to win, which coupled with his ability, will make him a tough man to beat out when assignments for starting positions in league play are posted.

Against the Los Angeles Rams, De Freitas drew the assignment of many times hitting against the star Ram linebacker, Don Paul. Against a veteran professional, such as Paul, Chuck showed what made him one of the most feared centermen in the league last year.

MARK MARKICHEVICH, Skyraider right halfback, wearing number 22 for the 1952 season, is five feet eleven inches tall, weight 180, and is 22 years old. His hometown is Globe, Arizona.

Markichevich is playing his second year of Navy football with the Naval Air Skyraiders. He has four years of experience at Arizona State College, at Tempe.

Mark, besides his great ability, has been a sparkplug in the 'Raider backfield. In the recent game against the Los Angeles Rams, he showed his value as a defensive halfback, when he intercepted the pass which three plays later led to the only service team score aginst the Rams ever.

Throughout the entire Ram game, Mark had the assignment of covering the deceptive Ram ends and halfbacks. With men such as V. T. Smith and ElRoy Hirsch to defend against, Mark made his presence felt; covering his section of the backfield like glue.

LCDR Kenneth F. Brissette, who recently returned from Japan where he was officer-in-charge of Helicopter Squadron ONE, Detachment One, is now the Executive Officer of Helicopter Squadron ONE.

VU-3 Men Make Rates

Utility Squadron 3 congratulated thirty-eight apprentice airmen and apprentice seamen who successfully passed their E-3 examinations August 12 in the Information and Education Office of the Squadron.

Out of the thirty-eight men, four men advanced to Seaman while the rest are now Airman. The tests were given under the supervision of C. A. Crouse, ADC, Bill Estes, TDU3, Gene Sorensen, AA, and A. J. Bianconi, AKAN. They were gratified to see such a high percentage of the prospective Airman and Seaman advance in rating.

Journalistic Trip On VU-3 'Operation KD'

If you were to arrive at Pier G at North Island in the "dawn's early light" for a day of sea operations with KD Unit 25, of Utility Squadron THREE, you would be greeted by the LSIL 1017 and its crew of 23 which will be your transportation for the day.

After loading the "birds," radio equipment, and gear onto the ship, engines are turned over, lines are castoff and before you know it, you are passing the early morning fishing boats and sports fishermen as you reach the head of the channel seeking the open sea. You bid goodby to the port of San Diego till late that afternoon as you have a rendezvous with Item I.

The LSIL, 1017, commanded by LT W. G. Wilson, had an illustrious career during World War II. It took part in many landings in the Pacific theater and is credited with four enemy aircraft during her tour of duty. After the war, she was used to tow targets and has spent the greater part of the last three years in KD work.

Heading out into the vast Pacific, the crew and "guests" were summoned to morning chow of hot cakes, ham, fruit, coffee, and lots of fresh milk. After satifying their hunger, members of KD busy themselves testing radio gear, equipment, readying the catapult platform, and answering questions by your reporter.

LT M. E. VanHoose, officer-in-charge of Unit 25, and the Executive Officer of the 1017, Tony Romenowitz, are on the bridge discussing the day's operation and past experiences of target work. At 1000, you sight the AKA 94 USS WINSTON which has put to sea to service the targets for the day.

Lester G. Jones Jr., AT2(T), has his radio gear ready and sees that the control box for the "birds" is operating smoothly. Johnny Krueger, AD3, Roy Baker, AA, and Ray Spangler, AN, are putting the finishing touches on the catapult.

The LSIL circles the WINSTON. Chief Mangram, of KD 25, gets the word from LT Van Hoose and the bird is fired up and launched into the air and operations have begun. Like a meteor, the KD circles the WINSTON — once then twice and the word is passed that everything is ready.

Making its approach with LT VanHoose at the radio controls, the bird skims the water directly at the AKA. The ship's 40MM and 20MM open up making the sky a polka-dot of flack. Again and again, passes are made until the bird putters and sputs as its fuel is exhausted. Then as if magic is present, a parachute is automatically released from the KD and she floats gently to the water. The skipper heads his 1017 to pick up the wounded bird. With hooks and nets the rescue is completed and operations for the day are at an end.

Robert Bland, AM3, Walter Puckhaber, AN, James Coughlin, AM2, and George Killham, AM3, all crew members, secure their gear and sit back to enjoy their voyage home.

Reaching Pier G, gear and KD's are unloaded onto trucks after another successful operation, the unit returns to Ream Field.

The men and equipment of these KD Units provide a special service to the fleet. Their operations, whether at sea or on land, these men of VU-3K work many hours perfecting these KDs into successful target services.

ATTENTION, NACRA BOWLERS

There will be a meeting of NACRA bowling team captains in the Civilian Cafeteria Blue Room, on August 26 at 1300.

The league will start Bowling on Tuesday, September 9, at 1830. Enter your teams now.

CDR H. M. Kosciusko, CO of HU-1, presents a Letter of Commendation to Pilot LT Coffey.

CDR H.M. Kosciusko Presents Commendation to Lt. Coffey

CDR H. M. Kesciuske, Commanding Officer of helicopter Squadron One, based at Ream Field, presented a letter of commendation to LT C. C. Coffey, at ceremonies held aboard this station Friday, August 8.

The letter of commendation was awarded to LT Coffey for his outstanding services rendered while he was a helicopter pilot on duty aboard the aircraft carrier USS ESSEX while the carrier was in the Korean zone.

CDR Kesciuske also congratulated Aviation Pilot Chester W. Buss for being presented the Distinguished Flying Cross for rescuing a downed pilot who had crashed behind enemy lines.

No More Sporting Permits at Emp. Ser.

Fishing and hunting licenses will no longer be sold at the Employee Services Section, Bldg. 415. This announcement is made with regret, due to a cut back in personnel of that office.

Ream Golfer Takes Part In SD City Tournament

Comairpac varsity golfer, Gerald E. Sota, AN, of VU-7, lost out in the semi-final rounds of the City Golf Tournament in San Diego last week end.

In the championship flight, Sota won the first round 7 and 5, he won the second round 1 up in 19 and lost the third round to Art King, 2 up.

Sota had an edge on King until the 15th hole, where he drove out of bounds and lost to go 2 down. A par on number 16 by King ended the struggle.

At the present time, Sota is working at the NAS golf driving range.

R. Tanner, AKC, of HS-4 also lost out in the semi-finals of the First Flight class. Tanner lost to R. Wolthers 6 and 5.

Gerald S. Sota, AN, of VU-7, popular golfer in the Southern California area.

Chapel Services will be held at ALF Ream Sunday as follows:

Protestant Services 0930
Catholic Services 1030

H. J. Tucker, ADC, Is VU-3 Leading Chief

Harold J. Tucker, ADC, replaced John C. Feher, ADC, who was transferred to North Island after 45 months in the squadron, as the new leading chief of Utility Squadron 3.

As leading chief of VU-3K, Tucker's new duties to the squadron are most important and numerous. First of all, he is the liason between officers and enlisted men. He carries out Navy regulations, muster reports, squadron fire bills, storm bills, and duty details. All department chiefs work very closely with him. Chief Tucker, as leading chief, will be responsible for the morale and welfare of the crew.

Tucker, a member of VU-3K since November, 1951, has some 23 years of Naval service behind him. He enlisted in the Navy April 1, 1929, and upon completion of recruit training, he reported to North Island for flight training. Although he didn't finish flight school, he did see duty on almost every type of naval vessel, from the USS COLORADO to a seaplane tender in Alaska. His tours of duty include Hawaii, Sand Point, Ford Island, Norfolk, Va., and many others.

During his service in the Navy, Chief Tucker was active in boxing and racing cutters and whaleboats for many years. He now keeps his manly figure by playing a vigorous game of handball.

VU-3 Nine Wins 2 More

Utility Squadron 3 completely devastated their helicopter opponents by bombing HS-2, 17 to 4, and blanking HS-4, 11 to 0, in intra-squadron games played on Buchi Field.

"Buck" Meehan, ace pitcher of VU-3, was the big gun in both tilts. Not only did he pick up wins number five and six, but knocked in seven runs on two hits, including a home run against HS-2. In the game with HS-4, "Buck" drove in five runs on three hits including a home run with the sacks loaded.

Thousands Attend Big Navy Relief Premiere

"What Price Glory," Twentieth-Century Fox's re-make of the famous World War I epic, was premiered at the San Diego Fox Theater last night before a sold-out house of enthusiastic servicemen and civilians. The first project of its kind ever held, this premiere may become the first of a series of annual showings for the benefit of the San Diego Auxiliary, Navy Relief Society's August fund raising drive.

The film, starring James Cagney, Dan Dailey, and Corinne Calvet, was made available to the 1952 Navy Relief Carnival Committee at no expense, for the exclusive benefit of the charitable society.

(Continued on Page 2)

5 Islanders to Participate in "Harbor Days"

Several Island civilian employees will participate in different capacities in the forthcoming speedboat and water ski events included in the gigantic "Harbor Days" celebration in San Diego.

These attractions, expected to attract thousands of area and out-of-town water sports enthusiasts, will take place tomorrow and Sunday along Harbor Drive. Starting time tomorrow will be at 1400 and Sunday's events will get underway at 1000.

Leonard Roberts, Production Control employee at NAS, is general chairman of all events and is one of the chief threats in the races with his 224 horsepower rocket engine mounted in his sleek homemade craft.

Vernon Lennox of the Inspection Department will ski in the night water ski show tomorrow at 1400. Looking on will be Stanley Stokes of the Assembly Division, official starter; Walter Welch, planning Division, official timer; and Bill Garber, Production Control, who will be at the information booth.

Everyone is invited to view these events free of charge. Parking facilities will also be available at no cost.

Fall Clothes Arrive At NAS Navy Exchange

Wives and other female dependents of Naval Air Station personnel are invited to visit the NAS Navy Exchange store's ladies wear department for a preview of autumn skirts and blouses.

The store, which has just recently acquired this line of fall wear, also boasts a complete selection of Judy Bonds' which will be available for purchase September 10.

The children's wear department is stocked for the "back to school" rush which is expected to begin immediately.

Visit the store today for the best in fall clothes for the entire family.

USS Bataan Arrives at NAS Quaywall Tuesday

Arriving in San Diego shortly after 10:00 a.m. Tuesday, was the light aircraft carrier USS BATAAN, commanded by CAPT H. R. Horney, USN. The ship tied up at Pier "P" at NAS. Thousands of dependents of crew members were on hand to greet the carrier.

The BATAAN is returning from her second seven-month tour of the Korean fighting. No air units are returning aboard the ship. However, for a time during the cruise Air Anti-submarine Squadron 25 and Marine Attack Squadron 312 flew their planes from the carrier's deck.

During her Korean tour, the light carrier worked with a destroyer screen that was truly a United Nations unit. From time to time it consisted of ships from Australia, Canada, England, the Netherlands, and the United States.

Destruction of the communist enemy was the BATAAN's primary mission, which she accomplished, but she had her constructive side, too. Before leaving San Diego last January, the crew collected and packed 7,500 pounds of clothing donated by the city's churches and civic groups. This clothing is now being worn by war victims in South Korea.

Other generosities have been planned by the crew. At dockside ceremonies shortly after the BATAAN's arrival, a check for $1500 was presented to Mayor John D. Butler for the purchase of Thanksgiving baskets for needy San Diego area families. Then, soon after, there was an ice cream and cake party for 200 Boy Scouts aboard the carrier.

Beach Open 'Til Sept. 7

Due to the late opening of the NAS recreation facility and an early Labor Day, the Naval Air Station Beach will remain open until September 7, according to an announcement made by the station Special Services division this week.

A PORTION OF THE HUGE CROWD which packed the NAS quaywall last Tuesday is shown as they prepared to welcome homecoming Navymen aboard the aircraft carrier USS BATAAN which returned from Korean waters.

Operetta Presented for Cerebral Palsey Victims

The first performance of "The Bartered Bride" was presented last night, August 28, at the Balboa Park Bowl and the second and final performance will be presented tonight.

The folk opera, music for which was written by the famous Czech composer, Bedrich Smetana, is being given as a benefit for the San Diego County Cerebral Palsy Foundation.

Leads in the colorful show, produced by the San Diego Park and Recreation Department, are taken by a pair of North Island sailors, Jene Smith and William Forney as "Jenik" and "Vashek," respectively, and by Barbara Moody and Jodee Simmon alternating in the role of "Marie" on succeeding nights.

"The Bartered Bride" is a story of young love complicated by the marital machinations of parents and matrimonial agents. The scene is set in old Bohemia on a feast day, which provided for a continual backdrop of gay dancing, acrobats, clowns, festivity and ornate costumes.

Tickets are on sale from foundation members, members of the cast, and at all playgrounds and community centers. All tickets are unreserved.

Metal Branch Holds Annual Picnic Saturday

Metal Branch's annual picnic took place this year at Flinn Springs, about 35 miles east of San Diego, last Saturday, August 23rd.

One of the highlights of the outing was the yearly baseball game between the enlisted personnel and the civilian employees. The game was progressing nicely until "chow call" which immediately called for cessation of athletic combat and found the civilians the winners with a score of 7 to 3.

A more than ample supply of food, including Texas-style barbecued beef, spare ribs, hot dogs, potato salad, cold slaw, baked beans, and buns, greeted the hungry crowd.

To quench the thirst, everyone there found his favorite beverage in abundance.

Children and adults alike enjoyed many games and prizes were given to the winners of many of the games. Among the most popular games was the hilarious egg tossing contest in which many of the participants received an egg shampoo, thanks to their partners.

A western band was on hand also to furnish dance music for those who cared to indulge in this favorite indoor sport.

660 Attend Luau Aug. 23

An estimated 660 officers and their guest were present at last Saturday's big Luau held aboard this station at the Commissioned Officers' Mess (Open).

Virtually every branch of the armed forces was represented by personnel from the active as well as the retired ranks. They were accommodated both in the COMO building and the pool deck.

Following dinner, many forms of entertainment was offered and included such favorites as Johnny Ukulele, ukulele impressionist, Johnny Bright and his Hawaiian Orchestra, Vic Vincent and his orchestra, Kim and Lualla, Ethel, hula comedian, Kim, Lualla and Grace, in "Hawaiian Skies".

USAFI Adds Courses In World Literature

The new USAFI course in World Literature I introduces the student to the literature recording human experience through the ages and in many parts of the World. The prose and poetry included is grouped around subject matter rather than around form, and the selections are arranged by sections proceded by explanations leading continuity to the materials.

This course gives special attention to man's physical and spiritual relations to nature, religion, science, and public life. This is the peoples' story told in myth, fable travelogue, social and political satire, and writings concerning great events and characters of history.

Man's happiness and grief, his hopes and fears are presented here to give students some new faith and admiration for man's capacity to leave a record of his experiences through time.

The work covered in the course corresponds to that usually offered in introductory World Literature, college level.

The course is available for self-teaching and group methods of study as MA 410. The course is available for correspondence study as CA 410. Students who are interested in enrolling for a correspondence course should enroll in CA 410, which includes fourteen lessons. Students who are interested in individual enrollment and who do not wish to submit lessons should enroll in MA 410. Either of the courses may be completed by passing the appropriate end-of-course test.

The course in World Literature II continues the emphasis of the first course in bringing out the similarities among people. These units present the art forms of comedy and tragedy and selected writings in such areas as oratory and ethics.

The prerequisite course, MA 410, CA 410 or equivalent is available for self-teaching and group methods of study as MA 411. The course is available for correspondence study as CA 411. Students who wish to enroll for correspondence study should enroll in CA 411. Students who wish to enroll and not submit lessons should enroll in MA 411. Correspondence course CA 411 requires the submission of 12 lessons. Either of the courses may be completed by passing the end-of-course test.

The purpose of the course in MA 495 of CA 495 is to introduce the student to an analysis of man's cultural heritage and social nature. Emphasis is placed upon personality development in the individual, his behavior in the community and in other types of social organizations. The basic social processes and organization are examined in order that the student may understand the problems of social behavior and their control.

The course in introductory course is available for self-teaching and group study class methods of study as MA 495. The course is available for corres-

(Continued on Page 6)

Skunk, Visitor to NAS Is K-Vet; Goes Home

Been wondering what happened to the skunk that paid a visit to North Island last week? There is more to this skunk than meets the nose.

Not too long ago Captain Harold Knotzer was looking for a mascot for the ship of which he had just been put in command. Then he spotted "Sinbad" (the skunk) in a pet shop and purchased him as the ship's mascot. The ship departed for Korea with the skunk aboard, so it can be seen that this is no ordinary skunk, for it is probably the only skunk that has seen active duty in Korea.

When Captain Knotzer was about to be transferred, he left "Sinbad" with his neighbors, CDR Richard Sanders (retired) and Mrs. Sanders. During the time that Mr. and Mrs. Sanders kept the skunk, it managed to sneak away several times, and the last time ended up on North Island.

To avoid any further complications, Mr. and Mrs. Sanders turned the skunk over to CDR Perry Teft (retired), an owner of a ranch that has adequate facilities to care for the skunk.

Station Observes Labor Day Monday

Military and civilian personnel aboard the Naval Air Station will observe Labor Day, Monday, September 1. Twenty-four hour service will be maintained throughout the station.

The Navy Exchange Store has also announced that it will be closed in observance of the holiday.

Safety Sadie Sez: Any fool can take a chance; it takes thought to be careful. Drive carefully over the holidays.

MARITAL VOWS WERE EXCHANGED last Friday, August 22nd, at 1700 when Sydney M. Smotherman Jr. and Doris Marie Olson were married at the NAS chapel. The ceremony was presided over by Chaplain Bennett. Sydney, an AN, and Doris, an SKSN, are both stationed aboard the Naval Air Station. The wedding was a formal military occasion, with both the bride and groom attired in dress white uniforms. The couple will live in San Diego after returning from their honeymoon.

Commissary Permits Necessary

During the first few months of operation of the Commissary Store located aboard this station, the officer-in-charge has permitted military patrons and their dependents to use the store providing they could produce sufficient evidence proving eligibility to shop in the store.

However, during this time, all authorized personnel have been advised to secure a valid permit as soon as possible. Patrons may get applications for these permits at the NAS Security Department and Commissary Store, and the Naval Station Commissary Store.

Effective September 5, it will be necessary for each person desiring to shop at the store to produce a valid Commissary Store permit or an NAS Privilege Card before purchases may be made.

Labor Day — 1952

Labor Day! All hands looking forward eagerly to another ohliday weekend—and what a difference that extra day makes!

So you are going to pile into the old bus and hie you far away from the hubbub of clattering machines, shrill telephones, and urgent tags, for a fling before the busy fall and winter seasons set in.

Good! That extra day makes a big difference in your plans —but—How you drive may make a big difference in the rest of your life—if you do live. Don't turn this happy occasion into a nightmare of horror and pain for yourself and others simply because you failed to DRIVE WITH CAUTION . . . because you failed to CHECK YOUR CAR . . . because you failed to OBEY TRAFFIC LAWS.

Let this holiday be one to remember—not one to regret.

Remember—the 1952 Holiday Traffic Toll runs high:

Memorial Day — 360 Dead
Independence Day — 356 Dead
Labor Day — ? Dead

The Navy says: Put aside your worries and cares, have a good holiday, but be careful. You can't be CARE-FREE unless you are ACCIDENT-FREE.

NACRA Mixed Bowling Loop Opens Sept. 9

NACRA Mixed Bowling League will open September 9, at the Pacific Recreation alleys, according to present plans. More teams, as well as individual players, are needed says league secretary John Allison, to fill out the 10-team circuit.

It will be a handicap league. All civilian employees interested in playing a few Tuesday evening rounds are urged to contact Allison, on ext. 697.

Toastmistresses Make Plans for Coming Year

Silver Strand Toastmistresses' program has been scheduled for fall and winter months. Speeches following a theme for each month will be assigned so that all members will be able to participate.

President Mary O'Shea of O&F department announces that the Silver Strand Toastmistresses are now open for applications for membership. She can be contacted at Ext. 733.

Islander Makes Graves Mistake

In compiling a story, from varied sources, on the arrival of CAPT Harry C. Graves SC, USN, new Supply & Fiscal Officer of NAS, the NORTH ISLANDER incorrectly reported that he was a 1934 graduate of the US Naval Academy, and had attended the Naval War College at Newport, R. I., prior to his recent tour of duty at NAS Pensacola. These items of service were apparently transposed from the record of CDR R. S. Klunk, SC, USN, who replaced CAPT Graves at Pensacola.

Chinchillas Now At Home With Lindsays

Those bright lights and the noisy hub-bub of the gigantic Navy Relief Carnival held recently have long since died away to rest in preparation for next year's big event. Even though the carnival did end weeks ago, stories are still pouring into the NORTH ISLANDER office relating the after-effects of the show.

One of the most recent to come in concerns the new owner, Claude Lindsay of the Machine Shop, by name, of a pair of Chinchillas acquired at the carnival. Mr. Lindsay has decided to keep the new members of his family and will board them with H. H. Nash, another Island civilian employee who works in the Public Works boiler house. Mr. Nash is also the contributor of the two animals.

We understand there was some question in the family as to whether or not the Chinchillas would remain, but the question has finally been settled. Who knows! This may be the beginning of a very profitable business for the Lindsays.

Thousands See Premiere

(Continued from Page 1)

The show, as a part of the activities of the big Annual Carnival, was sponsored by the Naval Air Station, and activated through the efforts of a group of officers from the original Carnival Committee.

Ticket sales for the premiere were accelerated measureably by the generosity of Eddie Kitaen, downtown San Diego businessman, who purchased a large block of seats for distribution among disabled Korean war veterans and other patients at the San Diego Naval Hospital, and to other service groups.

An all-military parade from lower Broadway to the theater on Eighth Street, preceded the show. Stage activities, featuring the massed bands of the Marine Corps Recruit Depot, and the Naval Training Center, preceded the famous picture.

Debut for Paula

It's a girl for Airman and Mrs. Conrad G. Stone. The 7 pound, 13 oz. gal, whose name is Paula, was born at the Naval Air Station family hospital at 0700 last Tuesday.

Pop is yeoman in the NAS Protestant Chaplain's office and the Stone family will be at home, 1820 4th Ave., San Diego, the latter part of this week.

UCDS Lounge Still Offers Relaxation For Area Civilians

Defense workers are invited to attend weekly dances (they're free) at the UCDS Lounge in the YWCA, 10th and C. The Lounge, operated by the Red Feather United Community Defense Services, is open Thursdays and Fridays 1100 to 2200 to defense workers and their families. Dances, beginning at 1900, are a feature of Friday evenings, with a special program of entertainment at 2100.

One recent Friday night program that was particularly well received was a colorful folk dancing demonstration. Six couples, wearing authentic Italian, Spanish, and Czechoslovakian costumes, whirled into a Swiss Drei Lederne Strompf, dancer the German Schuhplattler and wound up their program with an Austrian Dreisteirer and the Marklander. Spectators, catching the folk dancing fever, were isvited to join in the German dance, "At the Inn." Mrs. Vivian Woll, well known folk dancing teacher, gave newcomers on-the-spot instruction.

Programs scheduled for the future promise a water ballet, jui jitsu, hula, and dancing.

Friday nights, nursery and child care services are available for a small fee. The YWCA operates a non-profit cafeteria, too, from 6:30 a.m. to 7:30 p.m., where defense workers can bring their families for supper before their evening of fun at the UCDS Lounge.

A. E. DANIELSON, AD1, and R. H. Lawson (left to right, above) leadingman from NAS O&R Department attended the HUP maintenance school at thePiasecki Helicopter Corporation factory, Morton, Pa., recently. They are shown operating the transmission dephase test machine. Below, A. R. Heap, of O&R, and Charles M. Head, Jr., leadingman in the O&R Shop, NAS Jacksonville, check out the throttle control on an HUP helicopter in the final assembly line while attending Piasecki maintenance school.

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

MYTHS—FACTS ABOUT FEDERAL EMPLOYEES

Government employees are greatly overpaid or the poor government employees are paid so little they are hardly able to feed and clothe their families.

In general, the Government pays good salaries. In the lower grades, salaries are the equal of, or higher than, pay for similar work in private industry. The higher you go up the pay scale, however, the lower the salaries are when compared with those in private industry for similar work. The head of a Government agency does not get anywhere near the salary paid to the head of a large corporation. The highest any employee in the career service can be paid is $14,800 a year, which is the ceiling placed on salaries by law.

Government employees are paid solely on the basis of the number of other employees they supervise.

They are paid on the basis of the work they do. The number of employees supervised is one thing considered, as elsewhere, but only one. A supervisor heading a small group doing difficult and complex work is paid more than one supervising a large group doing simple, routine work.

Government employees spend more time off on vacation, sick leave, and holidays than they do at work.

The following paragraphs are quoted from an official report printed in the Congressional Record:

"The staff analysis points out that most recent studies report the average hours worked a year by Federal employees as 1,797. This figure excludes many hours of unpaid overtime work.

"The latest survey of Government leave practices revealed that during this period employees took only 78½ percent of the annual leave they had earned.

"The same study revealed that employees took an average of 64.2 percent of the sick leave they earned, or 77 hours instead of the 120 allowed."

Experiment in Plastic Mass Production

TAKE A CARD, any card—Beatrice E. Gore, helper, laminator, holds a handful of finished products after trimming plastic covered code charts. This is one of the routine jobs of Plastic Shop 3373.

Plastics is a relatively new field, still undergoing experimental phases in some of the nation's leading research laboratories. While facilities here for plastic manufacture are comparatively meager, the ingenuity of NAS plastics shop employees is being utilized to the utmost to turn out finished products of first quality, and to master all tricks of this growing trade for possible expansion of operation should supply-restricting war conditions return to the aviation industry.

Personnel of Plastic Shop 3373, with an assist from Tool and Die Manufacturing Shop 3387, are turning out their biggest order—2,000,000 plastic tompions for 20 millimeter guns.

Ordinarily used to short production runs of 50 to 5,000 of any specific part, Plastic shop turns out many varieties of protector covers and plugs, tool handles, electronic parts, hammer heads, and other small plastic articles.

Instituted at the outset of World War II, the Plastic shop was originally an emergency measure to provide replacements for parts which could not be procured from other sources. Since then, it has been maintained to supply current needs peculiar to this industrial establishment and partly to keep trained personnel available for future emergencies.

Now comes the test. Can the six employees of the shop turn out their tompions? Snapper-toolmaker John Allison believes so. With a 40,000 a week quota already set, and new dies being made in Shop 3387, to allow a step-up to 140,000 a week, all hands are prepared to push through the work as an experiment to see what is the maximum capacity of present facilities of the Plastic shop. They are all set to come through, and to demonstrate what they could do in event of all-out war and further shortages from other supply sources.

JERRA ROSE, MACHINIST, (left) and Robert B. Hoxsey, plastic moulder, push a batch of polythylene through a plastic injection machine. In background, John Allison, snapper-toolmaker, watches as Naretha Varner, shop learner, separates tompions from a string just out of the machine. 40,000 a week is the present quota on this 2,000,000 tompion order.

RADM D. S. Cornwell Assigned to Whidbey

RADM Delbert S. Cornwell, USN, Commander of Carrier Division 15, which is temporarily based here, received orders detaching him from his present duty Monday. He will report as the new Commander Fleet Air, Seattle, at the Naval Air Station, Whidbey Island, Wash.

He assumed command of Carrier Division 15 on Sept. 21, 1951, after a two-year tour of duty as

the U. S. Naval Attache for Air at London, England; and recently returned with his staff from extensive maneuvers of his division's carriers in Japanese and Korean waters to the San Diego area.

Almost all of Admiral Cornwell's World War II days were spent in the bitterly fought battles with Japan in Pacific waters. Following an assignment on the staff of Commander Carrier Division ONE, and participation in the Battle of the Coral Sea in June, 1942, which has long been considered a turning point in the war against Japan, the veteran airman moved to the carrier NASSAU as her executive officer. Next followed a commanding officer's billet on the carrier SUWANEE, and in the brilliantly-fought battles of this carrier her fighting skipper won a Legion of Merit with combat "V." The SUWANEE was distinguished with the award of a Presidential Unit citation.

Shortly after VJ day, further distinction in the form of orders as the prospective commanding officer for the then-building large aircraft carrier USS PHILIPPINE SEA followed. After a tour of duty as the first commanding officer of this carrier, which only recently returned to the San Diego area from the Korean hostilities, a course of instruction at the National War College was his next assignment. There followed a tour of duty in the Department of Defense with the Joint Chiefs of Staff, and next the attache's post in London!

rod and rifle ramblings

By George Baker

They (the salmon) are biting great up Crescent City way, according to our old buddy Orrie Priff (also known as Earl Gardner). He just came back from a week there and at Grant's Pass.

Dove season opens throughout the state Monday. White winged doves may be taken only in Imperial County. Hunters of the latter variety of doves will get an additional 15 days over the time allowed in 1951, to conform with the morning dove season in the balance of the state.

Daily bag and possession limit remains at 10 doves, singly or in the aggregate of both species. Shooting will commence at noon, September 1.

Northern Trinity Sportsmen's Association have taken commendable alarm at the growing tendency of vacationers toward taking fawns for "adoption." The state fish and game department also has been aroused by this illegal practice, and has voted to erect signs in the Trinity area warning tourists of the $500 fine for molesting baby deer.

Naval Air's Seagoing Plumbers

The Old Lamp Lighter, North Island Style

Pat Clarke, Public Works Pipefitter, hasn't missed a Monday jaunt to the NAS bomb-target in four years. He and G. L. Bassett, Pump Station Operator, are charged with the detail of keeping the target's light burning at all times, keeping the butane fuel supply adequate. They make a weekly jaunt to the point nine miles off Point Loma (into wonderful fishing waters, incidentally), aboard Bomb Target Boat No. 1, which is manned by an NAS sailor crew.

Bomb Target No. 4 (there used to be three others) is the only target of its type maintained by Naval Air Station. Without its light, it would be a menace to the rather abundant navigation of the waters through the inner channel past the Coronado Islands.

It was a sunny, relatively calm day this Monday just past, when the NORTH ISLANDER's waterfront writer-photog combination did a quick hit-and-run on the departing target—"lamplighters." For Clarke it was strictly routine. For Bassett, it was the first trip. "It's nice today," commented Clarke, 'but sometimes it gets rough. There's nothing like a good stormy Monday aboard a wave-tossed bomb target, to start the week out right,' he continued. But storms, he added, have never stopped the maintenance run. Fogs have, but never storms.

Excitement? Yes, they occasionally run into something out of the ordinary on the bomb-target "cruise." Like getting bombed. "One time," remarked Clarke, somebody didn't get the word, and we were on the raft when planes started dropping bombs nearby. Now the boat radios into Operations when we get within a mile of the target, to insure that no bombing runs are made while we're there."

Yes, North Island's plumbing shop personnel are definitely seagoing.

EASY DOES IT—E. L. Walker, BM3, "skipper" of Bomb Target Boat No. 1, hands butane tank to pipefitter Pat Clarke who has just boarded the boat with G. L. Bassett (right) for regular Monday morning maintenance trip to Bomb Target No. 4, nine miles off Point Loma.

THE PLACE IS **familiar**

Probably the most important building aboard any air station is the operations tower, for it is the nerve center of communications between the station and its planes in the air.

This building plays a most important roll in the operation of the station, for it also acts as the traffic control center, directing planes on when to take off from the field, what runway to use, in what direction the planes should take off and the many other important factors involved. That is only a small part of the work involved, for the planes have to be guided in for their landings, also seeing that runway is clear of all objects and that the previous planes that have landed are sufficiently clear of the landing area. The pilots also have to be instructed on which runway to use and in what direction to make their landing approach.

These are just a few of the many jobs which are handled every day in this all important building—the operations tower.

Chaplain's Corner

Maybe the theme "God's ultimate victory" isn't much more than a frail hope with most of us. Perhaps it seems as though it has been dressed up very much by poets and prayers of the church fathers of long ago and that the idea just isn't natural to real life. There's so much that seems to be set dead against any possibility of the good to triumph. If we take a good look at human nature there doesn't seem to be any noticeable prejudice anywhere in favor of the good. Choose the evil in order to satisfy the "self" appears to be the general theme. For it's the "self" that's all important. Gain whatever you can even at the expense of hurting others. That's the reason for so much grief in the world and it appears that the "worship of the all important self" has destroyed many a marriage and brought much harm to parents and children.

Does the good and the true look a little washed out? If you want to go in for pessimism, there's plenty of room for permanent residence.

However, there is One whom man has not been able to put aside and live as his natural flesh desires. This One is the ever present Christ. You can't wash your hands of him as Pilate tried to do in the long long ago. He still insists on entering into our life and changing things. He keeps wanting us to believe no matter what happens. Fod God, even in our world, is stronger than the devil. Through Christ, love does get the better of hate, if you give it time enough. Honesty triumphs over greed; and purity quickly puts aside lust. In Him is found the ultimate victory.

This Week's News **at a glance**

10 persons died Wednesday in the worst flood to hit Manila in seven years. The disaster also caused injury to at least 30 persons and 21 are still missing in the Philippine capital. Widespread damage to buildings—both commercial and private—resulted with an estimated $1,000,000 damage inflicted on the residents.

The weather continued to rampage over the face of the earth this week as what might be 1952's first hurricane swished across the Atlantic Tuesday. The weather bureau located the increasing storm about 325 miles northeast of San Juan, Puerto Rico—1200 miles southeast of Miami.

Three British war heroes became the first men in history to fly across the Atlantic Ocean in a single day last Tuesday when their Canberra jet bomber spanned the 4,145.58 miles distance in a total of 10 hours, 33 minutes, and 42 seconds. The average speed on the east-west trip was 450 miles an hour and the west-east speed averaged 590 mph.

facts about fire

By M. R. SMITH

Now is the time to begin general inspection, cleaning and servicing of all heating plants, particularly hot air units, wall heaters, below the floor level, furnaces, oil stoves and unit heaters. Safe operation of heatings devices depends in large part on how eficiently the maintenance program is carried out It is especially important to commence this program in time to assure that all heaters will be ready for return to safe operation as cold weather approaches. All stovepipe and heater vents should be inspected for possible corrosion, soot deposits, strength of braces and hangers, and provision of standard clearance to combustible materials.

Safety Precautions For All Types of Space Heaters and Stoves

Specify safe types of heaters. On some appliances there are approvals or listings of agencies like Underwriters' Laboratories, Inc., or the American Gas Association Testing Laboratories which indicate the suitability of appliances for use under certain conditions.

Look for stability when buyan appliance. Buy an appliance which cannot easily be tipped over if jarred or pushed.

Provide adequate clearance from combustible material. Clearance requirements vary for different types of appliances but in general clearances of at least 18 inches to combustible material on all sides and not less than 48 inches above may be considered adequate. Clothing, curtains and other textiles should be kept a safe distance from heating devices.

Consider exits when locating appliances. Location of appliances out of normal travel routes to doorways will permit safe exit of occupants in case of fire.

Assure an adequate air supply for appliances. All fuel burning appliances consume air during operation. Depletion of air in a closed room may cause faulty operation of the appliance and asphyxiation of occupants.

Check your stovepipe. A smokepipe or chimney connection must be provided for all appliances designed for such connections. Safe smokepipes are short and well supported. They should not pass through combustible partitions. Combustible wall construction should be cut away from the pipe where it enters the chimney—18 inches is best but not less than a distance equal to the pipe diameter. Clearance of 18 inches is needed for most smokepipes throughout their entire length.

What a Bargain!

I'm an old familiar product you've seen advertised around. I was one of the standard brands long before brands or standards ever existed. I was just as vital in your great-grandfather's day as I am in yours, and I'll be just as vital in your great-great grandchildren's lives. But in spite of my time-tested pedigree, the retailers claim I have always been a tough one to sell.

What's wrong? Can't be the lack of advertising. I've been displayed in papers and magazines from coast to coast.

What's wrong? Can't be the lack of selling points. I've been a bargain since the dawn of history. What's more, I'm for free. That's right, I've never cost anything. And what do I offer? A few minor advantages like happiness, health, well-being, security . . . and a major advantage like life itself. I don't claim to prevent dandruff or halitosis, but I've been known to prevent human pain, sorrow, tragedy, poverty, death. Not bad for a free product.

What's wrong? Why can't I go over like foamy super duper toothpaste, or those magic girdles which do so much for women who have so much, or those perfumes that cause men to leave home?

I won't deny that it's got me baffled, or that it's brutally discouraging. But don't think for a moment that I'm thinking of calling it quits. No, the campaign will go on. I'll keep hammering away at human waste, indifference, ignorance. I'll sell myself to mankind if it's the last thing I ever do—or else my name isn't SAFETY!

From
"THE GOSPORT"

THAT MAN **friday**

Often we hear fellow-North Islanders comparing California unfavorably with their various home states. In general, California, particularly this part of California, would seem to have none of the virtues of Podunk, Mildew, or East Dogpatch, or wherever the comparison-maker might be from.

"No distinct difference between the four seasons of the year, like we have back home," is one of the more acute plaints. "No forests of tall green trees," is another comment. "Where's all the sunshine?" some ask.

Fact is, that many of these lads and lassies who find their recently chosen California home lacking in variety, or short on the highly advertised sunshine, just haven't taken time to travel a few miles from San Diego to take a look around.

For those who would like sharp variations in climate, there is available to them, within a 200 mile radius, broiling sunshine with a dry 115 degrees, deep-drifted snow and frigid mountain streams flowing among large stands of stately pines, and every conceivable manner of in-between climate. Not too much farther from San Diego, lie Sequoia and Yosemite National Parks, and some really magnificent trees, plus camps and lodges at elevations up to 9,000 feet, where nights are perpetually winter-like but days lend a feeling of springtime though the month is August.

Sure, I am a native Californian. You must have guessed it by now. But I have been to Podunk, Mildew, and so forth, as represented by 32 states. I recall vividly that each part of this great country I've seen is beautiful in its own way. But actually, it is most difficult to find any place in the country that cannot be matched nicely by one or another California spot.

What I am driving at in this case is this: Coming up this weekend is the 3-day Labor Day holiday, and a great opportunity to find out first hand what some of the beauty spots of the state really look like. From the out-of-stater's point of view, these places may still fall a bit short of home, as he remembers it, but he will be forced to admit that the variety is there in plenty.

Leave here by automobile Friday night, and you may have the splendor of the Sierras, with tall timber, rushing trout-streams, and blue lakes; or Palm Springs, and the inland desert with mining camps and ghost towns of an earlier day, and the vinyards and orchards of the Central Valley. Two days to enjoy and relax, and Monday left to drive home.

And above all, drive carefully. Ye're certain that you'll enjoy the trip well enough that you'll want to live to go again.

The NORTH ISLANDER
Vol. XI August 29, 1952 No. 35

THE CURTAIN RAISER at Tuesday's Variety Show featured most of the guys and gals who contributed to making the show such a great success. Some of the girls are pictured as they help in "getting the show on the road."

SONGSTRESS - IMPERSONATOR, Joan Wilson, made her first dynamic appearance in a solo number, but returned later with "two cats" to become the 'canary' in a trio that gave their version of a night at the opera.

Backstage at The Big Variety Show

"Professional caliber" is the only phrase to amply describe last Tuesday evening's Variety Show presented in the NAS theater under the auspices of the East San Diego Navy Mothers No. 477 through the efforts of Mrs. Ingalf M. Halverson. It didn't take the audience long to realie that either, and by the end of the first act, the performers "had 'em in the aisles"!

Composed entirely of local talent, the show had EVERYTHING . . . comedians, trumpeters, dancers, vocalists, team acts, twirlers. The performers ranged in age from 2 to 22, but their abilities soared far beyond their years.

The show opened with a special "curtain raiser" featuring most of the guys and gals in formal attire. One after another from then on, the acts introduced versatile talent and colorful staging seldom seen in shows of this type.

One of the high points of the evening—and there were many—was the comedy-song routine presented by the "Two Cats and the Canary" who did their interpretation of a night at the opera. The trio consisted of Ole Kittleson, Joan Wilson, and Jack Stump.

Other talented showmen included Phyllis Fleming, twirler; Deeann Johnson, singer, Francis Metloch and Ole Kittleson in their "Pier Five" dance routine; Jeanette Gauze and Sharon Amen, dancers; Jackie Smithwick, vocalist, Jack Stump, trumpeter, and Sharon Barkum, vocalist, Rusty Williams and Linda Wilson, "Up-Towners". MC was Patti Thompson and Mrs. Marien Kittleson, pianist.

DANCERS EXTRAORDINARY, Jeanette Gauze and Sharon Amen, take a last minute check before going on stage.

COUPLE - ABOUT - TOWN, Linda Wilson and Rusty Williams, made a big hit with the NAS audience with their metropolitan song routine.

movie menu

SATURDAY, August 30—"SON OF ALI BABA," starring Tony Curtis and Piper Laurie.
No review.
SHORT: "Mess Production" and "Open That Golden Gate."
Running time, 1 hour and 49 minutes.

SUNDAY and MONDAY, August 31 and September 1—"JUST FOR YOU," starring Bing Crosby, Jane Wyman and Ethel Barrymore. Jordan Blake (Bing Crosby), a widower, is busy with the final dress rehearsal of a musical show in which Caroline Hill (Jane Wyman) is starred when the problems of his 'teen-age son (Robert Arthur) and daughter (Natalie Wood) intrude themselves. Jerry stays through the rehearsal to discuss his college songwriting efforts with his father. Barbara, the daughter, gets involved with the police when her governess goes for a drink. The scene shifts to an Adirondack lake where Crosby unwittingly paves the way for his daughter's entrance into an exclusive school by Allida de Bronkhart (Ethel Barrymore).
SHORT: "Memory to Al Jolson."
Running time, 2 hours.

TUESDAY and WEDNESDAY, September 2 and 3—"LES MISERABLES," starring Valentina Cortesa, Gino Cervi and John Hinrich. Jean Valjean (Gino Cervi), an embittered ex-convict undergoes a metamorphosis when a kindly bishop, from whom he has stolen silver candlesticks, protects him from the police. Years later, Valjean has become a prosperous and respected man but when he protects a sick girl, Fantine (Valentina Cortesa), from the police, the police sergeant, Javert, recognizes Valjean, takes his young daughter, Cosette, and goes to another town.
SHORT: "Push Button Kitty."
Running time, 1 hour and 58 minutes.

THURSDAY and FRIDAY, September 4 and 5—"BONZO GOES TO COLLEGE," starring Maurine O'Hara and Edmund Gwenn.
Sorry, no preview here either.
SHORT: "Gag and Baggage" and "Snow Frolicks."
Running time, 1 hour and 53 minutes.

Capt. Sullivan Awarded The Legion of Merit

CAPT Dennis J. Sullivan, USN, former commanding officer of the aircraft carrier USS BOXER, has been awarded the Legion of Merit by VADM J. J. Clark, Commander SEVENTH Fleet.

Present skipper of the carrier is CAPT Marshall B. Gurney, USN.

CAPT Sullivan received the Navy's fifth highest award for the efficient manner in which he portrayed inspirational leadership, courage, foresight, and sound knowledge and planning combat air operations. His actions contributed materially to the success of the United Nations forces in Korea.

For his exceptional military duties during World War II, he earned the Navy Cross, the Bronze Star, Presidential Unit Citation, and the Navy Unit Citation.

Since the war he has served in the Bureau of Ordnance, Navy Department; two years as Chief of Staff, Commander Carrier Division 15; and was a student at the Industrial College of the Armed Forces prior to taking command of the BOXER in August, 1951.

Meet CWOHC Callahan

This week's column introduces CWOHC T. J. Callahan, the Administration Officer for the Infirmary Annex.

Mr. Callahan enlisted in the United States Navy on June 7, 1938, in Philadelaphia, Penna., and was ordered to Norfolk, Va., where he took his boot training. Upon completion of boot camp he served aboard the USS CHESTER from November, 1938, to February of 1940 as a seaman in the deck force.

He then received orders to report to the Naval Hospital, San Diego, where he attended the Hospitalman's School. This period of schooling lasted from February, 1940, until April, 1940, and upon completion of the school he remained at the Naval Hospital until March of 1941, when he was transferred to the Naval Hospital in Jacksonville, Fla. He remained at Jacksonville from May, 1941, until November of 1942.

In November, 1942, Mr. Callahan was shipped overseas with a Pontoon Assembly Detachment and served in New Caledonia and the Russell Islands. Mr. Callahan was promoted to the temporary rank of warrant officer in April of 1945 while he was stationed at the Amphibious Base in Coronado.

Previous to undergoing instruction at NNMC in June, 1946, Mr. Callahan returned to the Naval Hospital for several months duty. Upon completion of this instruction, Mr. Callahan received orders for NAS, Miramar.

Upon completion of duty at Miramar in October, 1946, Mr. Callahan was sent to the Receiving Station in Philadelphia where he reverted back to his permanent rank as Chief Petty Officer. Mr. Callahan then reported aboard the USS J. P. KENNEDY (DD-850) which made a European cruise which lasted until November, 1948.

Mr. Callahan again made Warrant Officer on May 9, 1951 and received orders to report to the Bureau of Medicine and Surgery in Washington, D.C. On June 1, 1951, Mr. Callahan reported to NAS North Island, and a year later received his permanent commission as CWOHC.

USAFI Adds Courses

(Continued from Page 1)

dents who are interested in a pondence study as CA 495. Stucorrespondence course should enroll in CA 495, which includes fourteen lessons. Students wishing to enroll individually and not submit lessons should enroll in Either the correspondence or the self-teaching course MA 495. Either the correspondence or the self-teaching may be completed by passing the end-of-course test.

notes from VC-35

The leading chief's office for this squadron is now located in Hangar 309, the spaces formerly occupied by the First Lieutenant's Office.

The squadron is really knee-deep in brother teams and just last Monday, a father-son combination was added to the roster. William Strom, CSSN, checked into the squadron to join his father, Herman W. Strom, AMS2. The Stroms at the present time are residing in San Diego. They are from Oakland.

The squadron roster shows that we have six sets of brothers. From Ford, N. J., comes Donald W., AD1, and Russell, AA, Schmehl. Both are at sea. The Madonna brothers, Richard F., SN, and James A., SA, came from Paramount, Calif. The Phillips family of Pampa, Tex., add to the squadron mail pouch with letters to William D., AN, and Mente L., AA. Again, from below the Mason-Dixon line, we have Bennie Bachle, AM2, and Charles E. Bacle, AD3. They call Mangham, La., home. From the Sunflower State of Kansas, comes two brother teams — Donald P., and Thomas P. Hennings, both AN's, from Kingman and Thomas J. Weyrauch, AD3, and his brother, John F., SA, from Howard.

From the sports scene comes a familiar vision. The squadron football team is leading the competition with 7 wins and no defeats. Following close behind is the ever-threatening Fairbetupac with a record of 5 to 0.

So far, this season no defense has been able to stop our good offense nor has the opponent's offense been able to penetrate the powerful defense of the VC-35 squad. While the offensive team has piled up 127 points, the defensive team has had their goal line crossed for two tallies, once by PAMI and once by Fasron 7.

LT C. C. Rock and LTJG T. L. Lague joined the squadron this week and so we say, "Glad to have you aboard!"

Our "Curtis-Wright" pilots departed for Fawtupac in Hawaii. They are LT's Charles Curtis and W. S. Wright.

electrons

By "Windy" Splichal

C. P. Schults is back at work after a three weeks' leave. We won't refer to it as a vacation, as he did up all the odd jobs around the house.

Mary Robers has been on the sick list for a few weeks but is back to work now.

Ralph Marling has been home on leave for the past week entertaining his brother and wife visiting with him from Iowa.

Bill Middleton is still all smiles because he copped four Blue Ribbons in the Flower show. He entered 12 Dahlias and won ribbons on the four. Congratulations, and keep up the good work!

Ruth Daehler celebrated her birthday this past week, and as a gift from her husband, her diamond was set in a lovely new setting.

P. D. Havaland, Johnny Poe, Russ Keltner, W. P. Lewis, and I. J. Bieri went fishing on the barge last weekend. Baracuda and bass were caught.

R. I. Emmons returned from two weeks' military training in Arizona.

Lonnie Woods returned after a vacation spent on his ranch in Arizona. The weather was fine and Lonnie returned with a wonderful coat of tan.

Joseph Worden and his wife spent three weeks' vacation in Seattle, Washington. Joseph went fishing for trout and caught a 22-lb. King Salmon on very light tackle. It took him nearly three hours to land the fish, but it sure was good eating. Some were canned and brought home to enjoy in the weeks to come.

This is a busy 3-day weekend and the highways and byways will be filled with traffic of people leaving and returning from vacation trips. Drive with care, go slow, be courteous—We want YOU to return to NAS. Skilled help is hard to find!

By B. Dreher

In the new baby department is Patricia Deatherage who was born at the Balboa Hospital July 28. Pat's father, W. E. DEATHERAGE, gave out 10c cigars to the fellows in Shop 6222 which made everyone happy.

It is rumored that JOHN BURNLEY has the agency for magnesium crankcase plugs and already has several buyers lined up—JOE OSWALD is one of his best customers to date. With so much advertising—stock is bound to go up. "It is rumored that magnesium can be used as a deodorizer, but even at that the whole deal stinks," sez a certain individual.

Just for the record—LEONARD CARTWRIGHT of Shop 6276 recently won a main event at a jalopy derby—after three years of trying. Now we want to hear the same news about the "mighty midget" racer in Shop 6201.

PAUL SCHAUBEL, Shop 6251, left August 23, and he and his wife have headed for Oregon to visit his mother at Salem and other relatives and friends around Portland.

J. CHAVEZ of Shop 6234 is now the father of a seven pound baby boy by the name of Herman, born August 7, 1952.

BOB EVEN of the Bearing Shop was plenty happy last week when his son returned home after 21 months on the Korean front. Sgt. Even, a mere six foot seven, will soon be discharged.

J. MURPHREE, Shop 6246, took three weeks leave to visit the Mayo Clinic at Rochester, Minn.

Lots of deer hunters matching stories with the Isaac Waltons these days. E. M. SOLOMON and L. E. BREY of Shop 6222 went deer hunting in Los Angeles County recently while BOB BIRCHFIELD, Shop 6246, has about busted all the buttons off his vest the past week. He bagged his deer the first day of the season. PETE FERNANDEZ, of the same shop, feels pretty good even if he didn't get a deer because his 15 year old son bagged one—and it was his first hunting trip!

THOMAS WALSTON of Shop 6246 recently returned from a trip to Bishop and says that while he did not catch more fish than the rest of his party combined, he did plenty good and hopes to try for more of the same—soon.

Won't be seeing F. D. MURPHY and C. J. MORRIS, Shop 6246, for awhile. Both are in San Diego on a tour of jury duty.

MABEL EVANS, Shop 6203, recently moved into the new home of the Evans' family in Chula Vista.

legion notes

Last Friday evening the North Island Service Post 753 and its Auxiliary held its annual spaghetti dinner. There were over three hundred members and guests served. Everyone had a wonderful time, but the children really had a treat when Johnny Wilburn acted as the master-of-ceremonies and held various games and contests for the kids.

Many thanks to all the girls of the Auxiliary who did such a marvelous job of preparing the food and helping out with their donations of cakes for desserts. Special thanks are sent to Nettie Fuentes who worked for two days prior to the dinner preparing the sauce.

The Marines, the Army and the Navy had representation on the mess line—George Little, of the Marines, Ernie Powell of the Army, and John Rixon of the Navy. Of course, these boys are civilians now, but are former members of these branches of the service.

The post is very proud of its Auxiliary and hopes to have many more socials which are given jointly.

The post is planning a dance for the September social. It will be held at the Veteran's Memorial Hall, Balboa Park, on September the 27th, at 8 p.m. Tickets are now available. Get your early. Lots of good music and fun is planned.

The next regular meeting will be held on Thursday the 11th of September. Plan to attend. This is the beginning of a new and very harmonious year and we must all do our part to bring back old members as well as sign up new ones. Keep in mind at all times that the post has set a goal of 753 members for this year and it will take the hard work of each and every member to attain our goal.

Edmund I. Splichal sends his best wishes to his fellow members of the post. He is due to return to the States on December 20th. This is some time later than he first thought he would return, but he is looking forward to spending the new year with his friends from the post.

TALKING OVER STRATEGY WITH HIS RIDER IS RUDOLPH, the best player in the Donkey League. Incidentally, his rider is Mac McCombs, of FAU. During the affair, this team of Rudolph and Mac played flawless ball; in fact, they didn't move during the entire game.

Skyraiders Defeat FAW-14 In "Donkey-Ball" Escapade

Last Monday night, the Naval Air Skyraiders and the Fleet Air Wing 14 tangled in a softball extravaganza with the benefit of donkeys. The game, which incidentally ended in a 17-11 win for the Skyraiders, proved that a ball player on a donkey is no better than no ball-player at all.

Typical Series of Events

A typical play would occur something like this: The batter is Hap Ivey. Ivey smashes a long drive into deep left centerfield. The ball is rolling between the left and centerfield donkeys as they stubbornly resist the chase. With a base hit clearly in sight, Ivey leaps aboard his mount for the sprint to first. He's up, he's down, he's up again and rounding first. The fielders are nearing the ball as Ivey trots toward third. Now he's streaking toward home as the ball arrives in plenty of time, but it so happens that the third baseman's donkey won't turn around so Ivey crosses the plate safely.

What happened to the notoriously fast game of softball? The entire play just re-enacted took exactly 8 minutes to complete, and Ivey was on one of the faster of the long-eared critters.

Fans Enjoy Night of 'Whoa Mule'

Despite the slight similarity between this and a softball game, the fans lining the foul lines enjoyed the circus-like doings of the teams. It wasn't so much how much one team was going to score, or who was going to win, but the main point of interest was seeing who was going to be the next to get the donkey with the bad temperament; therefore more than likely land on the deck two or three times for his effort.

HOLLIS LUCAS MOUNTS HIS FLYING STEED just prior to his lengthy trip to first base. This action was seen during the Donkey Ball Game played at Murray Field last Monday night. After the dust had cleared, the Skyraiders had won the fray.

Captain's Cup Lowdown

By Walt Breeland

The Captain's Cup program has been at a standstill this week as far as any competitive games are concerned, however the various teams that have entered the touch football league, have been working out strenuously each day. We have talked with members of most of the teams and they have all assumed that their team will be at the top when the season ends. This is the kind of talk we like to hear because when everyone feels that their team has the ability to take the championship, you can bet the competition will be tough and rugged.

The Marine Barracks, who in the past haven't been too active in Capt. Cup Sports, promises to be one of the toughest teams in the touch football league this season. S. A. Brown, L. A. Benivades, D. J. Hagge, V. Haekins, and J. V. Martinez are some of the "Troops in Khaki" who will be playing on this team and all have three or four years of varsity high school experience. For our money the Marines will be top contenders for the title.

What's the Catch?

This week fishing slowed down perceptibly. Best catches were reported off South Island with barracuda and calico bass being taken.

naga news

The Naval Air Skyraiders defeated the El Toro Golf team, 20-0, in a league match played last Thursday, August 21. The match was held at Rancho Santa Fe with Charlie Bartlett of the 'Raiders carding a 71 for the low score. Tanner and Sota followed closely to give the Airmen a victory.

All units on the Naval Air Station who have a golf team, are requested to notify the golf shack. This will aid in forming the Winter League.

The next monthly ACE Tourney will be held September 3 through September 10.

airpac's sportlight

By BOB SWISHER

For the second consecutive year, VC-35's touch football team romped away with the AirPac intramural crown. The 35ers completed an all-victorious 10-game season Tuesday by winning a forfeit from fourth-place Faetupac.

A bitterly-fought 14-6 decision over PAMI on the second day of the season was the final margin of victory for VC-35. Since then, PAMI has rolled along undefeated, finishing in second place with a 9-1 record. Third place is currently held by VS-25 with a 7-3 mark. Faetupac with two games remaining to play, has a 5-3 slate.

A series of stunning upsets has turned the Major league of the softball circuit into a wide-open affair. Just a week ago VC-11 was coasting along with an undefeated record when suddenly they were upended by Fasron-691. Then Monday, fast-rising FAW-14 scored a 13-7 win over the Comets.

However the twin-defeats did not unseat VC-11 from the top rung. Fasron-110, which had been their closest rival, was also dumped twice by FAW-14 and Faetupac. In the Faetupac game, 110 had a comfortable 4-0 lead with two away in the final inning, when suddenly pitcher Vern Herrem lost his control and walked six straight men. This, combined with a base hit and an error, gave the Raiders the five necessary runs.

pigskin previews

LCDR CHESTER CHAPMAN— A veteran of 10 years of coaching, "Chappie" will act as defensive line coach for the Skyraiders. Last season, he was the assistant coach at NAS, Atsugi. His coaching career includes seven years as line coach at Davidson College, N. C., and one year of coaching the Richmond Rebels professional team. He played his college ball at Bowling Green College of Ohio where he was both a tackle and guard. LCDR Chapman was born at Asheville, N. C., but attended high school at Bowling Green. He was recalled to active duty in the fall of 1950.

LCDR C. Chapman

LCDR EARL C. POWDRELL— A newcomer to the coaching game, coach Powdrell led the Agana Flyers of the 1951 inter-service league to the league championship of Guam his first year as a coach. A graduate of Penn State College, Powdrell played two years varsity end. Shortly after graduation he entered business as a salesman. He was commissioned and ordered to active duty in Sept. 1942. Released from the Navy in 1946, he was recalled in August, 1950. LCDR Powdrell's hometown is Randolph, Conn., although he attended University Prep High School, located in Boston, Mass.

LCDR E. C. Powdrell

corner on sports

By GEORGE BERGMAN

GRIDIRON GRIST—

Another Skyraider just took off for a fling at civilian style football. He is **Gary "Gee-Gee" Glick,** veteran fullback, end, linebacker, guard, and maybe half a dozen other things, in addition to being quite a softball player on occasion. Gary, who made second string All-Navy at full in 1950, and who was shelved much of last season by an ankle injury incurred in a softball game, made his final Navy appearance in the L.A. Ram game Aug. 8, is slated for Colorado A & M, where we figure he's a good bet to make the grade both in football and scholastically.

Don "Cakey" Baker, for four years the scourge of Navy gridirons up and down the coast, and mentioned on every service all-star selection for that period, will be doing his ball-toting for North Texas State, at Denton, Texas, this season. Baker, who holds the all time Naval Air aggregate record of 108 points (18 touchdowns during 1947-48-50), did this feat despite the fact that it was the forward pass which brought him his greatest fame. It would be difficult to recount how many more touchdowns were the result of his pitching arm.

In last year's Camp Pendleton "upset" alone, Baker chucked strikes to touchdown bound receivers with miraculous precision to completely befuddle the host of Marine professionals and collegiate stars who were supposed to spell impregnable defense. He was the kingpin of that famous 28-27 victory, one of his last two games before discharge.

With Baker will be another of the all-time Naval Air football greats, **Ray Verkerk,** tackle. During his 3 years with Naval Air's varied grid destinies, it was hard to tell whether Verk was on the defensive or the offensive squad, he played so many near-60-minute games.

If the rest of the material at North Texas is as good as the two recruits they obtained from the Skyraiders, the Denton outfit should be one of the toughest minor-league football teams in the nation this fall, and for the next two or three years.

LOOKING 'WAY AHEAD—

It isn't too early in the year for basketball fans to begin wondering what the Skyraider hoop squad is going to look like this year. Looks from here like a considerable rebuild job will be necessary. What reminded us of basketball this week, was our chance meeting with **Paul Scantland,** who for two seasons was "Mr. Basketball" on North Island, prior to his departure for sea duty.

Footballers Begin Drills As BYU Fracas Draws Near

The Naval Air Skyraiders begin serious practice for the forthcoming season next Tuesday. The team, 70 strong at the present, will be cut down to approximately 55 by the time the game against Brigham Young University is played September 19.

Coach Johnson Attends "T" Clinic

Football coach Dean Johnson returned last Monday from a Football Clinic held at California Polytechnic College at San Luis Obispo. The school, which stressed the split "T" formation, was headed by Dud DeGroot, former coach of the once highly regarded San Jose teams. The clinic, which was attended by many service coaches, including Tay Brown of NTC, proved to be valuable as an organizational aid to the attending coaches.

Practice Switched to A.M.

All-out practice, which begins Tuesday, has been switched to the morning hours. Prior to the Ram game, the 'Raiders worked out in the afternoon, but because of more convenient schedules, the team will now work out in the morning.

First Two Games Tough

The Skyraiders have drawn for their first two games the always tough teams of Brigham Young University of Provo, Utah, and the California Ramblers, the junior varsity of the University of California.

The BYU game, which will be played in Provo, Utah, on the 19th of September, will pit the Skyraiders against that team for the first time. Against other service teams, the BYU team has broken even by winning and losing an equal amount.

Team to Be Trimmed

Of the nearly 70 men now on the squad, some 10 to 20 will be cut to conform with the policy of carrying approximately 55 men. The workouts in the next few weeks should be interesting with the men fighting for their positions on the Skyraider roster.

Oldest HO3S Goes to Navy's Youngest Helicopter Squad

LT J. A. Prew, Maintenance Officer for Helicopter Anti-Submarine Squadron FOUR, and LT T. R. Griffith, Assistant Maintenance Officer, are shown receiving the second oldest HO3S in the Navy for the youngest helicopter squadron.

The HO3S was first commissioned in October, 1947, compared to HS-4's commissioning date—June, 1952. "The Horse" as it is affectionally known by the squadron, has spent most of its duty in Korean waters. While assigned to the USS MANCHESTER, it obtained a few battle scars from small arms fire. The blades were hit and had to be replaced. The HO3S having been transferred approximately thirty-five times will now be retired to pasture with HS-4 for the remaining time of its second service tour.

With a few minor repairs, a paint job, and some "elbow grease" by its plane captain, G. E. Woolet, AD1, "The Horse" has been up practically 100 per cent while with HS-4, and if it could only talk, it could probably tell some interesting stories of its navy career.

Modern '49ers

Present methods of prospecting in the southwestern United States for precious metals have changed little since man first discovered gold in "them thar hills." It is true there are modern methods in use, such as Gieger counters and black lights but motivation is still of that old and ancient means, "just plain walking." If the terrain is not too rugged and one enjoys company, he may be accompanied by a pack horse or burro.

HU-1 was recently called upon to furnish a helicopter to assist federal agents in checking mining claims in the Chocolate Mountain area northeast of El Centro. This area consists of desert with mountain peaks up to 2500 feet. Temperatures often exceed 140° at mid-day and the only signs of life are rattlesnakes, Gila monsters and, of course, prospectors. Vegetation is limited to greaswood, cactus and sagebrush.

With NAAS El Centro as an operating base, necessary equipment was carefully assembled and stowed in UP-29, the only "plush job" HO3S type helicopter on the coast. Mr. Joe Kendrig, whose address is just "Imperial County," and who boasts 35 years of mountain and desert prospecting in the southwestern United States, was a passenger on the trip.

Upon reaching the Chocolate Mountains, some unusual operating conditions for helicopters were encountered—mainly wind, heat, and altitude.

Gold is where you find it, be it in a deep valley or on a mountain peak, man has to track it down. Although some claims were situated in terrain that required 20 days to travel by foot, UP-29 was able to "sit down" within a couple of yards of a desired position in only a few hours. On one occasion this was at the top of a 2500 foot peak with only room for the wheels and none left over.

The inspection trip was a huge success, the prospectors and miners were quite surprised when UP-29 sat down on their claim. They were glad to hear from the outside world and curious. As they examined the helicopter with its plush cabin trimmed in light blue and grey and could not help looking at their burros in disgust.

VU-3K Team Wins Again 10 to 2

Utility Squadron THREE knocked off the number one challenger to first place, by defeating HU-1, 10 to 2 on Buchi Field last Thursday.

The team picked up five runs in the first two innings and four big runs in the third when English was hit by a pitched ball and Sufficool sacrificed him to second. Zimmerle was safe on an error on the shortstop scoring English from second base. Paul Steege singled senling Zimmerle to third. Price followed with a steaming single to left scoring Zimmerle and pushing Steege to the corner sack. Meehan drove a long single to center that brought Steege in for the third run. Team captain, "Dip" French batted in Price with a single to end the scoring.

"Buck" Meehan allowed but two hits as he won his seventh consecutive win of the second quarter.

STANDINGS AS OF AUGUST 21ST

	W	L	Avg.	behind

Chief Ira Duncan Retires After 31 Years in Service

Ira M. Duncan, AMC, of Utility Squadron THREE, was piped ashore by the bosun in ceremonies recently while eight of his fellow chief petty officers stood by as honor guards to give him special honors as he retired after thirty-one years of Naval service.

Ira M. Duncan, AMC

Receiving a gold wristwatch from the crew and the appreciation from CDR C.D. Huston, skipper of VU-3K, for his long service and his devotion to duty. Looking back over a career that spanned 31 years, Duncan has spent almost the entire time in naval aviation.

He enlisted in the Navy, December 28, 1920, in Indianapolis, Ind., and was sent to NTC Great Lakes for recruit training. After graduating from aviation mech. school, he was transferred to NAS North Island where he spent 11 years and four months in utility at the air station. It was during this period that he was promoted to CPO in 1931. In the early twenties he served under an Ensign Erdmann, who we all know as RADM W.L. Erdmann, Commanding Officer of NAS North Island, at present. It was during this period, that they chased jackrabbits off of North Island and the Navy had wooden airplanes.

In 1935 he was sent to VP-1, Pearl Harbor, for two-and-a-half year. 1935 found him at NAS Pensacola for the next three years. He was transferred to VP-12 at North Island, but after a short stay, he was transferred to the USS LANGLEY, which was converted to a seaplane tender from a carrier. After spending time at Cavite in the Philippines he returned to North Island with VP-11.

In 1941, VP-11 was based at Pearl Harbor when the war started. On December 7th of that year, Duncan found himself on his way to Wake Island, but orders were changed and he returned to his squadron. While in the Islands, he served with VP-21 and VP-44 before returning once again to North Island and Fleet Air Wing 14 in 1944.

In 1946, he saw service with VR-12 and in the same year he served at NAS Alameda for three years. In 1950 he again returned to his favorite air station, North Island, where he was placed in utilities and ultimately he arrived at VU-3K.

Chief Duncan also has a son in the Navy. He is V. J. Duncan, also a AMC, now serving at NAS Miramar, After young Duncan finished his boot training in 1938, he served with his dad at North Island.

Chief Duncan resides with his wife at 4393 Yale Ave., in La Mesa, where he plans to take life easy for a while. His other child, Dorothy, and his son, have presented him with four grandchildren that take up all his time. As far as a hobby is concerned, "fixing the toys of my four grandchildren is the biggest hobby in the world."

Duncan's advice to the young sailors of today is, "follow the book of the Navy. If you follow the book, your life in the naval service will turn out all right."

Hellcat Sets New Nolo Record for Ream Group

Old Number 84, F6F Hellcat of Utility Squadron THREE, the grandpappy of the squadron, successfully completed its seventeenth Nolo, "solo," for a VU-3K record, formerly held by another F6F, which had fifteen to its credit.

Radio controlled drones, the main occupation of the squadron besides KD work, serves the fleet for gunnery exercises. These drones are used in all phases of aerial attacks on surface craft. Whether its torpedo runs dive bombing, or horizontal bombing runs, actual battle conditions are practiced with the lead plane guiding the Nolo on its dummy attacks.

Number 84, a real veteran of the squadron is in the capable hands of William K. Carson, AN, plane captain of the aircraft. It's a team that makes these Nolos so successful. From the plane captain, the Maintenance Department, and the Engineering Department, to the pilots in the lead planes and the radio control cart on the ground, Utility Squadron THREE can be justly proud of No. 84 and its record seventeenth Nolo.

William K. Carson, AN, plane captain of Number 84, is shown pointing to its record 17th record Nolo.

Remember, if you get killed getting there, you'll have no comeback.

HU-1 Unit Five Returns to NAS

Arriving at the Naval Air Station on board the Aircraft Carrier USS BATAAN last Tuesday, August 26, was Helicopter Unit Five.

Unit Five served aboard the BATAAN during the seven months she was in the Korean area, providing helicopter services consisting of plane guard, personnel transfer, mail delivery, and on Sundays the ship's chaplain was flown to the escorting ships to conduct services.

Officer in Charge was LT W. L. Berkey, Assistant Officer in Charge was LTJG R. F. Culver. Crew Chief was H. F. Cline, ARC; other members of the crew consisted of V. E. Watts, AD1; G. Patryzyn, AE2; D. J. Cowser, AD3; E. W. Bledsoe, AM3, and G. Parchinsky, ADAN.

Time saved at the price of an accident is no bargain.

ALF REAM
MOVIE SCHEDULES

FRIDAY, 29 August—"MERRY WIDOW," starring Lana Turner and Fernando Lamas.
Short: "OILY HARE"

SATURDAY, 30 August—"DREAMBOAT," starring Clifton Webb and Ginger Rogers.
Shorts: "FUN AT THE FAIR" and "HIGH STEPPIN' TROTTERS"

SUNDAY and MONDAY, 31 August and 1 September—"AFFAIR IN TRINIDAD," staring Gay Cooper and All-Star cast.
Short: "CRACKED QUACK"

TUESDAY and WEDNESDAY, 2 and 3 September—"JUST FOR YOU," starring Bing Crosby and Jane Wyman.
Short: "MEMORY TO AL JOLSON"

THURSDAY, 4 September—"LES MISERABLES," starring Michael Rennie and Debra Paget.
Short: "PUSH BUTTON KITTY"

Answer to Puzzle

RADM W. L. Erdmann Leaves Island; CAPT W. F. Rodee New Station CO

The NORTH ISLANDER
U. S. NAVAL AIR STATION

VOL. VIII SAN DIEGO, CALIFORNIA, FRIDAY, SEPTEMBER 5, 1952 No. 36

Former Commanding Officer to Be Commander Carrier Div. 14

RADM W. L. Erdmann, who was relieved as Commanding Officer of the U. S. Naval Air Station last Monday by the station's Executive Officer, CDR Page Knight, has been named Commander, Carrier Division 14, according to an announcement made recently. His flagship is presently located at Quonset Point, R. I.

RADM Erdmann, a graduate in the Naval Academy Class of 1924, reported aboard this activity May 4, 1950. He had commanded the aircraft carrier USS LEYTE prior to assuming command of this station.

CAPT W. F. Rodee, who has been ordered as commanding officer, was recently relieved of command of the carrier USS ESSEX. The exact date of his arrival at NAS has not been announced.

Davis Amendment Limits Promotions

Within eight months, a "substantial number" of lieutenants will be reverted to lieutenants junior grade. In addition, all promotions within the Navy will be kept to a minimum to comply with the provisions of the "Davis Amendment" to the Defense Appropriation Bill, it was announced.

Most critically affected in the limitations will be those officers in the grade of lieutenant. Not only will a number of present lieutenants be reduced in rank, but all promotions to this grade will halt in fiscal 1953.

As a result, about 1,500 Navy lieutenants junior grade who were recently promoted to lieutenant will be reverted to their previous rank.

According to official calculations approximately 5,000 lieutenants are being considered for reversion to lieutenant junior grade. However, reliable sources indicate that many of these might be absorbed while others might come under a new release program still in the planning stages.

The Navy will continue, as far as possible, promotions to grades higher than lieutenant in order to reduce the number of lieutenants who must be cut. But the rider does not affect officers in the grades of lieutenant junior grade and ensign.

The number of officers promoted to commander will be trimmed about 49 percent and their promotions will be delayed about five months. Proportionately, an even greater cut will be made in lieutenant commander promotions.

The Navy said it will try to persuade Congress to remove the Davis Amendment as soon as possible. The rider's restrictions center on the grade of lieutenant largely because most experienced Naval Reserve officers recalled to duty hold that rank. Official information will be promulgated at a later date.

NIA $ponsors $tation Wide Drive to Cut Accidents

In keeping with the necessity for efficiency and economy in governmental activities, the North Island Association, comprised of approximately 4,000 employees of this activity, has just announced an original safety slogan contest open to all civilians.

This contest is the first of its kind for this station. It is hoped that the response and interest fostered are such that the worthwhile objectives below are fully attained.

The NIA is attempting to further safety consciousness through this contest in order to effect economy for the station and for the employee. It cannot be over-emphasized that the Navy does NOT have plenty of money. Service demands and schedules are heavy but budgetary limitations are more stringent than ever; economy must be the watchword. Part of our operating allowance goes to defray the costs of accidents: the time lost, treatment expenses, material and equipment damaged, production stoppage, compensation payments, and all of the other expensive consequences of accidents. Can't this unnecessary expense be reduced? It is not too difficult to see that if operating expenses are cut by reductions in accidents, the taxes to pay those operating expenses can be slashed accordingly.

One further thought: a reduction in accidents will spell less pain and inconveniences for the employee. What better way to save money than an improvement in attitude toward safety which will also mean more health and happiness for you and your family?

You are eligible for further gain from the contest: the monthly first prize of $10.00 for the best original safety slogan. There are two additional prizes of one-year membership, or extension of membership, in the NIA.

Use the entry blank at the end of this article for your submission which should be as short and striking as possible. Any aspect of safety may be emphasized: industrial, office, home, motor vehicle, etc. You may submit as many entries as you wish, the contest will continue until further notice. Additional blanks are available at the Safety Division, extension 1071 or 1072. Fill out the blank completely and drop it in the nearest Beneficial Suggestion box.

All civilian employees are eligible with the exception of the officers and Board of Directors of the North Island Association, the judges of the contest and close relatives of anyone of this group.

The Safety Division of the Industrial Relations Department will aid in determining originality. The following NIA members

(Continued on Page 5)

'Travel Money Is Taxable' Civilians, Military Reminded

Civilian and military personnel are reminded that travel money and per diem reimbursements are now subject to income tax. In the matter of deducting actual expenses incurred against these disbursements, individuals should consult the booklet prepared and distributed by the Bureau of Internal Revenue on this subject.

This money will not be included on the annual statements of earnings distributed to personnel by the disbursing office. Record of these amounts must be maintained by the personnel themselves.

According to a recent Bureau of Supplies & Accounts Manual revision (Instruction Memo 22-10), certain items of income other than pay, such as mileage and per diem reimbursements which are received because of service in the Navy, but which are not credited on the military pay records, also may be subject to income tax, and must be reported by the member on his income tax return in the same manner as income from outside sources.

United Fund Drive Opens Here Oct. 1

This year's drive for the raising of funds for all legitimate charities in existence in this area will be combined into a single "United Fund Campaign," according to a station notice. This will reduce duplication of effort, manpower, and expense caused by heretofore separate solicitations for each charitable institution.

Slogan for this year's campaign, which lasts from September 1 through November, is "Give Where You Work," LCDR J. L. Morrissey is chairman for the drive on Naval Air Station. Each department is to provide its own coordinating and solicitation organization. A preliminary meeting of these groups will be held with LCDR Morrissey at 1330 September 9, in the Bldg. 8 auditorium.

Included in the single United Fund campaign are the following agencies: The Community Chest, American Red Cross, American Cancer Society, Heart Fund. Each of these will receive either a prorata share of funds raised by the United Fund Campaign or receive amounts stipulated by the donor(s).

NIP Prepares for New Variety Show

Rehearsals for a new presentation by the North Island Productions, to be in the form of a variety show, began this week, according to the NAS Special Services division.

This show, expected to tour all military installations in this vicinity, will be programmed and staged by Buddy Viotti, AA, and Skip Young, AF3, doing the music and comedy-MC work respectively. They will be aided in this project by a chorus line of 12 beautiful girls furnished by a local dance studio. Other acts include a high wire and trapeze act by Janey Davis, who won much recognition at the recent Navy Relief Carnival; routines by "Two Cats and a Canary"—Ole Kittleson, Joan Wilson, and Jack Stump; songs by Miss Jackie Smithwick; ballads by Bob White in the Eckstein fashion; musicomedy by the "Madcaps;" and dance routines by Betty Jowers.

The 90-minute show begins its tour on the area September 11 with its first performance being presented for the Camp Pendleton audiences and will come to Naval Air shortly afterwards.

This show is not to be confused with the forthcoming major production by NIP, to be entitled "Surprise," which begins rehearsals soon. "Surprise" will be presented at NAS in October.

Army, Navy Plan Two-Week Amphibious Training Exercises

Exercise "Sea Scape," a joint Army and Navy amphibious training maneuver, will be held in the Little Creek, Va., area Nov. 1-14, Gen. John R. Hodge, Chief of Army Field Forces, has announced.

The exercise will involve the 278th Regimental Combat Team plus support units from the Army and U. S. Atlantic Fleet. The Navy will transport the 278th by sea from Boston to the maneuver area and back.

A tactical amphibious assault landing will climax a period of amphibious school courses and unit training ashore and afloat. The final maneuver phase will simulate actual combat conditions as closely as possible, with soldiers storming ashore from landing craft to seize a beachhead.

The 278th RCT is a former Tennessee National Guard Infantry unit now stationed at Ft. Devens, Mass. It participated in Exercise Snow Fall at Camp Drum, N. Y., last February.

The training program will be under the over-all supervision of VADM Frank C. Fahrion, USN, Commander, Amphibious Force, U. S. Atlantic Fleet. The exercise is one of a continuing series of maneuvers planned by the Department of Defense to achieve the degree of armed readiness necessary to the demands of national security.

New Mess Passes To Be Issued Sept. 22

Personnel are reminded that all general mess passes now in use at NAS will be invalid after September 30.

The General Mess Officer will issue new passes to each division at Bldg. 17 from 0800 until 1600 September 22. Division Officers will request in writing the number of mess passes for their divisions and will be responsible for their distribution.

CIVILIANS: 72 DAYS LEFT!

Civilian employees are reminded that there are only 72 more working days (576 hours) left in which to use annual leave that must be used or forfeited if not used by 20 December, 1952.

Employees will not be able to take this "use or lose" leave around Christmas. They are reminded again that it must be taken by December 20.

THEODORE GILLETT, an NAS employee, was presented a letter of commendation from Secretary of the Navy Kimball by the Commanding Officer of NAS, CDR Page Knight, in informal ceremonies Wednesday. Mr. Gillett received the letter in commemoration for his 40 years of federal service.

Meet Your
Committee Members

GATHERED IN CONSULTATION are these five members of the Public Works Shops 71, 72 and 73 Shop and Welfare & Recreation Committees. They are (left to right) Max R. Hasty, shop 71, W & R committeeman who has worked seven years on the island, and resides in Chula Vista; Ernest C. Hansen, shop 72, on both committees, National City resident who has worked here five years; Roy D. Miller, shop 73, shop committee chairman, who has worked on NAS four years, lives in San Diego; James C. Thomas, shop 73, chairman of W & R committee, San Diego resident who has worked here one year; and B. A. Rowan, shop 71, shop committeeman with four years at NAS, and a Chula Vista resident.

Fast Air Camera For Navy Jets

Development of a new high-speed aerial camera for use in future jet planes has been announced by the Navy.

The camera, designated CAX-12, weighs only 15 pounds and is about one-fourth the size of aerial cameras now used. Its dimensions have been trimmed to fit the slim fuselage of the jet planes of tomorrow.

The CAX-12 is designed for high-speed film movement so photo pilots can speed in, get pictures of ground objectives, and roar out of anti-aircraft range much more quickly than is possible with the slower cameras now in use.

The camera can be operated at ground speeds from 175 knots to near sonic speed and at very low or very high altitudes. It uses two film magazines, one with the film stationary for mapping unknown areas and one with moving film for low-level, high-speed reconnaissance photography.

E-3 Examinations Scheduled By I&E

On Friday, September 19, approximately 200 airman apprentice and seaman apprentice will take the examination for advancement to pay grade E-3.

The examination will be given at 0800 in the Crew's Mess Hall building 317, under the supervision of the personnel from the Information and Education Division.

All requirements necessary in order to take the E-3 Exam were to be in by September 1.

Old Town Legion Post To Install; Public Invited

Carl Sherwood, past district commander, will be the installing officer, as Old Town Post 564 officers are seated for the coming year Friday, Sept. 12, at 8 p.m. at 2700 Calhoun St. The North Island public is invited to this event. A considerable number of Naval Air Station civilian employees are members of Old Town Post.

New Commander will be E. C. McCormick, while first and second vice commanders will be Robert Hendricks and Kilmer Burt. Cary C. Perry will be adjutant.

Other officers for the 1952-53 year include: H. A. Lothsperch, finance officer; Harmon Root, service officer; Edward Burris, chaplain; Louis Rossick, historian; and C. E. McCormick, sgt.-at-arms. Executive Committee includes Harry Sweiven, Fred Bisby, Thaine Bell, Arthur Cofrank, and Carl Venske.

Chaplain Replacements Arrive At North Island

Naval Air Station Senior Chaplain Samuel B. Bennett, Commander, Chaplain's Corps, welcomed aboard his relief Chaplain John P. Murphy, Commander, Ch. C., who will be the new Senior Chaplain, as well as Chaplain Charles H. Swift, LT, Ch. C., new Protestant Chaplain. Both Chaplains reported to Naval Air for duty the latter part of August.

Chaplain Bennett left this morning for El Toro Marine Air Station, where he will assume duties as Staff Chaplain, Air Fleet Marine Force. He first came to NAS September 15, 1949.

Father Murphy has just completed a tour of duty as Senior Chaplain aboard the USS PHILIPPINE SEA and Chaplain Swift comes aboard after duty in Japan. Father H. T. Lavin, NAS Catholic Chaplain, will be relieved soon, but will remain aboard this station for the next several weeks.

The officers and enlisted men at Naval Air join in wishing the best of luck to Chaplain Bennett and extend to him their sincere thanks and appreciation for his efforts and aid in their behalf. This station's personnel also give a hearty "welcome aboard" to the new Chaplains.

NEW PROTESTANT CHAPLAIN Charles H. Swift looks on as Father John P. Murphy is welcomed aboard as the new Senior Chaplain by Chaplain Samuel B. Bennett who left this morning to assume new duties at El Toro. Father H. T. Lavin, Catholic Chaplain, far right, will be transferred within the next few weeks.

Forces Order New 'Copters For Testing

The Army, Navy and Marine Corps have ordered five new-type ramjet helicopters for evaluation tests.

Powered by a small ram-jet engine mounted to the tip of each of two 23-foot rotor blades, the new helicopters, named "Hornets," will be built by Hiller Helicopters of Palo Alto, Calif. The Army and Navy have ordered two, the Marine Corps, one.

Designated the HJ-1, the Hornet has only two hand controls and no foot controls. It lacks the usual complicated engine and transmission mechanisms found in most rotary wing aircraft.

Weighing approximately 360 pounds empty, it can carry a useful load of 600 pounds and has a maximum forward speed of 80 mph. Its twin jet engines weigh only 12 pounds and disassembly of the engines from the rotor blades may be accomplished in a few moments with only a screwdriver.

Each engine develops approximately 35 horsepower and is comparable in size to a large watermelon. The engines burn almost any type of low-cost fuel, including lower grades of gasoline, kerosene, or diesel fuel oil.

Delivery is scheduled before June, 1953.

VF-782 Men Complete 2 Week Course

The members of Naval Air Reserve Fighting Squadron VF-782 have just finished two weeks annual training duty at the Naval Air Station, Los Alamitos, California. Flying the new McDonald twin jet fighter F2H Banshee, for the first time, marked the high point of the squadron training duty. Intensive training in tactics, gunnery, bombing, and instrument flying was also carried on in Grumman F6F Hellcats.

The proficient support of the squadron ground crew enabled VF-782 to complete a very successful training program. The theoretical phase of the training was occupied with classroom study and ocean survival in the station swimming pool.

RESULTS OF RECENT POLIO DRIVE ANNOUNCED BY IRD

Industrial Relations Office sources reported Tuesday that the total for new policies and renewals resulting from the June 24 to July 25 Polio Expense Insurance campaign was $12,864. This included both military and civilian personnel who took out policies ranging from one to five dollars in premium.

Carpenters, Painters Urgently Needed Here

More carpenters and painters are urgently needed at this activity, according to current listings of civilian per diem vacancies from the Industrial Relations Office.

Additional vacancies listed in the IIth Naval District this week included a GS-5 **property and supply clerk**, at Miramar Naval Air Station (closing date for filing is today;) and the following at Naval Ordnance Missile Test Facility, White Sands Proving Grounds, Las Cruces, New Mexico: Fiscal Accounting Clerk, GS-5; **electrician**, Group III; **machinist**, Group III; and **painter**, Group III.

CAPT Carmody Assigned To MATS In Washington

CAPT Robert Fulton Carmody, (MC) USN, former senior assistant medical officer and flight surgeon at NAS, has assumed duty as deputy air surgeon and chief of professional services for the Military Air Transport Service (MATS) headquarters in Washington, D. C., it was announced this week.

CAPT Carmody will help direct MATS air evacuation of American wounded from the Far East and coordinate medical activities throughout the worldwide Air Force-Navy command.

A resident of Palo Alto since 1948, CAPT Carmody held his San Diego post from December 1950 to last May when he was assigned to Washington.

USAFI Adds Language Courses

No matter how you turn the globe, you will always be facing some part of the world where Spanish is spoken!

Spanish is the native language of over 100 million people. It is probably the most useful second language for Americans to learn, since it is the language of all the Latin American nations except Brazil and Haiti.

In announcing the availability of Courses EM 597 (Part I), Beginning Spanish I, and EM 597 (Part II), USAFI is offering servicemen an opportunity to acquire an elementary reading knowledge of Spanish in a way that is not only painless but is actually pleasant.

These courses, which are available for self-teaching and group methods of study, are designed to develop reading ability by acquainting students with basic vocabulary, conversational usage, and sentence patterns. EM 597 (Part I) and EM 597 (Part II) offer work similar to beginning Spanish courses in colleges and high schools and cover the same materials as USAFI correspondence courses C 697, Beginning Spanish I, and C 698, Beginning Spanish II, previously announced.

Courses in Beginning Spanish may be completed by passing the appropriate end-of-course test.

The purpose of Courses EM 588 (Part I) and EM 588 (Part II) is to develop elementary reading ability in French by introducing the student to basic vocabulary, conversational usages, and sentence patterns.

Instruction is also given in writing the language. In group study classes, opportunity is provided for supervised conversational practice. The material covered is similar to that given in college level courses in Beginning French. In these courses the student becomes acquainted with one of the languages of diplomacy. French closely follows English as an international second language and the wide variety of French literature makes it appeal to almost everyone. Even an elementary knowledge of French becomes a valuable possession which will give the student satisfaction and enjoyment.

Completion of EM 588 (Part I), or its equivalent, is prerequisite to enrollment in self-teaching course EM 588 (Part II). Either course may be completed by passing the appropriate end-of-course test.

The purpose of the course in German is to increase the student's familiarity with vocabulary, idiomatic usage, sentence structure, and grammar for the purpose of developing elementary reading ability in German. Attention is also given to writing and speaking the language. The material covered is similar to that given in college level courses in Beginning German.

Students who wish to enroll individually and do not desire lesson service should enroll in self-teaching course EM 591 or EM 592. Either course may be completed by passing the end-of-course test.

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

MYTHS—FACTS ABOUT FEDERAL EMPLOYEES (Continued)

ALL GOVERNMENT EMPLOYEES ARE CLERKS

They work in almost as many different jobs as employees in private industry. You can hardly call these clerks: Naval Gun Factory and air depot workers, chemists, forest rangers, physicists, doctors, nurses, engineers, lawyers, and a host of others.

GOV'NMENT EMPLOYEES ENGAGE IN POLITICAL ACTIVITIES

Government Employees Engage In Political Activities

It is against the law (Hatch Act) for them to do so. They can vote and express opinions as private citizens, but their activities are limited as compared with citizens not employed by the government.

Government Employees Don't Care How Much of the Taxpayers' Money They Waste

An annual saving of over $108,000 has been made in the operation of the power plant system at the Naval Torpedo Station, Newport, R. I., as the direct result of a study of manpower and other requirements for the power system made by an industrial engineer employed in the Station's management control department. During the fiscal year ended June 30, 1951, the Government realized an estimated annual savings of 22 million dollars from ideas submitted under employee suggestion systems in the various agencies.

THE GOVERNMENT IS FULL OF COMMUNISTS

The loyalty of all employees has been investigated or is under current investigation. The relative handful in the Federal service whose loyalty was open to a reasonable doubt have been eliminated. As of September, 1951, they amounted to one one-hundredth of one per cent of all who have been screened under the loyalty program.

A GOVERNMENT EMPLOYEE NEVER QUITS

During the fiscal year ended June 30, 1951, 321,437 voluntarily quit their jobs.

YOU CAN'T FIRE A CIVIL SERVICE EMPLOYEE

Seventeen thousand, two hundred eighty-eight were fired during the same period.

The Government's Management Officials Never, Never, Decide They Have Too Many Employees and Lay Off Those They Can Do Without.

Seventeen thousand thirty-nine hundred were removed from the payroll by reduction in force during the same period.

THEY ROLL DAY AND NIGHT

The NAS Buses That Ply the "Color Routes"

By GEORGE BERGMAN

To the average NAS bus rider, it might appear that the busses merely come and go, in haphazard fashion. This is far from true. The North Island busses are seldom off schedule, and then only through mechanical breakdown or other circumstances beyond the control of the 44 experienced drivers who ply the several routes day after day.

Starters and dispatchers check loading at key points, watch for schedule breakdowns, or mechanical difficulties. An active patrol of all bus routes is maintained by supervisory personnel during peak hours of workers coming on or going off the job.

Accurate scheduling and careful timing of all runs are just as necessary to the smooth operation of North Island's bus system as they are to any municipal transit lines in any big city.

It is the job of these NAS vehicles of various vintage to maintain an around the clock flow of transportation for personnel, both military and civilian, moving about on their jobs, and to and from the docks at the beginning and termination of shifts.

Five routes are in daily operation. They are red, green, blue, quaywall and special. The quaywall and green combine, and the specials drop out from 1700 until 2230, when the red and quaywall lines are combined and the green and blue lines operate jointly through the balance of the night.

That the job of North Island bus drivers is basically satisfactory, is attested to by the fact that ten of the present crew have been on the job ever since the present Transportation Department's inception in 1941. Some have been on the bus runs even longer.

Although the total personnel on the Air Station is somewhat less than the World War II peak, the busses handle probably just as many daily riders now as they did then. This is due to the redistribution of personnel at several points farther from the docks and the Coronado gate. Many persons who once walked over to the ferry points and to Alameda Avenue, now ride the busses.

The Red route is the longest of the several runs, taking in territory from the skeet range all the way to the Mainside Dock. This is handled on a normal 30 minute round trip schedule by two busses, is stepped up to a 24 minute round trip by five busses during morning and afternoon rush hours.

Let's take a ride with a red route bus driver, and see a few of the things he sees, from the cab of the bus. We'll ride with Jimmy Webb, 33-year-old Army veteran from the state of Missouri. He has been on the job since October, 1945, likes it here and thinks bus driving is a pretty good occupation, despite the fact that he works a split shift, puts in a rather long day.

"I started driving busses in the Army during the war," he tells us. "Sure is different from driving a truck, for instance. You have to allow extra time for smoother stops, take extra care not to shake up passengers." Webb, like all of the bus drivers and supervisory personnel contacted during compilation of this story, was most cooperative, showed a healthy pride in his work.

We pulled out from the Main Dock bus stop at 1015, with several passengers aboard, rolled through the first of the half-dozen 15-mile-an-hour zones on the route, slowed to the first stop to pick up a lady passenger. "Do you go to building 94?" she queried.

"Yes, ma'am, we do go close to it," answered Webb. He pointed out the building, not far ahead of where the bus was halted.

"I want to go to building 36," she told him. Webb explained where she could get off in order to get to building 36, took off once more, wending his way toward the Administration Building stop and a considerable number of passengers. "The Saufley and Cecil intersections of Quentin Roosevelt Boulevard are two which have about the most congestion," he remarked, as we commenced the longest "straight run" of the route.

We stopped to allow the lady to get off near building 36. We waited. Webb sounded the horn two or three times, still no lady. He swung from the cab, walked back to inform her that this was her stop. She had gotten off at a previous stop. We could see that without careful planning, it would be easy to get behind schedule. "It all works out pretty good, though," our driver told us.

"Does anybody ever give you any trouble on your run?" we inquired.

"Not particularly," Webb said. "Most everybody's pretty considerate, knows the rules and helps us keep them. Once in a while though, a sailor will try to demonstrate that he is still a recruit by hanging onto the buzzer cord just to hear the noise."

We held close to the 25-mile speed limit wherever possible, made up a bit of lost time, halted at the sign "Stop, Look Left—do not proceed until approaching aircraft have cleared." A plane was approaching. We waited, then proceeded.

This was a normal trip, according to Webb, with its ordinary share of stops and hazards. Not over 30 passengers rode the outgoing run altogether, getting on and off at various points.

We arrived at the skeet range 30 seconds late, discharged the last of our passengers, headed immediately back toward the dock.

Once more we stopped, this time looked to the right, and awaited another incoming plane's passing. Traffic was light. McCain intersection, sometimes heavily travelled, was completely vacant. We reached the Main Dock just five seconds ahead of schedule, as one of the few remaining passengers turned in a parting shot on the buzzer, to be sure the driver would stop at the end of the line.

There are 33 bus stops, 38 crosswalks, 6 stop signs, 7 railroad crossings, and an occasional jaywalker to keep the red route interesting. Figuring in all of these, plus a 100-man noontime load of 7 to 9 tons, and sometimes it keeps a driver busy making the 30-minute "normal" circuit. "It also makes a difference how many ships and plane squadrons are in," Webb reminded us. "Their needs add to the loads. Paydays make a difference too."

Safety is a factor always kept before the NAS bus drivers. No lost time on the job by drivers due to accidents, has brought commendations from the various commanding officers of the station for the past five years.

LONG SHADOWS of early morning, lunch bags, and deliberate stride of most of these Island folks denote arrival for the day's work. The "New Yorker" on the left, is Naval Air's largest vehicle in bus service, was originally used at the New York World's Fair in 1939. It is the only one left of several brought to the Island after the big exposition. Below, five NAS bus drivers gather between runs to discuss the day's work, engage in small talk. Left to right, they are: George Robinson, snapper, Benny Bengough, Paul Fitch, George Fadden, and Jake Cosper. Most of the drivers take great pride in their considerable lengths of service on the busses.

RED ROUTE RUN takes passengers as far afield as the skeet range, makes the round trip to the Main Dock in 30 minutes. Schedules are most important on all North Island runs. Personnel enroute to and from the docks, main gate, and their jobs, sailors headed to and from the mess-hall, taxi bus facilities at peak hours, require close time checks by drivers and supervisors to maintain a smooth, efficient flow of traffic. Here bus driver Jimmy Webb's vehicle passes another red bus which is returning from the skeet range.

This Week's News at a glance

1952's second hurricane hit the Atlantic late this week with winds reaching 110 miles an hour 680 miles east of Vero Beach, Fla., according to the Miami Weather Bureau. Floridians relaxed after it was announced that the present trend of the windy giant indicated that it would miss the American East Coast entirely.

Cordell Hull, former Secretary of State, now a patient in the Bethesda, Md., Naval Hospital, has been removed from the hospital's critical list after he showed "steady improvement" late this week. The octogenarian is suffering from cerebral thrombosis.

A famed San Diego landmark, the Temple of Peace located on the campus of the California Western University, was gutted by fire last Friday with heavy damage being afflicted on the structure. It was announced Thursday, however, that there is a possibility that the building may be restored for use as either a recital hall or possibly a library for the university.

Five persons were killed and scores injured yesterday when a violent explosion leveled an oil and soap plant in Marseille, France. Officials expressed the belief that the death toll in the disaster may climb since an accurate account of the residents in the afflicted area had not been made. The explosion occurred in a benzine reservoir.

Word was received from Tokyo yesterday that the United Nations and Communist truce negotiators have agreed to recess truce talks for the sixth consecutive week. The first five recesses were requested by U. N. members who repeatedly told the Reds there was no use meeting unless they agreed to seek settlement of the controversial prisoner exchange deadlock.

...And Two to Make Ready

There's another important election coming up November 4. A new president and vice president will be chosen. Other important leaders will be selected to guide the destiny of the nation we of North Island are committed to defend.

Our intelligent interest is demanded by the serious problems confronting America today. If we do not take time to register and to vote in the coming election, we are letting the country down just as surely as though we failed to do our job here on the Island to the best of our ability.

There is a whole lot of talk these days about various "isms" and world trends of peoples on the march, and a "better world" for the future. There are many divergent opinions among Americans. That is as it should be, and constitutes the very greatness of the nation. It is a feature of our system which sets us apart from and above the "controlled" peoples of many other parts of the world. But the best way possible to lose our future as a great people, to lose even our right to freely express our opinion and to disagree openly with our neighbor if we think that he is wrong, is to fail to vote.

We know that we have the best way of life in the existing world. We know that it is our right and duty as citizens, to either maintain, or change our governmental representatives, or our laws, at the polls. Democracy's real secret weapon is our secret ballot. The only way that democracy may surely be overthrown is through neglect and disinterest.

REGISTER before the deadline September 11.

VOTE November 4.

SOMETHING NEW HAVE INDEED BEEN ADDED to Fire House 1, here at NAS. It seems that between the hours of 0025 and 0555 on Tuesday morning Lulu, the mascot of Fire House 1 gave birth to six beautiful pups. A seventh was born Wednesday. Lulu, a dalmatian was presented to the fire house by RADM W. L. Erdmann on August 14, 1951. One of the pups, to be named Clancy will remain at the fire house and each of the other fire houses aboard NAS will also receive a pup. As of yet the destination of the other pups is not known.

Flowers for Beatrice

Flower shows come and go with the months of the year down at Transportation Department headquarters. But the August holding of the monthly affair was something special. There was a widespread appeal for this one, which brought in additional exhibitors and added interest to the always colorful event.

The fact that Bob Shimp won the sweepstakes ribbon at the August 29 holding of the show, for his beautiful Bird of Paradise display, was incidental. The wide range of brilliant roses and other blossoms which made the work of judges W. W. Tout, J. D. McDougald, and Bill Sumner most difficult, was also of secondary importance. The ribbons which individual exhibitors won was not the prime consideration in any case, though the ribbons were well deserved in light of the heavy number of entries.

Most important was the fact that after the show, the flowers were made into twenty bouquets and taken to Mercy Hospital, to brighten the day for Beatrice Rogers, widely-known and well-liked Transportation employee who is there, seriously ill.

This was indeed a dual purpose flower show, with the competition ranking second of the two.

THAT MAN friday

With the wonderful season of fall just around the corner, the thoughts of men turn toward that good old colorful sport of hunting.

In many parts of this country the leaves on the trees are just beginning to fade in color and before long, the entire mountain side will be a scene filled with an array of colors that nature and nature alone could produce. I can picture the hunter headed into the woods, the color of his bright red jacket blending into the color of leaves and his rifle resting in his hands ready for use at a moment's notice.

To think that not too long ago it was I who headed into the woods to hunt a few squirrels or maybe just to take a nice long walk with one or two of my buddies. I use to spend many a Saturday in the woods either walking along scanning the trees or watching the animals, or sitting on a rock watching a rippling stream. There I would sit in the woods, my ears listening for the slightest movement of a squirrel in the trees, but I was fooled many a time by the wind rustling through the trees, or maybe a leaf or two rustling as they fall to the ground.

Then later on, autumn begins to fade and winter rushes in with snow, snow and more snow. My mind is no longer on hunting squirrel, for now I am thinking about going up into the mountains with the hopes of bringing out a deer or maybe even a bear.

Again I can picture a man walking into the woods with rifle in hand, but this time his red jacket no longer blends in with the color of the leaves, for the trees are now bare and a heavy blanket of snow covers the ground. The man's bright red jacket now stands out brightly against the whiteness of the freshly fallen snow.

In a few years I hope to be that man walking into the woods, participating in one of the finest and most colorful autumn sports—hunting.

Chaplain's Corner

Memorandum

—by H. T. LAVIN
Catholic Chaplain

To: All Imps attached to Naval Air Station San Diego area
Subj.: Basic Instructions

1. **GENERAL INFORMATION:** Sailors and Marines should be easy meat for temptation at this time. They are lonesome for home. They like to have their companions think of them as bad apples. Their work is hard—and when they get tired they are easy prey for active Imps. They have no women in their life, and are suckers for dirty stories, foul language and filthy pictures. All the restraints are off, which is just right for our business.

2. **ARMS AND EQUIPMENT:** (a) Sex: The two great helps to our business is this matter are dirty language, and filthy pictures. Let all the Imps keep suggesting dirty stories to the servicemen, and when the Sailor or Marine hears the dirty story keep pushing it home in his mind. Dirty language, swearing, etc., will also be a big help in winning these men for hell. Keep telling them it doesn't make any difference what they say . . . because everyone else is saying the same thing. They will also be very lonesome for their wives and sweethearts — so keep them occupied with filthy pictures. Particularly suggestive ones, because their own mind will do most of the work. All Imps must campaign for pin-ups.

(b) Religious Exercises: Keep telling them how tired they are on Sunday mornings. This should be very easy, because their life does tire them out—and a little suggestion will keep them in the sack on Sunday mornings at Church time. Tell them that other men will think they are panty-waists if they go to Church.

(c) Chaplains: Make fun of Chaplains. Tell the men that only weak sisters need cry on the Chaplain's shoulders. Chaplains are very dangerous to our war effort—and the best way to immobilize their work is to make fun of it. Get your best workers to ride the Sailors and Marines who go to see the Chaplain. And particularly ride the ears off the few zealots who help the Chaplain sabotage our work.

3. **SAFETY PRECAUTIONS:** Occasionally you will find a Sailor or Marine who prays—that horrible thing that causes us so much trouble. Work on him immediately. One man who prays can ruin a whole division for our work. Nothing is more dangerous to our work than a praying Sailor or Marine.

4. **REPORTS:** Full and detailed reports should be turned in each week, and advice sought from Headquarters for individual problems. If every Imp will give his whole attention to the problem committeed to his charge, we should be able to increase the population of hell considerably and win many victories against our Great Enemy, God.

/s/ Hiram G. BEELZEBUB

THE PLACE IS familiar

An all-important building aboard NAS North Island is building 316, the boat house, which is located just behind the Security Building.

The area forward of the boat house and the boat house itself is constantly busy with men doing the many types of work necessary at any boat house. To these men goes the task of seeing that the boats are kept in perfect condition, and ready for use at a minute's notice. Everything from keeping the boats clean to overhauling the boats is handled by the many men at the NAS boat house.

The tasks for these men are many for there are numerous jobs for them to handle, such as from taking care of an Admiral's barge to handling the liberty launch on its trips to and from North Island to San Diego.

Here the boats are sanded, painted, polished and given a complete overhaul, so that the brass on the boats always has that well-polished look and the entire boat looks new.

The NORTH ISLANDER

Vol. XI September 5, 1952 No. 36

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

TELEPHONE EXTENSION 1475. Call this number to report news.

Contributions of news, features, pictures and cartoons will be gladly considered, and material submitted will receive careful handling. However, the NORTH ISLANDER assumes no responsibility for the return of material contributed. The editors reserve the right to make such corrections, changes or deletions in submitted copy as they deem necessary in conforming with the policy of the paper and of the Navy.

The opinions or statements made in articles published herein are those of the writers and are not, in any case, to be construed as official or as reflecting the views of the Commanding Officer or of the Navy Department.

Armed Forces Press Services (AFPS) material appearing in this publication may not be reprinted without the written permission of Armed Forces Press Service. Material in this paper may not be reprinted unless authorization is obtained from the editor.

Military Personnel May See "Carousel" At Reduced Prices

"Carousel", recent Broadway smash-hit by Richard Rodgers and Oscar Hammerstein 2nd, will play 11 consecutive nights in Balboa Park Bowl September 4 through 14 at 2030. The run has been extended by three nights to make it possible for all to see this and the other great R. and H. musical, "South Pacific", which will be playing at Russ Auditorium September 8 through 13.

Marilyn Slauth, Miss San Diego of 1951, will make her debut in the role of "Julie Jordan," with John Powell, star of the recent production "Kiss Me, Kate," as "Billy Bigelow." Mildred Lamb, whose singing of "Can't Help Lovin' dat Man" and "Bill", stopped all performances of "Show Boat" earlier this season, has the all-important role of "Carrie." Kelman Aiken plays "Mr. Snow"; Jean Whelan, luscious red-head, last seen as "Gussi" in "Bittersweet", sings the role of "Nettie."

Others in the strong cast are Ruby Kisman, Charlie Cannon and

MARILYN SLAUTH, Miss San Diego of 1951, and John Powell, star of "Kiss Me, Kate," play "Julie" and "Billy" in "CAROUSEL" at Balboa Park Bowl 4 through 14 September.

petite Bonnie Baker, dancing as "Louise." Don Ward, who fast and furious foot-work was a feature of "Kate", has the chief dancing assignment with her.

Among the hit tunes from "Carousel" are: "June Is Bustin' Out All Over", "When I Marry Mr. Snow", "A Real Nice Clambake", "My Little Girl", "What's the Use of Wond'rin'?", "Blow High, Blow Low", "If I Loved You" and "You'll Never Walk Alone". Brand new sets, designed and built especially for this production and a "practical" carousel imported from the East will lend authenticity and realism to this presentation.

Military personnel in uniform, or with I.D. cards, will be admitted for 50 cents. For those wanting to make an impression on their dates, there are better reserved seats.

SIGNATURE GLASSES ON SALE

HERE IS YOUR CHANCE TO HELP SOMEONE WHO NEEDS YOUR HELP and at the same time buy something useful for the home. Pictured above are the highball glasses which are now on sale at the Navy Exchange Store. Here is an opportunity for all NAS personnel to buy a novelty in highball glasses and at the same time help to fight dreaded cerebral palsey. This is another of those wonderful Bob Hope enterprises to help a worthy cause. A portion of the money received from the sale of these glasses will go toward combating cerebral palsey.

Deer Season Opens Next Week; Hunting Tourney Underway

Not many registration returns have been submitted thus far in the annual Civilian Welfare & Recreation Deer-Hunting tournament, according to Madge Mulloch, of Employee Services Office, Building 415. Local deer season opens September 15, and increased activity along the tournament front is expected then.

Don't head for your favorite hunting ground without first registering for the tournament. Prize money for heaviest deer taken in San Diego County is $25.00, while second prize is $10.00. Prizes in the same amounts are offered for the two heaviest deer recorded from outside the county. All civilian employees of the Naval Air Station are eligible. Deer must be weighed when rough-dressed. Certificate must be validated by ranger checking deer.

Tournament closes December 1. All claims must be in the Employee Services Office by 1630 Friday, December 5.

Remember, you **MUST BE REGISTERED BEFORE** entering the contest.

NAS Beach To Stay Open

The NAS Special Services division announced this week that the Naval Air Station Beach will remain open as long as good swimming weather exists. The beach was originally scheduled to close next Monday.

Tropical Gardens Dances Announced

The Commandant in conjunction with the U.S.O. is sponsoring a series of Military Dances to be held at the Tropical Gardens, Navy Athletic Field, Fifth and Harbor Drive. The third and fourth dance in this series will be held 2000 to 2330 Saturday, September 6, and Saturday, September 13.

The U.S.O.—Y.W.C.A. hostess program will again provide in excess of 300 junior and senior hostesses so that ample dancing partners will be available to all men who attend. This dance will be conducted in accordance with U.S.O. standards. Consequently, all dancing partners must be registered U.S.O. hostesses. If married personnel or personnel having girl friends desire to bring their own partners, these ladies must register in advance with U.S.O.—Y.W.C.A., telephone M8-1893.

Beginning September, U.S.O.—Navy dances will be held at the Tropical Gardens each Saturday night until further notice.

First "Pop Jazz Concert" Takes Place Sept. 14

Naval Air Station military personnel and their dependents will have the opportunity to hear the first in a series of "Pop Jazz Concerts" to be presented at the NAS Beach Recreational Facility Sunday, September 14.

Walter Fuller and his orchestra, currently appearing in San Diego, will be featured at the first jazz get-together which gets under way at 1300 and will last until 1600.

There is plenty of room for dancing and the snack bar will be opened. Present prices for sandwiches and beverages will continue to be valid for the concert.

Cast Call Issued By Coronado Group

Military personnel, along with civilians in this area, will have the opportunity once again to participate in a Coronado Playhouse presentation.

Cast call has been issued by the theatrical group for their forthcoming production "Brighten the Corner", by John Cecil Holm, which is expected to be presented in early October.

Four men and five women are needed to fill roles in this play and try-outs for the parts will take place next Sunday at 1430 and Monday evening at 2000 at the Playhouse on the Silver Strand. Rehearsals will begin immediately after the casting is completed.

Try-outs are open to anyone and military personnel are urged to take full advantage of this opportunity. Any theatrical skill is needed—acting, backstage work, lighting, theater managing, etc.

It was pointed out by a playhouse representative that men in uniform have participated frequently in past Coronado Playhouse productions. Four members of the recent cast of "Suds in Your Eye" which closed last week were Navy men stationed at NAS. There were also many others in the military which represented other installations in this vicinity.

Additional information concerning these try-outs may be obtained by calling the Playhouse on the Silver Strand, Henley 3-5262.

"Did you hear a peculiar bump on the take-off?"

movie menu

SATURDAY, September 6—"YOU FOR ME," starring Peter Lawford, Jane Greer, Gig Young and Paula Corday. Peter Lawford, millionaire playboy whose one philanthropy is a hefty annual donation to the Clara Barton hospital, receives chilly treatment from Jane Greer, surgical nurse, when he checks in for emergency treatment. Lawford complains, announces he is withdrawing his financial help, and Jane, is fired. Peter loves Jane . . . Gig loves Jane . . . Jane loves money . . . it's a broadminded triangle . . . when rich boy and poor doctor . . . quarrel over the affections of a pretty nurse.
SHORT: "Wackey Weed" and "Slaphappy Schultz."
Running time, 1 hour and 41 minutes.

SUNDAY and MONDAY, September 7 and 8—"WHAT PRICE GLORY" starring James Cagney, Dan Dailey and Corinne Calvet. In World War I a company of marines, headed by lusty Captain Flagg (James Cagney), returns from the front to Bar-Le-Duc, where Flagg's girl, Charmaine lives. At the same time, Sergeant Quirt (Dan Dailey), an old fighting companion of Flagg, finds he has been assigned to his unit. Flagg, who finds he has an eight-day pass awaiting him, refuses to take Charmaine with him, but is relieved that Quirt will be on hand to train his new recruits. James Cagney as the scrappy Captain Flagg and Dan Dailey as the angry Sergeant Quirt, fight for the lovely French girl, Charmaine.
Running time, 1 hour and 51 minutes.

TUESDAY and WEDNESDAY, September 9 and 10—"RAINBOW 'ROUND MY SHOULDER," starring Franke Laine, Billy Daniels and Charlotte Austin. Charlotte Austin lives with her grandmother, Ida Moore, who believes that the interest of Charlotte's who wants to crash show business, gets a job at the Columbia studios, telling her grandmother she's working as a librarian. Arthur Franz, of the music department, arranges for her to audition a song with Frankie Laine, and she is chosen to sing in his new picture, but her grandmother queers the deal. Charlotte running away, moves into the Studio club, famed hostelry for young girls seeking movie stardom.
SHORT: "Hoppy Go Lucky" and "Fishing Feats."
Running time, 1 hour and 44 minutes.

THURSDAY and FRIDAY, September 11 and 12—"CARIBBEAN," starring John Payne and Arlene Dahl.
SHORT: "Athletes in the Saddle" and "Armed Forces Report."
Running time, 2 hours and 10 minutes.

Safety Drive

(Continued from Page 1)

will act as judges: W. KIRBY VAUGHN, Material Branch Supervisor, Supply & Fiscal Dept.; A. J. QUICKER, Foreman, Public Works Dept.; JOHN CURRY, Planner & Estimator, Overhaul and Repair Dept.; and J. R. GRIFFING, Safety Division. C. A. HUBER, NAS Safety Engineer, will act as contest advisor. Entries will become the property of the North Island Association, and the decisions of the judges will be final.

Winning slogans and their originators will be the subject of local posters and of transmittals to the Navy Dept., the National Safety Council and other appropriate activities for use nationally.

Here are some examples of slogans, see what you can do with an original idea along these or similar lines.

"Safety Lowers the Cost of Living."

"Be Fire-Sighted."

"Accidents Will Happen—to the Careless Worker."

Get aboard the bandwagon for profit, recognition, economy and health via the safety route by submitting your slogan right away. In addition, live by your slogan; your example may make Safety a slogan for your fellow worker.

Place in Beneficial Suggestion Box

Winners Of Outstanding Awards

CDR R. M. GROWER (right), assistant Public Works Officer, congratulates R. F. Edwards upon the receipt of an "Outstanding" rating. Others of the group receiving similar rating include: (left to right) R. J. Graham, F. L. Bunch, C. E. Riley, R. L. Thompson, R. L. Conley, P. W. Farmer, G. B. Lowell and N. C. Miller.

Fifty-two Public Works Employees Receive Awards

At a special award ceremony held at 0945, in Building 3, a group of 52 Public Works employees received either outstanding rating, accident prevention, or beneficial suggestion awards.

Pictured on this page are the group who received "outstanding" ratings. Not available for the "O" picture was Clarence P. Fuller.

Beneficial Suggestion checks in the amounts of $25 and $15 went to W. H. Agsten and Leo A. Booth, respectively.

Balance of the awards were for industrial accident prevent. They went to:

Lester E. Warren, John C. Peterson, Harold L. Smart, Henry P. Burnett, John W. Wershing, Kline H. Reeb, Lazaro Castro, Fred Burns, Abram W. Noe, Samuel P. Folsom, Harry C. Lay, Daniel P. Ottinger, Frank J. Rayho, William Watts, John Murawski, Robert A. Peale, Henry A. Fara, Richard H. Schaaf, George P. Stephens, Joseph A. Carmody, John M. Holtzbauer, Raymond W. Nevegold, Vicotr G. Anderson, Cornelius W. Loomis, Lloyd G. Everitt, Roland Cass. Edward H. Thompson, James C. Towns, Louis H. Anderson, Gilbert A. Gibson, Andrew H. Thill, Pursley W. Doughty, John F. Faulkner, Jesse E. Helmick, David Smith, George N. Stephenson, Eldon Waymire, Harold L. Smith, Fred Burns, James G. Towns.

Another Wise Owl Finds Out That Safety Glasses Pay

While operating a metal planer with an auxiliary grinder in bldg. 90, O&R, S. L. Tumlinson, machinist, had a narrow escape from probable serious eye injury.

Tumlinson was grinding a brake die, an operation which he has performed on numerous occasions over the past eleven years. However, on this one occasion, a 6" x ¼" emery wheel broke, shattering into small fragments. One of these fragments flew out from under the well constructed wheel guard and made a direct hit on the left lense of his safety (hardened lens) glasses.

S. L. Tumlinson

"It pays to wear safety glasses," comments Tumlinson, who realizes the serious nature of the damage which could have been caused to his eye.

Tumlinson, by having his eye saved through the proper use of safety glasses, automatically becomes a member of the Owl Club, a strictly non-official body of all similarly fortunate employees. The name evolves from the proverbial wisdom of the owl.

It is wise to wear safety glasses whenever the job calls for them.

electrons

By
WINDY SPLICHAL

Where did Pappy Lang spend his vacation? Well, it seems that he was seen reading over hot rod magazines and then went on two weeks' leave. We're wondering if he has thoroughly investigated this hot rod business.

* * *

Viola Markham, shop learner in Hangar 68, is leaving NAS today. She will become a housewife and await the happy arrival of the new member in the Markham family.

* * *

Ruth Welch and her husband have left to make their home in Seattle, Wash.

* * *

Bernice Harmon is tired of teaching the shop learners wiring in P4Y's and thinks she has obtained an easier job. We all wish her luck in her new position as kindergarten teacher in San Diego Public School system.

* * *

Joe Hilton has left NAS to become a maintenance electrician for the City of San Diego. Good luck on the new job, Joe.

* * *

Mary Young of the Cable Shop celebrated her birthday last Friday with a cake and all the trimmings. This was her 16th birthday, she jokingly admits.

* * *

Susie Hornberger and Glodene Wallace have been on the sick list, but returned to work this past week.

* * *

Becky Harker and her husband joined Marie Beck and her husband for a weekend at Bishop. The feature attraction was the rodeo held there for professional and amateur riders.

Glenn Alexander of the paint shop reported that he fell out of a tree this past weekend and may have broken his back. We all hope his condition is not as serious as reported and send get-well wishes to him.

O&R Men In Charge Of P.B. Flag Display

Mel Thornton, of Overhaul & Repair, Material Planning, was chairman of the committee from Pacific Beach American Legion Post 552, which set up and carried out the magnificent display of American flags in that beach community for Labor Day Monday.

The display, believed to be the biggest of its kind in the San Diego area, covers approximately four and one-half miles of sidewalks.

Get Acquainted

Meet LCDR Campbell

This week's column introduces LCDR Walter R. Campbell, the officer in charge of the Eye Safety program at the civilian dispensary and an eye specialist at NAS Infirmary.

LCDR Campbell entered the services of the United States Navy in October 1942, receiving his Ensign stripe at Columbia University. He also had taken a post graduate course at the United States Naval Academy, Annapolis, Maryland.

LCDR W. R. Campbell

Mr. Campbell then reported aboard the USS HOPEWELL DD-681, which at that time was operating in the Pacific, with its home port at Terminal Island. This was in the fall of 1943, and LCDR Campbell remained aboard the USS HOPEWELL until April 1946, when he was released from active duty. Mr. Campbell went aboard the USS HOPEWELL as a communication specialist and rose to the position of Executive Officer prior to being relieved of his duties.

Recalled to active duty on October 25, 1950 LCDR Campbell reported for duty here at NAS North Island and took over the duties of the Officer in charge of the Eye Safety program at the Civilian Dispensary.

Mr. Campbell will leave North Island for his next duty station, Brooklyn Navy Yard, on September 10, 1952. There LCDR Campbell will be assigned the duty as Officer in charge of the Industrial Eye Safety Program.

Men Should Investigate Benefits for Dependents

Many members of the Armed Forces do not take advantage of the benefits provided for them and their dependents. Besides allotments and transportation privileges there are such benefits as:

Medical Care for Dependents: This privilege is extended only when facilities and sufficient medical personnel are available. Authorization for this care is in the hands of the commander of the medical facility concerned, and application should be made to him in advance. The government does not pay the expenses connected with transportation of dependents to an Armed Forces medical facility.

Six Months Death Gratuity: If you should die in line of duty, your wife (husband) or someone in your family proved to have been dependent upon you before your death is entitled to six months' pay. This pay is equal to six times your total monthly pay, including hazard pay, but not including allowances. The gratuity is not subject to claims, civil or military debts.

Arrears of Pay: In the settlement of accounts of deceased Service personnel, where no demand is presented by a legal representative of the estate, the General Accounting Office may allow the amount of pay and servicemen's savings deposit, if any, owed by the government to go to the deceased's widow (or widower) or legal heirs.

Burial: When a member of the Armed Forces dies, the widow or widower, minor children and in some cases, unmarried adult children, are entitled to burial in a national cemetery in the same or adjoining grave site. Costs of a serviceman's burial and certain expenses connected with it, such as transportation of the remains, to certain limits are furnished.

'Raiders Drop Western AF Champs 3-2 In Exhibition Contest Here

The Naval Air Skyraider Softball Team defeated the Hamilton Field Air Force Base in an exhibition game played at Murray Field last Tuesday. The Air Force team had requested the game to keep themselves in shape while traveling to the National Air Force playoffs in Biloxi, Mississippi. They were the Western United States Air Force Champs, and they got more than they bargained for when they met the 11 ND champs, and perhaps future all-service West Coast champs, the Skyraiders.

Gebhardt, Huffman, Mason Pitch

The 'Raider pitching assignments were divided between Al Gebhardt, recently acquired from the NTC Bluejackets, John Huffman, and Adolph Mason. All three pitchers gave the opposition only four hits, and combined to strike out 13 Air Force batters. Gebhardt wiffed 4 men in three innings; Huffman put down swinging 4 men in two innings; and Mason struck out 5 men in four innings.

'Raiders Miss Scoring Opportunity

The Skyraiders missed a chance to make the game a winning effort in the first inning. Smith led off with a walk, Doten singled, Vice walked, then with the bases loaded and no outs, the 'Raiders proceeded to score no runs.

Finally the Airmen did score one run in the third with Lundell smashing a long triple to right-center, and Pick flying to center-field drove in Lundell.

Walks Give Hamilton Two Runs

In the top of the fifth, the Air Force team led off with a double then four walks produced a pair of runs and momentarily the Air Force team went into the lead 2-1.

In the bottom of that same fifth, however, the Skyraiders tied the score when Harry Vice smashed a home run to deep left center.

Davis Drives In Winning Run

In the bottom of the eighth inning, the Skyraiders began the ball rolling. Dany Daniels led off with a Texas league single to left; Kozelewski then sacrificed Danny to second, and Russ Davis lashed a line drive single over the second baseman's head and Daniels crossed the plate. For all practical purposes the game was over, but the Air Force team did make a bid to tie up things in their half of the ninth. After two men were out, a basehit and two infield errors loaded the bases, but Adolph Mason then got the next batter to fly to center and the 'Raiders had dumped the pride of the West Coast Air Force Softballers.

'Raiders In All-Service Tourney

The Skyraiders travel to Fort Ord for the all-service Western Tournament to be played September 15 through 19. Teams partcipating will be from all branches of the armed forces, and the way we look at it, the 'Raiders have a fine chance to take the pot at the end of this rainbow.

THE WINNING MARGIN is provided by Danny Daniels as he slides home in the eighth inning of the game between the Skyraiders and the Western Air Force Champions, Hamilton Air Force Base. The 'Raiders won the game 3-2. The winning run was driven in by Russ Davis as he singled to right center.

What's the Catch?

Last week, the fishing slowed down quite a bit as far as Yellowtail were concerned, but other varieties were biting good. Barracuda were comprising the main catch of the Island boats, while many of the long-finned prizes, Albacore, were also being taken.

Although North Island boats don't go out for Marlin, this variety of swordfish has been sighted in large numbers near the Coronado Islands. Fishing is expected to pick up with the good weather and fewer people taking both private and public boats.

Statistics show that runs of the battling Albacore have occurred in the months of Sept. and Oct.

naga news

This month's ACE tournament will be held September 3 through 10. It will be played at the Mission Valley course.

The Skyraiders defeated the Scouts from Camp Pendleton on the losers' home course by a score of 21-3. The next and final meeting of the season was played yesterday, results were too late for this week's paper. The match with NTC will decide the league championship.

All outfits based aboard the station, and having or desiring to form a golf team, should turn in their scores to the golf shack so a handicap may be formed.

Football Practice Tempo Up As Brigham Young Game Near

The weather has been hot, but not nearly so hot as the men of the Skyraider football team as they begin to earnestly work for the rapidly approaching game with Brigham Young University. Much work will be necessary before the 'Raiders shape-up into the team that we all hope will surprise many a powerhouse in the league, with the spirit being shown by the players, coach Johnson will have his team "up" for the BYU fracas.

Work on Split "T" Formation

The Skyraiders have their work cut out for themselves. They have begun work on the highly technical and complicated "wing" and "split" "T" formations. These take-offs on the standard "T" are very effective, but the precision needed to make them click is not acquired by only a few practice sessions. If the team is able to get the formation down to the intended science, they will provide formidable opposition for any of their opponents.

No Further Squad Cuts

Coach Johnson announced that there will be no further cuts in the team as it now stands. The men that do not make the first offensive and defensive teams will be placed on a squad, which will drill the first team on the formations of teams to be played. If and when any of the third squad men show improvement to the point where they can be used on the playing squad, they will be put into the game lineup. This will give the men who don't make the playing team now a chance to improve as well as the spirit to improve.

It's reported that the 'Raiders are in for a big time when they travel to Provo, Utah for the BYU game.

When the students of the co-ed institution known as BYU fete their initial football opponent, it is usually something that the visiting team rarely forgets. Known for its hospitality, the BYU faculty and students will make the game memorable regardless of the outcome

The 'Raiders play their second game away from home also, as they meet the University of California Ramblers at Berkeley. This team often comprises the men who through one circumstance or another do not make the varsity Golden Bear squad.

airpac's sportlight

By Bob Swisher

Ready Issue's rampaging Storekeepers clinched at least a tie for the Minor league title of the AirPac intermural softball circuit this week, but things are becoming a bit conjested over in the Major loop.

Twin victories over ComCarDiv-15 and VS-23 gave the Key-Keepers their 10th straight win after an opening day defeat. This record is 2½ games ahead of their closest rivals, Personnel and VP-46, who have 8-4 slates.

With only three games left on the schedule, Ready Issue can come out no worse than tied. For this to happen, they would have to lose their remaining three games while Personnel or VP-46 won their remaining two. At the rate the Storekeepers are traveling now, this particular feat seems next to impossible.

VC-11 grabbed a slight lead in the Major league by shutting out Fasron-110 by 4-0. The win gave the Comets nine wins against two defeats. Meanwhile, Fasron-110, which two weeks ago had been tied for first, dropped all the way to fourth place. Their record is 9-4.

Faetupac's rebounding Raiders scored a 10-8 win over Fasron-691 to move into second place with a 9-3 record and FAW-14, winners of the first half, continued their uprising with a forfeit win over VC-35. This left the Wing in third, with eight wins in 11 starts.

* * *

Entrees for the Fleet Air Detachment swimming meet scheduled for 23 September are still open, according to intermural co-ordinator Chief Red Harris. Any units wishing to enter are requested to send their applications to the ComAirPac Athletic Officer no later than 19 Sejtember.

Captain's Cup Lowdown

By Walt Breeland

The touch football game on Murray Field Tuesday, between Planning and Supply, lived up to our expectations of the hard-hitting competition we will be seeing throughout the remainder of this year's touch football program. It was a hard fought game until the final whistle, with Planning, led by R. C. Rogers' passing arm, defeating Supply 33-28. It is our opinion that both these teams have high possibilities of taking top laurels in touch football this year.

Another touch football game, the second for this season, was played Wednesday with Metal Machine handing Navy Weather Central a solid defeat 20-0. Metal Machine is another team that, as far as we are concerned, shows promise of being strong in the touch football circuit this year.

This writer observed some men in the Mainside Gym a few days ago working out with a basketball and it appeared that they might be preparing themselves for some game competition. We asked them if they were considering trying out for the Skyraider hoop team and were quickly informed that they had no intention of trying out for the varsity, but were preparing themselves for the Captains Cup Basketball games later on this Fall and Winter.

Hoopsters Long for Season to Begin

The many men throughout the Naval Air Station, who claim their favorite sport to be basketball, won't have long to wait. Even today, as the football season is about to begin, men can be seen working out with basketballs in the main gym at noontime. In a little more than a month, the many leagues participating in basketball will give most men a chance to play.

By BILL FEENEY

Football Begins All Over

This week, the Skyraider football team begins its serious practice for the forthcoming Brigham Young University game to be played on September 19th at Provo, Utah. The team, which was in fairly good shape just prior to the Ram game, must now begin to work into good shape once more. Although the fairly small university in Utah isn't nationally known for its great football teams, this school has been known to knock off prominent teams when they became over-confident. The 'Raiders have the material to make a good showing against this team, but the main problem of the coach, LCDR Johnson, will be keeping the team "up" for the game.

Softballers Have Sensational Season

The Naval Air Skyraiders softball team has kept to the tradition of great North Island teams by having one of the finest seasons in the history of Island softball. The team captured the Eleventh Naval District title, and was second in the very tough Amateur Softball Association League. The team is now planning to go to the Western All-Service tournament in San Francisco. There are few people who will be surprised if our 'Raiders take the pot of gold when they go to the Golden Gate City.

Footballers Traveling Outfit

This year's football team will be one who will live up to its name of the Skyraiders. It will travel to three for sure, and possibly four or five games by air. As the schedule now stands, it will go to Provo, Utah, San Francisco, and San Antonio, Texas.

Good Fishing Begins Now

The fishing season in the Southern California area, hits its best now that the derby and contests are over. Many fishermen figure that after Labor Day the thing to do is pack away that rod and reel 'til next year, but just the opposite is true. In this area, the top-notch fishing begins now. The king of all deepsea fish, the Marlin swordfish begins to hit now, and Albacore fishing will improve now for many weeks to come.

HS-2 Men To Have Party Tonight

An HS-2 squadron party, long on the fire, will materialize tonight at the American Legion Home, 26th and B Streets in San Diego. Arrangements have been made for food, dancing and entertainment for the entire evening.

The Starlighters Orchestra of San Diego will furnish the hot licks for those in the dancing mood. The roster of entertainment is headed by Dean Jones, of the ALF Ream Special Services Division, a very capable master-of-ceremonies and vocalist who will introduce the Nina Foles dancers and Margi DeCosta, popular San Diego Songstress. Mary Lou Dockstetter will furnish her own guitar accompaniment for her songs and Joan Wilson will emote with the voices of famous celebrities in her impersonation act.

All hands are invited with their wives or dates to say nothing of the chaperoned girls who will be there to provide dancing partners for those unescorted.

Tickets for the affair may be purchased from any of the members of the HS-2 recreation committee. There will also be some tickets available at the door. According to LTS Johnson and Armstrong and Chief Worack there will be food available from 1900.

Come one, come all, let's make it a real whingding!

HU-1—Airborne Grape Hunters

Have you ever gone grape hunting in a helicopter? Sounds unusual but that it what men of HU-1 are doing.

It all started when the State Department of Agriculture requested that a helicopter be used in search for wild grape vines in the mountain areas east of San Diego.

Some of the wild grape vines are infected and the Department of Agriculture has been destroying them to keep the infection from spreading to domesticated grapes.

It proved to quite a job when it came to climbing over the vast mountain area on foot so HU-1 was called in to the rescue.

The past week they have been searching the hills and mountains with their helicopters, charting the location of the wild grapes. After the positions are charted, men go to the marked positions and destroy the vines.

Lt. John Ross Is Presented Air Medal at Ream Aug. 2

LT John W. Ross, USN, shown below, was presented Friday, August 22, 1952, with the Air Medal for meritorious achievement while participating in aerial flight as pilot of a helicopter while engaged in an air-sea rescue mission operating off the East Coast of Korea.

Acting with outstanding skill, he flew seven miles inland over heavy anti-aircraft positions to effect the rescue of the crew of a helicopter which had crashed while attempting a search and rescue mission. Although forced once by effective small arms fire to seek additional altitude, LT Ross, with great personal courage, made a second approach.

When his helicopter was seriously damaged by enemy gunfire, with the rudder balance cable shot away he flew his helicopter with exceptional skill, to the USS ROCHESTER, twelve miles away, and landed successfully on board.

LT Ross was O-in-C of Helicopter Squadron One, Unit II, operating from Wonsan Harbor, Korea, in November, 1951, to March, 1952, and is now assigned to HS-4, Ream Field.

LT. John W. Ross

"This is our leading chief's first time across the Equator, isn't it, Frank?"

NOTICE

Hey, Chiefs, if you want to have a good time, there will be a dance in the Ream Field CPO Club (open mess) on Friday, 5 September.

Music will be furnished by Buddy Viotti and the Madcaps, with lovely Gay Thompson as the vocalist.

What Is It Like in Japan? Ask VU-3 Men

By ART MARKS

To give many men an idea of what to expect when going to duty in Japan, an account of the different living conditions and problems encountered in that country was received from men who have recently returned from a tour of temporary duty with VU-3K's WestPac detachment.

It was discovered that one of the first requirements upon arriving on the island was to change all American money into military "script." This form of currency is used to buy merchandise from the base exchange. To purchase articles from civilian stores the paper script must further be transferred into Japanese Yen.

One common comparison is a steak dinner. Eaten in one of the U. S. government approved restaurants the best would cost 60 cents, whereas, its equal in the United States would be $2.00. A haircut is acquired for about 25 cents.

At Atsugi, Naval Air Station, good living quarters and recreational facilities are available. Since the climate is somewhat similar to that of Seattle, Wash., a full set of year round uniforms are necessary. Civilian clothes are only authorized in athletics although such items can be bought on the base for dependent personnel on permanent duty there. An ample supply of white uniforms is advised to combat the seasonal rainy season. A light plastic raincoat is found to come in handy during that time.

Bicycles and passenger trains are used throughout the country since many roads are poor or inadequate. The old-style rickshaws have been modernized from the man drawn method to the present bicycle powered system. It is found that shipping a new car across is very unprofitable in the sense that there are no good highways and it is nearly impossible to sell it to civilians since the majority cannot afford it.

The people of Japan are far happier than ever before. Their amazing recovery from the ravages of war is indicated by the friendliness and cooperation they give the Armed Forces. Living conditions have improved immensely by employing all the civilian people possible for base labor work. The maximum wage for a Japanese house servant is 7200 yen a month—about $12.

Speech differences are a minor problem. A large percentage of the population has mastered enough English to be understood and after learning a few of their more common words, there seems to be little difficulty for Americans and Japanese in carrying out a sensible conversation.

The American way seems to have a great influence on the new Japan. Although they still live in small houses without furniture and still leave their shoes at the door, the people are adopting the western style of dress. Women appear in high-heeled shoes and simple short cut dresses. Kimonas are on the way out and are only worn at weddings and at special occasions.

American movies are greatly appreciated. When shown in a public theatre, the dialogue in Japanese is shown along side the screen to enable them to understand the pictures.

Excellent shopping values and opportunities for a pleasant tour are offered for those on a tour of duty in Japan.

HU-1 Personnel Aid In Rescue Of Boxer Men

When the recent mishap occurred aboard the aircraft carrier USS BOXER, three HU-1 helicopters were called to the rescue.

Soon after the distress call the helicopters had accounted for the rescue of 10 men that were in the water. They picked up the men that did not have life-saving gear and those who were in dire need of assistance. They also assisted by directing small rescue craft to the men in the water and searched the area for survivors.

LTJG P. J. Myatt, pilot, and P. V. Pederson, AD3, crewman, picked up three of the men. Pilots LT I. D. Lane and LT M. B. Price also rescued three men each. LT J. V. Gorman, pilot, and his crewman, E. L. Willis, AD3, accounted for the other rescue.

THE OFFICERS AND MEN of the USS BOXER place their hats over their hearts and bow their heads during recent memorial services at sea for the men who died during a fire on the BOXER'S hangar deck.

VU-3K Nine Wins Two More!

The VU-3K softball team continued to win the games as they came, by defeating HS-2, 5 to 3, and nipping HS-4, 4 to 2, notching win numbers 11 and 12 of the second quarter of the softball season.

"Buck" Meehan posted win number eight as he pitched the win over HS-2. Kenny Brooks, VU-3 thirdbaseman, led the attack with a perfect day at the plate, including a two-run homerun.

Against HS-4 Meeahn again proved his mastery as he limited the whirymen to two hits to wrap up win number nine against no defeats. Coming to bat in the sixth inning with the game tied two to two, French went to first after hit by a pitched ball. Brooks struck out followed by English who was also hit by the pitcher. Zimmerle drew a walk to load the bases. Steege then drew another walk to score French from third base and English scored on a wild pitch to bring home two runs, which proved to be the victory.

VU-3 has five softball games remaining on the schedule and plays HU-1, the runnerup, two more times. One or more victories assures the dronemen the championship.

North Island Association's Safety Slogan Drive Gains Momentum

By J. R. GRIFFING

The North Island Association reports that the response to the safety slogan contest announced last week is very good and that the quality of entries is outstanding.

Employees of this station are to be commended on their realization, as indicated by their slogans, of the important part that safety plays in every aspect of their lives.

Entry in this contest will benefit the participant in many ways, among them the following:

1. Injuries will be prevented because increased safety consciousness will foster safer practices. Hazards will be more easily detected. A smart person (and everyone entering this contest automatically falls in this category) will need no more than awareness of a hazardous condition to correct it. Practices that are dangerous will be changed to safer ones.

2. Your fellow worker (also a participant) will help correct dangerous conditions you may overlook and will be more conscious of safety for the benefit of both of you.

3. Monetary savings for the activity will possibly be reflected in future lower taxes for all. If this seems remote, consider that the direct and indirect costs of accidents last year **aboard this station** were approximately $125,000. What would be the result in terms of money if that figure and comparable figures throughout government activities were substantially reduced?

4. The $10.00 first prize by the NIA to the monthly winner should not be overlooked. If you are broke it would at least raise you to a just slightly bent financial condition. The two other monthly awards of one-year memberships or extensions of membership in the North Island Association will be of considerable importance to you. Its monthly paper will keep you informed of pertinent legislation, social affairs, and other matters of general interest and importance to all employees. You will be part of an organization devoted to improving conditions surrounding our employment and to the constant building of mutual confidence between the command and the employees.

5. There will be an opportunity for winners of this contest to receive beneficial recognition. Local hailing of the best monthly safety "sloganeers" will be accompanied by submission of their work to the Navy Dept., the National Safety Council and other national activities. In connection with this, an announcement of the contest has just been prepared by the Safety Division for submission to the Office of Industrial Relations in Washington, D. C. The notice is to be used in a forthcoming issue of their national publication THE INDUSTRIAL RELATOR.

You can't lose by entering the contest. Put on your thinking caps and submit a good, original safety slogan. The first winners will be announced shortly; if you are not among them, try again. This contest is something like Safety itself, it'll be around for quite some time.

"Music With Romance" Band To Play For "Pigskin Prom" At Beach Facility & "O" Club

It's gridiron time again all over America and especially at Naval Air with this year's team looking better than ever. What better way is there to begin the season of yells, hot dogs, pop corn, and banners than with a gigantic party and Special Services has come up with just the thing!

Lorraine Benson

Next Friday evening all NAS personnel—football advocates or not—will have the opportunity to help open this favorite sport season with a spectacular "Pigskin Prom." Kick-off time for the big event is 2100 with the final gun sounding at 0100 at the Air Station's Beach Recreational facility.

Popular Ray Herbeck will be team captain for his famous band and their "Music with Romance" and lovely Lorraine Benson, beautiful vocalist for the group, promises to be the star player for this superior team.

All the color, pageantry, and excitement of a championship gridiron clash will be on hand to greet "game participants." Plenty of free refreshments, entertainment, and hostesses head the program of this season opener.

The following night, Saturday, September 20, at the NAS Com-

(Continued on Page 5)

Civilian Blood Donations Take Place Here Thurs.

Volunteers are needed to replenish the NAS Civilian Blood account at the San Diego Blood Bank next Thursday, September 18.

One hundred donors are asked to volunteer their services at the Bank, 4227 Park Blvd., from 1000 to 1830 on the specified day.

During the past month and a half, civilians have required more blood than usual from the blood fund. The fund is now taking care of several leukemia cases, where from one to four pints of blood a week per person is released. Those interested in donating blood for their own fund, should contact their supervisors or Shop Personnel Supervisors as early as possible.

Drive to Eliminate Waste in Armed Services Backed by Navy Dept.

Reports of waste of appropriated funds by military groups has aroused the concern of the United States Senate, according to recently published reports in the Army-Navy-Air Force Register.

Shortly after the Senate Appropriations Committee began hearings on the Department of Defense budget for the fiscal year 1953, the topics of overstocking supplies, overpurchasing, use of surplus materials, cataloging and standardization of supplies, purchase of luxury items, and lack of conservation by the military, began to receive nationwide publicity.

Shortly after the outbreak of fighting in Korea, the heads of the three departments in the National Military Establishment opened a Cost Consciousness Indoctrination Program to cover

(Continued on Page 6)

VA Issues Information On GI Loans

Six steps to a GI loan for a home, farm or business were outlined today by the Veterans Administration for the benefit of more than a million veterans who have been discharged from the armed services since the start of the Korean conflict.

The new Korean GI Bill, signed into law by the President on July 16, this year, amends the loan guaranty section of the World War II GI Bill to include eligible veterans with service anywhere in the world since June 27, 1950.

VA regional offices across the country are now issuing certificates of loan eligibility and processing applications for loan guaranty.

The six major steps to a GI loan are:

1. Find the property or business venture you want to buy.
2. Go to a bank, building and loan association, or other institution.
3. Present your plan and your original discharge or separation papers.
4. Property is appraised by VA approved appraisers.
5. Certificate of reasonable value goes to the lender.
6. If application is approved, the loan is made.

In step No. 3, the original discharge or separation paper is needed to apply for a certificate of eligibility. VA said that veterans need not rush to apply for these certificates since there is

United Fund Drive Coordinators Meet

"Give Where You Work" To Be Slogan Of Gigantic Campaign Which Will Begin October 1

Not half a dozen, not four, not even two—just one single United Fund Campaign will be held this year, to gather contributions for the several charitable institutions which annually stage drives for funds to carry on their essential work among the unfortunate and the needy.

A plan has been evolved to eliminate the almost continuous series of appeals which have annually confronted North Island personnel—a plan which combines the drives of four of the major charity organizations.

The drive, which will commence October 1, and will continue through that month, is being sponsored by the Naval Air Station, to raise funds in behalf of the Community Chest (including the U.S.O. and 55 other San Diego agencies), the American Red Cross, the American Cancer Society, and the Heart Fund. This will be the ONLY fund raising campaign to be actively staged on North Island for the balance of this year.

Inauguration of the Naval Air Station's single appeal for funds is a move toward eliminating duplication of effort, and the cutting down of the growing number of separate fund campaigns which have heretofore extended over a number of months each year.

Future action in the field of fund solicitations will probably be based to a large degree, upon the success, or failure, of North Island's United Fund drive.

It is important that every person, civilian and military, do his part, as he or she is able, in putting this campaign over. To this end, the slogan "Give Where You Work" has been instituted, as North Island's drive coordinators in each department organize their batteries of solicitors and carry the appeal to the individuals in the shops, the offices, and everywhere on the station.

Co-ordinators meet to hear instructions from United Fund Drive chairman, LCDR J. L. Morrissey: in Building 8 auditorium Tuesday. Plea was for complete canvass of every person on the station: emphasis was on this being a single fund raising drive, replacing four separate ones previously held each year.

Fairbetupac Audience Sees First Variety Show Friday

Rocking the small recreation room with laughter and musical sunshine, Buddy Viotti, his Madcaps and personnel from North Island Productions put on the first of a series of Variety Shows for FAETUPac last Friday noon.

The show, sponsored by the Special Services Department of the Unit, was only the first of a series of monthly productions scheduled to entertain FAETUPackers. Clayton E. Lacy, AT3 of FAETU is official Master-of-Ceremonies and was responsible for the morale-building idea. Future shows will be run on the "Arthur Godfrey Talent Scout" style with the discovery of local talent as the prime motive. The North Island people volunteered their efforts to get the ball rolling and are expected to participate in the show next month. Several guest stars, probably one to a show, will also be used to augment the local talent. They will include performers from San Diego as well as North Island.

250 Attend

Viotti's Madcap combo, with Buddy on the piano, Bill Betz on the bass, Frank Scruggs on the drums and Bill Paney on the sax, started the 45-minute show with two instrumentals for 250 cheering sailors—and two Waves. Bobby White followed with two vocals, "Exactly Like You" and "For Now," in Bob's remarkable Eckstein style. After two more renditions by the Madcaps, Skip Young was introduced and proceeded to set the house on its ears with his routines. Viotti joined him in one about Edward, the homesick seaman deuce, and then Skip took off on a tangent about Ernestine, his woebegone lass from Lower Slobbovia. Buddy Viotti raised Bob White's eyebrows with his impersonation of Billy Eckstein followed by Rose Murphy and then he drowned the house with laughter during his impression of Ray's much discussed "Cry."

Clay Lacy closed the show inviting all hands to the next performance of the Variety Show in the Operations Area on October 3, while the combo sang the ever-popular "Get Happy."

NEW CANTEEN WAGON AT 660 AND 661

Employees in the vicinity of Buildings 660 and 661 are reminded that the mobile lunch wagon which has been sought by workers in that area, was placed there September 2. According to reports given in this week's shop meeting, additional patronage may be necessary to maintain this service.

Jewish Churches Invite Personnel To Religious Observances This Month

Jewish personnel have been cordially invited to attend services in the three San Diego Synagogues in observance of Rosh Hashonoh, Friday evening, September 19 through Sunday, September 21, and Yom Kippur, Sunday evening, September 28 through September 29.

The three Jewish churches in San Diego are Temple Beth Israel (Reform), Third and Laurel Streets; Tifereth Israel Synagogue (Conservative), 30th and Howard Streets; and Beth Jacob Synagogue (Orthodox), 30th and Meade Streets.

A "Break the Fast Supper," sponsored by the USO-National Jewish Welfare Board, will be held in the Temple Beth Israel at 1830, September 29. Further information concerning these religious services and other observances, call Esther I. Siegel, Director, 215 Spreckels Building, Telephone F. 9-3712.

99 Percent Of Civilians Get Chest X-Rays

According to CAPT. H. G. Shepler, MC., 99 percent of the civilian employees of Naval Air Station received chest X-rays during the recent stationwide program.

Approximately 7500 station employees had their chests x-rayed by the Naval Hospital's mobile equipment during August.

The Medical Department advises that results of the chest x-ray will not be sent to individual employees but that the Civilian Dispensary will call those re-Employees who are not notified can consider their chest x-ray examination as negative. All reports will be returned by the Hospital in the near future.

Annual chest x-ray examinations will be scheduled at a later date for station employees who were absent during August.

"Pops" Jazz Concert Here Sunday At 1300

Walter Fuller and his orchestra will be featured at the first in a series of "pop" jazz concerts scheduled to take place next Sunday at 1300. The session will be at the NAS Beach Recreational Facility.

Dancing will also be offered as well as plenty of food which may be purchased from the Facility's large snack bar.

All Naval Air Station military personnel and their dependents are invited to the concert.

Coronado Police And Firemen's Ball To Be Held September 19th

The seventh annual Police and Fireman's Ball will be held at the Hotel Del Coronado Friday, September 19th, at 9 p.m. Tickets may be had by contacting the Coronado Police Department, Sixth at Orange.

All proceeds from the annual ball go into the Coronado Police and Firemen's Association for the welfare work of the organization.

The annual dance is the only fund-raising project for the organization. The Association provides for the police and firemen of Coronado and their families in time of need.

Take Plenty of Money, School-Bound Vets Urged

Veterans with service since the start of the Korean campaign who are planning to go to school under the Korean GI Bill were advised today by the Veterans Administration to take along enough money of their own to tide them over for about two months.

The reason, VA explained, is that under the law, GI education and training allowances can't be paid until sometime after a veteran actually completes each month of training. Therefore, one month of the delay will be caused by the veteran completing his initial month of training.

The law also requires that both the veteran and his school or training establishment submit a certification to VA—after the end of the month—to the effect that the veteran actually was enrolled in training during that period.

This, too, takes time, so VA urged schools and establishments to get the certifications in as quickly as possible after the end of the month to keep the time at a minimum.

Finally, after VA receives the certifications, it must compute how much GI allowance each veteran is entitled to, and must mail out the payments. This process, VA said, normally will be kept down to 20 days from the date VA receives the certification.

Because of all these factors, post-Korea veterans would be wise to allow for two months before they can expect a check from the Government, VA said. Afterwards, of course, checks will come regularly each month, so long as they remain in training and their certifications are in order.

A veteran who starts GI training after the 20th of a month will have to wait several days longer for his initial payment, VA pointed out. The reason is that VA can't process his certification until after he has completed his first full month of training. Payments for both periods—the complete month and the few days of the preceding month—will be included in his first check.

The allowances for veterans training full-time in schools and colleges under the new Korean GI Bill are $110 for those without dependents; $135 for those with one dependent, and $160 for those with more than one dependent. Allowances for part-time training, on-the-job training and institutional on-farm training are somewhat lower.

The GI allowances are paid directly to veterans, and are the only payments made under the new Korean GI Bill. They are for the purpose of assisting veterans in meeting the costs of their training.

Machine Branch to Have Picnic Friday

Approximately 400 members of the Machine Branch of the O&R Metal and Machine Division and their families are expected to attend the branch's annual picnic scheduled to take place next Sunday at El Monte Park.

Beginning at 1000, the event will include plenty of food, games for children and adults, and will end with a dance featuring the music of Jimmy Moore and his Western Cowboys. The menu consists of turkey with all the trimmings, ice cream, and all types of beverages.

Tickets for the picnic have been on sale for several weeks, but a few will be available for those wishing to purchase them at the El Monte Park gate. The entire Metal Branch is invited to attend and bring their families.

S&F's House Hold Goods Unit Disestablished

Naval Air Station Supply and Fiscal Department's Household Goods unit has been disestablished, according to word released this week. The action became effective August 15, this year.

Military personnel now desiring shipment of their household effects should contact the Naval Supply Depot, San Diego. The telephone number is Main 3871, ext. 265.

It was further pointed out that personal effects will continue to be processed by the Shipping Unit of the S&F Department.

JUST A LITTLE ONE this time, says B. W. Hamilton, Shop 8089, Plant Division of O&R. Standing beside the 116-pound marlin swordfish he brought home over the Labor Day weekend, he recalls the 205-pounder he caught two years ago to establish the record for NAS fishermen. Hamilton's catch leads the way to date in the marlin class of the Civilian Fishing Tournament. All civil service employees are eligible to register for the contest, there are lots of fish classifications that are still wide open for sizeable entries. Registration blanks are available at Employee Services, Bldg. 415.

Get Acquainted

Meet LT Husted

On the 28th of August, LT S. J. Husted USNR reported aboard the Naval Air Station for duty. LT Husted will relieve LT E. J. Matlin as Station Secretary sometime this month.

LT Husted's last duty was aboard the USS Cape Esperance TCVE where he served as the Ship's Secretary. He engaged in transporting aircraft to the Korean theatre besides some other Asiatic Nations under MDAP.

LT Husted joined the Navy in August of 1942, he earned his commission at Naval Air Station Atlanta, Ga., on 12 June 1944. He served with the Navy until May 1946, during this time he worked with Squadrons VR-12 and VR-8 under Naval Air Transport Service, his job with NATS was Air Transport Officer.

From May 1946 to August 1950 he was the Vice President of Central Amusement Co., Inc. at Charlotte, N. C.

LT E. J. MATLIN, NAS Station Secretary and Officer Personnel Officer, explains a new phase of his work to LT S. J. Husted who will replace LT Matlin shortly.

USAFI Adds Courses In Mapping, Economics

As far back as time can recall, map making has been practiced, making it invaluable during wars, on expeditions and almost every kind of geographical history.

The last global war brought forth an interest in cartography unparalleled since the time of Columbus and Magellan. Soldiers were trained by the millions in map reading, map making, and the use of airplane photographs. All this is brought out and indicated in the preface to the textbook, on current military interest in the study of mapping.

The purpose of the course is to present the fundamentals of map making so as to enable the student to give clear, correct, graphic expression to his ideas and observations. The course begins by tracing the historical development of the various types of projections, their methods of construction. The student is taught the techniques of preparing and producing maps and the uses for which maps are made.

The course in mapping is available for self-teaching and group methods of study as MB 771. The course is available for correspondence study as CB 771. Students who are interested in enrolling for the correspondence course should enroll in CB 771, which includes 16 lessons. Students who wish to enroll individually and not submit lessons should enroll in MB 771. Either the correspondence or self-teaching course may be completed by passing the end-of-course test. End-of-Course Test—MB 771.7.

The butcher, the baker, the candlestick maker and the serviceman are all engaged in business for themselves, the business of spending and saving their incomes.

USAFI, in announcing the availability of Course H 190, Personal Economic Problems, and EM 794, Consumer Economic Problems, is offering courses for the first time in a field that has interest and practical application for all servicemen.

Both the courses cover work similar to that offered in Economic Problems at the high school level.

The courses guide the student in the efficient management of his personal income. They teach him how to get maximum satisfaction out of the time, effort, and expenditures that he makes for economic services, shelter, food and other goods.

The economic problems with which the consumer-serviceman is faced are analyzed in a practical way, teaching him how to interpret advertising, use banks and credit, buy insurance and a home.

Course H 190 is available only for correspondence study, while course EM 794 is available for self-teaching and group methods of study. Students who are interested in a correspondence should enroll in H 190, which includes 12 lessons. Students who wish to enroll individually and not submit lessons should enroll in self-teaching course EM 794. Either the correspondence course or the self-teaching course may be completed by passing the end-of-course test. End-of-Course Test—H 190t.

START AND FINISH of the individual's working day is recorded by the well known time clock. These Overhaul & Repair Department employees are not actually checking out at 2:44, but have taken a moment's time out to illustrate the move for the photographer. Left to right, they are: Warren V. Norris, Jan Maiefski, and Dee Kirkendall.

ELECTRONICS DIVISION utilizes a time check from Washington to maintain the accuracy of an intricate primary frequency standard. This clock, checked once daily, must be kept correct to within 1-100 of a second at all times in order for the frequency standard to be considered accurate.

TIME

THE MEASURE BY WHICH WE LIVE

By GEORGE BERGMAN

TIME— Unfanthomable, taken for granted, yet mysterious when seriously contemplated. TIME — that factor of life, separate, yet strangely connected with thought, with light, with all phases of our existence. When we are in a hurry, time moves all too swiftly; yet when we are bored, or waiting, anticipating an event eagerly, time slows down, although the measured minutes on the man-made clock may show the same.

Time guides the flow of activity at Naval Air Station, as it does in any industrial or military establishment. By use of timing devices, routines are established, events are planned, amounts of work are distributed.

Since time becomes so important, as well as restrictive in its role of determining the "when" and the "how much" of so many of our daily activities, let's take a quick look at the variety and the complexity of some of North Island's clocks and timing devices that start and stop the NAS work day for each of us, and measure the amount of time we work for pay purposes.

There are intricate clock devises used to test the accuracy of electronics equipment, time signals from Bureau of Standards in Washington, D. C., used to maintain this accuracy, and numerous other carefully kept timing mechanisms, on the Island.

Plane operations are timed. Flight hours are timed. Mail receipt is timed in offices. Running of motion pictures is timed in the station theater. Scheduled runs of busses, and point to point progress of taxis are timed.

WITHOUT TIMING there would be complete breakdown of the human element of the industrial-military machinery. Without time, there would be chaos.

O. E. OLSON inspects (above) clock in communications, building 319. It is one of a series of clocks which control the several different systems of start and stop work whistles and horns used in the shops and work areas. He also demonstrates (below) the fire alarm testing device in the central fire alarm room. Tested at exactly 1000 each day, this device is widely used for setting of North Island timepieces.

THE TIME IT got there is an important item in the receipt of official Navy mail. All but registered mail goes through this I.B.M time clock, when it arrives in the NAS Administration Office. Below, C. H. Brown, AE3, logs a piece of incoming correspondence, while R. A. White, AA, removes the next letter from its envelope.

Chaplain's Corner

Back To School

The Home, the Church and the School have long been considered the three principal institutions of society. The importance of the School is brought to mind as we see the countless number of children along the streets on their way to school.

In America, education has been one important factor in our country's greatness. We believe in education for all our citizens, regardless of economic status, color, race or creed. We believe every child has an inherent right to be equipped through education with the arts and skills necessary to live a productive and useful life in society. Opportunities are offered for those who show aptitude to continue their education through the college and university levels.

The Church, through the ages, has played a vital role in fostering education, and many schools, colleges and universities in our counrty owe their founding to churchmen who had vision and who saw the need of providing institutions of learning for our citizens. We, in America, should be proud of our schools, and should take an active interest in local school district administration, to the end that our schools maintain the highest standards of teaching and operation.

As a Chaplain, I must call to mind the fact that a well rounded education includes religious education as well as the so called secular education. A criminal may be well educated from the standpoint of secular education, but he lacks education in moral and spiritual values. It is this education, in moral and spiritual values, which guides the individual in the application of his arts and skills toward the most noble ends. Therefore as parents, who are interested in the child's welfare, we must see that our children receive this education in moral and spiritual values. At this point, the Church takes its place alongside the school, by providing Sunday Schools and classes of religious instruction. While we are thinking in terms of back to school, let us, also think in terms of back to Sunday School. Let us remember the words of Paul, the Apostle, to his young friend Timothy, "Study to show thyself approved unto God, workman that needeth not to be ashamed, rightly dividing the word of truth."

CHARLES H. SWIFT,
Chaplain, USN

INTERESTING CURRICULUM is explained to the Mathers children, Eleanor, 7, and Danny, 8, by Sister Rachel of the Sacred Heart School of Coronado. CDR D. H. and Mrs. Mathers also appear interested in the training aids used by the parochial school.

"I Pledge Allegiance...."

Monday was for many NAS school children the first day of a new adventure and the first time they are to realize their national heritage when they recited:

"I pledge allegiance to the Flag of the United States of America, to the Republic for which it stands; one nation, indivisible, with liberty and justice for all."

To the parents of these children and to everyone aboard the station, this brief pledge summarizes our way of life and a creed that made this country great. For, in believing the Pledge of Allegiance, each American will add to the heritage of today's children.

LEADING KINDERGARTENERS in their first Pledge of Allegiance is Glorietta Elementary School Teacher Miss Mary White. Children are, left to right: Chang Sing Chang, Dorothea Helen Smith, Jimmy Jensen, and Larry Price.

School Starts For San Diego Kids Monday

First day of school for most of San Diego County children will be Monday, however school started last Monday in Coronado.

Many Island children and their parents were on hand Monday to register. Among the registering families at the Sacred Heart School in Coronado were the CDR D. M. White and CDR D. H. Mathers.

Registering for the fall term at the Glorietta Elementary School in Coronado were Larry Price, son of Melvin W. Price, a mechanic helper of O&R; Dorothea Helen Smith, daughter of Alonzo L. Smith, SD3 of VF-51; and Chang Sing Chang, son of Chai Te Chang, SDC of NAS.

REGISTRATION DAY in the White household is a big day as the three White boys, Donald Jr., 10, Edward, 7, and Bruce, 12, are accompanied by parents, CDR and Mrs. Donald White. They registered at the Coronado parochial school Monday.

THE PLACE IS **familiar**

Music, dancing, free beverages and food were the featured attractions at the gigantic opening of the Naval Air Station Enlisted Men's Club that big Tuesday evening, November 15, 1949.

Since that ceremonious opening nearly three years ago, the "EM" Club has come to be one of the most popular and successful places of rest, relaxation, and entertainment for men in and around NAS.

The club includes complete dancing facilities, sumptuously furnished lounging spaces, television, piano, radio and juke box, a snack bar, a beverage bar, and an outdoor Australian patio.

Colorful and brilliant overhead pendant lights provide warm effect for evening use of the unique table-dotted patio which is resplendent with additional colored spotlights directed into the grove of stately eucalyptus trees.

The NORTH ISLANDER

Vol. XI September 12, 1952 No. 37

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-350, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

TELEPHONE EXTENSION 1475. Call this number to report news.

Supervisory Class To Start Oct. 2; Math Classes Now

A class in Supervisory Training will have its first meeting Tuesday, October 2, according to Training Division sources. Signups are now in order, on Ext. 658.

Mathematics is being offered in a variety of phases, with classes forming now. Anyone who needs a better working knowledge of this subject, will find these courses good for either beginning or advanced students.

Payday Monday

Schedule for payday, Monday, 15 September, 1952, disbursing office, Naval Air Station, San Diego, California.

Officers will be paid between the hours of 1015 and 1130.

Chief Petty Officers will be paid between the hours of 0800 and 1815.

Enlisted personnel (except Chief Petty Officers) will be paid in accordance with the following alphabetical schedule:

NORTH DOOR		WEST DOOR	
0815 - 0820	Messmen	0815 - 0825	Waves & Messmen
0820 - 0825	K	0825 - 0830	A
0825 - 0830	L	0830 - 0840	B
0830 - 0840	M-N	0840 - 0855	C
0840 - 0850	O-P-Q	0900 - 0910	D
0850 - 0900	R	0910 - 0915	E-F
0900 - 0915	S	0915 - 0920	G
0915 - 0920	T-U-V	0920 - 0925	H
0920 - 0930	W-X-Y-Z	0925 - 0930	I-J

Stragglers will be paid 15 September, 1952, at 1200-1230.

New Toastmaster Officers

CONGRATULATIONS were in order at the Tuesday noon luncheon meeting of the North Island Flying Toastmasters, as outgoing president, Captain J. F. Tenney, greets president-elect Commander W. C. Bryan. Corps of new officers, and outgoing vice-president look on at the solemn occasion. Others are (left to right): LCDR J. O. Nesbitt, LCDR H. L. Conner (new veep), CDR J. W. Antonides, LCDR E. W. Harrison, and LCDR W. R. Campbell (outgoing veep). Flying Toastmasters meet every Tuesday at the Commissioned Officers' Mess (Open), have 20 active members at present, limit membership to 30. All commissioned officers on the Naval Air Station are eligible for membership.

THIS IS AS CLOSE AS WE COULD GET to hearing anything from or about NIP's forthcoming gigantic presentation "Surprise" . . . and we heard only a few chords then! Two NIP staff members, Bill Slagle, SN, and Ken Sansome, DK3, try out a few bars from one of the songs included in the show.

NIP Won't Tell! Show To Be Real "Surprise"

Our NORTH ISLANDER reporter has tried every known method of extracting news from a reluctant source, but all efforts have miserably failed! NIP won't tell!

We know only that sometime in October, Naval Air's North Island Productions will present another of its fast-becoming famous productions. From those we've seen in the past, it's only natural to surmise that it will be big . . . and **great!** It will feature top NAS talent and wit, but who's doing what???

It was learned (probably through a slip of the tongue) that all rehearsals will be closed with each individual act rehearsals separate so that not even the other people in the show will know exactly what's going on!

Someone weakened enough to tell us that try-outs for "Surprise" will take place Tuesday evening, Sept. 23, in the Building 8 Auditorium and all Naval Air Personnel are urged to try-out for parts. It was stressed that personnel need not have a theatrical background nor be especially gifted musically. There will be all types of parts, so experienced or not, why not answer the "Surprise" cast call. After all, that is one way to find out a little about what's going on behind that closed stage curtain.

Easy Aces And Mix-ups Will Star In First Night Of NACRA Bowling

As the curtain rose with creditable fanfare on the ninth annual performance of the NACRA Mixed Bowling League, Tuesday night, the leads were played by the Easy Aces and the Mix-Ups, with great finesse.

Easy Aces and Mix-Ups dumped Pinbusters and Woodpickers respectively, in 4 straight rounds at Pacific Recreation, to startle the bowling gentry and head up the league with one week down and twenty-seven weeks to go.

Pinbusters' four loss brought them down a peg, as they are accustomed to being close to the top, and are defending 1951 champions.

Friendly Five and Just Us Five, went 3 to 1 over Question Marks and Happy Five respectively, with Just Us Five serving notice on the two leaders, racking up the high team game for the night with 824, and the high team series with 2194.

Easy Aces were placed to their win by team captain Ray Farrell, who rolled a sparkling 203 with great early season form.

Just Us Five's high marks were to some extent the responsibility of team captain John Allison, who came in with a 528 high individual series.

There will be a meeting of team captains Tuesday, September 16, at 1300 in the blue room of the civilian cafeteria. Meeting will be for election of league officers and W.I.B.C. representative.

NIP Presents Variety Show Here September 17

Audiences at Camp Pendleton were the first to see the newest North Island Productions Variety Show which is scheduled to appear at the NAS Theater next Tuesday. The show began a tour of local military installations with the Pendleton performance last night.

NIP's 90-minute musical extravaganza featured some of Naval Air's and San Diego's outstanding theatrical and musical talent. The show, staged and programmed by Buddy Viotti, AA, and Skip Young, AF3, included high wire and trapeze acts, song and dance routines, comedy skits, impersonations, and a 12-girl chorus line.

The show will be witnessed by NAS audiences Tuesday for one performance only. It is not to be confused with the forthcoming major production by NIP, to be entitled "Surprise" which is scheduled for an Air Station debut sometime in October.

Electronics Class To Open Sept. 2

Always a favorite among Training Division classes, the after-hours Electronic Class will open once more, September 23, according to word from Building 5, division headquarters.

Some other classes taking shape rapidly are Basic Electricity, Engine Theory, and Jet Engine Theory.

"Pigskin Prom"

(Continued from Page 1)

missioned Officers' Mess (Open), Air Station officers will be afforded the opportunity to participate in a repeat game featuring the same team. Time for this pigskin play-off will be 2030 and ending at 0030.

Let's go, NAS! This is your chance to do more than just back your team!

Drop in Beneficial Suggestion Box

"HAPPY BIRTHDAYS" were in order for two NAS O&R employees who celebrate the same birthday. Eva Hall, 41 her last birthday, and Carl Stalnaker, 67, were given a party in honor of their birthdays Friday, August 29, by the men and women of O&R Shop 3194. Their birthday was Labor Day.

powerplant paragraphs

By B. Dreher

Mr. JOHN GASPARICH, Shop 6276, J. P. BROWNLESS and A. E. HOLMQUIST of Machine Shop were presented with Beneficial Suggestion checks last Friday by the Power Plant Division Officer. That's really a good way to make some extra money for Christmas.

Lots of parties during the noon hour last Friday . . . MERT LLOYD of Production Control (who has been running the machine to print up bearing bags) well, as I was saying—she checked out to stay home and take care of her house and paint the back fence. Some of the gals who have known Mert "these many years" had a pot luck during lunchtime to bid Mert goodby.

CARL MAXWELL was also the recipient of some cakes and good wishes the noon hour last Friday when he ended his 30 years of service to the government. Mr. Maxwell spent a good many years in the Navy and at one time was Assistant Power Plant Division Officer. After he retired from the Navy, he returned to NAS to become a Leadingman in the Production Control Group of the Power Plant Division. He doesn't know what he will be doing in the future, but is pretty sure he'll be busy somewhere within the San Diego City Limits.

electrons

By "Windy" Splichal

Congratulations to Jewell Skillman and his wife on the newest arrival in the Skillman household. Their home now has the addition of a 5 lb. baby boy.

Mary Pinsky is back to work after two weeks leave to care for her sister who has been ill.

Cecil De Swan and her husband spent a ten-day vacation breaking in a new car and visiting Las Vegas and Pioche, Nev.

Francis and Irene Witkowski and their son, Johnny, traveled to Connecticut to visit with friends and relatives. Johnny enjoyed fishing while his dad had a sleepy-time vacation.

Leon Monroe celebrated a birthday on Monday with a lovely gift from his friends. Was it your 21st birthday, perhaps????

We were sorry to hear Pappy Heath is home suffering from second degree burns on his hands. Get well soon and hurry back

Remember our friends in the Navy Hospital with a cheery card.

"Hot Shot" C. T. Leggett has taken up bowling. During a recent evening out with Monty Marshall and Bob Howard, "Hot Shot" rolled the terrific score of 89.

FOR RENT—Pleasant room in Coronado; bath; private entrance; excellent for Navy man. Location, 1425 7th Street. Call H-3-4637.

FOR RENT—Large room with separate entrance and connecting bath. Contact H-3-4497.

RIDERS WANTED—From Chula Vista to North Island via Silver Strand; 0715 to 1630 shift. Phone H-2-1683 after 1715 week days or anytime during the weekend. Will form or join car pool with someone from Chula Vista.

RIDERS WANTED — Three riders from Chula Vista to NAS via Silver Strand on 0730 to 1600 shift desired. Call A. C. Cox, H-2-1481.

RIDERS WANTED—to and from Chula Vista. Phone R. J. Rust, CV-994.

RIDERS WANTED—Leaving for Milwaukee, Wisc., on or about September 17. Will take one or two riders who will share driving expenses. Route undetermined. Contact LT Henschke at Bldg. 319, Communication Office.

RIDE WANTED—From Lamont Street, Pacific Beach, to dock; 0800 to 1630 shift. Contact Mrs. Hughes, H-8-2010, after 1800.

RIDE WANTED—From University and 50th to S&C landing or NAS via ferry; 0715 to 1545 shift. Contact C. Walker Smith, R-3026.

RIDE WANTED—From 45th and Market Streets; 0700 to 1530 shift. Call Wilfred M. Blair, M-4-6842.

RIDE WANTED—From Chula Vista; 0800 to 1630 shift. Call CV-191W.

RIDE WANTED—From El Cajon to fleet landing; 0730 to 1630 shift. Call Hilldale 4-4731 after 1800.

RIDE WANTED—From Brookside, La Mesa, Imperial Ave., and Camps Road. Contact M-4-2281.

Navy Backs Drive

each member of the Armed Forces, and to indicate to him what he, as a single individual, could do to increase the returns received for every dollar expended.

SEC NAV STARTS DRIVE

The Navy has under way, a concerted drive to make everyone in the department efficiency-minded and cost-conscious. In addition to the formal organization and actions for management improvement described above, the Navy enlists individual efforts in this endeavor. That this drive for economy is paying off is affirmed by the fact that the Department of the Navy received first award for 1951 from the National Association of Suggestion Systems in recognition of the greatest increase in employee participation in this form of management improvement of any Federal agency.

Suggestions made by employees have resulted in increased efficiency during the past fiscal year. The first group achievement award granted in the Department of Defense, under title X of the Classification Act of 1949, was presented last November to 62 employees of the Navy for outstanding effort in expediting shipments of supplies to Korea.

The Secretary of the Navy, on January 30, 1952, issued a directive giving responsibility to the Chief of Naval Material for establishing policies and procedures governing a Navy-wide material conservation and utilization program. Objectives are:

(a) to develop "material consciousness" on the part of each individual.

(b) to foster the utmost economy in the use of material.

(c) to promote the use of substitute materials to the maximum extent possible.

This action centralizes direction for a program that has been in effect in the Navy for some time. In the first six months of fiscal year 1952, strategic and critical materials of $8,378,960 value were made available through the sale of scrap material and by shipment to GSA for stockpiling.

The most unglamorous suggestions, yet by far the biggest savings to Navy and to the Government, are those that cannot be reflected in dramatic examples. These savings accrue by having the right people in the right jobs pursuing in their daily routines, business practices that avoid costly mistakes and the need for later correction or improvement.

NAVAL AIR COMES THOUGH

Success in this field is not new to the Naval Air Station, San Diego. This activity has made major contributions toward the success of the Navy.

Information On GI Loans

(Continued from Page 1)

usually time to do so when the loan application is submitted.

Local VA regional offices, however, will issue certificates of eligibility at any time upon the request of an eligible veteran.

To be eligible, veterans must have been discharged or released under conditions other than dishonorable; they must have had active military or naval service in the U. S. forces anywhere in the world at any time after June 27, 1950 and before the current emergency is declared ended, and they must have served at least 90 days unless they were discharged sooner for a service-connected disability.

Unremarried widows of men who served since June 27, 1950 and who died in service or as a result of a service-connected disability after service, also may qualify for GI loans under the Korean GI Bill.

World War II veterans who reentered service since June 27, 1950, will have their unused loan entitlement under the World War II GI Bill cancelled when they are released from active duty and may receive new entitlement under the Korean GI Bill.

The result is, that these World War II veterans, like all veterans eligible under the Korean GI Bill, will have 10 years from the end of the Korean emergency — a date to be set by Presidential proclamation or by concurrent resolution of the Congress to obtain GI loans. The World War II GI loan deadline is July 25, 1957.

The GI loan program is designed to encourage lending institutions to make loans with small down payments and at a low interest rate because of the protection of the VA guaranty.

Three types of loans are permissible:

1. To purchase, construct or improve a home.

2. To buy a farm, farm land, livestock, farm machinery and other farm supplies and equipment.

3. To buy a business or otherwise enable a veteran to undertake or expand a legitimate business venture.

Ordinarily, VA does not lend money to the veteran. VA explained that the veteran makes his own arrangement for the loan through the usual financing channels — banks, savings and loan associations and the like. This is the first step in securing a GI loan after the property or business venture has been selected.

Veterans are advised by VA not to sign any contracts or commitments to purchase property until they are assured that a particular lender will make the GI loan.

VA then guarantees or insures the lender against loss up to 60 percent of the loan with a maximum of $7,500, for home loans. On other loans, VA guarantees the lender against loss up to 50 percent of the loan with a maximum of $4,000 on real estate and $2,000 on non-real estate loans.

Under certain conditions, however, VA is authorized to make a limited number of direct loans to veterans who want to buy or build a home, or build and improve a farmhouse. These VA loans may be made only in the smaller towns and rural areas where 4 percent GI loan money is not available from private sources.

The interest rate on VA- guaranteed loans may not exceed 4 percent a year on the unpaid balance. Fees and charges may not exceed those allowed by VA.

Also, VA pays the lender — for credit to the veteran's loan — an amount equal to 4 percent of the guarantee, but not more than $160. This is a gift to the veteran, and not another loan.

VA reported that, as of July 25, 1952, 3,072,811 loans for homes, farms and businesses have been approved for guaranty or insurance under the World War II GI Bill. The original principal amount so far borrowed on GI loans by World War II veterans is over 18 and ⅔ billion dollars. Of that amount, nearly 1 and ¾ billion dollars already has been repaid in full, a repayment record considered by private credit authorities to be excellent.

Department's lead on other Government activities in the development of improvement ideas. During the latter half of 1951, this air station consistently held first place in competition with all major BuAer activities, and succeeded in almost doubling the actual savings reported by any competitor.

During the year 1951, NAS San Diego employees submitted 2,019 suggestions on ways to improve Navy operations and save taxpayers money. Seven hundred and thirty-two employees received a total of $24,486 in cash awards. As a result of adopting these ideas, the station effected a monetary savings of more than $634,000.

In addition, many suggestions were of an intangible nature that made improvements in quality of product, contributed toward safety and other benefits.

It's an all-hands effort, not only to eliminate military waste, but to keep the record of this air station high among the leaders, as the Navy shows the way in effecting material economy.

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

Q. DOES REFERENCE (a), WHICH IMPLIES THAT ANNUAL LEAVE IS CREDITED ON BI-WEEKLY PAY PERIODS APPLY TO UNGRADED EMPLOYEES AS WELL AS GRADED?

A. NCPI 105.2-9 (dated 3 July, 1952) states "Pay Periods other than bi-weekly—Ungraded employees who are paid on a weekly basis will earn and be credited with leave on the basis of the bi-weekly pay periods established for graded employees." In view of the above, reference (a) pertains to both graded and ungraded employees.

Q. BY WHAT DATE MUST EMPLOYEES WHO HAD CARRIED OVER 60 DAYS ANNUAL LEAVE ON 1 JANUARY 1952, REDUCE THEIR LEAVE TO THE ALLOWABLE MAXIMUM OF 60 DAYS?

A. NCPI 105.3-4a states that the total accumulated annual leave must not exceed 60 days at the end of the last complete bi-weekly pay period in any calendar year. Therefore, employees who had 60 days annual leave to their credit on 1 January 1952 must take all leave earned this year by 20 December 1952 or lose leave which is in excess of 60 days.

Q. IF AN EMPLOYEE, EARLY IN 1952, USES ALL OF THE ANNUAL LEAVE HE WILL EARN BY 20 DECEMBER 1952, WILL THIS EARLY USED LEAVE BE SUBTRACTED FROM THE LEAVE HE ACCUMULATED PRIOR TO 1952?

A. NCPI 105.3-5a states, "Annual leave to an employee's credit, including leave that will accrue to an employee during the year, may be granted at any time during the year.". In view of the above, employees may take 1952 leave any time prior to 20 December 1952, and it will not affect the annual leave they accumulated prior to 1 January 1952.

Q. IF EMPLOYEES, WHO HAD ANNUAL LEAVE TO THEIR CREDIT ON 1 JANUARY 1952, TAKE MORE LEAVE PRIOR TO 20 DECEMBER 1952 THAN THEY ACCRUE BY THAT DATE, HOW WILL IT AFFECT THE LEAVE THEY HAD ACCUMULATED PRIOR TO 1 JANUARY 1952?

A. Any amount of leave taken in excess of that accrued up to 20 December 1952, will be deducted from leave accumulated prior to 1 January 1952, thus permanently reducing the number of days of accumulated leave which an employee is permitted to have on the books.

Q. BY WHAT DATE MUST THE ANNUAL LEAVE EARNED DURING 1952 BE USED?

A. All annual leave earned during 1952 must be used by 30 June 1953, unless you carried over a large accumulation from 1952. (See Question No. 2).

SPORTS

MEMBERS OF THE NAVAL AIR SKYRAIDERS TEAM that beat NTC last week are (left to right): Bob Tanner, Jerry Sota, Murphy Drelicharz, Bill Bisdorf, Lee Pierport, Charlie Bartlett, Bud Slates and (in front) Louie Szuch. Up to now the 'Raider golf team has had a very successful season.

Skyraiders Off To Compete In All-Service Tournament

The Naval Air Skyraiders Softball team will journey to the Fort Ord Army Base at Monterey, California, this coming Monday, September 15, where they will compete in the All Western Service Tournament. The tournament games will be played on the days of September 17, 18, 19, and 20, with a total of four games being played each day.

Eight Teams In Double Elimination Tournament

The double elimination system will be used in order to determine the winning team. In this method a team can lose two games before being eliminated from tournament play. With four games being played each day the winners of game one will play the winners of game two and the winners of game three will play the winners of game four. The same goes for the losers, with the losers of game one playing the losers of game two and the losers of game three playing the losers of game four. All these games will take place the following day. The winners of the tournament will have to play approximately a total of eight games in four days, which would put great pressure on any ball team, and at the same time call for the best out of every player without letup.

Skyraiders Record Terrific

The Skyraiders are entering the tournament with a record that is terrific in every sense of the word. Playing a total of 80 games this season the Skyraiders built up a record that will be hard to beat in the future. The Skyraiders undoubtedly one of the best teams ever to be developed at Naval Air lost only 18 games out of the total 80 games played. With a record like that behind them the 'Raiders stand a good chance of taking the All-Western Service Tournament. At any rate good luck men.

Skyraider Golfers Club NTC To Gain Eleventh ND Finals

The unheralded Naval Air Skyraider golf team encountered the NTC golfers in one of the most important games of the season. For NTC it meant either being the champs of the Major League Eleventh Naval District golf tournament or being tied with the Naval Air Skyraider team for first place, which would call for a playoff game. For the Skyraider team it meant their last try for the Eleventh Naval District Championship, a loss would mean final defeat, while a win would mean a tie with NTC for the championship.

Skyraiders Beat NTC

In the game played on Thursday, September 4, the Naval Air Skyraiders beat NTC to tie them for the Major League Eleventh Naval District Golf Championship. The game, which was played at the Rancho Santa Fe golf course was a close one with the 'Raiders coming out on the winning end of a 14 to 10 score.

Teams Records Terrific

NTC entered the game with a record of 11 wins and no losses, while the Naval Air Skyraiders entered the game with a record of 10 wins and one loss for the season. Upon the completion of last week's game both teams were tied with a record of 11 wins and one loss each.

NTC Beats 'Raiders in Finals

On Tuesday, September 9 the NTC golfers defeated the Naval Air Skyraiders in the playoff game for the Major League Eleventh Naval District Golf Championship, making NTC the official winners of the District League. The 'Raiders lost the game to the NTC golfers by three points, with the final score being NTC 19½ points and the Naval Air Skyraiders 16½ points.

'Raiders Individual Scores

The 'Raiders built up some individual season scores that will be hard to beat in the future. Some of the average season scores for the players are such as: Sota 75, Drelicharz 77, Bartlett 76, Bisdoff 76, Pierpont 77, Schleter 77, Tanner 76 and Lewis 75.

airpac's sportlight

By BOB SWISHER

A new second half champion was crowned in the Major Division of the Air Pac Softball league, as VC-11's Comets unseated the defending first half champs, FAW-14. Over in the Minor circuit it was the same old story . . . ready issue all the way.

The Comets withstood a torrid drive by the Wing to nail down the flag by a single game. Their final standing was 11-3 as compared with FAW's-14 and Fasron-110's 10-4. Midway through the second half, FAW was down with a 5-3 record and all but counted out. But then they began to move, winning their next five games to climb into a first place tie with the Comets. Then on the final day, they were dubbed 6-3 by Fasron 691 while VC-11 was smothering Fetupac 14-6. This exchange presented the Comets the bunting.

Ready Issue lost their first and last games of the schedule, but in between they were invincible. The storekeeper ended the season with 12 wins against 2 defeats, two games better than their closest contenders, VR-32 and VS-23, which tied for second with 10-4 record.

The championship two-out-of-three game playoff between VC-11 and ready issue will get underway Monday and continue through Wednesday and Friday if three games are needed.

What's the Catch?

Last week fishing showed definite improvement. From the Coronado Islands, came the report that Albacore were hitting better than anytime during this season. One week ago yesterday, the long-fins really hit, and the results were the finest catch of the "Chicken of the Sea" as yet reported.

Near the La Jolla kept beds, Barracuda and White Sea Bass were hitting in ever increasing numbers.

With the warm weather continuing, fishing will probably show improvement indefinitely. Don't pack away that gear yet!

'Raiders End Drills; BYU Game Sked Friday

The 1952 edition on the Naval Air Skyraider football team opens its season against Brigham Young University one week from today. This game, which will be played at Provo, Utah, will test for the first time, the post-Ram game Raiders.

The Naval Air team has actually played one game already, but this, the game with the Los Angeles Rams, was played long before the 'Raider team had jelled to its present stable consistency.

Work Hard on "T" Variations

The team is now spending the majority of its practice time smoothing out the many technical problems of the complex Wing "T" formation. This with the many other phases of offense and defense, is taking up all the time given to the team to practice.

Line Improving

The Skyraider line, both offensive and defensive, which was providing more than its share of headaches a little earlier in practice sessions, has now formed into a more substantial unit. With such men as Jack Bighead, former Pepperdine star, and Breece Barley starting to show real season form, the 'Raider line may develop into something very solid.

Backs Look Good

The 'Raider backfield, which has shown promise throughout the early season scrimages, is now rounding into a solid unit which will give any opposing team all it can handle. Quarterbacks Bill Hulsey, George Davis, Pete Steel, to mention but three, are showing they can handle the ball from the "T" slot with the best anywhere. All three are fine passers, and in particular Hulsey can run with the ball to add an extra threat when he is in the game.

Running Backs Plentiful

In the running back department the 'Raiders are in good shape. At fullback, to mention but three of the top men, the 'Raiders have Jim Mancuso, Don Blackerby, and Norman Wiles. Any of these men are capable of cracking the center of any opposing line on any given opportunity. The halfback slot is also well taken care of with Yerby, Markichevich, Atkinson, Aja, Gartiser, and Memsley all ready to go just to mention a few.

First Two Games Away

The first two games on the Skyraider schedule are away, and if everything goes as planned, when the 'Raiders return from the duo of road games, they will have two wins under their belts.

After the BYU game next Friday, the 'Raiders will travel on the following Saturday to Berkeley, California to play the University of California Javees, the Cal. Ramblers.

Providing they win these two games, the team will be mentally up for the first league game with the favorites to cop the championship, the Naval Training Center Bluejackets. This game could provide the biggest upset in service football in many years, 'nuf said?

corner on sports

By JOHN PHILLIPS

BYU Game Draws Near

With the Brigham Young University football game just around the corner, the Naval Air Skyraiders football team is winding up several weeks of hard and rugged practice. This game, which will be played on September 19, at Provo, Utah, will officially open the 1952 Skyraider football season.

Skyraider Pistol Team Wins Again

The Naval Air Skyraider Pistol Team won its second match of the South West matches at the San Diego pistol range and repeated their win of the previous month taking first place team trophies in the centerfire marksman class and in the '45 sharpshooter class. This unheralded Skyraider team has built up a record that will be hard to beat, winning a total of 37 individual awards so far this year, and beating all Military Police and civilian teams in the area.

Dates for World Series Set

Baseball season is coming to a rapid close and the date for the opening of the 1952 World Series game has been set for Wednesday, October 1. That is of course providing there are no playoff games which will delay the schedule. The big question now is just what teams will be competing in this biggest of all baseball games. At the time of this article the Yankees are still holding on to 2 game lead over Cleveland. It looks like a close race for the American league pennant this year . . . for a change. In the National League the Brooklyn "Bums" are leading the league by five full games with the New York Giants running a close second. . . . Dodgers, beware!

Captain's Cup Football

If anyone wishes to see some real fast action one of these noon-hours, all they have to do is to take a walk over to Murray Field where the intermural football teams battle it out. They play a rugged brand of two handed touch football that is something to see. There is plenty of clever running and some real snappy passing in all of these games, that makes for some close interesting contests.

Captain's Cup Lowdown

By Leon Cox

The Captain's Cup football race is leveling off into a battle royal between the top four teams, with Special Services and Planning leading the pack thus far. But as it looks from here either or both teams stands an excellent chance of being dropped from the undefeated ranks, as every team in the league is showing marked improvement after a game or two under their belts.

Thus far the most outstanding performer is Plannings R. C. slingin Bob) Rogers who's outstanding passing, kicking and running abilities upset the defending Champions, Supply by a 33-28 score.

The remainder of the season should be about the roughest, best played and the most thrilling games ever to be played in the Captain's Cup history, as each division entered is showing extraordinary team and competitive spirit, which is primarily the goal of the Captain's Cup Sports Program.

New Pilots for HS-2

Four officers reported aboard HS-2 last week who have recently completed their previous tour of duty in the forward area.

They are LCDR V. L. Pendergraft, LT C. L. Kennedy, LT. N. S. Stone, and LTJG J. C. Youngblood.

Maintenance Division Leads VU-3's Inter-Mural Program

VU-3K's unique inter-mural program is gaining interest and enthusiasm in all sports as it goes into its second month.

By participating in such major sports as volleyball, softball, touch football, and basketball, and the minor sports including ping-pong, horseshoes, badminton, archery, pistol, chess, checkers, acey-ducey, and backgammon, the competition has been fierce.

At the present time, the Maintenance Department leads with 360 points, followed by Administration with 340, and Electronics next with 160 and Operations bringing up the rear with 120.

For the month of September, softball and touch football are scheduled for the major sports with all other minor sports on a challenge basis.

Shown above is the softball team of HS-4. Reading from left to right, front row is W. F. Rogan, J. H. Richards, G. Serveau, E. P. Campbell and L. Sokoloff. Second row: D. G. Bailes, L. Oliver, W. H. Kremer, Jr., R. L. R. Edder, F. H. Jordine, Jr. Back row: W. V. Allen, (coach); D. E. Williams, R. R. Evans, R. L. Leavenworth, T. A. Carson. HS-4 being a new squadron has only played seven games. Known as a "hard-luck club," they have lost five and won two. However, the batting and pitching average of the team is good. D. E. Williams, left fielder, a home run hitter, has an average of .500 and Riechoff, Rogan, Serveau and Wilson are above .300. Serveau, the starting pitcher, coming from Memphis with a record of 12 games won to one loss, has been doing some fine pitching here with HS-4, having 44 strikeouts in four games.

HU-1 'Copter Sights Fire In Local City

ENS J. H. Kahler of HS-4 was on a routine training flight in a Sikorsky helicopter Wednesday when he noticed a medium-sized brush fire in a valley in Chula Vista. Seeing that the fire was unobserved and spreading, he hovered over some nearby houses and attracted occupants attention but was unable to make them understand about the fire.

ENS Kahler returned to Ream Field and made contact with another helicopter from HU-1 who relayed the message to the tower.

The tower then notified the authorities in Chula Vista who rushed two fire engines to the rescue.

HS-2 'Copter Flies Record For Month

Helicopter Anti - Submarine Squadron Two is justifiably proud of the record which it has set with one of its aircraft.

During the month of August, the plane, carrying side number 25, has flown a total of 186.7 in the 24 days of its operation during the month. The helicopter was flown on 111 flights by 23 pilots who made a total of 1485 landings, 127 of which were night field carrier landings.

This outstanding accomplishment may well be laid to the outstanding maintenance department, but according to LT H. E. Ramsey, squadron Maintenance Officer, the major portion of the credit should be given to the squadron pilots whose cooperation made it possible to correct the discrepancies with a minimum loss of time. Accurate analyzation of the troubles noted in flight by the pilots saved hours of time which otherwise would have been wasted.

During the period noted here the HS-2 Maintenance Department completed two major inspections, 300 hours and 360 hours, and five intermediate inspections which called for the changing of the transmission and the rotor head as well as the many other routine matters prescribed by doctrine.

Heavy maintenance on this and the several other aircraft of the squadron was hindered by the scheduled flights at night as well as those during the day. The actual average flight time was 7.8 hours per day or 5.95 hours per day for the month.

VU-3 K Footballers Blank HS-2, 19-0

VU-3K Touch Football team suddenly came to life by defeating HS-2 19 to 0 in an intra-squadron game played on Buchi Field last Monday.

Augmented by several new men on the squad, the football team, led by Dave Franer, is now one of the toughest in the league.

Franer figured in all the scoring by passing to Bill Estes in the first quarter for six points, missing the conversion. Dave passed to Chapman in the second quarter for another six points. At the end of the first half, VU-3 had a healthy 12 to 0 lead.

The third quarter found both teams advancing the ball back and forth with neither being able to score. In the last stanza it was Franer again who passed to Chapman for the last touchdown. Franer passed to Estes for the extra point to conclude the route.

CDR H. M. Kosciusko, Commanding Officer of Helicopter Squadron ONE, is shown pinning the Air Medal on Marvin D. McClure, Aviation Electronicsman Third Class, for acting as a helicopter crewman on a rescue flight deep into enemy territory in Korea to save a downed pilot.

Answer to Puzzle

What's In A Name?

It was recently announced that HS-2 has won the ALF REAM athletic trophy for 1952. This outstanding accomplishment could be easily explained (theoretically) if you were to scan the HC-2 roster. All sports writers, sometime in their career, select a hypotetical all-time all-star team in their favorite sports and a quick glance at the roster of personnel in HS-2 would be a veritable gold mine for such a project if in name only.

For example, let's select an all-star baseball team. In HS-2 we would find the following "Allie" Reynolds, P.; "Babe" Ruth, OF; "Duke" Snider, OF; "Bobbie" Adams", IF; "Ted" Williams, OF; "Gerry" Coleman, IF; "Vern" Stephens, IF; "Stan" Musial, OF; "Tommy" Holmes, OF; "Don" Newcomb, P; "Marv" Rickley, P; "Jim" Tatum, OF; "Mickey" Owens, C; and "Jackie" Price, UF. That would be a dream team for any manager.

How about football? Well, we have "Slinging Sammy" Baugh, "Bobby" Lane, "Dub" Jones, "Vitamin T" Smith, "Buddy" Young, "Bulldog" Turner and Coach "Matt" Bell, not to mention Mikolajczyk, Lienczewski, Markowitz and Mastromatteo. Any football coach would welcome these additions to his team.

This has been just an example of the wealth of talent contained in HS-2. Of course other sports are well represented as well as football and baseball. To mention a few; Basketball, "Nat" Holman, Boxing, "Clarence" Henry, "Tommy" Farr and "Joe" Louis, Golf, "Bobby" Jones, etc.

Although all these "stars" in HS-2 are in name only it does give rise to the thought of 'what's in a name'? Of course this sports story could have been written by "Grantland" Rice of HS-2.

Party Time Down South

HS-2 All-Hands Party at the American Legion Hall on last Friday night was an outstanding success with dancing girls, music, singing, floor show and an abundance of turkey and refreshments. The only missing gimmick was the Legionnaires miniature train engine with whistle that would probably not have been heard over the roar of the crowd anyhow. There's no doubt of the well-knit complement in the squadron everyone was everybody's friend, particularly the 30 lovely hostesses in attendance to keep the bachelors happy. HS-2 is looking forward to more all hands parties in the future.

VU-3 Nine Nips HU-1's Team, 8-7

Utility Squadron THREE, the undisputed leader of the softball league, nipped a spirited HU-1 nine, 8 to 7, to virtually clinch the softball title.

VU-3's biggest inning was the first — and the costliest. Buck Meehan singled to left to start the inning. French sacrificed him to second. Kenny Brooks then walked and tried to steal second on a passed ball, but fate took a hand and Brooks came up with a broken ankle that finished VU-3's outstanding ballplayer for the season.

French came in to run for Brooks. Lachowski drove a long single to left field to score Meehan and French. English and Zimmerle followed with sucessive singles to load the bases. Paul Steege singled scoring Lachowski. Sufficool and Price struck out to end the inning.

Two more runs were picked up in the second, when Lackowski drove a ball out of the park with one mate aboard. The third and fourth innings were blank, but two runs in the fifth, one in the sixth, and none in the seventh told the story.

HU-1 fougth back gamely, with one run in the first, three in the second and fifth innings, but fell short of its mark. The Dronemen rapped out thirteen hits to win their thirteen ballgame. Meehan allowed eight hits as he chalked up win number ten as against no defeats.

REAM BORDERLINES

Ream BORDERLINES is published weekly as part of the NORTH ISLANDER by and for the personnel based at ALF Ream, San Ysidro, California. News for the page may be reported to the Ream Public Information Office, Building 8, Room 24, Ext. 68.

GIVE WHERE YOU WORK

North Island civilian and military personnel are reminded that the big United Fund Drive for the combined charities of San Diego is now under way, with pledge cards being circulated by solicitors all over the station.

"Give Where You Work" is the slogan this year, as a new idea in fund drives is being undertaken to avoid duplication, and to eliminate the almost constant stream of individual money raising campaigns which have previously existed.

The United Fund Drive now in progress, is being held for the Community Chest, American Red Cross, Cancer Society, and Heart Foundation, all at once.

Personnel are particularly reminded that through their pledge cards, they may indicate the specific charity or charities to which they wish their donation to go. If no preference is indicated, the donation will be prorated among the several charities, figured on past reports from 1951-1952 drives. The two-part green pledge card forms a receipt on the reverse side of the larger section. This will be a record for proper income tax deduction as the end of the tax year rolls around. It is proof to any off-station solicitor that you have "given where you work," and it may be used in event of your transfer to another locality, to show that you have contributed.

Included in the Community Chest's "United Red Feather Services" part of the four-way campaign is the United Defense

CASSIDY RETURNS

The NORTH ISLANDER
U.S. NAVAL AIR STATION
VOL. VIII SAN DIEGO, CALIFORNIA, FRIDAY, SEPTEMBER 19, 1952 No. 38

SECOND ANNUAL XMAS PARTY TO BE OPEN TO ALL CHILDREN OF DECEASED SERVICEMEN

Hopalong Cassidy will return to NAS Christmas Morning to help Santa entertain children of deceased Armed Forces personnel in the San Diego County area. This will mark the second consecutive Yuletide that Hoppy has cooperated with NAS in observing Christmas Day.

Mrs. Helen Quady of the O&R Department, and President of the San Diego County Chapter of the Gold Star Wives of America, will coordinate registration of the children.

All children up to and including the age of 14 whose fathers died while on duty with the Armed Forces of the United States are eligible to be invited to the gala Christmas Party. Further information concerning the eligibility of the children and invitations to the Christmas Party may be had by writing Gold Star Wives, Box 254, Coronado.

Last Christmas, Hoppy and Santa entertained over 150 children of deceased naval aviation personnel and each child invited received a complete outfit of cloth-

'Pigskin Prom' Will Feature 'Music with Romance' Tonite

Free Refreshments, Entertainment, Plus 600 Beautiful Hostesses Join Ray Herbeck's Band For Fun Fest

Tonight all NAS personnel—football advocates or not—will have the opportunity to help open this football season with a spectacular "Pigskin Prom." The time for the big event is 2100 with the closing time for the event at 0100. The scene for this event of events will be the Air Station Beach Recreational Facility.

Popular Ray Herbeck will be on hand for the occasion with his famous band and their "Music With Romance" and lovely Lorraine Benson, beautiful vocalist for the group, promises to be the highlight for the evening.

The senior hostesses for the event are Mrs. Rosina Graves, Mrs. Viola Dominquez, Mrs. Lu M. Stodghill, Mrs. Genevah Wattier and Mrs. Ola Godbout, from the Coronado VFW Post.

IT'S BACK TO WORK for members of the Wing Shop softball squad, which won the NAS civilian league title Monday. But Frank Van Devander apparently hasn't quite gotten the word, or is in a bit of a daze resulting from the victory. Others are, left to right (first row): Julian Hashem, Don Birchell, Joseph D'Acquisto, Joseph Matyas, Ernie Costa, and Tony Vicrano. (Top row): Richard Carbajal, Bill Harvelson, and Gene Bryson.

JOBS OPEN AT NORTH ISLAND

Carpenters, Laborers, and Refrigeration & Air-Conditioning Mechanics are urgently needed for immediate employment on this Naval Air Station. Other vacancies at North Island and at other bases in the 11th Naval District will be found under heading of Civilian Job Vacancies elsewhere in this issue.

Korean Mustering Out Pay

A recent change to the Bureau of Supplies and Accounts Manual 22-12 states that members discharged and immediately reenlisted since June 26, 1950, from an enlistment entered into prior to 30 June 1947 may now submit their claims direct in letter form accompanied by the original DD 214 form and the S&A Form 550 modified in accordance with ALNAV 33-52 to the Field Branch Bureau of Supplies and Accounts, Cleveland, Ohio.

If the original form DD 214 is not available the claim shall be forwarded to the Field Branch Bureau of Supplies and Accounts via (1) Commanding Officer (2) Bureau of Naval Personnel accompanied by the S&A form 550.

New Telephone Books Available

Revised edition of the NAS telephone directory will be issued Monday at the Telephone Business Office, Bldg. 319-2.

Station Telephone Officer, RELE G. C. Anderson urges all NAS Departments and attached Fleet Units to send messengers to pick up the number of directories required.

NAS Civilians Invited to Coronado Ball

NAS FIRE PREVENTION CHIEF Smith joins Coronado Police & Firemen's Association members in preparing for tonight's big dance. Left to right: Jack Carroll, cranking; "Tex" Hastings; Chief Smith; Coronado Fire Chief Namren and Don Watson.

Seventh Annual Police and Firemen's Ball of Coronado will be held at the Del Coronado Hotel this evening from 2100 to 0130. All proceeds from the evening will go to the Coronado Police and Firemen's Association.

Each year, the annual Police and Firemen's Ball is one of the outstanding entertainment features in Coronado. This year, the Crown City cops and fire-eaters will feature Jay Eslick and his band plus a top-notch floor show.

NAS Fire Prevention Chief Smith urges all Islanders to attend as NAS and Coronado fire departments have worked in close harmony for a number of years, each relying upon the other in times of emergency. NAS fire-eaters have responded to approximately 16 Coronado alarms in the past four years.

Chaplain's Corner

I Think We Can Avoid War

We recall in our hearts and remedy on our knees the charge of Abraham Lincoln:

"We have been the recipients of the choicest bounties of heaven; we have been preserved these many years in peace and prosperity; we have grown in numbers, wealth, and power as no other nation has ever grown.

"But we have forgotten God. Intoxication with unbroken success, we have become too self-sufficient to feel the necessity of redeeming and preserving grace, too proud to pray to the God that made us.

"It behooves us, then, to humble ourselves before the offended Power, to confess our national sins, and to pray for clemency and Forgiveness."

FATHER J. P. MURPHY,
Catholic Chaplain

PROTESTANT

Sunday School 0900
Morning Worship 1000

CATHOLIC MASS

Sunday — 0845 - 1145 Station Chapel.
Monday through Friday—Administration Building 8—0645.
Saturday—Small Chapel—1200

CONFESSIONS

Sunday, 0800-1100.
Tuesday through Friday, before Mass.

A New Day Is Here

PAUL HOWARD DAY, first son of North Islander Staff Artist and Mrs. Ralph E. Day, DM3, was born at the NAS Family Hospital August 15.

NAVY RELIEF SEEKS VOLUNTEER WORKERS

The San Diego Auxiliary of the Navy Relief Society has issued an urgent appeal for volunteer workers in many branches of the Auxiliary's projects. All service wives in San Diego County are urged to volunteer as a large percentage of Navy Relief workers of this Auxiliary have been transferred.

Interested ladies are requested to call the Chairman nearest to you. They are:

Mrs. George Henderson, Recruiting Chairman, Henly 3-6611, Extension 1294; Mrs. L. W. Williams, Recruiting Co-Chairman, Henly 3-6611, Extension 361; and Mrs. David Gaede, Recruiting Co-Chairman, Woodcrest 5771.

E-3 Exams Today

Over 80 NAS non-rated personnel will be taking examinations for pay grade E-3 today in the General Mess Hall. Two examination periods will be held today; one at 0800 with a 0730 muster, and a 1300 period with a 1230 muster.

legion notes

Two Sundays ago saw many happy faces on servicemen at the Salvation Army USO Center. The North Island Service Unit 753 served coffee and 90 dozen cookies, all home-made by Auxiliary members, and a birthday cake to men at the center.

REMEMBER! Get your tickets early for the **Gala Dance** the Post is sponsoring on September 27 at 2000. It will be in the main hall at the Veterans Memorial Bldg. in Balboa Park. You will dance to the music of **Eddy Kipp's** boys. We promise a night of enjoyment long to be remembered by all. Plan to attend and bring your friends. Tickets are available now, see Post or Auxiliary members for them.

The next Department Executive Meeting shall be held in Santa Monica, Calif., September 20-21.

It seems **Rosco T. Morse** has been busy. Mary's Cafe now has a beautiful new paint job. The walls have scenes of the hills and trees of West Virginia, but there is still some of the heat from Vista.

Arthur Burns has been working triple duty. He is working very hard at his new job in San Diego, working on programs for the Legion, and spending all of his leisure time registering voters.

Sarge Buchanan is on the soup wagon list this week after having some back teeth removed.

Harold R. Nichols, our third vice commander, can be seen any day on his roof still trying to get his new antenna installed.

Robert A. Ladlow is quite the carpenter. He has just completed his new rear porch. Very good job at that.

Harold Terrill has just completed a beautiful new Patio slab. Big enough for a fine legion dance. How about it Harold?

John Gizo has been using some of his annual leave to look for a proper building site for our future home. Good boy, John!

Frank Storms has been very helpful to **Rudy Fuentes**, our new entertainment chairman, with views and ideas. Rudy wishes to thank Frank for giving him the funds to start off with this year. Also for his continued help.

electrons

By "Windy" Splichal

Several of the fellow workers of Glenn Alexander took leave last week to attend his funeral. Thanks to the Boys of the North Island Service Post and to Mr. Jesse Dearing, who attended as Pall Bearers.

Grace Harris is enjoying the visit of her daughter and husband who recently arrived from Tacoma, Washington.

Gertrude Paradise and her husband toured the northern part of California on their two-weeks' vacation. They report they had a very enjoyable time but it was good to be home again.

Ora Lyman just returned from three weeks' vacation spent in West Virginia, Pennsylvania, and Chicago, Illinois.

Bill and Dorothy Middleton have been on leave visiting with their son, who just returned from the War Zone in Korea.

Ferris Mounts is back to work after being off sick for quite a while. Welcome back, Ferris.

Betty Wolle has entered the Naval Hospital in Balboa Park. We wish her a speedy recovery and return to the station.

Ora Brian returned from her trip to Texas to visit with her mother and father. She was happy to be back there with them but as San Diego is her Home Sweet Home she enjoyed returning.

Deepest sympathy is sent to Harriett Beasley from all of her friends, in the loss of her husband.

This past week saw birthday parties for Cora Hodge, Evelyn Cobb and Cornelia Jones. These girls celebrated with cakes during their lunch hour.

Facts About Fire

By M. R. SMITH

WHEN FIRE OCCURS

Call the fire department. Learn now, where the nearest fire alarm box is located. If there is none or it's too distant, use the telephone. Post the fire department telephone number conspicuously. When calling it give your address clearly and completely.

Smother clothing fires. If your clothing ignites, lie down and roll up in a rug, blanket, or anything else within reach. If nothing is available, roll slowly on the floor and beat out the flames with your hands. Do not run under any condition—it fans the flames. See that your children know this rule.

CHILDREN

Children left without competent supervision have unwittingly caused many tragic fires because of their ignorance of the dangers of fire and their natural inquisitiveness. ONE-THIRD OF ALL FIRE FATALITIES INVOLVE CHILDREN LESS THAN 14 YEARS OLD.

Provide responsible supervision at all times. The inconvenience imposed at times by this rule is of no consequence when children's lives are at stake. Be sure the baby sitter is well versed in fire safety and knows what to do in case of fire.

Teach fire safety by example. For a child of preschool age the only means of acquiring respect for fire is through observation of fire safety as practiced in the home. Day to day contact with fire-safe practices at home is a necessary complement to school training in fire safety.

Keep matches out of sight and reach of small children. Matches should be kept out of the hands of small children—advice easy to give but hard to follow. "Out of sight—out of mind" is a good principle to follow where children and matches are concerned.

BEFORE FIRE OCCURS

Plan to escape. Alternate escape routes should be provided from all normally occupied parts of the house—especially sleeping quarters. Windows, porch roofs, ladders, and outside fire escapes are some of the means of escape that can be used when normal exits are impassable. Arrange for the rescue of infants and incapacitated persons. Hold family fire drills.

Provide portable fire extinguishing equipment. Water is the best general purpose extinguishing agent. Portable extinguishers containing water are therefore recommended for general home use. A garden hose with spray nozzle, permanently attached to a faucet, is an effective means of controlling small fires. Fires involving flammable liquids, grease and electrical equipment require special appliances. Grease fires on the kitchen range can normally be easily extinguished by one or two methods. If the fire is in any kind of a container, cover it with a metal lid, or another metal pan. If the grease and fire has spilled over on top of the stove, sprinkle bicarbonate of soda (baking soda) over the burning area. Never use flour or attempt to remove a burning pan from the stove. In case of fire in any kind of electrical equipment, shut off electric power at the meter and then extinguish the fire with a garden hose or a portable fire extinguisher. Members of the family should be taught how to use the extinguishers provided.

"Stonewall" Goes North

L. Robert "Stonewall" Jackson, Southern gentleman originally from Texas, has headed (cuss the word) North.

Jackson, who has held every office on the North Islander staff (there's that word again) from broom-jockey to editor, picked up his journalistic carpet-bag and departed this week, for new adventure aboard the Naval Missile Test Center, at Point Mugu.

"Stonewall"

"Stonewall" fought a good battle on the North (pardon) Islander and his absence on the firing line will be seriously felt in the weekly editorial skirmishes. He spent 17 months on the staff here, hopes to spend many more equally productive months at Point Mugu, where he will probably find kindred Dixie spirits, despite the more or less Yankee landscape.

Planning to become a full fledged member of the VDW (Veterans of Domestic Warfare) around the first of the year, Jackson looks forward to impending marriage. He expects to commit matrimony with a young lady from North Ireland, one Marie Moran, presently a resident of New York City. Good luck, Jackson, we'll find a couple of people to replace you. . . .G.B.

CPO's to Hold Dance

NAS Chief Petty Officers will hold a dance tonight at 2030 featuring the music of George Swetts and the ComAirPac dance orchestra. All CPO's and their guests are invited.

S & F Employees Form Spanish Club

"Los Conquistadores," a Spanish club, has been formed by employees of Supply & Fiscal Department interested in furthering their understanding and knowledge of the Spanish people, language, music, literature, food and dances.

Various members who have lived or visited in Latin-American countries (others desiring to do so) have contributed facts of their experiences and sojourns there.

Metings have been held at members' homes and others are planned for "Old Town" and "South of the Border." Motto: "Siempre Amigos."

Officers are: Joanne Stough, President; Annie Bojorquez, Vice-President; Lita Gomez, Secretary-Treasurer; and Evelyn Ball, Vice-Secretary-Treasurer.

SURPRISE IS EXPRESSED by Ann Regan, Parts Reclamation Shop 3194 O&R employee, who retired last week after 10 years service on the island. Chaplain Charles A. Swift reads her a farewell message, cites her splendid record which includes five years of perfect attendance in performance of her job. Fellow employees look on at the brief ceremony which preceeded cake and coffee.

"MIREN AQUI!" dice el presidente de Los Conquistadores, la senorita Juanita Stough. "Ya crece el precio de tortillas en Jalisco." Editor's Note—We're not sure what we said, but it's about the Spanish club, Los Conquistadores, which was formed about two months ago by Supply & Fiscal Department personnel, to study the Spanish language and culture. Jeanne Stough, reading from unidentified script, is president of the growing organization which meets every other Monday at the homes of the various members. Seated are (left to right), Julie Babich, Evelyn Ball (vice-sec.-treas.), Jeanne Stough, Annie Bojorques (vice-president), and Lita Gomez (sec.-treas.). Standing are: (left to right) Adele Nippell, Louis Luna, John Carmichael, Sam Allen, Henry Morin, Joe Conchola, Troy Cass, and Catalina Davis.

Medical Department Report 99% of Civilian Employees Have Received Chest X-Ray

According to CAPT H. G. Shepler, 99 percent of the civilian employees of Naval Air Station received chest x-rays during the recent stationwide program.

The station employees had their chests x-rayed by the Naval Hospital's mobile equipment during August.

The Medical Department advises that results of the chest X-ray will not be sent to individual employees but that the Civilian Dispensary will call those requiring re-takes or investigation. Employees who are not notified can consider their chest X-ray examination as negative. All reports will be returned by the Hospital in the near future.

Annual chest X-ray examinations will be scheduled at a later date for station employees who were absent during August.

Fasron 7 Gets New Leading CPO

Merrill D. Ingram, ADC, has assumed duties as Leading Chief of Fasron Seven at NAS.

A veteran of 19 years Navy Service, Chief Ingram was advanced through the ranks to the grade of Lieutenant. He reverted to ADC in 1949.

Chief Ingram wrote "The United States Navy in Japan," which was published in the "United States Naval Institute Proceedings," Volume 78, earlier this year.

Fasron Seven's new leading Chief has been awarded the Presidential Unit Citation in addition to his other service decorations.

USAFI Adds More Courses

If at anytime you feel that you lack some knowledge of American History and you want to do some research on the subject then half your problems are over. USAFI has come out with a new course on American History, a course that will refresh any high school graduate and certainly help those who are in need of History.

The purpose of this course of American History is to give the student an understanding of the origin and development of American political, economic, social and cultural history. The course includes a survey of colonial beginnings, the growth of democratic institutions and practices, the rise and expansion of the industrial economy, the development of social and cultural trends, the emergence of the United States as a world power and its participation in international affairs. The material covered in this course is similar to that offered at high school level.

The course in American history is available for self-teaching and group methods of study as MC 200. The course is available for correspondence study as CC 200. Students who are interested in a correspondence course should enroll in CC 200 which includes 16 lessons. Students who wish to enroll individually and submit lessons should enroll in self-teaching course MC 200.

Either the correspondence or the self-teaching course may be completed by passing the end-of-course test. End-of-Course Test—MC 200.

The first beginning courses of English in the ninth grade of high school are set aside from elementary work, the real English has begun its working. Bigger words are being spelled and new words help organize a better vocabulary. Today USAFI offers this same course in Ninth Grade English. The purpose of this course on English is to improve the student's ability to use his own language well and to increase his understanding of people and their problems by sharing their experiences through reading. Emphasis is placed upon the sentence, its structure and use; ways of avoiding common usage errors; and correct forms for capitalization and punctuation.

Through the activities provided, the student applies the principles—learned to his own writing. Included in the reading selections are short stories by or about prominent world citizens, excerpts from biographies showing how successful men and women became interested in their likework, and other selections presenting various human problems.

The work covered in this course corresponds to that usually offered in the first freshman English course at the high school level.

The course in Ninth Grade English I is available for self-teaching and group study methods of study as MC 100. The course is available for correspondence study as MC 100. Students who are interested in a correspondence course should enroll in CC 100, which includes 15 lessons. Students who wish to enroll individually and not submit lessons should be advised to enroll in self-teaching course MC 100. Either the self-teaching or the correspondence course may be completed by passing the end-of-course test. End-of-course test for course MC 100 or CC 100 is in the process of preparation and will be announced upon its availability.

Wing Shop Triumphs

Taking the measure of Accessories 4116-1 Monday evening, by a 9-5 count, Wing Shop won the 1952 Civilian Naval Air softball championship at Southcrest Field, San Diego.

Interest ran high this season among the six teams in the circuit.

civilian cafe

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

Q. WHEN DID THE PRESENT PROCEDURE FOR ADVANCING EMPLOYEES TO THE 4TH STEP GO INTO EFFECT?

A. The plan was officially adopted by the Navy Department to be effective 15 May 1952. To speed up consideration, the Naval Air Station considered during June, all employees who were or would be eligible between 15 May and 1 June 1952.

Q. WHAT EMPLOYEES WERE ELIGIBLE FOR CONSIDERATION?

A. Employees must be in Group II or III and have completed 52 weeks of service at step 3, with no disciplinary action during this period.

Q. IF AN EMPLOYEE WAS ELIGIBLE FOR CONSIDERATION BUT WAS NOT SELECTED FOR THE 4TH STEP DURING JUNE, WHEN WILL HE AGAIN BE CONSIDERED?

A. Because all eligible employees were considered in June, the next consideration for this group will be in 6 months, or during December 1952.

Q. IF AN EMPLOYEE HAD A DISCIPLINARY ACTION DURING THE 52 WEEKS PRIOR TO 1 JULY 1952, WHEN WOULD HE BE ELIGIBLE FOR CONSIDERATION?

A. A disciplinary action has the effect of starting a new waiting period of 52 weeks, so the employee would be eligible for consideration 52 weeks after his disciplinary action.

Q. PRIOR TO THE NEW PROCEDURE THAT WENT INTO EFFECT 15 MAY, HOW WERE EMPLOYEES ADVANCED TO THE 4TH STEP?

A. From 1 January 1952 until 15 May 1952, employees were selected administratively by their supervisors for advancement to step 4.

Q. WHEN WILL EMPLOYEES BE CONSIDERED WHO DIDN'T HAVE 52 WEEKS OF SERVICE ON 1 JULY 1952?

A. A procedure has been set up on a monthly basis whereby, when an employee completes 52 weeks of service (and has had no disciplinary action) his supervisor is notified by the Industrial Relations Department that the employee is eligible for consideration.

Q. WHAT PROCEDURE HAS BEEN SET UP FOR THE RECONSIDERATION OF EMPLOYEES AT 6-MONTH INTERVALS?

A. By the use of IBM cards, the Industrial Relations Department will notify supervisors when each employee is due his regular 6-month reconsideration.

(Ref:—IRD NAS SD Notice CP195—5 Aug. 52)

THE LENGTHASIZER is a complicated contraption, dreamed up to minimize hand work in sorting bolts by length. Bolts are hoisted in huge quantities to a hopper, are foot-fed to a slot between turning rollers by Virginia Heath, operator. Rollers upright the bolts, drop them into passing slots in metal conveyor belt. They are automatically "kicked" free into designated bins which quickly fill, bring huge daily harvest of ready-for-reuse bolts. The operation allows bolts to move through at a maximum rate of 395 a minute, past photo-electric cells, each bolt breaking a beam of light as it passes the cell opposite the receptacle for bolts of that length. Shorter, lighter weight bolts (2½ inches down to ¼" in 18 variants) are "kicked" from the belt as they pass rubber tipped impellers which turn on a central shaft, synchronized with the passing bolts. A mechanical feeder unit is now being developed to further speed up the already efficient process. Work performed by the one-woman operated lengthasizer equals the amount of sorting that normally might be done by 24 people hand-sorting at a rapid (500 an hour) rate. Belts may be interchanged to allow the length-sorting of batches of bolts differing in diameter. Entire device was manufactured by Shop 3194.

NECESSITY IS THE MOTHER—

Ever hear of a rollasizer, a lengthasizer, sortasizer, or a gaskasizer? Probably not. They are local contrivances, dreamed up right on North Island to cope with the growing demand for speeded up sorting, sizing, and re-finishing small parts. Some of these machines look highly improbable, and in the planning stages, would most likely baffle a magician. But they are now actual working facts, products of the invention of NAS civil service workmen, and further proof of the spirit of cooperation which exists on North Island in connection with the nation-wide drive for economy and efficiency within the military establishment.

Besides savings to the government, these rather intricate machines reclaim valuable amounts of critically needed metals including copper and brass, for use in other defense items.

U. S. Air Force personnel have already begun work, copying the Shop 3194 set-ups, to be duplicated in some quantity, for a similar speed up of their own salvage and re-finishing of small parts.

JAMES PORTER watches with interest as Mrs. Amy English checks for damaged spark-plug gaskets as the small copper circles come down conveyor belt. Loop over rollers at center, automatically turns gaskets other side up, eliminating handling in completion of inspection. Reclaiming of these gaskets prevents recurrence of a recent shortage of this item, saves the use of vital copper in manufacture of new gaskets. Old ones can be reprocessed at about one-tenth the cost of the new article.

THEY'RE NOT ALL NUTS

Putting the salvage and reclamation of nuts, bolts, washers, gaskets, hydraulic fittings, and other small parts on a paying basis has been the job of Parts Reclamation Shop 3194 (Building 24) for many months.

Many items are brought in in great quantities from aircraft undergoing overhaul, conversion, and modification. That the shop is succeeding admirably is attested by the fact that they can make ready for re-use, approximately 250 pounds of bolts alone, every hour that the supply of discards holds out.

Two years ago, the shop resorted almost entirely to hand-sorting from a conveyor belt. There was a resurfacing machine, one hose-disconnecting machine, two thread checkers, and little else, save the perseverance of about a dozen workers, laboring to save money for the Navy by sorting, sizing and re-making items which had for the most part been cast aside as unuseable in earlier days of naval aviation.

Now, with the shop heavily mechanized, fairly bulging with home-made machinery that would make Rube Goldberg of cartoon fame mighty proud, 3194 clatters and hums with a new zip and purpose, with approximately the same number of employees, but many times the former output.

During the past three months period, shop 3194 supervisors report, $264,706.00 worth of material has been put back into storage. That's the market, new-item cost of the material. Cost of shop to operate for an average 3-month period is less than $24,000.00, or well under 1-10th of the gross output.

LEONA FITZGERALD operates sortasizer, another of the unique nuts and bolts sorting devices which the Oatman-Hudson combination has evolved to speed up, and mechanize the parts reclamation process in shop 3194. This and other sorting and sizing brain-children of these two civilian employees are now being copied for use at Norton Air Force Base.

THE OLD WAY is still employed for certain sorting operations, like the conveyor belt line shown here. Left to right are Mrs. Josephine Kelly, Jesse Williams, Mrs. Melissa Lowry, and Mrs. Robbye Towler. Since the NORTH ISLANDER'S visit to the parts reclamation shop, an article on the subject, most of the valuable re-sizing, re-processing has been mechanized.

H. W. HUDSON, whose "Rube Goldberg-like" impossibilities have come to life in form of labor-saving "reprocessing machines," watches spark-plug gaskets which have been flattened in the gasasizer, operated here by Eva M. Hall. Worn gaskets are then automatically eliminated as they pass from the machine.

YOUR CONTRIBUTION TO the United Fund Drive will help provide urgently needed equipment for these and other crippled and otherwise incapacitated kids at the Children's Hospital in San Diego. Here a nurse supervises play as a group of the youngsters get in some sunshine from their wheelchairs. Hospitals are expensive, treatment is costly—but the children are worth it. The kids need your help this year—NOW. The Children's Hospital, on 35th Street, is an affiliate of the San Diego Community Chest, one of the four charitable agencies participating in the single big United Fund Drive currently being held on the Naval Air Station. Community Chest financial allocations are necessary to keep this hospital in operation.

Give Where You Work

(Continued from Page 1)

Fund (USO) and a list of 55 other worthy agencies. Your contribution may be marked to go to any one of these specific groups, all of which are listed at the end of this story.

It is important that sufficient emphasis be given to this new type United Fund Drive throughout the Island, as the resulting total of cash contributions must be divided among so many groups. If this one single, convenient drive is successful, it may mean a permanent end of the succession of separate appeals which in past years have been carried out on nearly a month by month basis.

Red Feather Work is Widespread

"I don't give to the Community Chest, I give to the Salvation Army!" This and similar statements are frequently made by uniformed and civil service personnel alike when asked regarding their donations. The Salvation Army, the Boy Scouts, Camp Fire Girls, YMCA, Guadalupe Clinic, Boys' Club, and in fact, nearly every bonafide charitable or youth work organization in the entire community, receives its support from this one "over-all" organization, the Community Chest Red Feather Fund. Through your donation to the North Island United Fund Drive, you will be aiding one, or all of these groups, as you indicate to your solicitor.

So give generously. It's been a good year for most of us. Help make it so for the less fortunate, and for the kids who need more clean recreation and look to us to supply the means.

Red Feather agencies include the following:

Bayside Social Center, Big Sister League, Boy Scouts of America, Boys' and Girls' Aid Society, Boys' Club of National City and San Diego, Camp Fire Girls, Catholic Casework Bureau, Cerebral Palsy Foundation, Children's Home Society of California, Children's Hospital, Children's Hospital Society, Community Welfare Council, Door of Hope Home, El Cajon Valley Welfare Assn., Family Service Assn., Girl Scouts, Guadalupe Clinic, Jewish Social Service.

La Jolla Visiting Nurse Assn., Lakeside Welfare Assn., La Mesa Community Welfare Assn., National City Relief Federation, Neighborhood House Assn., Public Attorney, Salvation Army, San Diego Braille Club, San Diego Children's Home, San Diego Hearing Society, Travelers' Aid Society, Visiting Nurses of San Diego, YMCA (several branches), YWCA (several branches), United Defense Fund, United Seaman's Service, and the USO.

Full House for Walter Fuller

Walter Fuller and his famed swing band played to over 300 Naval Air Station jazz enthusiasts last Sunday afternoon at the Beach Recreational Facility. This was the first of a series of "pops" jazz concerts contemplated by the Special Services Division.

The three-hour "session" was enthusiastically received by the military personnel and their guests as Fullers band breezed through the jazz standards and all-time greats.

Mary Louise, Fuller's vocalist, stopped the show more than once with her sultry renditions of the blues as many couples took advantage of the dance floor to sway to her throaty torch songs.

TOO LATE TO CLASSIFY

NOW—Critically needed for employment on this station are Carpenters, Laborers and Refrigeration and Air-Conditioning Mechanics.

notes from VC-35

Morris C. Gill, AT3, is enjoying a 15-day leave with family and friends in Fort Worth, Tex. He is also making final preparations for his marriage September 13 to Miss Mary Joy Bigham. Congratulations, Gill!

* * *

Virgil Fryman, SN, checked out of the squadron on TAD orders to the Naval Training Center to attend yeoman school. He will be joining another squadron member who at the present time is nearly half completed with the school, William D. Justice, SN.

* * *

The squadron's new commandinf Officer CDR. Burke, made his first personnel inspection of the officers and men of VC-35. He was pleased with the appearance of the squadron.

Following the inspection, air medals were awarded to Donald Cole, AT2; Charles R. Beaver, AT3; and Franklin W. Spencer, ATAN. Another man, Richard M. Senters, received the air medal, 2nd Award. The Navy good conduct medal was awarded to Gene R. Koch, ATAN. Jackie P. Wigley, AN, received combat aircrewman wings for completion of combat aircrew training. George D. Johnson, AN; Walter E. Jenkins, ATAN; Robert W. Lenz, ALAN; James F. Durbin, AN; and Elbert B Shadburn, AA, received their "Wings" Monday.

* * *

The VC-35 Touch Football team finished an undefeated season to win the Naval Air Comairpac Championship again for the second straight year. They were unopposed in the last three games of the schedule and won by forfeit. The decisive game was played early in the season between PAMI and VC-35 with the latter winning 14 to 6. Our team will now meet the winner of the Ream Field-Miramar tussle for the Comairpac Championship. Let's all get behind the team and help them win again this year. Well done, team, and good luck in the future!

* * *

Four years ago September 23rd, two nervous, excited young men walked into a Naval Recruiting Station in New York City. Since that first meeting they have been together from the east coast to the west, and from the west coast to the forward area.

They took their boot training together in Great Lakes, were assigned to HU-2 at Lakehurst, N. J. Graduated together from the Aviation Electronics School in Memphis, Tenn., and reported to VC-35 on the same set of orders. Later they attended the squadron's Combat Air Crewman training and upon completion were deployed as part of Night Attack Team Nine aboard the USS ANTIETAM.

Today, nearly 4 years since their initial meeting, Anthony Romanchuk and John M. Preston are awaiting their discharge which will place them in a new and different role—that of civilian.

RICHARD A. NELSON, president of the San Diego Community Chest and campaign chairman, center) outlines plans for this year's United Red Feather Fund drive to a group of civic and military leaders who will lead the charitable work. Others are (left to right) Gen. Joseph T. McNarney, USAF (Ret.), sponsoring chairman; RADM John W. Roper, Commandant of the 11th Naval District, sponsoring chairman; Mrs. Laurence M. Klauber, sponsoring chairman; and G. Aubrey Davidson, San Diego's "first citizen," honorary campaign chairman. The need is great this year, among the 56 Red Feather affiliated services. Naval Air Station, through its United Fund Drive, is counted on to carry a considerable share of the load.

Get Acquainted

This week marked the culmination of two years of outstanding effort in the behalf of training for the enlisted men of the Naval Air Station by Chief Stan Mahoney, ADC, of the I&E Department. He has been made available to Comairpac for further assignment.

Besides organizing the training program, Chief Mahoney has originated many new methods and training devices for the aid of the enlisted personnel in making rates. Among these are the study guides for the military practical factors and the professional study guides for AD. His latest accomplishment is the revision of the tests on the military practical factor sheet for seamen and airmen. In the name of safety Chief Mahoney also set up the popular "Safety in Driving" classes for military personnel which were later taken over and improved by G. E. Dixon, MMC.

The goal Chief Mahoney has been striving for these past two years is now beginning to be realized: "To teach the men who are willing to learn and to help build a better Navy through education."

CDR & MRS. "DICK" LONG welcomed their fourth child last week, Sarah. CDR Long is now serving as Navigator on the Princeton; he was formerly "O" Club manager at NAS.

LAST ROSE OF SUMMER, seen here in the company of equally lovely Ginney Camden, SA(WAVE), of Communications, Bldg. 319. Last day of 1952 Summer will be Sunday, but if the past three weeks' warm weather are any indication, there will be plenty of Autumn roses to blossom away the forlorn sentiment behind the old "last rose" theme.

CASSIDY RETURNS

(Continued from Page 1)
ing and were hosted at a big Christmas dinner served in the General Mess.

This year, the NAS command has broadened the scope of the party to include the children of all deceased Armed Forces personnel up to and including the age of 14.

Western entertainment will be furnished the children and their mothers at the Operations area of NAS Christmas morning prior to Hoppy's arrival from his ranch in Hollywood. Last year, Smoky Rogers and his TV western band entertained. This year, Smoky has promised an even bigger show to welcome Hoppy back to NAS.

Approximately 500 children are expected to attend the 1952 Christmas Party here at NAS.

ROD and RIFLE RAMBLINGS

By George Baker

There's a small war being waged in the lower San Joaquin Valley. Principals are hundreds of thousands of migrating ducks, a score of state and federal ground troops, and dread botulism, the unseen enemy.

An air force of three planes flies erratic herding runs to keep the water-seeking ducks away from the potential death traps of Tulare Lake, King's County and Buena Vista Lake, Kern County.

Ground forces, headed by Merton N. Rosen, bacteriologist of the California department of fish and game, are firing flares, rifle grenades, and fireworks to keep the waterfowl moving. Automatic revolving lights, and an aircraft motor-driven skimmer boat imported from Oklahoma by the U. S. fish and wildlife service are reinforcing the line.

Since their flooding last winter for the first time in 11 years, the lakes have been watched by the waterfowl specialists for signs of botulism, the duck-killing disease responsible for a quarter-million waterfowl deaths in the same area in 1941.

Decaying vegetation on the flooded lake bottoms has created conditions similar to those of 1941, Rosen revealed.

The first south-bound flight of ducks arrived August 6, and five days later the conservation agencies started the all-out operation to keep the birds on the wing.

Landing on the warm, stagnant waters could mean death for the one to two million ducks expected on the two lakes by the end of the month.

Rosen reported that duck rescue operations during the last flooding of these lakes, saved only two per cent of the birds, at a cost of $30,000. Therefore, efforts this time will be concentrated on preventing the ducks from landing on the shallow waters, rather than trying to carry on the costly rescue of already landed birds.

The recent torrid weather was no particular deterrent to eager dove hunters, who flocked to sweltering Imperial Valley and other points to bag their limits. Main difficulty was that, due to excessive heat, it was hard to get the birds to fly. And it was hot work flushing them out, getting them into action.

Reports were numerous of the large numbers of young birds on the Imperial Valley scene, denoting late nesting this year.

PINBUSTERS WIN AGAIN, DOMINATE CIVILIAN PLAY

Rolling impressively to a 2201 for high team series of the week, the Pin Busters maintained a 8-win, no loss record through the second week of bowling in the NACRA Mixed Bowling Loop.

It was Lydia Paschoal's 160 (high individual game for women) that turned the trick for Just US Five, as that combination came through to dump the Woodpickers and maintain runner-up position. Woodpicker Claude Gregory bashed out a 217 for men's high individual score, but the team effort fell a bit short.

Easy Aces, a top quintet in last season's going, continued far off the pace, despite Ray Ferrell's 559 high individual series for men. Happy Five's Melba Roberts rolled a 447 for women's high series. Mix-ups topped individual team games with a 790.

Standings:

	W	L
Pin Busters	8	0
Just Us Five	6	2
Mix Ups	5	3
Friendly Five	4	4
Woodpickers	3	5
Easy Aces	3	5
Happy Five	2	6

Airmen Raid BYU

Season Officially Opens Tonight at Provo, Utah

Tonight the Naval Air Skyraider Football Team travels to Provo, Utah, where it will encounter the Brigham Young University squad to officially open the 1952 football season.

Saturday the 'Raider football team played more than a full game scrimmage against the Camp Pendleton Marines here at Towers Field in preparation for the BYU game. Using a smooth combination of running and passing plays in a well fought, tight game, the Skyraiders beat the Pendleton Marines by a score of 13 to 6. But this score was not gained until after six full periods of play.

Bighead Scores Twice

One of the outstanding newcomers to the Skyraider squad this season is Jack Bighead, a Little All-American end from Pepperdine College. Bighead, a full-blooded Ute Indian scored both of the Skyraider touchdowns Saturday. The first touchdown pass was snagged by Bighead on the goal line, while the second touchdown pass was also caught by "Big Jack" only this time he ran over the entire Marine team after catching the pass to score the second touchdown for the 'Raiders.

Quarterbacks Ready

Coach Johnson is all smiles when it comes to quarterbacks. His problem here is mostly in deciding whether George Davis or Bill Hulsey will start. Davis is a former USC and NTC stalwart who can play just about any position. At USC he played halfback, center and line backer. At NTC he played center and end.

He has looked excellent in practice as a "T" quarterback, and has the uncanny knack of tossing a pass with either hand. Hulsey is considered somewhat of a "sleeper" on the squad. Although he has only high school and service experience, he is considered by many to be the most promising player on the Skyraider roster. He does everything well that could be asked of a quarterback, and is considered a savvy field general.

New Additions

The Skyraiders received a boost in strength by the addition of two new players yesterday. Jim Hayek a 210-pound, six-two end from the University of Iowa and Alabama, and Ed McCluskey, a 190-pound halfback, also from Iowa, reported for practice.

SPORTS

DARKEST HORSE IN TOWN

Naval Air's Skyraiders received the nationally syndicated Williamson Football Rating System this week. Ordinarily relegated to somewhere below the bottom, even when they have been knocking the socks off teams rated far above them, the Naval Airmen were accorded fitting honors in Williamson's preseason list of "favorites" for championships of various conferences.

The national picker calls for Naval Training Center to take the 11th Naval District Major League title, with MCRD to be runner-up.

Naval Air San Diego is listed in the "dark horse" column as the team that could best provide the upsets which keep grid coaches and ulcers so closely associated.

NTC, by the way, was named behind Carswell Air Force Base as the runner-up prospect for the mythical National Service Title.

Here is the Naval Air Skyraiders starting offensive lineup which will take the field against Brigham Young Friday night in Provo, Utah. The line, (L-R), Jack Bighead, Connie Brooks, Gerald Ashley, Charlie DeFreitas, Billy Key, Herb Boies, Leon Cox. Backfield, Manual Aja, quarterback; Gus Mancuso, left half; A. J. Wells, fullback, and Bud Gartiser, right half.

Special Services Announces

Special Services has announced that no longer will reservations for fishing by sailboat be taken over the telephone.

Each activity will be allowed a certain amount of boats with the percentage for the different activities being based on the number of men in the activity.

Prior to October 1 each activity will be notified as to how many trips will be made available to them and the dates of these trips. Special Services will take charge of the assigning of the boats and the dates of the trips.

Captain's Cup Lowdown

By Walt Breeland

The touch football race has been going along at a pretty fast pace and is giving the spectators and participants as much excitement as we anticipated earlier this year. Up to this writing there have been six games since you last read this column. Special Services defeated Power Plant 346, Planning defeated Metal Machine 34-14, Navy Weather Central and the Marines dead-locked 15-15 to create the first tie of this season, Torpedo Shop beat Assembly 7-0, G.C.A. humiliated Boat House 48-6 and Special Services won their third game by scoring 20 points over Torpedo Shops 13.

We would like to say a few words now in behalf of a fine touch football player and a good all-around athlete, who is being transferred to Comairlant this week. We are speaking of Mike Bozick of Special Services, who has always contributed a lot of help to Special Services Captains Cup team. He will be missed by the Special Services team and we wish him good luck wherever he goes.

airpac's sportlight

By BOB SWISHER

Two North Island teams with championship pelts safely pocketed are girding for the ComFair San Diego playoffs, while two other teams battle furiously for an Island crown.

The VC-35 touch footballers, North Island FAD champs, are readying for the ComFair SD playoffs. The Compron gridders ripped through a ten-game schedule without a loss, and will now tangle with the winner of a playoff between the three top teams of Miramar, Ream, and Los Alamitos. The single-game playoff for the ComFair SD crown will take place at North Island on 30 Sept.

The second and possibly deciding game between Ready Issue and VC-11 for the North Island FAD softball championship is in progress as the NORTH ISLANDER goes to press.

In the opening tilt of this two-out-of-three playoff for the Island title underdog Ready Issue, the Minor League champs, eked out a surprise victory over VC-11, pennant winners in the Major loop. The Storekeepers began rolling in the initial frame by bunching hits by Cordova and Davis and two walks for two runs. In the third, VC-11 came right back. With two out, Banks walked, then went from first to third on two wild pitches. Hightower then walked and stole second, putting runners on second and third. Banks then scored on a wild pitch, and Dallas's looping single scored Hightower. The game was tied up, 2-2.

In the 5th inning Ready Issue's Marshall walked, then galloped to second on a fielder's choice. He then scored all the way from second on a slow roller to the third baseman. Ready Issue moved ahead 3-2.

VC-11 forged right back in the sixth, when Baardise reached first on an error. Frieda then walked and Hill bunted safely to load the bases. Knight worked a successful squeeze play, scoring Baardise from third. The second run of the inning was scored when the third baseman booted a grounder. VC-11 moved out in front 4-3.

Undaunted Ready Issue roared right back in the sixth to put the game on ice. Johnson walked, stole second and then scored on Conchola's double. Conchola advanced to third on an infield out, and scored on an infield error. The final score: Ready Issue 5, VC-11 4.

corner on sports

By GEORGE BERGMAN

WHAT HAPPENED TO FORT ORD's soldiers over at Naval Training Center Saturday shouldn't happen to anybody; 54 to 0, the Tay Brown coached Bluejackets stomped it onto Fort Ord's Warriors.

Our interest, besides marveling at the ease with which the 'Jackets muzzled soldier stars Gabby Sims, George Lagorio, Bob Helwig, and other name players, lies with the fact that the Naval Air Skyraiders open their home season agains the same NTC, on Towers Field, October 4.

NTC roared through a Fort Ord eleven made up to a large degree out of the same soldier stars who put up a tremendous defense against the Skyraiders last season. The 'Raiders were forced to come from behind, then break a 9-9 deadlock in the final half minute of play, to take Fort Ord's measure. Gabby Sims was dynamite. So was Lagorio. Sims "ran out of gas" in the third quarter of the 1951 Skyraider battle, did likewise last Saturday against NTC. Difference was that he made little impression against the Boots while he was in the fray, whereas he gave the 'Raiders plenty of trouble.

"But this is another year," you may say. True, and the Skyraiders appear to have a more versatile attack than that of the 1951 crew. But that great defensive Naval Air line which failed to sag against Fort Ord last year, is gone. The 1952 edition is good, but it's obviously got to be more than good October 4.

Anyway, the Training Center is great. Looks like the Skyraiders, who hit them right at the start of the league season, carry the hopes of the circuit to derail the NTC express. Off their showing against Camp Pendleton's stalwarts in scrimmage this past weekend, the 'Raiders appear to have an outside chance to do just that.

DON "CAKEY" BAKER is doing right well in a backfield spot for North Texas State College, reports LCDR H. I. Pemberton, who is on leave at his home town, Denton, Texas. He looked the tough "home town" gridders over, dropped us a line on how "our boy" is doing. Ray Verkerk, Toad Hoagland also hope to play lots of football for North Texas this year.

UtWing Change of Command, Capt McLean Assumes Reins

CAPT G. A. McLean relieved CAPT R. W. D. Woods as Commander of the far flung Utility Wing Monday in brief ceremonies at Ream Field.

Captain Woods will become the Bureau of Aeronautics representative at the Lockheed Aircraft Corporation in Burbank, California. As the Navy's representative at the factory, he will supervise the administration of the multi-million dollar contracts for Navy Lockheed jets.

Captain McLean reported here from ComAirPac where he served as Assistant Chief of Staff for Operations and Training since August, 1951. He is a graduate of the Naval Academy at Annapolis, Class of 1926.

The new Commander Utility Wing was designated a naval aviator in December, 1929, and has received the Legion of Merit with Gold Star and Combat "V" in addition to many other service medals.

CAPTAIN McDEAN, left, and Captain Woods.

HS-2 Announces Tryouts for Badminton First Game Scheduled October 1

Badminton tryouts are underway at HS-2. Present team members are Boyle, AOC, as team captain with Harrison, ADC, McCullum, PNSN, Sample, AOAN, and LT Jenkins. Additional team members are desired and prospective players are asked to contact any of the above for time of tryouts.

With badminton entered to an already long list of sports activities, HS-2 continues to make a showing as in all past events.

The league consists of Squadrons HS-2, HS-4, HU-1 and VU-3(K). First game is scheduled for 1 October at the Ream Field Gymnasium.

ALF REAM

TUESDAY and WEDNESDAY, September 23 and 24—"HORIZON'S WEST," starring Robert Ryan and Julia Adams.
Shorts: "FOOTBALL THRILLS No. 15" and "ARMED FORCES SCREEN REPORT No. 133."

THURSDAY, September 25—"HELLGATE," starring Sterling Hayden, Ward Bond and Joan Leslie.
Shorts: "FRESH AIRDALE" and "JUST FOR SPORT."

UTWING VARIETY SHOW JUDGED HUGE SUCCESS

GLOBE STARS Betty Hater and Bill Talbot stop show in last week's UtWing Variety Show No. 7.

One of the top variety shows presented at Ream was "Utility Wing Variety Show No. 7" which played to a near full house on Wednesday, September 10.

Opening the show with a fast clip was the Jim Gusack Gombo, who has played radio, TV and movie sports. Next came Jack Wilson, singer, who captured the audience with his fine voice.

Lilly Mae Baer added chuckles to the show with her singing "Goin' on the Wagon." Tap dancers have appeared on the Ream stage since the shows started in February this year, but the finest exhibition of tap dancing on the Ream stage was by pretty Carol Jett.

One of the highlights of the show was when Margo Miller and Lilly Mae Baer united to present a musical comedy number from the Globe Theatre production, "Caught in the Act."

"Japanese Teahouse," was planned to be the final number, but the audience applauded until Dean Jones, M.C., rendered a couple numbers in his fine song style.

Answer to Puzzle

LTJG EDWARD CROW (center) is shown thanking LT David Lumsden (left) for rescuing him from enemy territory in Korea. LT Lumsden and Morrell are atatched to HU-1 Unit 13 on board the USS HELENA.

BIG HOLLYWOOD VARIETY SHOW PLAYS AT THEATRE TOMORROW

To Star Frankie Daro, Carolina Cotten Singers

Next Saturday at 2030 a Variety Show from Hollywood will be at the Ream Field Theater.

It will feature the Carolina Cotton Singers, Bobby Jordan and Frank Daro, two of the original Dead End Kids, Gloria Dea, pantomine, The Lippionatti Trio, Jimmy Witherspoon, comic and M.C., and Jinna Garr, singer.

This is all professional talent from Hollywood and promises to be a top flight show.

The regular movie will start at 1830 and the regular admission will be charged for the movie. There will be no charge for the Hollywood Variety Show and guests and dependents are welcome.

GETS SHORE DUTY

CHIEF JOSEPH F. PITARSKI received shore duty orders to Naval Underwater Ordnance Station at Newport, R. I. The Chief has spent over 23 and one-half years on sea duty. He has been Leading Chief HS-4 since last June.

Meeham Stars for VU3

Buck Meehan, star pitcher for VU-3(K) won his 12-game against no defeats by downing HS-4, 12 to 2 and has cinched the FAD Ream softball championship.

RIS-47 Picnic

RIS No. 47 enjoyed their first private picnic at El Monte Park Friday.

The picnic was for the men, dependents and guests with a turnout of about 50 people who enjoyed "terrikao" steaks, barbecued beef, and refreshments. Waves from NAS and coeds from San Diego State College acted as hostesses for the bachelors.

Games of softball, touch football and dancing were enjoyed by all. The women showed their champion form as athletes by defeating the men 17-12.

ROBERT ZUPAN, AD3, (left) is shown holding his prize-winning catch, a 7-pound salmon, caught during a fishing contest on board the icebreaker Burton Island just outside Juneau, Alaska. He is being assisted by Les Harwood, AL2; both men are attached to Helicopter Squadron ONE, Unit Twenty-One.

Chaplain's Corner

You Are What You Read

It has been wisely said, "We are what we read." Just as our choice of food and nourishment determines our physical characteristics, so our choice of what we feed our minds and souls determine our spiritual characteristics. The country cheered the remarkable feat of Florence Chadwick last Sunday as she successfully completed the gruelling test of swimming the Catalina channel. Miss Chadwick, herself, tells of the vigorous training and diet she kept which enabled her to accomplish her feat. The olympic games demonstrated the importance of proper diet for champions. Life in the Navy, with the rigors of combat, teaches the importance of proper diet. However, more important in the long run is the diet man feeds his mind and soul. We, as a nation, cannot lead the world to peace and brotherhood if our citizens feed their minds on cheap comics, lurid books and tawdry movies. This age with its frightening prospects calls for deep thinkers, men who feed their minds on the best and finest of literature. For we are what we read.

This year marks the 500th anniversary of the first book ever printed on movable type, the Gutenberg Bible. It was significant that Gutenberg chose the Bible as the first book, for it demonstrates the importance of the Bible as the greatest book ever written. The Bible down through the ages has been a light shining in the darkness. It has brought joy to those who were sad, comfort to those who were confused and perplexed. As it has down through the ages, so it does today. The importance of the Bible is being recognized in our country this year by the issue of a commemorative stamp by the Post Office Department and, for Protestants, the publication of the Revised Standard Version. The issue of the stamp and the public sale of the new version are scheduled for September 30. It would be a wonderful thing if every Christian, of whatever faith, would mark this occasion by starting on September 30 a Bible reading campaign, reading a portion each day until he has completely read the Bible. Whether one obtains a copy of the new version, or read the familiar King James Version, the American Standard, or any version with which he is familiar, there is no doubt that a tremendous uplift of spirit would be evident in the country if everyone joined in such a move. May I, as a Chaplain, encourage you readers to make Bible reading a part of your daily routine. We are what we read, and we can read no finer literature than the Bible. As the Psalmist said: "Thy word is a lamp unto my feet, and a light unto my path."

CHAPLAIN CHARLES H. SWIFT.

CHOIR MEMBERS NEEDED

Arthur D. Sale, organist and Choir Director, announces that both North Island Chapel Choirs, Catholic and Protestant are open for new members, male and female, civilians and military are cordially invited to join. Opportunity for training will be given those who have deserving voices. Whether you have an outstanding voice or not, much benefit will be yours from regular choir training.

Choir practices are as follows: Catholic—Monday evenings at 1830. Protestant—Tuesday evenings at 1830.

A class for unexperienced choir singers will be arranged as necessary.

If interested, please see Mr. Sale after services on Sunday, or come to regular choir practice.

'Pigskin Prom' Attended by 2000, Herbeck Orchestra Scores Success

Second station-wide military ball, "Pigskin Prom," to be held at the NAS Beach Recreational Facility was attended by an estimated 2,000 military personnel and their guests. Friday's crowd danced to the music of Ray Herbeck and his "Music with Romance" orchestra.

LTJG E. S. Dickson, of Special Services, expressed his gratitude to LCDR R. J. Jennings, General Mess Officer, and to Mrs. Rosiena Graves and the ladies of the Coronado VFW Auxiliary for their cooperation.

DECORATORS LAUDED

Miss "Rusty" Vaughan and Mrs. Wanda Goodner of the Special Servise Division, planned and decorated the hall for the dance. They were congratulated for their work by CDR Page Knight, NAS Commanding Officer.

ALL HANDS INVITED

Lieutenant Dickson emphasized that the station-wide dances scheduled at the Beach facility are held for the convenience of ALL military personnel assigned to or quartered aboard the Air Station. Shipboard personnel of vessels moored at the Station, as well as fleet units based here are invited to attend.

TIME CHANGES SUNDAY

Payday Wednesday

Changes of Payday Schedule Announced by Disbursing

Important changes in pay procedures for station military personnel, beginning on the next payday—Wednesday, October 1—have been announced by the NAS disbursing office.

Payments will continue to be made at the disbursing office; however the schedule has been changed to the hours of 0800 to 1130. Officers will be paid in cash between 0930 and 1030, or may be paid by check at any hour of the scheduled payday.

Chief petty officers will be paid between 0800 and 0815, with A-J personnel at the west door and K-Z personnel at the north door of the disbursing office.

All other enlisted personnel will be paid in accordance with the revised alphabetical schedule listed below:

Disbursing Office West Door
0815 - 0820 Waves & Messmen
0820 - 0830 A & B
0830 - 0835 C
0835 - 0840 D
0840 - 0845 E - F
0845 - 0850 G
0850 - 0855 H
0855 - 0900 I & U
Disbursing Office North Door
0815 - 0820 Messmen
0820 - 0825 K
0825 - 0830 L
0830 - 0840 M & N
0840 - 0845 O-P & Q
0845 - 0850 R
0850 - 0900 S
0900 - 0905 T-U & V
0905 - 0910 W-X-Y & Z

"Stragglers" pay—for personnel failing to draw their pay at the scheduled time—has been changed to 1100 till 1130.

An announcement was also made regarding the procedures for special money payments. Requests must be submitted via division officers to the enlisted personnel officer. Approval will be granted on basis of the following circumstances: a. A real unforeseen emergency; b. Transfer; c. Missed regular payday because of being in transit or otherwise through no fault of the man concerned; d. To go on emergency leave; and e. Missed two regular paydays because of being on leave.

Evening Classes Offered By SD County Schools

With another school year getting underway once again, North Island personnel may think that they have long since passed the "Back to School" stage.

But several local educational institutions have announced a series of courses—mostly night classes—designed strictly to appeal to adults,

National City's Sweetwater Evening High School, 2800 Highland Avenue, is again offering its popular course in sea-going navigation. Beginning Wednesday, October 1, an advanced course in celestial navigation is being taught, offering instruction in such topics as sextant altitudes, the new nautical alamnac, meridian altitudes, and sights of sun, moon, stars and planets.

Sweetwater High's beginner's navigation course starts October 2, offering chart work, dead reckoning, coastal and great circle navigation among other subjects.

Both of the above courses meet evenings, with two sessions each week. For further information call G-7-1196. The classes are free of charge.

The first semester of the Coronado Education Classes gets underway Monday, September 29, with a wide selection of subjects in languages and arts and crafts. The courses, all tuition free, include ceramics, first aid, investments, oil painting, popular astronomy. Spanish, typing, upholstering, and arts and crafts.

For further information on the Coronado educational program call C. R. Yeager, director of adult education, H-3-3174.

'44 Class Reunion

Naval Acodemy Class of '44 Reunion will be held in the Bamboo room at Admiral Kidd Officers' Club Saturday.

For reservations call Fred or Sue Anderson at G-7-6145.

Free Dance Tickets

The Special Services Division announces that 50 tickets are now available for the forthcoming U.S.O.-Navy Dance to be held at Tropical Gardens, Navy Athletic Field, 2000 Saturday 27 September. The free tickets will be distributed on a first come, first serve basis.

Navy Exchange Opens Toy Shop October 10

Navy Exchange announces that a Toy Shop will be opened October 10th in what is now the Red Cross Building, located between the Enlisted Barber Shop and the Tailor Shop. The toy shop will feature the largest variety and latest model of toys in NAS history. Patrons are urged to shop early.

I&E TO HOLD SEAMAN PREP CLASSES MON.

A class to prepare personnel for advancement to Seaman (E-3) will begin Monday, September 29 under the auspices of the I&E Div.

Open only to station personnel, the classes will convene two hours —0900 to 1100—Mondays, Wednesdays and Fridays.

The course will offer a comprehensive preparation in all the professional and military phases required of the seamen grade. Lectures, demonstrations, and other training aids will be included in the 48 hours of class work.

Any Seaman Apprentice interested in enrolling in the course should have his division officer submit his name to the I&E Div., ext. 1230.

'A Fish Story'

Saga of Sally the Seal and Transportation's two intrepid seal hunters lasted five hours last week.

It all began when "Sally" reported aboard NAS via the main dock, and refused to be coaxed back into the bay. Alert drivers, A. J. Miller, AN, and F. G. Pruitt, AN, of the Transportation Department, lassoed the young seal and hauled her to Transportation's fish pond.

After a few passes at the 13 gold fish inhabiting the pond, Sally was sent back to deep water.

The NORTH ISLANDER

Vol. XI September 26, 1952 No. 39

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

TELEPHONE EXTENSION 1475. Call this number to report news.

Contributions of news, features, pictures and cartoons will be gladly considered, and material submitted will receive careful handling. However, the NORTH ISLANDER assumes no responsibility for the return of material contributed. The editors reserve the right to make such corrections, changes or deletions in submitted copy as they deem necessary in conforming with the policy of the paper and of the Navy.

The opinions or statements made in articles published herein are those of the writers and are not, in any case, to be construed as official or as reflecting the views of the Commanding Officer or of the Navy Department.

ETHEL THOMPSON WINS N.I.A. SAFETY CONTEST

Electronics Employee Wins First Station-Wide Safety Slogan Contest, More Sked

Ethel Thompson of O&R Electronics Division won the first of a series of station-wide safety slogan contests to be sponsored by the North Island Association. C. Simonson of the Public Works Design Section placed second and the slogan of James C. Cameron of O&R Material Division was third.

WINNING SLOGAN

"Be a Patient Pedestrian—Not a Pedestrian Patient."

Judging the first station-wide contest were Al Quicker, of Public Works; W. Kirby Vaughan, of Supply and Fiscal; John Curry, of O&R; Chris Huber and J. R. Griffing, both of the Safety Division.

Mr. Simenson's second place slogan was:

"The Blood Bank Needs Your Blood, Don't Spatter It on the Highway."

A special emphasis will be placed on different aspects of safety awareness in future contests, it was reported by Chairman Griffing. However, slogans submitted may still be of a general noture until October 10th, by which time the subject for the following month will be announced.

Seventy-two-year-old "Jim" Cameron placed third with the slogan:

"Don't Be a Pig-Head, and Make a Road-Hog Out of Yourself."

NIA President "Belle" Smith, of IRD, expressed the Association's gratification with the enthusiastic response to this first contest. She announced that the monthly contests will continue under the NIA sponsorship.

AWARDS NEXT WEEK

The winners will be honored and presented their prizes next Wednesday at 1930 during the monthly board of directors meeting of the North Island Association at the North Park Lions Club.

Miss Thompson will receive $10 as the first place award Wednesday, and the second and third place winners will receive NIA memberships or extension of memberships.

Honorable mention slogans were submitted by Ann Elizabeth Haines, little George Bergman, Ann M. Connor and Fred Cook.

NIA OFFICERS CONGRATULATE NAS Safety Slogan Contest Winner Miss Ethel Thompson (center). Contest Chairman J. R. Griffing (left) and North Island Association President Mrs. "Belle" Smith (right) congratulate Miss Thompson as other contest officials beam approval. Back row, left to right, are LCDR R. W. Mellish, Electronics Division Officer; John Curry, NIA Publicity Vice-President; and B. C. Thompson, Electronics Division Foreman (no relation to Miss Thompson.)

Pledges Go Out

United Fund Drive Gaining Momentum

Pledge cards have gone out all over North Island as the huge United Fund Drive moves into high gear. All hands are being afforded an opportunity to contribute to this first effort toward combining several major fund raising drives into a single, compact campaign.

Early response is reported good in most areas, as the idea catches on, and personnel find that they can designate any one of the nearly sixty charitable and youth organizations listed under the combined drive.

Pledge cards contain space on the stub, which is retained by the solicitor, for marking the specific group for which the individual's donation is intended.

Donations made during this drive will be receipted, the receipt card furnishing ample proof to solicitors at home, of elsewhere during the coming year, that the holder has made his contribution. The receipts are also valuable as evidence of one's charitable expenditures when the time comes for totaling income tax deductions.

Most important, the United Fund Drive combines donations for the Community Chest-USO agencies, the American Red Cross, the American Cancer Society, and the Heart Foundation, insuring that there will no longer be an almost constant series of fund campaigns held on the station throughout the winter months.

201 Physically Handicapped Persons Work at Naval Air

Two hundred and one employees with varying degrees and types of physical handicaps are at present working on the Naval Air Station, according to statistics released by the Commanding Officer. Release was made in conjunction with the approach of National "Employ the Physically Handicapped" Week, October 3 to October 10.

In Overhaul & Repair for example, there are no less than six totally blind employees, engaged in work as general helpers, spark plug workers, and radio mechanic, with marked success on the job. Hard of hearing, and otherwise handicapped persons, including amputees in considerable numbers, have upheld the command's confidence in the Navy approved program of hiring incapacitated employees wherever they fit into the work program.

There are an additional 732 employees on the station who have work restrictions because of lesser disabilities.

CPO Wives Hold Anniversary Ball

The 20th anniversary of the San Diego chapter of the Navy Chiefs' Wives Club was commemorated at a banquet held at the NAS CPO Club last Friday night.

Forty-seven members and their guests attended the event which included dinner, dancing, and other entertainment. Music was provided by George Swett and the ComAirPac band.

Mrs. J. P. Robinson was in charge of arrangements for the anniversary banquet. Floral decorations in the club were donated by Mrs. H. Kennett.

Officers of Chiefs' Wives Club pictures on page one are: (seated, L to r.) Mrs. L. Woods, vice president; Mrs. John Coyne, president; Mrs. L. Thompson, parliamentarian; (back row) Mrs. F. Weichtrect, corresponding secretary; Mrs. F. Ferguson, chaplain.

The organization has 101 chapters throughout the United States. The local chapter welcomes new members. Information on membership may be received by calling any of the club's officers.

BuAer Visitor

Charles Mudd, senior civilian in the Industrial Relations Division of the Bureau of Aeronautics, was a Monday-Tuesday visitor at Naval Air Station.

He came here for the two day visit accompanied by assistant Don Holster, and John Paine of BuAer Maintenance Division, to continue evaluation of recently instituted Overhaul & Repair specialist ratings. These ratings, in effect at San Diego and Jacksonville Air Stations, are in an experimental status.

Mr. Paine is a former North Island employee.

CAPT Rodee, New CO Reported Wednesday

Captain Walter F. Rodee reported Wednesday to assume command of the Naval Air Station, becoming the 18th officer to hold this post. He succeeds RADM W. L. Erdmann who became ComCarDiv 14.

Naval Academy graduate, Class of 1926, Captain Rodee served as Commanding Officer of the aircraft carrier USS ESSEX prior to assuming command of the West Coast's largest aviation facility.

Prior to assuming command of the ESSEX, CAPT Rodee served as Chief of Staff to Commander Carrier Division Three from March, 1950, to December, 1951.

Captain and Mrs. Rodee are now settled in the Commanding Officers' quarters aboard NAS. They have seven children, Mary Elizabeth, wife of LT Robert Platt Metzger, USN; Connie, 22; Virginia, 16; Buddy, 14; Don, 12; John Joe, 10; and Catherine, 8.

Among the decorations awarded Captain Rodee are the Navy Cross, two Legion of Merit with Combat "V.", and the Distinguished Flying Cross.

Twins Born Too Soon to Receive Gifts

First twins to arrive at the NAS Infirmary Annex in two months were born Friday, September 19. Parents of the 5-pound, 9-ounce girl and 5-pound, 15-ounce boy are Mr. and Mrs. Fred Simmons. The twins' father, an airman, is attached to Firehouse 2 on the station.

Ironically, the Simmons parents missed by only five days an opportunity of becoming the "parents" of another set of twins. A national appliance manufacturing firm, celebrating an anniversary last Tuesday, was awarding twin appliances — an automatic washer and dryer—to the parents of all twins born on that day.

Best medical advice predicted that the twins would have arrived on that "lucky" Tuesday. But despite the hopes and wishes of parents and hospital staff, young Theresa Margaret and Theodore Norman chose their own birthday.

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

Q. What Is the Difference Between Removal and Separation?

A. Separations are personnel actions which result in the loss of employees from the Naval establishment.

Removals—a separation required by the activity on charges of misconduct, delinquency, or cause.

Q. What People Have Preference in Acquiring Federal Housing?

A. First priority is given to those who are working in defense, have come into the San Diego area during the past 12 months, and make a gross income (without any deductions) of less than $4000 per year for a couple. The allowable income is raised proportionately with the number of dependents in the family. The second priority is given to veterans of World War II and Korea, who are within the allowable income bracket. These are housed only after all those in the first priority are housed.

Q. Annual Leave Is Computed For Completed Bi-Weekly Pay Periods. If I Resign One Day Short of a Pay Period Will I Be Deprived of Any Leave That I Have Earned?

Annual leave accrues on the basis of completed bi-weekly pay periods for all employees. If you resign one day before the completion of a bi-weekly pay period you do not accrue any leave for that uncompleted pay period. (Supercedes answer provided in Column Right on 8-1-52).

Q. I Have a Question on the Above Information, Where Do I Write for the Answer?

A. Send your question to COLUMN RIGHT, Bldg. 415, or drop it in the Beneficial Suggestion Box and watch this column for the answer.

Former Staff Photog Back from Korea

VALLEJO AT 'BUNKER HILL' IN KOREA

Served on Navy's Combat Camera Teams in Korean Action; Filmed Rescues, Air Strikes, And Natives

When M. E. Vallejo, AF2, checks in his Speed Graphic next week and returns to civilian life, North Island will lose a friendly, popular sailor as well as one of its best photographers.

Ed Vallejo, a former NORTH ISLANDER news photographer, has returned from the Pacific area where he was assigned to the Far East detachment of the Pacific Fleet Combat Camera Groups. With this team of Navy photographers he helped record pictorially Navy and Marine Corps participation in Korea for public information, intelligence, and historical purposes.

Primarily a still photographer, Vallejo also shot motion pictures in some of his work overseas. His assignments took him along the Korean coast, to record U. N destroyer shore bombardments; to the forward outposts amid the fierce ground fighting on the west coast, and across the enemy lines shooting aerial photos of Marine air strikes in North Korea.

After discharge Ed will be faced with the not unpleasant task of killing several months-time hunting and skiing in the Rockies near Walsenburg, Colo. Early next year he will resume his college studies at Colorado University.

NORTH ISLANDER, on this page, has reproduced several photos which typify the "Vallejo" stamp of good pictorial quality.

'RECONNAISSANCE'

'REFUGEE'

'REST'

NORTH ISLAND COLLEGE OF VOCATIONAL KNOWLEDGE

'AFTER-HOURS TECH' OPENS DOORS OF OPPORTUNITY TO THOSE WHO WISH TO GET AHEAD

There's no collegiate fanfare, no fraternities, and not a social event, or a single student-body activity—the big football team operating at the far end of the Island has absolutely nothing to do with it—but none the less, North Island's College of After Hours vocational training is pouring out higher education to hundreds of NAS civilian and service personnel who desire it, stands ready to aid all others who seek to increase their knowledge.

Vocational Training Division, in Building Five, is all business—the business of making trained specialists out of untrained, or semi-trained employees, and aiding other employees who wish to advance themselves along supervisory lines.

Staffed with a corps of competent instructors, Training Division offers a wide range of courses, available to everyone who will take the small amount of time necessary to pursue them. There are no frills to the courses, which take the student directly to the subject in a practical, concise manner, teach him to do the work as quickly as possible.

And adequate recognition is afforded in form of certificates of study completion.

Fall courses are now forming. Your phone call to extension 658 may be the keynote to more success on your job, to a better position in the future.

PAUL WILLIAMS registers a new student for one of the wide variety of after hours vocational courses offered by the NAS Training Division. Stephen Fouquette, co-ordinator and supervisor of "After Hours Tech," observes, probably contemplating additional courses which must be added to curriculum as more requests for training are received.

GEORGE BARNES (below) answers inquiries regarding correspondence courses available to employees. Those who do not have the time to pursue "on campus" classes at "After Hours Tech" may take advantage of this division of the vocational training program at Building 5. A visit to Training Division may open new avenues of advancement to you, add to your value to your job, to your country.

INTENSE INTEREST is displayed by this group of students in Training Division's after hours welding class. Instructor Johnny Blankenship demonstrates use of acetylene torch as part of classroom routine. It is easy to sign up for these after hours classes by phoning ext. 658, stating your preference of training courses. Recently opened, or in the process of opening are: electronics, mathematics, basic electricity, engine theory, jet engine theory, and those classes depicted on this page. Others will be opened if there is sufficient demand.

BLUEPRINT READING made simple—well, reasonably simple, anyway, in Training Division's after hours class on that subject. Instructor Bob Eaton (right) explains a point to C. J. Martin and Pat MacIver (standing). This class, titled Blueprint Reading and Mechanical Drawing, is one of several allied courses offered at "After Hours Tech" to all personnel on North Island who desire to gain knowledge in a new field, or advance themselves along their present lines.

SUPERVISION is graphically taught from the ground up, by Senior Training Supervisor, Don Shively. These after hours students are working toward a one hundred hours certificate, and are seeking to better themselves, looking toward the job ahead.

NAS CRIMINAL INVESTIGATOR June W. Jordan (center), joins Coronado's old and new Chief of Police at last Friday's Police and Firemen's Ball. Mr. Jordan was for 11 years Coronado's Chief of Police. Carl F. Klindt (left) has been acting Chief since Jordan's resignation last February. R. H. Manchester assumes the office next Wednesday. Jordan has a 23-year background in law enforcement work, including three years with the FBI. He reported to NAS Security Department in February this year.

TIME CHANGES SUNDAY

The Navy along with the rest of San Diego will bid farewell to Daylight Savings Time for another year and revert once again to Pacific Standard Time.

The change will be effected at 0200 next Sunday, September 28.

So, you will be able to get back that hour you lost on liberty last April 27.

If you're not out of town at 0200 Sunday, just set your watch back (set it an hour earlier) before going to bed and enjoy that extra hour's sleep!

Grilled Salmon Steak ..... .75
Braised Sirloin Tips, En Casserole ..... .65
Pork Chow Mein, Steamed Rice ..... .45

This menu is subject to change due to conditions beyond our control.

SO PROUD of the regal chow served by his division at last Friday's "Pigskin Prom," LCDR R. J. Jennings assisted in serving. He is shown here serving Mrs. Rosiena Graves, a lady with many titles. Three of her titles include NAS night telephone operator, Past President of the Coronado VFW Ladies Auxiliary, and senior hostess of the "Pigskin Prom." Mrs. Graves recruited all the lovely young ladies that acted as hostesses for the dance. She is also very active in the Coronado Players.

trading post

Absolutely no "for sale" ads are accepted for the Trading Post column. Ads may be submitted for rides, rentals, and lost and found to the North Islander, Bldg. 8, Room 1, in person or by mail. Ads cannot be accepted over telephone.

FOR RENT—Apartment, partly furnished. Close in (employed couple only). Phone M-3385 after 1500. (3 p.m.)

FOR RENT—Large, well furnished room in Coronado near ocean and Coronado business district. Phone H-3-5631.

FOR RENT—Sleeping room connecting bath, located near Coronado business district. Phone H-3-3367.

RIDER WANTED—Navy wife driving to Chattanooga about 24 October via El Paso, Dallas and Birmingham, offers free transportation to one lady companion. Call H-2-9358.

RIDER WANTED—From vicinity of Euclid and University Ave. On the 0730 to 1630 shift. Please contact Tommy Caldwell, T-0018.

RIDER WANTED—Free transportation to Miami, Florida, for Naval Officer and wife. Driving new car. Leaving about Nov. 20. Mrs. Bland, T-3-1413.

RIDE WANTED—From vicinity of University and Marlborough. 0745 to 1615 shift. Desires to be left off at Ferry Dock or North Island. Might arrange parking space. Phone R-2825.

RIDE WANTED—From El Cajon to Fleet Landing. 0730 to 1630 shift. Call H. 4-4731 after 1800 (6 p.m.)

FOR RENT—Large room with separate entrance and connecting bath. Phone H-3-4497.

RIDE WANTED—Or would like to join car pool from vicinity of 47th and University Ave. Call T. 1-8872 after 1730. (5:30).

RIDE WANTED—From Harborside to North Island. 0800 to 1630 shift. Phone T-9968.

RIDE WANTED—From 9923 San Juan St. (one block north of Highway 94) to dock or aboard station. Phone Ferris Mounts, H-6-5472. 0730 to 1600 shift.

RIDERS WANTED—Two riders wanted from vicinty of Law St., Pacific Beach to North Island, 0730 to 1600 shift. Phone H. 8-3653.

RIDERS WANTED—Mission Hills, via Reynard Way and State St. 0800 to 1630 shift. Call W-0327.

RIDERS WANTED—From Chula Vista to North Island by Silver Strand on 0730 to 1630 shift or will ride with someone. Contact R. D. Cronquist at H-2-1683 after 5:15 p.m.

LEAVING for St. Louis, Mo., Tuesday, October 15 at 6:00 p.m. Can take 3 or 4 passengers. Call Hess at Chula Vista 758W.

FOR RENT—One bedroom, new, unfurnished, $95; garbage disposal, venetian blinds, garage, laundromat, TV antenna, storeroom. All utilities paid. Ocean Beach. R-5481.

BETTY HUTTON, Paramount's bouncing singing star, to appear in "Somebody Loves Me" at the NAS Theatre Sunday and Monday.

'Raiders Take Four Straight to Win Western All-Service Tournament

Homer By Doten Wins Final Game

The San Diego Naval Skyraiders won the second annual 6th Army Area Inter-Service Softball Tournament last Saturday when they edged Camp Hanford, Washington, in the finals at Fort Ord, 3-2. The game went into the final stanza all tied up at 2-2, when Skyraider right fielder Gene Doten slammed a home run for what proved to be the winning tally. The Hanford nine went down in order in their half of the inning.

Gebhardt pitched the final win for the Skyraiders. It was Gebhardt's second win of the tourney and second win over Hanford. He hurled a one-hitter to beat them, 2-0, in the tourney opener and then fired a two-hitter at them in the finale.

In the quarter-finals the Skyraiders swamped Moffett, 12-1, and Camp Hanford eliminated the Hamilton Air Force Base nine, 5-2.

A six-run second inning made things easy for San Diego chucker, Huff Huffman, who twirled a neat one-hitter in setting down the Moffettmen. Four walks and a Moffett error were a big help in the marathon inning. A first frame home run by Harry Vice had started the fray. Luke Lucas led the hitters with three singles in four at bats.

Ernie Vowels went all the way for Hamilton, while Jake Feenstra needed some last minute help from Ed Grassinger.

Single runs in the first two innings gave the Skyraiders a tense victory as Gebhardt fashioned a one-hitter for his first tourney win. A walk to Red Ludell and consecutive singles by Hap Ivey and Mason, accounted for the first inning tally. In the second frame, Ski Kozliski singled, advanced on a ground out, then scored on a one-baser by Gebhardt. Final score found the 'Raiders on top of a 2-0 score.

The Skyraiders scored a run in every innings but the first in the second tourney tilt to win with ease over the Hamilton Air Force Base nine. Luke Lucas was murderous at the plate as he singled and hit a pair of four-baggers, to lead the win. Score 6-1.

Lucas was by far the tournament's outstanding hitter, besides playing sparkling defensive ball. His booming bat rattled off nine hits in 12 trips to bat for an average of .750.

MEET THE MOST VALUABLE PLAYER of the Western All-Service Tournament, Hollis Ray Lucas, catcher on the 'Raider Championship softball team. Lucas looked terrific all the while, playing errorless ball in all four games and at the same time getting 9 hits out of 12 trips to the plate, two of these being homers. It is easy to see why Lucas was chosen the most valuable player of tournament play.

SPORTS

'Raiders Lose as Two Pass Plays Click for BYU Eleven

Taking every advantage of the breaks thrown their way Friday night the BYU eleven beat the Naval Air Skyraiders by a score of 14 to 7.

Bud Gartiser returned the opening kickoff 38 yards to the Skyraider 43, after which it took only 5 more plays and a 15-yard penalty to put the ball over the goal line for the first 6 points of the game.

Sparked by a 37-yard ramble by Gartiser, the Skyraider line ripped open gaping holes in the Cougar forward wall. Quarterback Manual Aja capped the drive by diving five yards off tackle for the score and Larry Levine converted.

The BYU team recovered two fumbles deep in 'Raider territory and quickly converted them into 14 points with two touchdown passes.

This week the Skyraiders travel to Berkeley, Calif., where they will meet the Cal Ramblers in their second game of the season.

Varsity Boxing Tryouts

A Naval Air Skyraider Varsity Boxing team will be formed to represent Naval Aviation in the Southern California Area. It will consist of personnel from Fleet Air Units, San Diego Area, Air Pac Ships, San Diego Area, Naval Air Bases, San Diego Area, and Naval Air Station, San Diego.

All enlisted men who express a desire to tryout for the team shall be encouraged to do so. The Commandant of the Eleventh Naval District has decreed that Commanding Officers shall not deny interested personnel the opportunity to tryout for the team except for reason of military necessity.

Monthly Ace Golf Tournament Held

The 'Raider golf team played their monthly Ace Tournament at the Mission Valley Golf Course with the winner of the low net score trophy being Dumas who had a net score of 64. Nealand was second in the low net with a 66 and Peirpong won the low gross trophy with a score of 79.

The monthly Ace Tournament is played on the first Wednesday of the month at the different golf courses in the local area. The forthcoming station service team tournament will commence the second week of October.

The next monthly Ace Tournament will be played starting October 1 and continuing until the eight at the Caliente Golf Course.

Fort Ord's highly taunted team was beaten by the Skyraiders to end the season. The 'Raiders met the Fort Ord team on their own course and beat them by a score of 12 to 6.

MANUEL AJA is shown picking up some yardage against the BYU eleven Friday night at Provo, Utah. The 'Raiders gained most of their yardage on the ground but could not seem to make their passing plays pay off.

Captain's Cup Lowdown

By Walt Breeland

We are quite excited as we begin this column this week, the reason for the excitement being that we just saw that we believe to be the finest touch football game of the year. It was a rough and tumble contest all the way between Planning and the Marines with Planing coming out on top 38-26. We were indeed fascinated by the running and passing of Planning's R. C. Rogers who can always be counted on to give a top performance. If you haven't seen Rogers in action it would be worth while to come out to Murray Field the next time his team plays.

There have been four other games played since the last issue of the North Islander, besides the one mentioned above. Supply walloped Metal Machine 39-0; Power Plant defeated Boat House 22-7, GCA spueezed by the Marines 25-13 and Metal Machine beat Assembly 20-14. Incidentally GCA is leading in points scored up to this time. They have scored 119 points in three games which gives them a total per game average just short of 40 points.

FAETUPAC, FASRON-7, READY ISSUE, WIN IN INTRAMURAL SOFTBALL

By BOB SWISHER

Somebody got the titles of the Major and Minor leagues of the AirPac softball league all mixed up. For the second straight time, a Minor league representative has taken the crown from the powerful Major champ.

Following first-half play, FAW-14, winners of the Minor loop, clipped the Major league champ, FASRon-110. with two stunning defeats for the official inter-mural championship. After this surprise, FAW-14 was elevated to a Major league status for second half play. But, this didn't help.

This time Ready Issue, champs of the Minor division, smashed proud VC-11 in two straight games to give the Minors another title, something which hardly no one expected.

Now the Storekeepers are trying to repeat FAW's first half feat—that is winning the ComFair championship. They got off to a good start Tuesday when they clubbed Ream Field 8-3. A big three-run outburst in the fifth frame, plus two more insurance tallies in the sixth, iced the outcome. The second game, played Wednesday at Ream, was too late for publication.

* * *

FAETUPAC's pistol team completed their sweep of Fleet Air Inter-mural pelts Wednesday by drubbing Ream Field, 2187-1899, at Camp Matthews for the ComFair title. The 'Raiders had finished the North Island inter-mural league undefeated in nine starts.

The 'Raiders victory is a splendid indication what a squadron can do with a vigorous intra-mural program. Only one man on the entire FAETUPAC squad, Chief Harold James, has ever shot in pistol competition before. The remainder of the team are freshmen, recruited from the intra-mural program.

* * *

With Joe Kinkaid splashing his way to three first place spots, FASRon-7 had an easy time taking the annual Fleet Air Detachment swimming meet. The FASRon tankmen glided to 64 points, compared to runner-up FAETUPAC's 32.

Other units scoring points were FASRon-691, 13; VF-791, 12; VC-11; FAU (operations) 9; VU-7, 7.

Airmen Use Ground Attack

The Skyraider football team pulled a fast one Friday night when they encountered the BYU team at Provo, Utah. The 'Raiders in their pre-season practice looked as if they had a powerful passing attack and a not so powerful running attack. But Friday night the Airman did just the opposite of what most fans expected of them by gaining almost all of their yardage on the ground and very little through the air. A total of 250 yards was grounded out by the 'Raiders, of which 235 yards was gained by their gruelling ground attack while gaining a mere 15 yards through the air.

The "Old Rock" Not the Same

Rocky Graziano never looked the part of his old self last week when he encountered Chuck Davey in a 10-round battle in Chicago. Rocky's usual powerful blows were wild and did nothing but fan the air all evening. It might have been a different story if Graziano had connected with one of his haymaking punches. But it was the same old story of boxer against slugger with the boxer on top most of the time. Irish Chuck Davey didn't have to take a forward step throughout the fight, he managed to stay clear of Graziano's knockout punches and at the same time get in some good punches every time Rocky stepped in. Davey looked good . . . could it be because Rocky looked so bad?

Toughest Sport of All

Overshadowed by the gridiron season the country over are the cross-country track teams. Cross-country, especially in the east is a popular and one of the toughest of sports. Beyond a doubt the most gruelling cross-country run is the marathon, a 26-mile 365-yard grind which calls for the upmost in conditioning and courage from the athlete. Jim Thorpe, the world's greatest athlete, who has participated in practically every known sport was once asked which of the sports he considered the toughest. After a few minutes of careful thinking Thorpe replied: "To me the marathon is undoubtedly the toughest sport of all." It is often said that in this race "to finish is to win."

'Raiders To Meet UC Ramblers

Tomorrow the Skyraiders travel to Berkeley, California, where they will tangle with the University of California Ramblers. If the Airman line holds up as well as it did against the BYU team on the ground and if the passing defense is ironed out the 'Raiders might come out on top. The line looked good against BYU, holding their eleven to only 38 yards on the ground, while opening up enough holes in the opposing line to enable their own backfield to gain 235 yards on running plays.

ALF REAM SAN YSIDRO, CALIFORNIA

HU-1 UNIT EIGHTEEN RETURNS FROM KOREA

Completing their tour of duty in the Korean area, Helicopter Unit 18 of Helicopter Squadron One, returned September 17 to their home base at Ream Field.

Officer-in-Charge was LT R. L. Dolton, Unit Officer-in-Charge was LT B. K. Leathers. Crew Chief was L. E. Walter, others of the crew were, W. E. Meyer, AD1; J. W. Dectherage, AD3; J. W. Wilkins, AN; R. H. Mariles, AN, M. D. Tybursgi, AN.

The unit provided their helicopter for rescue missions, gun-spitting mission, and transporting personnel.

Republic of Korea President, Sygman Rhee and wife were among the high ranking military and civilian personnel transported by the unit.

HS-4 Holds Squadron Picnic

On September 11 between the hours 1000 and 1800, El Monte Park was invaded by the officers and men of Helicopter Anti-Submarine Squadron FOUR. Above is a scene of one of the intra-mural activities and of course the tons of hamburgers, hot dogs, beans and potato salad; to say nothing of barrels of liquid refreshment.

The officers, headed by the Executive Officer, LCDR. Robert W. Henson, succumbed to the superior softball efforts of the crew.

Entertainment was furnished by Gene C. Serveau, AM1, and Albert J. Hojnacki, SA, taking turns on the accordion. A jukebox set the mood for dancing as wives and sweethearts grabbed their partners.

FAMOUS SON

RICHARD ALLEN THORPE, AA, of HU-1, son of the immortal Jim Thorpe, will report to AirPac to try out for the Naval Air Skyraider football squad. Richard weighs in at 180 pounds and lettered as a fullback for 4 years at Chemawa Boarding School in Oregon.

Marine Hero Praises HU-1's LT McEacheron Rescue Effort

A Medal of Honor winner, Marine Col. Robert E. Galer, went over the side of his flak-crippled Corsair fighter in Red Korea, but his foot caught in the safety belt. It left him dangling head down as the plane screamed toward the earth. The Guadalcanal hero pulled himself back into the plane, freed his foot and dived over the side again. This time the plane tail hit him on the left side, injuring his shoulder and breaking several ribs. His parachute didn't open until about 150 feet over the ground, and he landed within 10 feet of the burning plane and exploding ammunition. Details of this miraculous escape and rescue were given by COL Galer and LT McEachern, HU-1 pilot, after they had landed safely aboard an LST.

Galer ran through a corn field and followed a dry stream to higher ground. Just an hour later, the helicopter piloted by LT McEachern and crewman, Ted Lee, arrived for the rescue. When Galer was hoisted aboard, the added weight caused the plane to settle. It was then that McEachern skillfully let the helicopter glide into the valley, missing trees and stumps, to regain transitional lift. The rescue was far from being over at this point because on the return trip they encountered highly concentrated fire. "Every valley seemed full of red floating balls and smoke puffs, and in crossing these valleys, I exceeded every known limit of the aircraft, banking over ninety degrees, indicating over 110 knots several times, pulling negative and positive G's, etc," McEachern recalled. "The anti-aircraft fire passed through out blades several times and some of the maneuvers were so radical that I couldn't tell whether we were hit or the plane was out of control."

Col. Galer was shot down four times during World War II. He was awarded the Medal of Honor for knocking 11 Japanese planes out of the sky over Guadalcanal. Galer described his latest mission as his "most exciting." "I can't say enough about the courage and skill of those helicopter men," the Colonel said. "I believe that what they did exceeded all human expectations.

PILOT COMMENDED

Commander H. M. Kosciusko, Commanding Officer of Helicopter Squadron One, is presenting a letter of Commendation to Lieutenant C. C. Coffey at Ream Field, San Diego, Calif.

Commendation was awarded for his outstanding services as helicopter pilot while serving on board the aircraft carrier Essex in the Korean area.

Lieutenant Coffey resides at 335 Daisy St., Imperial Beach, Calif.

North Island Legion Post Schedules Dance

North Island Legionnaires will hold an evening social with the music of Eddy Kipp's Orchestra at the Veteran's Memorial Building in Balboa Park at 2000, tomorrow night. All interested revelers may obtain a ticket from any Legionnaire or Auxiliary member.

HS-2 Swimmers Win

FAD Ream swimming team captained by LT. E. R. Bergsma swam off with honors in the Fleet Air Intramural meet at NAS Miramar by defeating FAD Miramar 84-72.

Competition was keen in this, the first of 1952 championship competition. Excitement reached a peak during the 150 meter medley relay won by Anderson, Dolmseth, and Bergsma. This event assured the winning outcome to Ream.

25 Meter Freestyle—1st: Bergsma, HS-2; 2nd: Shelton, HS-2.
25 Meter Backstroke—3rd: Bergsma, HS-2; 4th: Studer, HS-2.
25 Meter Breaststroke—1st: Dolmseth, HS-2; 2nd: Jardine, HS-4.
50 Meter Freestyle—1st: Shelton, HS-2; 2nd: Anderson, VU3K.
50 Meter Breaststroke—1st: Dolmseth, HS-2; 3rd: Studer, HS-2.
50 Meter Backstroke—3rd: Anderson, VU-3K; 4th: Wyllie, HS-2.
100 Meter Freestyle—2nd: Shelton, HS-2; 4th: Studer, HS-2.
150 Medley Relay—1st: Backstroke, Anderson, VU-3K; Breaststroke, Dolmseth, HS-2; Freestyle, Bergsma, HS-2.
Diving—1st: Tilley, HS14; 2nd: Kremer, HS-4.

Team members consist of R. L. Dolmseth, AL2, B. W. Shelton, ALAN, J. K. Studer, AE3, W. G. Wyllie, SOG2, E. G. Tilley, AD3, (HS-2), with F. H. Jordine, AD3, W. H. Kremer, ADAN, E. L. Fry, ADAN of HS-4, and J. E. Anderson, AN of VU-3K with LT. E. R. Bergsma of HS-2 Captain Coach. They have practiced long and diligently to acquire their present high in performance and after the initial stimulus of success, are feeling confident they will take the final meet at North Island on 29 September, 1952 for the Com Fair San Diego swimming championship.

Ream Keglers Win Local Tourney

The Ream Field Bowling Team entered as "H. S.—2 Ream Field" won the San Diego Bowling Association of the American Bowling Congress Bowlmor League recently.

The team consisting of seven men from four squadrons averaged a high score of 826. The team rolled into first place at the start and remained on top throughout the fifteen weeks of play.

The team was presented with trophies for each player plus a large sponsor trophy, plus considerable cash point and high game money.

Team members were;
B. J. Worack
P. A. Smith
L. Graupman
L. Osbourne
R. Burk
A. Schmid
T. Fitzinger.

The team is now looking forward to winter season games to commence in December.

LAKE CHAMPLAIN RECOMISSIONED, CDR GUEST XO

The USS LAKE CHAMPLAIN, CV, was recommissioned last Friday in ceremonies held at the Norfolk Naval Shipyard, Portsmouth, Va.

Executive officer of the modernized ESSEX-class vessel is CDR W. S. Guest, former executive officer of the Naval Air Station.

The modernization program for the "Champ" provided a lengthened flight deck for to accommodate heavier aircraft; a new island; larger elevators, an high capacity catapult, increased aviation fuel storage, latest electronic gear, improved arresting gear and other improvements for handling jet planes on the carrier.

Assistant Secretary of the Navy John F. Floberg, who last spring qualified in carrier landings on the USS MONTEREY off the Florida coast, has asked CAPT G. T. Mundorff, commanding officer of the CHAMPLAIN, to reserve for him the privilege of making the first landing on the recommissioned ship.

Russian Course Offered at I&E

I&E Division announced this week that a course of instruction in the Russian language for beginners on a college level has been scheduled. The course is a USAFI course and may be counted as an educational credit.

The purpose of the course is to teach and develop elementary reading ability by introducing the basic vocabulary, conversational usages and sentence patterns of the Russian language. Instruction is also given in writing Russian.

In addition, the courses provide supervised instruction in conversation for group study classes.

Completion of EM-594 (part 1) or its equivalent, is prerequisite to enrollment in self-teaching course EM-594 (part 2). Either course may be completed by passing the USAFI end-of-course test.

Answer to Puzzle

Ream Softball Team Wins Berth in Finals

FAD Ream's augmented softball team won a berth in the ComFair San Diego championship fight for softball honors. Playing a doubleheader on Sept. 18 they downed FAD Miramar (Fasron 701) in an 11-inning thriller and in the second game dropped the champs from Los Alamitos, (VS-781).

Buck Meehan, ace pitcher for VU-3, allowed only one hit to the boys from Miramar in his 11 inning stint. The score was tied 1 to 1 going into the 7th inning with exceptional fielding ability shown by both teams. The last half of the eleventh saw Harold French, VU-3, knock in the winning run to end the ball game.

Second game in the double-header matched LT Coffee, HU-1, against the Los Alamitos team. Coffee struck out four men and allowed only three runs to VS-781, while his teammates knocked in seven. Burdof of HS-4 hit three for four and Reichoff, HS-4, batted two for three, knocking in two runs. Lachowski and Meehan, both of VU-3, batted .428 for the series.

Ream will have met Ready Issue of North Island for ComFair San Diego Champions, but the outcome will be too late for printing in this week's publication.

NR Carnival Nets Over $150,000

NAS LEADS FUND DRIVE

Enter Slogan Contest Today

The NORTH ISLANDER
U.S. NAVAL AIR STATION
VOL. VIII SAN DIEGO, CALIFORNIA, OCTOBER 3, 1952 No. 40

Observe Fire Prevention Week

Largest Carnival Yet Held, COM-11 Commends NAS

Naval Air Station this week received a letter of appreciation from RADM J. W. Roper, Commandant 11th Naval District, for $150,000 raised by the 1952 Navy Relief Carnival. In his letter to the Commanding Officer, the Commandant said:

"The Commandant acknowledges with thanks and sincerest appreciation the check to the Navy Relief Society, San Diego Auxiliary, in the amount of $150,000.00, which represents the first increment of the profits received from the Navy Relief Carnival."

Final audit of the Carnival books will be completed next week, at which time the second and final increment of the carnival's profits will be turned over to the San Diego Auxiliary.

Admiral Roper, in his letter, stated:

"The Navy Relief Carnival, so ably conducted this year under the direction of the Commanding Officer Naval Air Station, has greatly exceeded all previous carnivals in the profits derived for the Navy Relief Society."

Chairman Pemberton expressed his appreciation to the North Island Association and to his military committee.

VS-23 HOLDS OPEN HOUSE TOMORROW

VS-23, commanded by CDR J. C. Zirkle, will hold a personnel inspection followed by an "open house" tomorrow at 0900. All dependents of the squadron are invited to attend. A conducted tour of the squadron's aircraft and hangar spaces will follow.

Station Combines 59 Drives Into One Effort

The greatest fund appeal ever to be made to the citizens of San Diego and vicinity is embodied in this year's goal of the United Red Feather Fund (Community Chest plus USO). Needed to continue operation of the 56 Red Feather agencies will be $1,050,570. In combining their fund drive operations, the Red Feather organization is reducing the burden of numerous individual campaigns throughout the year, which tends to become odious to the people.

North Island, going one step farther, has taken the lead in the community this year, combining not only the 56 Red Feather Agencies fund drive, but adding three other major charitable and public service groups which ordinarily make individual appeals for money.

Now gaining momentum on the Naval Air Station, the United Fund Drive seeks to eliminate separate fund raising campaigns by the several agencies, by a single big appeal at this time. Under one heading, it combines the 56 Red Feather groups, the American Cancer Society, the American Red Cross, and the Heart Foundation, all of which must depend upon the generosity of the fortunate—the regularly employed American population, in order to operate.

Pledges are out all over the station, with preliminary reports

(Continued on Page 6)

SEAPLANE TENDER HOME after eight months duty in the Far East. Welcoming Arthur B. Peters, HM1, home on the USS PINE ISLAND Sunday was his daughter Mary, 19, (left) and his wife. Mary was backed by the ship in the recent Queen of Lemon Grove contest.

NAS TO OBSERVE FIRE PREVENTION WEEK WITH DRILLS, DEMONSTRATIONS

NAS Fire Prevention Chief M. R. Smith announced that the period October 5-11 has been designated by the President as Fire Prevention Week. Chief Smith reports that NAS will observe the week with drills, demonstrations and lectures.

Among the many events scheduled by the station fire department are playing host to a large group of Cub Scouts for a crash fire-fighting drill, visit Coronado schools showing fire prevention film and giving lectures by senior members of the station fire department, and a fire prevention film showing actual fires of major importance at various naval and military reservations each night at the station theatre during Fire Prevention Week.

Chief Smith

Swimming Season Ends

The swimming season at the NAS beach ends today, the Special Services Div. has announced.

Continuing in operation, the Beach Recreation Facility will remain open 1300 to 1800 week days and 0900 to 1800 Saturdays and Sundays.

How Will The United Fund Be Split Up?

One question which is uppermost in the minds of North Island personnel who are donating to make the current United Fund Drive a success is this: "If I do not specify any particular group for my money to go to, how will it be distributed?"

Funds contributed, but not earmarked for one or another of the agencies covered by UFD, will be pro-rated on the following basis, according to LCDR J. L. Morrissey:

Red Feather (Community Chest plus USO) 54%
American Red Cross 36%.
American Cancer Society 5%.
Heart Foundation 5%.

These figures are based on the results of fund-raising campaigns held here during the past two years, in the case of each of the agencies involved.

It is felt that this is a pretty good indication of how North Island personnel desire that their donations should be divided. There has been very little deviation in comparative amounts contributed to these several organizations during drives held over the several years just past.

Raiders Upset Cal Ramblers

MANUEL AJA goes up high, attempting to snag a 'Raider pass in the Cal Rambler game last Saturday at Berkeley, California. But an unidentified Rambler gridder had other ideas in mind. The strong pre-season 'Raider passing attack still failed to click, causing them to rely on their ground plays for yardage.

Taking advantage of a last-minute break thrown their way Saturday, Coach Johnson's 'Raiders did some quick maneuvering to upset the Cal Ramblers 19-14, after trailing throughout the game.

The winning TD, which came with only 45 seconds left to play and the Skymen trailing 13-14, was an off-tackle reverse smash by Bud Gartiser from five yards out. The Skymen had recovered a fourth down pass from center which Tom Keogh of the Ramblers had fumbled on the five.

Hardly had the opening whistle sounded than the Skyraiders found themselves trailing 7-0. After the Skymen had twice kicked off out of bounds, the Ramblers put the ball in play at midfield and on the first play completed a 50-yard touchdown pass from Dick Lee to Jim Hanifan.

After an exchange of punts, the Skyraiders took over on their own 26 and immediately handed the ball to the Ramblers. A mix-up in signals, which resulted in a bad pass from center, gave the collegians a first down on the Skyraider 14-year line. Six plays later they scored as Dean O'Hare punched two yards off tackle. The conversion was good and Cal had a 14-0 lead.

Early in the second period the Skyraiders finally got rolling. The Ramblers, forced deep into their own territiory by a hard-charging, fired-up Airman line, punted out to their own 43 and Gartiser returned it to the 30. Rex Yerby and

Chaplain's Corner

"TROUBLE SHOOTERS"

The best way to stay out of trouble is to stay away from the occasions of trouble.

Occasions of trouble include places (e.g., a honky-tonk), persons (e.g., a tea-town tessy), and things (e.g., a "hot" magazine) that will trip the ordinary man head over heels into trouble. By trouble, we mean anything that will make him less of a man.

Occasions of trouble should be avoided because "the eye isn't satisfied with seeing." You don't stop at merely liking what you see; you want it. Can you come close to a fire and not feel warm?

YOU WANT TO BE A REAL MAN? THEN, OF COURSE, YOU'LL SAMPLE A LITTLE OF EVERYTHING, SEE LIFE ON THE SEAMY SIDE AS WELL AS ITS GOOD SIDE. YOU'LL BE ABLE TO SAY YOU'VE "BEEN AROUND." A GOOD IDEA? NO, AS GOOFY AN IDEA AS YOU COULD IMAGINE. IMAGINE SAMPLING EACH SICKNESS AND DISEASE TO PROVE YOU'RE HEALTHY.

Twelve-year-old Marie Goretti died of a dozen knife wounds inflicted by a love-sick oaf because she resisted his advances. It is interesting to note that murderer's advice now: avoid the occasions that cause trouble spots. This man admitted that he had fed his mind, wasn't satisfied with thoughts; it wanted action.

In matters military, be a trouble shooter: don't run from danger; in spiritual matters, be a trouble scooter; avoid the occasions that gradually destroy your manhood.

FATHER JOSEPH CLOONAN,
Catholic Chaplain

The Church of Jesus Christ of Latter Day Saints—meeting will be held at the North Island Chapel every Thursday evening at 1900. A cordial welcome is extended to all.

Rate Advancement Announced by I&E

Approximately 59 percent of NAS personnel participating in BuPers' examinations for advancement to petty officer rates last July were authorized for advancement October 16, I&E announced Tuesday.

A list received this week by the I&E Div. disclosed that of 568 vying for higher rates—PO3, 2, and 1—387 will be advanced. Thirty-one additional participants passed the examination but were not authorized for advancement because of full quotas in their rates.

I&E Division advises all personnel planning to take the January Bureau tests to make early preparation. Deadline date for recommendations by division officers has been tentatively set for October 15.

Recommendation forms may be secured from I&E, and after receiving the division officer's signature should be forwarded to the Personnel Officer. Training courses should be completed by early December, although a final date has not been released. Personnel who took the examination previously but did not make their rate will require only a recommendation for the January tests.

Islanders Crowd Ceramic Shop, Hobby Gaining in Popularity

NAS's Ceramic Shop, a division of the Special Services Hobby Shop, is gaining in popularity daily with Islander hobbiests. A wide variety of objects are made at the shop, ranging from miniature ash-trays to gigantic lamps.

According to Chief Saunders, leading chief of the Hobby Shop, if a hobbiest takes the proper interest he can turn out ceramic objects that rival any professional. Many Islanders are turning out useful and decorative household items in their leisure time at the ceramic shop.

The latest ceramic equipment has been installed in the shop by the Special Services Division for the use of all military personnel based at NAS and their dependents. Equipment ranging from the large baking ovens down to a wide variety of moulds are available upon request.

Rod and Rifle Ramblings

Things are pretty active on both the hunting and fishing scenes this week. Have been some fast time, in fact.

E. A. Snook, of 933 Olive Ave., Coronado, brought in a 121-pound marlin recently—landed it after an hour and 15 minutes battle. He's an O&R employee, Shop 413A planning group. Got his marlin off Coronado Islands aboard Yacht Yak II.

First deer entry in the Civilian Hunting tournament was turned in by Edward M. Vercanteren, O&R Production Control Shop 3291H. His deer, 126 pounds dressed, was bagged at Frazier Mountain, Ventura county, last week.

Lots of fishing prize money is still going begging, with fishermen still going out every weekend, as well as on longer trips, without registering at Employee Services, Bldg. 415 for the fishing tournament. Trout, marlin, and yellowtail are the only classes with actual entries so far.

Plenty of fines have been passed out to unwary hunters and fishermen this year. Don't forget to get proper license and tags for your fishing and hunting before taking that jaunt. And TAG THAT DEER'S antlers **immediately** after making the kill. We know at least one lad locally who drew down a penalty for failure to do so, though he had actually bought the tag.

Looks like good pheasant hunting this fall. Friends coming back from dove hunting in Imperial Valley report seeing the birds in quantity there. Season starts November 22. Remember, you must have pheasant tags for this event and must tag leg of each bird without delay after bringing it down.

Richard B. Cowan, Supply & Fiscal, brought back picture evidence of some nice trout fishing luck at Lake Tahoe recently. Included were a 6-pound Loch Leven, a 4½-pound and a 4-pound Mackinaw. Latter, he informs us, were caught at better than 100 foot depths in the lake, which is one of the few places this kind of fish is available.

TOP SAN DIEGO COUNTY deer entry in the Civilian Hunting Tournament was submitted by William R. Karmazin, Shop 5191, O & R Production Control. A 192-pounder, his deer was shot in Oriflamme Canyon at 0830 September 20.

electrons

By Windy Splichal

NEWS FLASH ** The Electronics Division is having a dance on Saturday evening, November 1, at 8 p.m. It will be held in the La Mesa American Legion Hall. Music will be supplied by Eddy Kipps Orchestra. Admission will be free to all Electronics workers and one guest. Your badge will be your admission. Extra guests or workers outside the division will be charged $1.00 Admission. REMEMBER THE DATE — A grand time is promised to all who attend.

Mildred and Frank Sevick returned to work after five weeks of touring California, Oregon, Washington, and into Vancouver, Can, ada. They spent time with Mildred's folks in Nebraska, and Frank's folks in Buckholts, Texas.

Cy Slocum was off sick last week with a siege of the flu but has returned to work this week. Feeling better but looking a little peaked.

Johnny Kreutzer is back to work after a week's vacationing.

Albert Washington is home this week taking care of Mama and the newest arrival in the Washington family. Congratulations.

Joe Young is on three weeks leave hunting deer. We wish him lots of luck.

Mary Cares is on leave, visiting with her son who has just returned to the States from Korea.

Martha Pickett is settled in her new home. May your days be very happy in your new Hacienda.

Aida Hornberger is back to work after spending two weeks with her daughter and grandson who have just returned from Honolulu.

Ilona Zoberswki returned from a month's vacation with her father, who recently had an eye operation. She also spent time in Duluth, Chicago and Minneapolis.

Helen Davis has been in San Francisco for two weeks visiting with a son who is in the service there.

Erlene Morris is back to work after a week's illness.

A. L. Anderson spent part of his vacation last week attending a wedding in Long Beach.

F. Jones has returned from a four weeks vacation in Nashville, Tenn., where he visited with relatives and friends. He also attended the State Fair there.

TOASTMISTRESSES TO HOLD MEETING

The next meeting of the "Silver Strand Toast Mistresses" will be held on October 8th at the La Avenita Cafe in Coronado. The meeting is scheduled to get under way at 1930.

Gold Star Mother Has Daughter

Mrs. Mabell Lymetta Harris, widow of E. S. Harris, SR2, gave birth to her second child—a daughter Mildred Louise—September 25 at the Coronado Hospital. The mother is a member of the San Diego County Chapter of the Gold Star Wives of America.

Mrs. Tess Alexander of O&R, National Vice President of the Gold Star Wives, has taken a personal interest in the Harris family since Steward Harris was killed November 24, 1951 in an automobile accident.

The Gold Star Wives are assisting the Naval Air Station in preparations of the second annual Christmas Party for children of deceased Armed Forces Personnel that will be held at the Operations area Christmas Morning..

Again this year, William "Hopalong Cassidy" Boyd will star as Santa for the service orphans.

The NORTH ISLANDER

Vol. XI October 3, 1952 No. 40

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-350, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

TELEPHONE EXTENSION 1475. Call this number to report news.

Contributions of news, features, pictures and cartoons will be gladly considered, and material submitted will receive careful handling. However, the NORTH ISLANDER assumes no responsibility for the return of material contributed. The editors reserve the right to make such corrections, changes or deletions in submitted copy as they deem necessary in conforming with the policy of the paper and of the Navy.

The opinions or statements made in articles published herein are those of the writers and are not, in any case, to be construed as official or as reflecting the views of the Commanding Officer or of the Navy Department.

United Fund Drive—Give Where You Work!

Blood Donors Program Long Range Project

North Island personnel, always quick to respond to both routine and emergency calls for blood donors, will be interested in current plans which are underway for a continuing, long-range National Blood Program.

An intensive public information program is to be launched, according to Dr. John B. Steelman, acting director, Office of Defense Mobilization.

"Due to the necessity for a continuing, comprehensive blood program on a long range basis, for military, civilian and civil defense needs, all blood collection activities have now been integrated into a single National Blood Program," Steelman said.

"Regardless of the situation in Korea or any trouble spot overseas, we have thousands of wounded men in our military hospitals still fighting for a chance to live. Other thousands in our civilian hospitals require blood if the home front is to remain strong and secure in support of our fighting men.

"But in addition to these needs, there must be blood plasma in the bank as insurance against a national emergency. For example, in case of an atomic attach, it is estimated that the casualties in one city alone would be in the hundreds of thousands, requiring not only vast quantities of whole blood, but as much as 60,000 units of plasma in the first 24 hours.

"The mission of the National Blood Program is to obtain sufficent quantities of blood to continue to meet the immediate needs for blood of the Armed Forces and civilians, and at the same time, build a plasma reserve large enough and mobile enough to see us through any national emergency.

"If blood is to be available when and where needed, in saving the lives of our ill and injured, the National Blood Program will require the support of the entire population.

"President Truman has assigned responsibility for coordinating the National Blood Program to the Office of Defense Mobilization. The American Red Cross, the Department of Defense, and the Federal Civil Defense Administration have joined forces to conduct the new program.

The American National Red Cross has been named the official collecting agency for the National Blood Program. In addition to Red Cross blood centers many independent blood banks throughout the country are cooperating with the Red Cross in collecting blood for the program and several military installations have Armed Forces blood donor centers.

A priority system hase been established so that immediate whole blood needs of the Armed Forces and the civilian population are met first, with all remaining blood going into the national reserve of plasma. This reserve can be used in a national emergency wherever the need arises.

In the continuing and long term drive to get doors for the National Blood Program, radio and television, the press, magazines, national organizations, labor and industry, and other groups will be asked to cooperate.

NAS BLOOD DONOR CHAMP Harry A. Hottenstein of O & R Dept., pledges his continued support to the program. "Next time they call for donors," he comments, "I hope to contribute my 40th pint of blood." He has been on a one-year's enforced layoff from blood donations.

civilian vacancies

11TH NAVAL DISTRICT

Storekeeper (General), GS-4, U.S. Naval Station, San Diego. Open thru 3 October 1952.

Electrical Engineer, GS-11 & Civil Engineer, GS-11, Headquarters, Marine Corps Air Station, El Toro (Santa Ana), California. Open thru 15 October 1952.

Maintenance Engineer, GS-7, Naval Air Station, Akron, Ohio. Open thru 30 October 1952.

Fiscal Accounting Clerk, GS-6, Naval Station, Orange, Texas.

Chief Quarterman Machinist, $7248.38 per annum, U. S. Naval Station, Subic Bay, Philippine Islands. Apply at the Navy Overseas Employment Office, (Pacific), 45 Hyde Street, San Francisco C, California.

Safety Inspector, GS-5
Safety Inspector, GS-6, GS-7, GS-8.

United Fund Drive

Why a Cancer Society?

Why is there an American Cancer Society and what does it do? The answer means reading some startling facts, but it bears encouraging words too.

Cancer, next to the various heart diseases, is the worst killer in America. Last year it took a toll of over 200,000 lives, 725 of them having been in San Diego county. That's over seven times the number of traffic fatalities here last year.

Back in 1913 a few people in New York recognized the seriousness of this scourge and formed the American Cancer Society to crusade against one of man's worst enemies. Now, millions of persons in every part of the country have joined in the crusade, because every contributor is a member of the Society.

Contributions to the American Cancer Society support a threefold program of: 1: Research in medical centers and laboratories across the country to find the cause and cure for cancer as well as to improve treatment techniques; 2: Education of the public on the seven danger signals of cancer, because early detection greatly improves the chances of recovery; 3: Service, where needed, to ease the suffering of cancer patients and soften the impact on families of the patient.

What research will uncover next week, next year or ten years hence no one knows, but everyone knows it must go on until the cure for cancer is found as it surely must be. In the meantime there is much which can be done. Probably the San Diego county death toll from cancer last year would have been closer to one thousand if so many had not detected cancer in early stages, thanks largely to the American Cancer Society's educational program. But the actual toll could have been close to 500 instead of 725 if the educational program had been more widespread with more early detections having been accomplished. That's why the educational phase of the program gets special emphasis. Many more lives can be saved even though no advancements are made immediately in medical knowledge concerning cancer.

Dollarwise, the service phase of the American Cancer Society's program here is small, but it is very large in the sense of accomplishment because of volunteer aid. This past year, the San Diego county quota was $77,500 to cover research, education and service. Obviously, even if the entire amount were used for direct aid to needy families, there wouldn't be enough to scratch the surface in an area where there are 2,000 new cancer cases each year. But much can be done to help the victim and his family to help themselves. Visiting nurses, whose calls are paid for by the Society, and volunteer workers are proving to be of great assistance where needed. Bandages made by volunteers from materials purchased by the Society are given and equipment such as a wheel chair or hospital type bed, is loaned. Furthermore, Society headquarters directs needy cases to the channels where help is available.

Cancer is no respecter of age or sex. It kills more children than all the contagious diseases combined and strikes men and women of all ages, although it is more prevalent in the middle-aged group. Eventually, cancer will strike one out of every five persons. Obviously, we must strike back hard. The American Cancer Society furnishes the weapons and the organized effort for this purpose. Those who contribute money to the Society make this effort possible.

Vice Prexy

W. T. WALTHALL, of Safety Division, was elected vice president of the NAS Credit Union at the regular meeting of the board of directors Thursday, September 25. Also elected at this meeting, was R. I. G. Elliott, of O & R, to the board of directors. They will fill vacancies caused by recent resignations. Other Credit Union officers are: Henry C. Henke, O & R, president; Edward M. Drier, S & F, treasurer; Bertha Durflinger, and Wm. F. Dede of IRD, and W. F. Allen, of S & F, board members.

NAS Receives Commendation for Employment of the Handicapped

Naval Air Station, San Diego, was singled out specifically by the Disabled American Veterans, California Department, in convention at San Bernardino recently, for commendation regarding its leadership in the employment of physically handicapped persons.

In a special resolution, passed unanimously by the 31st Annual State Convention of the D.A.V., and signed by Wm. E. Mealer, Department Adjutant, the following points were emphasized.

The State of California leads the nation in the employment of veterans in the Federal Civil Service. California probably also leads the nation in employment of physically handicapped veterans.

Such Federal installations as the Naval Air Station, San Diego; Naval Air Station, Alameda; Sacramento Signal Depot; Naval Construction Battalion, Port Hueneme, and other Federal establishments, havemade outstanding placements of physically handicapped veterans.

Jobs Open Now At North Island

There's no use turning to the "jobs wanted" columns if you fill the bill in any of the four categories listed here. There are critical per diem vacancies on North Island at present, for carpenters, radio mechanics, electronics mechanics, and refrigeration and air conditioning mechanics.

In addition, there is a per annum vacancy on the station for an analytical chemist (GS-5), in O & R Department.

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

Q I am a supervisor attending regular classes under the supervisor development plan. If I am on leave, on duty away from the station, or on a night shift am I excused from participation during this period?

A It is the policy of the Navy Department to require all graded and ungraded supervisors to complete a minimum of 36 hours of Supervisor Development Training in each calendar year. NCPI 230 states: "This requirement placed upon all activities the responsibility for providing an adequate supervisor development program. Commanding Officers may not lower this minimum." Therefore, the Training Division must provide makeup work either in the form of class attendance with another group or in the form of outside study to the extent of meeting the 26 hour minimum. At least 18 hours of the 36 must be in "core topics" specified by NCPI 230.

Q. I am not a supervisor, but I would like to improve myself through further training, does the Navy Department provide any training opportunities for me?

A. Yes. The Navy provides training through the "Employee Development Program." This is a training plan for the development of Naval civilian personnel at all levels of employment. The aim of the program is to maintain a well-trained capable force of employees, equipped to perform an effective job for the Department of the Navy.

By meeting specific requirements and under certain conditions employees may receive apprenticeship training or on-the-job training. However, of more general interest is the Supplementary Training Program. This program offers to all personnel an opportunity to take courses that will be of value to them. At no expense to the employee, after-hour classes are provided in such courses as Shop Mathematics, Blueprint Reading, Machine Shop Theory, Elements of Supervision, and Electronics to name a few. If you are not taking advantage of this supplementary training program and would like to call Ext. 658.

Contest Stresses Fire Protection

CONTEST STRESSES FIRE PREVENTION

In cooperation with the fire prevention program, the North Island Association announces that special consideration will be given safety slogans emphasizing this subject, if submitted before October 10. Remember that fire prevention practices apply at work, at home, in the car or in the forest.

Make your entry a short, "flaming" one about fire prevention this time.

Extra entry blanks are available at the Safety Division, ext. 1071 or 1072.

Drop in Beneficial Suggestion Box

United Fund Drive–Give Where You Work!

In Recognition . . .

Benny Sugg Other Award Programs Gain Popularity

The leadership of our Navy, as well as that of our country, is maintained on the solid foundation of free thinking people. The suggestion program presents an outstanding practical opportunity for freedom of expression by workers, concerning problems of management.

Here are some of the highlights of the Awards and Incentives Program which became effective in May of last year.

Howard W. Goode, IRD, Alternate Chmn.

B. G. Thompson, Overhaul & Repair Dept.

H. W. Miller, Transportation Dept.

D. Smith, Public Works Dept.

S. C. LeQuire, Overhaul & Repair Dept.

The program is established to provide the following award plans:

(a) Beneficial Suggestions
(b) Efficiency Awards
(c) Superior Accomplishment Step Increases
(d) Distinguished Civilian Service Awards
(e) Meritorious Civilian Service Awards
(f) Length of Service Awards
(g) Safety Awards

Objectives of the program are to "secure increased employee cooperation and productivity beyond that which is normally expected, and to regard employees in a manner commensurate with their contributions to the efficiency of the Navy."

INITIATION OF AWARD PROPOSALS

(a) Consideration for a Beneficial Suggestion Award may be initiated by any employee who properly submits a written suggestion.

(b) Length of Service Awards and Safety Awards are automatically recommended for eligible employees by the Chairman of the Committee on Awards.

(c) All other awards are recommended by the immediate supervisor via the Master Mechanic of IVb Supervisor, who will affix a forwarding endorsement at that time; or by the Head of a Department, or by the Committee on Awards.

THE COMMITTEE ON AWARDS

The responsibility of the Committee on Awards is to organize, promote, and administer all award and incentive plans within the activity.

On the North Island Committee are the following Civilian Employees:

Beneficial Suggestions Panel: R. S. Putnam, chairman; H. W. Goode alternate chairman; D. Smith, Public Works, P & E; L. Gold, O&R Quarterman; K. W. Hedlund, O&R Electronics Engineer; H. F. Heimbach, O&R Leadingman; S. C. LeQuire, O&R Foreman*; G. G. Fay, S&F Supervisor; A. R. Albeck, Transportation Quarterman; H. D. Jack Ball, executive secretary.

Service Awards Panel: R. S. Putnam, chairman; H. W. Goode, alternate chairman; F. G. Arnold, O&R Engineering Officer; B. G. Thompson, O&R Foreman; S. L. Patterson, Transportation Officer; H. W. Miller, Transportation Foreman; J. D. H. Carmichael, S&F Shop Personnel Supervisor.

*O&R Dept. Foremen rotate on quarterly basis.

BENEFICIAL SUGGESTIONS

The Beneficial Suggestions system provides a channel by which all employees, supervisory and non-supervisory, may have a creative voice in the operations of the Navy, and by which the Navy may reward useable and "above the line of duty" ideas by the presentation of cash and other awards to the individual suggester.

F G. Arnold Overhaul & Repair

Types of Suggestions Desired: The basis of a suggestion may be a new idea, and improvement on an old idea, or a new application of an old idea. Lack of originality shall not be used as grounds for denying an award, provided the same idea has not been formally presented for consideration (either in or out of the suggestions system) at the Naval Air Station within the previous two-year period.

Award determination shall be based entirely on the usefulness of the suggestion to the Navy. Both "little ideas" and "big ideas" are desired which will:

(a) **Save** time, money, space, material, or manpower.
(b) **Combine** operation, procedures, methods, materials, records, reports, or forms.
(c) **Eliminate** waste, breakage, duplication, operations, unnecessary work, or fire, accident, or health hazards.
(d) **Devise** new tools, new equipment, new machines, new methods, new processes, or new uses for old ideas.
(e) **Improve** service to the fleet, quality of products, methods, procedures, tools and machines.

"WE WUZ ROBBED!"

As American as hot dogs, hot rods and hot jazz, that good old squawk splits the air of the four seasons wherever there's a big game with only one winner.

The suggestion system is no exception—even though there are many winners every month. It's only human nature to believe that your own idea is better than the other fellow's.

Sometimes an idea can be made to seem (1) neutral, (2) nice, or (3) nasty — depending on your choice of words. For example, "I am firm"; You are obstinate"; "He is a pig-headed fool."

EFFICIENCY AND OTHER AWARDS

Efficiency Awards may be made to employees who are covered by the Classification Act of 1949 (graded employees), in accordance with Title X of Public Law 429, 81st Congress. A cash award, or salary step increases may be given to an employee or group of employees for a performance or an achievement that results in dollar savings. Initial award proposals should identify the employee or employees concerned by name, check number, and grade; identify where efficiency and economy have been achieved; and briefly describe the improvement or achievement. This information should be forwarded to the Committee for further investigation and documentation.

Superior Accomplishment Step Increases may be made to graded employees only, in accordance with Section 702 (a) of the Classification Act of 1949, for superior accomplishment of various kinds other than those related directly to effecting dollar savings.

For a Superior Accomplishment Step Increase; (a) all aspects of performance must be so outstandingly above normal requirements as to merit special recognition. All graded employees receiving an "Outstanding" performance rating are to be considered for an award. Or, (b) work performance must be sustained above normal requirements of the position for a period of at least three months and deserve special recognition. The employee's current performance rating must not be less than "Satisfactory." The recommendation must include a description of how and when the employee performed his duties in this superior manner. Or, (c) Employee must initiate an idea, method, or device which has been adopted, and which has improved or is expected to improve the public service. Or, (d) Employee must perform a special act or give superior service regardless of his performance rating, which is (1) in the public interest, (2) related to official employment, (3) over and above normal position requirements, (4) of an unusual or distinctive character, and (5) of value as an incentive to other employees.

An honorary award may be granted to any civilian employee of the Navy in recognition of service which is considered to be distinguished or meritorious. Honorary awards may be made independent of or in connection with any other award. They are not intended to substitute for deserved monetary awards, but are designed to select and bestow singular honor as an official recognition of individual achievement and as an incentive to further accomplishment. Honorary awards are of two types:

(a) **Distinguished Civilian Service Award.** The highest civilian honorary award bestowed by the Navy, the award consists of a lapel emblem, a citation, and a certificate signed by the Secretary of the Navy.

(b) **Meritorious Civilian Service Award.** The second highest civilian honorary award bestowed by the Navy, the award consists of a lapel emblem, a letter of commendation, and a certificate signed by the employee's commanding officer.

All Navy civilian employees who have completed 20, 30, 40, or 50 years of Federal Service are granted a Navy **Length of Service Award.** Federal Service is defined as all honorable military service and civilian service in departments and agencies of the Federal Government.

Safety Awards are presented in keeping with the policy of the Department to encourage the continual maintenance of safe working practices, methods, and working areas, and to encouarge proper maintenance and safe operation of Navy motor vehicles.

Secretary of the Navy Awards. Two types of Safety Awards are made by the Secretary of the Navy to Naval Activities:

(a) For outstanding achievement in industrial safety.

(b) For outstanding achievement in motor vehicle safety.

Industrial Accident Prevention Awards. Awards are issued annually to industrial shops and principal subdivisions thereof and to individual Group IVa supervisors in recognition of achievement in industrial safety.

Safe Driving Awards. The U. S. Navy Safe Driving Award, consisting of a billfold size certificate and a lapel emblem, is presented by the Shipyard Commander to drivers (military and civilian) of Navy motor vehicles after one year of accident-free driving. After each succeeding year of accident-free driving, the certificate is reissued to designate the number of years completed, and the lapel emblem is presented similarly for the appropriate period of years.

H. D. "Jack" Ball, IRD, Executive Secretary

R. S. Putnam, IRD, Chairman

S. L. Patterson, Transportation Dept.

J. D. H. Carmichael, Supply & Fiscal Dept.

A. R. Albeck, Transportation Dept.

G. G. Fay, Supply & Fiscal Dept.

United Fund Drive—Give Where You Work!

NAS Mess Hall Modernization Now Complete

Despite lack of ceremony or fanfare, it was nevertheless a big occasion last Thursday evening at the NAS Mess Hall.

The event marked the serving of the first meal in the building in its completely renovated condition. Although the remodeling program began last March—the first major overhaul job in the 17-year history of the facility—it was not until last Thursday that the mess hall really began serving meals with all its ultra-modern equipment in operation.

Ask anybody who went through the "chow"line on that day or since then—they will undoubtedly testify to the effectiveness of the face-lifting job on the hall. Lines now move more rapidly without the annoying slowdowns and halts, thanks to he five new stainless steel serving lines which handle more people and keep food warmer, and the equally modern automatic coffee dispenser, which serves 24 cups of the beverage at one time.

Tiled decks, large windows, pastel-colored walls, flourescent lighting, and large photographs on the walls make the dining rooms a more pleasant spot during mealtime.

The remodeling job has also eliminated for personnel one annoying task which follows each meal. No longer does the diner have to hold his tray under the hot water spray frequently getting his blues spattered with food particles and water. All is taken care of automatically now—the trays are placed on a moving rack and are quickly cleaned and sterilized by steam. The two machines operate electronically controlled soap dispensers.

LCDR R. J. Jennings, Commissary Officer, said additional fixtures in the $165,000 renovation project include eight fryers and 12 grills in the kitchen; the butcher shop was also enlarged and modernized. NAS Public Works Department performed all the construction and installation work on the facility.

"The remodeling program," declares LCDR Jennings, "will not only improve the service offered to the personnel eating in the mess hall, but result in more efficient operation of the commissary because of modern,-labor-saving equipment."

Nearly 20,000 meals are served daily by the commissary to 5,500 men in main mess hall and 1500 in the smaller adjoining messing facility. Mess halls at Ream, Border and Brown fields, and the kitchens at the NAS Main Infirmary, and Family Hospital Annex are also operated by the NAS Commissary Division.

CAPT W. F. RODEE, Commanding Officer, with LCDR R. J. Jennings, Commissary Officer, inspects the recently installed serving lines during the noon meal hour last Friday. The five modern serving lines handle 3,500 men per hour.

TRAYS come off the automatic "dish" washing machine bright and shiny. Here John Trombino, SA, of the Commissary Division, watches the operation of the machine. Soap is properly portioned in the new washer by an electronic device.

Where There Is a Will

Next week, October 5 through 11, has been designated "National Employ the Physically Handicapped Week."

For many years, the Navy has been one of the Nation's foremost employers of the physically handicapped. Although the Navy's standards of workmanship are high, physically handicapped employees have demonstrated their ability to meet the test. In so doing, they have established records of reliability, productivity and safety that equal the records of the non-handicapped.

Naval Air Station, San Diego, recognizing the Navy's interest in the program, as well as the very real need to provide employment for able, though handicapped, workers has assumed the lead in the Eleventh Naval District, at present employing no less than 201 persons with varying types and degrees of physical handicaps.

It was less than two years ago that the Overhaul & Repair Department of this station instituted a program of hiring totally blind workers in certain jobs to which they seemed particularly adaptable. Six employees so handicapped now do their day's work in the shops of O & R, with an efficiency and attention to detail that has proven their value to the Navy establishment.

Throughout the Naval Air Station, physically handicapped workers have proven themselves capable, industrious, and attentive to their work. It is with more than ordinary pleasure that the NORTH ISLANDER pays tribute to the nation's physically handicapped employees, and recognizes National Employ the Physically Handicapped Week.

REPRESENTATIVE of the considerable number of physically handicapped veterans employed on the Naval Air Station is J. J. Thomaselli, of Supply and Fiscal. Loss of one complete hand and part of the other in combat, has not interfered with his efficient pursual of a responsible job for his department and for the Navy. Thomaselli's employment at North Island is an example of the station's cooperation with the Navy Department's policy of hiring the physically handicapped wherever feasible.

AND HUNDREDS OF OTHERS

In addition to the 201 employees rated as physically handicapped, there are several hundred additional workers on the Naval Air Station who perform tasks of limited scope owing to minor disabilities.

NOT ONE, BUT SIX blind employees are doing a great job for the Navy in various divisions of Overhaul and Repair Department. Down at Building 379, Donald F. Kitzman is completing his first year of successful employment as a sparkplug worker. Here he is shown operating a breakdown machine, disassembling the sparkplugs as they come from planes undergoing overhaul. He also replaces reconditioned gaskets, prepares the sparkplugs for preservation, does a wide variety of tasks required by his job. Kitzman, active in community affairs as well as on his job, is commander of American Legion Post 201, San Diego. He and other physically handicapped workers on North Island are upholding the confidence placed in them by the Navy. Employ the Physically Handicapped Week, October 5 through October 11, is to be observed nationally in recognition of the work accomplished by these workers, and in the interests of securing wider recognition for hiring of additional personnel in this category.

United Fund Drive—Give Where You Work!

NAS Leads Drive

(Continued from Page 1)

showing that many North Island personnel are well aware of the basic community need represented by the United Fund Drive. Solicitors are impressing those they contact with the fact that enough money should be contributed to take care of the amount the individual would normally give to each of the several organizations represented.

"It should be repeated," says LCDR J. L. Morrissey, UFD chairman, "that pledges may be marked for the specific agency that the individual wishes to help with his contribution. Ask yourself if you have pledged enough. This is your opportunity to help your fellow man. It is not too late to increase your pledge."

Today marks the first payday for civil service employees during the drive. Servicemen were able to make the first installment of their contributions on their payday Wednesday. Pledges may be met on any payday during this month.

Leading executives of the San Diego County chapters of the American Heart Foundation, the American Cancer Society and the Community Chest visited VR-32 officers and men to present the roles of their organization in public welfare.

The visit of these gentlemen was arranged by LT A. R. Buchanan, Jr., squadron Fund Drive Officer, to stimulate interest and participation of the squadron personnel in the current NAS United Fund Drive.

Pictured above, left to right, are: Jack H. Hardy, Executive Secretary San Diego County Heart Association; LT Buchanan; CDR C. B. Cottingham, VR-32 Commanding Officer; CAPT H. E. LeBarron, USN (Ret), San Diego County Commander American Cancer Society; William C. Cochran, Administrative Assistant to Executive Secretary of the American Cancer Society; and Donald S. Gardner, San Diego's General Manager of the Community Chest.

ESTHER WILLIAMS, comely MGM swimming star, will appear in the technicolor spectacle "Texas Carnival" next Thursday and Friday at the NAS Theatre.

LTJG DRUMMOND NEW NAS OPTOMETRY OFFICER, RELIEVES LCDR CAMPBELL

LTJG T. W. Drummond reported to NAS September 18 to relieve LCDR W. R. Campbell as station optometry officer. Prior to reporting at North Island, LTJG Drummond served as optometry officer at the Naval Hospital in Yokosuka, Japan.

Mr. Drummond was commissioned a Marine pilot in 1943 at Pensacola and saw extensive service in the Pacific during World War II.

A graduate of the Northern Illinois College of Optometry at Chicago, Mr. Drummond also attended the University of California at Berkeley.

Mr. Drummond will be at the Civil Service Dispensary from 0800 to 1200 and at the Main Infirmary from 1300 to 1630, daily.

RAIDERS VS. NTC

Airmen Beat Varsity Studded UC Ramblers In Last Minute of Play

(Continued from Page 1)

Gus Mancuso picked up four and seven yards, respectively, giving the Skymen a first down on the Cal 19. Mancuso then tore off eight more yards to the Cal 11, but then a five-yard penalty set the Raiders' back to the 16. Bill Hulsey immediately picked up the lost yardage with an 11-yard scamper to the Cal five. Hulsey then took it over in two tries. Larry Levine missed the extra point.

That's the way things stood until midway into the final stanza when the Ramblers punted out to their 39-yard stripe. With Manuel Aja getting his pitching arm in shape, the Skyraiders scored in less than two minutes as Aja hit on three passes, the final one a three-yard touchdown pass to Herb Williams. He had sandwiched a four-yard run in between a 14-yard toss to Chuck Perpich and an 18-yard heave to Jack Bighead to advance the ball to the three.

Then with time running out and the Skymen taking to the air in desperation, the break of the game came on Keough's fumble.

Perhaps the Rambler timely bobble was poetic justice, because three times in the initial half the Naval Air eleven had fumbled away scoring opportunities deep in Cal territory.

In the opening period, Bud Gartiser rambled 43 yards to the Cal nine, only to fumble when hit. Early in the second quarter Bill Hulsey fumbled a fourth down pass with two yards to go for a first down on the Cal 17. Still later in the second stanza, end Chuck Perpich took a 45-yard pass from Aja and fumbled when hit on the Cal 4-yard line. Even Cal's second TD was set up by a Skyraider fumble on the Airmen's 14.

BILL HULSEY goes around end to pick up a few more yards against the Rambler eleven before being brought down by a Cal gridder, Saturday. Hulsey did a lot of running for a lot of yardage against the Rambler eleven at Berkeley last week.

Sailor Battle of Year Scheduled At Towers Field Tomorrow

Tomorrow, the Naval Training Center "Boots" sail across the San Diego Bay to tangle with the Skyraider eleven in what promises to be the Navy Gridiron clash of the season.

Get A Load of NTC'S Record

The NTC eleven roared off to a blazing start to officially open the 1952 season by running the Fort Ord team into the ground by a score of 54-0. Since then the "Boots" have overpowered all the teams encountered, beating Great Lakes in the second game of the season 36-0 and trampling the Randolph Air Force Team 67-0.

The Training Center showed great power both offensively and defensively against the Great Lakes eleven as the game statistics show. NTC gained a total of 306 yards on the ground while holding the Great Lakes team to 35 yards. On the passing side of the game NTC again held the upper hand gaining 299 yards through the air while allowing the Great Lakes team a mere 42 yards. In doing this the San Diego "Boots" made 20 first downs to 3 for Great Lakes. Their offensive passing is way above par, in the Great Lakes game alone they clicked on 10 of their 17 passes attempted.

"Boots" Going Strong

The "Boots" have been playing heads up ball without let-up, so far they have held all of their opponents scoreless, while they have run up a total of 157 points in three games. On the other hand the Naval Air Skyraiders having played only two games rolled up a total of 26 points and have been scored upon three times.

Airman's Record Close

In their season opener against BYU the 'Raiders played a sloppy brand of ball and lost 14-7. Their passing attack was weak, while the running attack worked smoothly except for several fumbles, which cost them the game. The 'Raiders then traveled to Berkeley, Calif., where they met the Cal Ramblers and came from behind in the last minute of play to win 19-14. The Skyraiders have never looked extremely strong this season, but have shown a lot of spirit and fight, which is a danger signal for any opposing team. According to the records it looks like a rough afternoon for the 'Raiders tomorrow, but seldom have records won ball games. The deciding will all be done tomorrow when the two teams meet on the Gridiron at Towers Field.

Golfing News

The annual station-wide Golf Tourney for service and civilian personnel, both men and women, will soon be held.

Trophies will be awarded to the first three winners of each flight. Featured will also be low gross, low net, in men's and women's flights, plus "Ace Tourney" up to the last day of play.

The monthly "Ace" Golf Tournament will be held October 1 to October 8 at Caliente. All military golfers are welcome to participate, only those with handicaps are eligible for prizes.

Intermural Football

Intermural football is now in full swing with the different teams fighting their hearts out for the championship. The games are played each noon hour on the gridiron just opposite of the Chief Master at Arms Office. There are plenty of games worth seeing.

Skyraider Teams

A Naval Air Skyraider Boxing team is being formed to represent Naval Aviation in the Southern California Area. Anyone interested in trying out for the team should contact Coach Goudy at Ext. 1443. Workouts began at 1230, Wednesday, October 1, at the Fasron-7 Gym, behind barracks 706.

A Naval Air Skyraider Bowling team is also being formed to represent Naval Aviation in the Eleventh Naval District. Interested personnel should contact the Force Athletic Officer, Commander Air Force, Pacific Fleet, (Room 21, Building 650). Tryouts for the team will be held the week of October 27th at Building 277.

Material for the wrestling team is also needed and interested personnel should contact D. R. Cote at Ext. 1484.

corner on sports

By JOHN PHILLIPS

Airman Defense Strong

The Skyraider defensive line has displayed a great deal of power this season, thanks to the coaching of "Chappie" Chapman, the defensive line coach. In the BYU game the defensive line played heads up ball, holding the Brigham Young eleven to only 38 yards on the ground, and a week later played havoc against the Cal Ramblers. With a little brushing up the line might give the powerful "Boots" a tough time Saturday.

Sammy "The Squeeze" Baris

Sammy Baris, SHC, 20 year veteran of Navy wrestling, and holder of an impressive array of grappling belts, trophies and medals, is leaving active duty after 22 years in uniform. Sammy, in charge of activities at Ream Field Navy Exchange, goes out at the age of 37. He did a couple of fast gear shifts past the recruiting officer at the tender age of 15, then settled down to the art of gathering fame in the wrestling ring, with a total of 17 official Navy championships in that sport and in tennis, track, and whaleboat racing.

Yankees vs. Dodgers

Well it looks like the Yanks have done it again . . . beginning to wonder if any other team will ever win the American League pennant besides the Yanks. On the other hand the Dodgers dream of winning the National League flag has finally come through . . . they no longer have to use that old phrase of theirs "wait until next year." But is there any doubt as to which team will win the World Series this year?

Golfing for Fun

People are often heard to say that Golf is a crazy sport, all you do is hit a little ball and then walk after it. But Golf is really a lot more than that, it is a healthful and relaxing sport. The walking unconsciously builds up your leg muscles while at the same time you are increasing your ability to judge distance with every stroke.

Basketball Season

This is the time of the year when the basketball coaches keep an eye open in search for some six foot giants for their squads. Practice for the 'Raider team is scheduled to start in the very near future under the guidance of the new basketball coach, Lt. Anderson.

Captain's Cup Lowdown

By Walt Breeland

Another week has gone by since we last wrote this column and five more touch football games have been played. The three top teams were reduced to two when Special Services was defeated by G.C.A. 33-26. G.C.A. is now leading the pack with a 4-0 record, followed by Planning with 3-0.

There were four other games played. The results are as follows: Assembly 2, N.W.C. 0; G.C.A. 54, Metal Machines 33; Marines 25, Torpedo and Ord. 19; and Assembly and Boat House tied 13 up in a hard-fought ball game from the start.

The touch season is nearly half over and we are seeing some of the top teams in the race knocked off. For instance, the G.C.A. defeat of Special Services, which we have already mentioned, was, in our opinion, the best game of the season so far. G.C.A.'s Roy Brooks showed up with some fine running and passing. A lot of credit should be handed to Brooks and his team mates for a fine ball game.

CATCHER DICK BAARDESE of Ready Issue slides head-first into third-base safely during opening game of ComFair San Diego softball playoff with Ream Field. Ready Issue won the game 9-3 and also the playoff two games to one. Ream Field third-baseman is Paul Steege.

airpac's sportlight

By BOB SWISHER

An augmented FASRon-7 tank team, representing FAD North Island, defeated an augmented team from Ream Field 90-66 Tuesday for the ComFair San Diego swimming championship.

The North Island winners were: Joe Kinkaid, FASRon-7, 25-meter medley free style and 50-meter breast stroke; J. H. Welch, VF-791, 25-meter backstroke; J. B. Strom, FASRon-7, 50-meter free style, S. G. Hadley, FASRon-691, 50-meter backstroke and A. C. Welsch, FAETUPAC, 110-meter free style.

Individual winners were awarded trophies and the team trophy went to FASRon-7.

REAM Border Lines
ALF REAM SAN YSIDRO, CALIFORNIA

VU-3K Holds Fete At Ream Field

Utility Squadron Three recently observed its first year at ALF Ream and is looking forward to its fourth birthday as a squadron in December of this year.

During the past year that VU-3 has been in operations, based at Ream, the most important event was the change of command. CDR C. D. Huston relieved CAPT D. H. McDonald as commanding officer of the squadron in February.

Also, in the first of the year, KD Units 32 and 33 were commissioned and the volleyball and softball teams won championships. It was a busy year making VU-3K the servicing fleet units with target drones and pilotless aircraft since it was commissioned.

Originally detachment Able of VU-7, it was commissioned VU-3 on 2 December, 1948, based at NAS Santa Ana, California. Its first commanding officer was LCDR W. H. Chester.

In July of 1950, the drone squadron moved from El Toro Air Station to NAAS Miramar and consequently to ALF Ream in the latter part of September of 1951.

With her units servicing the fleet throughout the Pacific, VU-3 is playing a major role in the Navy's air program.

HS-4 Claims Another 'First'

Added to the many feats of the Navy's first helicopter pilot, CDR W. G. Knapp, Commanding Officer of Helicopter Anti-Submarine Squadron Four, was the successful completion on Friday, 26 September 1952, of the first cross-country HRP-1 helicopter flight from Lakehurst, N. J., to El Centro, California.

The entire trip consumed 45 flight hours over a distance of 2820 land miles, for an average ground speed of 62 miles per hour. The greatest distance covered in any one day was 389 miles between Montgomery, Ala., and Shreveport, La.

Unofficially known as the "Flying Banana," the tandem-rotor helicopter without its usual covering skin attracted much attention and publicity from coast to coast.

Accompanying CDR Knapp were LT C. W. Meshier as co-pilot and H. C. Fedder, AD1, as crewman.

CDR W. G. KNAPP seated in front and co-pilot LT C. W. Meshier in rear prepare for their cross country flight in Atlanta, Ga.

PRACTICE WHAT YOU PREACH is the motto of LT Blades, HU-1 survival officer. He and his crewmen are getting set for the oncoming Alaskan winter night. A cozy shelter was improvised from a surveyed parachute after their helicopter was forced down on a sand spit off the coast of Alaska. HU-1, Unit 21 is aboard the ice breaker, USS BURTON ISLAND, which is operating in the Alaskan waters.

'Ballin' the Jack' to Play Here Oct. 10

Marion Kittleson Varieties Return

"Ballin' the Jack," a variety show by Marion Kittleson, will play at the Ream Theater on Wednesday, October 10 at 1930.

Marion and cast have played the theater once before in "Curtain Time," last June.

"Ballin' the Jack" is a complete new show with the same cast of Jack Stump, impersonations; Dee Ann Johnson, Mae West routine; Two Kates and the Canary; Joan Wilson, singer; and many others.

Admission free, guests and dependents welcome.

Jack Stump

VU-3K Wins Ream Field Softball Title on 1-0 Win

VU-3K closed the 1952 softball season in a blaze of glory with a 1 to 0 win over a determined HU-1 nine, to win the second half of the softball season and capture the softball championship of Ream Field.

Throughout the season, VU-3 steadfastly held on to the lead although the loss of key men was a frequent problem. Men such as Snow, Zollars, and Arce, pitchers, "Indian" Anckner, catcher, Taylor, Fennell, and Allen in the outfield and Stevens at second base were the major losses that had to be replaced from time to time.

After winning the first half of the season, Lachowski, Meehan, Trogel and Steege joined the squad to replace those transferred to give the softball team new blood.

As the team finished as strong as it started, Lachowski was outstanding at the catching chores. He kept the base runners honest and was dependable at the plate. Price, the best first baseman on the station, saved many a game with his great fielding. What he lacked in the hitting department he more than made up for it with his enormous stretch.

Playing second base like he owned it was Paul Steege, who started slow, but was a mainstay of the club at the send of the season. Ken Brooks, perhaps the most valuable man on the team, was VU-3's third baseman. His effective hitting and the ability to get on base more than proved his worth. Brooks broke his ankle near the end of the season and was sorely missed. "Dip" French, team-captain at short-stop, kept the hustle and will to win alive. A sparkplug in the infield and a leading hitter at the plate, "Dip" was as responsible as anyone else for the club's title.

In the outfield, Bill English in left, Dick Sufficool in center, and Ed Allen in right field, patroled the pastures like they were born out there. English's great fielding and power hitting, along with Allens steady improvement at the plate, made VU-3 a potent nine.

DFC WINNER RETURNS

Commander H. M. Kosciusko, Commanding Officer of HU-1, is congratulating and welcoming home LT R. L. Dolton, of Dallas, Texas, a recent winner of the Distinguished Flying Cross.

The D. F. C. was pinned on LT Dolton and a Commendation Ribbon on his crewman, W. A. Meyers, AD1, of Milton-Free-Water, Oregon, by CNO ADM William M. Fechteler, who was aboard the USS IOWA when LT Dolton landed safely aboard from a miraculous escape and rescue of LTJG Riedl, of Boone, Iowa, a downed F4U pilot.

Ream Loses FAD Title to N.I.

The Ream Field softball team lost the third game of a two out of three playoff recently to North Island Ready Issue for the FAD Championships.

After losing the first game to North Island by the score of 8 to 3, Ream came back strong in the second to bat in two runs in the second inning and one run in the seventh, to defeat Ready Issue, 3 to 0. Serveau of HS-4, allowed but one hit as the series was evened up.

As the teams lined up for the third game at North Island, Serveau was again asked to pitch. This time North Island won the decider, 5 to 4, but not without a fight.

North Island scored one run in every inning but the fourth and seventh to lead five to one in the top of the seventh innings with Ream at bat. French led off the seventh by grounding out short to first. English received a walk. Serveau grounded out second to first and Bates of HU-1 batted for Price. With the count two and nothing, he poked a single to left to gain a life. Reichhoff, HS-4, continued to keep the flame alive, by hitting a long fly to rightfield. The Ready Issue rightfielder attempted to make the play, but slipped, and three big runs crossed the plate. Steege then flyed out to center to end the ball game and Ream's determined bid for the championship.

Even though the Ream team fell to North Island, they defeated both Miramar and Los Alamitos to gain the finals. This augmented Utility Squadron Three team, Reichhoff of HS-4, Jones, HU-1, Serveau, HS-4, Bates, McCarty, LT Coffey and LT Hogan, all of HU-1, plus the outstanding stars of VU-3, give a fine account of themselves and did not give up until the final out.

VU-3 TO FIELD SPEEDY QUINTET

Utility Squadron Three's major sports program continues on a higher plane by opening the basketball season against HS-2, and following with HS-4 and HU-1, for the next three months.

Having only four holdovers from last year's squad, Keith Deibler, Bill English, Dave Franer, and Howard Hope, Milt Lachowski, new mentor of the casaba crew, is anticipating a fine season with speed and ball control and more speed as the answer to the teams lack of height.

Outstanding new additions to the squad are Hayes, Sorenson, Bustamonte, Steege, Callahan, Wilde, Feser, and Wickizer, looking the sharpest of the many men out for the team.

Answer to Puzzle

CHAMP CAGERS START PRACTICE

Helicopter Squadron One cagers took to the hoops and maples September 12 for their first practice to defend their title, "Ream Field Champions," in the forthcoming season of basketball under the guidance of LT R. G. Brand, Education officer of the squadron.

Coach Brand has the job of rebuilding the '51-'52 champions with only two of last year's starting-five returning. Harry Ross, who led HU-7 to its win over Ream Tower 43 to 36 in a practice game September 25, and LT Joe Hogan are the returning starters of last year's hoopsters.

Other hopefuls for this year's squad include: LT C. R. Severns, LTJG F. P. Keenan, LTJG L. M. Kelly, O. C. Fitzsimmons, F. E. Bates, W. C. Lindberg, R. R. Murphy, J. T. Denson, D. M. Rolph, and R. F. Bilby.

By their win over the Tower and spirited practice sessions HU-1 lets all hands know "here's the team to beat."

NAS Fire Prevention Week Successful

Chaplain's Corner

A Hidden Treasure

For thousands of years men of God spoke of peace which passes all understanding. They found it in faith with their Lord. With haste they told others how they too might inherit this greatest of all gifts. Great multitudes listened, believed, and accepted the invitation. Others ridiculed it, left and began wandering about to find it in other pursuits. However, they never found it as long as they were separated from God.

It was the eternal plan of God that man should possess peace and joy. It wasn't something added to life by man, introduced from the outside as a sort of desperate remedy when things get out of hand. It wasn't something that has come from the wisdom of man. It came from God for the good of man.

Jesus put a welcome sign on it saying, "Him that cometh to Me I will in no wise Cast Out." He invited everyone, "Come unto me all ye that labor and are heavy laden and I will give you rest."

This peace and joy is ours through faith in Christ, "Therefore, since we are justified by faith, we have peace with God through our Lord Jesus Christ. Through him we have obtained access to this grace in which we stand, and we rejoice in our hope of sharing the glory of God."

And Jesus promised, "I give unto them Eternal Life; and they shall never perish neither shall any man pluck them out of My hand."

These are the greatest of all gifts, they are hidden treasures which man can find only in God.

THEODORE E. SCHULTZ,
Chaplain U. S. N.

American Legion Notes

Forthcoming presentation of "Comin' For to Carry," by Walter Carroll, on Oct. 24 at 8 p.m. at the Veterans' Memorial Bldg., Balboa Park, promises very enjoyable entertainment for members and friends of the North Island Service Post 753 and its Auxiliary.

The play is a Negro folk fantasy and deals with the tribulations of a delightfully charming angel, whose mission it is to save the wayward Lucy from certain downfall. Complete with appropriate and excellent make-up jobs, the play supports some fascinating dialogue and was first presented to the San Diego public at the American Legion hall in Pacific Beach, under the auspices of the Pacific Beach Little Theatre.

Featured in the play is Mel Thornton (of NAS) who has been awarded the "Best Actor" award for this presentation.

Remember the date—October 24th.

Other entertainment has also been promised for this evening.

NAS Fire Prevention Chief Cites Role Of Islanders' 1951 Station Fire Record

In observing the 81st anniversary of National Fire Prevention Week, NAS Fire Prevention Chief Merton R. Smith reported that over 40% of the primary causes of major fires aboard NAS have been eliminated.

Ever since Mrs. O'Leary's cow kicked over the lantern that started the great Chicago fire on October 8, 1871, the country has observed National Fire Prevention Week in October.

The Naval Air Station observed Fire Prevention Week this week by holding numerous fire drills, movies and lectures concerning fire safety practices. In addition, the NAS Fire Department personnel under Mr. Smith's direction, held numerous preventive demonstrations.

Over 100 Drills Held

Chief Smith reported that over 100 fire drills were held throughout the station this week. Each major building held a fire evacuation drill and were observed by members of the station's Fire Department.

Particular stress was laid on evacuation of personnel in each building. Drills of this order, according to Chief Smith, are instrumental in saving countless lives each year in major fire disasters.

Exhibitions Prove Interesting

Among the many exhibitions provided by the NAS Fire Department were the proper use and type of extinguishers, the use and functions of the station-wide fire alarm system, and lectures upon fire prevention.

Chief Praises Islanders

"Due to the outstanding efforts of the supervisors, civilian employees and military personnel of the Naval Air Station," Chief Smith announced, "there has been no major fire at North Island in over five years."

This outstanding record is concrete proof that fire prevention practices pay off in safety, savings and security.

Although there is no official yardstick by which to measure NAS fire prevention program with those of other major military installations throughout the country, the Air Station's program has definitely been on the upswing with the number of fires each year cut substantially.

The continued interest in and practice of safety proceedures will, no doubt, lead to even greater cuts in fire and fire-connected accidents aboard NAS.

GOLD STAR WIVES SCHEDULE DINNER

An informal dinner will be held by the San Diego county chapter of the Gold Star Wives at the San Diego Hotel next Monday evening. All widows of service men, who died on active duty or from a service connected disability, and Gold Star Mothers are nivited.

Dinner chairman, Mrs. Tess Alexander, of O&R, announced that several guest speakers will outline widow benefits, both federal and state. Reservations may be had by contacting Mrs. Albert Miller, 330 B Avenue, Coronado.

Page One Pictures Show 20 Frequent Causes of NAS Fires

The pictures displayed on the front page were especially posed by the Fire Prevention personnel of the station's Fire Department to depict the more common causes of fires at NAS.

Leading cause of fire, according to Fire Prevention Chief Smith, is smoking in bed. Many small alarms have been turned in from the varioues barracks, caused by smoking in bed. Each of these fires could have been prevented if the smoker had observed the basic fire safety rule.

Smoking in unauthorized places, coupled with ignoring other fire preventive rules account for the other major causes of NAS fire alarms.

Three basic rules were exponded by Chief Smith:

Look before you smoke; Think before you smoke; Observe common sense on the job.

NAS fire-eaters can only put out the fires—it's up to you to prevent them!

Kids Invited to Fire-Rescue Demonstration

Climaxing the week-long observance of Fire Prevention Week, the NAS Fire Department will host 75 Cub Scouts of the South Bay area on the station tomorrow.

Children of NAS military and civilian personnel are also invited to the event at 1330 Saturday which will feature an aircraft crash fire-rescue demonstration.

Youngsters attending should be under adult supervision, the Fire Department requests.

Those attending may enter the station either by the Coronado Gate or Main Landing.

After gathering at Firehouse 1, the group will be transported by bus to the Fire Department's drill field for the demonstration.

Ice cream will be served to the youngsters following the demonstration.

SIXTEEN SUPPLY AND FISCAL Department employees were recipients of Outstanding Performance Ratings this month. Above, eight of the group receive presentation of their ratings. Present for the ceremony, at Bldg. 334, Oct. 3, were: Mrs. Marjorie Brule, Mr. John West, Mrs. Marjorie Horton, Yukio Kawamoto, Paul McCormick, Manuel Salgado, Jr., Mrs. Pearl Frese, and Miss Hazel Shirk. Receiving awards but not present for the ceremony were: Gordon Branch, Mrs. Elizabeth Woodling, Edward Black, Mrs. Valerie Clary, Clyde Vanderpool, Harry Meek, James Prain, and Arthur Meyer.

ONLY YOU CAN PREVENT FIRE

Captain Rodee Presents Four Civilian Awards

FOUR NAS CIVILIAN employees were honored last Monday in connection with the Navy's Awards and Incentives Program. Receiving congratulations from CAPT W. F. Rotlee, commanding officer, are H. L. Taylor, G. M. McCord, F. L. Pate and C. C. Vanderpool. Participating in the informal ceremony are CDR H. H. Hunt, Assistant Supply & Fiscal Officer, and CAPT G. A. Hatton, Overhaul and Repair Officer.

NAS Maintains Navy Dept. Lead In Incentives & Awards Program

One of the main reasons the Naval Air Station has maintained a 21-month Navy-wide and BuAer lead in the Beneficial Suggestions Program is the whole-hearted support of the civilian employees.

Latest examples of NAS participation in the program were recognized by the Commanding Officer Monday morning, when G. M. McCord of IRD, and H. L. Taylor of O&R, were presented the top beneficial suggestions awards.

Also during the ceremonies Monday in the Captain's office, C. C. Vanderpool of Supply & Fiscal, received a "Superior Accomplishment Step Increase;" and F. L. Pate of O&R, received SecNav's 40 Year Length of Service Award.

McCord, a Safety Inspector of IRD, is the fifth NAS employee to receive a letter of commendation in addition to the top monetary recognition for a beneficial suggestion His letter, signed by the Under Secretary of the Navy, read:

"My dear Mr. McCord:

"It is a pleasure to inform you that the Navy Efficiency Awards Committee has reviewed your suggestion entitled 'Repair of Jet Engine Combustion Chamber Inlet Ducts' and has approved an additional award of thirty dollars. This award is in addition to the initial award of two hundred seventy-five dollars previously granted by the Naval Air Station, San Diego.

"On behalf of the Navy, I wish to commend you for the resourcefulness and initiative that you have displayed in submitting this suggestion. The Navy appreciates this valuable contribution which increases so materially the efficient operation of the Navy's work. I hope that you will continue your endeavors and submit other constructive ideas.

"Sincerely yours,

"FRANCIS P. WHITEHAIR."

McCord's suggestioin, which was adopted in October, 1951, resulted in a saving of $15,482 during the first year of operation. When he submitted the suggestion, McCord was in the Metal Machine Division of O&R.

Taylor's suggestion resulted in a savings of $20,160 for its first years of operation. He received the top cash award of $275 Monday for his suggestion which consolidated the Engine Log Book information into one Log Book, resulting in elimination of the large log book containers and the utilization of the regular containers supplied with the engine cans.

Vanderpool, a GS-10 Storekeeper, received the "Superior Accomplishment Step Increase" award for his safety program in the Supply and Fiscal Department, which resulted in a "reduction in lost time accidents rate."

F. L. Pate, an aircraft mechanic in the Accessories and Ordnance Division, received the 40-year award from SevNav in recognition of his government service which commenced in 1911.

NAVY TESTS FOUR NEW JET PLANES

The Navy recently completed tests on four new jet fighters at Norfolk, Virginia.

Three of the jets, all in the 650 mph class, are the single engine XFJ-2 Fury, the F9F-6 Cougar, and the twin-engine Chance-Vought F7U-3. They have been described as "better than the Russian MIG" by Secretary of the Navy Dan A. Kimball.

Fourth of the new jets is the twin-engine, straight-wing F2H-3, which also satisfactorily completed its first test flights.

All except the XFJ-2 Fury are already in quantity production.

CIVILIAN PROMOTIONS

Name	From	To	Dept.
Norman M. Leung	Helper, Painter	Painter Coach	Trans.
Lyle J. Rasmusson	Laborer	Op.HiLift Truck	S&F
Oral S. Stone	Shop Learner	Hlpr,AirInsMech.	O&R
Alfonso Lorona	Appren. Air.InstruMech.	Helper, General	O&R
Allidean E. Payne	Shop Learner	HrprAirInstruMech	O&R
Muriel O. Oliver	Shop Learner	HrprAirInstruMech	O&R

Here's how YOUR SUGGESTION IS HANDLED

1. YOU HAVE JUST SEEN THE LIGHT. You, as the man on the job, are close to the core of manufacturing problems. You, in most cases, have the inborn or acquired ability to see needed improvements.

2. YOU DROP YOUR SUGGESTIONS INTO THE BOX. Knowing about a needed change is not enough. Put it on paper with the help of your supervisor, if you desire. Then turn it in to the Suggestion Committee.

3. YOU RECEIVE A NOTICE. The Suggestion Committee lets you know they have received your idea. Then they send it to the most qualified people to judge your suggestion's value.

4. INVESTIGATION OF YOUR IDEA IS THOROUGH. Only after a complete study is it determined that your suggestion can be approved or rejected.

5. INVESTIGATION IS REVIEWED. Whether your suggestion is rejected or adopted, the findings are reviewed to determine an appropriate award or to explain the reasons for refusal.

6. SATISFACTION IS THREEFOLD. The over-all benefits of your suggestion will be shared by all. You will receive a cash award and the inward satisfaction of knowing you have done your best.

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

Q. If a permanent employee was caught in RIF back in 1949 or 1950 and was re-employed within a year after 1 September, 1950, what is his status? Also, in case of another RIF, what retention list would employe be on?

A. The employee's status would still be indefinite. However, for RIF purposes he has retention preference as a permanent employee.

Q. If employee resigns and is re-employed within a year, is he entitled to previous sick leave accumulated and left on the books from previous employment?

A. If his break in service is less than 52 weeks his sick leave is recredited to his account.

Q. What decision has been made by the Navy Department concerning employees with work restrictions receiving 4th step?

A. No decision has yet been made by the Navy Department. However, it is the policy of local command to consider these employees based on their performance of work permitted by their work restrictions.

Q. Under what conditions is it possible for an employee to be changed from Social Security to Civil Service Retirement?

A. If an employee at some prior time held an appointment under the Civil Service Retirement Act, he may request to be changed from Social Security to the Civil Service Retirement System.

Q. Explain the length of time a competitive status employee is eligible for reinstatement (1) over five years employment, (2) less than five years employment?

A. No reinstatements are being made at present.

Q. What type will I be carried on while on my 15-day Military Training? Annual Leave, Military Leave, or Leave-Without-Pay?

A. You will be carried on 15-day Military leave.

ONLY YOU CAN PREVENT FIRE

NIA JOINS XMAS COMMITTEE IN BENEFIT

CIVILIAN COMMITTEE members schedule assistance for the big Benefit party-dance November 7 at the NAS Beach Facility. Standing, left to right, Al Quicker, Public Works; Robert S. Putnam, IRD; E. P. Becker of Transportation; and W. R. Dewar of O&R. Seated are Mrs. Isabel K. Smith, NIA President; and Mrs. Helen Quady of O&R, President San Diego County Chapter, Gold Star Wives.

Joint Benefit Sked by NAS Civilians, Military

A joint civilian-military benefit party will be held at the NAS Beach Facility November 7 to raise funds for the annual Christmas Party for Children of Deceased Armed Forces Personnel.

Each year NAS hosts the service orphans on Christmas morning and at the traditional Yuletide dinner. Again, this year, Hopalong Cassidy will star as Santa for the children at the party.

NIA Joins Drive

Six members of the North Island Association have been appointed by Association President Isabel Smith of IRD to assist in the benefit party arrangements.

Door Prizes

Valuable free door prizes will be given away at the benefit party—television, radios and electrical household appliances.

Highlighting the evening's entertainment phase will be the ComCruDesPac orchestra under the baton of Chief Musician R. D. Clendenon.

Buffet Dinner

Buffet dinner will be served, starting at 2000. Dancing will also start at 2000. This benefit party is expected to be the biggest social event yet held at the Air Station.

Reservations may be had by contacting division officers and senior civilian supervisors. Each ticket will sell for $2.00, which includes the buffet dinner and dancing and the valuable door prizes. Winners of the door prizes need not be present to win.

Special Prices For 'Ice Capades' November 11

Tuesday, November 11, will be "Navy Day" at the "Ice Capades for 1952" playing at Glacier Gardens in San Diego.

Tickets will be available on that day at specially reduced prices for service people. North Island military personnel interested in attending the show should contact the NAS Special Services Officer to make reservations.

North Island Maintains Leadership In Hiring of Physically Handicapped

ELBERT F. TURNER, a native of Lamar, Akransas, was hired this week into Shop 8084, Plant Division, O & R, as a helper general. Minus his left leg, but possessed of a fine spirit, and a desire to do a worthwhile job, he has joined the hundreds of other physically handicapped workers who are setting a fine record of achievement at North Island. He is seen repairing portable power tools.

In observation of National Employ the Physically Handicapped Week, October 5-11, Naval Air Station, San Diego did not unduly emphasize the event by fanfare or public demonstration. The command merely continued its sound and sincere efforts to use the largest number possible of employees so handicapped, by hiring an additional amputee, as a helper, general in the O & R Department.

North Island Naval Air Station, with a total of 202 physically handicapped employees, and several hundred other workers with minor handicaps on limited working assignments, leads the other Naval establishments of this area, ranks high among stations in the nation, in per capita employment of handicapped persons.

Nationally, the Navy has a fine record of hiring people so handicapped. Over 25 percent of all handicapped civilian workers in the Federal Service, more than the total of any other Federal agency, are employed by the Navy, according to Under Secretary of the Navy Francis P. Whitehair.

Commandant Outlines 1952 Allotment of Fund Drive

In the interests of informing personnel of the ultimate disposition of that part of the United Fund Drive moneys which are allocated to the Community Chest, the following letter from the Commandant of the 11th Naval District, dated October 2, is quoted:

"It is to be noted that the Communities of Chula Vista and Coronado conduct independent Chest Drives. It is considered, however, that the contributions of personnel of the Naval Station, Naval Amphibious Base, and the Naval Air Station should not be allocated direct to the individual smaller community funds, but should be part of the Greater San Diego Community Chest Campaign.

Proceeds of the solicitation for Community Chest from the military and civilians aboard the Naval Station, Naval Amphibious Base, and the Naval Air Station will be divided among the Community Chests of Greater San Diego, Chula Vista, and Coronado in a manner acceptable to representatives of the respective Chests and approved by the Commandant."

electrons

Congratulations to **Ora Brian.** After years of waiting and several grandsons, she finally became grandmother of a granddaughter. There are now four generations of gals in the family. The new little tyke made her debut in Washington, D. C., on Oct. 1.

Best of luck to **Jeanne** and **Gertrude Paradise.** Both are leaving today.

Dorothy Markle is back to work after spending two weeks home caring for her new granddaughter.

Welcome back to **Elda Hostand** who has been on the sick list for three weeks.

Mary Pinsky and **Lillian Vanocker** celebrated birthdays this week with cakes and all the trimmings.

Congratulations to **Frances** and **Rex Stinchcomb,** the proud parents of a 6 lb., 11 oz. baby boy. Little **David** made his debut at Moffett Field. He is the new grandson of **Nathalie Still,** cable shop, and the nephew of **Raymond Still,** electric shop.

Get well wishes are sent to **Esther Wheatley** and **Don Nuzzo.** Both have been on the sick list. **Betty Wolle** of the Electric Shop has been in the Naval Hospital, Bldg. 15-2 for over three weeks. Cards or visits would be appreciated. Welcome back to **Lonnie Woods,** who returned to work after an operation at the Naval Hospital. Glad to see you back.

Many who worked in Electronics in 1939 and '40 will be happy to greet **Edward S. Kolasinski.** He recently retired from 26 years in the navy and is now working in the Cable Shop. We're glad to see you and wish you many happy days at NAS.

Myrtle M. Graham reports that fishing in Oregon and Washington is fine. She is having a very enjoyable vacation.

Don't forget that the Electronics Division is having a dance November the First. Every electronics worker is invited and they are entitled to bring a guest. Eddy Kipp and his orchestra will play the tunes you all like. Get your group together today and plan to attend our dance. It will be at the La Mesa Legion Hall, 8435 University Ave.

ONLY YOU CAN PREVENT FIRE

The Snapper

--WORKING BOSS--

He's the "lance corporal" of the industrial establishment, this versatile, journeyman working-supervisor.

The snapper, practically unheralded in his achievements, is not exactly a supervisor, yet he is one. Sometimes called upon to know as much, or more about a specific job than the man in his permanent supervisory rating above him, the snapper occupies a unique position of no little importance.

Not selected through examination or from a register, the snapper is picked for his job on the basis of requirements of the immediate work situation and on his own special qualifications.

The snapper is at the same time a working man, and a supervisor in many cases. He is assigned "on-the-job" supervisory duties with consideration being given to the nature of the work, the degree of isolation from other supervision, and the diversity of skills supervised.

While the overall province of the snapper is important and the effective results of the title are lasting ones, the individual journeymen so assigned are temporary in their position. The move to and from snapper status is not either a promotion or a demotion, and the individual rating continues only as long as the work situation may justify such assignment.

So, when you see the man with the snapper badge appended to the regular picture badge on the shirt of a gent who is issuing instructions, then see another employee so adorned, in the same general area, turning to as part of a direct working assignment, think nothing of it. They are both part of that select fraternity of supervisors in minor settings, who are simultaneously leaders of men, and followers of the trade.

SNAPPER L. F. McCARTNEY, Shop 6237, Blowers, Power Plant Division of O & R, is at present relieving his leadingman who is on leave. He not only supervises the 22 employees of the shop, but puts in a regular day's work on the engine assembly line. At left, receiving instruction as he completes insertion of hydraulic couples for impeller drive of a supercharger, is A. L. Goodale, AMM-4.

SNAPPER R. D. GOW (left), T. J. Haggard (center) and W. R. Breeze, take time out to study the situation. They are replacing an overhauled J-34 jet engine in an F3D-2 Sky Knight. Snappers are utilized in several departments, nearly all divisions of Overhaul and Repair Department as temporary supervisors on specific assignments.

SNAPPER BERNARD E. PUCCINI, (below), in charge of station 6 O & R Assembly Division, adjusts and aligns cowl flaps on Pratt & Whitney engine for a P4Y2 plane... Sometimes cast in the role of supervisors, snappers are more often than not on regular working assignments at the same time.

SNAPPER SIDNEY A. MILLER (right), checks operation of tow-reel equipment with fellow-AMGs M. E. Kocher (center) and E. L. Martin. He is one of the job supervisors of the NAS industrial plant —a group of men who handle working assignments and "double in brass" on leadership details.

SNAPPER ROBERT P. SEDLOCK replaces one of his charges, a shell mill cutter, in the main O & R tool crib, a well stocked, clean and orderly establishment of which he and his assistants are justifiably proud. 500 of these cutters, in varying sizes, are but a small part of the $3,500,000 worth of high grade tools that adorn the walls, fill the shelves of this crib.

VC-11 YEOMAN SELECTED FOR NAVCAD

Reporting to Pensacola, Florida, next Thursday to begin flight training is A. J. Hjella, YN3.

Presently serving at North Island with VC-11, NavCad Hjella enlisted in the Navy January 23, 1951, and was assigned here in July 1951 after completing recruit training. A native of Seneca, Wisconsin, he attended Luther College, Decorah, Iowa for two and one-half years, prior to entering the navy.

NavCad A. J. Hjella

FLYING TOASTMASTERS HOLD INSTALLATION

Friday evening, October 3, the Flying Toastmasters installed their newly-elected officers at a special meeting. Larry Callahan, treasurer of District 5, Toastmasters International, was guest of honor and officiated as the installing officer.

The new officers are CDR William C. Bryan, AIRPAC, president; LT Harry L. Conner, NAS Supply Dept., vice president; LCDR B. L. Harris, AIRPAC, secretary-treasurer; CDR J. W. Antonides, AIRPAC, educational chairman; LCDR E. W. Harrison, AIRPAC, sergeant-at-arms; CAPT J. F. Tenney, AIRPAC, deputy governor.

The meeting and installation ceremony was held following cocktails and dinner at the Naval Station Commissioned Officers Mess. It was attended by 40 members, wives and guests.

LCDR Harrison acted as toastmaster for the evening.

Table topic discussion was conducted by LCDR L. P. Fitzgerald.

Mr. Howard W. Goode of the NAS Industrial Relations Department was formally inducted as a new member.

Weight and Balance Class Offered

Training Division has announced the opening of a new after-hours class in Weight and Balance, for both military and civilian personnel. The class, which will be held on Tuesday and Thursday evenings from 1600 to 1800, in Building 5, should be particularly advantageous to anyone applying for his "A" License from CAA.

NAS Control Tower Operator Praised by CO NAAS Monterey

D. R. Cooper, AC3

D. R. Cooper Wins Recognition for Duty Performance

Aviation controlman Coopers' performance of duty at the Operations tower resulted in a letter of commendation addressed to NAS Commanding Officer from CDR W. A. Sherrill, Commanding NAAS Monterey.

Coopers' action on July 25, as control tower operator, cleared the landing strip of aircraft awaiting take-off instructions enabling two crippled jets to make an emergency landing. CDR Sherrill was the pilot of one of the waiting planes.

The letter, received last week, read:

"The tower operator handled the situation with calmness, clarity and precision—leaving no doubt as to who was in control, yet being courteous and efficient."

Cooper, who hails from Pasadena, said:

"Three to four such emergencies occur daily. Any one of the controlmen on duty could have handled the situation."

Overseas Mail For Christmas Must Go Soon

Washington (AFPS) — Chrismas parcels for members of the Armed Forces overseas should be mailed between Oct. 15 and Nov. 15, the Department of Defense advises.

Boxes headed overseas must be of double-faced corrugated cardboard, strong wood, metal, or fiberboard. Each box should be securely tied with strong cord, and loose flaps should be sealed with gummed tape. Unless completely packed and tightly filled, boxes may be crushed.

Air parcel post packages up to two pounds in weight should be mailed not later than Nov. 25. The Department of Defense says that no assurance can be given that air parcel post mailed after that date can be air-lifted to overseas areas or that delivery prior to Christmas will be made.

Matches and lighter fluid are banned from all parcels in addition to articles normally prohibited in the mails.

ONLY YOU CAN PREVENT FIRE

Skyraiders Battle Army Squad On San Antonio Grid Sunday

Skyraiders Bow to Powerful Pro-Studded 'Jacket Eleven

Coach Tay Brown's "Boots" invaded the Skyraider eleven in full force Saturday here at Towers Field and went about taking complete control, winning the game 53-0. At first it looked as if the Navy gridiron clash of the season was going to be a close one, but once NTC started their football machine moving, there was no stopping them. This is only the second time in the annual battle between these two teams since 1946 that the Naval Training Center has been able to beat the Naval Air Skyraiders.

NTC's Powerhouse

The out-manned 'Raider team showed plenty of fight and spirit, but could not seem to start their attack rolling against the heavier, star-studded "Boot" team. NTC did not win as easily as the score seems to indicate; they had to fight for every inch gained, and when the game was over they knew they had been through a tough gridiron clash.

Touchdowns, Touchdowns!

NTC's first score came in the first quarter when Posey scampered 13 yards to cross the goal line standing. Marachino's extra point try split the uprights. This started the NTC eleven rolling and they kept going. In the second quarter, the "Boots" scored two touchdowns as Posey took a handoff on the Airman 23-yard line and blazed across; Giancanelli bulled his way over from the five-yard line for the second touchdown of the quarter. As the gun went off ending the first half, Aja passed to Gartiser for a 56-yard gain deep in "Boot" territory. The score at the end of the half was NTC 20, Skyraiders 0.

Long TD Runs

NTC's specialty this year seems to be in breaking their backfield away for long runs of 60 yards or more. With the echo of the starting gun for the second half still in the air, Tay Brown's Jim Waddell went blazing down the field for 83 yards and a touchdown. A little later Posey went for his third touchdown of the game around his own left end. Halfback John Freeman followed in his teammates path by breaking lose for 80 yards, ending up across the 'Raider goal line untouched. The final touchdown was set up when the Airmen fumbled on their own 20-yard line and NTC recovered. They quickly proceeded to push the pigskin over the goal line as Earl Stelle scored from the one-yard line.

'Raiders' Offense

The 'Raiders started several touchdown marches, but only succeeded in getting as far as the NTC seven-yard line. The Airman passing attack clicked for a total of 123 yards, while they could only muster up 51 yards on the ground. NTC on the other hand ground out 469 yards against Coach Johnson's eleven.

The 'Raiders' defensive line seemed to hold against the NTC line plunges, but couldn't do anything against the powerful end-run plays pulled by Coach Tay Brown's boys. NTC also completed quite a number of short pass plays right over the middle for continuous yardage.

This week the Naval Air Skyraiders travel to San Antonio, Texas, where they will tangle with the Brooke Army Med. Cntr. eleven.

Skyraiders' Paul King comes to the end of a brilliant run against NTC Saturday. King had intercepted an enemy pass on his own five-yard line and weaved his way 31 yards before stumbling and falling on the 36. NTC players are (No. 88) Bucky Curtis, and (No. 33) Skippy Giancanelli.

Sunday the Naval Air Skyraiders travel to San Antonio, Texas, where they will meet the Brooke Army Medical Center. Last year the Army eleven won the mythical National Inter-Service Championship by teeing off on NTC 17-14. The Brooke team is still loaded with quite a number of last year's stars and up to now is still undefeated.

This will be the Skyraiders chance to get back on the winning side of things. The 'Raiders suffered under the punishment given them by the Naval Training Center this past week, but this might just inspire the Airmen to the point where they will be all the stronger for the remainder of the gridiron season.

'Raiders Passing Attack

A little light is beginning to shine on the Airmen passing attack, as was evident in last Saturday's game. Coach Johnson's team hit for 123 yards through the air while holding the "Boots" to 113 aerial yards. This is the first time this season that the Skyraiders have displayed any of that strong passing attack which they used so effectively against the Los Angeles Rams in their pre-season game. If the 'Raiders can give their pass tosser a little more protection in order to allow him more time to hit his receiver the Skyraiders might develop a powerful passing attack.

The Army Team

Not too much is known about this year's Army team, but from their record they look strong. With most of last year's powerful team returning, they are sure to have a team that will give any opponent plenty of trouble. The Brookes eleven are undefeated so far this season. But if the 'Raiders combine the running attack which they used so destructively against the Cal Ramblers, with the passing attack which they used against NTC, they might give the Brooke Army Medical Center a tough go of it tomorrow.

Skyraiders' Bud Gartiser (No. 60) is on the receiving end of a last-second desperation pass from Manuel Aja on the closing play of the first half against NTC Saturday. Breck Stroschein (No. 84) made the tackle on the NTC 20-yard line after the play had covered 56 yards.

SPORTS

Special Services Announces

Special Services has announced that no longer will fishing boats from the Naval Air Station be scheduled for fishing trips as in the past. The scheduling of these boats has been discontinued until further notice.

Captain's Cup Lowdown

By W. R. SMITH

Continuing their red hot pace, G.C.A. and Planning once more found themselves knotted for the loop lead in Captain's Cup touch football play. G.C.A. and Planning sport unblemished records with 5 and 4 wins, respectively and nary a loss with but two weeks remaining on the current schedule.

Hot on the leaders heels are Special Services and Supply with one loss each.

This week saw four teams dropped from the schedule which necessitated a complete revision of the calendar. This should provide a down to the wire fight for the number one spot. The battle of the giants comes off Friday, Oct. 17, at Murray Field with G.C.A. established as slight favorites to dump the Planning ten. Game time is slated for 1100. In another contest that might prove a deciding factor in the final standings, Planning and Special Services tangle on the mainside gridiron Wednesday, Oct. 22. The winner of the league, from all indication, should be determined from these key contests unless there are some upsets staged before these top teams collide.

All represntatives of teams remaining in the league may pick up their revised schedules at the Captain's Cup Athletic Office, Bldg. 650, between 0800 and 1600 Monday through Friday.

corner on sports

By JOHN PHILLIPS

'Raiders vs. Army Med. Cntr.

Brooke Army Medical Center's gridiron eleven have been long preparing themselves for the coming invasion from the Naval Air Skyraiders this week-end. The Airmen, after losing to NTC Saturday, also went back to the rugged task of getting ready for this week's game against the Army squad. The 'Raiders displayed a lot of fight and spirit in Saturday's game and were not such an easy opponent for the NTC eleven as the score seems to indicate. The fact remains that it was not because the Naval Air Skyraiders were so weak that they lost by such a score, but rather the "Boots" were so powerful . . . due to their great source of material, including eight ex-professional gridders.

NTC's Future Looks Great

Coach Tay Brown's eleven have still held off all the scoring threats thrown against them. The only team to score against the "Boots" this year was the World Champion Los Angeles Rams in the pre-season gridiron duel. Since then NTC has literally run all over the other teams encountered, scoring a total of 210 points in only four games while holding all of their opponents scoreless. The Naval Training Center squad still has the majority of their 1952 schedule ahead of them, seven games to be exact, but may we venture to say that if NTC beats the University of Southern California team this Saturday, they might go through the remainder of the season untouched. This is the same USC team that beat the Army Black Knights of the Hudson by a score of 22-0 last week. But due to game contracts the "Boots" will only be allowed to use five of their eight pro-stars against the USC squad.

Basketball Season Nears

Basketball practice has officially started here at North Island in preparation for the opening game of the 1952-53 season against Miramar on October 19. The basketball hopefuls have been brushing up on their set shots, layups and ball handling in getting in trim for the rapidly approaching season.

Zatopek Still Going Strong

Emil Zatopek sure hasn't let up after winning the Olympic marathon at Helsinki a little while back. The amazing Czechoslovakian triple Olympic winner, ran the fastest 5000 meters of the year last week. Zatopek, who is a Czech Army major ran the 5000 meters in 14:06.4, two-tenths of a second under his winning time in the Olympics.

The Same Johnny Mize

Yes, that was the same old Johnny Mize that has been hitting so strongly in the World Series this year for the New York Yankees. In the first six games of play Mize went to bat 12 times and got three hits . . . but oh, what hits, two homers and a double. For a while there it looked as if mighty Mize was going to make it three home runs, but the long hit ball went foul up into the stands. Mize, despite what people said about him being through when he left the New York Giants a while back, still has that powerful swing and that same sharp eye on the ball.

HS-2 Training Flights Assist Border Patrol

Helicopter pilots of HS-2 have come up with another use for the whirly birds. Pilots on local familiarization flights in the vicinity of Brown field make regular patrols up and down the border on the alert for "Wetbacks," as Mexican Nationals crossing into the U.S. illegally are called.

Ordinarily these wetbacks, upon being spotted by the helicopter pilots, will head back for the border and no further action need be taken. In rare instances the sight of the helicopter fails to start them on the trek back to Mexico. When this happens, pilots contact Ream tower and they in turn contact the Border Patrol. In the meantime, the helicopter remains in the vicinity of the aliens until the Border Patrol arrives and takes over.

All in all, it adds up to a useful assist for the hard-pressed Border Patrol, and accomplishes a dual use of the taxpayers hard-earned money.

Ream Opens Bowling Alley

Last Monday evening marked the grand opening of the ALF Ream two-lane Bowling Alley.

CDR W. G. Knapp, Commanding Officer of HS-4, and LCDR R. W. Henson, Executive Officer of HS-4, were on hand for the opening. HS-4 is in charge of the alleys and CDR Knapp rolled the first ball down the lane.

Building 23 is the site of the alley and will be open from 1700 to 2200 on week days and from 1300 to 2200 on weekends.

'WINGED S' AWARD WINNERS HONORED

"Winged S" emblems and rescue certificates are awarded pilots and crewmen of helicopters by the Sikorsky Helicopter Corporation for a successful life saving operation with a Sikorsky helicopter.

Latest winners of the coveted award, all of Helicopter Squadron ONE, are LT W. K. Martin, LT H. W. Davidson, LTJG R. G. Powell, J. E. Kincaid, AD1, W. H. Williams, AD2, D. G. Froling, AE3, and S. L. Crisp, SH2.

ComFair San Diego Football Champs

REAM FIELD'S ComFair San Diego Football champions, standing from left to right: Larson, Turner, Hudson, Odom, Resh and LT Bergsma, team coach. Seated from left to right: Lindberg, Wild, Tilley, McCarthy, Reid and Bilby.

"WINGED S" WINNERS, all of HU-1, LT W. K. Martin, LT H. W. Davidson and LTJG R. G. Powell in the back row. Front row, left to right: J. E. Kincaid, AD1; W. H. Williams, AD2; D. G. Froling, AE3, and S. L. Crisp, SH2.

ALF REAM SAN YSIDRO, CALIFORNIA

Famed Aviation Pioneer, Inventor, Visits Ream Field

On Saturday, October 4, the holder of International Helicopter Pilot's License No. 1 and inventor of the first American Helicopter, Igor Sikorsky, visited REAM Field at the request of CDR W. G. Knapp, Commanding Officer, HS-4. Mr. Sikorsky was accompanied by Mr. Whalen, General Manager of the Sikorsky Division of United Aircraft Corporation.

IGOR SIKORSKY, inventor of the first American Helicopter, gives his prediction of helicopters to come at a talk attended by officers of Helicopter Anti-Submarine Squadron FOUR.

Mr. Sikorsky and Mr. Whalen gave short talks which were followed by a question and answer session. Mr. Whalen told of the strides which have been made in helicopter engineering and manufacture. He also discussed several new helicopters under construction and improvements in currently manufactured types. Mr. Sikorsky told of the evolution of the helicopter and gave his prediction of helicopters to come.

CDR Knapp conducted Mr. Sikorsky and his party on a tour of the Helicopter Squadrons present on Ream Field.

Variety Show Wednesday

"Spot Varieties," a North Island Production, will play at Ream Theatre Wednesday at 1900. Admission is free.

The variety show will feature local civilian and service talent in an hour and a half production.

HS-4 AT KIDS' DAY IN TUCSON, ARIZ.

An HO3S Helicopter absented itself from the HS-4 flight line during the week-end of September 27 to appear in Tucson, Arizona, as a static display for the multitudes of youngsters participating in the Kiwanis National Kid's Day celebration.

LCDR R. W. Henson, Executive Officer, LT J. W. Ross and P. A. Smith, ADC, did an outstanding job of answering all the kids' questions about the helicopter.

HU-1's UNIT SIX HOME FROM KOREAN DUTY

Helicopter Squadron ONE, Unit 6 returned to Ream Field September 25 after completing a tour of duty in the Korean area aboard the USS BOXER.

Officer-in-Charge was LT W. E. Stephens and sharing the flying duties with LT Stephens was LTJG P. L. Myatt, Jr. other members of the Unit were: J. H. Hopkins, Jr., AD2, PV. W. Peterson, AD3, J. M. Dobbs, AL3, T. H. Griswold, AA.

This Unit assisted in the rescue of personnel who went over the side August 6 during the fire aboard the USS BOXER. LTJG Myatt and Peterson AD3 rescued thre men and directed rescue boats from destroyers to other men in the water.

VS-23 Holds 'Open House' for Families

"THIS IS DADDY'S JOB"—P. J. Nelson, AL1, explains his duties as an aviation radioman to his son Peter, 4, during last Saturday's "open house" for families of VS-23.

VS-23 held its first "open house" for dependents following a personnel inspection Saturday morning. Families of the squadron personnel were given a conducted tour of the hangar spaces and VS-23 aircraft.

Following the inspection and tour, the families of VS-23 were hosted by Commanding Officer CDR J. C. Zirkle, to coffee and cake.

VS-23 has been based at NAS since the spring of 1950. The squadron is an Air Anti-Submarine Squadron that has seen action in the Far East.

CDR Zirkle explained the reason of holding the open house was "primarily to show the families of our squadron personnel the role their husbands and fathers play in the defense of our country."

Answer to Puzzle

VU-3K Softball Team To Receive Awards

Utility Squadron THREE will award its championship softball team with trophies and gold softballs at Captain's Iuspection the latter part of this month.

VU-3 High on Rate Advancements

Over 55 per cent of VU-3K personnel that participated in examinations for advancement to petty officer, were authorized for advancement October 16.

Some seventy-seven men successfully passed their examinations for first, second and third class petty officers. The Education and Information Office of Utility Squadron THREE discloses that 414 men of ComUtWing and VU-3K are now enrolled in Naval Correspondence courses to further their ratings.

VU-3K personnel, who are planning to take the January tests, should make preparation in advance. Recommendation forms should be secured and training courses in various pay grades and rates should be checked out. Any man in the squadron needing help or information should contact the I&E Office at his earliest chance.

VU-3 Casaba Team Defeats HS-2, 60-34

Utility Squadron THREE's casaba team drubbed HS-2, by the one-sided score of 60 to 34, in an intra-squadron basketball game played in the station gym.

The dronemen featured a strong attack with the starting quintet of Hays and Diebler at forwards, English at the pivot spot and Hope the player-coach, Lachowski, starting at guards.

From the first whistle to the last, VU-3's lead was never headed. Getting off to a 17-0 lead by the frequent scoring by English and Lachowski, they left the floor at halftime, leading 33 to 18.

The second half found Lachowski clearing the entire bench with reserves showing themselves well, particularly Davis, Bustamonte, Feser and Wickizer.

'Operation Morale Lift' Begins

The NORTH ISLANDER
U.S. NAVAL AIR STATION
VOL. VIII SAN DIEGO, CALIFORNIA, OCTOBER 17, 1952 No. 42

AirPac's Filmed Xmas Greetings From Families To Men at Sea Started

Again this year, Commander Air Force, Pacific Fleet will film Christmas greetings of Navy airmen's families for showing at sea Christmas Day. "Operation Morale Lift 1951," a full length sound motion picture, proved so successful it was decided to repeat the project.

LAST YEAR, Julia and Gloria Allan did a song and dance routine that was filmed by "Operation Morale Lift" which was shown to their father, Chief Boilerman Howard L. Allan, aboard the Essex last Christmas.

Eligible for filming are parents and the immediate family of men serving aboard ComAirPac carriers and seaplane tenders in the Far East. This includes air groups and squadrons aboard the carriers or serviced by the tenders.

Dependents are requested to mail a post card to:

Public Information Office,
Box 1210 Staff, ComAirPac,
NAS San Diego 35, Calif.
Phone H-36611, Ext. 1362.

On the card list your name, address, phone number, and ship or squadron to which your son or husband is attached. A photographing schedule will be announced at a later date.

All scenes will be shot at the NAS Theatre. As "Operation Morale Lift 1952" begins in a few weeks, dependents are urged to send in their post cards immediately.

"Merry Christmas, Daddy . . . sure wish you were here," was

Navy PO Exam Dates Are Switched To February

Semi-annual Navy-wide petty officers exams dates have been changed from January and July to February and August, the Navy Dept. announced last week.

The next testing period will be on consecutive Tuesdays in February 1953. The order in which examinations are given for the four pay grades also has been altered. The new schedule is listed as follows:

E-7 (CPO)—Tuesday, Feb. 3.
E-4 (PO-3)—Tuesday, Feb. 10.
E-5 (PO-2)—Tuesday, Feb. 17.
E-6 (PO-1)—Tuesday, Feb. 24.

The NAS I&E Division announced that the deadline date to submit recommendations for the February PO exams is November 15. Time in rate eligibility is computed to May 16, 1953 in all rates except CPO which is June 16, 1953.

Deadline, I&E announced, for completion of practical factors and training courses is January 1, 1953.

The February exams will combine both professional and military subjects into one test for each general service rate.

The switch in the dates for the Navy-wide exams was made, the Navy Dept. said, because it had been requested by the majority of tesing officials through out the service.

The February dates also apply to reservists on active duty in the Regular Establishment and those on CAD in Active Naval Reserve billets.

NEW SURVEY DUE FOR HARBOR DRIVE PARKING PATRONS

Results obtained during the recent Harbor Drive Parking Lot survey were not adequate to enable investigators to arrive at a decision, due to the small percentage of response obtained.

A re-survey is planned, to contact those parking in the lot through their respective divisions.

Each person will be given a questionnaire in which they may express their opinions and return the sheet to Employee Services Office through guard mail, via Beneficial Suggestion boxes, or through their Shop Personnel Supervisors.

Purposes of the survey is to ascertain whether or not there shall be: 1. guards maintained for greater security against theft on the lot. 2. Controlled parking maintained, in order to allow greater amount of parking (100 more cars by conservative estimate) daily. 3. Policing of lot for broken bottles, etc.

TICKETS AVAILABLE TO NAS CIVILIAN-MILITARY PARTY

Tickets are available to the NAS Civilian-Military Benefit Party from all division officers and senior civilian supervisors. Each ticket purchased will help finance the station's annual Christmas Party for Children of Deceased Armed Forces Personnel.

Any readers knowing of eligible children, up to and including the age of 14 living in the 11th Naval District, are urged to contact Mrs. Helen Quady in O&R, Ext. 220.

Each year the station sponsors a party for the service orphans, and hosts the children and their mothers to the traditional Navy Yuletide dinner at the General Mess.

Again this year, Hopalong Cassidy will be on hand to give each child his presents personally.

Buffet Featured

A buffet will be featured at the party, plus the outstanding service band in the 11th Naval District. The ComCruDesPac dance orchestra under the baton of Chief Musician R. Dale Clendenon will play from 2000 till?

Valuable Door Prizes

Among the valuable door prizes to be given away at the party will be a popular console television set, a radio alarm clock and an electric roaster oven.

The party will be held at the recently constructed NAS Beach Facility pavilion, and will mark the first joint civilian military party ever held at NAS.

COMCARDIV 15 TO HAVE PARTY

The enlisted staff personnel of ComCarDiv 15 will hold a dinner-dance at a popular spot in Chula Vista tomorrow evening at 1930.

A barbeque chicken dinner will be followed by an evening of dancing for the 80 participants of ComCarDiv 15, including their guests.

Philippine Sea Receives New CO

Captain Paul H. Ramsey, assumed command of the aircraft carrier USS PHILIPPINE SEA Saturday in ceremonies at North Island.

The former commanding officer, Captain Allen Smith has been ordered to duty in Bermuda as Commanding Officer, Naval Air Station. Captain Smith took the PHILIPPINE SEA into Korean combat after assuming command in February, 1952.

Vice Admiral Harold M. Martin, ComAirPac, addressed the officers and men of the carrier during the ceremonies. The PHILIPPINE SEA was Admiral Martin's flagship when he was Commander, SEVENTH Fleet.

Captain Ramsey previously was Commander Heavy Attack Wing ONE under Commander Air Force, Atlantic Fleet. During World War II he was skipper of Fighting Squadron TWO aboard the aircraft carrier USS LEXINGTON. Participating in the Battle of the Coral Sea, he personally destroyed three and damaged two enemy aircraft. This action earned him the Navy Cross.

Commissary Store Closes Oct. 30 For Inventory

The Commissary store will be closed on Thursday, October 30 for inventory purposes. The store will re-open on the following day at 0830 and run through regular hours.

350 Cub Scouts Given Fire Demonstration at NAS

SOUTH BAY SCOUTS HOSTED HERE AS FIRE WEEK ENDS

Over 350 Cub Scouts from the South Bay area and children of North Islanders were hosted by the NAS Security Department Saturday afternoon as the week-long observance of Fire Prevention Week reached its climax.

Fire Prevention Chief M. R. Smith and his department staged several simulated air crash fires and methods of combating the fire as well as fire rescue drills. The children were also given fire prevention tips and talks by the NAS fire-eaters.

NAS Security Officer, LCDR J. C. Hale, said:

"The station fire department believes that each child should know the dangers of fire and the methods of preventing fires. Fires that are prevented result in countless lives saved and untold dollars saved. We were very happy to host these fine youngsters and we know that they learned a little more about fire prevention as a result of Saturday afternoon's demonstration and tour of our fire-fighting facilities."

1952 'Operation Morale Lift' Started

(Continued from Page 1)

chirped over and over by tiny tots wishing proud papas happy holidays. Smiling through tears, wives and parents wished a speedy return to their loved ones.

A cozy living room complete with a brightly-lit Christmas tree surrounded by colorfully wrapped presents, furnished the setting for the movies.

Each ship's film opened with the families on stage singing Christmas carols to the accompaniment of ComAirPac Band. A master of ceremonies introduced each family and a clown amused the children and lessened stage tension.

"Actor's" ages ranged from an 85-year-old grandmother to a three-day-old incubator baby whom "Daddy" had never seen. Navy cameramen photographed the tiny girl and her mother in the hospital corridor.

There were several hundred families, averaging three to a family, photographed during "Operation Morale Lift 1951." The completed film was processed and flown to the ships for showing Christmas Day.

CLOWN "CEE CEE" PITTS, PHC, Fleet Air photographer, as chief jester for the "Morale Lift" brought mirth and merriment into the hearts of dozens of toddlers while scenes were being shot. A veteran clown of 20 years, "Cee Cee" will again serve in this comic capacity this year.

Chaplain's Corner

If You Drink To Excess

"First build a bar in your own home and be the only customer. Then you have neither license nor protection to pay. Give your wife six dollars to buy the first quart of liquor, remembering there should be at least 16 drinks in the quart.

"Buy the drinks from no one but your wife, and pay at the rate a bar would charge. By the time the first quart is finished, she will have six dollars to put in the bank and six dollars to start business again.

"If you live ten years and continue to buy from her, you can then die of delirium tremens and she will have plenty to bury you, educate your children, marry a decent man and forget the misery you brought her."

FATHER J. P. MURPHY,
Catholic Chaplain

MEL "THE FACE" THORNTON will play the lead in "Comin' For To Carry," which will be shown October 24 at 8 p.m. in the Veterans' Memorial Bldg., Balboa Park. The evening's entertainment marks a renewal of the spirit of cooperation which marks the activities of Pacific Beach and North Island American Legion posts. Thornton, an O & R employee, and for years a leader in Pacific Beach Post 552's program, brings this Negro folk fantasy, to North Island Post 753 as a key point in the fall entertainment schedule of the latter post. The play written by Walter Carroll, was well received by enthusiastic audiences during its recent Pacific Beach showings under the auspices of the Little Theater group of that community.

November Safety Slogan Contest Starts This Week

The North Island Association has designated the Plant Housekeeping aspect of safety awareness as the subject for emphasis in the new safety logan contest which begins today.

Does good housekeeping in your shop or office concern YOU? A janitor or cleaner cannot keep his assigned area clean and orderly, the basic requirements of good housekeeping, without the cooperation of every person in that area. Aren't you involved if material is piled haphazardly on shelves, lockers, file cabinets or anywhere else above you in the shop or office? If you put it there or happen to knock it down, you're really involved. You're equally responsible if you don't rearrange or report such a condition. Incidentally, good stacking procedure calls for a firm foundation, layers cross-tied and straight sides to the stack.

What about scrap or dropped materials in the shop, office or aisle? Pick up your own and any overlooked objects in this class and you've eliminated slips, trips and falls as well as wrenched legs and backs resulting from stepping on things that don't belong on the floor. That could be your own injury you prevent, couldn't it? Wipe up spilled materials immediately and you've closed another avenue to the hospital.

In the office put your heavy material in the bottom file drawers and keep all drawers closed. Beware of those telephone and office machine electrical cords, you'll trip on them sooner or later if they're not fastened back out of the way.

You know all of the details of housekeeping for injury and fire prevention. Pick up trash, keep your area clean and orderly and good plant housekeeping is achieved. Now, how about improving your area and expressing the idea in a slogan? The NIA will award a $10.00 first prize and two memberships this month for the best three slogans on good plant housekeeping practices. Just drop your completed blank in a Benny Sugg box for awards in terms of cash and recognition.

United Fund Drive

What Is the Heart Association?

One of the four components of the 1952 United Fund Drive currently being held on the Naval Air Station is the Heart Association. Funds for this worthy organization are gathered through a direct solicitation under ordinary circumstances, but will this year be allocated on a percentage basis from the combined money total of the United Fund Drive.

Dr. Anton S. Yuskis, president of the San Diego County Heart Association, recently announced that the 1953 campaign will be to raise $60,000 in this area, for the necessary research to combat heart disease. This is $10,000 higher than last year's goal. Dr. Yuskis, at the quarterly meeting of the Association, introduced George A. Scott, chairman of the fund drive, who outlined the need for the Association's activities.

"The heart fund campaign has become the great health crusade of the modern age," Scott said. "Here in our own county, we suffered a toll last year alone of 1,899 deaths due to diseases of the heart. With that appalling scourge upon us, it becomes vitally important for all of us to give 100 per cent support to the Heart Association's Drive to conquer this number one man killer."

SAN DIEGO'S LEADING SERVICE ORCHESTRA, the ComCruDesPac Band, will play for the first joint civilian-military party to be held at NAS. The party, November 7 at 2000, will raise funds for the annual NAS Christmas Party for Children of Deceased Armed Forces Personnel. Many valuable door prizes and a buffet dinner will highlight the evening's festivities in addition to the dance band under the baton of Chief Musician R. Dale Clendenon. Tickets are now on sale and may be had by contacting your division officer or senior civilian supervisor. The North Island Association has named a committee of six, under the chairmanship of Mrs. Isabel K. Smith, to assist the Benefit Party Committee in selling tickets. The big dinner-dance will be held at the recently constructed NAS Beach Facility Pavillion.

Silver Strand Toastmistresses Sked Meet Oct. 28

The Silver Strand Toastmistresses will hold their regular monthly meeting October 28 at the La Avenida cafe, Coronado.

Arrangements are being made for the group to meet with the North Island Toastmasters at this organization's next scheduled meeting.

The Toastmistresses are encouraging new memberships in the organization. Women interested in the club's program are asked to call the Toastmistresses' president, Mary O'Shea, Electronic Div. employee, at W-0226 evenings.

Coronado VFW To Hold Free Service Dance

The free monthly dances for service personnel which were successfully sponsored by the Henry D. Styer VFW Post and Auxiliary last year will be resumed again, the Coronado Post announced.

The first dance is scheduled for Tuesday, October 28, at the VFW Hall, 557 Orange Avenue, Coronado. The dance features the ComCruDesPac band, entertainment and refreshments.

NAS enlisted personnel and their wives or dates are cordially invited to the series of monthly dances. A group of junior hostesses will also attend the dance.

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

This column has received many questions concerning Political Activity of Federal Employees. For general clarification of this subject your attention is called to the latest poster now on all Official Bulletin Boards, titled:

"PARTISAN POLITICAL ACTIVITY RESTRICTED BY LAW"

Activities are responsible for acquainting employees with the information that:—

a. There is a legal prohibition against active participation in political activities, as defined in Warning Poster, CSC Form 1982.

b. It is the duty of any employee having knowledge of a violation of the law to submit the facts to the U. S. Civil Service Commission, Washington, D. C., to the Chief of the Bureau or Office, or to the Commandant or Commanding Officer of the activity.

c. The penalty for violation of the law is removal, or suspension without pay for not less than ninety days.

Q. Will I be allowed time off to vote?

A. So far as practicable, without interfering seriously with production, employees who desire to vote at communities where they maintain voting residence, except where voting by absentee ballot is permitted will be excused for that purpose, without charge to leave for a reasonable time on all election days. Employees living within commuting distance of employing activities should be excused to vote, without charge to leave, regardless of the absentee voting laws of the states in which they live. Absence for voting will not exceed the time actually required to vote and in no event will it exceed one working day.

Q. I am a federal employee. Can my wife or husband participate in political activity?

A. Employees are accountable for political activity by persons other than themselves, including wives and husbands.

It's 'Six' for 'Seven' But Only Another Hard-Working Day

The O&R (junior grade) of North Island, Fasron 7, began its seventh year Wednesday as service and maintenance unit for carrier-type aircraft of the fleet.

For the 809 personnel of the fleet aircraft service squadron, the occasion was not marked by any festivities. Rather the "keep 'em flying" atmosphere prevailed, with a line of F9F's currently undergoing 120-hour checks.

Fasron 7's history actually goes back to an earlier date than October 15, 1946. It was on that day that CASU 5 (Carrier Aircraft Service Unit), which was formed in the early days of World War II, was transformed into the NAS-based Fasron. Only one person who was with the CASU has remained with Fasron 7 throughout its six-year history. W. D. Matott, ADC, holds the distinction of being the senior enlisted man both from the standpoint of length of service with the squadron and with the Navy. The chief has completed nearly 35 years of active duty.

PARACHUTE rigger E. L. Smith, PR1, hangs up chutes to dry in the Fasron 7 Fleet Parachute Loft.

The fact that the squadron, since its inception, has serviced hundreds of fleet aircraft should not lead one to conclude that this is its only function. There are numerous other vital functions which the unit performs for the fleet.

All parachutes on North Island are packed in the Fleet Parachute Loft—a large department operated by Fasron 7. Parachute riggers working at the loft are personnel of Fasron 7, NAS, and supported units.

Extensive survival training for units on the station is also conducted by the squadron under the direction of LCDR C. E. Bishop. The program for pilots and aircrewmen includes lectures, films, and demonstrations with equipment used in land and water survival.

This training is climaxed under simulated conditions which pilots and crews might face if forced to abandon planes over hostile territory. Classroom knowledge is given practical application in a desolate mountain region east of San Diego, where trainees spend several days "living off the land," and returning with valuable experience which may save their lives at a later time.

F9F JETS from a carrier air group receive their 120-hour checks from Fasron 7 mechanics. One of the largest aircraft service squadrons in the Navy, Fasron 7 services and maintains carrier-type aircraft and other utility and administrative craft from the fleet as may be assigned.

Serving all squadrons on the station is the Instrument Flight Training Dept. Another Fasron 7 activity, IFTD operates on a heavy daily schedule; its pilots flying SNB's and TV-2 jets. Proficiency in instrument flying is offered to Navy pilots through the department's program. Both a ground and flight syllabus are conducted for pilots working for instrument ratings.

This, however, is only a partial description of the many activities which the O&R (JG) performs in addition to its king-sized job of servicing and maintaining fleet aircraft. Four other departments do significant work at North Island and elsewhere.

Detachment "Able," a Fasron 7 mobile outfit, operates at NAS El Centro to give logistic support to fleet craft temporarily based there.

The squadron's Operations Department maintains 19 of its own aircraft for proficiency and administrative flights for fleet pilots in the San Diego area.

Interior construction work for squadron spaces, building of training aids, and a variety of repair work is performed by the squadron's carpenter shop for all fleet units at North Island.

Balancing and replacing seals on propellers as well as other repair jobs for fleet craft in the area is the job of the Fasron 7 Propeller Shop.

Since the majority of enlisted men in the squadron are working in aircraft rates of a technical nature, thorough preparation is encouraged by Fasron 7's I&E Division. The fact that its personnel have signed up for 1025 correspondence courses is ample testimony to the widespread enthusiasm for general and specialized education in the squadron.

Immediately after joining the squadron, officer personnel are required to take a course in the Uniform Code of Military Justice. Enlisted personnel are urged to take this correspondence course with supplementary lectures.

Boasting one of the largest and best equipped recreational programs, Fasron 7 offers a variety of leisure-time activities to its personnel. Two modern recreation rooms are complete with television sets. While the Special Services Division has the usual sporting gear found in most squadrons, it has camping and fishing gear which few can equal. Sleeping bags, cots, camp stoves, tents, outboard motors, and deep-sea and fresh water tackle are only a few of the items avaiable to its personnel.

CAKE CUTTING ceremonies marked Fasron 7's sixth birthday last Wednesday. Cutting the cake is the squadron's commanding officer, LCDR Norbert A. Commons. With him are W. D. Matott, ADC, who with 35 years of service has served with Fasron 7 during its entire six-year history; LCDR W. B. Auckland, executive officer; and F. W. Molitor, SA, newest member of the squadron, reporting last Friday.

CHECKING out fishing gear from Fasron 7 Special Services Chief James G. Gray, ADC, is Harvey R. Moore, SA.

WOODPICKERS HOLD ON TO CELLAR SPOT IN MIXED LEAGUE

Departure from the usual fanfare about first place and runner-up squads might be refreshing. So——jolting along with rabbit ears and an occasional gutter-flirter, the Woodpickers gamely held onto the bottom place in the Civilian Mixed Bowling League Tuesday night.

Friendly Five managed to trail the 'Pickers closely by a three-game margin in the cellar battle, while Question Marks, the sixth-place squad, virtually lost all hope of finishing last, soaring to within one game of fifth place.

Mixups, until last week seriously threatened with taking over the lead, managed to drop four points hard, to get into the battle for the second division of the loop. They fell nicely from second to fourth place, and seem to be going places at last.

Former NAS Employee Becomes Air Stewardess

Laurel Bowie, former NAS employee in the Beneficial Suggestions Office and Communications Office, is now employed by a civilian airline as a flight stewardess. She is on a scheduled run between Forth Worth, El Paso, Memphis and Milwaukee.

Miss Bowie began her tour of employment at NAS in April, 1951,

and left the station in August of this year to begin her stewardess training in Chicago.

LOSE YOUR SHIRT?

Matter of fact, have you lost any articles of clothing during the past 4 to 6 months at the E.M. Locker Club?

Several articles have been recovered, and are available for identification at the N.A.S. Security Office, Bldg. 415.

People With Plenty Of Horsepower

The POWER PLANT DIVISION was formerly known as the ENGINE OVERHAUL DIVISION but the name was changed to conform with other Naval activities. Many people can't understand why this Division is called Power Plant when it overhauls engines—the answer is that the engine is the POWER PLANT of an airplane—simple explanation! This name, Power Plant, does lead to confusing situations—ships tying up at the quay wall sometimes call up asking to be furnished power while in port. There is a Power Plant utility station to furnish electricity, steam, etc. to these ships—and it doesn't overhaul engines! No wonder some people get confused.

powerplant paragraphs

By B. DREHER

The Power Plant Division is responsible for performing overhaul, check and test, minor repair and preservation of aircraft engines and their components and accessories.

The Division is divided into three branches — 6100 shops comprise reciprocating Branch shops where engines are prepared for installation in test cells and upon completion of satisfactory tests, these engines are routed to the preservation shop for final check and preservation and then go to the canning shop. In this group also is the Auxiliary Power Unit shop which dis-assembles and routes all types of auxiliary power units for cleaning, repair, overhaul, and modification as necessary. The units are then examined, reassembled, tested under load and preserved as necessary. The Minor Repair shop is just that—here the engines having minor discrepencies are dissambled, examined, routed for repair, modification, and eventually reassembled.

All necessary modifications are made and discrepencies corrected on engines to be installed in aircraft undergoing overhaul or modification. Turbo Supercharged shop overhauls turbo superchargers and is located in Minor Repair shop area.

The 6200 Branch shops are known as the Processing Branch shops. This group consists of Disassembly where engines are received, uncanned, depreserved and disassembled. Parts are then sent to the Cleaning shops for wire brushing, seed blasting, varsol spraying, and Metal spraying. The Parts Examination and Routing shop is divided into three parts and this shop examines, routes, dispatches, and performs major-part inventory on all engine parts leaving Shop 6201. Engine parts are magnetically and visually inspected for damage and survey and inventory lists are compiled. Parts and materials are routed to and from all rework shops to the finished parts pool, Shop 6031.

The sub-assembly shops overhaul pistons and rings, cylinders, crankshaft and power cases, nose sections, blower and rear sections before the disassembled parts finally wind up on the Final Assembly Line. On the upper deck are located the Accessory Shops—Carburetors, Regulators, Rotating Electrical Equipment (magnetos and distributors and igniter plugs) spark plugs, and ignition harness. In the Process group is also the Welding, Metal Repair and Alrock or Aladine processing shop; the Salvage shops, the Standard Parts Reclamation shop where all nuts, bolts, screws, small brackets and clamps are sorted, checked and assembled to be reused by sub-assembly and final assembly shops.

There is also a Hospital Shop which checks and corrects minor discrepancies of engines rejected as a result of failure to pass satisfactory test on test stands and a Machine Shop where engine parts and cases are repaired and modified by use of lathes, mills, drill presses, grinders, buffers, balancing machines, etc.

The third Branch is the 6300 or Reaction Engine Branch—jets, in other words. This branch disassembles jet engines and the parts are run through the sub-assembly shops and on to final assembly and then are dressed for ground test. The sub-assembly shops naturally have different names—they are the compressor, turbine assembly, combustion chamber assembly, accessory case assembly and accessory overhaul shops.

The reaction minor repair shop makes necessary minor repairs on all major overhauled engines rejected from test so that engine will complete a satisfactory test and meet all requirements listed in overhaul manual under engine test section. Low-time engines from Supply & Fiscal are repaired in the Minor Repair Shop, also.

THEY START with dis-assembly, as the engines enter the overhaul process.

JET ENGINES come in for their share of attention in up-to-date Power Plant shops. This J-42 unit is being adjusted as it passes through Shop 6322.

The Vicious Circle

In the Power Plant Division
Building Three Seventy Nine
They overhaul the engines
On a long Assembly Line.

As you walk into the building
By the northern central doors
You'll find the clocks and time cards
For employees on both floors.

Now in Navy terminology
A floor is called a deck
But you got to make exceptions
When you write this stuff—by heck.

At the northwest of the building
Is shop sixty two-o-one
Here all types of engines enter
And disassembly work is done.

Then the parts are segregated
And put on conveyor lines
To receive a thorough cleaning,
Amidst "No Smoking" signs.

The next shop is entrusted
With inspecting all the parts
This is done with skill and dispatch
Before sub-assembly starts.

Of course all parts are processed
They're ground and polished too
And paint and plate must be applied
To make them look brand new.

And then they're routed to the "pool"
A shop where congregates
The parts they've gotten ready
For future sub-shop dates.

Of the sub-shops there are many
Blowers, nose and crankshaft too,
Then there's cylinders and pistons
To mention just a few.

These shops do sub-assembly
Within a scheduled time
And send their finished products
To the final assembly line.

As each engine is assembled
It is taken to the stands
To receive required ground tests
From Power Plant's hired hands.

If it's red tagged by inspection
To minor overhaul it's sent
To be rechecked and corrected—
So inspectors will relent.

When all tests are satisfactory
Engines are preserved and canned
And everyone is happy
To have sold them off the stand.

Now these completed engines
Are turned over to Supply
And issued to the squadrons
To keep them "flying high."

The squadrons use the engines
A certain stated time
Then send them back for Overhaul
In Building Three Seventy Nine.

—B. D.

Six Other Divisions Share 379

There are several shops located in the Power Plant Division which belong to other O&R Divisions but are located in Building 379 for convenience of operation. STRUCTURES AND FINISH is represented by the Paint and Plating shops. The MATERIAL DIVISION has charge of the Parts Procurement Unit and adjacent Storeroom as well as the Toolcrib. The Bearing Shop, under the direction of the MACHINE DIVISION, processes bearings not only for the Power Plant Division but for the entire Island as well. PLANT DIVISION representatives in the building keep machinery in working order, PRODUCTION CONTROL's group does scheduling and keeps parts rolling and the INSPECTION DEPARTMENT sees to it that engines are turned out in conformance with Bureau of Aeronautics specifications.

BACK TOGETHER after journeying their various ways through Power Plant shops, the engine parts gleam with newness are ready for many hours of flight service.

NAS BUS M.A.A. DECORATED

"For valiant service of braveness on the school bus," reads the citation received last week by Dale E. "Red" Whiting, CMCN, master-at-arms on the morning bus run which takes North Island kids to school in Coronado.

Tied with a bit of red ribbon and accompanied by a star pendant on a "ribbon" resplendent with bottle caps representing four leading soft drink manufacturers, the citation was signed by Craig Jennings, Bob Beck, Bill Schoech, and Walter Rodee, Jr. The "medal," bearing the inscription "hero" in No. 2 graphite, was the work of George Wheelock.

Spirit of the presentation, while all in fun, embodies to a marked degree the confidence the school children have in the ability of the guardians of their safety to and from their homes each day.

DECORATION CEREMONIES were attended by, left to right: Craig Jennings, Bob Beck, MAA Whiting, and George Wheelock.

Tool Room Tops 815 Scratch Loop

Tool Room led the Civilian 815 Scratch League in bowling after last Friday's play, holding an 11½ win, 3½ loss mark, and a game and one-half margin over the Layout and Yankee outfits, tied for second.

High individual game was recorded by H. Greena, Masterswitch who turned in a 205.

Disbursing Moves to Bldg. 334

Moving Saturday from its present location in Bldg. 8 Annex, the NAS Disbursing Office will be open for business in its new quarters Monday, LTJG C. W. Janes, disbursing officer, announces.

Disbursing's new location, on the North side of Bldg. 334 first deck, will offer auto parking space for persons transactiong business. Pay windows will be located on the building's loading ramp on the north side.

The civilian disbursing office, the bond distribution desk, as well as NAS military disbursing will be combined in the new quarters.

The move will result in some changes in the time-schedule on the November 3 NAS military pay day, said LTJG Janes. The revised schedule will be circulated in a station notice and published in the October 31 issue of the NORTH ISLANDER.

DON WARF AWAY FOR SCHOOL

Don Warf, manager of the Navy Exchange Retail Store, is at present at the Navy Ship Stores Office, Brooklyn, for a two weeks course in management. He will be back on the job Monday morning.

Early Reports Favorable on Fund Drive

Early reports show favorable progress for the North Island United Fund Drive, but additional impetus is needed to achieve complete success, according to LCDR J. L. Morrissey, drive chairman.

"Remember," he said, "that this campaign is to cover the needs of not just one, but 59 separate charities, welfare groups, and youth services throughout the community. It is everybody's opportunity to lend a hand to his fellowman—to aid the deserving and the unfortunate."

Personnel are again reminded that they may still add to their pledges, help the United Fund Drive to go over the top on the Naval Air Station, and eliminate the necessity of returning to the more cumbersome system of separate fund drives for each of the several agencies involved.

Fifty-six separate Red Feather Community Chest groups including the USO, the American Cancer Society, the Heart Fund, and the American Red Cross, will share in the proceeds of the campaign now being carried out. Contributors may specify which of the various agencies they wish their money to go to.

"Give where you work."

USS Mississippi Hold Reunion

The fifth annual USS Mississippi reunion will be held on Saturday, October 25th, at the US Naval Station, Building No. 71, Long Beach, California.

Refreshments from 1400 until 2000, dinner at 1800 and dancing to Frank DeVol's orchestra at the Lido (formerly Majestic) Ballroom round out the schedule. Reservations must be made and in the hands of the secretary before October 15th. He may be reached by writing or phoning Jack Campbell, 16616 Normandie Avenue, Gardena, California, telephone MEnly 4-1983.

Another Fish Story

RAY BUBEL, North Island employee, takes his fishing seriously, as may be seen by his recent catch, a 173 pound marlin swordfish, brought in September 27.

Airmen VS. Fort Ord

Skyraiders Lose to Brooke Army Med. Center Squad, 9-0

The Brooke Army Medical eleven beat the Naval Air Skyraiders last Sunday in a game played under the hot Texas sun at the Alamo stadium in San Antonio. It was a heartbreaking game for the 'Raiders who were beaten by two flukey plays which turned out to be the deciding factors of the gridiron contest.

The 'Raiders marched deep into BAMC territory quite a number of times, once going down to the Brooke 7 yard line, but all of these threats failed to materialize. As the statistics show it was a close game all the way, with the skyraider defense holding the Brooke Squad to little gain.

Brooke Team Scores

Materializing on the breaks thrown their way Sunday the Army squad barely managed to come out on the winning side of a 9-0 score. The first score of the game came in the first quarter after the Airman had intercepted an Army pass to end a Brooke touchdown drive. With first and ten on their own 2-yard line a 'Raiders pass from center went through the backfield and out of the end zone for an automatic safety and 2 points for the Brooke Army Medical eleven. The Skyraider kickoff from the 20 yard line was taken by a Brooke gridder who ran it back to the Army 48-yard line. The BAMC squad promptly started a touchdown drive, but this was again halted as "Trigger" Phillips intercepted a Brooke pass on the Navy 36 yard line.

The lone touchdown of the game came in the third quarter when Hulsey quick kicked from deep in 'Raider territory. The punt was taken by Brooke's Billy Howe on the fifty yard line, who in turn sped down the sidelines and over the double stripe line for 6 points. Randall Caly kicked the extra point to make the score 9-0 in favor of Brooke Army Medical Center.

Bighead Attempts Field Goals

In the first period with the ball deep in Army territory Bighead attempted a field goal from his own 15 yard line but the pigskin failed to split the uprights. Later in the game Big Jack again attempted a 3 pointer, with the ball sailing just inches wide of the goal posts.

'Raiders Attack Fails

The Naval Air Skyraiders moved deep into Army territory several times, but each touchdown drive failed to materialize into a score. Using both a "T" formation and the single wing with a balanced line the Airmen ground out 166 yards to Brook's 168 yards.

Game in Figures

	Naval Air	Brooke
First downs	9	11
Yards rushing	166	168
Yards passing	77	138
Passes attempted	14	31
Passes completed	6	10
Punts average	43	37
Punts number	10	8

RICHARD PINK of the Special Services intermural football team stretches for a pass which has just been deflected by a member of the Metal Machine squad. Special Services won the close rough intermural game by a score of 34-32. The grid contest was loaded with tricky passing plays and featured plenty of long runs by both teams. At the time of this article Planning is in first place in the league with several other teams running a close second.

Fourth Annual Golf Championship Sked

The Fourth Annual Naval Air Station Golf Tournament is scheduled for October 25 and 26 at the Tijuana Golf Course between the hours of 0730 and 0930. This is a tournament held for all golfers of the Naval Air Station and its Satelites, military men and women and civilian men and women.

This tournament will be medal play, divided into four flight (no handicap), and one ladies flight. All players must have a Naga or Nacra handicap or a handicap at a golf course in San Diego County. In case of ties the games will be played off on any desired course over 18 holes, prior to darkness on November 2, 1952. Trophies and other prizes will be awarded the winners.

It is still not too late to enter this fourth annual Golf Tournament and interested persons are urged to contact Chief Szuch at Ext. 1080 or Chief McClaughlin at Ext. 1443.

Winter rules will prevail and will be played in accordance with the 1952 U.S.G.A. rules. Any fraction of the rules, which cannot be settled by the players, shall be referred to the rules committee.

Towers Gridiron Scene of Fort Ord, Skyraider Battle Tomorrow

Tomorrow the Fort Ord Warriors invade North Island's Towers Field to tangle with the Naval Air Skyraiders in what promises to be one of the top gridiron battles of the season. This might be the 'Raiders chance to get back on the winning side of things after having lost the last two straight games to the Naval Training Center and the Brooke Army Medical Center squad.

Injuries Hits 'Raiders

The last two gridiron contests that the Skyraiders played were tough ones causing plenty of injuries to several key men. In the NTC game the Airmen took a beating, losing to the powerful "Boots" by a score of 53-0. Gus Mancusso, one of the 'Raiders hardest running back and scorer against the Los Angeles Rams, received a shoulder injury in the NTC game and was not able to play against the Brooke eleven Sunday and still may not be able to go in this week's encounter. Bud Gartiser, "Trigger" Phillips and several other Skyraider starters received injuries in the BAMC game and might also be watching the Fort Ord game from the bench tomorrow which will weaken the team considerably.

Airman Defense

The 'Raider defense is probably the strongest part of the Airman team, as they have shown in past contests. The Brooke Army team failed to crack the 'Raider defense all afternoon. All the points scored against Coach Johnson's team Sunday were scored while the offensive team had the ball. The squads that have encountered this defensive line have found it a tough one to crack and even the strong "Boot" eleven found it hard to penetrate through the Airman line and were forced to run around it instead of through it. Now if the Naval Air team could get their offense really moving they might bounce back to even up their record a little.

The Fort Ord Squad

The Ford Ord eleven have displayed quite a bit of strength this season, in a game against the Brooke Medical gridders they combined a strong passing attack with an equally strong running attack to come out on the winning side of a 7 to 6 score. Sims, Logorio, Ted Case and Jim Kannaana will start for the Warriors, while Vernon Baxter, John Helwig, Ray Lutterman, Fred Robinson, Clude Atkins, Lauren Johnson and Bill Robinson will compose the first string line.

Last year the Warriors ran up a 10 win 4 loss record and were victors in two post-season bowl games. The Skyraiders ended the season with seven wins and two defeats.

Lt. Kenneth E. Anderson has been assigned the task of coaching the 1952-53 Skyraider basketball team. Coach Anderson hails from the state of Iowa and first entered the Naval service in January of 1943, after having attended the University of Nebraska. Mr. Anderson was discharged in 1946, but was recalled to active duty in May of this year, whereupon he reported to North Island for duty.

SPORTS

BOXING NOTES

There is still a need for boxers in all weight divisions on the Naval Air Skyraiders Boxing team. Anyone interested in trying out for the team should contact Coach Goudy at the AirPac Athletic Office.

Captain's Cup Lowdown

By W. R. SMITH

The Captain's Cup football title is up for grabs. This week's play saw two of the major contenders for the laurels being knocked down a notch in the standings as Special Services bowed to the Marines, 34-27, and G.C.A. was dubbed by a fast moving Supply team. This pair of upsets vaulted the Supply men into a temporary lead over the on-rushing Planning squad. Grab your hat and sit tight, from all view points it looks like a photo finish is in the offing.

In other contests this week, Special Services salvaged a 34-32 victory from a supposedly weak Metal Machine outfit. The play was highlighted by the fine pass catching of Richard Pink of Special Services, and the dogged defense of the Machine six.

The deciding TD came as a result of a 60-yard run back of a kickoff by Special Services, Stewart.

Metal Machine started off the week in grand fashion with a decided win over the oBathouse crew.

The oBathouse men also suffered a severe drubbing by the classy Planning team, 50-0.

Time is running short in the football wars as only five games remain to be played on the schedule.

Bowling

All divisions are reminded to turn in a 10-man bowling team roster to the Special Services Athletic office by October 20 as the bowling league is now in the process of being formed. Two teams of five members each may be entered by each division. For information call e xt. 1080 or 1065 before October 20.

corner on sports

By JOHN PHILLIPS

Basketball Material Needed

Basketball season is just around the corner, but the need for material on the Skyraider squad is still great. If anyone can visualize themselves as a second George Mikan or think they might be able to fill a pair of the 'Raider sneakers they are urged to contact Coach Anderson at the main gym. Several of the hoopsters from last year's squad are returning for action, but material for the team is still scarce.

This Week's Game

Tomorrow, when the Skyraiders tangle with the Fort Ord Warriors they will have to display a lot more offensive power than they have done so far. The Airman eleven can never seem to get their passing and running attack to click at the same time. In one game they will gain most of their yardage through the air and very little on the ground and in the next game it will be just the opposite. The 'Raider team has the defense, now if they could get that offense moving they might overthrow the Fort Ord eleven. The Warriors beat the same Brooke eleven that we lost to last week by a score of 7-6. Fort Ord defense could not hold the Brooke Army team scoreless while our defensive squad did manage to hold down the Medical squad to no score. The one and only touchdown against the Airmen was scored on a fifty-yard punt return against the offensive team. The Ord team boasts plenty of power but has never looked especially strong this season. They lost to the Naval Training Center by a score of 54-0 in the early part of the season.

An interesting fact to note is that in the past several years the Fort Ord Warriors have been unable to beat any of the Eleventh Naval District gridiron teams. There is always a first time for everything but may we venture to say that this Saturday the 'Raiders might come back and uphold that unbeaten record that the district teams hold against the Warriors.

NTC's Record Upset

The powerful, pro-studded "Boot" team from the Naval Training Center lost for the first time this season to the University of Southern California in a close, hard fought contest. USC drew the first blood of the game scoring 13 points in the first quarter on a 64-yard punt return and an interception. The Trojans could only muster up one first down in the first three periods of play against the strong defense thrown against them by the "Boots." In statistics the Naval Training Center really outplayed the same University of Southern California team that beat the West Point Cadets the week before by a score of 22-0. Bad breaks caused the Training Center to lose the game by a score of 20-6 in a gridiron clash that was watched by some 40,137 fans at the Los Angeles Coliseum.

ALF REAM SAN YSIDRO, CALIFORNIA

'Ballin' the Jack' Variety Show a Hit!

"Ballin' the Jack," Variety Show played to an enthused audience at the Ream Theater on Wednesday, October 8.

Skip Young from NAS Special Services was M.C. for the show and filled in between acts with comedy.

Chorus line started with the theme song "Ballin' the Jack" and was followed by Rusty and Linda, a song and dance team ages 3 and 4 respectively.

A vocal solo, "Seasons," by Ollie Kittleson with girls of the chorus line representing different seasons followed.

Dee Ann Johnson, that little Mae West gal, made the audience beg for more. Jack Stump and his trumpet impersonations again caught the fancy of the audience who would not let him leave the stage until several more numbers were rendered.

A tap by Phyllis Flemming was rendered and later in the show she returned and amazed the crowd with her baton twirling.

The beautiful singing voice of little Sharon Barcom again stopped the show. Joan Wilson brought applause roaring from the rafters with her impersonations of movie stars.

The Two Cats and a Canary, featuring Olie Kittleson and Jack Stump as the Cats with Joan Wilson as the Canary became the highlight of the show with their comical songs.

The finale featured the entire cast in song and dance.

Marion Kittleson was responsible for the fine performance of her dance studio students and also acted as accompanist for the evening.

SONG AND DANCE TEAM of Linda Wilson and Rusty Williams at the "Ballin' the Jack" Varieties.

Hobbiest

J. M. FRAZIER, ADC, chief-in-charge of the Hobby Shop, holds one of the hand embossed scrapbooks that he has just put the finishing touches on. He recently completed one for ComUtWingPac and the one for VU-7.

VU-3K's Bustamonte Passes Cigars

James J. Bustamonte, AN, of Utility Squadron THREE, and his wife, Marion Antoinette, welcomed a visit from old man stork, who brought them a 7 lb., 4 oz. baby girl born at the North Island Hospital.

With both mother and child in the pink of condition, and the father still a bit shaky, the Bustamonte family will make their home in Imperial Beach.

HU-1's Unit 13 Returns

Helicopter Squadron ONE Unit Thirteen returned October 1 to ALF Ream Field and their squadron after serving six months in the Korean area.

LCDR E. V. Oglesby, Officer-in-Charge and LT D. Lumsden Jr. piloted the helicopter during guard mail deliveries, personnel transfers, and rescue flights.

A successful inland mission was made by LT Lumsden to rescue a downed Navy Pilot while the Unit was based aboard the USS HELENA.

Other members of the crew were: G.W. Morrell AD1; E. (n) Stewart AD2, G.E. Campbell AT3, H. "H" Phillips AN, J.J. Saliba.

REAM HOBBIESTS BUILD RACERS

Rebuilding a racer is the unusual spare-time job for four men of HS-2 at the Ream Hobby Shop.

Ed Miller, AD1, Bob Haro, AD3, James W. Goff, AMAN, and R. C. John, ADAN, decided to go into the race business in their spare time. Three months ago they went into partnership and purchased a midget racer.

First they rebuilt a Ferguson Tractor engine and inserted it in the midget. Many man hours were spent tinkering, tuning and making adjustments for the first race.

Ed Miller, the only one of the foursome with any race experience acts as driver with the other three as his pit crew. Carrell Speedway in Gardena saw the racer for the first time under the new ownership. Their next two attempts were at San Bernardino before the close of the season. In their last attempt their car was in the 3rd slot until the 15th lap when it spun out on a turn.

The car is now in the Hobby Shop under major repair and overhaul, but "it will be ready to go on February the first when the race season opens," voiced the boys confidently.

MEET THE MAN THAT PAYS YOU. ENS Leo Gallagher (SC), seated, the new Disbursing Officer receives cash box from LTJG J. F. Neven Jr. (SC). ENS Gallagher reports here from Oakland Supply Center where he has been attending Supply School and relieved LTJG Neven as the Disbursing Officer last Monday. LTJG Neven is to report to VJ-61 at Miramar.

HU-1 SKEDS HALLOWEEN DANCE

A gala Dinner Dance will be held for the men and Officers of HU-1 at the American Legion Hall at 27th and B St., in San Diego at 2000 next Tuesday.

Music for the dancing will be furnished by Ray Stride and his Starlighters. Besides all the good food and music there will be fifty lovely dancing partners for the bachelors furnished by Mrs. Rosiana Graves, a NAS night telephone operator and Program Director for the VFW Post 2422 General Henry D. Styer Ladies Auxiliary in Coronado.

LTJG R. G. Powell is in charge of the arrangements for the party and will be assisted by L. A. Wheeler Jr., SN, of HU-1 Special Services.

The theme of the party will be Halloween and a good time is promised to all the men from HU-1 attending, Mr. Powell states.

HU-1 Pilot's First Rescue Sets Record

LTJG L. M. Kile of Helicopter Squadron ONE, while flying plane guard off the aircraft carrier USS BATAAN, made his first rescue of a dunked pilot and turned in one of the fastest rescues in squadron history.

On October 6 a TBM, piloted by ENS N. L. Thomas, hooked a late cable, skidded to port, and slowly went over the side.

By the time ENS Thomas could clear his aircraft the helicopter was hovering overhead and W.H. Eichelburger AD-1 had the kapak sling lowered into the water within the reach of ENS Thomas.

Entering the sling the pilot was hoisted aboard the "copter" and returned to the ship.

The total time elapse between the plane going over the side and the pilot being safely back on board the ship was 1½ minutes.

VU-3K Man Married

Charles D. Kallaher, ADAN, of Utility Squadron THREE, was married, October 4, to the former Miss Betty Carolyn Taylor in Long Beach, Calif.

Kallaher, a member of VU-3K since January, 1951, has been acive in the squadron. Besides his duties on the line; his activities have included inter-mural sports, particularly, ping-pong, which he is considered the squadron ace.

The Kallahers will take a short honeymoon in Catalina, after which they plan to live in Huntington Park, Calif.

VU-3 Win Four Straight

Utility Squadron THREE won their fourth straight cage tilt by defeating HS-2, 54 to 50, in an intra-squadron game played in the station gym.

The lead changed hands several times during the first half and it wasn't until but three minutes remaining that VU-3K iced the game with two straight lay-ups by Bill English.

In the first half, Hope led the scoring for the dronemen, by consistently sinking shots from twenty feet out. The starting five of Hope and Lachowski at guards, Hays and Deibler at forwards and English at the pivot proved to be a smooth quintet, as they matched shot for shot with the HS-2 team and left the floor at halftime leading, 26 to 25.

As in the first half, the second half almost repeated the action. The play of both teams improved as the tempo of the game picked up. The lead changed hands seven times with HS-2 posting a four-point advantage with but five minutes remaining. Successive baskets by Beck of HS-2 gave the whirlymen a sniff of an upset, but as the seconds ticked off VU-3K got hot.

Hope hit two free throws and baskets by Deibler and English overhauled HS-2 for the lead and consequently the game. Bill English of VU-3 and Beck of HS-2, led the scoring with 19 points each. Hope hit for seventeen, followed by Deibler's 6, Lachowski's ', Hays', 4, and Steege's 3 points to end the scoring for VU-3.

VU-3K now boasts of a four win and one loss so far this season. The play of English, Hope and Hays off the backboards are making up for their lack of height by their aggressive play. If the dronemen can work up some able substitutes, such as Feser, Steege, Franer, Wilde and Payne, their chances of bringing the title to VU-3 will stan da better chance.

"CAN'T GET A BUCK"

"Can't get a buck," is the theme of the Officers and men from HS-2 who have spent many hours in pursuit of California Deer. All the training of hunter-killer techniques in Anti-Submarine warfare hasn't seemed to help much in finding and bagging the game.

Only one man, E. Blakinton, ATC, of HS-2 Electronics, had any success at blasting the brush. He bagged a 3-point buck while hunting in the Laguna Resort area last week.

HS-2 Swimmers Win More Trophies

HS-2 has won five trophies in North Island competition and fourteen from FAD REAM by the excellent performance of its fine swimming team.

The F.A.D. REAM championship was practically unchallenged with ten wins in ten meets with with HU-1, HS-4, and VU-3. HS-2's ComFair San Diego representative team downed Miramar and Los Alamitos only to lose to the North Island team for second honors. In this meet the HS-2 swimmers won three events:

25 meter breaststroke (Dolmseth).
150 meter relay (Lt. Bergsma, Dolmseth, & Wyllie).
Diving (Tilley).

Tilley has never failed to get a first in this event in this squadron's meets.

HS-2 had obtained enough points to win the Com Air Pac athletic excellence trophy this year on the pro-rated basis allowed for the placing of the teams in the competition, but the fact that the squadron was formed for only four months of the competition period disqualified the squadron for the trophy.

'CIVVIES' O.K. FOR DANCE

The NORTH ISLANDER
U.S. NAVAL AIR STATION

VOL. VIII SAN DIEGO, CALIFORNIA, OCTOBER 24, 1952 No. 43

Captain Announces Dance Tickets to Be Honored As Civilian Clothes Pass

CAPT. Rodee, NAS Commanding Officer, announced this week that all military personnel will be permitted to wear civilian clothes to the big benefit dance at the Beach Facility, November 7.

Your ticket to the dance will be your civilian clothes pass at the NAS gates. You must have your ticket and ID Card to come aboard the station in civilian clothes November 7.

Tickets to the first joint civilian-military dance to be held at the station are now available from all division officers, senior civilian supervisors and from squadron executive officers.

The proceeds from this benefit dinner-dance will go to the NAS annual Christmas Party for Children of Deceased Armed Forces Personnel.

In addition to many valuable door prizes, wonderful buffet dinner, dancing to the music of the ComCruDesPac orchestra under baton of Chief Musician R. Dale Clendenon, each ticket you buy will help a deserving service orphan, maybe the child of an ex-shipmate.

Don't delay, get your tickets now. Only a limited number have been printed.

These Scenes To Be Re-Enacted at Christmas

Pictures at the right show a composite view of the Station's 1951 Christmas party for the service orphans. Over 150 of the children and their widowed mothers were hosted by the Station last Christmas.

This year, the Station anticipates over 400 service orphans and their mothers to attend the big Christmas Party.

The annual Christmas Party for Children of Deceased Armed Forces Personnel was started last year by the Naval Air Station to give these children and their mothers a Christmas Day steeped in the traditional Yuletide spirit of the Navy.

These families, deprived of their fathers and husbands by the misfortunes of war, are invited to share the most sacred of all holidays with the officers and men who are fortunate enough to be still serving their country and practicing the American way of life.

With the complete cooperation of the San Diego County Chapter of the Gold Star Widows of America, the Naval Air Station assures each child of a departed service man a Christmas Day filled with personal gifts especially purchased for the child, a visit with both Hopalong Cassidy and Santa, and the traditional Navy Christmas dinner.

Each child receives presents and a day jammed full of fun. All plans and arrangements for the annual party are made with the sole purpose of providing the very merriest of Merry Christmases for each service orphan and their widowed mothers.

In order to finance the 1952 Christmas Party, the Naval Air Station has scheduled a big, gala benefit dance at the Beach Facility's pavilion Friday, November 7. This party will be jointly sponsored by the station's civilian and military personnel.

The dance will be semi-formal and feature a buffet supper in addition to many valuable major household appliances as door prizes.

In keeping with the spirit of the party, CAPT Rodee announced this week that all military personnel will be permitted to attend the dance in civilian clothes—the dance ticket being a "civilian clothes pass" at the NAS gates for the evening.

Issue New Stickers For Quarters Cars

A new quarters sticker for the vehicles of all personnel who live in family quarters aboard the station is being issued by the Security Dept. traffic section.

This sticker is to identify the vehicles of station residents when passing through the NAS Gate 1.

All residents of the station are requested to bring their autos to the Security Department, Bldg. 415, any time between 0800 and 1640, where the sticker will be issued.

Blood Account Is Very Low

Blood donors are needed now, to replenish the NAS Civilian account in San Diego. The station's credits have been running at just about zero for several months.

A heavier drain on the blood bank usually comes during the winter and early spring. A run on the bank by NAS workers or their dependents now, could bankrupt North Island's account.

If you wish to sign up as a donor, see your Shop Personnel Supervisor at once. Donor day is every Thursday, 1300 to 1600, at the San Diego Blood Bank.

NAS Golf Championship Scheduled for Weekend

The Fourth Annual Naval Air Station Golf Tournament is scheduled for October 25 and 26 at Caliente in Mexico between the hours of 0730 and 0930. This is a tournament held each year for all golfers of the Naval Air Station and its satelites, military men and women and civilian men and women.

This tournament will be a medal play, divided into four flights (no handicap) and one ladies' flight. The first flight will commence at 0742, and the remaining flights will begin at the scheduled times. The open flight will start at 0910 for all late entries at a charge of $3.50 per person.

All players must have a Naga or Nacra handicap or a handicap at a golf course in San Diego County. In case of ties, the games will be played off on any desired course over 18 holes, prior to darkness, on November 2, 1952. Trophies and other prizes will be awarded the winners. Winter rules will prevail and will be played in accordance with the 1952 U.S.G.A.

The former winners of the golf tournament from 1949 to 1951 were C. A. Wistock, 1949 winner, R. Hildreth, 1950 winner, and J. Duvall, the 1951 winner of the annual NAS Golf Championship.

(Continued on Page 7)

It's Now 'CVA' For 'CV' Class

The Navy has changed the designation of 29 aircraft carriers to CVA—"aircraft carrier, attack. The change includes ships ranging in size from 19,800 tons to the 59,900-ton Forrestal class.

All carriers currently listed as CVB and CV will come under the new designation, which classifies the large carriers according to their mission as elements of fast attack forces.

Symbol designations for small carriers (CVL) and escort carriers (CVE) will remain unchanged.

Affected by the change will be the USS Forrestal, USS Midway, USS Franklin D. Roosevelt, USS Coral Sea; 24 Essex-class carriers; and the USS Enterprise. They will retain their original hull numbers.

Industrial Relations Asks For San Diego Wage Increase

Notification was received from Washington this week, that the Office of Industrial Relations has petitioned for an increase in the schedule of wages for the San Diego-Oceanside area, as of October 17, the date the petition was forwarded to the Wage Stabilization Board.

Requested average increases were approximately six cents an hour for laborer, helper, and mechanical and printing and lithographic services.

If the Wage Stabilization Board approves the new schedule, it will be placed in effect at the beginning of the first pay period after 16 October, 1952 for those employees on the rolls on the date activities are notified of approval.

All Signs Point to Toyland

Pictures of the Seven Dwarfs—Sneezy, Grumpy, Dopey, Sleepy, Happy, Droopy, and Bashful—point the way to the Naval Air Station's 1952 Christmas Toyland. And quite a Toyland it is this year!

Located this year in Bldg. 348, behind the Navy Exchange, instead of topside Bldg. 91, the store offers a much larger stock of items well calculated to bring cheer to the "little people" on Christmas day.

Don Warf, Navy Exchange Store manager, says the largest and best selection of toys ever procured for the store are being offered this year. The stock, in fact, is so large, says Mr. Warf, that even with the larger floor space it is impossible to show all the representative items. He asked parents shopping for toys to browse around in the store several times between now and Christmas because the selection is constantly being changed, with more items going on the counters all the time.

There's also good news for inflation harrassed parents, according to Manager Warf. Prices on most toys are substantially lower than last year.

Saleswomen in Toyland are Mrs. Don Warf and Mrs. Alice Roberts. This is the fourth season they have operated the store. In that time the two ladies have accumulated a great deal of knowledge of the types of Christmas gifts suitable for children in all age groups. Parents are invited to consult with them on Christmas buying problems.

Decorations and displays in the NAS Toyland are the work of the Navy Exchange's artist, Oscar Villasenor, SN, who also created the Seven Dwarfs guideposts.

CLERK at Toyland, Mrs. Don Warf assists Mrs. R. E. Mankus while daughter Chris inspects a toy. Mrs. Warf and Mrs. Alice Roberts have operated Toyland for four successive seasons.

NANCY AND KATHY Moore exercise a real walking doll at the Naval Air Station's Toyland. The store offers a large selection of dolls in all sizes.

INTENT on the singing top operated by his sister Cindy, Jimmy Charles has probably found something he wants Santa to bring him. They are the children of LCDR and Mrs. N. R. Charles.

Chaplain's Corner

Church Attendance Is Important, Too

Practically every fraternal organization and service club has an article in its By-Laws which provides that members can be suspended from membership for non-attendance at meetings or for non-payment of dues. Service clubs even go so far as to make provisions for members who miss a meeting to make-up by attending the meeting of a neighboring club. Such provisions have been made, because experience has taught that the organization is better able to fulfill its aims and objectives when every member is loyal in his support. Also, the individual gets out of the organization what he puts into it. Try to get a Rotarian or Kiwanian to miss his weekly meeting to go play golf, and you run up against a solid resistance. Each member of such an organization feels that he is letting his group down if he misses for any reason other than the most important, and each member knows he misses something personally by not being present regularly. The result of such an attitude toward regular attendance and support can be seen in almost any community, when you look around and see what the Rotary, Kiwanis, Lions, or some other club is doing in terms of civic improvement.

Yet the most important institution in any society, the Church, often suffers because of the indifference of its members to regular attendance and support. The man who wouldn't think of missing a Rotary meeting or lodge meeting, to play a round of golf, doesn't give a second thought to going out on Sunday morning to shoot eighteen holes. The man who wouldn't, no matter how tired he may be, thinks of going to bed early rather than miss his lodge night, doesn't give a second thought to sleeping in on Sunday morning so that he is unable to attend Church.

Many people have confided to me that the Church doesn't hold anything for them. On investiagtion I usually find that these same people are the ones who attend in a hit or miss fashion (hit Easter and Christmas and miss all the other Sundays), and who have never vitally identified themselves with one of the active groups in the Church. These same people think nothing of spending $20 in one evening on selfish entertainment, and yet won't give $20 in a whole year to support the cause of Christ and the Church.

In the Church, as in the service club or lodge, a member gets out of it just what he puts into it. The Church is a visible fellowship of Christians who join together for worship, study and work. The importance of this fellowship is stressed over and over by Jesus, the Apostles, and all the great Christian leaders down through the ages. For it is by congregating together, regularly, in Christian fellowship that each individual Christian receives grace and strength to enable him to live an effective Christian life.

You might think the Church would have a By-Law similar to that of the club or lodge, since attendance and support is so important. If it did, how many people could still conscientiously claim to be Church members? But it doesn't, for the Church feels that a real member will want to be regular in attendance and support, without any coercion from a By-Law. The member who attends from positively inspired motives is going to get much more out of his membership than the one who attends through fear of being suspended should he miss.

If you have had the feeling that Church has meant nothing to you as a member, ask yourself if you have been the type of member you ought to be. Have you been regular in your attendance and support of the Church. Are you really a working member, or just an honorary member (because your name is on a Church roll somewhere). Perhaps you haven't gotten all you could from your Church membership because you haven't given all you could to it. Try, starting now, a program of regular attendance and support, and see if you don't find a new zeal and enthusiasm. Church attendance is important, too.

CHAPLAIN CHARLES H. SWIFT.

Revival Services in Coronado

The First Baptist of Coronado, located in the VFW Hall at 6th and Orange, announces an Evangelistic campaign commencing Sunday, October 26, and continuing nightly, except Saturday, at 1930. The Reverend Earle Shipley of San Luis Obispo will be the speaker, with special music offered at each service. Reverend Davenport, the pastor of the local church, invites the attendance of interested personnel.

The NORTH ISLANDER

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

TELEPHONE EXTENSION 1475. Call this number to report news.

Contributions of news, features, pictures and cartoons will be gladly considered, and material submitted will receive careful handling. However, the NORTH ISLANDER assumes no responsibility for the return of material contributed. The editors reserve the right to make such corrections, changes or deletions in submitted copy as they deem necessary in conforming with the policy of the paper and of the Navy.

The opinions or statements made in articles published herein are those of the writers and are not, in any case, to be construed as official or as reflecting the views of the Commanding Officer or of the Navy Department.

MOVING DAY for NAS Disbursing last week saw Virginia Lindsey, (left), Travel Sect. voucher examining supervisor, and Millie Milligan, Travel voucher examiner, lending a hand with some office machines. Disbursing is now located in its new home at the north end of the first deck of Bldg. 334.

Heart Association Reflects Recent Strides to Aid Humanity

Everybody should be directly interested in the work of the Heart Association, and its share in the current North Island United Fund Drive. Everybody should contribute to help provide money to carry out the vital research program constantly being pushed to wipe out this leading cause of human death.

No one knows when he or she may become a victim of one of the several terrible diseases of the heart which either kill, or leave the individual incapacitated and reduced in his potential for enjoying life.

High blood pressure, for example, has baffled medical experts in their efforts to eliminate or to lessen appreciably its threat to mankind.

Recent advances in treatment, however, appear encouraging. Research goes on, but costs money—the money that YOU can give to help future victims—quite possibly yourself.

In the last several years, researchers have found some 15 or 20 drugs which diminish dangerous rising blood pressure. The processes of these drugs, and the history of their discovery were reported on recently by Dr. Julius H. Comroe, Jr., at a Heart Association symposium in Los Angeles.

These drugs all work, commented the doctor, but some of them not only produce the desired effects, but some unwanted effects too. In other words, more and more research is necessary to arrive at completely useable aids or cures. Nearly 1000 doctors and medical students attended this one symposium alone. Research and education on the subject goes on all over the country.

Work along this and other lines of study to combat the various heart and blood system ailments is expensive. Give to the United Fund Drive to help conquer heart disease. Give where you work!

AN NAS derrick truck supports the JULIA B., fishing vessel, which practically came ashore on North Island during the early morning fog last Sunday. By its action the Navy prevented possible major damage to the vessel, which was refloated on the Sunday evening high tide.

Co-operation, Skill, Ingenuity Of Naval Air Personnel Lauded

A letter of appreciation was received last week by the Commanding Officer, Naval Air Station, from the Commanding Officer of the USS PHILIPPINE SEA (CV-47).

The letter, a complete testimonial to the good feeling engendered by the Air Station's handling of the big carrier's recent stay here, is reproduced below for the information of all hands:

Subject: Appreciation for Services Rendered.

1. On completion of this vessel's upkeep period following return from the Western Pacific, I wish to express by sincere appreciation for the excellent services rendered PHILIPPINE SEA by the Naval Air Station in connection with removing and reinstalling the AN/SPS-6B and XSG-7 radar antennas, removing and installing two steam winches, and in conducting structural tests on replenishment at sea, fittings during the period 8 August to 14 September 1952.

2. The spirit and willing cooperation displayed by the Naval Air Station personnel involved, together with their technical skill and ingenuity, contributed materially to rapid accomplishment of the tasks in spite of the major difficulties involved.

/s/ ALLEN SMITH, Jr.

VFW Service Dance Tues.

The first of a series of free monthly dances sponsored by the Henry D. Styer VFW Post and Auxiliary will be held at the Hobby Club (next to the Little Theater), on the Silver Strand instead of the VFW Hall as previously announced.

The dance is scheduled for Tuesday, October 28. The dance features the ComCruDesPac band under the direction of R. Dale Clendenon, MUC, entertainment and refreshments.

NAS enlisted personnel and their wives or dates are cordially invited to this dance as well as future dances planned by the Post.

Rosiena Graves, NAS night telephone operator, will act as senior hostess for the event.

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

Q. I am an apprentice and receive subsistence from the Veterans Administration under the G.I. Training Bill. Every time I get a raise in salary the Veteran's Administration cuts my subsistence. How come?

A. There are three categories under which our apprentices train using the G.I. Bill for subsistence—able veterans, disabled veterans and now Korean veterans. In the first case, if a veteran is an able veteran he trains under the straight G.I. Bill. His subsistence is computed upon his length of service in the armed forces and upon his dependents. If he has no dependents he is limited to a ceiling of $210.00. It can readily be seen that, as his salary is raised at NAS, his subsistence will be lowered by the V. A. due to the ceiling. The disabled veteran has subsistence computed from a chart and which is dependent upon his dependents and the amount (percentage wise) of his disability. The Korean Bill is essentially the same. Further information can be received by calling Ext. 715.

Q. I am a temporary indefinite employee. When I left NAS previously I had a permanent status. Why can't I be permanent like I used to be?

A. On and after 9/1/50 reemployment of former Federal employees have been on a non-permanent basis and will be until such time as the President finds it no longer necessary.

Q. I understand that some government activities are giving their indefinite status employees a permanent status. Will this be true of Navy department employees?

A. It will require a change of the present law before any Government activity can convert temporary employees to permanent status.

Q. I was a permanent employee as an apprentice. When I graduated to a journeyman the action was "promotion indefinite." What happens to men in the event of RIF?

A. You have retreat rights to helper.

WILLIAM F. MAYER, industrial suggestions specialist (Benny Sugg) left Sunday for Chicago, Ill., to attend the annual two-day conference of the National Association of Suggestions System and a one-day meeting of the Navy Efficiency Awards Conference. He will return with some brand new suggestions for Benny Sugg Monday, October 27.

United Fund Drive

Why the Red Cross Needs Funds

Too numerous to recount on eight small pages of newsprint, are the myriad of benefits which reach both servicemen and civilian through the facilities of the American Red Cross.

From disaster aid in stricken communities here at home, to the providing of those little items and services overseas, near the front lines, which make war just a bit less intolerable, the American Red Cross is constantly on the job, planning and carrying out a program of humanitarianism.

There's an American Red Cross office on every major military base in the nation. There's an American Red Cross headquarters, and usually a disaster or emergency unit, in every large city in the country. It is not only the day to day assistance afforded the troubled or the stricken which demands a constant supply of funds in order to continue—it is also that state of readiness for that emergency situation, a state of readiness which can only be maintained by the efficient, well trained Red Cross workers. A few of these, full time field workers and others, must of course, receive wages. The great majority of workers for this great organization however, are volunteers, (99 out of every 100) many buying their own uniforms, use their own transportation in their work.

But there is overhead of course—expenses of many kinds involved in keeping up the various services of the American Red Cross. Office rent, salaries, and equipment constitute only a part of these expenses.

There's the cost of those telegrams which the Red Cross sends to verify the need for getting a serviceman emergency leave when wife, mother, or other loved one needs him in a hurry due to illness or accident.

There's the loan, or outright gift, speedily arranged for the sailor in distress, with legitimate need for financial assistance or funds for an emergency leave.

There's the cost of gasoline and automobile upkeep involved in the transporting of Navy dependents to and from hospitals and clinics when private transportation is not available.

There's the expense of replenishing medical and first aid supplies, of blankets, rolling kitchens, maintaining the blood-bank program, and blood-bank equipment, all of those other things which complete the Red Cross picture of service to humanity everywhere.

Upon these things rests the American Red Cross' need for a share of the funds which you are generously giving during the current United Fund Drive on this Naval Air Station. Be sure to give enough. Be proud that you are giving!

VS-23 Man Goes To OC School

Bobby W. Click, AO3, USN, received orders to report to Officer Candidate School at Newport, Rhode Island, on October 28, 1952. At the end of the 4-month course, Click will be commissioned an Ensign.

Click entered the Navy in June of 1951 at Dallas, Texas, and went through recruit training at San Diego, California. He went to Airman school at Jacksonville, Florida, and then came ot VS-23, commanded by CDR J. C. Zirkle, at North Island.

Click is from Mt. Vernon, Texas. He received his B.S. degree at East Texas State College in history and government.

SD JayCee Offers Night Courses for Inspectors

The San Diego Junior College, Business and Technical Division, will offer several units of the Aircraft Inspection Technical Institute Curriculum beginning October 27, 1952.

Classes will be held at the 348 West Market Street Division of the San Diego Junior College Business and Technical Center.

Persons interested in enrolling in this curriculum should contact the Training Division, Bldg. 5 or the San Diego Junior College Business and Technical Division at 348 West Market Street or telephone F. 9-9151, or F. 9-9155 evenings. The courses are listed below:

Class	Starting Date	Schedule	
Aircraft Inspection Mathematics	10-28-52	6:30-9:30	T
Aircraft Inspection Mathematics	10-29-52	6:30-9:30	W
Aircraft Blueprint Reading and Sketching	10-28-52	6:30-9:30	T
Aircraft Blueprint Reading and Sketching	10-30-52	6:30-9:30	Th
Aircraft Materials	10-27-52	6:30-9:30	M
Aircraft Materials Processing	10-30-52	6:30-9:30	Th
Inspection, Instruments and Measurements	10-29-52	7:00-9:30	W
Inspection, Instruments and Measurements	10-27-52	7:00-9:30	M

Electrons

Electronics Div. Plans Big Free Dance for November 1

By Mildred Splichal

Saturday, November 1, is to be the gala event of the year for the Electronics Division. A Free Dance will be given for all workers of the Electronics Division. It will be at the La Mesa American Legion Hall, 8136 University Ave. at 8 p.m. Music will be supplied by Eddy Kipp's boys.

Your badge is your ticket and you are entitled to one guest. Any extra guests and workers outside the Division will be charged $1.00 admission. Plan your party now. Plenty of seating space and a fine large dance floor. Refreshments will be available. Come one, come all, have a grand time. Your Welfare and Recreation Committee, Rosco T. Morse, Mildred Splichal and Becky Harker are doing their best to make this a dance you'll enjoy and long remember.

Betty Wolle, Don Nuzzo, Sarge Bushanan and Marion Douglas are on the sick list. Wishes for speedy recoveries are sent from their fellow workers.

Grace Harris, Edna Wheeler and Mr. and Mrs. Kimble went on a deep-sea fishing trip off Ensenada last week end. Their catch included bass, barracuda and halibut.

The Plug section of the Cable Shop went all out one day last week and served a pot-luck chop suey dinner. More of us wish that we worked in the Plug section.

Woodrow Cheney spent five weeks' leave deer hunting. Though he did not get a deer, he did have a good time.

Tonight the North Island Service Post is sponsoring a stage play "Comin' for to Carry." It will be presented by the Pacific Beach Community Players. Everyone is invited to attend. There is no admission charge, so bring the family. It will be at the Veterans' Memorial Bldg. at 8 p.m.

Tool Room Still Tops in 'Islander'

Tool Room remained on top of the North Islander Winter Civilian Bowling loop this week, two and one-half games out in front of second-place Yankees. They set a new high team game (896) and high team series (2640) for the season during last Friday's play at Pacific Recreation Alleys.

J. Stoll, of the Jiggers, banged out a 254 to lead Friday's play for ten frames, while R. Moll, of the Yankees set a new season high for individual series with a sparkling 609.

powerplant paragraphs

By B. DREHER

We've got quite a roster of ailing employees this week—ED WHITE of the disassembly shop was in Mercy Hospital earlier this week with an undetermined malady (this news goes to press on Tuesday). His friends hope he will be enjoying good health again soon.

* * *

Everyone will be happy to know that "Mac" McCARTNEY of the Blower Shop is now at home and on the mend after an emergency appendectomy with resulting complications. "Mac" still isn't able to have visitors but will give his friends the word when he is strong enough to enjoy talking about his operation.

* * *

Today is THE day for EMIL ZWAK who is leaving North Island after nine years to go into a tool and die business with his brother in El Monte, California. Emil is going to be missed by the gang—particularly in Minor Overhaul where he has been one of the "wheels."

* * *

GEORGE MILLER and ORVAL GONAWARE returned from their vacation, which took them on a tour of Arizona, New Mexico, Colorado and Utah. They covered 3460 miles and got caught in a snow storm but they had a good time and are already talking about the trip they will be taking next year—the Miller and Gonaware foursome.

* * *

LEONARD CARTWRIGHT of the Metal Shop checked out of Power Plant last week and from now on will be operating a gas station out Broadway extension way.

* * *

RALPH and SUE TORREY returned to work this week after an extended vacation in South Dakota where they went for their annual pheasant hunting and relative visiting.

* * *

Looks as tho' AL O'BLENESS better talk over the pheasant hunting with Mr. Torrey—since Al is leaving sometime next month for Morning Sun, Iowa, with RON ESSNER, AD3/c, to hunt pheasants, ducks and quail. Al says he is taking his camera along to help substantiate those tall tales he'll be telling when he returns.

Critical Need for Several Ratings

Several more ratings were added this week to the growing list of critically needed classifications. Total on the critical list is 13 different jobs, including:

Aircraft Mechanic, General
Metalsmith, Aviation
Machinist
Drop Hammer Operator
Laborer
Radio Mechanic
Laborer, Cleaner
Refrigeration and Air-Conditioning Mechanic.
Truck Driver
Heavy Laborer
Electronics Mechanic
Aircraft Specialist Ratings
Most Helper categories.

Studies NAS Award System

Sidney Averitt, administrative officer, PW and Civilian personnel, at Naval Amphibious Base, Coronado, visited IRD at NAS Tuesday to survey the North Island Awards and Incentives program in the interests of setting up a similar system at NAB.

Supers Meet Next Tuesday

North Island Civilian Supervisors' Association will meet the evening of October 28, at Oneira Club, 4649 Hawley Blvd., in San Diego. live entertainment will be featured. All Civilian Supervisors of NAS are invited to attend.

'Just Us Five' Narrows Lead of 'Pin Busters'

Just Us Five, with John Allison and Jim Carter maintaining the heavy pace, closed in to within a couple of games of the first place Pin Busters Tuesday night in NACRA Mixed Bowling League play.

Happy Five, paced by John Goeas' sparkling 223-628 high game and high series, rolled to a third spot tie with the Mixups, Easy Aces dropping to fifth just ahead of Question Marks. Friendly Five is in seventh place coming around the turn—and Woodpickers.

Mary Meyers, Woodpickers' new ace, upped the best feminine marks for the season, with a 205 games and a 500 series. Watch out for the 'Pickers if her average holds up!

OUTGOING CIVILIAN Cafeteria Board deserves a "well done" as they sign off from their activities, to make way for the change over of the cafeteria organization. The eating establishment is now being operated by a concessionaire, its relationship with the employees of the station being guided by a new Cafeteria Committee. The outgoing board are: Left to right: (standing), C. C. Perry, J. Lux, H. W. Goode, CDR M. T. Wells, Industrial Relations Officer, F. H. Johnson, and R. S. Putnam; (seated), R. H. Shores, (Business Manager), F. Albano, E. W. Booth, C. B. Pauley and W. P. Faber.

New Navy Jeep Fire Engine Demonstrated by Navy Lab

The Navy's new jeep fire engine, being demonstrated recently at the Naval Research Laboratory, features a self-contained fire-extinguishing system capable of delivering 1,300 gallons of fire-killing foam per minute for more than two minutes without refilling.

Designed and built by the Laboratory primarily for use in fighting aircraft crash fires aboard the larger aircraft carriers, the new equipment requires no other power supply than the 60 h.p. jeep engine.

The midget fire engine can spread a protective cone of foam 30 feet in diameter over a trapped pilot or the pilot and crewman, as the case may be. And it can reach a crashed and burning plane up to 90 feet away with a consolidated stream of foam. An adjustable nozzle mounted on the jeep fender allows the firefighter to deliver the type of foam needed.

The raw materials for making the foam are carried in small tanks on the jeep. In use aboard a carrier, the jeep would be kept in a stand-by condition on the carrier island or near the landing barriers. On arriving at the fire, the system is put in operation simply by opening two valves and speeding up the jeep engine.

The jeep fire engine requires only a two-man team; a driver and a nozzleman. In action, the nozzleman forms an approach path and a protective foam shield for the rescue party while the latter rescues the pilot or pilot and crew. The nozzleman then continues to fight the fire.

If other help is not readily available, the nozzleman can form his own approach path to the cockpit of the crashed plane, handing the nozzle to the driver, and effect the rescue himself. The NRL scientists who designed the system assert that "anyone who can drive a jeep and pull a knob can operate it."

The system uses a new type of foam not previously employed in the United States for crash-fire rescue work. The foam is formed in a pump which proportions the necessary raw materials — air, water and foam concentrate — whips them together as an egg-beater would, and then forces the micro-bubbled substance out through the nozzle. The new pump makes two to three times the quantity of foam per minute that can be produced with similar equipment now in use.

In simulated crash-fire tests, covering 600 square feet and using 150 gallons of gasoline, "rescues" have been made within 24 seconds after the jeep went into action.

Plans Announced For Judo Course

The possibility exists that the gentle art of self defense Judo, may be introduced to the Eleventh Naval District sports program through the media of stage exhibitions and gymnasium demonstrations. A small group of the San Diego Judo Club, an affiliation of the Southern California School for Ju Jitsu and Judo, have proffered their services for exhibitions and demonstrations to be presented as entertainment aboard stations and ships where practical.

If station interests justify the organization of Judo classes to any proportions of consequence, the District will include the Japanese Randori (free play) in the athletic calendar of events.

New Civilian Commission Meets To Study Special Military Pay

A new Civilian Commission on Incentive-Hazardous Duty and Special Pays met for the first time, the Department of Defense announced.

At the October 10 meeting, the Commission, which will study such special pays as combat pay, flight pay, submarine pay, overseas allowances and physician and dentist pay, discussed the scope of their assignment and the methods available for completing it.

Members of the Commission are: Lewis L. Strauss, of Rockefellow Brothers, who is Commission Chairman; Don G. Mitchell, President of Sylvania Products; Harold Moulton, former president of Brookings Institution; John Thomas Cahill, member of the New York law firm of Cahill, Gordon, Zachry and Reindel; and Joseph Campbell, Vice President of Columbia University.

The Commission was established by Secretary of Defense Robert A. Lovett at the request of U. S. Senator Richard B. Russell, of Georgia, Chairman of the Senate Armed Services Committee.

Secretary Lovett has asked the Commission to conduct a detailed study of certain incentive and special pays in the Army, Navy, Air Force, Marine Corps, Coast Guard, United States Public Health Service and the United States Coast and Geodetic Survey. This study will be submitted with Mr. Lovett's recommendations to the Senate Armed Services Committee during the first session of the Eighty-third Congress.

During the time required for the study, the Commission will meet at intervals and will make a number of field trips to installations of the Army, Navy, Air Force and Marine Corps to secure first hand information on the operation of present pay systems.

Assisting the Commission is a permanent staff headed by Rear Admiral J. L. Womble, U.S.N.

Rod and Rifle Ramblings

By GEORGE BAKER

California migratory waterfowl hunting season starts at noon today, October 24, and will run for a straight 70-day period, closing on New Year's Day, the State Department of Fish and Game announced. Federal regulations covering California's section of the Pacific Flyway, and concurred in by the State Fish and Game Commission, are as follows:

Shooting times for ducks, geese, black sea brant and coot (mudhens) will be one-half hour before sunset, except on opening day, when shooting will start at noon.

Daily bag and possession limits on ducks is six, to which may be added two widgeons (baldpates) OR two pintails, or one of each per day, or in possession. Bag and possession limit may include one wood duck only.

For geese, daily bag and possession limit is six geese including in such limit not more than two birds of the dark species — the common Canada and subspecies— the common Canada and subspecies, white-fronted, Tule, blue and Emperor geese.

Brant (black sea brant only): daily bag and possession limit is three. Coot (mudhens): daily bag and possession limit is 15.

American and red-breasted mergansers: daily bag limit is 25 singly or in the aggregate of both kinds. No possession limit after opening day.

California Sportsmen's Calendar

The Department of Fish and game reminds California sportsmen of the following general regulations which apply to current hunting and fishing:

Deer—Season open to Oct. 19 in northwestern and inland (Sierra) areas, inland Southern California and San Diego County. Bag limits: 2 bucks in northwestern areas (Del Norte, Trinity and Humboldt counties, and westerly portions of Siskiyou, Shasta and Tehama counties); 1 buck in inland area, including San Diego county. Shooting hours one-half hour after sunset.

Bears — Open throughout the state until Dec. 31. Bag limit: 2 bears per season.

Jack Rabbits—Statewide open season until Dec. 31. No bag limit.

Brush and Cottontail Rabbits—Open season in districts three, three and one-half, four, four and one-eighth, four and one-half, four and three-fourths, twenty-two, and Marin, Sonoma, Mendocino, Humboldt and Del Norte counties; Nov. 22 to Dec. 15 in District one and three-fourths; Nov. 22 to Dec. 31 elsewhere. Bag and possession limit: 4 per day.

Pigeons—Dec. 17 to 31. Statewide. Daily bag and possession limit, six per day and six in possession. Shooting hours: one-half hour before sunrise to sunset.

Trout—No closed season in Colorado River area. Ends Oct. 31 elsewhere. Bag and possession limits: 15 trout, salmon or whitefish or combination; 10 in Colorado River area.

Sacramento Perch—Bag limits 5 Black Bass, Sunfish, Crappie, black bass, 25 sunfish, crappie, perch combined. Local exceptions.

Correspondence Courses at I&E

The latest books for those preparing for advancement in rate have come to the I&E division of NAS. They are as follows, Napers Manuals Radioman 1st class and C.P.O., Introduction of Aircraft, Advanced Mathematics Volume I, Aviation Electricians Mate, Volume I, Aircraft Armament and Aircraft Supply.

CHRISTMAS

Not too early to begin planning for the event. Again NAS divisions and shops will be preparing for the annual Christmas parties. To facilitate the early procurement of Yuletide decorations, it is requested that NAS Department heads place orders as soon as possible with the NAS Special Services Officer.

HERMAN STANGE, Electrician-3, O&R, is congratulated by Captain Walter F. Rodee, Commanding Officer of NAS, at a special commendation ceremony held last week, for the completion of 40 years of federal service. Others receiving commendations and awards were: Ornie M. Potts (behind Stange), Shop Planner, O&R, meritorious service award; and (left to right) Norman C. Miller, Storekeeper, Public Works, superior accomplishment step increase; Norah Jones, Clerk Stenographer, Industrial Relations, meritorious service award; and Everett R. Glanville, clerk typist, superior accomplishment step increase.

Ski Club to Hold First Meeting

North Island Ski Club is opening its second winter season of activities, anticipating coming snows.

Harley Gerdes, club president, has issued a call to all former members, and all other military personnel of North Island who would like to take part in the club's program.

More than 30 members of the club enjoyed outings last winter, including the memorable "close-out" party May 5 and 6 at Big Bear Lake.

The club will hold its first fall meeting in the Mainside theater (administration building) October 28, at 2000. Plans for the season will be discussed and 35 minutes of action ski movies will be shown. There is no membership dues charge for the Ski Club. Drop in and get acquainted with a real out-of-doors outfit.

Commissary Store Closes

The Commissary store will be closed on Thursday, October 30 for inventory purposes. The store will re-open on the following day at 0830 and run through regular hours.

Toastmistresses And Toastmasters Hold Joint Meet

The Silver Strand Toastmistresses will hold a joint meeting Monday, October 27, at 7 p.m., with the North Island Toastmasters at the North Park Lions' Club.

Deputy Governor of Toastmasters, Inc., Paul Harshberger, an NAS employee, will act as toastmaster of the evening. Other speakers will include Mary O'Shea, president of the Toastmistresses, Jean Sheedy, Eileen Koterwas, Stanley Henson, and Don Johnson.

WAY OF A GAUCHO at the NAS theater next week will show off the talents of Miss Gene Tierney. Lucky Gaucho.

'Operation Bootstrap'

For the average wage earner, thrift is a sort of "Operation Bootstraps"—a means of lifting himself to a higher standard of living.

Credit unions encourage thrift through a continuous educational campaign on what thrfit is, and how to practice it. In this way they have helped credit union members accumulate more than a $1,000,000,000 in savings.

Before a man can be really thrifty, he needs to realize that the saving of money is not an end in itself; that money is a tool—a medium of exchange, and that it is only as valuable as the use we make of it. Then it's easy for him to see the broader concept of thrift the credit union stresses.

Call the congenial Secretary, Ext. 1172 for information on this important subject.

USO-NJW PARTY

The USO-National Jewish Welfare Board invites San Diego service people to its "Hallowe'en Hop," 8:00 p.m., Wednesday, October 29, at the Temple Center, 3rd and Laurel.

Fun, favors and entertainment are promised for the affair, with food and hospitality furnished through the courtesy of the Bay City chapter of the B'nai B'rith women.

Per Annum Vacancies Exist at Naval Air

Vacancies currently exist in per-annum ratings at Naval Air Station in the following categories:

Storekeepers, GS-2 and GS-3.

Storekeeper, GS-4 (with automotive parts experience).

Telepraphic Typewriter Operator, GS-3.

Blueprint and Photostat Operator, GS-2.

Civilian job vacancies in existence elsewhere include: General Engineer, (G-9), at 11th ND Pub Wks Office; and Personnel Assistant, (GS-7), Nav. Ord. Missile Test Facility, White Sands, N. M.

Recent Civil Service Examination announcements include the following which are now open, and their closing dates are: Jr. Professional Accountant (GS-5,6) Nov. 13; Jr. Professional Assistant (GS-5) Nov. 13; Student Aid (Trainee), (GS-3,4) 'til further notice; and Clerk (GS-1 through 6) Nov. 3.

trading post

FOR RENT—2-bedroom furnished apartment, $130 per month on lease. One child over 10 years of age allowed. Available November 1. Call H-3-5291.

FOR RENT—Large patio room, own bath and entrance. Large wardrobe closet. Like home, real privacy. 1010 "E" Ave., Coronado.

FOUND—A pair of pink, shell-rimmed eyeglasses in the vicinity of Shop 5131-A. Can be located at Lost and Found Dept., Badge desk, Bldg. 415.

RIDE WANTED—For 2 people from Chula Vista via Strand. 0800 to 1630 shift. Call Hartman Statistics at H-2-1277.

RIDE WANTED—From the vicinity of 34th and Adams. 0800 to 1630 shift. Need ride only in the mornings. Call T-9382.

RIDERS WANTED—Or will join car pool from vicinity of Park and El Cajon Blvd. 0715 shift. L. J. Pousson, J-6789

FOR RENT—Unfurnished house, two bedrooms. Has garage and laundry; water paid. On bus line, $85 per month. Inquire 2534 Grove St., Lincoln Acres.

RIDE WANTED—From vicinity of 70th St. and El Cajon Blvd., or on Freeway and 70th St. 0745 to 1615 shift. Phone after 1800, H-6-4822.

RIDE WANTED—From Chula Vista via the Strand. 0745 to 1615 shift. Call H-2-3380.

RIDE WANTED—From vicinity of 49th and University to Ferry landing, 0645-1515 shift. Call T-1-1766, ask for Vic Gabel.

WILL SHARE—Navy wife will share house for six months with woman. 868 "C" Ave., Coronado. Phone H-3-4380. Reasonable board.

FOUND—Sum of curency during week of August 7, 1952. Owner should contact Security Officer, Bldg. 415.

FOR RENT—Private room and bath. Private entrance. Call after 1800, H-3-5907.

FOR RENT—7-room, furnished home, 3 bedrooms, 2-car garage, 2 baths, patio. Located at 1017 "F" Ave., Coronado. For adult couple with no children. $175.00 per month. Contact owner at 1027 F Ave., Coronado or call H-3-4477.

'Raiders Belt Army

Airmen Scheduled to Battle MCRD Sunday

Sunday the Naval Air Skyraiders travel to Balboa Stadium to battle the undefeated Marine Corps Recruit Depot gridders. The 'Raiders might have high hopes of upsetting that unbeaten record that the "Leathernecks" have maintained so carefully.

The Marine Team

The highly rated Marine team opened up the season against the El Toro "Flying Bulls" and drove them in the ground with a score of 66-6. The next team to fall under the powerful "Leathernecks" eleven was the PhibPac squad which were beaten by a score of 39-20. On October 11 Camp Pendleton tried their luck against the "Devildogs" and they too fell under the pressure of the still undefeated Marines, 42-33. Last Sunday the "Leathernecks" ventured to San Antonio, Texas, to win over the Brook Army Medical Center in a close game which ended up in a 21-15 score.

In the game against the "Flying Bulls" MCRD picked up 18 first downs in grinding out 579 yards on the ground and 141 yards through the air for a total of 720 net yards gained. At the end of the first period of play, the Marines had run up 33 points against the El Toro team.

The churning legs of big Bob Goode spelled the difference in the game between the hopped-up Camp Pendleton Golds and the Devildog gridders from the San Diego Marine Corps Recruit Depot as the Border City Marines outlasted their northern cousins, 42-33, at the Oceanside base. Again the MCRD eleven ran up quite a bit of yardage, gaining 345 yards on the ground and 123 yards via the aerial route. In doing this the san Diego "Leathernecks" ground out 19 first downs.

The Marines boast plenty of stars and a heavy, fast team that has displayed plenty of its power this season, but notice how they have gradually been going down hill and were only able to beat the not too powerful Brooke Army Medical Center by one touchdown. This is the same Army team that the Naval Air Skyraiders lost to by nine points. But the statistics of that game show that the 'Raiders actually out-played the Brooke squad.

The Skyraiders

The Airmen on the other hand have shown steady improvement in their last few games and have finally got back on the winning side of things by beating the Fort Ord Army team last weekend here at Towers Field. This week's game should be a real hard-fought gridiron duel with the Skyraiders trying to end the "Leathernecks'" unbeaten record and the Marines striving to uphold that undefeated season that they have maintained thus far.

BUD GARTISER, one of the Skyraiders fastest runners is shown gaining several yards against the Fort Ord Army team at Towers Field Saturday. Paving the way for Gartiser is Ed McCluskey another Airman backfield ace. The Naval Air team combined a strong defense with a smooth offense to subdue the Army eleven 7-6.

Pistol Team Wins

ComAirPac's expert Pistol Team, shooting on the afternoon of October 16th, won the monthly District Pistol Championship.

The winning pistolers were E. L. Hoeke, AEC; R. F. Elworth, ATC; R. J. Thomas, AOC; and P. R. Barker, PR1. The team compiled a 1069 score to top twelve other District Navy and Marine teams for the coveted trophy.

Ord Eleven Loses 7-6 to Navy Squad

By JOHN PHILLIPS

In a close gridiron battle at Towers Field Saturday the Naval Air Skyraiders came from behind to win over the Fort Ord Army team by a score of 7-6. The Warriors outgained the 'Raiders on the ground, but the stiff defense thrown up by the home team held each time in the shadows of their own goal line.

The Skyraiders combined a strong passing attack with an equally strong running attack Saturday to turn the tide against the Army squad. The Airman backfield composed of Paul Hernandez, George Davis, Ed McClusky, Manuel Aja, Rex Yerby and Bill Hulsey, along with several others, combined to do most of the yard gaining for the Naval Air squad. Jack Bighead played his usual fine game at end, snaring the passes thrown his way by Davis and Aja. Both the offensive and defensive lines showed plenty of fight and spirit this week. Finklea, Holt and Finley were just a few of the defensive linemen who played most of the game in the Army backfield, breaking through time and time again to spill Gabby Sims for a loss.

The Army Scores

The Warriors marched deep into Navy territory in the first period of play but a penalty and a play threw them back to the 'Raider 35-yard line. A penalty against the Skyraiders moved the ball to within 10 yards of the goal line. A running play up the middle failed and then on fourth down a pass from Gabby Sims to Phillips in the end zone paid off for the Army squad. John Salvador attempted the extra point for the Warriors but the ball hit the goal posts and missed to make the score 6-0 in favor of Fort Ord.

Airman Touchdown Drive

The Skyraiders were quick to bounce back as Ed McCluskey took the kick-off on his own 20-yard line and ran it back 11 yards to the 31. Yerby then plunged up the middle for one yard. A pass from Davis to Williamson was good for seven yards and on the next play Hernandez picked up a first down on his own 41-yard. Hernandez again carrying the ball went up the middle for 8 more yards followed by Davis who gained a first down on the Army 49 yards. Yerby bulled his way around his own left end for 3 yards, Hernandez was stopped cold at the line of scrimmage. A pass from Davis to Bighead was good for a first down on the Army 39-yard line. McCluskey quickly followed up for 3 yards up the middle.

Hernandez on two running plays ended up just inches away from a first down but Big Ed McCluskey hit the middle of the line for the first down. Bud Gartiser on four consecutive plays picked up a first down but a penalty nullified the play and set the 'Raiders back 5 yards. On fourth down, Davis faded back and hit Bighead with a pass on the 10-yard line and Big Jack promptly turned it into 6 points to tie up the score. Larry Levine split the uprights for the all-important extra point to give the Skyraiders a 7-6 lead.

The remaining three periods of play found the two teams fighting desperately for a score but both defenses failed to crack and the game ended with the 'Raiders on the winning side of a 7-6 score.

Game in Figures

	Naval Air	Ft. Ord
First downs	9	14
Yards rushing	59	125
Yards passing	123	146
Punts	4	3

corner on sports

By GEORGE BERGMAN

Off the recent records, Coach Johnson's Skyraiders should have a pretty good chance to dump the Marine Recruit Depot when the clans gather on the Balboa Stadium gridiron arena Saturday. If you like comparative scores, and will hark only to the past two weeks of play, there's a good line of reasoning in favor of a Skyraider upset.

The Gyrenes are a high-scoring gang. They dropped a stubborn Brooke Medical Center army eleven at San Antonio last Saturday, after quite a skirmish, coming from behind in the waning minutes of the game to a 21-15 victory. The preceding week, Brooke dumped the Skyraiders 9-0, scoring both times against the 'Raider offense, once for a punt-return TD, once on a safety. Our defense was seldom punctured to any considerable extent by the Soldiers.

In other words, a rough and ready, fancy running Marine offense will be tangling with a "can do" Sailor defense Sunday. Margin could be provided by the Skyraiders' unpredictable "hot and cold" offense—an offense which one game is capable of marching half the length of the field for an impressive touchdown against the Los Angeles Rams, and another week is not capable of punching its way through Naval Training Center.

Keep Your Eyes Open Sunday

Another thing to think about—No North Island football team has ever defeated an MCRD eleven. In four years of battling, the Sailors have been trampled badly twice, have held their own nicely on two other occasions, only to see their chances of victory frittered away by unfortunate circumstances.

Last year, at the Rose Bowl, the Marine stalwarts might have won the game anyway. Perhaps they wouldn't have. But a horrible lapse in the officiating favored them to the extent of nullifying an almost certain Skyraider touchdown in the heat of the close battle. Moving pictures afterwards proved that the "boner" had been pulled.

In 1948, another lapse in officiating allowed an illicit first play from scrimmage to stun the Sailors with an opening Marine touchdown and eventual defeat. There again, they might have won anyway. But that astonisher seemed to be the thing that did the trick.

This year the Marines should need neither a black market hideout on the opening play, or a dim bulb on the part of an official, to come out on top. They have racked some pretty good clubs, are unbeaten for the season.

That the Skyraiders have improved since their Brooke game, is also apparent. Same men, better spirit, more fight. Same men, even better spirit and fight this Saturday, and they can lick MCRD, season's records and past history be darned.

RAUL HERNANDEZ goes around end for several more yards against the Fort Ord team before being brought down by an unidentified gridder. Small "spunky" Hernandez gained quite a bit of yardage lugging the pigskin Saturday here at Towers Field. Raul is the smallest man on the 'Raider squad but packs a lot of dynamite for his size.

Captain's Cup Lowdown

By W. R. SMITH

It's a three-way photo finish for first place in the Captain's Cup touch football league as G.C.A. Planning and Supply found themselves knotted at the number one spot at the end of the regular season play. The results of the play-offs for the title, which were to be conducted Thursday and Friday of this week, were not available at the time the NORTH ISLANDER went to press.

Planning and Supply battled yesterday with the winner of that fracas going today against a stormy G.C.A. six. Friday is the final day and the last game of the season which should prove to be a bitterly contested conflict with everything to gain and nothing to lose for the battling teams. It's down to the wire, brother, is all she wrote.

Bowling—Ten teams are entered so far in the bowling league which is tentatively set to start on November 6. Each divisions entitled to enter two teams of 10 men each, and from the present entries it shapes up to be a wide open affair with a single elimination tournament being conducted.

Call for Bowlers

A Naval Air Skyraider Bowling team is in the making but material is still desperately needed. Two seven-man teams are to be formed to represent the 'Raiders in the Bowling League. Tryouts will be held on 27 through 30 October 1952 in the bowling alleys in Bldg. 277 starting at 1330 daily.

Boxing

Several weight divisions are still open on the Skyraider boxing squad and interested personnel should contact Chief Goudy at the Airpac Athletic Office.

Abundance of Music Comedy, Girls in 'Spot Varieties' Show

Laughs a minute by Skip Young, dances by the Bonnie Jean Dance Studios, music and comedy by Buddy Viotti and his Madcaps, played the "Spot Varieties," a North Island Production show at the Ream Theater on Wednesday, 15 October.

First act on the program featured Skip Young warming up the audience. Bonnie Jean Studio's Calendar girls followed in a song, dance chorus line.

Pat Avertt took the audience back to the roaring '20s with her flapper costume and the Charleston. Buddy Viotti and Skip joined together in a comedy routine. Next came Carol Rudolf and her baton twirling, followed by the chorus line in a hula number.

A love scene with Bonnie Jean and one of Ream's talented lovers, Charles Crowley, AD3 of VU-3 was chosen from the audience to take part.

Cutting up a neckerchief, restoring it, and disappearing handkerchiefs was part of Parker the Great's magic act.

"Flamingo," was danced by Nea McAurther and was followed by a hula number. Show stop for the evening was Bob White and his fine vocal numbers. Applause for his singing rang from the rafters and the audience would not let him leave the stage.

Janet Davis and her acrobatics also received a tremendous ovation. The "Television" impersonations of Buddy Viotti again stopped the show until an encore was performed. Bonnie Jean's Chorus line returned for the finale.

After the show, soft drinks and sandwiches were served to the performers at the Ream Ship Service.

HU-1 Unit Back From Korea

Helicopter Squadron ONE, Unit 19, returned to Ream Field 12 October, after their tour of duty in the Korean area.

Officer-in-charge, LT R. B. Cavanaugh, and ENS R. L. Ray, flew the Unit's helicopter on rescue flights, mine reconnaissance and personnel and material transfer flights while the Unit was based aboard LST type ships.

Keeping the "'copter" at 100 percent availability during the cruise was the job of Crew Chief R. Beach, ADC, F. C. Dabney, AD-2, E. F. Kyllonen, AD-2, W. S. Covington, ATAN, P. B. Burkhalter, AN, and E. P. Roden, AN.

Bill English's 33 Points Sparks VU-3 Win Over HU-1

Paced by big Bill English's dynamic 33 points, VU-3K continued their basketball supremacy by blasting HU-1, 77 to 57, for their fifth consecutive win.

Displaying an outstanding exhibition of shooting and ball control, VU-3's cage crew ran away from the whirleymen in the second half, after leaving the floor at half-time with a 28 to 22 advantage.

Leading the scoring with a tremendous 33 points, 24 of which were scored in the second half, English played an outstanding game at the pivot post with his offensive and defensive aggressiveness. Other VU-3 point-getters were Hope, who bucketed 12 points, Steege with 10, Feser's 8, Deibler's 6, and Hays' 5. Top men for HU-1 were Caldwell with 16, and Bates with 10.

VU-3K has now met each of the squadrons two times and boasts a five and one record, losing their first tilt to HS-4, 38 to 36.

Leading VU-3K scorers as of Oct. 15:

	Points	Games	Ave.
K. Deibler, F	24	5	4.80
P. Steege, F	17	4	4.25
G. Hays, F	45	5	9.00
B. English, C	85	5	17.00
H. Hope, G	61	5	12.20
M. Lachowski, G	34	4	8.50

UTILITY SQUADRON THREE's championship softball team with trophies they received last Friday. Standing, left to right, Lachowski, Troegel, Hauer, English, Hays. Kneeling, left to right, Price, Brooks, LT Snellman, Athletic Officer with team trophy, Sufficool, and Steege. Not shown are French, Meehan, Anckner, Allen, Arce, and Stevens.

Answer to Puzzle

Who Is On First When Monday's Got The Duty Sunday?

J. L. Monday and LT M. L. Sunde have caused LT Wilkins, HU-1's Senior Watch Officer, considerable trouble since they checked into the squadron from HTU-1, Pensacola, Florida.

It all started when LT Sunde was to stand LT Monday's Sunday duty so that Monday could fly on Sunday. Monday was to stand Sunde's Monday duty but Monday unfortunately couldn't stand Sunde's Monday duty. Monday was confused and came to the squadron to stand his Sunday duty but Sunde believing the change had been effected also came to the Squadron Sunday to stand Monday's Sunday duty. Monday then let Sunde stand his Sunday duty so that he, Monday, could fly on Sunday. Sunde, believing Monday was to stand his Monday duty, expected Monday to relieve him Monday morning, but, as stated before, LT Monday couldn't stand the Monday duty. This was when LT Wilkins tore at his hair.

LT Wilkins, confused and bewildered, provided a relief for LT Sunde, because it would have been unfortunate for Sunde to stand both the Sunday and Monday duty in succession.

As always, there was a happy ending. LT Sunde didn't stand the Monday duty, LT Monday got to fly, and LT Wilkins went on a week's leave. CDR. H. M. Kosciusko, HU-1's Skipper, jokingly stated, "I hope a LT Friday doesn't check into the Squadron. We're already wondering, who's on first."

Dan'l Boone Had Nothing on Harrington

A HS-2 man has recently tried the life of the frontiersman and emerged with nothing but respect for the much vaunted pioneers of the West.

Robert L. Harrington, CS3, set out deer hunting alone in the desolate Lake Arrowhead region for what he thought would be a single day's adventure, but what resulted in three days of search for the civilization which he left on October 4 at 9 a.m.

He set out from the Hook Creek area bound for Holcomb Creek, where the hunting was reportedly very good. Approximately two miles from his starting point he was advised by a passing hunter that there was a short cut to his destination which would cut nearly half the time enroute. Harrington accepted the advice and by noon was lost in the maze of woods and mountains. His first thought was to find running water which would lead him to civilization so he back-tracked to a recently-crossed stream where he camped for the first night out.

Constantly aware of the threat of bears, cougars and poisonous snakes, his vigil never ceased except in the one or two hours of fitful napping which came upon him in his exhaustion. A fire was maintained throughout the night.

On the second day, he followed the creek for miles of nearly impassable terrain. The cuts and bruises testify to the determination which he must have had to proceed on this torturous route. On this day he found his first food in the form of berries. He denied himself the pleasure of a good meal which he would have had if he had shot one of the many deer he encountered, but, confident of the limited time of his trial, he refused to waste the meat which would inevitably be left behind. It was on this day also that he watched a Coast Guard search plane fly overhead while he was unable to signal it while in a deep, heavily-wooded ravine, obscured from the sight of any flier. Harrington slept in a cave beside the stream during that night.

On the third day an old deer trail presented itself as a trace of what might lead to civilization. A sign pointing the way to a forestry tower law beside the trail, but it was down and there was no way of knowing which way to go. Following it for distance, Harrington saw the trail diminish to nothing and so was obliged to follow it in the opposite direction, retracing his steps. During the time of his wandering he had fired some twenty shots to signal anyone happening nearby, but with no response. At nightfall he was still on this trail and camped in the open woods.

This third night was the most difficult because the dense woods and underbrush threatened to be an inferno with the smallest spark, thus making fire prohibitive. He had no protection against the mosquitoes and no blankets to ward off the cold, but sleep came to him as the inevitable result of weariness.

On the morning of the fourth day he came upon Hook Creek, his starting point, and ended his adventure. His parents, who had been notified that he was lost, were informed of his appearance and the searching parties were called in.

Says Harrington, upon his return, "I wouldn't hesitate to go out alone again, because I know this area pretty well now, but next time I would carry enough supplies to support me just in case I did get lost. It gets pretty cold out there at night when you don't have a blanket."

As a result of his ordeal he was only hungry and tired, and the visible signs were limited to swollen feet and hands, and the bruises and cuts suffered in his falls following the course of the stream.

50,000th Prescription Filled At Out-Patient Clinic

Last Thursday, October 23, LCRD E. S. BILLS, MC, USN, wrote the 50,000th prescription to come out of the NAS Outpatient Dispensary since the facility was opened May 3, 1951. Dr. Bills, who has been on deck at the dispensary by the Coronado gate ever since the opening date, also wrote the first prescription to go over the counter that day.

Pictured above (left), LTJG Katherine Keating MSC, USN, pharmacy officer, accepts prescription from Mrs. Josephine Wolf, wife of a USS NEREUS man, prior to stamping number 50,000 on it. (center) She counts the pills which constitute part of the prescription, and (right) returns the filled prescription to Mrs. Wolf, who holds Suzie up where she can see what is going on.

The dispensary, which enjoys a heavy patronage among Navy dependents, handled its heaviest business during the month of January of this year, when flu, colds, and throat infections were at their height. Maximum single day's business included 268 prescriptions.

Drive Hits Climax

Drive Closes with Monday's Pay Day, Last Opportunity To Put Station Over the Top

This week, the United Fund Drive (combining money raising campaigns for 59 youth work and charitable agencies in the community) draws to a climax, as the dollars roll in. Generous contributions from many thousands of civilian and military personnel have swelled the early returns, and the total already received is gratifying.

But still more is needed, as the requirements for maintaining these 59 organizations are as multitudious as ever, and their expenses, like everything else, have gone up this year. It costs more than ever to take care of a kid in the Crippled Children's Hospital, more than it did last year to keep up cancer research, or to send an underprivileged boy to YMCA camp.

LCDR J. L. Morrissey, campaign coordinator for North Island, urges that everyone on the station review his or her pledge, increase it if possible. The response has been fine, but even more is needed.

Sailboat Sale

NAS Special Services is offering six Lehman dinghy sailboats for sale. The boats, 10 feet in length and of plastic glass construction, are complete with sails and dagger boards, boat locks, sail and mast.

The Special Services Officer describes the condition of these boats as "average to good." Initial cost was $600.00 per boat. They have been in use one year.

Sealed bids should be submitted to the Special Services Officer, Naval Air Station, San Diego. Sealed bids will be opened on November 5 1952.

Have You Given Enough?

UNITED FUND DRIVE NEEDS YOUR ALL-OUT SUPPORT

Never have North Island personnel, civilian and military alike, had so great an opportunity to respond to so wide-spread a need. The 1952 United Fund Drive affords a chance to aid not one, but 59 separate agencies to do good work in the community. Your contribution to the United Fund Drive is needed NOW.

If you have ever been a Boy Scout, a Girl Scout, member of the YMCA or associated with a boys' club . . . if you've ever been helped by Salvation Army, Red Cross, or any of the other great service organizations associated with the United Fund Drive . . . you'll appreciate the vast work undertaken by the solicitors and coordinators of the North Island UFD organization. You'll appreicate the opportunity to give ONE TIME to take care of the 59 agencies.

If you are one of those individuals who have been fortunate enough neverto have needed assistance, or if on the other hand, you never had the opportunity to participate in any of the splendid youth programs embodied in the organizations listed above, you surely will want to help others in need of relief or assistance, and to aid the present generation of kids to enjoy that which you missed.

The 56 agencies of the Red Feather-Community Chest, the American Cancer Society, American Red Cross, and Heart Foundation, represent 59 different ways in which you can help your fellow man simbly, and surely, by your cash contribution to the UNITED FUND DRIVE. Have YOU pledged all that you can?

The NORTH ISLANDER

U.S. NAVAL AIR STATION

VOL. VIII — SAN DIEGO, CALIFORNIA, OCTOBER 31, 1952 — No. 44

Give Service Orphans a Merry Xmas, Attend the Station's Benefit Dance

All Military Personnel May Wear "Civvies" at Benefit Dance

Buffet, Door Prizes Featured With ComCruDesPac Dance Band

Your attendance at the Station's big Benefit Dance, Friday, November 7, will insure a merrier Christmas for all children of deceased Armed Forces personnel living in the 11th Naval District.

The proceeds of the dance will be used by the Christmas Party Committee to purchase personal gifts for each registered service orphans.

Your $2.00 ticket buys a Merry Christmas for these unfortunate children and a wonderful time for yourself. The kids get presents from Hopalong Cassidy on Christmas morning—you get a buffet, door prizes, entertainment and dancing to the famous music of the ComCruDesPac band under the baton of of Chief Musician R. Dale Clendenon.

VALUABLE DOOR PRIZES

Door prizes include a 21-inch console Sylvania television set, a Zenith Clock-Radio, and a General Electric Roaster oven—all through the cooperation of Dennstedt's Electro Mart of San Diego. Capitol Records have promised to add to these door prizes of albums of their top recording artists.

And, the big news—you don't have to be present to win!!

Make your reservations to the biggest social event of the Air Station by buying a ticket (or two) from any division officer, senior civilian supervisor or squadron executive officer.

Remember your dance ticket is your civilian clothes pass on the big day—Friday, November 7.

Limited Excused Time For Voting On Election Day

Since California State voting hours are from 0700 until 1900, it is believed by the Commanding Officer that no employee of this station will be prevented from reaching his voting place either before or after working hours.

Due to the fact that production would be seriously interfered with if all employees were permitted to be absent for voting purposes, excused time for voting will be allowed only where it is shown that the employee lives a great distance from NAS and will be greatly inconvenienced if time is not allowed.

Such absence will not in any event exceed the time actually required to vote, and in no event will exceed one (1) working day. Employees so excused shall be paid for the time excused at the same rates they would have received had they remained at work.

240 Military Give Blood

Four North Island outfits have responded generously to a call for military blood donors to participate in the American Red Cross Blood Donor Day on the Air Station next Friday, November 7.

Two hundred forty volunteers will be on hand at the Main Infirmary starting at 0830, and continuing throughout the day. One hundred seventy-five donors will be from Fairbetupac, 25 from Tacron 5, 15 from VR-32, and 25 from Fasron 110.

Donors are reminded not to eat anything for a full four hours prior to their scheduled time of giving blood. Those scheduled after 1100 may safely eat breakfast. Black coffee and fruit juice may be taken up to the time of giving blood.

Red Cross Gray Ladies will serve coffee and donuts to participating personnel after receiving their donations.

Further donor days are expected to be scheduled in the future, for the need is continuous and is great.

An Editorial

GOLD STAR KIDS

Gold Star Kids, Gold Star Wives and Gold Star Mothers are the necessary aftermath of wars and police actions. Though they all are a responsibility of the survivors, it is in the children that lies the heritage of tomorrow.

It is the children, these Gold Star Kids, for whom the Naval Air Station holds the annual Christmas party that is one of the station's most solemn observances of the Yuletide.

At the annual Christmas party, these Gold Star Kids receive practical gifts from their perennial favorite—Hopalong Cassidy. These gifts, each presented personally by "Hoppy," are purchased through the joint support of the military and civilian personnel of this station.

It is your support of the station's Benefit Dance, being held on November 7 this year, that provides the necessary funds for the Christmas party. Whether you plan to attend or not, don't forget the Gold Star Kids and buy your ticket today!

San Diego businessmen and professional entertainers appreciate the need of these Gold Star Kids, and freely donate their profits and talents to the annual party.

With the added incentive of valuable door prizes, a buffet, entertainment and dancing to a top-notch service band—coupled with the undeniable need of these children—the $2.00 ticket seems, somehow, very insignificant.

Remember the man who gave—gave his life—and remember his children. Remember by attending the dance November 7.

TV Star Joins Party

MONTE HALL, Channel 8 television star of the Monte Hall Western Theatre and Time For Beany, announced this week that he will appear on the Christmas Party with Hopalong Cassidy and other top western stars Christmas morning for the station's annual Christmas Party for Children of Deceased Armed Forces Personnel.

electrons

By Mildred Splichal

Tomorrow evening the Electronics Workers will trip the light fantastic at the Annual Halloween Dance. You don't have to worry about "What shall I wear?" This is a **Tacky-Wacky Dance.** Come any way you like. There will be prizes for Tacky and Wacky costumes.

Get your party up and come for fun. Eddy Kipps' Orchestra will play the music you like. There's fun for all promised, so come early and stay late. Your North Island badge is admission for you and a guest. Sorry, but extra guests and workers from other divisions will be charged $1 admission.

* * *

Welcome back to Terry Evans, Don Nuzzo and Georgia Pungers. All have been on the sick list for sometime.

* * *

Mr. and Mrs. Wm. Bader have just returned from a month's vacation, part of which was spent in New York, and part of it was spent in Mobile, Alabama, visiting with friends and relatives.

* * *

The Deep Sea Fishing trip enjoyed by several workers of the Cable Shop last weekend has been the topic of conversation this past week. The party consisted of **Howard Kimble,** and his wife, **Dave Avery, Grace Harris, Pappy Barnes, Ruth Miller, Mr. Schultz, Edna Wheeler, Chuck Chapman, George Petrovitz** and **Lucille Heater.** Lots of fish were landed. Dave Avery won the Jackpot for the largest fish caught. Chuck Chapman and Howard Kimble had to use both their hooks and lines to land one fish. To settle the debate as to who the fish belonged, a coin was tossed and Chapman won.

Another trip is being planned for November the 8th. If interested in going or for information, please contact H. J. Kimble of the Cable Shop. The boat leaves from Ensenada in the early hours of the morning.

* * *

Maybe the Goblins and Witches will get me if I tell, but Happy Birthday wishes to the Halloween Kids, **Emily Grinsell** and **Toni Vasquez.**

Handicapped Parking Regulations Modified

First row of spaces in the Harbor Drive Parking lot was originally reserved for handicapped Naval Air Station personnel. Because many people entitled to this privilege are arriving early and parking elsewhere, complete utilization of the row is not being made by these people.

Due to the critical parking conditions in the Harbor Drive lot, this special area will be considered open to general use after 0715 each morning.

BEWITCHING

MAE ENTWISLE, "Miss Navy Relief," "Fairest of the Fair," and holder of 23 other major San Diego titles is the "Queen Witch" of the NAS trio of witches. Mae will reign over the station's benefit dance and will draw the lucky numbers for the big door prizes . . . Have you bought your ticket yet??

Chaplain's Corner

No One Cares

"Insult our flag and you would be nabbed by patriots. Boo and hiss our President and you could land in jail. Curse America and you might be arrested as a Communist. But insult God, drag His Holy Name in the dirt by filthy oaths and no one seems to care. Men resent insults to their mother and will fight over them. Where are the men who will show resentment over an insult to God, our Creator and Saviour? 'God Bless America' has become a popular song and slogan, but can we actually mean that slogan and continue to misuse God's Holy Name? If we expect God to be our ally, we should be on His side. If He is our ally the least we can do is use His name with honor and respect."

FATHER H. T. LAVIN,
Catholic Chaplain.

CATHOLIC HOLYDAY

November 1st, All Saints Day, Holy day of obligation for all Catholics. Mass schedule: 1200, Bldg 8 Auditorium; 1645, Main Chapel.

PROTESTANT COMMUNION

A communion service will be held Sunday at the Protestant service held in the Chapel at 1000.

For Men Only

TELLING PEOPLE WHAT GOES ON "BEHIND THE SCENES," CONCERNING YOUR JOB, SETS A BAD EXAMPLE AND CAN JEOPARDIZE NATIONAL SECURITY.

Women, and girls (past three), seem to have an uncanny knack for inspiring even the "strong, silent type" of man to become a regular "Major Hoople," causing him to tell them everything.

The sight of a beautiful face often provokes the average male to open the conversation—if not in these words, at least with this intent—"I'm a great man." He then goes on to explain his stand with, "You may not believe it, but I know all about these new jets, why they can fly. . . ."

By this time the young lady should be impressed one way or the other. If she's a good loyal citizen, she'll be impressed with what a poor security risk you are. If she should happen to be an enemy agent, she'll be much impressed with what an "easy mark" you are.

O.K.—This may be an extreme example but there is really too much loose talk resulting from the male of the species trying to impress the fair sex. REMEMBER—security of information about classified material is important.

$econd $afety $logan Bring$ Ca$h

JOHN (PAT) LARACY, of the Receipt Control Section, Supply and Fiscal Department, was the winner of the second month of competition in the North Island Association's Safety Slogan Contest. His slogan, "Don't Let Your Careless Fire Be Your Funeral Pyre," brought him the cash award offered by the association each month. Presenting the check to Laracy is Richard Keller, NIA First Vice President. Others in picture, (left to right), are W. Kirby Vaughn, Supply & Fiscal, selection judge; Murray Champion, Supply & Fiscal Receipt Control Supervisor; and J. R. Griffing, IRD Safety, NIA Slogan Contest Chairman. The third month of the slogan contest is now under way, with participation gaining each month. Another winner will be announced during November, so submit YOUR safety slogan today! Drop it in any Benny Sugg box, with your name and the number of your shop.

Introduction Is in Order

For the benefit of new employees recently hired at the Naval Air Station, it would be well to reintroduce "Benny Suggs."

This little fellow is the trademark of the Beneficial Suggestions Committee that appraises ideas on improvements made by civilian employees. If you haven't paid any attention to this little fellow then by all means you should make it a point to get acquainted with Benny.

He's the guy who can help you take home an extra paycheck, but YOU have to start the ball rolling by submitting your constructive ideas for increasing production, improving quality or method of operation, preventing waste, reducing costs, improving safety or improving working conditions.

The Benny Suggs Committee on Awards will be glad to present you with awards ranging from $10.00 to $275.00 depending on the savings or other benefits to the Air Station attributed to your suggestion.

If you have such an idea—and everyone has ideas! Here's what you do:

Write your suggestion out in detail, giving rough sketch or other means of making the idea clear. Send it through the regular mail to Beneficial Suggestions, Building 415 or drop it in one of the many suggestion boxes located throughout the station.

Good Ideas Pay Off! Turn Them in!

Lazy Jokers, Masterwitch Gain on Lead

Lazy Jokers and Masterswitch fives dumped league-leading Tool Room, and third-place Lay Out, respectively, to gain ground in the North Islander Civilian Winter Bowling circuit last Friday.

Ted Watson, of the seventh-place Jiggers, was top pin basher, with a 245 high individual game, while top series score went to Leo Stone of second-place Yankees, with 583.

Hellcats are now in eighth place, Long Shots lag in ninth place———and Steamrollers.

TRADING POST

FOR RENT—One bedroom, new house, North Park area. $75.00 per month. Phone R-7052.

FOR RENT—One bedroom in new duplex. Located in Imperial Beach. $75.00 per month furnished, $65.00 unfurnished. Phone T-5942.

RIDE WANTED—From vicinity of Fourth and Belmont to Ferry. 0645 to 1515 shift. Call G-7-5594, or contact Morgan at shop 3266B, Bldg. I.

RIDER WANTED—Driver wanted in car pool from Valencia Park to Navy parking lot. 0645 to 1515 shift. Call M-4-3844 or M-4-7083.

FOR RENT—Single room, privileges, less than half block to El Cajon Blvd. bus. Employed man only, $35.00 per month. 4261 41st St. Call R-3397.

FOR RENT—Large house with spacious rooms. Located on corner, 1378 Beryl St., Pacific Beach. Small pets okay; will consider children. Phone H-8-1893

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

Q. When an employee is absent due to injury or sickness for five (5) or more consecutive days, is he required to report in to the Civilian Dispensary prior to reporting in for work?

A. The employee will be carried on sick leave until he reports to the dispensary, and shall not be returned to duty until certification by the dispensary on the NAVEXOS-107 that he is physically qualified to resume his regular duties.

Q. Under whose jurisdiction are employees of NAS San Diego while in transit on the Star and Crescent ferry-boats?

A. Employees are under the jurisdiction of the Civil Authorities.

Q. Has any thought been given to the Naval Air Station traffic problem which will ensue on the Strand when the Amphibious Base is enlarged?

A. The traffic problem of the Strand highway is primarily between the City of Coronado and the State. It being a secondary state highway. Coronado has continually requested the state to widen and make a 2-way travel and the State Division of Highways has this project on their agenda for future construction.

Their recent comments in the local newspapers quoted them as saying that there were too many other projects of higher priority to take any further action at this time.

There has been continual request by Imperial Beach and Coronado for something to be done.

Q. Is is possible for employees on travel orders to obtain insurance covering them on flights out of NAS San Diego in Government Aircraft?

A. Yes, trip insurance policies with Indemnity Insurance Company of North America are available in the Administration Department, Building 8, for those desiring this additional protection while on travel orders. The premium for a $5000 policy covering a single trip of less than 30 days within the continental United States is $1.00. Insurance is also available with the same company for those traveling outside the United States. Cost of this policy is higher, depending on coverage desired and length of trip.

(Clarification of Question and Answer appearing in this column on 17 October 1952)

Q. I am a Federal Employee. Can my wife or husband participate in political activity?

A. Employees are accountable for political activity by persons other than themselves, including wives or husbands, if, in fact, the employees are thus accomplishing by collusion and indirection what they may not lawfully do directly and openly.

More USAFI Courses at I&E

Picture of an ex-serviceman who didn't need USAFI

USAFI has announced a new course listed as Carpentry II (CC 5757). This course along with the course in Carpentry I provides a full year's work in carpentry similar to that offered in many technical schools.

The purpose of this second course in carpentry is to provide practical instructions in Carpentry construction from the excavation of the basement to finishing the interior of the complete structure.

The course includes instruction on both the why and the how of practical construction.

This course is available as self study, correspondence and group study. There are ten lessons to the course and the course is completed by passing an end of course test.

USO Week Nov. 3-8 Coincides With Close of NAS Fund Drive

Next week, November 3-8, has been proclaimed USO Week in tribute to the outstanding services performed for military men and women of the San Diego Area by the USO Advisory Council and its six member agencies. The special program of week-long activities coincides with the conclusion of Naval Air Station's United Fund Drive, and points up once more, a clear picture of why everybody on North Island should lend cash support to the joint fund-raising drive.

Participating in USO Week activities will be various bases of the 11th Naval District as well as civic organizations, the San Diego USO Advisory Council, and the USO agencies.

Included in the USO council are the National Catholic Community Service (NCCS), Armed Forces YMCA, Salvation Army, National Jewish Welfare Board, Travelers' Aid Association and the YWCA. It is through the aid received from the Red Feather-Community Chest, beneficiary of the current United Fund Drive, that the USO is able to continue its vital work in behalf of service personnel.

SCUTTLEBUTT

"I'm supposed to entertain you until you're rescued!"

USO Week ceremonies will begin with a 50-piece military band concert at 7:30 p.m. at Horton Plaza in downtown San Diego November 3. All USO centers will hold open house during the week, with entertainment programs and refreshments for visitors. Speakers in behalf of USO will appear before 25 luncheon and service clubs throughout the city and county to tell the USO story.

Special parades are scheduled for Friday, November 7, at the Naval Training Center and the Marine Recruit Depot with members of the USO Executive Committee and San Diego city officials joining military officers on the reviewing stands.

Concluding the celebration will be a football game Saturday, November 8, between two of the nation's top service teams from the Marine Recruit Depot and its counterpart on the East Coast, the Parris Island Marine Recruit Depot. The public is invited to attend the game which will start at noon in Balboa Stadium, San Diego.

Navy Opens Ranks In Medical Service

Appointment as ensign or lieutenant (jg) in various fields of the Medical Service Corps are being offered to Navy and Marine officers and enlisted men, the Navy has announced.

Personnel on active duty in the Navy or Marine Corps, except regular Marine Corps officers, are eligible to apply. Male candidates must be between the ages of 21 and 32 at time of appointment. Women candidates must have reached their 21st but not their 30th birthday by July 1, of the year of appointment.

There are no dependent restrictions for men, but women applicants must not have dependent children under 18.

Shirley Leads Mixups to Win

Sporting a 256 high game and a 601 series, George Shirley paced the Mixups to a win over the Woodpickers to help his quintet into third spot in the NACRA Mixed Bowling League Tuesday night at Pacific Recreation.

Shirley's game mark was a new high for the season.

Pinbusters maintained their fast pace in first spot, with Just Us Five holding on in second. Each of the top three squads ran up 3 to 1 marks for the week.

It was Friendly Five however, that blistered the alleys at the right time, scoring 4 to 0 over Question Marks to raise themselves closer to the first division.

	Won	Lost
Pinbusters	24	8
Just Us Five	22	10
Mixups	18	14
Happy Five	16	16
Easy Aces	15	17
Question Marks	13	19
Friendly Five	13	19
Woodpickers	7	25

"Certainly feels wonderful to wear civies again, hey girls?"

Navy's 'Victory at Sea' Acclaimed by Critics

"Victory at Sea," the film history of sea power during WWII now being presented over the National Broadcasting Company's television network, has received considerable acclaim in its initial showings.

Nation-wide press notices praise the documentary which is scheduled for a 26-week series. The New York Daily News termed the film, " . . . the biggest motion picture project ever attempted for television."

Ski Club Meets Again Tuesday

Opening its membership to both military and civilian North Island personnel, the NAS Ski Club held its first meeting of the season Tuesday evening at the Bldg 8 Auditorium. Harley Gardes, president, announced the resolution extending the membership to civilians and their friends at the meeting, which was supplemented by the showing of colored action ski movies.

The club, which is making plans for the approaching winter and hoping for heavy snows, will meet again next Tuesday at 2000 at the same location.

Seventeen attended the opening meeting, and many others have signified their intention of signing up for a winter of fun.

Navy Eases Criteria For USNR Officers

The Navy has announced that reserve officers released from active duty during the present emergency, will not be required to begin nearing retirement or promotionc recms under the naval reserve program, until the beginning of the second fiscal year following the year in fhich they were released.

The Navy pointed out that this is a temporary exemption from the "lack-of-progress" rule in the reserve program. The Navy also said that officers approaching their 20th year of satisfactory service will not be transferred to the inactive list without being offered every practicable opportunity to meet the standard set by the Naval Reserve Act.

"I said how's that for flaps . . . Ed? . . ."

MAN THAT IS REAL PEPE LE SAVOARY SHIP SHAPE KEEP IT CLEAN

OPERATION BLONDE AFPS

Critical 'Help Wanted' List Now Includes 18 Rates

Several additional ratings were added to the "Critically Needed" list at Naval Air Station this week. Personnel are now urgently wanted in the following per diem rates: Aircraft Mechanic General: Machinist: Drop Hammer Operator; Metalsmith, Aviation; Laborer; Radio Mechanic; Laborer, cleaner; Refrigeration & Air Conditioning Mechanic; Truck Driver; Laborer, heavy; Electronics Mechanic; Automotive Mechanic; Aircraft Specialist Ratings; Most Helper Categories.

In per annum grades, the following are on the critical list: Storekeepers (GS-2 and GS-3), Storekeepers (GS-4) with Automotive Parts Experience, Telegraphic Typewriter Operator (GS-3), and Blueprint and Photostat Operator (GS-2).

Civ Participation In Payroll Savings Shows Sept. Gain

Civilian participation in the Payroll Savings Plan for the month of September has increased to 62.7 on NAS. This is a 7.7 percent gain over the previous monthly average, and is an indication that North Island employees are accepting this method of savings for personal and patriotic reasons.

Actually however, more participation is necessary if this station is to equal the average for other Naval activities in this area, which amounts to 67.5 percent.

No sales talk should be necessary. Every employee should realize that it's just a matter of getting started on the regular payroll deduction plan. From there on, it is automatic, and you save the easy way.

Trading Post

RIDE WANTED—Or will form car pool, from vicinity of Clairemont Village. 0800 to 1630 shift. Call W-7-1114.

RIDERS WANTED—From vicinity of Clairemont to Station parking lot. See Mrs. Kennedy at Test Line in Bldg. 21.

Reserve Aviators To Be Considered For Regular Navy

On or about Feb. 1, 1953, a board will be convened for the purpose of selecting Naval reserve aviators who were formerly aviation cadets, for transfer to the regular Navy, the Navy has announced.

Eligible for consideration are ensigns who accepted their appointments between Jan. 1, 1951, and June 30, 1951. They must be less than 25 years of age upon transfer, and have completed 18 months continuous active duty in commissioned status following designation as naval aviator.

Interested officers should submit their applications for regular commissions to the Bureau of Naval Personnel via their reporting seniors. The application must be received in the Bureau prior to Jan. 1, 1953.

Fly for France

FIRST EIGHT new F4U-7 Corsairs to be delivered to the French Navy were ferried from the Dallas factory to Norfolk, Va., by VR-32 pilots. The pilots are shown with the latest model of the venerable 14-year-old Corsair prior to the Norfolk flight. Left to right, on wing, are: LT R. C. Wolverton, LTJG W. L. Schulz, LT D. P. Jones, LT W. C. Moessmer. Standing are: LCDR J. H. Carroum, LTJG B. J. Burleson, LT H. C.Erickson, and LT. G. E. Watts.

BEWITCHING

LEAH ROGERS, "Miss Ocean Beach," is the short curvaceous brunette witch of the NAS trio of witches. She also will attend the station's benefit dance November 7 . . . Have you bought your ticket yet? ?

Wins First Prize

KILLORN WAS THERE—C. L. Killorn of K-2 Division, was presented this fine outboard motor for his feat of landing a 44-pound white sea bass, to top the North Island fishing derby the week ending June 14.

AirPac Chief Dons Makeup Again

Cee Cee Pitts Joins Morale Lift and NAS Christmas Party

Veteran Navy Chief Photographer's Mate, C. C. Pitts, of AirPac's Public Information division will again this year star in both AirPac's "Operation Morale Lift" and the station's annual Christmas Party for Children of Deceased Armed Forces Personnel.

Chief Pitts is a veteran clown with over 20 years' experience in charitable and civic events. He appeared on Channel 8 three times this week to publicize the AirPac and NAS Christmas projects as well as to urge everyone to attend tomorrow's annual Shrine Football Game at Balboa Stadium.

As an active member of the Al Bahr Shrine, Chief Pitts has gained a nation-wide reputation for his charitable activities.

CEE CEE THE CLOWN joins Channel 8 television stars Larry Shields and Carole Salentine in a TV appeal for registration of service orphans for the annual NAS Christmas Party for Children of Deceased Armed Forces Personnel, and an appeal for families to register for AirPac's "Operation Morale Life," and for all San Diego to turn out for the annual Shrine football game tomorrow at Balboa Stadium.

Fire Prevention Slogans Rewarded

J. J. Laracy of Receipt Control, Supply & Fiscal Dept., will assure you that Fire Prevention not only saves money but can also earn it.

"Your Careless Fire May Be Your Funeral Pyre" is the entry which entitles him to the monthly $10.00 first prize to be awarded by the North Island Association at their Board of Directors' meeting November 5 at the Lion's Club in North Park. (Everyone welcome).

NIA membership for 1953 will also be awarded to Mr. J. E. Goeas, O&R Metal-Machine Div., and to Fire Prevention Chief M. R. Smith for their respective slogans:

"It is Harder to Explain a Fire Than to Prevent It."

"A person Who Smokes in Bed is Sometimes Found "Smoked" in Bed."

Other outstanding slogans were submitted by J. E. Parmier, G. E. Young, C. W. Parlow and W. F. Garber.

In making these choices, NIA judges Vaughan, S&F Dept.; Quicker, P. W. Dept.; Henry (pinch-hitting for Curry), O&R Dept.; Huber and Griffing, Safety Div., voted only for the slogans they liked. They did not know when they voted who originated their choices nor for what slogans the other judges were voting.

Another big contest is now in progress. Submit your original safety slogan right away for consideration in the Good Plant Housekeeping Contest open until November 14. A clean and orderly working space will prevent accidents. See what you can do to bring about this desirable condition and express your idea in slogan form. Drop your slogan, with your name, division and shop number, in a Beneficial Suggestion box and it may bring you recognition and awards. How can you lose?

Charles Severns, apprentice, leaves this Friday to become a member of the Air Force.

N.I. Square Dancers Join in Festival

North Island Square Dance Club, which comprises about 100 Naval Air Station employees and their ladies, will take part in the second annual Fiesta de la Cuadrilla, square dance festival to be held at the Balboa Park Club, tomorrow and Sunday.

The festival is sponsored jointly by the San Diego Park and Recreation Department and the San Diego Square Dance Association.

Saturday features will include exhibition and style show from 1:30 until 5:00 p.m., followed by a chuck wagon dinner at 6:00 and an evening of square dancing commencing at 8:00.

Sunday there will be a "buffiesta" at 11:30 a.m. followed by an afternoon dance from 1:00 until 5:00.

Registration will be held Saturday morning starting at 9:00. All Saturday afternoon events are free to the public, and all North Island employees and service personnel are invited to attend.

54 Days Until CHRISTMAS

Not too early to begin planning for the event. Again NAS divisions and shops will be preparing for the annual Christmas parties. To facilitate the early procurement of Yuletide decorations, it is requested that NAS Department heads place orders as soon as possible with the NAS Special Services Officer.

RADM Arnold ComCarDiv 15

REAR ADMIRAL MURR E. ARNOLD, USN, has assumed command of Carrier Division 15 temporarily based at NAS.

Chief Warrant Retires 'on 30' Friday

30-Year Navy Veteran Holds Inspection

Completing 30 years, nine months of active duty, CHRELE John H. Klomparens formally retired from the Navy Saturday. In ceremonies held in his honor at Fasron 110, Mr. Klomparens inspected the officers and men of the squadron.

Serving in World War I and II and the Nicaraguan Campaign, he holds the Purple Heart, Presidential Unit Citation with star in lieu of second award, Good Conduct Medal with four stars in lieu of further medals, Naval Occupation Medal and World War I and II Victory Medals.

CHRELE Klomparens announces that he plans to reside in San Diego on retirement, where he has many friends and associates.

CHRELE Klomparens inspects Fasron 110 personnel as part of retirement ceremonies held for him last Friday.

Legion Post Holds Harvest Dance for 'Thanx' Tomorrow

Gingham, Calico and Jeans or Cords will be appropriate attire for the Pacific Beach American Legion Post's Harvest Dance Saturday night, November 1, at the Pacific Beach Legion Hall.

Proceeds from this dance will go to benefit the "Thanx" organization, a group which originated in San Diego, and has become known nationally for its untiring work in corresponding with, and sending gifts to, servicemen in Korea.

"Thanx" is in the midst of a Christmas drive, and needs postage to send books, writing materials, candles, candy, smokes, and other items to overseas servicemen on the fighting lines.

Mrs. Carleton Shaw, founder of "Thanx," will be guest of honor at this dance.

Payday Monday

NAS Military payday, scheduled for next Monday, will be conducted by the Disbursing Office at its new location in Bldg. 334. Payment will be made on the ramp extending along the north side of the building between the hours of 0800 and 1130.

Officers will be paid in cash between the hours of 0930 and 1030. Check payments will be made any time between 0800 and 1630.

Chief petty officers will be paid between the hours of 0800 and 0815, with those in the A-J alphabetical group being paid at window No. 1 and K-Z pay window No. 2.

Other enlisted personnel will be paid commencing at 0815 according to the following schedule:

Pay Window No. 1
WAVES
MESSMEN (A-J)
ALL OTHERS (A-J)

Pay Window No. 2
MESSMEN (K-Z)

ALL OTHERS (K-Z)

Pay will be continuous from 0815, the Disbursing Officer announced. Time schedules for each alphabetical group, as have been used previously, have been discontinued. It is expected, as a result, that pay can be issued to personnel in a much shorter time.

SUSAN MORROW co-starred with John Payne in the Paramount technicolor out-door production "Blazing Forest." The action-packed picture of lumbermen and their fight against forest fires also stars William Demarest, Agnes Moorehead and Richard Arlen.

NAS CIVILIAN BLOOD DONOR

Honor Roll

Employee Services announced that the following civilians volunteered to donate blood during the week of October 20 to October 24 for the NAS Civilian Blood Fund for use of civilian employees and their families.

LLOYD LYNN, Electronics
A. E. HYATT, Metal & Machine
ROY BALL, Repair & Flight Test
MARGARET QUINN, O&R Administrative
CLYDE DAWSON, Structures & Finish
VERA HARRIS, O&R Planning

'Raiders Lose To MCRD, Battle Phibs Tomorrow

McClusky Scores Two 'Raider Touchdowns

A crowd of approximately 8,500 football fans watched the Naval Air Skyraiders battle the Marine Corps Recruit Depot Saturday afternoon at Balboa Stadium. The Leathernecks beat the Skyraiders by a score of 45-13 but the game was not as one sided as the score seems to indicate, for up until the final period when the Marines scored 21 points the contest was a close gridiron duel.

Mike Michon, subbing most of the afternoon for Tom Carodine, was the big gun for the leathernecks, scoring two of their six touchdowns and doing most of the yard gaining on powerful running plays. One of his touchdown runs consisted of a 51 yard sprint up the middle of the Airman line and the other was a six yard jaunt around his own left end. Michon is an ex-Rice gridder and has been a vital factor to the leathernecks as they went about building their so far undefeated season.

The Skyraiders were definitely in the game during the first three periods, playing the Marines on fairly even terms. The passes thrown by Davis and the runs by Ed McCluskey kept the Johnson eleven in close quarters with the Depot squad. Davis connected on 10 of his attempted 19 passes in the first session.

Marines Score

Taking advantage of a fumble thrown their way by the Naval Air Skyraiders in the first period the Marines drew the first blood as Arnold Burwitz dove over from the one yard stripe to make the score 7-0. The Airman bounced back with a 78 yard drive but the touchdown march stalled within two yards of the double stripe marker.

McClusky Goes Over

The Skyraiders made the score 7-6 as Ed McClusky smashed over from the 15-yard line in the second period. The extra point try failed. The Devildogs were quick to bunce back with 10 more points as Michon went six yards for a score and Rudy Trbovich kicked a 22 yard field goal to make the half-time score 17-6. In the third period Michon sprinted 51 yards for a Marine six pointer. Big Ed McClusky then ended a 76 yard 'Raider touchdown drive with a two-yard dive off tackle and Lavine converted to make the score 24-13 at the end of the third quarter.

Marines Break Away

From here on in the leathernecks had it all their own way. Ed Brown heaved a 28 yard touchdown pass to Ron Hoenisch, Serna romped 46 yards around right end for another score. With three minutes remaining defensive halfback Camilli Capuzzi intercepted Davis' flat pass and dashed down the field for 25 yards and the final touchdown of the game. The sounding of the gun ending the gridiron duel found the Skyraiders on the losing end of a 45-13 score.

ALL IN VAIN; pictured above is Planning's Rogers reeling off a good run against the G. C. A. team in last Friday's Captain's Cup football finale. Although Rogers made yardage assisted by Conner and Dietrich as blockers, the Planning men went down in defeat by a 14-13 margin.

GCA Defeats Planning to Win Captains Cup Tourney

By W. R. Smith

Rounding out a hard fought touch football season, GCA defeated a strong Planning team 14-13 at Murray Field Friday for the Captain's Cup championship.

It was a straight from the story book finish for the GCA men as they came from behind in the last 40 seconds of play to dump their rivals.

The intermission gun sounded with GCA sporting a 7-6 edge over the Planners, but the defect was soon erased as the Planning six scored an early third quarter six pointer on a pass play good for 28 yards from Rogers to Conner. Morgan added the extra point with a perfect placement.

The third and fourth quarters were all Planning as they advanced the ball up and down the field but were unable to punch across to pay dirt as the GCA defense stiffened and prevented further penetration of their goal line.

GCA took over the ball, first down and goal to go on the 5 yard stripe, but the Planning defense rose to the occasion and held them gainless for three downs. On fourth down, with but a few seconds remaining to play, Brooks fired an aerial into the end zone for a TD. The try for extra point was good and that was all she wrote.

GCA kicked off and held the Planning men for three downs with no gains and at that point the final game sounded giving the GCA team a 14-13 victory and the Captain's Cup Touch football season.

A final touch of heroics added to a well played hard fought schedule.

Airman Attack Amphibs On Coronado Gridiron

With hopes of evening up their season's record the Naval Air Skyraiders set sail Saturday to battle the Phib Pac Invaders at Turner Field in Coronado.

The Airmen will not be at full strength for tomorrow's game due to injuries received in last week's game against the MCRD eleven. The Invaders on the other hand are expected to be in top shape after easily running over NAS Alameda two weeks ago and having a week's rest last week.

Amphibs Look Good

The Invaders boast plenty of strength this season, having won four out of their first five games. In the first game of the season they encountered the strong Compton College squad and went about routing them by a score of 40-19. The following week against the El Toro Marines they again held a field day, running up a score of 53-0. Then the axe fell when they ran up against the same MCRD team that the Airmen lost to last week. In a close, rough game, the MCRD team beat the up-until-then undefeated Invaders 39-20. The USC Frosh and NAS Alameda also fell under the power of the Amphibs.

This game in the lone service football tilt scheduled in the local area for the weekend.

BISDORF WINS GOLF CROWN

The Fourth Annual Naval Air Station Golf Tournament was held on October 25 and 26 at Caliente in Mexico. The golfers enjoyed beautiful weather and played heads-up golf. W. F. Bisdorf won the annual tournament.

A GOLFER'S ROUND TABLE discussion was held right after the Championship Sunday to determine the winning scores. (Left to right), L. Sherrick, L. T. Pierpont, W. F. Bisdorf (winner); J. C. Duvall, Ann Morey, R. A. Wallace, and L. J. Jolson (seated). The military golfers really gave the civilians a run for their money this year.

corner on sports

By John Phillips

Ex-'Raider Starts Up the Ladder

Take a look at some of the 1946 NORTH ISLANDERS and you would notice that the name of Jack Harshman was a familiar and frequent sight on the sports page. Jack started his career at So. California High School where he was judged the most valuable player on the baseball squad and was also chosen to All-So. Calif. Coming to North Island in 1946 Harshman played Skyraider baseball and was one of the best stars that ever hit this service team. Recently Jack popped back into the limelight when he sparked the Kent Parker All-Star team to a 9-6 win over the Ensenada Town team in a baseball exhibition last week. Harshman, property of the New York Giants, pitched two-hit ball for six innings and struck out eight.

Ace of Aces

The Ace of Aces will be held November 5 at 1300 at the Municipal Golf Course for the playoff championship. Golfers who will compete in the Ace are R. K. Jensen, J. Nealand, J. L. Morrisey, Lyons and Pierpont. The winners of the other monthly aces will not compete in the final Ace for they are not longer stationed here at North Island. The regular monthly ace will also be held at the Municipal Golf Course between the dates of November 5th and 13th.

Why not a Bowling Championship?

The Fourth Annual Naval Air Station Golf Tournament which is open to both civilian and military personnel was a huge success as usual. Tournaments such as these serve a double purpose, first as a form of organized recreation and second it tends to promote the close teamwork which exists between North Island's uniformed and civilian personnel. Since the Annual Golf Golf tournament is such a success each year, several persons have been wondering why a similar Bowling Championship is not held.

Skyraiders Suffer Losses

The Naval Air Skyraiders have lost quite a number of key players in the last two gridiron duels due to injuries. Missing from the line up in the last two games was "Trigger" Phillips, a rugged, bone-crushing tackler who backs up the 'Raider line on the defense. There is still doubt as to whether or not "Trigger" will be in the starting lineup for tomorrow's game. Big Claude "Fink" Finklea will definitely be out for the remainder of the season due to a leg injury received in the MCRD game Saturday.

HU-1 Halloween Party Loaded with Fun, Music

Helicopter Squadron ONE's Halloween Party held last week at the American Legion Hall was judged a big success by everyone who attended.

Dance decorations by W. H. Williams, AD2, C. N. Thomas, AE3, and R. H. Henderson, AN, lent an added note of gaiety in the traditional black and orange Halloween theme.

J. B. Bennett

Fifty dancing partners were furnished through the courtesy of Mrs. Rosiena Graves, Social Director of the Coronado VFW Auxiliary.

Surprise attraction of the evening was HU-1's own J. B. Bennett,, AD2, who gave his impressions of the top male vocalists. His impression of Johnny Ray stopped the party cold.

Dance music was furnished by Ray Stride and his Starlighters.

VU-3 Enters Fourth Quarter Of Inter-Squadron Athletics

VU-3's athletic teams in the fourth quarter of intra-squadron competition are currently leading in basketball and ping-pong, with no team entered in boxing and wrestling.

The basketball quintet is currently in first place by two games. Paced by "big" Bill English, Howard Hope, Coach "Ski" Hays, Deibler, Steege, Feser, and the rest of the squad, aggressiveness and ball control have made them title contenders.

The ping-pong swatters have also control of the first spot. LT Snellman, Arobello, Parrish, Kallaher, and Curtis, reign supreme as the Bill Tildens' Jack Kramers', and the Australian Davis Cup Team, of the table tennis set.

HU-1 HUP's Soon to Operate

FINAL HUP INSPECTION is conducted by, left to right, J. D. Hallstrom, AN; George Vandenhengel, Peasecki Representative; W. A. Ward, AD3; Rex Barr, Continental Representative; R. A. Meyers, AD2 (inside plane); George Holmes, Peasecki Representative; D. Zook, AMS3; and R. Biesinger, AD3.

HU-1 maintenance men with the help of Peasecki Field Representatives are making a final check on the new and more powerful engine they have just insalled. BuAer recently grounded the HUP's until the new engine changes could be effected.

HU-1 pilots will soon be doing rescue work with the HUP's in the Korean theatre, and will be based aboard Battleships, Cruisers, Carriers and hospital ships.

HALLOWEEN THEME was carried out by the FASRon 691 Party last Friday night at Balboa Park. Shown here enjoying the festivities are, left toright, Mrs. J. D. Wicks, wife of Jerry Wicks, SA; Miss Shirley Pease, guest of M. L. Johnson, SN; John Taylor, YN2; Bob Cook, PN3; Louis Carper, PN3; an unidentified guest; AB3 and Mrs. Frank Haubold.

REAM Border Lines
ALF REAM SAN YSIDRO, CALIFORNIA

Inseparable Brother Team of HS-2

PONCE BROTHERS, Luis, left, and Abe, run a test on a radio in the HS-2 Electronics Shop.

Buddies are, as a rule, inseparable, in most cases, but none are as firm as the Ponce brothers, Luis and Abe, of HS-2 Electronics Division. They have stuck together like flies on gooey paper.

Luis (pronounced Looeece) and Abe are only two years apart in age and had planned from childhood to join one of the services together. Abe, after two years of college, had decided on joining the Air Force, but Luis had just graduated from high school and would have none of it. Ignoring the fact that he had all but signed the enlistment papers, Abe joined the Navy with his brother on June 12, 1951.

The whole story of their Naval careers up to the present is a story of one or the other of them sacrificing opportunities in divergent fields to enable them to remain together. Say the Ponces, "Our parents sorta want us to stay together, too."

Only on two occasions have they been separated, once when Abe was sent to outgoing unit and then returned to his parent base at NAS Whidbey Island to rejoin his brother, and then when they were sent on different TAD drafts from HS-2 to Key West, Florida.

Luis and Abe are sons of Mr. and Mrs. Abraham T. Ponce of Clint, Texas, where their father is the foreman of a local farm. Both are graduates of Clint High School where they were known by sports fans for their participation in football, basketball and baseball.

Ream Briefs

LT and Mrs. Harold R. Hunzeker announce the birth of a daughter, Vickie Lynn, on October 17. Vickie is the third child of the Hunzeker's. LT Hunzeker is the I&E officer of VU-3K.

LCDR William A. Stevens, Jr., relieved **LT L. M. Moore** as VU-3K Administration Officer. LCDR Stevens reported to Ream via NAS Dallas, VC-3, ComCarDiv 5, and FASRon 7. LT Moore has received orders to the C.I.C. and General Line Schools.

LT Kenneth J. Dahms has relieved **LT J. F. MacDonald** as Personnel Officer of VU-3K. LT Dahms reported to the squadron from the ComAirPac Staff. LT MacDonald has been transferred to the Naval Air Station, Miramar.

Annual Admiral's inspection has been slated for all units based at Ream Field in the latter part of November.

VU-3 Maintenance Department leading the Administration Department by 30 points in the squadron's intra-mural sports program. Electronics Division and Operations Department bring up the tail end of the program.

Bill Estes, TDU3, reports that while on leave in Monahan, Texas, he worked out with the North Texas State football squad. He still shows the bruises and scratches of the tryout.

Competition runs high during the informal touch football games during the noon hour. **Donald Wilde, ADAN,** is current high scorer. The motto around the field is "Stop Wilde."

New HS-2 Operations Officer Has Colorful Flying Career

LCDR Vernon L. (Penny) Pendergraft has reported to HS-2 for duty as operations officer. This latest billet is the current end of a list of duties. Hitting the high spots, here are some of his past activities.

In 1940 he was awarded a CAA flight instructor's rating in Van Nuys, California.

The summer of 1941 saw him instructing U. S. Army aviation cadets and British cadets before volunteering to go to England to fly for the Royal Air Force.

Upon arrival in London, he swore allegiance to the RAF instead of the crown, thus retaining his U. S. Citizenship.

He was processed through a commandoish style indoctrination course at Cosford, and was ordered to the number three school of General Reconnaissance at Blackpool. This school is one of a fine series used to train coastal command pilots in Naval coordination and patrol plane tactics. There, he flew the Blackburn Botha, a twin-engine bomber, on training flights and anti-submarine patrol westward over the Irish Sea.

Following Blackpool, he reported for duty as pilot to a Catalina squadron on the Bristol Channel, at Pembroke Dock.

The squadron flew from that base until it received orders to go forward to Gibraltor. The day Penny's plane was to leave, his transfer came through, ordering him to London. The plane he was scheduled to go in crashed at Gibraltor with the loss of all aboard.

In London, since he had been recommended for promotion by the RAF, he was promoted to LTJG and ordered back to the states to Jacksonville in response to his re-

LCDR Vernon L. Pendergraft

quest for transfer to the U. S. Navy. PBK's and VPB-94 under Commander Joe Tibbetts and Commander H. R. Swenson (present AirPac Intelligence Officer) Commanded Penny in Brazil. VPB-94 attacked five and sank three German "P" boats.

In 1944 BuPers sent him to Hutchinson, Kansas, as a PB4Y Patrol Plane Commander. When the war ended he seriously considered the "advantages" of civilian life. Like many other pilots he planned to fly with the airlines, so he went out of the Navy for six months and obtained a job with the Flying Tiger line as co-pilot. He soon was appointed captain, but he decided that airline life kept him away from home too much and that it was not for him. He applied for a regular commission with the Navy, which came through.

There followed a tour with FaetuPac and a stint with a carrier-borne VS outfit, VC-25, in the Far East. Upon the return of his ship, the Bairoko, he again altered his career to fly helicopters.

His 4,000 hours in the air have taken him through many channels but there remains at least one field left unexploited — his next tour will be with a jet squadron if he has his way.

Jazz Course Sked By Cal Extension

University of California Extension has announced that an evening class in Survey of Jazz will begin on November 6.

Donald Freeman, author of the "Hot Notes" column in the San Diego Union, and writer for Downbeat Magazine and Variety, will instruct the six meeting, non-technical class. Material covered will include the development of jazz, blues, swing, boogie-woogie, and be-bop from Buddy Bolden to Dizzy Gillespie, and will be fully illustrated with recordings.

The class is scheduled to meet on Thursdays from 7 to 9:30 p.m. in Bungalow 9, Roosevelt Junior High School, 3366 Park Boulevard. For further information contact University Extension (Franklin 9-9221), 1015 7th Avenue, San Diego.

Answer to Puzzle

600 MORE WORKERS SOUGHT

The NORTH ISLANDER
U.S. NAVAL AIR STATION
VOL. VIII SAN DIEGO, CALIFORNIA, NOVEMBER 7, 1952 No. 45

County-Wide Campaign To Fill NAS Vacancies

Desperately needed to meet increased workload, 600 additional civilian workmen are being sought for immediate employment on Naval Air Station. A county-wide campaign is being launched this week to obtain personnel for existing vacancies, particularly in production jobs.

More help must be obtained in order to keep up with the repair and overhaul of the planes which are bearing the brunt of the Navy's sea attack, which supports United Nations forces in the Pacific.

North Island personnel are urged to pass the word along to friends, neighbors, any and all who might possibly qualify for any of the following jobs, or who might know of others who would be interested.

MEN WANTED—Ruth Foster, personnel clerk mans the window at Industrial Relations office, awaiting the influx of new production workers which is anticipated when you, the North Island public, make the urgent need known.

Most critical need is for help in all aircraft trades, drop hammer operators, electronics mechanics, helpers general, laborer, radio mechanic, machinist, sandblaster, truck driver, upholsterer, carpenter, sheetmetal worker, electrician, automotive mechanic, brakeman, combination welder, crater and packer, gas distribution system operator, storekeeper, electronics engineering aid, physical science aid (chemist), engineering draftsman, and tabulating machine operator.

North Islander Wins Recognition for NAS

Recognition for a "job well done" hit the NORTH ISLANDER this week, upon recipt of a copy of a letter from the President's Committee on Employment of the Physically Handicapped, US Department of Labor, to RADM George A. Holderness, jr., Chief of Industrial Relations.

This Naval Air Station, and the Naval Ammunition Depot, St. Juliens Creek, Portsmouth, Virginia, were singled out for special commendation by William P. McCahill, Executive Secretary of the Committee, for "interest and cooperation in Navy-wide participation in National Employ the Physically Handicapped week."

The NORTH ISLANDER published several stories, and a number of "on the job" pictures, of physically handicapped employees before and during the special observance week, coupling its efforts to the close cooperation of the Industrial Relations Department, and several other departments on the station. Overhaul and Repair Department actually hired one additional handicapped employee during the week, continuing the Naval Air Station's regular month-to-month policy of utilizing the physically handicapped wherever jobs occur that they can properly handle.

Keynote to the publicity released from North Island was not the ordinary editorial effort on what should be done, or a plea for further job aid, but a simple, clear recap of Naval Air Station's record of employing 202 physically handicapped, and several hundred others with minor disabliities.

Early Fund Drive Returns Show Successful Effort

United Fund Drive Chairman, LCDR Jack Morrisey, yesterday announced that early returns of the station's drive far outstripped all previous drives. He reported the indicate a majority of the station's divisions will reach a new high in participation.

Results of the drive are a credit to the solicitors and coordinators of the station-wide effort.

According to LCDR J. L. Morrissey, several departments have still considerable sums of money coming in.

It is expected that complete unofficial donation totals with a per capita "by department" breakdown will be available for inclusion in next week's North Islander.

A primary objective of this United Fund Drive has been to consolidate what previously existed as several fund campaigns. Success of this first United Fund Drive should assure its return each year, and the elimination of duplicated effort.

Permanent results, according to yet incomplete tabluations, are:

O&R Dept.	$12,935.18
Supply Dept.	2,685.94
Public Works Dept.	1,859.94
Transportation Dept.	500.50
Administration Dept.	385.70
Indust. Relations Dept.	331.50
Miscellaneous	78.00
TOTAL	$18,776.52

Kenneth Whiting Home

The seaplane tender, USS KENNETH WHITING (AV-14), arrived at NAS Tuesday morning, completing 10 months duty in Korean waters.

The tender, commanded by CAPT Samuel M. Randall, served as a floating air base for patrol bombers operating out of Iwakuni, Japan.

Both the WHITING and the LSD COLONIAL, which arrived the same morning, were greeted by hundreds of families and friends of crew members.

The COLONIAL, which for 10 months has been serving as a tender and flagship for a squadron of minesweepers operating in Korean waters, was welcomed by VADM Ingolf N. Kiland, Commander Amphibious Forces, Pacific Fleet.

Tonight Is the Night

EVENT—NAS Benefit Dinner-Dance
PLACE—NAS Bch. Facility, Bldg. 710
TIME—2000-??

HIGHLIGHTS—All Military Personnel Permitted to Wear Civilian Clothes.
Continuous Buffet Served
Dancing to ComCruDesPac Orchestra

BOAT SCHEDULES — Star & Crescent Ferry will run continuously from foot of G Street to NAS Landing at 1930 to 2130 and from 2300 to 0110. Other runs will conform with their regular schedule.

STATION BUS SERVICE — NAS Transportation will run Station buses on shuttle trips from NAS Landing to Beach Facility from 1930 to 2130 and from 2300 until ???

VALUABLE DOOR PRIZES — 21-inch, console Sylvania televison set — Zenith alarm clock-radio—General Electric Roaster Oven. (Prizes through the cooperation of Dennstedt's Electro Mart.)

Benefit Dance Raises Funds For Xmas Party

Tonight's gala benefit party will finance the station's annual Christmas party for children of defeased armed forces personnel and will mark the first joint civilian-military party yet held on the Air Station.

Tickets will be on sale from 1900 to 2130 at the station's gate 4 and the automobile gate. All military personnel may attend the party in civilian clothes, provided they have a ticket.

Special schedules have been set up by the Star and Crescent Ferry Company between the landing at the foot of G Street to the Air Station.

NAS Transportation Department has set up a shuttle service for the party goers, and ample parking facilities at the party have been arranged by the station's Special Services Division.

If you do not as yet have your ticket, contact the Public Information Office, Room 1, Building 8, Extension 1633.

Buffet, dancing and the fun all start at 2000 and will continue until???

Receives Silver Eagles

RADM George R. Henderson, Commandant Naval Air Bases, 11th and 12th Naval Districts, attaches four-stripe epaulets to the uniform of Chief of Staff Vernon Williams, who was notified of his promotion this week. CAPT Williams received his wings at Pensacola in 1930, has served aboard such famed carriers as the USS HORNET and ESSEX. CAPT Williams was Operations Officer for ComNAB in 1945.

The NORTH ISLANDER

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

TELEPHONE EXTENSION 1475. Call this number to report news.

Contributions of news, features, pictures and cartoons will be gladly considered, and material submitted will receive careful handling. However, the NORTH ISLANDER assumes no responsibility for the return of material contributed. Chaplain's Corner

A Cleansing—Not a White Wash

Quite often a few Christian principles are applied by some people merely to cover their evil way of living. It's like a white wash used to cover a dirty wall which still remains dirty underneath.

Shakepeares character Macbeth wished above all else that such a thing were possible to cover his foul deeds of murder. He did not wish a cleansing of his heart but a white wash. Of Lady Macbeth's doctor he requested, "Canst thou not minister to a mind diseased; Pluck from the memory a rooted sorrow; Raze out the written troubles of the brain, and, with some sweet oblivious antidote, cleanse the stuff'd bosom of that perilous stuff which weighs upon the hearts?"

"Some sweet oblivious antidote" will that be sufficient? There is always present that plaguing, persistent notion that if we arrange a few of our manners as a necessary courtesy why then the rest doesn't matter. It's like treating the symptoms and letting the disease carry on through the body.

But Christ demands a complete change of heart and mind. He says, "Be ye therefore perfect even as your heavenly Father is perfect."

By nature man is "dead in trespasses and sins." It is not merely improvement in our conduct that we need. We need a new life within. Christ gives us that new life. Therefore not a sweet oblivious antidote to cover the wicked deeds, but a cleansing of the heart. Not a white wash, but a removing of all sins.

CHAPLAIN THEODORE E. SCHULTZ.

NAS Marine Receives Bronze Star Medal

Ceremonies last Friday saw the presentation of the Bronze Star to Staff Sergeant Patrick E. Donahue, USMC, of the NAS Marine Barracks.

The medal was presented by COL P. A. McDonald, USMC, commanding officer of the Marine Detachment, Naval Station, before an assemblage of marines assigned to this station.

SSgt Donahue received the citation heroic action against the enemy in Korea on May 17, 1951.

In reading the citation, COL McDonald said:

"Serving as scout-sergeant with an artillery forward observer team, Staff Sergeant Donahue displayed outstanding courage and initiative when the company was subjected to violent attack by a large enemy force. Exposing himself fearlessly and with complete disregard for his own safety to withering enemy automatic weapons and mortar fire, he materially aided the forward observer in calling down accurate artillery fire on the attacking enemy."

Sgt Donahue is a native of Challis, Idaho, and enlisted in the Marine Corps in January 1942 at Los Angeles. After receiving training at MCRD he joined the second division and saw action at Saipan, Okinawa and Tinian.

Separated from the service in 1946, he was recalled to active duty in September 1950, and was with the first division in Korea until December 1951 when he was assigned to NAS. He recently received orders to report to Camp Pendleton for a new assignment.

Sgt Donahue resides with his wife Patsy in San Diego.

Mrs. Herman Organizes Cub Scout Den

"TODAY WE WILL take up knot-tying," says Den Mother, Mrs. S. W. Herman, to members of Cub Den Four, of NAS. Left to right, the Cubs are: Harold Boudreau, Bobby Jennings, Roger Herman, and Jimmy Eggleston. Four or five more eight-year-olds are sought to fill out the den. A call on Ext. 643 will bring interested parties the needed additional information.

Wanted—Four or five more 8-year-old boys, NAS residents, to fill out an active, newly organized Cub Scout Den. Apply any Tuesday afternoon at 1530, at Quarters SM in person and full of enthusiasm and energy.

And active is scarcely the word for them, accord- Number 4, Pack 35. The den, which was formed less than two months ago, is working on a brand new doodle, which is fast becoming loaded with beads that will lead the youngsters toward becoming wolves.

All four charter members of the den are bobcat cubs now. Wolf cub is the rank to which all beginning, or eight-year-old cubs aspire. That "doodle" business—"what's with it?" you may ask. The doodle is the symbolical rack from which a line is suspended beneath each cub's name, with beads in the number of his "achievements" toward his coveted rank. Cubs must accomplish 12 things for the wolf rank, including feats of skill, knowledge of flag, keeping strong, helping around the home, using tools, making collections, making scrapbooks, tying knots, knowing safety rules, taking outings, knowing their neighborhood, and reading books.

Bobby Jennings and Roger Herman are at present leading in their efforts to string their beads on the "doodle," but Jimmy Eggleston and Harold Boudreau are promising to catch them. Any other 8-year-olds want to get in on the fun?

Station Waves Hold Costume Party

WAVE HALLOWEEN PARTY at the Beach Facility was attended by over 150 of the girls assigned to the station. The Party was a costume affair that was judged one of the most successful parties yet held by the station Waves. Posing for a costume portrait above are, left to right: Betty Haddy, AD2; Dorothy Lucas, SN; Harriet Ferguson, PN1; LTJG Keating; and Wanda Colley, SKG3. Private parties may be held at the Beach Facility upon request fro mthe station's Special Services Officer. The Facility, to be dedicated as "Erdmann Beach" tonight, will accommodate over 1,000 party goers comfortably and boasts snack bar and soft drink counters. Its dance floor and band stand are outstanding features of the facility as well as its over size indoor fireplace.

Paralytic Girl Honored By Returning Carrier

After eight months and her second Korean tour, the aircraft carrier USS PRINCETON docked at NAS San Diego, Piers "O" and "P", Wednesday at 1000. November 3 the carrier returned to NAS Alameda, Calif.

She unloaded her air group, CAG-19, at Alameda before coming here. Commanded by Capt. William R. Hollingsworth, USN, 555 Alameda Ave., Coronado, the PRINCETON has compiled an enviable war record.

October 18, while the ship was off Korea's coast, 131 medals were presented members of the crew and air groups for outstanding service. Seven pilots were given the Distinguished Flying Cross, and 78 crewmen received commendation medals with combat distinguishing devices.

CAPT Paul D. Stroop, USN, who was relieved of command in August, was presented the Legion of Merit by Seventh Fleet Commander, VADM J. J. Clark.

In June the PRINCETON took part in the first four-carrier strike of the war. Teaming with her sister ship's air groups, CAG-19 planes struck at the Suihu Power Plant in North Korea, one-half mile from Manchuria on the Yalu River.

September 20th CAG-19 planes blasted the large oil refinery at Hoeam-dong, north of the 40th Parallel. As a unit of Joint Amphibious Task Force 77, the PRINCETON took part in full-scale operations off the coast of Korea on October 15.

As the carrier was nudged against San Diego's quay wall, a brave girl in a wheel chair, whom the crew has taken to their hearts, waved greetings to the crew. She is Miss Jane Taylor, paralyzed from the waist down since she was three days old.

When the carrier returned from her first Korean tour on August 29, 1951, they endowed 19-year-old Jane with $5000. This year Jane will present a $12,000 check to the Cerebral Palsy Foundation. The money was donated by the PRINCETON in a fund named "The Jane Taylor Princeton Fund."

There are 81 San Diego children now being treated for cerebral palsy. Twenty-four of these are children of Navy men.

Miss Taylor reigned again over the ship's homecoming dance held November 6th at the Balboa Club.

In addition to Miss Taylor, Navy and civic dignitaries, the Naval Training Center band, and ComAirPac band were on hand to greet the PRINCETON from another valiant war cruise.

During her first Korean tour, the PRINCETON'S air group, CAG-19, made the first inland torpedo strike in carrier warfare's history, when it struck Hwachon Dam. Destruction of the two dam gates prevented the tactical use of the reservoir against UN troops dug in downstream along the Han River.

After returning to San Diego August 29, 1951, the PRINCETON operated off the California coast until returning to the Far East late in March of 1952.

VF-791 Hits 100% In Benefit Tickets

A 100 percent mark in the purchase of tickets for the big Benefit Dance this evening was achieved by the personnel of VF-791.

In announcing this record mark, CDR J. E. Kirk, commanding officer, said the squadron personnel "thought the benefit party for children of deceased personnel was a very worthwhile cause, and showed their support by buying tickets."

In addition to this 100 percent response, the squadron personnel donated ten dollars for the Children's Christmas Party.

PREPARATIONS are going forward to make the North Island Association's Harvest Hop November 21, one of the finest, livliest dances of the year. Stan Fleet, chairman of the dance committee, (left) instructs a glamorous array of NIA ticket salesladies. John Annaloro, committeeman, gives an approving look at (left to right) Lorraine Paschoal, Jane Ferguson, Donna Lane, Berta Norelius, Ann Niemanic and Arline Elliott.

Benny Sugg Says: SPOT YOUR PROBLEM, SUBMIT YOUR IDEAS

It's easy to take home two paychecks instead of one. It's easy if you're willing to think! How can you improve your job? How can the Naval Air Station save time, money or materials?

You can take home an extra check by giving acceptable answers to these questions—provided, of course, your idea is above and beyond your normal line of duties.

* * *

Irritation, as well as necessity, is sometimes "the mother of invention." You get fed up with carrying your tools the hard way, so you nail a handle on a box and carry them in that manner. You don't like to hunt for a pencil when you are on the telephone, so you tie one to it with a piece of string.

On the job, before you blow off to someone else about the thing that gets under your skin, maybe there's a simple solution waiting to be found—by you.

* * *

Most of us are attracted by the labor-saving gadgets when we pass the counters in a dime store. If any particular gadget promises to save a few minutes on some household task we dig into our pocket and buy one.

When we get home and look it over we often wonder how a company can stay in business makjng such simple things. Yet multiply your purchases and mine by many hundreds and you realize it becomes important business to some manufacturer.

Smaller simple ideas are like that, too. For example, they may save very little on one operation but multiply this saving by the number of times the job is done in a year and you get an impressive total. So you cannot afford to overlook the chance of a sizable award. To cash in, put your suggestion in the box today!

* * *

Today, take a close look at your work—at the work going on around you. Spot a problem and solve it! Write it up on the easy-to-use Beneficial Suggestion form. Drop it in any suggestion box. Then let the Beneficial Suggestion Committee take over.

Why not make submitting suggestions a regular habit? Submit one today. You'll discover it's a pleasant habit—taking home TWO paychecks instead of one!

Steamrollers Beat Way Out of Cellar

Momentarily at least, the Steamrollers have battled their way out of the depths of last place in the North Islander Civilian Bowling League, led by P. Valdez' 553 series score which was top for the week. Long Shots took over the basement spot.

Tool Room rolled on, maintaining a wide lead over closely packed Yankees, Lazy Jokers and Layout in that order. Layout fell behind the Lazy Jokers despite C. Adkison's 213 high individual game of the week.

'Victory at Sea' Is Dramatic TV Series on Navy's WW II Role

"Victory at Sea" is the title of a film series now being televised weekly over the NBC television network.

The series, made largely from Navy documentary films, dramatically depicts the role of the U. S. Navy in bringing victory in World War II.

"Victory at Sea" is a 26-week series, with each program one-half hour in length.

Legion Post Plans Nov. 21 Dance

North Island Service Post 753, American Legion, will hold a Pre-Thanksgiving Dance in the newly redecorated Continental Room of the San Diego Hotel, the evening of Friday, November 21.

Labeled as Post 753's big social event of the year, the dance is open to all service personnel and to the general North Island public. Music will be provided by popular David Willis and his band, an outfit which gained prestige and following at Mission Beach and Pacific Square, and has just returned here from a successful 18 months tour.

Legionnaires and 'Thanx' Thanks North Islanders

Legionnaires of Pacific Beach Post 552, and the ladies who operate the "Thanx" organization have expressed their appreciation for stout support rendered their Harvest Dance at Pacific Beach November 1 by North Island personnel.

More than $325 was raised for postage, to be used by "Thanx" to transmit books, candy, cigarettes and tobacco candles, magazines, and other gifts, to servicemen in Korea for Christmas.

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

COLUMN RIGHT—Is your column. Its purpose is to answer questions of general interest which affect your employment. Forward all questions to, "COLUMN RIGHT," c/o Industrial Relations Department, Building 415 or deposit them in the Beneficial Suggestion Boxes. COLUMN RIGHT is conducted by Bill Mayer, Extension 1045.

I AM YOUR CREDIT UNION

I am an organization designed to render financial service to all my members.

I am democratic in organization, for you, the members, elect those who direct my activities.

I provide you with the opportunity of attending all annual meetings; to listen to the reports of your officers and committeemen; to participate in discussion and voice your own opinion; to elect directors to represent you and to administrate your corporation.

I operate under the supervision of the Bureau of Federal Credit Unions. Each year examination is made of all my books and records to make certain that your savings are protected and that all my activities comply with the law.

I help you with your financial problems in a confidential manner.

I encourage and plead with you to make regular weekly or monthly savings so that you will have resources available for emergencies or for cash purchases.

I provide you with credit so that when necessary you can borrow from me for any provident or productive purpose.

I am exactly what you and the directors made me—poor if you are disinterested, but most excellent if you and the directors take an active interest in me.

I am always at your service.

I AM YOUR CREDIT UNION.

Q. How much does it cost to join the Credit Union?

A. There is no charge for becoming a member of the Credit Union. The $5.00 required when joining, purchases a full share in the organization on which the regular dividend is paid. (Three per cent or more for the past several years). An entrance fee of 25 cents is made for single accounts.

Q. What record do I have of my savings in the Credit Union?

A. Each member is issued an individual pass book and each deposit is recorded in the book which is retained by the depositor.

Honor Roll

Employee Services announced that the following civilians volunteered to donate blood during the week of October 27 to October 31 for the NAS Civilian Blood Fund for use of civilian employees and their families.

N. SCOTT, Structures & Finish
T. ARTHUR, Structures & Finish
C. A. NICHOLS, Assembly
J. C. NORTHERN, Metal & Machine
ANN ROCHA, Accessories & Ord.
WILLIAM J. RICE, Repair & Flight Test
I. TANSIEL, Structures & Finish
L. Q. CHRISTIANSON, Assembly
J. F. HARRISON, Assembly
C. W. SINOCK, Metal & Machine
MILDRED L. HAMPTON, Production Control
MANUAL SMITH, Electronics

Number of Donations to NAS Blood Fund, Oct. 27 to Oct. 31.....(10)

Number of Credits Available in Blood Fund, November 3.....(9)

Number of Blood Releases in Past Week.....(29)

A quota of 20 donors per week has been set to provide sufficient credits in the Blood Bank to keep our account current. GET BEHIND THIS, IT'S FOR YOU. SEE YOUR SHOP PERSONNEL SUPERVISOR OR YOUR SUPERVISOR TO MAKE YOUR APPOINTMENT.

NAS CIVILIAN BLOOD DONOR DAY AT BLOOD BANK, EACH THURSDAY AFTERNOON.

THIS IS YOUR FUND FOR YOUR OWN FAMILY AND YOUR FELLOW EMPLOYEES.

HOW THE Employees Cooperative Service Plan

Operates at the Naval Air Station, San Diego

THE EMPLOYEE COOPERATIVE SERVICES COUNCIL is composed of a group appointed to make recommendations to the Commanding Officer on the allocation and control of unappropriated funds connected with civilian activities on the Naval Air Station, including the Employee Cooperative Cafeteria, the Civilian Welfare and Recreation Program, and miscellaneous concessions.

Previously, the Welfare and Recreation Council, and the Civilian Cafeteria Committee conducted the business now administered by this newly formed Council. Purpose of this merger was to provide a centralized and compact organization for the same purpose, that still provides equal employee representation yet reduces the number of people required to review and act on Welfare and Recreation and cafeteria problems.

This Council's main responsibility is to review operating procedures, develop contacts in all financial matters connected with the plan, and to make recommendations to the Commanding Officer on all of these operations, for his final approval.

Meet the Council For the Employee Cooperative Services Plan

REVENUE FROM CIVILIAN CAFETERIA

REVENUE FROM CONCESSIONS

Left to right (seated) Ray Shores, Business Manager; Bill DeWar (O&R) Chief Shop Personnel Supervisor; Howard W. Goode (IRD) Employee Relations Superintendent, council recorder; CDR M. T. Wells, Industrial Relations Officer, ex-officio council member; H. D. "Jack" Ball (IRD) Employee Services Supervisor; Madge Mulloch (IRD) Employee Services Assistant, recording secretary; (standing) Roscoe T. Morse (O&R), NAS Civilian Welfare and Recreation Committee Chairman; Paul N. Cooksey (PW), Administration Officer, elected chairman of ECSP Council; Charles W. Katt (S&F) Foreman, labor.

COUNCIL MEMBERS

Council members are appointed on the premise that they represent the largest cross-section of civilian employees aboard the Naval Air Station. The Shop Committee Chairman and the Welfare and Recreation Committee Chairman represent a total of 52 employee groups and are elected annually, as being the most proficient among their group to conduct the business at hand.

Other members of the council are selected for their varied positions in close contact with employee attitude and the various levels of management.

The Industrial Relations Department representatives attend the Council on an advisory basis only, and execute the administrative functions for the Employee Cooperative Services Council.

FUND CONTROL

All revenue received from the Civilian Cafeteria, and other concessions is classified as unappropriated funds, and is to be used to further improve conditions for civilian employees aboard the Naval Air Station.

To provide a centralized source of accountability and a full time representative to negotiate business with contractors who provide services on a contract basis, the Council has hired a Business Manager, Mr. Ray Shores. His salary is paid from the proceeds of the Employee Cooperative Services Plan and his duties are to keep the financial accounts and to perform such duties as directed by the Council, subject to the approval of the Commanding Officer.

*Cafeteria profits reinvested in equipment to improve eating facilities.

**Welfare & Recreation activities supported by vending machine revenue.

The Camera's Eye---Sharper Than the Pen

"A picture is worth 10,000 words,"—as hackneyed as the expression may be, it has important meaning at the O&R Industrial Photography Laboratory.

Imagine yourself with pen in hand, trying to explain on paper how to assemble the fire control mechanism on a modern jet fighter. If the average person could do it at all, he would be hard put to keep it within a 10,000-word limit.

It's the Industrial Photo Lab which tackles the job of doing what words alone can never do, the task of graphically explaining how the mechanical and electronic components of aircraft are assembled.

Through the use of pictures, with brief explanations and with nomenclature properly identified, a complex operation can be accurately and concisely conveyed.

When the Navy adopts a new type aircraft, preparations must be made by the Overhaul & Repair Dept. for the eventual overhaul of this plane when it goes into operation with the fleet in large numbers. This presents the Lab photographers with one of their most difficult and important jobs.

The lab aids O&R shops and divisions in acquiring a thorough knowledge of the design and construction of this aircraft by photographing a prototype model. A two to three month job requiring 2000 to 3000 pictures, this project requires configuration shots from every angle and position. The aircraft is completely disassembled for photos of parts and components.

These pictures are cataloged to show all phases of assembly. They also assist O&R men in establishing a system of routing and stocking aircraft parts.

You'll hear the photographers talk about "roodums," their pronunciation for R. U. D. M., which stands for "Report of Unsatisfactory or Defective Material." When aircraft parts or equipment fail to function properly, a report, usually accompanied by pictures, is made on the cause of the trouble. If a damaged or defective part is the source of the operational failure, the part must be photographed. A photographer must solve many problems of lighting and angle in order to get a picture with sufficient detail and sharpness to show what may be a tiny but vital flaw in an aircraft part.

Reports are sent to the Bureau of Aeronautics for evaluation. If a certain device or part proves to be a frequent cause of trouble on an aircraft, the reports will aid in developing an improvement or modification. This of course results in another important job for the photo lab.

Technical information on modifications and new installations on aircraft must be disseminated to affected divisions and shops. This is done with a thorough photographing job of the parts making up the modification. Sometimes what is known as an "exploded view" is used, which shows the installation disassembled but all parts in proper relation to others.

If a modification is developed on the station, photographs along with other design information are generally sent to BuAer. This material is published for distribution to other Naval Air activities adapting this modification on aircraft.

Work which keeps the lab's darkrooms and cameras busy is the preparation of burr boards photos, 2"x3" pictures of aircraft parts. The burr board is a simple but effective means in O&R for routing parts for repair. The pictures are mounted on the board which contains burrs—metal routing tabs. Rapid and accurate sorting of parts for dispersal to the shops is facilitated by this system.

While the bulk of the Industrial Photo Lab's work is related to aircraft photography, it also photographs shop layouts, machinery, building interiors and exteriors for construction work and industrial planning purposes.

The lab's important activities and large volume of work is under the direction of photographer Hugh A. Wennerholm, who is assisted by four civilian photographers, Robert Armour, Roger Smith, Roy Fetterhoff, Wayne Ferree, one Navy photographer, Leon Hoffman, AF3, and by a helper, graphic arts mechanic, Olive Benson.

1.

1. Using the Lab's new overhead camera rig, Leon Hoffman, AF3, above, and Wayne Ferree, Photographer GS-5, make a parts layout for identifying aircraft parts nomenclature. 2. Hugh A. Wennerholm, Industrial Photo Lab Supervisor in charge, inspects negative for necessary qualities such as lighting and angle. 3. Wayne Ferree prepares to make contact print, examines negative to see what dodging will be necessary. 4. Roger Smith operates overhead camera, prepares to photograph a bearing removing tool for a BuAer manual. 5. Examining test print after it has been developed and fixed is Roger Smith, while Ray Fetterhoff develops enlargements.

The Mystery—She's Solved!

NEED TO BRUSH up on the Morse Code? A lot of North Islanders discovered they had forgotten their dot-dits from boot camp, judging by the number of requests the North Islander received for translation of the "Operation Blond" strip published last week. Thanks to the help of three men in the AirPac Communications office who cracked the code, the North Islander is publishing an authentic translation along with the comic strip below. Code crackers pictured are: Jerry Hart, TE3; R. A. Bennett, TEC; and Harold Bowers, TE3.

OPERATION BLONDE AFPS

Pipe this aboard! Man, that is real Shipshape! Keep it clean. I know Morse, too!

47 Days Until CHRISTMAS

Not too early to begin planning for the event. Again NAS divisions and shops will be preparing for the annual Christmas parties. To facilitate the early procurement of Yuletide decorations, it is requested that NAS Department heads place orders as soon as possible with the NAS Special Services Officer.

A Letter of Thanks

A letter of thanks was received by the Commanding Officer of the Naval Air Station from the Inspector-Instructor, U. S. Naval Reserve of Santa Ana for the station's contribution of the USS NORTH ISLAND exhibit.

The letter of thanks read: "This letter is forwarded to express my appreciation of your generous cooperation in sending to this activity, your USS NORTH ISLAND exhibit which materially contributed to the real success of our Open House held on 21 October 1952.

"Too, a note of thanks is due the men from your command for their interest, assistance and conduct.

"Signed: R. T. TOWNSEND."

NANCY OLSON co-stars with John Wayne in "Big Jim McLain" this week.

EM'S on ComRats May Buy Meals At Gen-Mess

The Commanding Officer announced this week that provisions have been made for enlisted personnel drawing commuted rations, while standing a 48 duty week-end to purchase meals from the General Mess.

Each department and Unit or Command attached to, or on board this station should submit a memorandum to the General Mess Officer prior to 1100 Friday, listing by name the men entitled to purchase meals from the General Mess.

Care should be taken to ensure that the listing of names is complete and accurate. This is required in order to plan the meals involved and provide the mess hall MAA with a list of approved personnel.

Additions to the list will not be honored nor will lists submitted later than 1100 Friday be accepted.

Praise for Men of Operations Dept.

The commanding officer has received a letter from the commanding officer of VF-791 praising "the outstanding cooperation of the tower personnel and the entire Operations Dept. of NAS." The letter added that this cooperation permitted the squadron to launch its planes in the minimum time en each alert during air defense exercises on October 27-28.

Skyraiders Lose to 'Phib Squad, 27-6

Sparked by the ex-Vanderbilt All-American Billy Wade the Amphibious Invaders tromped the Naval Air Skyraiders by a score of 27-6 at Turner Field in Coronado Saturday. Displaying the dazzling form that made him the most valuable player in the Southeastern Conference last year, Wade hit on 14 of his 21 passes for 150 yards to keep the Skyraiders in trouble most of the afternoon.

'Raiders Score First

The Skyraiders threw a scare into the Invaders early in the game. Pete Steel kicked off for the Airmen and the ball was taken on the five by Moser who ran it back 25 yards to the 30-yard marker. The pig-skin was promptly turned over to Wade who attempted two running plays and was stopped cold on both trys. On third down Wade faded back to pass but again was rushed by the hard-charging 'Raider line and the pass fell incomplete. With fourth down and still 10 yards to go for a first down, Wade elected to kick but the ball was partially blocked by the entire Airman forward wall. Bill Montagne picked up the loose pigskin and raced 40 yards unmolested for a touchdown. Lavine's attempted extra point try failed.

The Skyraiders again kicked off to the Invaders who ran the ball back to their own 17-yard stripe.

HOT ON THE HEELS of Bud Gartiser are three Phib Invaders as he breaks away for a gain Saturday at Coronado. The Airman went deep into Invader territory quite a number of times but each drive failed to materialize.

The first running play failed to pay off for the Phibs. On second down the Invaders fumbled and the ball was recovered by Finley on the 15-yard stripe, to present another scoring opportunity for the Airmen.

With first and ten on the Phibs 15-yard line, McClusky tried the middle of the line and picked up three yards. Two plays and a penalty set the 'Raiders back five yards. On fourth down, Jack Bighead attempted a field goal but the ball went wide of the uprights. The Phibs took the ball over on their own 20-yard line and started to roll. Wade picked up 15 yards around end, a fumble set the ball back to the 29-yard line and on the next play a pitch-out to Stevens put the ball on the 44-yard line. A penalty and a play moved the ball back five yards and the Invaders were forced to punt, the ball rolling dead on the Airmen's two yard stripe.

Airmen On the March Again

Taking the ball over on their own two-yard line, the 'Raiders sent Hernandez up the middle for a one-yard gain. McClusky picked up several yards but a penalty on the play set the pigskin back to the one-yard stripe. Davis then faded back and shot a pass to Williamson for a first down. McClosky picked up four yards up the middle and Davis again faded back and this time hit Hernandez with a pass at the mid-field stripe and Hernandez, in turn, ran the ball down the side line to the Phibs 11-yard stripe. Mancusso hit the line for six more yards and McClosky was stopped dead for no gain. A penalty then set the 'Raiders back to the 10-yard line. On third down Davis ran to the 6-yard stripe but again a penalty set the ball back to the 11. The Airmen, unable to run the ball over, decided to try their second field goal of the day, with Levine doing the booting but the ball sailed wide of the goal post for the second time, and the Skyraiders lost another scoring opporunity.

Phibs Take the Lead

A bad pass from center on an attempted punt gave the Amphibs the ball on the 'Raider 25 and two plays later the Invaders were ahead 7-6 as Wade went over right tackle untouched. Nicholson kicked the extra point.

In the second half it was PhibPac all the way as Wade masterminded them to three touchdowns. Opening the second half Wade let go of a beautiful jump pass which hit fullback Maurice Bassett in the end zone to give the Amphibs a 14-6 lead.

In the fourth quarter the Coronado squad really got rolling and scored 13 points to sew up the game. Bassett scored the first fourth-period score as he ended a 70-yard drive by bulling over from the 10-yard line.

Midway through the fourth period PHIBPAC drove 54 yards to their final touchdown. The 225 pound Bassett dominated play on this drive with runs of 13, 7 and 17 yards and then crashed over from the two for his third TD of the afternoon.

Naval Air threatened to score when end Lou Holt blocked a punt and gave the Skyraiders a first down on the Amphibs 22. Jack Atkinson moved it to the 19 and McClosky reeled to the six in two plays but there the attack fizzled and the Skyraiders lost their final scoring chance.

The Game in Figures

	NavAir	PhibPac
First Downs	6	17
Yards Rushing	73	317
Yards Passing	113	150
Passes Attempted	15	26
Passes Completed	5	14
Yards Penalized	80	130
Punts Average	37	33

WADE'S JUMP PASSES were the deciding factors Saturday as the 'Raiders lost to the Invaders by a score of 27-6. The ex-Vanderbilt ace heaved a 40-yard jump pass that found its mark in the end zone for six points. Owen Finley (36), Skyraider end is in the near foreground.

BILLY WADE CRASHES THROUGH for more yardage against the Naval Air Skyraiders Saturday, while an unidentified Airman gridder attempts to bring him down from behind. The 'Raider's Bud Gartiser puts out his arms trying to grab Wade's flying feet but to no avail. Young (32) is about to start in pursuit of the Phib star at Turner Field.

SPORTS

AirPac Pistol Team Triumphs

At the San Diego Police Pistol Matches, held on November 2, 1952, the AirPac Pistoleers won the 38-cal. sharpshooter team championship and were runners-up in the 45-cal. team championship. The winning combination consisted of: F. L. Hoeke, R. J. Lemmons, G. S. Butler and P. R. Barker.

The Airpac congregation also came through with several individpal awards, sparked by P. R. Barker and F. A. Feakes, who each won a trophy and seven place medals. G. S. Butler was runner-up, with four medals, followed by F. L. Hoeke, D. V. Mardis and R. F. Elworth with two medals each.

The local pistol wielders have fared very well in their recent matches and are being heard from more and more after each match. Keep up the good work, fellows.

MCRD Tops League; NTC Close Seond

This season so far has proven to be a tough one for most of the Eleventh Naval District football teams due to the fact that most of the squads are loaded with grid material. MCRD is still at the top in conference play with the Naval Training Center running a close second. Both squads have several tough games remaining on this year's schedule which still makes things doubtful as to which team will end up on top.

FOOTBALL STANDINGS

Team	League Won	League Lost	All Games Won	All Games Lost
MCRD	4	0	5	0
NTC	1	0	6	1
PHIBPAC	2	1	5	1
Pendleton	1	1	4	2
Naval Air	0	3	2	5
El Toro	0	3	1	5

airpac's sportlight

The AirPac Athletic intermural program is well under way with each team battling to get on top. Included in this program are basketball, table tennis, boxing and wrestling.

A Boxing Smoker is scheduled for today, November 7, at the Fasron 7 gym. The event will start at 1100 and the winners of the bouts will meet the Ream Field and Miramar Champs on December 5.

INT. BASKETBALL STANDINGS

Basketeers Prep

Basketball season is rapidly drawing near and the Naval Air Skyraiders are brushing up on their shots, layups and passing. Several of last year's stars are returning for action with the Airmen but quite a number of new men will be seen on the court when the season opens.

corner on sports

By John Phillips

WADE! WADE! WADE!

Saturday afternoon on the Coronado gridiron was a rough one for the Naval Air Skyraiders as they battled Billy Wade and Company. The 'Raiders got off to a blazing start and were in the game up until the final quarter when the Amphibs put on the heat and pulled away. At the end of the first quarter the score was 7-6 in favor of the Invaders and at the end of the half the score still remained at 7-6. During these periods the Skyraiders marched down within scoring distance several times but each drive frizzled just short of the double stripe marker. It was mainly the ex-Vanderbilt All-American Billy Wade that mastermined the Invader eleven to the point where they looked as if they would be lost without him. Wade did most of the passing to gain a lot of yardage and set up the touchdowns for the Amphibs. As a runner Wade looked every bit the part of an All-American, picking up yardage on the ground by the old swivel hip method. Another star that shined brightly for the Invaders Saturday was the Fullback Bassett who went over for three of their four touchdowns.

Handball Team in the Making

A Naval Air Skyraider handball team is being formed to represent Naval Aviation in the Eleventh Naval District and material for the squad is in need. Qualifying tryouts will be held on November 15 in the Lowery Annex. Anyone interested in trying out for the team should contact Chief Freeman at Ex. 1443 or at the AirPac Athletic Office. Coaching the handball squad will be LCDR C. B. Curtis of Faetupac.

No Game This Week

This weekend the Naval Air Skyraiders have their first breather of the season as there is no gridiron duel on schedule for this week. The game layoff is desperately needed by the Airmen who have lost quite a number of men due to injuries received in the last several gridiron ncounters. With a week's rest and if some of the key men recover the Skyraiders might bounce back to beat the not too powerful El Toro Marines on November 15 at Santa Ana, Calif. The El Toro eleven have only been able to win one game so far this season when they overcame TraPac 13-0. The Flying Marines lost to the powerful San Diego MCRD team by a score of 66-6, earlier in the season.

Marine "Boot Bowl" Football

Football fans might easily get a preview of the All-Marine Corps Football Championships of 1952 Saturday at Balboa Stadium. The two contestants—the Marine Corps Recruit Depots of San Diego and Parris Island—are currently heading the respective lists of Western and Eastern Marine Corps football powers. The local Depot boasts plenty of power but the Parris Island eleven is also loaded with ex-college and professional stars.

LCDR BILL DIXON, (right) HU-1 Operations Officer, and Mr. W. H. "Bill" Coffee Jr., Piasecki test pilot, study the instruments before taking off on the first test flight that officially ungrounded HU-1's HUP's. Mr. Coffee will remain with HU-1, in an advisory capacity for the next wto weeks, explaining the modifications and flight characteristics to the pilots, who will soon be flying them in the Korean theatre. The HUP's will replace the HO3S-1, as the "work horse" of the fleet in the next few months.

REAM Border Lines

ALF REAM — SAN YSIDRO, CALIFORNIA

ComFair Trophy Presented to HU-1

CAPT G. A. McLean, ComUtKingPac, presented the ComFair San Diego perpetual touch football trophy to Commander H. M. Kosciusko, Commanding Officer of HU-1, October 28, with congratulations to the Squadron for bringing this traveling trophy to Ream Field. It is the first trophy of its kind to be won by a Fleet Air Detachment Squadron since the reopening of the field.

The presentation was made following the personnel inspection which was part of the Squadron's Annual administrative, Material, and personnel inspection.

The inspection party consisted of Captain G. A. McLean and other officers from ConUtWingPac and VU-7.

All Hands . . .

ALF Ream Enlisted Men's Club will have its grand opening, Friday, 21 November. ENTERTAINMENT, FOOD, 200 HOSTESSES.

HU-1 Pilot Saves Soaked Sleep Walker

The alertness of LTJG C. R. McMillan, HU-1 helicopter pilot based aboard the Carrier Kearsarge (CV-33), and his crewman Coon, E. C. ADAN probably saved the life of Hill Robert E. FN, USN.

Hill fell overboard from the destroyer 876, into the icy waters just off the coast of Korea. With no life jacket or other flotation gear, Hill was apparently exhausted from swimming and was convinced that he wouldn't have lasted until a destroyer could have arrived.

The last thing Hill remembers before finding himself in the water, was his going to sleep in his bunk during lunch time. Apparently a bad case of sleep walking placed the sailor in his predicament.

LTJG McMillan, hovering over the fantail, returned Hill to his ship, apparently none the worse from his swim in the Korean waters.

VU-3 Chief Pop Of 8-Lb. Girl

Utility Squadron THREE's leading chief, Harold Tucker, was presented by his wife, Mildred, with their third child, a baby girl born in the North Island Naval Hospital.

Penelope Estelle, Tucker's brand new daughter, tipped the scales at a hefty eight pounds, three ounces, to bring the count up to two girls and one future chief petty officer in the household.

Tucker, an active member of VU-3K since November of 1951 and leading chief since August of this year, has some twenty-three years of Naval Service behind him, which has included tours of duty in Hawaii, Sand Point, Ford Island, Norfolk, North Island, and almost all kinds of naval vessels.

The officers and men of VU-3K offer their congratulations to Chief Tucker and his family and that Ship's Service has just received a new supply of cigars.

VU-3K Basketball Schedule

NOV. 11	HS-4
NOV. 13	HS-2
NOV. 14	HU-1
NOV. 19	HS-4
NOV. 21	HS-2

VU-3K SCORING PARADE:

	Pt.	Games	Avg
Deibler	37	7	5.2
Steege	23	7	3.2
Hays	65	8	8.1
Feser	23	6	3.8
English	107	8	13.3
Hope	96	8	12.0
Franer	30	8	3.6
Lachowski	40	6	6.4

VU-3 Netmen Continue League Victory Stride

Utility Squadron THREE won their sixth and seventh straight intra-squadron basketball game as they drubbed HU-1, 68 to 62, and HS-4, 64 to 53, in games played last week in the station gym.

After a lay-off of a week and a half while the gym floor was refinished, VU-3 picked up where they left off and met HU-1 in a wild and action packed cassaba tilt.

The dronemen's attack featured ball control, timely shooting, speed and hustle, as they left the floor at halftime with a three point advantage.

Building up their led to seven points early in the second half, Bill English and Wes Hays were sidelined with a dangerous four personal fouls, five and you are evicted from the game, and were saved until later in the game, when HU-1 knotted the score and went ten points into the lead. Successive baskets by Paul Steege, Jim Feser, Howard Hope and "big" English and the score was again tied at 62 to 62, with but fifteen seconds left to play.

At this point, Hays was fouled and was awarded two free throws, which he sank to give VU-3 a two point lead. Seconds later, Hope was fouled and made his two free throws to pull ahead by four points. Not to be outdone, Hays was fouled again with two seconds remaining and rang the bell for two more to end the scoring and the game.

Howard Hope, sterling guard, led the winners attack with 18 points, followed by English's 11, Hays' 10, and Feser's 9.

In the contest with HS-4, the game was marred by continual rough play, of which, the officiating paid no attention.

The issue was never in doubt as the dronemen fought off a vigorous and spirited rally in the first half and then coasted to a 11 point victory.

Hay's 17 points tied LT. Olson's 17 of HS-4, for high point honors. English pocketed 12 points Hope dropped in 10, and "Mighty Mite" Franer came through with 10, to lead VU-3K to victory.

HAYS of VU-3 and Caldwell of HU-1 go up high for the tip-off as Bill English, number 7, stands by for the ball.

Former O.S.S. Man Joins Ant-Sub Squadron Two

By LTJG J. P. GILSTRAP

A former O.S.S. man has joined Helicopter Anti-Submarine Squadron TWO. ENS Everett D. King, USNR, has packed a lifetime of excitement into his 28 years as a member of one of the most demanding organizations that has ever been formed. Much of the work that he has done is the sort of stuff that makes good movies.

Here, briefly, is the story:

Don joined the Navy in December of 1942 and heceived his boot training at NTS, San Diego. He was then assigned to the Armed Guard which was attached to a merchant ship.

This was not the most exciting of occupations so he applied for the O.S.S. training which would fulfill his search for excitement and adventure. The pre-requisites included that he must be a better than average swimmer and in perfect health. At the time that he was accepted, the weeding out process took place and they separated the men from the boys by dismissing the ones who could not keep up with the pack in the grueling indoctrination which included a five-mile swim every morning just for a warmer. Of the sixty-three that applied and were accepted, all but 25 were eliminated.

The training process took the team of men to San Clemente Island, and Catalina Island, and from there to the Bahama Islands where they trained with the British who had long excelled in the Commando type of tactics.

After months of this type of training, they were finally prepared for the job for which the team had been formed—to harrass the Japanese fleet at anchor in their "Pearl Harbor," Truk. The O.S.S. team was diverted from this mission, because of the completeness of the job done by the carrier strikes.

The team was then assigned to the Under Water Demolition Team on Maue, Hawaii, where they served as instructors and teammates to UDT 10. His team and others like them were engaged in "sneak and peek" operations, under water demolition, mine reconnaisance, and general reconnoitering, days prior to the historic assaults on Anguar, Ulithi, New Guinea, Leyte, Subic Bay and Lingayen Gulf.

Shortly following VJ Day, King was discharged. The intervening years were spent in going to college and doubling as a swimming instructor for the Parks of San Gabriel, California. his home. Eventually, he became a director of recreation for the San Gabriel Parks. He resumed his Navy career in August, 1950, when he enlisted as an Aviation Cadet.

Ensign King is one of the few who, with an eye to the future, chose to fly helicopters while in the early stages of his flight training. He feels that it is a great opportunity to have a part in the development of the aircraft admittedly the future's mode of transportation.

'Wooden Horse' Escape Story To Be Told

The story of a spectacular escape from a German prison camp during World War II will be told by the British author and lecturer Oliver Philpot, Wednesday at the Hospitality Auditorium, Balboa Park, 8:15 p.m.

Author of the book "Stolen Journey," based on his experiences as a prisoner of war, Mr. Philpot, an RAF aviator, was shot down off the Norwegian coast early in the war. His book was the basis for the motion picture "The Wooden Horse."

The lecture is under the sponsorship of the San Diego Chapter of the English Speaking Union.

Tickets may be obtained by contacting Miss Eugenia Tolson, secretary of the organization, 4960 Vista Place, San Diego, R-5981.

Answer to Puzzle

ERDMANN BEACH DEDICATED

The NORTH ISLANDER
U.S. NAVAL AIR STATION

VOL. VIII SAN DIEGO, CALIFORNIA, NOVEMBER 14, 1952 No. 46

New Facility Named For Rear Adm. W. L. Erdmann, Site of Xmas Benefit Dance

Highlight of the first NAS joint military-civilian dance was the dedication ceremonies Friday naming the Beach Facility "Erdmann Beach" in honor of Rear Admiral W. L. Erdmann, former NAS Commanding Officer.

In dedicating the Beach Facility, Captain W. F. Rodee said:

"Ladies and Gentlemen . . . it is with great pleasure that I dedicate this modern recreational facility as . . . 'Erdmann Beach.'

"Dedicated to my predecessor . . . Rear Admiral W. L. Erdmann . . . under whose personal supervision this facility was made possible.

"My only regret is that Admiral Erdmann is unable to attend this party.

"I have received a letter from the Admiral, in which he said . . .

" 'I deeply appreciate the honor of having the beach facility named after me. . . . It is a wonderful facility that the Naval Air Station justly deserves, and it is my earnest hope that all the personnel at San Diego will enjoy it for a very long time." . . .

"And so, it is to Admiral Erdmann, I now dedicate this facility as 'Erdmann Beach'."

"I want to thank you all for your fine turnout at this benefit party. . . . It is through your cooperation that this station is able to host the service orphans and their widowed mothers to a fine Christmas Day. . . . I hope you all enjoy yourselves tonight. . . . And, again, thank you."

Following the dedication ceremonies, Dance Queen Miss Mae Entwisle drew the lucky numbers for the evening's many valuable door prizes. For pictures of the dance and who won the door prizes turn to page five.

N. I. A. 'Harvest Dance' Nov. 21

BUMPKINS IN THE PUMPKINS and charm in the barn—Heck, it's just an advertisement for next Friday night's Harvest Dance at the Balboa Park Club. N.I.A. is sponsoring the big event, which is open to the public.

Balboa Park Club Site of Big Fall Event

Next Friday, November 21, will be the occasion for revelry and merriment at the Balboa Park Club, when the North Island Association presents its Harvest Dance for all hands, civilian and military.

Complete with door prizes, this fall frolic will feature the music of Billy Carmen, According to Stan Fleet, chairman of the dance committee, ticket sales are moving ahead at a record rate, and a good crowd is anticipated.

Past N.I.A. dance events have proven among the most popular evenings of entertainment of the North Island social year. Tickets may be obtained from any N.I.A. officer.

Rates Go to Over 90% Who Passed P O Tests

Practically all men who passed the July petty officer advancement examinations were rated, the Bureau of Personnel announces.

Reason for the large-scale promotion, the Navy said, was a shortage of petty officers now existing in the Navy. The shortage was created by the increasing number of reservists being released to inactive duty.

As a result of the July examinations, the Navy promoted 9,000 men to petty officer first class (E-6); 19,570 to petty officer second (E-5), and 66,300 to petty officer third class (E-4).

These numbers represent almost 100 percent of the men who passed the tests in all three rates. Broken down by grades, the percentages were:

Pay Grade E-6.....95.6 percent
Pay Grade E-5.....98.3 percent
Pay Grade E-4.....92.5 percent

Approximately 1,700 men who passed, but were not promoted to chief petty officer in last January's tests, will be promoted early in December. No word is available on how the CPO situation will be handled in the 1953 examinations.

It is expected that the vacancies created by reservists being released will be completely filled by the 1953 exams. If so, the previous rigid restrictions will again be placed on promotion lists in 1954.

AMBASSADOR VISITS NAS

FULL HONORS were accorded Dr. J. H. van Roijen, ambassador of the Netherlands to the United States, upon his arrival at the Naval Air Station Wednesday. Dr. and Mrs. van Roijen are pictured right background as the Netherlands national anthem is played by the ComAirPac band. CAPT W. F. Rodee renders salute.

Marine Corps Celebrates 177th Birthday Monday

The 177th anniversary of the U. S. Marine Corps was observed Monday with the traditional cake-cutting ceremony by the NAS Marine Detachment.

It was on November 10, 1775, that the Continental Congress passed a law which gave the colonies two new battalions to be known as Continental Marines, which were to serve with the navy, organized only a month earlier.

At the local observance, MAJ A. C. Hoffstetter, executive officer of the Marine Detachment, Naval Station, read to the gathering of NAS Marines a message from GEN Lemuel C. Shepherd, Commandant of the Marine Corps, and the Birthday Commemoration from the Marine Corps Manual, traditionally read before all members of the Corps on the occasion.

CAPT. W. F. Rodee, NAS commanding officer delivered the anniversary greetings from ADM Arthur W. Radford, Commander-in-Chief of the Pacific Fleet.

The cake-cutting ceremony, in which tradition requires the participation of the oldest and youngest Marine in the unit, saw MSgt John E. Kennedy slicing a wedge of the large cake for PFC Robert J. Pomeroy.

SGT Kennedy is a veteran of 29 years active duty with the Corps, and has participated in most of the major Marine expeditions and campaigns during this period.

Pvt. Pomeroy, who enlisted May 13—a day after his 17th birthday—is a native San Diegan and a graduate of Snyder High school. Marine life is nothing new to the private since his father is a master sergeant at Camp Pendleton.

CAPT Dahl Assumes Command of FAW-1

Captain T. O. Dahl, USN, has assumed command of Fleet Air Wing ONE, temporarily based at NAS, San Diego. Fleet Air Wing ONE recently returned from a tour of duty in the Far East.

The new commanding officer relieves Capt. John H. S. Johnson, USN, of Richton, Miss., who has been ordered to the USS ORCA (AV-49) as commanding officer.

Before coming to Fleet Air Wing ONE, Captain Dahl was commanding officer of the Naval Air Station, Grosse Ile, Mich. He is a 1927 graduate of the U. S. Naval Academy and received the Wings of the Naval Aviator in 1930.

During World War II Capt. Dahl served aboard the light carrier USS BELLEAU WOOD as air officer and later as executive officer.

POINSETTIA QUEEN CANDIDATE WILL BE NAMED AT LEGION DANCE NOV. 21

"Be there when North Island Post's candidate for Poinsettia Week Queen is chosen," urges Rudy Fuentes, Post 753's second vice commander. He is speaking of the post's annual Turkey Trot, a dance to be held in the beautiful Continental Room of the Hotel San Diego next Friday, November 21.

It is going to be a great dance, according to Post 753 spokesmen. Admission is free and the North Island public is invited.

North Island girls interested in entering the Queen Contest, contact any Post 753 officer today or Monday.

Music will be provided by Dave Willis and his orchestra.

The NORTH ISLANDER

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

Ignorance

Ignorance is one of the reasons for security violation. In this case we don't mean mental dullness, although that can be a danger to security too. Mainly, we're dealing with ignorance, or lack of knowledge, or the importance of security—and of the various procedures and safeguards which are a part of our security program at NAS.

Obviously, you can't do the best possible job of protecting classified information if you don't know the specific security procedures that apply to your work; and unless you believe in the necessity of making these procedures a part of your day to day routine.

Don't let ignorance of correct security procedures cause you to endanger classified information.

Classified information may be exchanged ONLY between cleared personnel, and then only on a need-to-know basis. The fact that a specific person is cleared for access to Secret or Confidential information does not entitle that person to receive all available Secret or Confidential information. No more classified information may be given to any person than is absolutely essential to his employment.

Chief M.A.A. Tips

HOW TO KEEP THE MAA FROM BOTHERING YOU:

Wear your uniform with pride! Wear it according to station regulations and the man on the corner with the badge won't give you any trouble.

Clothing sold by the Navy Clothing and Small Stores are the only authorized articles of uniform. Wearing only articles purchased there is an important step in assuring you a regulation uniform.

Some regulation clothing articles, however, depend on the time and occasion before they are considered wearing apparel.

For example, foul weather jackets may be worn aboard the station only when the command or the weather permits.

R. M. Cramer, TMTC

On Leave Taking

During times of peace, men in the service look with joy to their going on leave, and why should this not be so? This is vacation time, when many long-made plans are realized in fulfillment; fishing, hunting, visiting the home town.

But during these days of crisis, most leave-taking is of another nature. In the performance of duty, servicemen are saying "Good-bye" and "So long" to familiar faces and places which have become dear to their hearts. Such experiences are often accompanied with tears and tugging of heart-strings. And why should this not be so? Plans in process of completion must often be scrapped; the joy of day to day fellowship with loved ones stands in jeopardy. How should we meet such leave-taking? There are three attitudes, one of which is generally taken.

We can rightfully feel sorry for the few who take the attitude of nihilism. Such individuals feel that all is lost; all ties cut; all happiness ended. For them, leave-taking is spirit-crushing. There is an emptiness in the hearts and spirits of those assuming this attitude toward leave-taking that need not be there.

There is another attitude toward leave-taking which is adopted by some, for whom we may be equally sorry. They are those who reason that, if they are to leave home and family and friends, they must assume an attitude of stoicism; a mind and heart of steel; no recognition of human emotions; impervious to the ties of loved ones and home. For them, leave-taking is locking the heart; encasing the spirit in a shell of false courage. Should this shell ever fail or break down in time of stress, the stoicism, upon which they have relied, collapses.

There is, however, a third attitude, somewhere between the two just mentioned, that makes leave-taking a part of human experience. Here is a position that recognizes all the "belongingness" which grows within us through home and family relationships, yet without feeling that all is lost should we be called to take leave of their presence.

Does this sound too good to be true? No, it is not. Why? Because there is another Person who enters into the whole business of living. He is our God and Father, the creator and sustainer of all things.

The reason that we fall all apart in times of sorrow and sadness is that we have left God out of our thinking. The reason we believe that we must muster our own strength to build an iron shell around our emotions and feelings is that we have neglected to tap the unlimited resources of God-given strength which He offers to us His erring children.

With all the other experiences of life, leave-taking comes to us in a new light when seen within an awareness of Almighty God. "Lo, I am with you always, even unto the ends of the earth," speaks this comforting Word. The guiding, upholding, strengthening arm of the Lord encircles us and keeps us within His sheltering fold, for, "Thou art Mine, I have called thee by thy name," saith our God. May our leave-takings be made in the awareness of our Heavenly Father, to Whom, in prayer, we have committed the care and keeping of our loved ones and ourselves.

Leonard B. Dohrmann
Chaplain, U. S. Navy

'A Tall Story'

A caricature is defined as a "ridiculous exaggeration," but you might not think that James E. Christensen's caricature of his towering self is either ridiculous or exaggerated if you ever saw him.

Jim, a seaman apprentice, who works in the art section at I&E, took a little time off from his work to draw a picture of himself and his co-worker Seaman Jimmy Johnson, a man of moderate stature, for the North Islander.

When queried about his height, which is 6'7", Jim complains that people are always exclaiming, "Whow! Do you play basketball?"

"No!" he had sourly replied for the 10,000th time to this question.

Then, he says, they generally comment, "Well, you're sure tall enough; you could put the ball right in there." Or perhaps they crack, "You could hold the ball right up over your head and know one could reach it. You sure ought to go out for basketball."

People seem to think that Jim should be a great ball player just because he's tall. Actually, he pleads, "I don't have enough co-ordination to light a match. I can hardly pick up my seabag, I'm so off balance!"

Jim likes people and he's not sensitive about his height, but his ambition is to engage in a conversation where the unpleasant basketball subject is not mentioned or where people don't ask, "How's the weather up there?" (To which he always replies: "Find a phone and call up!")

But despite all the trials and tribulations of a tall man—which include being measured 25 times for clothes since joining the Navy—Jim is making himself a pretty handy person to have at the Naval Air Station. He might not be able to dribble the basketball for the Skyraiders, but he wields a mean pen and brush for the I&E Division's visual aids projects.

Four O&R Employees Receive Awards Monday

INFORMAL CEREMONIES in the office of CAPT W. F. Rodee, commanding officer, saw the presentation of four Meritorious Civilian Service Awards. The three O&R employees and one retired employee collaborated in the development of an important method for rebuilding aircraft cylinders. Shown with CAPT Rodee (center) are (left to right) C. C. Cullen, S. L. Chisholm, H. P. "Smokey" Morris, retired Powerplant Div. foreman, and W. H. Keogh.

Teamed to Save Government Over Million Dollars Yearly

Three NAS employees and one retired NAS civilian received Meritorious Civilian Service Awards last Monday, the second highest citation bestowed on civilian employees by the Navy Dept.

The citations and pins were presented to the four O&R men by CAPT W. F. Rodee. Receiving the awards were Wallace H. Keogh, Power Plant Div. foreman; Harry P. Morris, Power Plant Div. foreman (Ret.); Stanley L. Chishom, O&R; and Charles C. Cullen, Power Plant Div. quarterman.

The four O&R men formed a team to devise a satisfactory method of derusting completely pitted areas of aircraft cylinders with negligible loss of metal which produces a finish requiring a minimum amount of honing, lapping, and run-in time.

This process proved successful on all types of pitted cylinders, including those that would normally be honed and many that were previously considered to be beyond economical repair. This processing method was approved by the Bureau of Aeronautics and is credited as a means of salvaging over a million dollars worth of used cylinders a year.

The development was carried to completion after the retirement of Mr. Morris, who originally conceived the idea for the process.

Navy Places 'Boots' Ashore On Probation

Recruits fresh out of boot camp who are assigned to shore billets will now be "considered" for sea duty after four months, the Navy announces.

The new plan will be implemented by the commandant of naval districts and the Chief of Naval Air Training. The men will be placed on a four-month probation period. At the end of that time it will be decided whether or not they will continue in shore billets or be recommended for sea duty.

The plan is based upon the theory that, in certain cases, men fresh out of boot camp assigned to shore stations do not get complete indoctrination in the ways of the Service which are available aboard ship.

Those SA-SNs and FA-FNs who are recommended for sea duty at the end of the four -month period will be placed on a list to be submitted to the Bureau of Personnel.

Special Prices for NAS Civilians at 'Ice Cycles'

NAS civilian employees and their families are being offered reduced prices on $2.50 and $3.00 tickets to the Ice Cycles show, held at Glacier Gardens, San Diego.

The reduced prices are good for the nights of November 16, 17, and 18.

By showing their NAS ID badge at the Glacier Gardens box office, employees will receive a 50-cent reduction on each ticket purchased for their family group.

NAS CIVILIAN BLOOD DONOR

THANK YOU ALL FOR A SPLENDID TURN-OUT. DON'T FORGET TO ASK YOUR SHOP PERSONNEL SUPERVISOR FOR AN APPOINTMENT. THIS IS **YOUR** FUND FOR **YOUR OWN** FAMILY.

New Contest Starts Today

The North Island Association has just announced that safety during the holidays will be the subject for **original** slogans submitted in the new contest which closes December 12.

You can probably think of others, but holiday subjects that might give you an idea include: safe toys for the children and instruction in safe practices while playing; safety in location and decoration of Christmas trees whether in the shop or at home; personal condition at work not to include hangovers or daydreams about holiday plans (you're asking for an injury if you're not alert every minute); and safe arrival at that holiday party with particular emphasis on the return trip. A big subject that should produce some fine slogans is that of Thanksgiving for an accident-free year. If you can't qualify, perhaps you're thankful that your injury wasn't more serious.

Frankly, our holiday safety record is terrible. On the job, at home or on the streets and highways it would seems that our holiday objective is one of destruction.

How about proving that you want to be around for the holidays next year by helping to make the ones this year safer? Here's how! Dream up an original slogan on holiday safety and submit it via any Beneficial Suggestion box. Yau may win $10.00 or a year's membership in the North Island Association as well as encourage holiday safety. Well?

NR Thrift Shop Holds Tea

With the two-fold purpose of exhibiting the large stock of toys already collected and of increasing the number to be available for Christmas selection, the Navy Relief Society's Thrift Shop announces its annual pre-Christmas tea, planned for Thursday, 20 November, from two until four in the afternoon.

Mrs. James M. Smith, Thrift Shop Chairman, and her assistant chairman, Mrs. W. Wiedlinger, extend a cordial invitation to all Navy Relief Society workers and to friends of the organization to attend the event, which will be held in the Thrift Shop building at Navy Field. Each guest is requested to bring either a toy or a Thrift Shop bundle.

In preparation for the heavy holiday demand for toys and clothing, the Thrift Shop staff has been busy for months gathering, sorting, and, with the assistance of their husbands, repairing the articles that will be displayed at the tea and sold to military personnel entitled to purchase at the Thrift Shop.

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

COLUMN RIGHT—Is your column. Its purpose is to answer questions of general interest which affect your employment. Forward all questions to, "COLUMN RIGHT," c/o Industrial Relations Department, Building 415, or deposit them in the Beneficial Suggestion Boxes.

By Bill Mayer, Ext. 1045

Q. What is the policy regarding the granting of leave without pay to indefinite employees? What order covers this policy?

A. Current station policy provides that leave without pay will not be granted to indefinite status employees. Indefinite employees may be placed in non-pay for a period not exceeding 10 work days. Since the discontinuance of the "Instructions Governing Civilian Personnel" manual on the station, no specific order covers this policy. However, it is still applicable and is followed by all station departments.

Q. Who is the hiring agent on NAS SD?

A. The Appointing Officer on NAS is the Employment Superintendent in Industrial Relations Department, Mr. G. L. Warders.

Q. What are the critical rates on the station?

A. Critical rates are those which are shortage trades or occupations in the San Diego labor market area. Depending on the availability of manpower in this area, these trades vary. Currently the following ratings are especially critical on NAS: Electronics Mechanic, Radio Mechanic, Machinist, Carpenter, and Laborer.

Q. What is meant by unappropriated funds as indicated in "Employee Cooperative Service Plan NAS SD Instruction 12066-1?"

A. You are referred to a full page ad explaining the Employee Cooperation Services Plan in the North Islander last week.

Q. Who sets up training standards for NAS San Diego?

A. Training standards for NAS San Diego are set by the Station Training Committee.

Q. Is a group insurance plan advantageous to employees?

A. Generally group insurance can be obtained at lower cost, thus all participants benefit.

LADIES WHO LOAD 'EM UP

ANOTHER OF Fuel Section's lady operators who leads a varied life is ELSA C. FICKAS, relief loading rack operator. Usually at tank farm "A," "B," or "89," she is seen here checking the fuel which is being loaded onto an NAS motor launch.

LENORE FOX, WINIFRED V. STALLBAUM, and RUTH HENER are the feminine components of S & F Fuel Section's office force. They handle accounts, stock upkeep and posting. Stallbaum is Fuel Control Unit Supervisor, and special assistant to Fuel Coordinator, NAB 11th and 12th Naval Districts.

S&F Fuel Section Has Many Versatile Women Workers

It's definitely not a man's world in Supply & Fiscal Fuel Section, though a number of good men do work in the farflung operations of the section.

Seven women are employed in varied capacities in this aviation fuel and lube oil section, and it is specifically about them that this story centers.

Fuel Section receives, stores, and issues all fuel and aviation lubricating oils for the Naval Air Station and for fleet activities and ships operating from the station.

It is aviation fuel depot for dependent activities including ALF Ream, ALF Brown, Coast Guard Air Station, San Diego, NAAS Miramar, and NAAS El Centro.

The Section maintains operation of the station's fuel storage and distribution system on a 24 hour, 7 day week basis, has seven "tank farms" with 25 miles of inter-communication pipe lines ranging from 2 inches to 10 inches in diameter. It includes numerous ship loading and off-loading terminals on the several piers, as well as a considerable number of railroad tank and tank truck loading and off-loading facilities, a marine service station, and a fleet of tank trucks. It keeps the records for all of these and other fuel operations of the Naval Air Station.

The women of the section take an active part in nearly every phase of the operations. Four are in mechanical ratings, three are clerical. Of the latter, two are WAVES and one is a civilian. The four operators are all civilian employees.

Elsa C. Fickas, a loading rack operator, usually works at tank farm A. B. or 89. She is a qualified pipeline operator.

Helen C. Hurteau works at vehicle gas station No. 3, is a jet fuel loading rack operator.

Beatrice L. Hiller is a hydraulic fuel storage operater at tank farm A.

Jacqueline A. McDonald is a bulk fuel storage operator, also is qualified as a heavy duty truck driver, handles trucks 10 tons and over with dexterity, moves fuel and lube between storages.

Lenore Fox handles stock upkeep and posting, is clerk for fuel and lubricants in the section office.

Ruth Hener, SK3, is fleet aviation fuel accountant, also handles station motor vehicle fuel accounts.

Winifred V. Stallbaum, AKC, is special assistant to the Fuel Coordinator, Naval Air Bases 11th and 12th Naval Districts, and is fuel control unit supervisor.

BEATRICE L. HILER, hydraulic fuel storage operator of Fuel Section, is seen here gauging salvage lube oil tank at tank farm "A."

FILL 'ER UP—Loading rack operator for jet fuel, and relief operator at motor vehicle fueling station, is the job of HELEN C. HURTEAU.

JACQUELINE A. McDONALD has been with Fuel Section as fuel storage operator and heavy duty truck driver for 9 years and 7 months.

NAS BENEFIT PARTY HIGHLIGHTS

Last Friday's NAS Benefit Dance, first joint civilian-military party held on station, was highlighted by the dedication of the beach facility as "Erdmann Beach."

Over 700 military personnel and civilian employees attended the gala buffet-dance. Music was furnished by the ComCruDesPac orchestra under the baton of Chief Musician R. Dale Clendenon.

Evening's door prizes went to LT J. P. Onorato, who won the television set; Glenn W. Woods, AM3, of Firehouse Number 2, who won the radio; N. C. Rogers of Shop 3625, who won the Electric Roaster Oven; and Robert S. Putnam, Assistant IRD Officer, who received the Capitol Records album of Ray Anthony favorites.

A cross section of the evening's highlights are pictured here:

1.—Enjoying a private serenade were Helen Johnson, SKSN of Supply Dept.; Dick Basler, AO3, VF-791; Fred D. Standard, HM3, and Mrs. Libby Standard.

2.—Queen Mae Entwisle presents the second door prize of the evening, the Zenith clock-radio, to Glenn W. Woods, AM3 of Firehouse 2.

3.—Gold Star Wives officers—Mrs. Theresa Alexander, National Vice-President; and Mrs. Helen Quady, San Diego County President chat with RADM Henderson ComNABS 11-12 ND (left) and CAPT Rodee, NAS Commanding Officer, during the party.

4.—Enjoying refreshments during a lull in the dancing were Kim Waters, SA of PubInfo Office; Johnny Phillips, ABAN, North Islander Sports Editor; Mr. and Mrs. George Manthey, ET2 of the CA Unit 4 of NAS.

5.—Senior civilian employees of the station enjoying the buffet included Mr. and Mrs. Roscoe Morse, Dick Keller, Albert J. Quicker, Mr. and Mrs. B. C. Thompson, and Mrs. Albert Quicker.

6.—Pictured at the dedication ceremonies are LCDR Pemberton, NAS PIO, holding the mike; CAPT Rodee making the dedication speech; and CDR Page Knight, NAS Executive Officer, holding the plaque that was mounted over the mantle of the fireplace.

NAS Marine Detachment Practices 'Semper Fidelis'

One hundred eight Marines, under Captain H. L. Alderman, USMC, officer in charge, make up the NAS detachment. Of this number, 14 have seen combat in the Korean conflict, while the others are mostly personnel recently out of recruit training.

Frequent inspections, and weapons and combat training are part of the marine's duty at NAS to assure that he is always in combat readiness.

Pictured, above left, is a recent inspection made by COL P. A. McDonald, commanding officer of Marine detachments assigned to Naval installations in the area. With him is CWO R. E. Varnum, assistant officer-in-charge of the NAS detachment.

The 177th anniversary of the Corps was marked at NAS by the traditional cake-cutting ceremony. Center, M/Sgt. John E. Kennedy, veteran of 29 years service, gives first slice of cake to PFC Robert J. Pomeroy, 17, youngest member of the detachment.

A typical scene at Coronado gate (right) shows PFC William Dossett examining the ID card of Mrs. George D. Prestwich. Perimeter security is one of the detachment's major functions on the station.

Knuckle Busters Sked Reliability Run

The Second Annual Reliability Run, sponsored by the Coronado Knuckle Busters and Kiwanis Club, will be staged at Paradise Mesa Drag Strip November 23rd, starting at 9 a.m. Service and civilian personnel have been invited to enter this unique contest of driving skills, based on proper observance of traffic safety rules.

Club officials state that the Reliability Run comprises a 75 to 100 mile route within the county. A time limit has been worked out in which the cars can travel this course observing all safety rules of the road and principles of driving. Concealed observers along the route will check contestants for infractions, issuing demerits for offenses.

Upon return to the starting point, the contestant is given a parking test and his points computed to determine his position in the contest. First prize is a $100 trophy, with a host of other prizes, to be awarded by the Knuckle Busters and their sponsors, the Coronado Kiwanis Club.

Displays of cars from the various Hot Rod clubs will be featured at the Strip. Admission for spectators is free. Entry blanks and information on the Run may be secured by writing Coronado Knuckle Busters, P. O. Box 292, Coronado, or the day of the meet at the Strip. Entry blanks are also available in the Employee Service's office, Building 415.

Trading Post

FOR RENT—Attractive bedrooms, twin beds or double, adjoining bath in private home, no cooking. Also rear sleeping cabin, suitable for one employed man, one block from transportation and beach. Call H-3-3342.

FOR RENT—Apartment, $35 per month. Call after 1800, H-3-5907.

FOR RENT—3 bedroom garage house in Coronado. For sublease only, from Nov. 24 until Feb. 15. Completely furnished, children okay. Call LCDR Kosky at H-3-4288.

FOR RENT—Desires to share attractive, furnished 2-bedroom apartment in Coronado with employed working person (female); reasonable; convenient location; transportation to NAS provided. Call H-3-5700 after 1630 every day except Saturdays and Sundays.

RIDE WANTED—From the vicinity of Valencia Park thru Logan Ave. 0730 to 1400 shift. Call M-4-4761 after 1800.

RIDE WANTED—Ride for 1 or 2 from vicinity of El Cajon Blvd. and Park Ave. (or University and Park Ave.) 0730 to 1600 shift. Contact Austin at W-8-1862.

RIDERS WANTED—For car pool. From vicinity of 70th and El Cajon to Station parking lot. See S. Grossman at Shop 5291-P.

FOUND in Bldg. 8, ladies' ring. Owner contact Security Officer, Bldg. 415.

electrons

By Mildred Splichal

"Welcome back to work," was the greeting received by Betty Wolle from her many friends of the Electric Shop. Betty was on the sick list for eight weeks. She's now back on the job and more chipper than ever.

James H. Rodefer is due back from his trip to Detroit. His main reason for the trip was to purchase a new auto.

Area 68 has two great collectors in their midst, Woody Fields and Johnny Robertson. They are already collecting for a Christmas Basket to be presented to a needy family.

C. E. Flower of the Electric Shop has been laid up due to a cast on his leg. Mary Stolz fell on her way to work and broke her arm. Get well wishes and a speedy return.

Jeanne Ripple is back after a few weeks of leave recuperating from an operation.

A deep sea fishing trip was enjoyed last Saturday by Mr. and Mrs. H. J. Kimble and two enlisted men from the cable shop. The enlisted men were Hutchison and Sharpton. A grand time was had by all and many fish were brought home.

Your welfare and recreation committee are looking for ideas on the decoration of an Electronics Division Christmas tree. If you have any unusual ideas or know of ways to make our tree just a little prettier, contact either Rosco T. Morse, Area 68, Mildred D. Splichal, Electric Shop or Rebecca Harker, Cable Shop. Let's all get busy and think of ways to improve the appearance of our tree.

VIRGINIA MAYO, starring in the "Iron Mistress," plays the part of gorgeous but tough lil gal from old N'awlins.

SPORTS

PREPARING FOR THE OPENING of the 1952-53 Ski Season are Gloria Boyle, AA, and Carl McDermitt as they go about the task of choosing new equipment. Gloria and Carl are members of the new North Island ski club which still has open membership for all interested persons.

NORTH ISLAND'S SKI CLUB SEEKS LARGER MEMBERSHIP

Winter is just around the corner and soon most of the mountains will be covered with that beautiful cold white stuff known as snow. To the Skiers delight this day is in the not to distant future.

Again this season a North Island Skiing Club is being formed on North Island. This club is open to anyone and everyone and above all to those who are interested in learning how to ski. It is not necessary to be a professional on the art of skiing in order to be a club member, and fundamentals will be taught to those who wish instructions.

Several club meetings have already been held in order to make plans, and movies have been shown. The next meeting will be held on November 18 at 2000 in the Auditorium in Building 8. Movies on skiing will again be featured along with a round table discussion. November 18 is an important date to remember and might be a starter for some wonderful weekends of fun and frolic up in the mountains.

Interested personnel are asked to contact either Harley Gerdes at Ext. 549 or Harlan Demsien at Ext. 411.

Stratman, Bartlett Win In Golf Tourney

Freddie Stratman and Charlie Bartlett staged a remarkable comeback recently on Municipal to capture the Ingham Two-man Team Tournament crown from George Waldram and Red McAfee in a 21-hole duel.

Going to the 10th green, Statman and Bartlett were five down and looked hopelessly defeated. But starting with the 10th hole they began to gain and even things up by No. 18.

On the third extra hole, Bartlett bagged a birdie four to end the long match.

Airmen VS El Toro Marines Tomorrow

The Naval Air Skyraiders set sail this week for Santa Ana, California, where they take on the El Toro "Flying Marines." Winning only one game this season and this was against TraPac, the Marines will be fighting for their second victory of the season.

El Toro's Record

Starting off their football season against the all powerful and still undefeated Marine Corps Recruit Depot, the El Toro eleven lost 66-6. In the next game against PhibPac the Flying Marines were again run into the ground, only this time the score was 53-0. Things began to look a little brighter for the El Toro squad as they only lost to Barstow, 18-0, and then won their first game of the season the following week by beating TraPac, 13-0. The next week they were bowled over by another Marine Eleven from Pendleton by a lopsided score of 41-13 and later lost to Fullerton JC, 19-0.

Despite all their losses, El Toro is still a dangerous team at all times and is not a team to be underrated. They will be at their best this Saturday and playing their hardest to overcome the Naval Air Skyraiders who precede them in the league.

'Raiders Not at Full Strength

The Naval Air Skyraiders on the other hand are not at full strength for the game, due to severe injuries to some key gridders. Last week the 'Raider eleven remained idle which gave them an opportunity to do some brushing up and recover from some of their injuries, but "Trigger" Phillips is still a doubtful along with big Claude Finklea in the Airman lineup Saturday.

NO CHANGE ON NACRA FRONT

Pinbusters, Just Us Five, and Mixups held the first three spots in the NACRA Mixed Bowling league this week in that order. Only important shift was Happy Five dropping through from fourth to sixth spot, giving Easy Aces' rising tide (2235 high team series) a chance to take over the number four slot. Ray Farrell's 195 high game and Leo Stone's high series 538 topped the Easy Aces' effort.

DISPLAYING TROPHIES won this year are members of the Naval Air Skyraider Pistol Squad. Left to right, they are: P. R. Barker, PR1; R. F. Elsworth, ATC; D. V. Mardis, ALC; F. L. Hoeke, AEC; and G. S. Butler, AMC. R. J. Lemmons, AOC, also a member of the Championship Team, was absent when the picture was taken. The team was crowned District Champions in the Expert Class at an Eleventh Naval District meet held recently at the San Diego Police Pistol Range. The Skyraider Pistol Squad also participated and won honors in the Regional, State, National and War Trophy Championship Meets. In addition, they comprised the Pacific Fleet Pistol Squad which defeated the Olympic Club of San Francisco.

Boxing Teams Vie For Island Title

FAIRBETUPAC's boxing team fought the USS PRINCETON pugilists to a 3-3 deadlock for the North Island Boxing Championship last Friday noon in the FASRon 7 gymnasium.

Winning the flyweight and lightweight classes by forfeit, FAIRBETUPAC was able to win only one of the other four matches —that being a crushing victory by Charles Samsill. The 182-pound heavyweight won a three-round one-sided bout on points over Freeman, 170 pounder from the USS PRINCETON.

In the first bout, Al Knowles of the PRINCETON team outpointed Charles Baneroft of FAIRBETUPAC in the welterweight class.

Clayton Lacy of FAIRBETUPAC lost the second fight on the card on a first round TKO to tne brilliant PRINCETON fighter, H. J. Brown. A seasoned veteran of boxing, Brown far outclassed the game, but inexperienced Lacy.

James Rich, 165 pound light-heavyweight from FAIRBETUPAC, lost an unpopular decision to the 178 pound G. B. Dennis.

A team made up of boxers from both of these teams will face the winner of the MIRAMAR-REAM FIELD match on 5 December for the Fleet Air Command Championship.

airpac's sportlight

By Marsh Johnson

Observing Coach Anderson's Skyraider basketball squad working out each afternoon in the NAS Gym, we feel that Air Station personnel will be represented by a talented cage team which will be a strong contender for league honors.

The Skyraiders will open their 36-game schedule next Wednesday night against NAS MIRAMAR at the MIRAMAR base. Then, a week from tonight local fans will have an opportunity to see the '52-'53 Skyraiders when they tangle with Grihalva Motors in a non-conference fracas in the NAS Gym.

Island personnel can be looking for pocket-size cards of the team's season schedule within the next few days. 3000 of them will be distributed throughout the area for Skyraider fans to keep.

* * *

Covering the boxing matches at the FASRon 7 Gym last Friday we noticed an old associate absorbing more than his share of abuse from an exceptionally talented USS PRINCETON fighter.

When the fight was called in the first round, we beckoned our erstwhile friend, Clayton Lacy, of FAIRBETUPAC, over to ringside to offer our congratulations for a gallant effort.

Having had the misfortune of being pitted against the brilliant J. H. Brown, a fast-rising middleweight, Clayton retorted in typical Lacy fashion, "I'M going back to MC'ing Stage Shows! There's more of a future dodging tomatoes than trying to get out of the way of that leather!"

We might add that Lacy's defeat was the first of his boxing career. (It was also his first FIGHT!)

* * *

All squadrons and activities aboard NAS can be looking forward to beginning the winter quarter of the AirPac Intermural Sports Program. Included in the Intermural curriculum for the next quarter will be volleyball, handball, and badminton.

Intermural team captains and athletic directors can get any information they may need from Chief Harris of AirPac Intermural Sports at Ext. 1484.

Corner on Sports

By John Phillips

Boxing Gets Underway

Boxing season got underway Friday, November 7, at the Fasron 7 Gym. Under the careful and expert guidance of Coach Goudy the FAIRBETUPAC squad met the boxers from the USS PRINCETON to start the ball rolling. The last several seasons were indeed successful ones in the boxing field for the Naval Air team, led by Kirby Seals, one of the top heavyweights to ever step in the Navy ring for the usually strong Naval Air Skyraiders. This year Coach Goudy was forced to start from scratch in gathering together men to don the gloves for the 'Raiders. Several weight divisions still remain vacant and interested personnel are urged to contact the AirPac Athletic Office in the theater building.

"Flying Bulls" on Schedule for Tomorrow

Santa Ana, California, will be the scene of battle tomorrow when the Naval Air Skyraiders tangle with the El Toro Marines. After a week's breather the 'Raiders should find themselves in fairly good shape, having an opportunity to recover from their many injuries and also to iron out any flaws in the offensive and defensive lineups. The "Flying Bulls" have only been able to pin down one team this season and that was TraPac several weeks ago by a score of 13-0. In comparative scoring the Marines have only been able to push over 32 points this season while having a total of 227 points compiled against them. The Naval Air Skyraiders on the other hand have managed to cross the double stripe marker for 57 points and have had 173 points run up against them in 7 games.

Basketball Season Opens

Basketball league play opens at San Diego on Tuesday, November 18, with four of the six Major loop quints mixing in games carded by the local boot camps. NTC hosts El Toro and MCRD entertains PhibPac. Los Alamitos, the defending District and league titlist, opens action at Camp Pendleton on Thursday, 20 November.

MCRD Upsets Parris Island at "Boot Bowl"

Scoring in each of the first three quarters the Marine Corp Recruit Depot gridders turned down a gallant and hard fighting Parris Island Eleven Saturday. The Islanders were on the top as far as statistics go, running up 16 first downs to only 7 for the San Diego team. Tom Carodine sparked the Invaders in regaining possession of the famous "boondocker" trophy and remaining undefeated with six straight triumphs for the season.

VU-3 Dumps HU-1, 84-51

JIM FESER, No. 4, Keith Deibler, No. 13, both of VU-3, and Aldwell, No. 7, of HU-1, all leap high for the ball at Bustamonte of VU-3 and Lindberg of HU-1, stand by for the rebound. VU-3 won the ballgame, 84 to 57.

HU-1 Legal Officer Made Honorary 'Copter Pilot

"Flying . . . the greatest thing since television," grinned handsome LT R. E. "Mike" Roby, HU-1 legal officer. "Mike" is the only aviator in HU-1 that is not a helicopter pilot. CDR H. M. Kosciusko, Commanding Officer of HU-1, presents "Mike" with a card officially declaring to the world that he is an Honorary HU-1 helicopter pilot. The event took place at a wetting down party held in Ream Field's "O" club last Friday night.

LT Roby was recalled to active duty August 1950. Unfortunately, his orders did not read to duty involving flying, but BuPers corrected this Oct. 13 of this year. And now "Mike" has become a real live flying legal eagle. "I love to fly and I get all the flying in I can—I hardly unstrap that parachute from my back, except during meal time, is the way "Mike" summed it up.

LT Roby flew dive-bombers during the war in the Tokyo area, but now wants to become a red hot helicopter pilot. He has put in for helicopter training, Pensacola, Florida.

REAM Border Lines
ALF REAM SAN YSIDRO, CALIFORNIA

REAM'S E.M. CLUB OPENING SKED NEXT FRIDAY, NOV. 21

Under the direction of the Commander Utility Wings Pacific, ALF Ream will present its long awaited gala grand opening of the Enlisted Men's Club, Friday night, 21 November.

Featuring the ComAirPac Dance Band, the Nina Toles chorus line and an assortment of outstanding variety acts, the Enlisted Men of Ream will be treated to a great show.

In addition to the fine entertainment, there will be 200, yes, two hundred beautiful, delightful, lovely, luscious, hostesses to dance with or if you just crave female companionship.

That's not all. Besides entertainment and the 200, yes, two hundred talented young ladies, there will be free food, refreshments, dance contest prizes, and door prizes, so whether you dance, eat, or just sit and watch, get on the bandwagon for a night of fun and merriment.

Bring your girls, bring your sweethearts, bring your wives or just stag it, but come one, come all, to the biggest night in Ream history.

Make November 21 a night to remember.

Reserve Aviators Visit Ream

SEVERAL OF THE OFFICERS of Helicopter Squadron 771, the Organized Reserve Unit of "week-end warriors" based at NAS Los Alamitos, Long Beach, Calif., visited the USN "whirlybirders" of Helicopter Squadron One at Ream Field, early this week. Shown are, left to right: LT Davies, HU-771; LT Burkholtz, HU-1 (in plane); LT Courson, HU-771; LT Mann, HU-771; LCDR Carlson, CO, HU-771; and LT Heacox, Executive Officer, HU-771. The Reservists were given an intensive briefing in the latest techniques of rescue and search the helicopter way, by the Officers and men of Helicopter Squadron One.

REAM CHURCH SERVICES

Chapel Services will be held at ALF Ream Sunday as follows:

Protestant Services 0930
Catholic Services 1030

HU-1's Unit 9 Returns

"WELCOME HOME" greeting is extended to Unit 9 of Helicopter Squadron ONE by Commander H. M. KOSCIUSKO as he poses with the Unit upon their return from Korea and the Far East. Standing (left to right) M. Montgomery, ADC; LCDR I. J. Daniels, CDR Kosciusko, LT J. B. Ambler, C. B. Todd, AD2. Kneeling (left to right) L. L. Harris, AM3; M. C. Mannine, AN; J. M. Spahr, AN; and J. S. Jenning, AN. Awarded a Letter of Commendation and the Commendation ribbon, the Unit served aboard the Carrier PRINCETON for 8 months, 2 days; logging 563 hours in the air and making four rescues.

VU-3 Briefs

By A. R. Marks

Gene Sorenson, AN, of the I&E Office, and his wife welcomed a baby girl born at the North Island Naval Hospital.

Due to say good-bye to VU-3 and return to civilian life is, **Joe Britz**, AD3; **John Byrne**, RMM3; **Bill Estes**, TDU3; **Francis Hanley**, AT2; **Eugene Jewell**, QMS1; **Milton Lachowski**, AM1; **Willard Nichols**, AN; and **Harold Osburn**, AD2.

LT Snellman, James Patterson, and **Paul Steege** attended the Survival School at North Island.

Stencils may be secured at the First LT's Office.

Also, welcome to VU-3: **Robert Borden, Leland Silverberg, Peter Henderson, David Whitehead, Howard Kitchens,** and **Hubert Haneline.**

Answer to Puzzle

Ream Supply Men Praised

Plaudits of the squadrons of the Fleet Air Detachment were heaped upon the officers and men of the Ready Issue Store No. 47 last Monday morning.

On the occasion of the change of Officers-in-Charge ceremony, Lt. G. L. Chamberlin, outgoing O-in-C, read letters of appreciation for outstanding services rendered. The letters had been sent by Helicopter Squadrons receiving their support from the Ready Issue Store No. 47.

The new O-in-C of the ALF Ream Ready Issue Store is Ens. J. A. Herzog. Mr. Herzog is a graduate of the University of Washington and the Naval Supply Corps School. The new "boss" pledged that the quality of supply support which had given the Ream Organization its outstanding reputation would continue.

Lt. Chamberlin will remain at ALF Ream in his billet as Staff Supply Officer, Utility Wing Pacific Fleet.

All-Star Show Here Sunday

The NORTH ISLANDER
U.S. NAVAL AIR STATION
VOL. VIII SAN DIEGO, CALIFORNIA, NOVEMBER 21, 1952 No. 47

Headlining Sunday's Stage Show

Jerry Colonna

Ann Blyth

Pat O'Brien

Two-Hour Show Open To Dependents, No Tickets Required

A two-hour star-studded stage show will be presented Sunday afternoon, at 1515, on the NAS theatre stage featuring Pat O'Brien, Ann Blyth, Jerry Colonna, Stepp Brothers and Trio, Jimmy Wakely and Quartet, Eddie Rio, Matty King, Cy Melano, the Titans, and renowned disc jockey Johnny Grant.

All military personnel and dependents are invited to the big show—no admission—no tickets—all seats on a "first-come-first-served" basis.

Entire production is under Jack Hope, Bob's brother, who has been instrumental in obtaining many of the big shows to play at NAS in the past two years. Mr. Hope announces that Bob's radio show will be here shortly after the first of the year.

N.I. Association Presents Harvest Dance Tonight at Balboa Park Club

If you appreciate beauty, especially beautiful young ladies, you should be looking forward to the North Island Association's Harvest Dance tonight at the Balboa Park Club at 2030.

Symbolic of the crop of feminine lovelies who will be on hand this evening is the pretty girl pictured on this page, member of the ticket committee which will be stationed in front of the Civilian Cafeteria today from 1100 to 1300. They will make tickets available to both civilian and military personnel.

The dance, featuring the music of Billy Carmen and his celebrated orchestra, will be informal, all arrangements pointing to a real harvest of fun for everyone. Billy will play all the requests that the time will allow, from fox trot and waltz to rhumba, mamba and tango.

ARLINE ELLIOTT of Supply & Fiscal's Machine Records sells NIA dance tickets to William Tittle (center) of Inspection Group, and J. J. Lux (right) also of Inspection Group. A record crowd is expected at tonight's big dance that will feature Billy Carmen's orchestra and valuable door prizes.

DO YOU NEED A HOUSE?

Title IX Housing Open To Eligible Civilians

Employee Service, IRD, has been notified that applications for Title IX Housing are now being accepted from eligible personnel for the Pepper Tree Lane Housing Project in Chula Vista.

Title IX Housing is available to the following personnel, on a first-come-first-served basis:

a. Must be working in a certified top priority defense activity (NAS is so certified), or must be in military service.

b. Must have arrived in San Diego area AFTER 19 December 1950 (if civilian).

c. Must not now have adequate housing, or must not be within reasonable commuting distance of the job (50 miles round trip).

d. Applicant cannot own home or rental property in the San Diego area.

The Pepper Tree Lane project will be, when completed, a 252-dwelling unit, with rents ranging from $60 per month for one bedroom units, to $90 per month. There will be 69 one-bedroom duplexes, 69 two-bedroom duplexes, and 114 separate 3-bedroom units. Each unit will have a garage. The houses will be completely unfurnished. Applicants are warned that no provision is made for 220 volt power, so electric ranges cannot be used. The project will be landscaped to provide as attractive a neighborhood as possible.

Application must be made on the contractor's office in Chula Vista on K Street between Harbor and National, on the corner of Colorado Street.

Employee Services is keeping in touch with the contractors who are planning to build rental units under Title IX, and personnel will be informed as soon as possible when housing is available.

Employees may contact their Shop Personnel Supervisors for further information. Announcements will also be placed on bulletin boards from time to time.

Special NAS Xmas Cards on Sale

Specially designed Naval Air Station Christmas Cards are now available to North Island personnel, it was announced this week.

Price lists, and directions for obtaining cards. are to be found on page six of this issue.

Armed Forces Blood Donation Day for Civilians, Dec. 9

A goal of 200 civilian blood donors has been set for the next blood donation day at NAS. Tuesday, December 9, the Employee Service Office has announced.

Personnel from the San Diego mobile blood unit will direct the donation at the NAS Main Infirmary, Bldg. 14.

Blood contributions will go to the Armed Forces.

Civilian personnel desiring to contribute blood, which continues to be vitally needed for service men overseas, should contact their Shop Personnel Supervisors for appointment.

Duty Men May Invite Families to Holiday Dinner

Enlisted personnel in the duty section will be permitted to bring members of their immediate families aboard the Air Station for Thanksgiving, Christmas and New Year's Day (noon) dinners.

Charge of 55 cents will be made for these meals, sale to be made at the main galley, Bldg. 317, only.

OPERATION 'PACKAGE WRAP' UNDERWAY

"Operation Package Wrap" got underway in the NAS Library, topside Bldg. 91, last Monday. The free Christmas package wrapping service will operate 0830 to 1630 daily except Sunday through December 24.

More than 60 ladies from Coronado and the Naval Air Station, have volunteered their time to this annual Red Cross project for military personnel on North Island.

The volunteer women will not only gift wrap Christmas gifts but also pack and wrap them for mailing. Paper, labels, tags, cartons, and fancy wrapping materials are being furnished by the Navy Exchange store.

Where gifts are being prepared for mailing it will be necessary to present the sales slip to identify the material being wrapped.

Starting during World War II, the package wrapping service was located at the Plaza in San Diego. Following the war, it was continued here at NAS. In last year's program, the volunteer women wrapped more than 1000 packages.

The ladies make one important suggestion in regard to the service. "Get those packages in early, before the holiday rush begins." Last year the late season rush brought in a deluge of packages—as high as 500 a day, they recall.

SHOPPING EARLY is W. C. Condes, MMLC, of VALLEY FORGE, as Mrs. F. G. Rutherford and Mrs. M. G. Stokes, volunteers working for the free Christmas wrapping service in Bldg. 91, wrap his gifts.

Holiday Routine Thursday

Next Thursday at Naval Air Station Thanksgiving will be celebrated in true holiday fashion with turkey and all the trimmings. However the following day, November 28, will be a regular working day for both military and civilian personnel.

A liberal leave policy has been drawn up for civilian personnel who desire to take advantage of Friday off in order to secure a four day holiday. This day of leave will be taken off the annual leave of those who request this procedure. The leave policy does not apply to military personnel.

The NORTH ISLANDER

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

TELEPHONE EXTENSION 1475. Call this number to report news.

Contributions of news, features, pictures and cartoons will be gladly considered, and material submitted will receive careful handling. However, the NORTH ISLANDER assumes no responsibility for the return of material contributed. The editors reserve the right to make such corrections, changes or deletions in submitted copy as they deem necessary in conforming with the policy of the paper and of the Navy.

The opinions or statements made in articles published herein are those of the writers and are not, in any case, to be construed as official or as reflecting the views of the Commanding Officer or of the Navy Department.

Secrets Can Be Kept

Since the dawn of history, men, tribes, and nations have been interested in learning the "secrets" of their rivals so that these "secrets" could be used in securing some kind of an advantage over these rivals. So, you see, espionage—spying—is nothing new.

And, like many other things, if the melodramatic "Hollywood" version of spies and secret agents resembles the real thing, the resemblance is "purely coincidental." Espionage is actually a cold, calculating, **systematic activity** used by **all nations.**

It is just good common sense to reason that the importance of the Naval Air Station in the defense buildup makes it a **natural, logical target** for spies representing foreign nations.

And—it's equally good sense to realize that, since we are part of the Naval Air Station, we should have a **personal, individual** concern about spies BECAUSE,

You and I and every other employee and member of the Navy may have, and **probably do have,** knowledge of some classified information—even though it may be just small, seemingly unimportant bits of information.

Fleet Reserve Assn. Holds Pot Luck, Meeting, Nov. 21

The Fleet Reserve Association, Branch 9, and auxiliary will hold a pot luck supper at 8:30 p.m., Friday, November 21, in the Veterans Memorial Bldg., Balboa Park.

The supper will be followed by the Association's regular meeting, which features a speech by the organization's regional vice president, Harold W. Elke of San Francisco.

Ladies of the auxiliary will host their national president, Willie May Watson of Dallas, and regional vice president, Margaret Longevin.

The Association was founded 26 years ago in Philadelphia and now has branches in cities throughout the U. S. with the Local Branch 9 being the pargest.

Eligible personnel interested in the Fleet Reserve Association's activities are urged to attend the regular meetings, the first and third Friday of each month, at the Veterans War Memorial Building. Contact the Branch 9 secretary, M-9295, at the San Diego Trust & Savings Building.

Membership is available to Naval and Marine Corps personnel in three categories: 1) Those on active duty with at least six years active duty completed: 2) Personnel who have completed 20 years active duty and have been transferred to the rolls of the fleet reserve; and 3) Personnel transferred to the retired rolls with a disability before completing 20 years active duty.

CHIEF M.A.A. Tips

CHIEF MASTER - AT - ARMS R. M. Cramer, TMTC,, offers the following suggestions for Naval Air military men on how to keep the M.A.A.'s from bothering YOU!

Any article of clothing or garment having buttons, is required to be buttoned at all times with the exception of the top button which may be opened for ventilation.

No cuffs will be worn on shirts, trousers, or blouses; this tradition is strictly for landlubbers.

Military personnel will identify themselves by wearing rating badges and specialty marks. Be proud of the job you have chosen.

This station is your home, and the barracks your living quarters. Keep them clean and shipshape as you would your own home.

Sidewalks are to be used, not the grass. Let's all try to keep it green. Throw trash in the G.I. cans; a little effort from each of us will help to keep the station clean and neat.

This job of keeping our station immaculate it not one man's job. It will take the combined efforts of everyone working as a team.

R. M. Cramer, TMTC

Chaplain's Corner

Food for Thought

In 1928 a very important meeting was held at the Edgewater Beach Hotel in Chicago. Attending this meeting were nine of the world's most successful financiers. Those present were:

The president of the world's largest independent steel company;

The president of the greatest utility company;

The president of the largest gas company;

The greatest wheat speculator;

The president of the New York Stock Exchange;

A member of the President's Cabinet;

The greatest "Bear" in Wall Street;

Head of the world's greatest monopoly;

President of the Bank of International Settlements.

Certainly we must admit there here were gathered a group of the world's most successful men. At least, men who had found the secret of "making money." Let's see where these men are today:

The president of the largest independent steel company—Charles Schwab—died a bankrupt and lived on borrowed money for five years before his death.

The president of the greatest utility company—Samuel Insull—died a fugitive from justice and penniless in a foreign land.

The president of the largest gas company—Howard Hopson—is now insane.

The greatest wheat speculator—Arthur Cutton—died abroad, insolvent.

The president of the New York Stock Exchange—Richard Whitney—was recently released from Sing Sing Penitentiary.

The member of the President's Cabinet—Albert Fall—was pardoned from prison so he could die at home.

The greatest "bear" in Wall Street—Jesse Livermore—died a suicide.

The head of the greatest monopoly—Ivar Krueger—died a suicide.

The President of the Bank of International Settlement—Leon Fraser—died a suicide.

ALL OF THESE MEN LEARNED WELL THE ART OF MAKING MONEY, BUT NOT ONE OF THEM LEARNED HOW TO LIVE.

CHARLES H. SWIFT,
LT, CHC, USN.

P.E.P. Assn. Elects; National Names Milne

Crosby Milne, of Plant Engineering, O&R, has returned from Washington, D. C., where he attended the National Convention of Planners and Estimators & Progressmen's Association, which was held October 27-29.

Milne was elected to the executive board of this nation-wide association.

At the November 13 meeting of the North Island PEPs, officers were elected for the coming year as follows: Crosby Milne, president (incumbent); James Julson, vice president; Bernard Freeman, Secretary; Jack Bassett, treasurer; C. V. Lee and Wm Ball, executive board.

MIXUPS GAIN ON LEADERS

Mixups rolled to a second place tie with Just Us Five Tuesday night in the NACRA Mixed Bowling League. Pinbusters held onto their three-game lead in first spot, paced by Bernie Freeman's 208 high game and 515 high series.

It was Lillian Stangl's 209 which led Mixups to their successful series.

Toolroom Still Tops Islander

Tool Room still tops the North Islander Winter Bowling loop, but it took Rusty Johnson to provide the item of interest Friday night at Pacific Recreation. He is probably one of the few men in bowling ever to run a series of three games, all 200 or better, and stil finish with a 603. His series, 200-261-202.

Receives 40-Year Pin

A SERVICE PIN marking 40 years of federal service was awarded to D. E. Maloney, Leadingman, AMM, of O&R Power Plant Div. The presentation was made Monday by CAPT W. F. Rodee. Mr. Maloney has worked in the NAS O&R Dept. (earlier A&R) since 1930. For 18 years prior to that date he was employed at the Naval Torpedo Station in his home-town of Newport, R. I. Mr. Maloney says the 40-year award does not indicate he has any immediate plans for retirement from federal service. He resides with his wife in San Diego.

Mail Call!

Beginning this week, the North Islander will run a weekly list of unclaimed mail at the Naval Air Station Post Office. This mail can be held for a period of 15 days, then it must be returned to the sender.

Safe Driving---Where the Best Offense Is a Good Defense

IN A SPECIAL award presentation at Building 20 Wednesday afternoon, November 12, 30 employees of Production Control Division (O&R Transportation) were given pins for "no accident" safe driving signifying periods of from one to six years. Captain G. A. Hatton, O&R Officer. Included were: Glynn H. Walton (receiving pin), six years; C. K. McCalister and G. C. Arnold, five years; S. H. Bowser, H. M. Davison, C. A. Newman, Nabor Pena, D. R. Rawls, R. S. Williams jr., Ygnacio Leon, Crawford Logan and Teddy Shipp, four years; Charles Taylor, G. W. Edwards, W. T. White, B. P. Steward, Earl Holland and W. A. Green, three years; Wilbur Davis, E. H. Carson, Henry Pena, T. F. Bryant, and Clyde Holland, two years; William Booker, J. B. Clayton, Joseph Bonslater, jr., J. A. Godwin, S. C. Hume, Edward McElroy and Homer Gibbs, one year.

The ceremony shown on this page is an example of recognition and appreciation by the Naval Air Station for another year of safe driving practices.

Since 1934 the Navy Department has been giving recognition where it is due, to the Defensive Driver. Both drivers in an accident share the responsibility to a greater or lesser degree. There is almost always somthing that even the person less responsible for the accident could have done to prevent it, no matter how much at fault or inexperienced, careless or incapable the other driver might have been, or how bad the weather or the roads.

Defensive drivers may have to yield the right-of-way, proceed at less than the speed limit, and make provisions for obstructions or poor lighting at cross-walks. They are defensively alert to avoid the accident traps and hazards created by weather, roads, pedestrians, and other drivers.

Personnel receiving Safe Driver Awards are to be congratulated, not only for their skill, but also for the accidents they have prevented by defensive driving. The care and courtesy they have exhibited to achieve this recognition should serve as incentives for all of us.

Scheduled by NAS Organizations

To provide information on planned events, individual schedules will be listed weekly in this column. This service is available to all organizations aboard the Naval Air Station. Call IRD Employee Services Section, Ext. 694 to list events.

Keller Leaves

PUBLIC WORKS employees said farewell to Richard F. Keller, shop personnel supervisor last Friday afternoon, as Keller departed from North Island to accept a promotion to quartermaster, machinist, at Naval Training Center. Here since 1943, Keller spent two war years in the Navy, returned to NAS in 1946. He became shop personnel supervisor in October, 1950. Keller has been active in employee groups and stationwide activities. He was prominently connected with the 1951 Bond Queen contest, the 1952 United Fund Drive, and the 1951 and 1952 Navy Relief Carnival's (Aquacapers). He has been a member of the performance survey board, and has held several offices in the North Island Association, including first vice president.

Drop in Beneficial Suggestion Box

Cash Awards Paid by Benny Sugg on Ideas Adopted Before Submission—If

You fellows and gais who are working on improved methods of doing your job—or someone else's job for that matter—should turn your ideas in to the Beneficial Suggestions Office pronto. The reason? Well, if the trut his known, Benny Sugg is not the carefree individual he appears to be, but is a firm believer in strict adherence to rules and regulations.

Now it so happens that Benny has instructions from the Navy Department in Washington concerning the time limit submitting suggestions which have been adopted. To quote from his rule book, the instructions say, "A cash award may be paid for an idea which was actually adopted prior to the date of formal submission as a beneficial suggestion, PROVIDED the elapsed time between adoption and formal submission does not exceed six months." Now there you have it—what are YOU going to do about it? Benny suggests that you reduce to writing all ideas that are in a developmental stage and submit them as suggestions IMMEDIATELY!!

CIVILIAN BLOOD DONOR Honor Roll

Employee Services IRD announced that the following civiliians volunteered to donate blood during the week of 10 November to 14 November for the NAS Civilian Blood Fund for use of civilian employees and their families.

DOUGLAS BRYANT, Electronics
C. L. YOUNGBLOOD, Power Plant
BETTY JORGENSEN, O&R Engineering
V. KOLCON, Structures & Finish
I. T. HARR, Metal & Machine
J. B. SINCLAIR, Metal & Machine
I. FLORES, Assembly
A. F. DENLINGER, Assembly.
EDMUND CISLO, Electronics
A. L. GOODALE, Power Plant
J. S. BOXWELL, Structures & Finish
L. M. WILLIAMS, Structures & Finish
J. C. GRIESENAUER, Metal & Machine
W. L. BOOIE, Assembly
J. L. SUCCETTI, Assembly
T. C. PEARSON, Accessories & Ordnance

Number of Donations to NAS Blood Fund, Nov. 10 to 14.....(10)
Number of Credits Available in Blood Fund, November 17.....(19)
Number of Blood Releases in Past Week.....(10)

O&R civilians are to be congratulated for their continued contributions to this fund. How about employees from other departments getting behind their own Blood Fund?

Every Thursday afternoon is NAS Blood Donor Day at the Blood Bank.

See your shop personnel supervisor for your appointment.

Engineering Air (Gen), GS-5
Physical Science Aid (Met), GS-5
Electronics Engineer (Gen), GS-9

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

By Bill Mayer, Ext. 1045

COLUMN RIGHT—Is your column. Its purpose is to answer questions of general interest which affect your employment. Forward all questions to, "COLUMN RIGHT," c/o Industrial Relations Department, Building 415, or deposit them in the Beneficial Suggestion Boxes.

Q. It has been stated that Employees transferring to other installations have no re-employment rights. Is this a NAS ruling of a Civil Service ruling?

A. Re-employment rights are granted when the movement of the employee will be in the interest of the defense program. Since NAS is a defense activity, it is presumed that transfers from this activity would not be in the interest of the defense program. Therefore, local policy has been established which provides that no mandatory re-employment rights will be granted to employees transferring from NAS. However, such employees could apply for re-employment and if vacancies exist, it is entirely possible that they would be rehired.

Q. Isit possible for a Federal Civil Service employee to retire after 30 years service, obtain private industry employment and pay into Social Security and at age 65 retire from all employment to collect retirement from both Federal Civil Service retirement and Social Security?

A. Yes.

Q. Is it possible for a Federal Civil Service employee to retire before June 30 to get an advancement of leave and pay it back later in the fiscal year?

A. Annual leave that will accrue to an employee during the year, may be granted in advance at any time during the year to a permanent status employee or an indefinite employee subject to Civil Service retirement deductions.

Q. What caused the failure of the former insurance plans?

A. —The main problem of operating a successful insurance plan at any U. S. Government activity is premium collections. There are legal restrictions preventing automatic payroll deductions. Delinquent payments work a hardship on any plan and create some of the main operating problems that retard success of a group plan.

Q. Why is it that the per annum employees do not receive pay increases the same as the ungraded employee?

A. Separate sets of regulations cover per annum and ungraded employees. Per annum pay increases are controlled by Congressional action, whereas ungraded pay increases are controlled by the Navy Department.

There has been a recent policy change on the following question in the Nov. 14 Column Right.

Q. What is the policy regarding the granting of leave without pay to indefinite employees? What order covers this policy?

A. —Indefinite employees may be granted leave without pay for a period up to 30 days. (Previously reported 10 days). This policy is covered in NAS SD Instruction 12105.5 recently issued.

'Operation Morale Lift' Enters Final Week

USS KEARSARGE FAMILIES group on the Air Station's theater's stage to wave a joint Christmas greeting to their fathers and husbands aboard the fleet aircraft carrier. Prior to this picture, each family was photographed separately in a sound movie, personal greeting to their own Navy man. These families represent but one of 11 ships being serviced by "Operation Morale Lift," conducted by the AirPac Public Information Office.

CEE CEE AND THE SNOW QUEEN join with Santa in providing the extra touches to traditional Yuletide greetings filmed here for showing on Christmas Day to AirPac ships in the Far East. Cee Cee is Chief C. C. Pitts of the AirPac PIO office, and the Snow Queen is lovely WAVE Joan Lehman of Fleet Weather Central.

11 AirPac Ships To Receive Filmed Xmas Greetings

Over 375 families have been filmed in Christmas greetings to their fathers and husbands serving on 11 AirPac ships in the Far East.

As "Operation Morale Life" enters its final week, it is estimated that over 500 families will record Christmas greetings to their men overseas. The sound movie will be shown aboard ship on Christmas day.

Morale Lift is a project of the AirPac Public Information office and is filmed by trained cameramen of the Combat Camera Group and VU-7 motion picture crew. All filming is done at the Air Station's theatre during working hours.

Newest touch to the filming is the addition of a "Snow Queen." The Snow Queen is WAVE Joan Lehman of Fleet Weather Central. Chief Pitts, as CeeCee the Clown, and Ken Taylor, AFAN, serve as master of ceremonies.

Santa for the filmed Christmas greetings is Clayton E. Lacey, AT3, of FaetuPac.

KEN TAYLOR, MASTER OF CEREMONIES, is shown here with "Snow Queen" Joan Lehman and Santa, Clayton E. Lacey. Ken has proven to be a popular MC with the children during the filming of Morale Lift. His background includes extensive radio broadcasting and he is presently announcing AirPac's radio show —"Take Off Time." Santa, C. E. Lacey, AT3, of FairBeTuPac, is widely known locally for his participation in all charitable and entertainment projects of NAS and AirPac.

USS GARDINERS BAY will be among the 11 AirPac ships to receive the filmed Christmas greetings of families on Christmas Day while overseas. Here Mrs. Ethel Brown and children Jackie (left) and Leandry (right) and Blanche (standing) wish Herbert Brown, AKAN, a Merry Christmas during the filming of Morale Lift at the Station's theatre.

JOHNNY COLEMAN, AL1, of the USS KEARSARGE will be seeing and hearing his wife—Marinell—and children (left to right), Kathy, Cliff and Jimmy, wishing him a Merry Christmas and Godspeed, though he will be in the Far East on the aircraft carrier. The Coleman's were among the 375 families that filmed their Christmas greetings as a part of Morale Lift in the past two weeks.

North Island Nominates a Pair of Queens

CAROL KNOUSE, electrician (large aircraft), is assembly division's nominee for Poinsettia Queen at tonight's Post 753 Turkey Trot dance. Legionnaires will name their official candidate as a feature of the big free dance, at the Continental Room of the San Diego Hotel.

Civilian, Wave Nominated for Pointsettia Week

At tonight's North Island key Trot dance in the San Diego Hotel's Continental Room, some of the Naval Air Station's prettiest, shapeiest young ladies will vie for the nomination as the Post's candidate for Civilian Poinsettia Week queen.

Meanwhile, the lads and lassies who wear the blue of Uncle Sam's Navy, will be deciding who is to represent the station as their candidate for the military counterpart in the same week-long celebration. There will be two queens.

Candidates from all over the San Deigo area will compete for the coveted crown, the winners to reign over the Poinsettia parade, dance and bowl football game, and other healine events scheduled for December— through

FORMER NAS SAILOR, Earl F. Lovell, graduated last week from the Navy's Pre-Flight School at Pensacola, Florida. He will report to the Naval Auxiliary Air Station, Whiting Field at Milton, Florida, for primary flight training.

JOAN LEHMANN, AGAN, Wave, is a leading candidate for the title of Poinsettia Queen, from North Island. Joan has been aboard NAS 2 months, works at Fleet Weather Central. She is from Jefferson, Wisconsin, poses here as Snow Queen in the current Operation "Morale Lift."

VFW FREE DANCE SKED TUESDAY IN CORONADO

The Henry D. Styer VFW Post 2422 and Auxiliary will hold another one of its monthly dances, Tuesday, November 25. Held at the VFW Hall, 557 Orange Ave., the dances are held the fourth Tuesday of every month for service personnel in the Coronado area.

Naval Air Station enlisted personnel are cordially invited to attend this community type entertainment at the next scheduled dance and on succeeding dates.

The dance will feature the ComCruDesPac band with entertainment furnished by the ALF Ream Special Services.

The VFW announces the "Ambassadorettes," a group of attractive junior hostesses, will be on hand for enlisted men without dates.

Post Commander Henry Hoppis, George Dong, both of O&R, and Rosiena W. Graves, NAS night telephone operator, are in charge of entertainment for the dances.

BACK ON ISLAND

Barbara Woodward, winner of the 1951 North Island Bond Queen Contest, returned October 27 to work at NAS, after an absence of eleven months.

PARKING HARBOR DRIVE

Park your car properly to conserve critical space. Careless parking is consuming many spaces that others could use. Your cooperation is solicited.

TRYING TO FIND THE OWNERS of the myriad of lost articles turned into Security's Lost and Found is F. L. Jamieson, BM-1. This department is launching a drive to clear out the many lost items found aboard the station and not claimed. For information on these, call X-797, or contact the traffic desk of bldg. 415.

You May Lose Your Christmas

Don't be shocked but you may also lose part of your Christmas. Perhaps this doesn't sound possible, but the Lost and Found section of the Security Department has reported that a number of presents have already been turned in.

Security Officer LCDR J. C. Hale, Assistant Security Officer LT J. T. Waldron, and L. H. Klein, ADC, are launching a drive to dispose of the over-abundance of lost articles which have accumulated during the past few months.

Men losing items are urged to contact Security as soon as the loss is discovered. Information may be obtained by seeing Chief Klein at Building 415 or by calling X-797. At the present time, there are many I.D. cards, liberty cards, billfolds, etc., in the department.

The selection of these items, which vary from keys to baseball gloves, is huge and identification by the owner is all that is necessary for their return.

Men who are in fleet based units aboard the station, may find their lost items among the others, because the Lost and Found collects from the entire island.

Individual items greatest in value are cameras. These as a rule are not lost, but they are taken from men reporting aboard the station. The men are told that the items may be picked up at security, but some fail to do so. If you have had a camera taken from you at the gate, you are urged to pick it up at security.

Every man who has lost any article during the past few months is urged to contact Security. The few minutes spent in checking for your belongings may produce an item valuable to you.

Legionnaires Present Annual 'Turkey Trot'

Tonight is the occasion of North Island American Legion Post's annual Turkey Trot. The dance is free, and all North Island personnel are cordially invited to enjoy the "Sweet and Swing" music of famous Dave Willis and his orchestra.

The Turkey Trot will be held in the beautiful Continental Room of the San Diego Hotel, and the doors will be open at 2000. An even dozen patrons will take home Thanksgiving turkeys at this event, which has through the years, become one of North Island Post 753's outstanding annual social outings.

Santa Claus Special

PRETTY PAT BENNETT displays five San Diego Open golf tickets which make an ideal Christmas gift. Tickets are now on sale at all sporting goods stores, and golf courses in San Diego County at bargain prices and will remain at bargain prices through the holiday season. Tournament dates are January 15-18 at the San Diego Country Club.

Special Prices for Golf Meet

Carl P. Caster of O&R Inspection, a member of the San Diego Junior Chamber of Commerce announced today that tickets to the San Diego Open Golf Tournament Jan. 15-18 are now available at bargain prices.

The tickets, which are going at the special price of $4.00 for the four days of the tournament, can be purchased through Mr. Caster as well as at sporting goods stores, golf courses and driving ranges.

The tournament promises to be an exciting event as all of the nation's top pro and amateur golf stars, including defending champion Ted Kroll, have indicated their intention of competing this season.

Further information can be obtained by contacting Mr. Caster.

By Mildred Splichal

C. E. Flower is still laid up, due to the cast on his foot. Hope to see you back soon, Charles.

The happy smiles of **Cecila Condon** have been due to the return of her husband, Howard, aboard the USS PRINCETON.

Mary Stolz has transferred to the Cable Shop from Area 68. We are glad to see your smiling face once again. Mary recently fell and broke her arm. Its well on the way to recovery now.

Jerry Awe and **Carroll Marcum** send best wishes to all of their friends from Anchorage, Alaska. Those wishing to write the girls, their address is: Ft. Storms, Box 2108, Anchorage, Alaska.

Rowena Brown is back to work after an absence of six weeks due to surgery. We are happy to see you once again.

Katie Whitworth celebrated her birthday on Tuesday with a big cake and many lovely gifts. We'll say she's 29.

Cornelia Jones will become the bride of **Hubert Madison** on November 30 at the home of the bridegroom's mother. Congratulations to the couple and may all their troubles be little ones.

News of a new grandson was received this week by **Georgia Jungers**. The little fellow, **George Allen Harris**, made his debut in San Antonio, Texas.

TRADING POST

DRIVER WANTED—To join car pool from Pacific Beach to Standard Oil Parking Lot. 0715 shift to 1545. Contact R. C. Nasif at H-8-7352.

RIDE WANTED—From vicinity of Brookside, La Mesa, to S&C Ferry. 0730-1600 shift. Call H-9-2926.

RIDE WANTED—From vicinity of 4th St. and Boundary, National City. 0745 to 1615 shift. Phone G-7-0385 or inquire at Bldg. 265.

RIDERS WANTED—Two riders wanted from the vicinity of Vista La Mesa. 0745 to 1615 shift. To North Island via Coronado Ferry. Call H-6-9027.

FOUND—Lady's ring found in Building 8, owner should contact Security Officer, Building 415.

Hoop Season Opens

JOHN KAPNIS, 5' 8" Guard is the smallest man on the 'Raider squad but his overly-active drive and fight will make him a valuable asset to the 'Raiders this season. Graduating from Salem High School in Salem, Massachusetts in 1948, John played one year of City League basketball with the Salem Falcons. While at Salem High he won varsity letters in basketball for three straight seasons. Kapnis joined the United States Navy in 1949 where he played varsity basketball with the Great Lakes Training Center five.

The 1952-1953 Naval Air Skyraider basketball season is fully underway with two games on schedule for next week. The Skyraiders are looking forward with high hopes as five of last year's hoopsters are returning for action. Also returning after a year of overseas ball is Stevenson, one of the smoothest players to enter into District play. Oliver, Hancey, Belton, Bird and Hamernik are the five basketeers returning for action from the 1951-52 squad.

In the closing week of practice before the official opening of this year's basketball season, the Naval Air Skyraiders looked in comparatively good shape, sinking both set shots and layups with little trouble.

Two Games Next Week

Next week on Friday, November 21, the Airmen open up the home season against Grihalva Motors here at the NAS Gym. The following evening will find the Naval Air Skyraiders battling the MCRD five at the Point Loma High School court. Both games should prove interesting as most of the District squads are loaded with giant basketball stars.

Plenty of new faces will be seen on the basketball floor during the 'Raiders' 1952-53 season. Among them will be Jerry Sanders, 6'1" Forward; Clifford Bilyeu, 5'11" Guard; John Kapnis, 5'8" Guard; Robert De Long, 6'2" Guard; Donald Bergman, 6' Guard; Robert Cook, 6'3" Center; and Harold Lowe, 6'3" Forward.

LT Kenneth Anderson will be master-minding the Skyraider Five during the 1952-53 basketball season. Coach Anderson attended the University of Nebraska from 1946 through 1949 and played on the Nebraska University basketball teams of 1947, 1948 and 1949. Wednesday night the 'Raiders lost to Miramar 61-50.

ROBERT "STEVE" STEVENSON, 5' 11" widely considered as one of the smoothest players in the District will likely hold down a forward post on the Skyraider five this season. Steve played his High School ball at Fowler High in Indiana. Winning four varsity letters there, he was named to the All-County, All-Sectional, and All-State teams in his senior year of 1949. Joining the Navy after graduation, Steve played Service basketball with the Skyraiders of 50-51.

Corner on Sports

By John Phillips

Wave Sport Program Gets Under Way

The Wave athletic program got under way in both the bowling and basketball circles. In the Bowling league the NAS Waves lost to the El Toro Women Marine team by 220 pins to open the season at the Mainside Alleys. Mary Jones starred for the Waves with a high game of 179. Jean Chura was high for the series with a 445. In averages Lou Dasbach hit a 144, Jene Chura 148, Mary Jones 141, Georgia McGlohan 113 and Betty Brown 80. On December 4th the NAS Waves battle the Naval Training Center team at NTC. Also on the bowling league schedule are such teams as Camp Pendleton, and the Marine Corp Recruit Depot.

First Football Deadlock of Season

When the Naval Air Skyraiders sailed up to Santa Ana, Calif., Tuesday, to battle the El Toro Marines they had high hopes of upsetting the Marine Eleven but had to be satisfied with a 7-7 tie. This game was originally scheduled for November 15 but the heavy rainfall in the Southern California area last week caused the game to be postponed until Tuesday. Manuel Aja scored the lone touchdown for the Naval Air Skyraiders.

Knuckle Busters Sked Reliability Run

The Second Annual Reliability Run, sponsored by the Coronado Knuckle Busters and Kiwanis Club, will be staged at Paradise Mesa Drag Strip November 23rd, starting at 0900. Military and civilian personnel are invited to enter this unique contest of driving skills, based on proper observance of traffic safety rules. Entry blanks and information on the Run may be secured by writing Coronado Knuckle Busters, P.O. Box 292, Coronado, or the day of the meet at the strip. Displays of cars from the various Hot Rod clubs will also be one of the highlights of the event.

Something New in Golfing

A rare treat is in store for North Island Personnel in the not too distant future as a former National Archery Champion plays top NAS Golfers for the Best Ball Championship. Sound crazy? Well, don't miss it, it's due as soon as arrangements etaoin etaoinetaoinetaoin proper channels.

Skyraiders Tie El Toro, Meet Campen Tomorrow

Spearheaded by Marine quarterback Gene Fodge, El Toro's Flying Bulls marched 65 yards to a last quarter touchdown to gain a 7-7 tie with the Naval Air Skyraiders at El Toro Tuesday afternoon.

Fodge's 23-yard rifle shot to end Darrell Riggs, with only five minutes to play, was the big payoff for the Bulls, who had been fighting an uphill battle against the Skyraiders all afternoon. The deceptive quarterback of the Bulls had ripped off a 20-yard gain and completed two passes in that drive before tossing his touchdown aerial

Naval Air's score came early in the third period when Manuel Aja skirted right end for 25 yards and a touchdown. Larry Levine's placement gave the Navy a 7-0 lead which stood up until Fudge unleashed the game-tying march.

Early in the game the Skyraiders threatened to take the lead but were stopped on the Toro nine when they fumbled and again on the 13 when a Skyraider pass was intercepted.

The Skyraiders will travel to Camp Pendleton Saturday morning to face the Pendleton Golds in the final game of the season. Game time is set for 1400 at Pendleton Field.

Skiers Enjoy Early Snow

JACKIE SMITHWICK is shown taking advantage of the early snowfall up in the mountains and predicts a lot more snow and fun for the coming ski season. The Ski Club is open to ALL MILITARY and civilian personnel and their dependents.

Snow blanketed Southern California skiing areas for the first time this year in last week's storm as the North Island Ski Club turned out to welcome the gala event. The club traveled to Snow Valley where they reported skiing conditions excellent with over two feet of dry powder.

This year's club, under the able direction of Harley Gerdes, is again open to all military and civilian personnel and their dependents in the 11th Naval District. Ski classes will be conducted free of charge so the novice will have no trouble mastering the sport. The instructors point out, however, that all the skiiers and interested non-skiiers are urgently requested to attend the next meeting on November 25, so plans may be formulated for the remainder of the year before the Christmas holidays. The meeting will be held at 2000 in the auditorium in building 8. There is no charge to attend the meeting and in line with the club's goal of reducing the cost of skiing as much as possible a charge of only 75 cents will be made for membership.

Beginners should start as soon as possible in order to realize the full enjoyment of skiing before the winter ends.

REAM Border Lines
ALF REAM SAN YSIDRO, CALIFORNIA

SUSAN MORROW, 200 HOSTESSES, FLOOR SHOW, FREE REFRESHMENTS, DANCE BAND TO HIGHLIGHT OPENING

Tonight is the night, from 2000 to 0100, that will officially ring up the curtain for the long awaited star-studded grand opening of the Enlisted Men's Club of ALF Ream.

Acting as the Enlisted Men's official hostess and special guest tonight, will be Miss Susan Morrow, pin-up queen of thousands of servicemen all over the world, and rising young Hollywood star, who will appear in person as the "HOSTESS WE LIKE MOSTEST."

Miss Morrow, a beautiful redhead with talent to match, most recent pictures were "The Savage" and "Blazing Timber," which were recently shown in the station theater.

Personnel not accompanied by wives or dates will be happy to know that there will be two hundred, 200 hostesses from the San Diego area, representing the USO, PWCA, and other social organizations will attend.

The Club will open at 1900 with the festivities getting underway at 2000 to the swing and sway music of the ComAirPac dance band, to be followed at 2030 by a great floor show featuring the Nina Toles chorus line, Ken Sansom, impersonator, Margi DeCosta, singer, Carol Elliot, acrobat, and Shirley Wright, accordionist. J. B. Bennett will MC the program.

Besides the dancing and entertainment on this truly gala occasion, there will be dancing contests, door prizes and FREE food and refreshments for everyone.

All Ream Field enlisted personnel are invited to attend with no tickets or admission charge required. Uniform for the night will be Dress Blue.

SUSAN MORROW, "The hostess we like the mostest," will appear in person as a special guest at tonight's grand opening of the Enlisted Men's Club.

VU-3 Briefs

Fred Brodst, Paul Steege and **Keith Deibler** will head home to Iowa for Christmas as is **Charles Crawley** to New Orleans.

Fred Noble, AD3, was married to the former **Lorraine Fae Keiser** of Chula Vista. Fred is currently on his way to Guam for duty.

Congratulations to the Squadron basketball team for wrapping up the title so easily.

Ping-Pong team is hot after HS-2 and could take home the bacon now that **LT Snellman** has rejoined the team.

What ever happened to the squadron picnics?

All members of VU-3 should get behind the Christmas program of giving fifty orphans a Christmas they'll never forget. One dollar is needed from each member to really make this worthy project a 100% success.

LT A. Chinchello will take over the duties of the I&E Officer when **LT H. R. Hunzeker** is released from activs duty the first of the year.

Annual Inspection is now December 9 . . . be prepared. The Red Cross Bloodmobile will be at Ream Field 4 Dec. Let's all make VU-3 the Number one blood donating outfit.

LT Severns Urges Large Blood Donation

A Ream Field man who appreciates the necessity of the Blood Donor program is Lieutenant Charles R. (Bob) Severns, currently serving with Helicopter Squadron ONE as Assistant Material Officer.

While serving aboard the USS FRANKLIN with Air Group Five, LT Severns was wounded during the Japanese attack on that vessel in 1945. His condition necessitated an immediate blood transfusion, and he was recipient of a pint of blood which was instrumental in his recovery.

LT Severns, who hails from South Bend, Indiana, currently makes his home in Imperial Beach and sons Mike and Rick. He urges with his "better half," Martha, everyone to take part in this vital program of blood donorship.

Answer to Puzzle

Blood Donor Day Set for December 4

Every day, every hour, there are wounded men . . . Fighting men found by medics where they lay, bleeding or in shock. They need BLOOD! They need plasma . . . They need it to LIVE!

This week, the Fleet Air Detachment of ALF Ream is going full speed to organize a Blood Donor Program, set for December 4th, which will top last year's record donation. The Ream men's pints of blood, a spokesman for the American Red Cross said early today, will be processed and flown to Travis Air Force Base, within 24 hours of the donation. "The processed blood," he stated, is normally in Korea in less than 30 days."

The December date was set last Monday, in an announcement made by CDR W. G. Knapp, chairman of the ALF Ream Blood Donor Committee. Other members of the committee are LCDR Brissette, HU-1; LT A. Chinchello, VU-3(K); LT C. L. Kennedy, HS-2; LT R. W. Koster, UtWgPac; and LT G. L. Chamberlin, publicity.

Benefits Told

"Each blood donor," CDR Knapp announced, "will get the rest of the day off, and another day's liberty later."

"Men with their wives or girl friends will be able to go to the head of line."

Confident of Goal

It was unofficially reported that the American Red Cross officials were watching the development of the REAM drive carefully. Last year's drive at ALF Ream was such a startling success, that it is believed that, if this year's drive is equally successful, the RED CROSS publicity staff may be able to use the men of ALF Ream as an example of patriotic response, in order to increase the civilian response by comparison.

SHOWN ABOVE were the efforts that went into a record-breaking blood donation by the personnel stationed at Ream Field at the Red Cross' visit. Bloodmobile returns Dec. 4 for Ream to surpass their own record.

Dec. 7th Remembered

Members of the Blood Donor Committee ALF Ream anticipated that the closeness of the 1941 sneak-attack on Pearl Harbor anniversary of December 7th would prompt the men of REAM to give blood generously in this drive.

Red Cross Role

The American Red Cross, Mr. Gourley, local representative, disclosed yesterady, has been contracted to handle the Armed Forces Blood Donor Program. In collecting and processing, transporting and packing the whole blood and plasma, the Red Cross has achieved a phenomenally low cost of less than $7.50 per pint, the spokesman said.

STARS CLICK WITH TARS

Star-Dusted and Buzzed

KISSED TWICE BY ANN BLYTH was Robert W. Sprung, PH3, of the Fleet Air Photo Lab Sunday at the theatre. Once on stage as a volunteer to assist Miss Blyth in a song and the second time back stage, especially posed for the North Islander.

Sailor Sprung Kissed by Ann Blyth, Audience in Two-Hour Applaudathon As Colonna, O'Brien Duel in Comedy

Twenty-eight hundred Naval Air men and their dependents crowded their way into the NAS theater last Sunday to watch one of the finest shows ever presented here. The show, which in every way lived up to the name of an "All-Star Review," ran a full two hours without a lull or dull spot.

The parade of stars was headed by lovely Ann Blyth, who completely captivated the audience with her gracious manner and sincere songs. During the singing of her four songs the theater sounded as though it were empty, and after each selection Miss Blyth acknowledged the thunderous applause in such a manner as to make her one of the most popular stars ever to appear here.

Personal Serenade for Sprung

The highlight of Ann Blyth's performance was a personal serenade to Robert W. Sprung, PH-3, of the Fleet Air Photo Lab., who Miss Blyth chose from the audience. "Embraceable You", the song delivered to Sprung at a range of six inches, coupled with the melting expressions of the vocalist, apparently rendered the

(Continued on Page 6)

Station Thanks Jack Hope

Special Services Officer, LCDR B. E. Hackett, expresses the thanks of all who attended Sunday's big show to Producer Jack Hope. It was through the efforts of Mr. Hope that the two-hour, star-studded review gave the afternoon performance.

Mr. Hope has been responsible for the majority of Hollywood shows playing at NAS during the past two years. He has announced that many more are on the way.

The NORTH ISLANDER

U. S. NAVAL AIR STATION

VOL. VIII · SAN DIEGO, CALIFORNIA, NOVEMBER 28, 1952 · No. 48

Annual Xmas Tree Contest For Civilians Announced

The annual Station Christmas tree contest for civilian personnel has been announced by the Employee Services Office. Entries in the contest must be in that office (Bldg. 415) not later than 1600, December 16.

Tree decorations or Christmas scenes entered in the contest will be judged by a contest committee with tentative date for judging set at December 22-23, 0900 to 1430.

Three cash prizes (to be announced later) will be awarded in each of three classes: Class A for decorated trees only, limited to shops and offices with 25 employees or less. Class B — Decorated tree only, open to all shops and offices regardless of the number of employees. Class C—Scenery displays, open to all competition regardless of number of employees.

No shop or office will be awarded more than one prize. A station rule requires that a tree cannot be erected on the Station without a permit obtained from the NAS fire prevention chief.

The judges will base their decision on the originality, decorations, lighting, beauty, thought and effort in the display. A display's monetary value will not be a factor in judging.

The Christmas thee contest has been an annual affair at North Island for the past seven years. It is considered one of the outstanding events in the civilian recreation program.

PARKING HARBOR DRIVE

Park your car properly to conserve critical space. Careless parking is consuming many spaces that others could use. Your cooperation is solicited.

NAS OFFICERS WIVES, SANTA'S HELPERS, as the Yuletide season draws near these ladies are continually busy in repairing and repainting toys for Christmas distribution to non-rated NAS military personnel families. The gifts will be presented by Father Murphy, Catholic Chaplain, at Erdmann Beach, December 15. The project is under the supervision of Mrs. C. J. Hale. Working here, left to right, are Mrs. J. H. Carrington, Mrs. S. W. Herman, Mrs. R. C. Mitchell, Mrs. H. B. Eggleston, Mrs. Hale and Mrs. J. L. Morrissey.

34 School Children Visit Station Friday

THREE STUDENTS from the Imperial Beach School, which visited the Naval Air Station Friday, are shown the operation of a 50-caliber machine gun by W. L. Williams, aviation ordnanceman of the station's gunnery training department. The youngsters (left to right): Dennis Sugiska, Melvin Rose, and Albert Gossel, are three of the class of 34 strong which saw many of the interesting phases of the Naval Air installations.

IMPERIAL BEACH FOURTH GRADERS HOSTED ON TOUR

Imperial Beach School children, from Mrs. Roberts' fourth grade class, were hosted aboard the Naval Air Station Friday. The 34 boys and girls were conducted on a planned tour through many of the most interesting parts of the station.

Visit Link Trainers

Among the most interesting of their stops aboard the station was the tour through the Link trainers. The children were given a good opportunity to see the complicated operation of the trainers as well as the devices which aid pilots in their navigation.

NAMTD Inspected by Youths

The Naval Air Training Detachment showed off its complex aviation gunnery training equipment to the class of wide-eyed youngsters. The fourth graders were left open-mouthed after being shown gunnery shots of aircraft making passes at the training gunner.

The demonstration was made

Greatest Gift of All

Second Annual 'Christmas For Korea' Blood Donation Set By NAS Civilians

At least two hundred pints of blood—an appropriate Christmas gift to the Armed Forces overseas—is the goal of NAS civilian personnel in the month of December. Employee Services Office believes that most of this amount will be donated when the Red Cross—San Diego Bloodmobile comes to the Station on Tuesday, 9 December. The place of donation will be announced later.

Last year NAS civilians donated 488 pints in its first annual "Christmas for Korea". Of this large amount, 73 pints were received from Supply and Fiscal personnel, and 100 pints (200 credits) were drawn from the NAS Civilian Blood Fund.

Civilians may donate blood for the Armed Forces at the Blood Bank in San Diego on Red Cross days during December, and will also be credited to this special blood gift. Employees so donating should call the Employee Services Office (Ext. 694) or tell Red Cross officials at the Blood Bank they are from NAS. This will assure NAS credit for the donation.

Civilian employees wishing to donate blood at the big December 9 donation are asked to submit their shop supervisor for time of appointment. Those donating are reminded that they should not eat for four hours prior to their appointment time.

PAYDAY MONDAY

Payday for NAS military personnel is scheduled for Monday, December 1.

Payments will be made between the hours of 0830 and 1130. The disbursing office is now located in the north side of Bldg. 334.

The NORTH ISLANDER

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

TELEPHONE EXTENSION 1475. Call this number to report news.

Contributions of news, features, pictures and cartoons will be gladly considered, and material submitted will receive careful handling. However, the NORTH ISLANDER assumes no responsibility for the return of material contributed. The editors reserve the right to make such corrections, changes or deletions in submitted copy as they deem necessary in conforming with the policy of the paper and of the Navy.

The opinions or statements made in articles published herein are those of the writers and are not, in any case, to be construed as official or as reflecting the views of the Commanding Officer or of the Navy Department.

Armed Forces Press Services (AFPS) material appearing in this publication may not be reprinted without the written permission of Armed Forces Press Service. Material in this paper may not be reprinted unless authorization is obtained from the editor.

Espionage and Censorship Act

Title 18 United States Code Annotated

The Espionage and Censorship Act is a United States Criminal Code which is applicable to all persons having access to classified material. This statute provides that:

1. Whoever having possession of classified matter gives or communicates it to a person not entitled to receive it (an uncleared person or a cleared person without need to know), or

2. Having knowledge that such material has been removed without proper authority from its place of custody OR LOST OR STOLEN and fails to make a prompt report of such loss or theft is subject to a fine up to $10,000 or imprisonment up to 10 years or both.

In addition any violation of station regulations or Navy Regulations or Naval Civilian Personnel Instructions regarding the handling of classified material could result in removal from employment.

VALLEY FORGE SENDS NOTE OF APPRECIATION

A dispatch was received by the Naval Air Station from the USS Valley Forge acknowledging its respect for the Station's cooperation in the duties worked with the ship.

The dispatch read: Desire express appreciation for splendid support given the ship during recent availability. Received fullest cooperation from all hands who performed the impossible on many occasions.

541 Service Years

CAPT W. F. RODEE, Commanding Officer, presented service award pins to 58 Navy Exchange employees Friday, representing 541 service years at this station, an unsurpassed record in the exchange program. For loyalty service, the station has presented 6 twenty year pins, one fifteen and 12 ten year pins. Sixty-six employees received the new 5 year club award pins given this year by NSSO. CAPT H. C. Graves, S&F Officer, LCDR P. B. Long, NEO, and LTJG N. J. Mazzola, ANEO, assisted in the ceremonies.

STATION TOPS $24,000.00 IN FINAL UNITED FUND TABULATION

Naval Air Station personnel opened their purses and wallets to the good works of the United Fund agencies to the tune of $24,004.50 in the recently completed drive, according to final figures just released by the Commanding Officer.

Two dollars and eighteen cents apiece was the average contribution for every man and woman, civilian and military, under the jurisdiction of the NAS command.

Total contribution to the fund drive exceeded the totals compiled over the past two years by the entire four major United Fund organizations, the Red Feather, Red Cross, Cancer Society, and Heart Foundation. This attests to the success of the 1952 drive, as well as to the generosity of NAS personnel in helping to meet the need of both the San Diego community and the medical research being carried on in the nation.

Industrial Relations Department topped all units in per capita contributions, with $5.18 apiece. Overhaul & Repair Department topped total contributions, with $14,538.53 and a per capita of $2.12. Supply & Fiscal totalled $2,723.94, with a $2.19 per capita. These and other totals achieved by larger departments in particular, are a definite credit to the farflung solicitor organizations which it was necessary for them to set up to put the drive over.

Red Feather Gets $9,223.83

Red Feather—Community Chest agencies—will receive the largest portion of the funds, $9,223.83. Of this amount, $4,444.83 was specifically earmarked by donors for the Red Feather.

Balance of the contributions will be nearly equally distributed among Cancer, Heart, and Red Cross organizations, based on individual designations and prorated shares of straight donations in which no particular organization was specified.

Accompanying chart shows how the proceeds of the drive will be distributed.

	% of Gen. Fund Red'd.	Amt. of Gen. Fund Received	Amount Designated by individuals	Total
Red Cross	36%	$3,186.00	$1,849.02	$5,035.02
Cancer Society	05%	442.50	4,820.83	5,263.33
Heart Fund	05%	442.50	3,804.23	4,246.73
Commun. Chest	54%	4,779.00	4,444.83	9,223.83

Below is a by-department breakdown of contributions:

Dept.	Ave.	Total
NAB	$4.66	$ 112.00
VR-32	1.80	451.50
Misc. (Ream, NAMTD, BAMR)		233.50
Administration	1.22	532.16
Communications	1.57	219.00
Dental	4.00	187.75
Indus. Relations	5.18	331.50
Medical	1.94	379.50
Operations	2.13	743.85
Overhaul & Rep.	2.12	14,538.53
Public Works	2.27	2,101.27
Security	2.42	543.75
Supply & Fiscal	2.19	2,723.94
Transportation	2.25	906.25

34 School Kids Visit Air Station

(Continued from Page 1)

even more lifelike with sound added—chattering of machine guns and the roaring of planes added dramatic realism.

Tower, Weather Control Toured

The group ended the morning-long trip by visiting the Operations Tower and Weather Control. They were shown through the tower itself, and then taken aboard an R-5D to see the instruments and controls.

The entire day was arranged in collaboration with the unit of study which the class is now undertaking. The class is studying California and its history. Because of the glamorous history and background of North Island, they took this tour to further orient themselves with the San Diego Bay area.

Answer to Puzzle

In a candlelight ceremony at the NAS Chapel, last Saturday, Lorraine Ida Morin, PHAN of NAS, became the bride of George Anthony Dietzler, MU1. The bride, who is the daughter of Mr. and Mrs. Louis Morin of Taunton, Massachusetts, was given in marriage by her father. Dietzler is the son of Mr. and Mrs. Frank Dietzler of Oconto, Wisconsin. Donald White, son of CDR D. M. White, served as altar boy for the wedding.

Continental Room Rings to Acclaim of 600 at Legion Post's 'Turkey Trot'

CAROL KNOUSE PICKED AS 753'S POINSETTIA QUEEN CANDIDATE

Successful is an understatement in describing the annual Turkey Trot of North Island American Legion Post 753, which was held Friday night at the Continental Room of the San Diego Hotel.

600 guests enjoyed the hospitality of the post, which throws this free dance just before Thanksgiving each year. Post Commander Charlie Lee, of O & R, thanks everyone who had a part in putting the "trot" over. Rudy Fuentes and Woody Field were dance chairmen.

Door prize recipients included: F. Paron, Jean Paradise, Denny Hobbs, J. D. Murphree, M. G. Perez, P. Franks, D. Lungwitz, M. L. Sullivan, C. W. Garlock, and M. Moral.

In competition with four other beauties, Miss Carol Knouse, representing Assembly Division, was named to be Post 753's candidate for the high office of Queen of Poinsettia Week, the big civic event of San Diego's winter season next month.

Announcement was made by Poinsettia Committee chairmen Roscoe T. Morse, and Carl Caster that the Post and San Diego Legionnaires everywhere will be co-sponsors of the big Poinsettia Fiesta Ball December 16, featuring Lawrence Welk and his Champagne Music. It is sincerely hoped by Post 753, that their candidate, Miss Knouse, will be selected Queen, that she may receive the coronation at the Fiesta Ball, which will take place at Mission Beach Ballroom.

POINSETTIA QUEEN candidate Carol Knouse, is the choice of North Island Legion Post 753, since winning competition for the honor at the Turkey Trot last Friday. Carol is an electrician (large aircraft) in Assembly Division.

Fleet Reserve Assoc. Meets December 4

The South Bay Branch 61 of the Fleet Reserve Association will hold its regular monthly business meeting at 2000 on December 4 at the American Legion Hall, 18th and National in National City.

The guest speaker for this meeting will be E. E. Kele, the National Vice President of the Fleet Reserve Association. Branch 62, 80 and 145 will also participate in the monthly porgram.

A Buffet Supper prior to the meeting will commence at 1800. Branch 61 schedules their business meetings for the first Thursday of each month and their social meetings on the third Thursday of the month.

FEDERAL CREDIT UNION CLOSED THIS FRIDAY

NAS employees are notified that the Federal Credit Union will be closed all day today.

HARVEST DANCE ATTRACTS CROWD TO BALBOA CLUB

Five hundred enthusiastic North Island civilians and sailors, and guests enjoyed the North Island Association's annual fall dance presentation at the Balboa Park Club Friday night.

Billy Carmen's smooth 8-piece orchestra was extremely popular, answering countless requests. Many door prizes were presented, and Stan Fleet was at his best as Master of Ceremonies. The successful dance was another tribute to the growing policy of staging combined civilian-military parties and dances, and was a credit to the NIA committee which worked for weeks to provide the evening of entertainment.

JACK WILLIAMS (left) and George Bentley (right), as they appeared in the balancing school at Gisholt Manufacturing Company, Madison, Wisconsin. Williams, a snapper-electrician in Shop 8085 Plant Division, and Bentley, from Power Plant Division, completed the 4-week course in balancing machines at the factory school October 24. With them (middle) is D. A. Sumrell, USN., of Cherry Point Marine Air Station. The class of 12 represented military and Naval bases and civilian factories from various parts of the United States.

Forsakes P.W. For Music

Public Works Painter Ervin Groves resigned his position at NAS last week to devote full time to the music profession.

ERVIN GROVES

A talented composer and musician, Ervin plans to complete his

(Continued on Page 6)

Federal Credit Union will be Closed All Day Friday, Nov. 28

CIVILIAN BLOOD DONOR Honor Roll

Employee Services announced that the following civilians volunteered to donate blood during the week of 17 November to 21 November for the NAS Civilian Blood Fund for use of civilian employees and their families.

A. H. BREISE, Assembly	M. C. DAENITZ, Assembly
E. C. FISHER, Assembly	DELBERT DARLING, Insp., O&R
J. F. TOMASI, Repair & Flight	T. H. FULTZ, Structures & Finish
A. D. VITRANO, Structures & Fin.	E. J. SAMPSON, Structures & Fin.
A. HIGGINS, Structures & Finish	J. M. NEWSOME, Metal & Mach.
G. G. PAPPAS, Metal & Machine	T. S. REGALADO, Metal & Mach.
L. C. WILLIAMS, Power Plant	W. D. GUERVARA, Power Plant
RALPH W. CRIST, Access. & Ord.	H. R. WEST, Accessories & Ord.
A. E. DUVALL, Access. & Ord.	G. H. BROWN, Accessories & Ord.
G. H. BROWN, Access. & Ord.	A. E. RINKLEIB, Access. & Ord.
WILLIAM E. BURNS, Electronics	MRS. HELEN G. WOOD, S & F

Number of Donations to NAS Blood Fund, Nov. 17 to Nov. 21.....(20)
Number of Credits Available in Blood Fund, November 24.....(39)
Number of Blood Releases in Past Week.....(4)

Every Thursday afternoon is NAS Blood Donor Day at the Blood Bank. See your shop Personnel Supervisor for your appointment.

Scheduled by NAS Organizations

To provide information on planned events, individual schedules will be listed weekly in this column. This service is available to all organizations aboard the Naval Air Station. Call IRD Employee Services Section, Ext. 694 to list events.

28 November—Basketball game, NAS at Los Alamitos
2 December—Basketball game, PhibPac at NAS Gym.
9 December—Civilian Blood Donations for Armed Forces
9 December—Basketball game, Pendleton at NAS Gym.
14-20 December—San Diego Poinsettia Week.
22-23 December—Civilian Christmas Tree Contest.

column right

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

By Bill Mayer, Ext. 1045

Q. What is the Shop Learner program?

A. This is a program to make available to the Naval Air Station a source of employable personnel to fill the needs of the station. This program is necessary because experienced persons are not always available.

Q. Do Shop Learners have to have previous mechanical experience?

A. No.

Q. How does one get to be a Shop Learner?

A. A Shop Learner is selected from an eligible list established by the Civil Service Commission. To be on the list an applicant must have passed a battery of examinations and on oral interview.

Q. Does a Shop Learner go directly to the shop?

A. No, a Shop Learner goes through a training period. It varies from one to five weeks, depending on such factors as the position the Shop Learner is training for, the background and adaptibility of the employee.

Q. Does a Shop Learner get a choice of Division and Assignment?

A. Not entirely, at the time a Shop Learner is called, there may be requests for Shop Learners from only one or two divisions. At other times a number of divisions may have requests in. Also, selection is based on an oral interview and such factors as interest and adaptibility.

Q. Is it possible for employees who wish to take their vacation before June 30 to get an advancement of leave and pay it back later in the fiscal year?

A. Annual leave that will accrue to an employee during the year, may be granted in advance at any time during the year to a permanent status employee, or an indefinite employee subject to Civil Service retirement deductions.

If you have any questions in regard to the Shop Learner program, feel free to call Extension 1236, for additional information.

Rapid Communications Essential In Weather Central's Forecasting

PREPARING to send the radio-sonde aloft are Duaine A. Smith, AGAN, and Nelson P. Hart, AGAN. The instrument gives aerologists valuable meteorological information on the upper air by radio signal. It may also be tracked by radar to chart wind velocity and direction. It is sent aloft twice daily—0700 and 1900.

FORECAST DUTY OFFICER, LT T. J. Lockhart, draws isobaric lines on weather map. Resulting pattern will reveal the configuration of air masses out of which storms are born. These six-hour charts are the final compilation of reports received from hundreds of weather stations, out of which forecasts are made.

Although San Diego skies may be clear, teletypes in Fleet Weather Central are tapping out information of an approaching storm far out in the Pacific.

As important as the stethoscope to a doctor, the battery of teletypes keep the forecaster alert to the rapidly changing weather condition of the world. Through the faithful cooperation of thousands of weather observers, perhaps aboard a ship or at some lonely outpost, a comprehensive picture of the weather can be gathered several times during the day.

Each observer, known only by his code on the teletype copy, has an appointed time to transmit the vital data he has gathered on barometric pressure, temperature, wind, sky cover, and other meteorlogical phenomena. Line after line of this information comes in, prefixed by the name of the station, followed by the weather data —a series of five digit numbers arranged in seven to 10 groups.

In turn, Weather Central, located in the NAS Operations Bldg., as part of the vast network of weather observers, transmits readings from its own instruments over the teletype at appointed times.

Incoming information received from the machine is quickly translated by training Navy aerographers' mates and is plotted, in accordance with standard codes and symbols, on a map, covering the western half of North America and the eastern Pacific.

With all information recorded, the map goes to the duty forecaster, a trained aerologist, who draws in isobars—concentric lines joining points of equal barometric pressure. The resulting pattern is the key to the weatherman's analysis of atmospheric conditions. He notices closed areas of high pressure, closed areas of low pressure, and widespread areas where there is no closed circulation but a generally smooth pressure gradient. By reference to previous surface charts and objective analysis of upper air data, a fairly accurate past and future movement of the major pressure systems can be determined. After considerable study of all the associated factors, finally emerges his prognostication, his forecast of weather for the next six hours to three days.

Matching wits with the caprices of weather is an absorbing job, but the aerographer's mates and aerologists cannot pursue their work with the cool detachment of scientists. Time is of the essence. Weather Central is here for the vital purpose of rapid dissemination of weather information to all 11th Naval District activities and naval ships in nearby waters as may be required.

Consequently the weathermen are subject to constant calls and consultation. While ladies in the area have been known to inquire if the weather will permit giving a patio party on a certain evening, this type of claim on Weather Central's aid is infrequent. The bulk of the people consulting the forecast duty officer are pilots, prior to making hops. All pilots are required to be briefed by the forecaster concerning current and forecast weather before making a flight. Outlining the best route to avoid "weather," the forecaster briefs the aviator on conditions he may meet enroute—icing, low cloud formations, snow, as examples.

Most difficult problem of the Weather Central forecasters is not predicting a major storm, like the one which hit San Diego two weeks ago, but the troublesome stratus and fog, which commonly blanket North Island during night and morning hours.

Fog and low ceiling can render the air station virtually non-operational; therefore Weather Central must be alert to conditions which bring it, be able to predict its formation and dissipation.

Under the military command of Commander, Western Sea Frontier, Fleet Weather Central is headed by CAPT R. R. Kellerman, who reported here in March 1951. Executive officer is LCDR R. D. Flynn. Six officers, 20 assigned enlisted men, 26 attached TAD from other units, and two civilian secretaries make up the Weather Central staff.

Aerographers find playing watchdog on the passions and pranks of weather fascinating but exacting business. Each day brings new problems for solution. There is one cloudy aspect, however: Their work is never done. Weather takes neither holiday nor liberty.

WEATHER COUNSEL LCDR R. D. Flynn, Weather Central executive officer, briefs J. E. Laughlin, Fasron 691, on flying conditions between North Island and Los Alamitos. An average of 70 pilots consult with Weather Central aerologists each morning.

TRANSMISSION of weather data as recorded by Weather Central instruments is made at scheduled hours several times daily. Here, Wave Sonny Morris, AGAN, sends the coded information over the teletype. The data is pre-cut on tape and is sent within three seconds after preceding station completes its report.

FACSIMILE machine, operated by Nelson P. Hart, receives U.S. Weather Bureau map every six hours. This chart gives detailed information of the local area and supplements the larger weather map compiled from reports received over the battery of teletypes. Operation of facsimile is similar in principle to newspaper wire photos.

THEY CHUTE THE WORKS

Remember the well worn, age old joke about the aviator bringing back the parachute which didn't open, to trade it in for another? Parachute Shop 3153, Overhaul and Repair Department, in Building 94, would be the place to which the 'chute might be returned in such a case.

But Parachute Shop 3153's record of exact, clean, and accurate work, plus careful inspection of finished repair work, has never yet let a pilot (or other flier) down through 'chute failure.

It is the job of the 21 employees of this shop to inspect parachutes for broken threads, torn panels, and weakened shroud lines. They renew torn or weakened panels, using silk or nylon material, operating three and four needle power machines.

In this shop, leather flight jackets are overhauled, linings, cuffs, and other parts are renewed, and summer flight clothing and anti-blackout suits are also overhauled.

Employed in ratings of Parachute Mechanics and Fabric Workers (Aircraft), workers in Shop 3153 manufacture and test safety belts and parachute harnesses.

Accuracy is the keynote of their work, as 90 percent of work performed here is on life-saving devices.

Supervisor of the Parachute Shop is leadingman Parachute Mechanic N. R. Showalter. To the credit of the shop, and to the work turned out, is the fact that most of the employees are old timers in the NAS civilian organization, the average time on the station per employee being 12 years.

SEWING SMALL PARTS for parachutes are this group of busy women employees of Shop 3153. They and others of the shop perform a vital function in Naval Aviation not widely known about North Island; that of keeping 'chutes in order and in good repair.

HOISTING CHUTES to an overhead rack facilitates handling at the sewing machines where repair work is effected. At left, Lucille Paquin raised a 'chute. Center is Jewell Huddleston, and at right is Anna Laura Martin.

THREE AND FOUR needle sewing machines are used by women in the Parachute Shop (above) to repair torn chutes. Here they are seen doing one of the many chores of the shop, overhauling leather flight jackets. Their work is some of the most exacting performed anywhere on the station, calling for the utmost accuracy.

INSPECTION is one of the most important parts of the Parachute Shop's work. At left, Bernice Manning and Gertrude Stemerick perform an inspection of recently repaired 'chutes. They have been inspectors since 1940.

Star-Studded Show Packs Theatre Sunday; Best Yet Says Crowd

FRANCINE NELSON, 4 months, makes stage debut with Jerry Colonna and Pat O'Brien Sunday at the NAS theatre when she and her parents, AD3 and Mrs. Clarence Nelson of FASRon 7 visited the stars back stage. It was young Francine that Pat took on stage with him during the show.

(Continued from Page 1)
blushing "Man O' Warsman" helpless. Last seen, he was mumbling to himself while being escorted from the theater.

Jerry Colonna & Pat O'Brien Star

As if the appearance of Ann Blyth were not enough, stars Jerry Colonna and Pat O'Brien added their talents to the show. Pat O'Brien entertained with his repertoir of "Irish" type stories and jokes, and finished with a dance straight from Erin."

Jerry Colonna, the goggle-eyed, high-voiced comedian with the voice like an air raid siren, was tremendous in his song renditions in unique style.

The show was rounded out with a variation of acts which would rival anything any commercial theater could ever assemble.

Cy Melano, a fast rising popular vocalist, together with sensational harmonica and piano numbers by well known musicians made the show a well balanced 120 minutes of pleasure.

Four Step Brothers Sensational

The finale, which featured the sensational Step Brothers dancing team, drew the largest applause of the evening. Their efforts were tremendous as they acrobated and danced their way through several numbers. They ended their acts with impromptu dances that had the entire audience jumping to the rhythm of their feet.

Forsakes P.W. For Music

(Continued from Page 3)

music education at the Westlake College of Music in Hollywood.

He has scored a recent success with his compositions over television. Two of them received first awards on the Gene Norman and Peter Potter shows. Erv is currently making arrangements for recording two numbers on the "Swingtime" label.

Organizer of the swing trio which has played at the NAS Commissioned Officers Mess (Open), he is a versatile instrumentalist as well as a composer, playing the piano, trombone, and bass fiddle. The trio has featured vocalist Gloria Dodson, who has also plugged Erv's songs on TV and radio.

A native San Diegan, he majored in music at San Diego High school and Junior College, playing in the concert orchestras there. While in the army he was a member of the famous Imperial Swingmen, a musical group which performed at the Ernie Pyle Theater in Tokyo. Erv served both as arranger and trombone player for the group.

SPORTS

AIRMAN BOXERS SHINE IN AAU TOURNAMENT

Three Naval Air Skyraider Boxers entered the Novice AAU Tournament held at the Colliseum recently and came away with one winner and two runner-ups. Steve Bosch, 156-pound boxer from VR-5, won his second tournament of the season in his fith fight. Runners-up were 139-lb. Jim Strokl and 147-lb. Carter Audilet, both of Fleet Air Unit.

Several other Skyraider sluggers have been boxing in the Wilmington Bowl every Monday and at present one of the Skyraiders, Abe Haynes, 147 pounder, is the ring champion on Channel 9.

The annual All-Choice YMCA Tournament will be held next week, December 1st, 3rd and 5th. Approximately nine 'Raider pugilist will enter the tournament. Harold Millenberg will battle in the 125 pound division, Bob Freeman in the 132 pound duel, Lanz Bergeran, also 132 pounder, Tom Janowick and Ave Haynes in the 147 pound division, Paul Brown and Steve Bosch, both 156 pound boxers, and Frank Harte, a 178-pounder who was the runner-up in the same tournament in 1948.

Raider Gridmen Bow to Campen

Naval Air's Football Skyraiders fell to their sixth loss of the season last Saturday as the Camp Pendleton Golds buried them under a 27-12 score at Pendleton Field.

Tailback Bill Hulsey turned in a fine offensive game for the 'Raiders, completing 15 aerials for 210 yards and handling all punting chores for the Navy, but his work wasn't enough to offset the power of Charlie Harris and Co. Harris, who leads the 11th ND League in total points scored, went over for one touchdown and set up two others with his effortless running and pass receiving.

Naval Air plainly missed the services of regular players who were out with injuries.

The Skyraiders will meet Edwards AFB Saturday afternoon in the final game of the season.

Statistics

	Naval Air	Camp Pendleton
First Downs	9	12
Yards Rushing	20	191
Yards Passing	210	138

NI Skiers Open Season

HARLEY GERDES AND ALLAN DEACON, Ski instructors of the North Island Ski Club, open the current season with a flying start at Snow Valley as they prepare for a heavy schedule of classes. Ski lessons will be given free of charge to all members of the Ski Club who are in the beginning and intermediate stage.

* * * * * *

North Islands' Ski Club swung into high gear as winter officially moved into Southern California's mountain areas. Two trips have been made to Snow Valley where powdered snows two feet deep have offered unusually good early season skiing. Another trip is planned for November 29-30, and anyone who did not make reservations at the last meeting and would like to go may contact the Club Secretary, Harlen Demseen at Ext. 411 before 1600 today.

Weekend trips will be made throughout the remainder of the winter with overnight stays at a local resort town near Snow Valley.

The club is open to all civilian and military personnel of the Air Station and their dependents and guests. All members and prospective members are requested to attend the next meeting of the club which will be held Tuesday, December 2 in building 8 at 2000. A color movie will be shown and plans made for a trip on the weekend of December 6 and 7.

Ski instructors will be available for those wishing instructions.

Airman vs. Alamitos Tonight, Ventura College Tomorrow

Tonight the Naval Air Skyraiders meet the Los Alamitos Five at the latter's Gym, in what might prove to be a most interesting game with the teams fairly evenly matched. The 'Raiders travel to Ventura, California, tomorrow where they will battle the Ventura College Basketball squad. Then on December 2 the Naval Air Skyraiders play their third home game of the season when they run up against PHIBPAC at the NAS Gym.

Games Already Played

Opening the 1952-1953 basketball season the Naval Air Skyraiders lost to NAS Miramar on November 19 by the score of 61-50 at the Miramar gym.

To open the home season on November 21 the Skyraiders took on Grihalva Motors here at the NAS Gym and played a game that was full of fancy shooting and thrills. The game went into an overtime as the two teams were at a 46-46 deadlock when the final buzzer sounded. In the overtime play the Grihalva Motors five broke ahead and remained there to win 52-49. Then on November 22 the Naval Air Skyraiders traveled to Point Loma High School where they met the ever powerful Marine Corp Recruit Depot basketeers and again lost. The score at the end of the game was 81-26 in favor of the Marines.

BOX SCORE
Naval Air-Grihalva Motors

Name, Pos.	ftm.	fta.	fg.	tp.
Stevenson, forward	3	5	3	9
Bird, forward	1	1	1	3
Belton, forward	2	4	6	14
Lowe, forward	1	1	1	3
Oliver, center	1	3	1	3

Kapnis, guard	2	2	1	4
De Long, guard	1	1	1	3
Hancey, guard	0	4	2	4

JOE HAMERNIK . . . No. 34 . . . 6' 4" . . . Center. Joe will be used quite extensively at center this season and his height and deceptive ball handling will give the Skyraiders an above-average pivot man while he is in there. A veteran of 10 years of service basketball, the "Old Pro" will start his fourth straight year as a Skyraider. Joe was elected Captain of the Skyraiders last season. Before entering the Navy in 1942, he played four years on the Winona, Minnesota High School varsity team.

YANKEES GAIN ON LEADERS

Yankees are now just one and one-half games behind the league leading Tool Room, in the North Islander Winter Bowling League, after last Friday's matches.

Again it was John Allison of Tool Room who topped individual efforts. He slammed out a 243 game to head up a season's high individual series of 631.

JIM BIRD . . . No. 25 . . . 6' 2" . . . Center. Jim was All-Northern California and All-District for two years at Alameda High School in Alameda, California in 1950. He received a four-year scholarship to Napa College, Napa, California, and was top scorer in the starting position his second year of Navy basketball. The 20-year-old center was second in scoring for the Skyraiders last season as he pumped in 343 points.

airpac's sportlight

By Marsh Johnson

Tony Trabert, SN, one of America's top Amateur Tennis players, reported aboard the Naval Air Station last week from the USS CORAL SEA and is now attached to VR-32.

In an interview with the brilliant tennis star Monday morning, Tony told us, "I expect to be on this station until early next month when I leave for the Davis Cup Matches in Australia". Tony will take a 20-day leave in order to participate on the American team in the world-famous tournament. He will be traveling at his own expense to Australia.

After his working day ends at VR-32, Trabert works out at the La Jolla Beach and Tennis Club and, on weekends, keeps his game sharp by practicing with Jack Kramer and Pancho Segura in Los Angeles.

The modest net king expects to participate in the inter-zone finals at Sidney, Australia and then will come the Challenge Round at Adelaide.

Trabert attended Cincinnati University for two and one-half years before coming on active duty and, upon his discharge next July, he plans to return to Cincinnati U. to finish his under-graduate work. His home town is Cincinnati, Ohio.

TONY TRABERT, SN, is shown above just before a workout at the Tennis Courts near the Chief's Barracks. Tony, one of the top ranking tennis amateurs in America today, will take leave next month to participate in the Davis Cup matches in Australia. He is presently attached to VR-32.

Corner on Sports

By John Phillips

Skyraiders vs. Edwards Air Force Base

Tomorrow the Naval Air Skyraiders wind up their 1952 football season as they travel up to Murdock, California, to battle the Edwards Air Force Base gridders. This will be the 'Raiders last chance to display some of their pre-season power, and maybe even up their season's record a little. Coach Johnson's eleven have had a rough year, running up against some of the most powerful service teams in the area, and being able to win only two out of their first nine games. During their season's encounters they ran up against the all-powerful Naval Training Center eleven and at first managed to keep them at fairly even terms but once the Training Center's Boots got rolling there was no stopping them. In their second game of the season the Skyraiders came from behind to win over the Cal Ramblers at Berkeley, California. On October 18 the Naval Air Skyraiders again came from behind in a close gridiron duel to squeeze by the Fort Ord Army squad 7-6. The Airmen have displayed considerable strength this season but each time that they drove down close to the double stripe marker the threats failed to materialize. Against the Los Angeles Rams the 'Raiders pushed over their first touchdown of the season as Gus Mancusso cracked over the middle for a score.

Injuries Weaken Skyraiders

The Naval Air Skyraiders suffered heavily this season with injuries which probably cost them several games. Injuries to such men as "Trigger" Phillips, the 'Raiders bone crushing line backer and Claude Finklea, one of the largest linemen in the Airmen lineup weakened the team considerably. "Trigger" was playing terrific defensive ball up until the time he received several injuries in the gridiron duel between the Naval Air Skyraiders and Brooke Army Medical Center. Since then he has been watching the games from the sidelines.

On the whole the Airmen were always in the game and gave all of their opponents a tough battle. A lot of credit goes to the line men who so diligently played their hearts out and received little or no credit.

ALF REAM SAN YSIDRO, CALIFORNIA

A Night to Remember

Ream EM Club Gets Gala Launching With Food, Fun and Celebrites

By Art Marks

Officially christened by "The Hostess We Like the Mostest," lovely Susan Morrow, the Enlisted Men's club of ALF Ream became a reality last Friday evening to the hundreds of Ream personnel and guests, who attended the festivities.

It was a night to remember for those that enjoyed the danceable music of the ComAirPac dance band, a truly fine stage show, and all the food and refreshments the merrymaking throng could eat.

J. B. Bennett opened the show by introducing the glamorous Miss Morrow, who by her warm and graceful manners, immediately became Ream's own sweetheart

The Nino Toles chorus line was followed by Ken Samson, impersonator deluxe, who brought down the house with his sharp wit and his likeness to such people as Edward G. Robinson, Betty Davis, Gary Cooper, and many others.

Margi DeCosta held the crowd breathless with her singing of such songs as "I'm Yours" and "Somewhere Along the Way." Carol Elliot, acrobat, Shirley Wright, accordionist, and our own Dean Jones by popular acclaim was called back again and again, completed the show.

The gaiety and fun continued as dance contests were held and hours of dreamy dancing went on and on.

THE ENLISTED MEN'S "Hostess We Like Mostest," Susan Morrow, is pert and proud, too, says we have the finest E. M. Club. She is shown here on the wing of a Ream-based jet plane.

Competition Keen as Ream Units Vie for High Honors In Dec. 4 Blood Donation

With all turkey dinners digested, the men of ALF Ream worked themselves to a feverish pitch in securing volunteers for the December 4 Blood Donor date, it was reported early today. All the units at Ream Field are competing to reach 100% first by next Monday, 1 December.

"It begins to look like a 100 gallon donation next Thursday," said CDR W. G. Knapp, blood donor committee chairman.

One hundred gallons would mean 800 pints, which would exceed the record donation of 719 pints at ALF Ream early last spring. All the blood donated next week will be the property of the Armed Forces and will be processed and delivered to the Western Depot at Travis Air Force Base within 24 hours.

Expectations of the large turnout of donors have caused the collecting agencies to alert mobile blood units as far north as San Francisco to stand by for immediate transfer to the South Bay Area, unofficial reports said.

The American Red Cross and the local Blood Bank facilities will serve in the blood operation, under contract with the Armed Forces on a non-profit cost basis.

Women to Donate

All wives and girl friends have been invited to participate in the donation of blood for Armed Forces use. In order to facilitate the women's donation of blood, they will accompany their menfolk to the head of the line on December 4.

Unselfish Ends

G. R. Van Senden, AK3, typical Ream sailor, stated, "I'm volunteering to donate my pint of blood, because I know that it's going to Korea, and that those men over there need it, and need it badly when they're wounded!" That man's opinion appeared typical of the reasons given by the men of this airfield today, when they were queried as to why they were volunteering in such unprecedented numbers.

The last minute percentages of volunteers in each of the Ream units are given in the cartoon below on this page. The units at ALF Ream, competing to be first with 100%, are:

UtWingPac Staff, Helicopter Antisubmarine Squadrons two and four, Helicopter Squadron One, Fasron 701 Detachment, Utility Squadron Three (k), and ALF REAM station.

Blood Donor Competition Closes 1300 Monday

Standings as of 1600 Wednesday

UtWg Pac	100%	HS-2	76%
Fasron 701 Det	94%	ALF Ream	61%
HS-4	88%	VU-3 (K)	60%
		HU-1	30%

The 'Chubby' Lyons Story

In the Navy there are many unsung heroes and brave men that do not man a gun, receive medals, or recognition for what they have accomplished while in the service. One of these men is LCDR D. S. "Chubby" Lyons, USN, Operation Officer of Utility Squadron Three.

"Chubby" Lyons, from Blaine, Pennsylvania, enlisted in the navy at Baltimore, Maryland, in 1933 and worked up to the rate second class by the time he applied for flight training. In 1937 he received his Wings and the rate of Aviation Pilot, second class. As an Aviation Pilot, first class, he was with VP-12, a patrol plane squadron based at NAS Kaneohe Bay on the island of Oahu, when the sneak attack was launched on December 7, 1941.

When the attack came, he ran from an ammunition room toward his battle station and reached the main hangar area just as three direct bomb hits penetrated the building and exploded, putting him out of action with a leg wound so serious that it was necessary to amputate the left leg just below the knee. This injury, which would have finished most men, only made him more determined to do his share as a useful member of the Navy.

Christmas Day, 1941, found him back in the States where, after a short period of recovery at Mare Island Naval Hospital, he was taken to the Naval Hospital at Corona, California, and fitted with an artificial limb. It was at this time that he was advanced to the rate of Chief Aviation Pilot.

Recovery completed, he refused

LCDR D. S. LYONS

to accept the routine survey and retirement and requested active duty with a radio control drone unit as a field cart control operator. His request was honored and the assignment to duty was at Cape May, New Jersey.

Still with that great desire to fly he set about convincing the Bureau of Aeronautics that he could pilot an aircraft with his artificial limb. Again Lyons was successful and was reinstated as a pilot in October, 1942, but with the restriction that he could fly only when accompanied by a qualified safety pilot. In the next three months he convinced his safety pilots that he was as good as ever at the controls and with their help was given the designation to fly any single engine, non-combat aircraft alone. In May, 1943, he was commissioned Lieutenant (JG) and apace with other Naval Officers was advanced to Lieutenant in August, 1944.

When plans were made for the atomic bomb test to be held at Bikini, the pilotless drones were given a proment role. LT Lyons was one of the old hands in the pilotless aircraft technique by that time and was among those selected to form the drone unit operating with the Navy Air Groups of Joint Army-Navy Task Force One. The Navy F6F Hellcat fighter was used by this unit and it was necessary that all pilots in the unit be qualified to land that plane aboard an aircraft carrier.

Again, in this most precise and exacting phase of Naval Aviation, "Chubby" was able to show that his artificial limb detracted nothing from his abilities. During operations aboard the USS Shangri-la on March 5, 1946, he made 12 successful takeoffs and landings, including one catapult shot.

Before losing his leg, Lyons had a total of 1950 hours of flying time. Since being fitted with an artificial one, he had flown over 1100 hours in the next three and one-half years. His specialty is operating a field cart for radio control of drone airplanes and the fact that he was chosen to do this job in the Crossroads project speaks for itself.

LCDR Lyons has shown positive proof of the success that can be obtained despite severe obstacles. With the artificial leg, he can hunt, play volleyball, softball and swim with the best of them. The well-liked operation officer never tells of his own efforts to succeed but constantly thanks the Medical Corps of the Navy and all his friends who helped reinstate him to flying status and who further aided in securing new billets in the Navy where his worth would be felt.

As the drone airplane has now come of age, men of LCDR Lyons' vast experience will be called on to aid this immense program. It has taken intestinal fortitude, courage, and self-satisfaction, to put this handicap behind him. The Navy salutes such a man as LCDR D. S. Lyons, with a "Well Done."

VU-3 Cage Team Takes Ream Hoopster Crown

Utility Squadron THREE captured the Ream Field basketball championship by an overwhelming margin as they cinched the crown with four games still to be played on the schedule.

After losing their first tilt to HS-4, Coach Lachowski's dronemen were never headed as they succeeded in winning their next ten games in a row to wrap up the title.

All season long it was the agressive and sparkling play of Bill English, Howard Hope, Wes Hays, and the entire bench that demolished the opponents without showing mercy.

If it wasn't English racking up 33 points, it was Hays hitting for 20, or Hope's 18 points making the difference. Keith Deibler's steady six counters per game, sinking baskets when they counted. During the latter part of the schedule it was that little dynamo, Dave Franer, who often lit the fire with timely buckets. Other consistant point-getters, were Feser, Steege, and Bustamonte.

Coach Lachowski did an outstanding job of shaping his mellon crew together. Out of the fifteen games that were played, VU-3 won 11, while dropping but four games.

Five Station Waves Nominated for Queen Contest

New Infirmary Annex Opens

The NORTH ISLANDER
U.S. NAVAL AIR STATION

VOL. VIII SAN DIEGO, CALIFORNIA, DECEMBER 5, 1952 No. 49

STORK LOSES CLOSE RACE WITH INFIRMARY STAFF AS ANNEX OPENS MONDAY

Old Doc Stork was nosed out in a photo finish Monday in its race with the opening date for the new Infirmary Annex. The Annex, in process of being moved into the new modern building, received its first patient and delivered her baby at 11:15 Monday morning.

The baby, a 7 pound 4 ounce boy named Barry Paul, and his mother, Mrs. Hubert P. Bilbray are both doing fine.

This is the third child for Mrs. Bilbray born at the Naval Air Station. She and her husband, CHCARP Hubert P. Bilbray, now stationed aboard the USS BELLTRIX, came to the United States from Australia wheer they met during World War II.

New Hospital Well Equipped

Despite its early opening, the new facility was well equipped to handle the emergency. From the inlaid tile floors to the soft-hued walls and modern lighting the new building bespeaks the care that was taken in its nine months of construction. Planned since October, 1951, when the old hospital was moved to its temporary site for the extension of runways, the new Annex incoprorates single, double, and three-person rooms to replace previous wards.

Three delivery rooms, two general operating rooms, and an eye-nose-throat operating room are available in the new establishment. An intricate inter-communication system permits patients to talk to nurses without leaving their beds.

Nurses, Aids, Grey Ladies Assist

Of great assistance to the staff

(Continued on Page 6)

TWENTY-FOUR HOURS YOUNG is Barry Paul Bilbray. Barry was the first baby born at new Infirmary Annex. He is the son of Mr. and Mrs. Hubert P. Bilbray.

54 BOY SCOUTS TOUR STATION

Three troops of Boy Scouts were visitors at the Naval Air Station Sunday. Led by John W. Mathis, the eight-car caravan of Scouts from Troop 7 of Redlands, and Troop 6 and Post 6 of San Bernardino, began their tour with a noon meal at the NAS Mess Hall.

Following a motor tour of the station, the Scouts were hosted on board the aircraft carrier USS PHILIPPINE SEA. They toured the ship in three groups, each escorted by a ship's officer.

Set Annex Visiting Hours

Visiting hours at the new NAS Infirmary Annex were announced yesterday by the Medical Dept. Hours on week days are 7:00 to 8:00 p.m. Saturday, Sunday, and holiday hours are 3:00 to 4:00 p.m.

Plan NAS Kids Xmas Party

A Christmas party for the dependents of all station based Military personnel will be held at the NAS Theater at 1600 on Sunday, December 21.

The show and party will feature many variety acts plus a personal appearance of Stnta Claus.

Waves Compete in 11 ND Poinsettia Queen Race

Naming the military Poinsettia Week Queen swings into high gear with this issue of the North Islander. Five of the loveliest young wearers of the Navy blue at the Naval Air Station have been selected to vie for the coveted honor.

The winner, to be decided by your votes, will co-reign with the civilian Queen during the Poinsettia parade, dance, bowl football game, and other festivities scheduled for this month.

Contestants' pictures and names appear on page 6 with a ballot which is to be mailed or brought to the North Islander in Building 8, Room 1, prior to 1530, Monday, December 8.

Winning candidate from NAS will then compete against the nominees from the Naval Training Center and the Naval Hospital.

The winner will be crowned Service Queen at the Poinsettia Ball to be held Tuesday, December 16, at the Mission Beach ballroom.

The Service Queen, and other nominees completing her court, will take part in the Poinsettia Parade on Saturday, December 20.

So, clip that ballot now, select your choice, and bring or mail the ballot to the North Islander before 1530 Monday, December 8.

Station Adopts 'Get Tough' Policy on Traffic Offenders

Ever increasing rate of deaths and automobile accidents by service personnel was the main topic of discussion at a recent meeting of the Naval Air Station Safe Driving Counsel. The counsel was of the opinion that far more stringent methods of punishing violators of traffic safety are necessary to successfully combat the situation. Proposed measures would be in keeping with the recently announced "GET TOUGH" Policy of the San Diego Police Court Judges.

Commandant of the ELEVENTH Naval District has inaugurated a system whereby Commanding Officers are notified of the traffic offenses committed by personnel of their Commands. It is to be remembered that traffic violators can be punished at Captain's Mast or by Court-Martial, even though fines and/or imprisonment have been previously awarded by the civil courts. This does not constitute double jeopardy.

Heretofore, it has been the policy on this station that persons violating the traffic laws on the station would have their driving privileges suspended for a certain period of time or completely revoked, depending on the relative

(Continued on Page 2)

'Adopted Family' Plan Becomes O&R's Second Annual Christmas Project

O & R Statistics 1952 "Adopted Family" Plan food display.

Preparations for the second annual "Adopted Family Plan" are now under way in the NAS Overhaul & Repair Department.

Last year the department's voluntary Yuletide project brought food baskets, clothes, Christmas gifts, and other aid to needy families in the San Diego area.

The plan, which seeks to help less fortunate families in the San Diego area, was developed by individual divisions in the Department, and was later coordinated into a joint effort.

Because of the oustanding success of the 1951 Adopted Family Plan, its continuation this year has been met with enthusiastic support.

The generous Christmas spirit which has been evident in all the shops is like a small fire that started spontaneously and kept spreading. "It is a source of inspiration to all of us who have seen it develop," said CAPT G. A. Hatton, Overhaul & Repair Dept. Officer.

Each O&R Division or office, through its Welfare Committee, will independently determine the amount and type of aid it will contribute. Names of needy families have been submitted by the Salvation Army, County Welfare, Navy Relief Society, Community Chest Home Service, and various church groups. In addition, aid will be provided to a local orphanage and to widows and families of former O&R employees.

O&R Dept. employees wishing to contribute to the project are urged to contact their Welfare Committee. Food products (preferably staples, clothing, appliances,

(Continued on Page 2)

Next Tuesday Named As 'Xmas for Korea' Day For Civ. Blood Donors

Building 255 has been reserved for the Civilian Red Cross Blood Donation for the Armed Forces on Tuesday, December 9—the NAS Civilians' "CHRISTMAS FOR KOREA." The building is located behind the main dispensary, facing Roe Street, and is a regular dispensary ward, with beds and steam heat.

Employees may take either the Green or Red bus to the first stop AFTER the Main Dispensary.

(Continued on Page 4)

CHIEF M.A.A. Tips

The station transportation system is one of the best. Treat it kindly by not riding on the steps, jumping off and on vehicles, and skylarking.

Parking stickers are issued on board the station. The privilege of having one of these stickers carries with it the responsibility of observing all traffic and parking rules.

The Navy Exchange parking area is for your convenience, so as a matter of courtesy after completing your business, make room in the lot for someone else.

Those driving government vehicles should make sure their license covers the type of vehicle they are driving. Remember, when you are driving a government vehicle on public highways, you are subject to state traffic laws like any civilian motorist.

Dick Franklin Returns To Civilian Life

Dick Franklin, yeoman third class of the Executive Officers' office, is returning to civilian life next Wednesday.

Franklin, whose home is in Los Angeles, will return to his job as Employment Coordinator with the Los Angeles City Schools. His office administers the part-time employment of school students which gives them scholastic credits and helps train them for the jobs they will have after graduation.

During 16 months at the Air Station, Franklin was active in the administration of the United Fund Drive and other charity events.

THANKSGIVING took numerous forms this year—no more graphically could it be illustrated than by the sentiments of Mrs. Glodene Wallace (center) who received blood from the NAS Civilian Blood Bank in her time of need. With her are Mrs. Dorothy N. White (left) and Mrs. Airlee T. Lee, both regular donors to the blood bank fund, which is available to North Island employees. Have YOU donated blood recently? Those interested in adding to the NAS account, contact Employee Service, ext. 694.

Special Services For Jewish Holiday At Chapel, Dec. 12

On Friday 12 December 1952 at 1930 a special Chanukah service and celebration will be held in the Chapel of the Naval Air Station for all North Island personnel of the Jewish faith. This service will feature the rededication of the chapel's Jewish ark, the traditional lighting of the Menorah lights—as well as fellowship and good food.

Chanukah commemorates the liberation and cleansing of the Temple in Jerusalem by the Maccabees after the Syrian Greeks had over-run and defiled that sacred place. It has traditionally been observed as a day of mixed solemnity and gaiety featuring both a solemn lighting of the Menorah candles, symbolic of one's loyalty to a faith pure and free, and by gifts, and as a feast in memory of that great day of liberation.

It is hoped that as many personnel as possible will avail themselves of the opportunity to participate in this beautiful, significant, yet gay festivity, and to meet at the same time Chaplein Silver, the Jewish chaplain just assigned to this district.

Station Adopts Rigid Traffic Policy

(Continued from Page 1)

seriousness of the offense. The attitude has now been strengthened so that a driver who shows himself to be a non-safe driver off of the Air Station, in a like manner, to be considered a non-safe driver on the Air Station, and therefore, in the future, persons who commit traffic violations of a nature to hazard the life and property of others, will have their driving privileges on the Base suspended or revoked, as the situation warrants.

Eventual reinstatement of these driving privileges will be contingent upon the successful passing of a safe-driving course and written examination administered by the I&E Division, plus a practical driver's test in which satisfactory driving ability must be demonstrated.

There are very few accidents which are "accidents" in the literal sense of the word. Those who speed, drive in a reckless fashion, drive after excessive drinking, etc., know in advance that it is only a matter of time until they seriously damage property and injure or kill themselves or innocent persons. Therefore, these ACCIDENTS ARE PREMEDITATED.

Let's Remember that the Holiday Season is upon us. Not only do we want to enjoy the Holidays ahead, but we also want to be around to remember them after the have passed. DRIVE CAREFULLY!

Branch 9 Fleet Reserve Assoc. Fetes Auxiliary Unit Tonight

Branch 9 of the Fleet Reserve Association today will play host to the Unit 9 Ladies' Auxiliary at a dinner, 6:30 p.m., at the Balboa Park Veterans Memorial Bldg. The occasion commemorates the 16th anniversary of Unit 9.

All members of both the branch and unit are invited to attend.

A regular business meeting will follow the dinner party. Edward E. Keeley, national vice-president of the association, is guest speaker.

For persons interested in the activities of the Fleet Reserve Association, a schedule of local branches, with dates, location and meeting place, is listed below:

Branch	Location	Meeting Place	Date	Time
9	San Diego	Vets Mem. Bldg., Balboa Park	1st & 3rd Fri.	1930
47	El Cajon	Vets Mem. Bldg., El Cajon	2nd & 4th Fri.	2000
61	Chula Vista	Am. Leg. Hall, National City	1st & 3rd Thurs	2000
62	San Diego (Colored)	2905 Clay Avenue	4th Sunday	1500
80	Ocean Beach	Ocean Beach Women's Club House	4th Friday	1930
84	San Diego (Filipino)	FAVA Hall, San Diego	2nd Friday	2000
111	Linda Vista	Community Center (Linda Vista)	2nd & 4th Thurs	1930
139	Lakeside	Vets Mem. Bldg., Lakeside	2nd Friday	1930
145	San Diego	Vets Mem. Bldg., Balboa Park	4th Friday	1930

Flying Feathers

The story is told of a Chinese peasant who came to a Chinese monk because of his troubled conscience. It seems that the peasant had circulated some loose gossip about a member of the community, only to discover later that the story was false.

"If you want to make peace with your conscience," said the old monk, "you must fill a bag with chicken feathers. Go to every dooryard in the village and drop in each one of them a fluffy feather."

The peasant came back to the old monk a day later, announced that he had done penance as he had been told, and asked the monk if that was all he was to do.

The monk replied, "This is not the end. You are now to take your bag, go to every dooryard once again, and gather up every feather that you have dropped from your bag."

"But the wind will have blown every feather away by this time," said the bewildered peasant to the old monk.

"Yes, my son," said the old monk, "and so it is with gossip. Once you have thrown out the word of gossip that is never the end of it. You can never get it back again. Remember that in the future."

If you cannot say something good about a person, say nothing.

(Come, O sons, listen to me, I will teach you the fear of the Lord. What man is there who desires life, and covets many days, that he may enjoy good? Keep your tongue from evil, and your lips from speaking deceit. Depart from evil, and do good, seek peace, and pursue it. Psalms: 34, verses 11-14).

Protestant Chaplain,
LEONARD B. DOHRMANN

The security of the U. S. in general and of Naval Operations in particular depends, in part, upon the success attained in the control of classified information. Military information is of varying degrees of value to enemies and potential enemies of the U. S. and, therefore, should be assigned corresponding protection.

It is of paramount importance that all who engage in administering security of classified matter preserve a balanced and common-sense outlook toward the subject. The ideal to be sought is the indoctrination of all personnel to the point that they automatically exercise proper discretion in the routine discharge of their duties and do not think of security of information as something separate and apart from other things. In this way security of information becomes a natural element of every task and not an additionally imposed burden.

The responsibility for the maintenance of the security of classified matter rests upon each member of the Naval establishment having knowledge thereof, no matter how that information was obtained.

The minimum stowage for Restricted matter is a locked room or container with a reasonable secure locking device.

Search desks frequently for confidential and higher classified material. Desks are not approved for stowage of such material, and many instances of improper securing of classified material result from confidential material becoming inadvertently intermingled with unclassified or Restricted papers. Restricted matter may be kept in desks if locked.

Coronado Shorthand Class Announced

A free shorthand class will start January 12, 1953, at the Coronado Evening School. A course for beginners and intermediates will meet every Monday and Thursday evenings as long as the minimum of thirty people attend.

The class is well on the way towards reaching the limit of forty people, so those interested should call either of the following people now and have their name added to the enrollment list: Anne Morey, Henley 3-5296, or Mary Brown, Henley 3-4011.

'Adopted Family' Plan

(Continued from Page 1)

toys, or money may be donated.

As well as contributing large quantities of clothing articles, food and toys, employees last year also distributed Christmas trees and decorations. A sewing machine and washing machine were given to two families, while several others received outright financial aid or grocery-purchase orders.

The NORTH ISLANDER

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850. 26 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

TELEPHONE EXTENSION 1475. Call this number to report news.

Contributions of news, features, pictures and cartoons will be gladly considered, and material submitted will receive careful handling. However, the NORTH ISLANDER assumes no responsibility for the return of material contributed. The editors reserve the right to make such corrections, changes or deletions in submitted copy as they deem necessary in conforming with the policy of the paper and of the Navy.

The opinions or statements made in articles published herein are those of the writers and are not, in any case, to be construed as official or as reflecting the views of the Commanding Officer or of the Navy Department.

Armed Forces Press Services (AFPS) material appearing in this publication may not be reprinted without the written permission of Armed Forces Press Service. Material in this paper may not be reprinted unless authorization is obtained from the editor.

THE COMMAND

Captain Walter F. Rodee, USN — Commanding
Commander Page Knight, USN — Executive Officer
EDITORIAL BOARD: LCDR H. I. Pemberton, USN, Public Information Officer; Howard Goode, Employee Management Relations Superintendent; John R. Samuelson, JOC, Editor.

LT. JOSEPH P. DRAZEK, (DC) USNR, left this week to take his place in civilian dental ranks. In general operative dentistry at the NAS Dental Department for the past 21 months, he entered the Navy in November 1948 at Boston Navy Shipyard. LT. Drazek, whose home state is Delaware, plans to continue his present residence at 914 D Ave., Coronado, and go into dental practice in that city. One Southern California winter convinced him that the East Coast is strictly for vacationing, and that is what he and his wife, Jean, also of Delaware, plan to do over the Christmas holidays. They are expecting a white Christmas . . . at least a wet and cold one.

By "WINDY" SPLICHAL

Deepest sympathy to the family of Russell Bayne, of radio shop. His funeral this past week was attended by many of his fellow workers and men and women of the North Island Service Post, American Legion.

The North Island Toastmasters Club meets each Monday at 7 p.m. in the North Park Lions Club. Recently H. T. (Jack) Spradley received a Certificate of Merit from the Toastmasters International upon completion of 12 Basic Training speeches.

The Cable Shop has been having lots of cakes and small celebrations of birthdays. This week's birthdays included Lucy Sanders, Buck Weaver and Edna Wheeler.

Get well wishes are sent to J. B. Stevens, Mildred Sevick, Jeannetta Kinser, and Charles Flower. All have been off sick for some time.

Tomorrow, June Baron of Bldg. 94, and your reporter, will leave San Diego for a trip to San Franciscto to greet the return of their husbands. The USS MT. BAKER has been touring Korean waters for the past 10 months. In my absence, Edna Wheeler will take over the writing of this column.

TRANSPORTATION Department employees were saddened this week by announcement of the death November 25, of Bea Rogers, popular worker in the Transportation office since 1947. Employed in civil service since 1942, she had been off the job ill for more than three months. Bea has been recipient of the many flowers from Transportation Department's monthly flower shows.

Busters Mixups Make Mixed Loop A Two-Team Race

Cramming on the coal for the stretch drive, first-place Pin Busters and second-spot Mixups have taken the dominant positions in the NACRA Mixed Bowling League. The Busters, topping all teams for high game two weeks running, and running the highest series Tuesday night, are two games in front of Mixups, who in turn lead third-place Just Us Five by a neat five games.

Mary Myers' 180 high game, and 478 high series for women, helped elevate the Woodpickers from the league cellar for the first time this season. It was her second straight week of "hot bowling."

JOKERS GAIN IN SCRATCH LEAGUE

Lazy Jokers and Layout moved up in Civilian 815 Scratch League standings this week. Jokers grabbed second spot from the Yankees, while Layout took a third place tie. Tool Room maintained its usual comfortable league lead.

FASRON 7 SAILOR ASSIGNED TO OCS

A. T. Ware, DKSN, was detached from Fasron 7 this week for assignment to the Officers' Candidate School, Newport, R. I. After successfully completing the course there, he will be commissioned ensign in the naval reserve.

The 25-year-old navy man is from Atlanta, Ga., and a graduate of the University of Georgia. He enlisted in the Navy August 20, 1951.

New Wage Raise Approved By WSB

The Commandant, Eleventh Naval District, has advised this activity the new schedule of wages for the San Diego-Oceanside Area was approved by the Wage Stabilization Board.

Typical examples of increases greated are: Laborer, $.03; Helper, $.06; Electrician and Machinist, $06.

The schedule is retroactively effective to 20 October 1952 for ungraded employees on the payroll as of 1 December 1952.

When the complete schedule of wages is received, it will be published in a future issue.

CIVILIAN POINSETTIA BALL QUEEN CANDIDATE GAINS MORE BACKING

Carol Knouse, electrician who puts in her day's work in Assembly Division, is gaining momentum daily in her quest of the title of Poinsettia Fiesta Queen of San Diego.

Nominated officially at the North Island American Legion Post's annual fall dance, Carol is gaining widespread support in the ensuing campaign for the coveted crown. A former Electronics Division employee, she is receiving enthusiastic backing from that direction, as well as from Power Plant Division, where her father, Don "Whitey" Knouse, is employed. One of the measures by which candidacy is judged is the amount of tickets to the December 16 Poinsettia Ball that the nominating group is able to sell. Post 753 members are pursuing this phase of "Princess" Carol's campaign industriously.

The big Poinsettia Ball, which will feature the coronation of the queen of the week-long Poinsettia activities in San Diego, will offer dancing to the music of ever-popular Lawrence Welk and his orchestra. Top beauties and popularity girls from the entire San Diego are will compete for the queen title.

JUST CHECKING on their candidate for Queen of the Poinsettia Fiesta, these Assembly Division men look in on electrician Carol Knouse. Nominated by the North Island Legion Post, Carol is naturally excited about the competition, but manages to put in her usual good day's work—so do apparently unoccupied quintet of men, picture was taken during coffee break.

CIVILIAN BLOOD DONOR Honor Roll

Employee Services announced that the following civilians volunteered to donate blood during the week of 24 November to 28 November for the NAS Civilian Blood Fund for use of civilian employees and their families.

W. E. McPHERSON, Acc. & Ord.	W. R. REID, Acc. & Ordnance
T. E. AMENT, Structures & Fin.	A. K. SPIEWAK, Struc. & Finish
J. L. McNEEL, Structures & Fin.	G. A. LITTLE, Structures & Fin.
R. R. PARROTT, Struc. & Finish	V. C. STEPHENSON, Struc. & F.
M. COLE, Structures & Finish	F. J. BLACK, Structures & Finish
H. LAWSON, Power Plant	C. TROJONOSKI, Power Plant
Mrs. L. E. SATRAN, Sup. & Fis.	C. S. SMITH, Supply & Fiscal
MARCUS LUNA, Metal & Mach.	C. L. SANDBORN, Public Works
F. F. BALL, Public Works	S. WEYER, Public Works
W. E. CURLIN, Public Works	R. L. CONLEY, Public Works
A. L. PUCCI, Sr., Public Works	J. J. PURSLEY, Public Works
E. C. GARROW, Public Works	O. MARSH, Public Works
C. C. DeMILLE, Public Works	D. M. ROGERS, Public Works

Number of Donations to NAS Blood Fund, Nov. 24 to Nov. 28....(22)
Number of Credits Available in Blood Fund, December 1.....(46)
Number of Blood Releases in Past Week.....(8)
Donor Days for December will be Thursday, 11; Thursday, 18; Tuesday, 23; Tuesday, 30.

Pierce, P&E Receives BuAer Award For Auxiliary Landing Gear Idea

Planner and Estimator Jean Pierce, was recently presented a $25 award from the Bureau of Aeronautics for his development of an auxiliary landing gear support for aircraft.

Previously he had received an award for the same idea from the NAS Committee on Awards, which forwarded his development to BuAer via the Navy Efficiency Awards Committee.

Pierce's development of an auxiliary landing gear support is used for SNB type aircraft when they experience landing gear fealure. The support allows the aircraft to be flown to overhaul points rather than be delivered by surface methods.

Civilian Vacancies

INFORMATION ON THE FOLLOWING MAY BE OBTAINED BY CALLING EXT. 1267 or 1268

CRITICTAL PER ANNUM VACANCIES AT THIS ACTIVITY

Electronic Mechanic
Carpenter
Machinist
Radio Mechanic
Aircraft Accessory & Equip. Repairman
Aircraft Elcetrical Repairman
Aircraft Glass and Plastic Worker
Aircraft Mechanic Instrument Repairman
Aircraft Optical Instrument Repairman
Aircraft Sheetmetal Lubricator
Aircraft Gyro Instrument Repairman
Aircraft Sheetmetal Repairman
Engineering Draftsman (Aero), GS-6
Engineering Draftsman (Gen), GS-6
Engineering Air (Electronics), GS-7
Physical Science Aid (Chem), GS-6
Technologist (Packaging and Preservation), GS-9
Engineering Air (Gen), GS-5
Physical Science Aid (Met), GS-5
Electronics Engineer (Gen), GS-9

OFF-STATION VACANCIES

Contract Specialist, GS-7, $4205 per annum at Consolidated Vultee Aircraft Corporation, Guided Missile Division, San Diego and Pomona, Calif. Closing date 22 DECEMBER 1952.

Aeronautical Engineer (Power Plant), GS-9, $5060 per annum, USNAS, Corpus Christi.
Aeronautical Engineer (General), GS-12, $7040 per annum, USNAS, Corpus Christi.
Engineering Aide (Aeronautical), GS-7, $4205 per annum, USNAS, Corpus Christi.
EXAMINATIONS ANNOUNCED BY THE BOARD OF CIVIL SERVICE EXAMINERS
Chief Quarterman, Engineman, $6056-$6926 per annum. Closing date 16 DECEMBER 1952 at the U. S. Naval Training Center, San Diego, California.

EXAMINATIONS ANNOUNCED BY THE U. S. CIVIL SERVICE COMMISSION
Statistician, GS-7, GS-9 and GS-11, $4205, $5060 and $5940 per annum. OPEN UNTIL FURTHER NOTICE.

CIVILIAN CAFETERIA

MENU FOR WEEK OF DECEMBER 8—DECEMBER 12

Monday

Split pea soup	.10 & .15
Swiss steak	.76
Cheese omelet	.65
Franks and German kraut	.45
Hot ham sandwich, mashed potatoes	.45

Tuesday

Vegetable soup	.10 & .15
Baked stuffed pork tenderloin	.75
Beef stew	.65
Ham and lima beans en casserole	.45
Hot beef sandwich, mashed potatoes	.45

Wednesday

Lima bean soup	.10 & .15
Baked halibut	.75
Pork chow mein	.65
Stuffed bell peppers	.45
Hot veal sandwich, mashed potatoes	.45

Thursday

Tomato and macaroni soup	.10 & .15
Veal and dressing	.75
Lamb stew en casserole	.65
Beef and noodles	.45
Hot turkey sandwich, mashed potatoes	.45

Friday

Clam chowder	.10 & .15
Grilled swordfish	.75
Corned beef and cabbage	.65
Macaroni and cheese	.45
Hot beef sandwich, mashed potatoes	.45

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

By Bill Mayer, Ext. 1045

Competitive Promotional Exams—(Leadingman and Quarterman).

Q. What percentage of applicants passed the last test in April 1952 as compared to the exams taken in spring of '48?

A. Approximately 65 percent passed the 1952 exam as compared with 88 percent who passed the 1948 test.

Since experience counts 60 percent of the total grade, are points only allowed for what is claimed in the 57 currently submitted—as an example, a journeyman carpenter with 12 years claimed experience, five of it as a construction foreman and just recently hired prior to exam, would in all probability receive a very high experience rating on points?

A. All creditable experience, whether civil service or private industry, is allowable and is counted in computing the final grade.

Q. Unless vouchers were actually sent out requesting verification of experience claims some very grave injustices could result. Could a person be placed on or near the top of a register without actually meriting that position partly due to claimed experience?

A. In some instances vouchers are sent out. However, in all cases the official personnel folders are reviewed and erroneous experience claims are normally detected when compared with applications and other experience records in the official file. Further, any falsified statements, if later detected, would subject the employee to possible serious disciplinary action.

Q. Why is it important to break down experience details on 57's?

A. In grading applications only what the employee states on his 57 can be considered in evaluating his experience. Therefore, sufficient detail of each job held, aids the rater in properly evaluating and grading the application.

Q. What is meant by quality of experience?

A. Quality of experience would be the breadth, scope and level of experience in a given position.

(Continued Next Week)

MAJOR GENERAL Ray A. Robinson, Commanding General of the Department of the Pacific, inspects the Marine Detachment aboard the Naval Air Station. General Robinson was aboard during the special inspection held here last Friday. He was accompanied by the members of his staff.

Revised ALF Ream-NAS Bus Service Sked Announced

A revised schedule on passenger service to and from ALF Ream has been announced.

Scheduled trips, Monday through Friday, have been established to eliminate the necessity of special trips between these two points by air station and AirPac personnel.

Vehicles used in this service will not pick up or deliver personnel at any point between the two activities except for the scheduled stops at the U. S. Naval Communications Station, Imperial Beach.

The complete schedule is listed below:

Leave	Arrive	Leave	Arrive
*0630 Bus	0700	0705	0735
0940 Suburban	1010	1015	1045
1130 Suburban	1200	1205	1235
1400 Suburban	1430	1435	1505
*1610 Bus	1640	1645	1715

*—Via U. S. Naval Communications Station, Imperial Beach.

MR. T. J. FLOOD is presented with his new rate of Foreman Utilities during ceremonies held Monday. CDR. R. M. Grower, presents the rate which makes Mr. Flood responsible for all utility systems except those relating to the electrical field.

Scheduled by NAS Organizations

To provide information on planned events, individual schedules will be listed weekly in this column. This service is available to all organizations aboard the Naval Air Station. Call IRD Employee Services Section, Ext. 694 to list events.

Tuesday, 9 Dec.—Civilian Armed Forces Blood Donation. Basketball, Pendleton vs. Skyraiders, 0800, NAS Gym.

Wednesday, 10 Dec.—VS-25 award of Commendations, 1000, Towers Field, followed by open house at hanger 312.

Thursday, 11 Dec.—Fasron 7 mid-winter party, 2000-0030, Balboa Park Club.

14-20 December—San Diego Poinsettia Week.

Saturday, 20 Dec.—Engineering, Industrial Management, Planning, Personnel & Administrative "Holiday Warm-Up" party. Buffet supper dance, Craftsman Hall, 3909 Centre Street. Music by Jack Bassett's band.

Thursday, Dec. 25—Christmas Party for children of deceased service personnel.

Xmas For Korea

(Continued from Page 1)

Signs at the bus stops will direct donors to the building.

Employee Services has tentatively set twelve appointments for every 15 minutes, from 0830 to 1315. This should allow quick service, with little or not waiting.

Coronado Chapter, American Red Cross, will as usual send its canteen unit to assist at the donation. They will serve fruit juice, coffee and doughnuts. Blood Bank personnel will handle the actual donations.

Donors are reminded that they should eat nothing for four hours prior to appointment time. Those who have late morning appointments—after 1000—should eat breakfast before coming to work.

Breakfast will be served at the Civilian Cafeteria, Building 243, until the regular lunch hour for those who give blood early in the day and miss breakfast. An appointment slip or donor card should be presented to cafeteria employees to be served.

Flying Every Type of Navy Plane, VR-32 Pilots Earn 'Travelingest' Title

"Travelingest" men of NAS San Diego can probably be found among the members of Air Transport Squadron 32. This squadron has the primary mission of safe and expeditious delivery of all types of Naval aircraft from factory, overhaul, or storage facilities to the fleet units of the Navy.

This often ranges from picking up an F9F at Beth Page, New York or an overhauled PBM in Seattle for delivery to Norfolk, Virginia.

As varied as are the tasks of the members of VR32 are the skills of its men. With a complement of 60 officer pilots, 21 enlisted aviation pilots, and 200 other enlisted men serving as flight crews and maintenance personnel, thes quadron is capable of flying and maintaining any type of aircraft built for Navy use.

The needs of the service designate assignments for the group. If a squadron is heading for Korea, the newest and best equipment ready at the factory anywhere in the United States is ferried to them at their port of departure. A steady stream of SNJ trainers are flown from storage areas to replace the ones in use by fledgling aviators at Pensacola, and other emergency or routine calls for aircraft at any naval air station are met by VR-32 crews.

When a pilot or crewman reports for a flight he is never quite sure where he will eventually go before he returns to the base here. A trip might start with a jet heading east, pick up a transport plane in route, change to a fighter-bomber at another station, and wind up with a helicopter on the way back.

Although routes of travel and stop-overs for fuel and overnight berthing are established by OPNAV instructions, the pilots may deviate from these if the safe and fast delivery of the plane is involved. With the exception of a few multi-engine planes all ferry flights are conducted during day light hours and only in contact weather. The usual trip in a jet may take only a day or two but they have been known to require as much as a month as in the case of an SNJ which was snowed in for 34 days in Seattle. And it is this unknown factor which often serves to make the men of VR-32 the "travelingest" of NAS San Diego.

PLOTTING TRIP—John W. Schliekelman, ALC (AP), Billy B. Strain, AD1 (AP), and LT J. T. Bibby, Personnel Officer, all VR-32 ferry pilots, compute air distances on the large map of the United States in the squadron headquarters. The pilots plan flight to pick up new aircraft at a plant and deliver them to an installation.

"I WAS CRUISING at 10,000 feet when . . ." Eleven of the 21 VR-32 enlisted aviation pilots swap stories about the Corsair, one of their most familiar planes. Pictured left to right: R. W. Skinner, AO1, H. J. Gordedier, AD1, Wallace L. Franchini, AO1, C. A. Wrightman, ADC, W. D. Rease, ACC, R. E. Carr, AMCA, (on wing), R. C. Randall, ADC, (above cockpit), R. W. Berger, AD1, B. B. Strain, AD1, R. L. Matthews, ADC, and G. R. Wrigley, ADC.

THE COVER-UP

A PADDED STORY OUT OF WHOLE CLOTH

by Moe Hair

In Shop 3107-2 (Upholstery and Canvas) sewing machines and power cutters hum as 25 women and 6 men combine their skills to produce both tailor made and mass production items of upholstery, sound proofing, and weather-production from a wide assortment of fabric and other materials.

Under the supervision of H. P. DuBose, leadingman upholsterer, the Shop 3107-2 "factory" uses ratings of upholsterers, sailmakers, and aircraft fabric workers. Many of the workers have spent long periods of service in the cut-and-sew business at North Island, the average length of employee tenure being six years.

Workers in this shop are at once versatile and specialized. They manufacture a wide range of items.

Manufacture is carried on in a variety of aircraft covers from light and heavy canvas.

The shop also manufactures cushions, backs, arm rests, and crash pads, working with both imitation and real leather, and stuffing with kapok, horse hair, or foam rubber.

These artisans also manufacture and repair sound-proofing for all types of aircraft in use by the Navy in this area, using spun glass material, and install this soundproofing in the aircraft.

The workmanship is fine, and production is kept at a high level. Like MacNamara's band, which was reputedly a credit to Old Ireland, the "Cover-Up" and "Padding" factory of Building 94 is a credit to North Island.

STEVE SOWINSKI, sews engine covers for P4Y's. In background, Robert Buck, also a sailmaker, assembles material for similar engine covers. Material is waterproof canvas.

GEORGE GAGNON, sailmaker, has been on the job over 15 years. He is seen (second picture down), cutting material for HTL Helicopter curtain. Upholsterers in background are stuffing crash pads.

RUBY BECK, upholsterer (below), operates electric cloth cutter through 12 thicknesses of heavy waterproof canvas.

OPAL MILLER, upholsterer (below, right), assembles material for aircraft seat cushion.

MARY CLEMENT and Susie Daron (below) fold fabric covers for control parts, preparatory to sending them to Fabric Shop.

Service Queen Candidates for Poinsettia Week

JANICE VAUGHN, 19, seaman apprentice of the Communications Department calls Port Matilda, Pa. home. She enlisted in the Navy in April of this year. Miss Vaughn is single and NAS is her first duty assignment.

ANITA R. ALLEN, 20, seaman apprentice, of the Information and Education Division hails from Fort Worth, Texas, and is single. The attractive Wave enlisted September 8th of this year and NAS is her first duty assignment.

BETTY STOUT, 24, teleman, seaman, of the Communications Department, hails from Collinsville, Illinois. She enlisted in the Waves in June of 1951. This is her first queen contest.

JOAN LEHMANN, 21, aerographer's mate, airman, of the Fleet Weather Central, is from Jefferson, Wisconsin. She is currently active as the "Snow Queen" in the AirPac "Operation Morale Lift." Miss Lehmann is single and enlisted in the Navy in January of this year.

IRENE EICHHORN, a teleman second class of the Communications Department, hails from West Warick, Rhode Island, and is a veteran of nearly eight years naval service enlisting in January of 1945.

Early Christmas Discharge for Some Navy Men

The Navy has promised Regular and Reserve enlisted men eligible for separation between Dec. 20, 1952, and Jan. 6, 1953, that they will be released no later than Dec. 19. In the case of those serving outside the continental United States, transfer for separation will be made in time to insure release by the Dec. 19 deadline.

The Marine Corps will follow the same policy but it will apply only to those serving in the U. S. or its territories.

Coast Guard Headquarters announced that no Coast Guardsmen would be discharged early because of the holidays.

Communications Division

JOAN LEHMANN ☐
Fleet Weather Central

JANE RUSSELL will appear with Scott Brady in "Montana Belle" at the station theatre Tuesday and Wednesday next week. Miss Russell is currently making "Gentlemen Prefer Blondes" with Marilyn Monroe at 20th Century-Fox.

Trading Post

RIDE WANTED—From the vicinity of College and Streamview. 0645 to 1515 shift. See W. G. Robbins in Shop 3375-1 Bldg. 90.

RIDERS WANTED—From vicinity of Sunnyslope Heights, El Cajon, 0800 to 1630 shift. Will consider car pool. If interested please contact Hadding, PN1, at ComNabs Personnel Office, Room 112, Bldg. 8A.

RIDERS WANTED—From vicinity of 34th and Adams or enroute to Harbor Parking lot. 0715 to 1545 shift. Call T. Roglaski at T-1-8002.

RIDE WANTED—From vicinity of Helix High in La Mesa, 0730 to 1600 shift. See R. E. Bouton, O&R Bldg. 5, Apprentice School, or phone H-6-2318.

RIDERS WANTED—Two riders wanted, from vicinity of Encanto to North Island via Market St., 0645 to 1515 shift. Call Lagasse at M-4-2768 after 1700. Or see him at Shop 3280.

"DO YOU WORRY? Do you have dandruff, nervous aches and pains? Benny Sugg can arrange financial relief with cash awards for good ideas. Send in your beneficial suggestion today."

RIDE WANTED—From the vicinity of National Ave. and E Streets, Chula Vista, via the Strand or Star & Crescent Ferry. 0745 to 1615 shift. Call Mark A. Sleeper at C. V. 9590.

RIDE WANTED—From vicinity of National Ave. and H Street in Chula Vista. 0800 to 1630 shift. Call H-3-4358 after 1800.

RIDER OR DRIVER WANTED—To join car pool from Chula Vista via the Strand on the 0800 to 1630 shift. See Chet Regler at Shop 363, Bldg. 94.

RIDE WANTED—From 2178 Mullinix Dr., Bldg. 35, Coronado Homes to the Naval Air Station, 0730 to 1600 shift. Call Lois Gilliland, H-3-4077.

RIDER WANTED—To El Paso, Texas. Will leave Dec. 12. Call M-4-6889 after 5 P.M.

Queen Mother. Queen Wife Elected by Returning Sicily

A Queen Mother and Queen Wife reigned over the homecoming festivities of the escort carrier USS SICILY yesterday when it arrived from her third tour of Korean duty. The carrier was the first CVE to complete a third Korean tour.

Queen Mother, Mrs. Fremont Bowman of Cornwall Heights, Pa., and Queen Wife Mrs. Edward S. Colby of 473 Garfield avenue, El Cajon, Calif., were selected while the ship operated in the combat zone off the west coast of Korea. All expenses for the two are being met out of a fund raised by the 1500-man crew for the homecoming event.

Idea of the double Queens was born when the men voted for what they wanted most when the ship returned to the States. Single men voted for their mothers to meet the ship and the married men voted for a "second honeymoon" in Las Vegas. Since all could not do what they wanted two men were selected to share the wishes of all.

"Mother" Bowman was flown from her home in Pennsylvania to be in San Diego for the arrival. She and her son, seaman John F. Bowman, received a free flight back home where young Bowman will spend 30 days leave.

"Wife" Colby and her husband chief radioman Edward S. Colby, received an all expense paid flight to Las Vegas for their second honeymoon at the Desert Inn Hotel.

Commanded by Captain Almon E. Loomis, 536 "J" avenue, Coronado, Calif., the SICILY was in the Far East area just short of seven months. During this time she conducted anti-submarine exercises with Air Anti-Sub Squadron 931 and operated with the famed Marine "Checkerboard Squadron" based aboard as a unit of the U.N. Escort and Blockading Force. Aboard ship on her arrival at NAS was RADM C. E. Eckstrom, Commander Carrier Division 17, and his staff, and VS 931 commanded by CDR Francis V. Kenney, of 59 LaVern street, Long Beach.

Infirmary Annex Opens Dec. 1

(Continued from Page 1)

of the Infirmary Annex have been the Grey Ladies and Nurses Aids trained by the Coronado Chapter of the American Red Cross. These volunteer workers are wives of naval personnel residing in the area. They provide much needed assistance to the Navy Doctors, Nurses and Corpsmen, and they work on an entirely voluntary basis with no pay.

The new medical facility is under the direction of CAPT H. G. Shepler. The Annex is planned to give medical attention to an estimated 30,000 military dependents in this area.

Captain's Cup Lowdown

By W. R. SMITH

The Structure Bowling team rolled their way to the Captain's Cup Bowling championship last week with but one defeat marring their near perfect record. Competing in nine contests the Structure keglers were dumped by the Special Services team for their only defeat. The winners will receive individual trophies for their efforts along with the perpetual team trophy which they gained possession of until next kegling season.

Boathouse finished second with 7 wins and 2 losses, and Metal Machine ended up in the third spot.

Basketball

The basketball season gets under way this Tuesday with 15 teams competing for laurels. With so many teams on the agenda, two leagues have been formed to insure equal competition. The American league is comprised of seven teams while the National league bolsters eight. A play-off will be held between the winners of the leagues for final Captain's Cup honors. From all indications a well matched season is in the offing.

POINTS . . . Captain's Cup points for this year at the end of touch football and bowling season stand at:

1	Supply	125
2	Metal Machine	210
3	Special Services	210
4	Boathouse	200
5	GCA	200
6	Planning	195
7	Marines	180
8	Structures	130
9	Inspection	100
10	Ordnance and Torpedo	90

'Raiders Meet Beasley's Tonight; Campen, El Toro Scheduled Next

BOB COOK No. 31 . . . 6' 3" . . . Center. Bob's basketball history consists of three years of varsity basketball at Cottage Grove High School in Oregon. After graduation, he attended the University of Oregon and played on the freshman football team there.

Naval Air's winless Skyraiders dropped their 5th and 6th games of the season last weekend as they bowed to Los Alamitos and Ventura College on successive nights.

Los Alamitos' collegiate aces threw the book at the 'Raiders as they walked off with a 121-68 decision Friday night at Los Alamitos. The Skyraiders played their best ball of the season in the first half, but Los Alamitos, missing a total of three FIELD GOALS, still led 59-33 at the halfway mark.

Former Long Island U star Hal Uplinger swished 25 points in leading the victors' attack. Big John Oliver bagged 15 in pacing Naval Airs' assault.

Much to the delight of a capacity college crowd, Ventura College's Pirates captured a 79-64 victory over Naval Air Saturday night in the Ventura Gym.

Trailing 42-28 at halftime, the Skyraiders put on a third period spurt which pulled them to within seven points of the Pirates. However, Ventura cooled the 'Raiders from there on and held onto a comfortable lead.

The Skyraiders will meet Beasley's of San Diego in a non-conference game in the NAS Gym tonight at 2000. Tuesday Dec. 9, they battle Camp Pendleton at the NAS Gym, and Thursday, December 11, the 'Raiders travel to the El Toro Gym.

Tuesday night the Airmen lost to PHIBPAC 79-57 here at Naval Air.

BERNARD HANCEY—No. 22 5' 11" GUARD. A Skyraider veteran of last year's squad, Hancey will see a lot of action at the regular guard position with Naval Air this coming season. He attended the University of Utah after graduation from High School in 1949 and was a member of the Utah frosh team of 1949-1950. At Davis High School in Kaysville, Utah, Berny was nominated to the All-Conference and All-State teams. He lettered in basketball two years at Davis High. Hancey's vigorous drive in play, along with his brilliant set-shot abilities, will aid Naval Air immensely throughout the coming season. Berny is 21 years old.

Wave Bowling Schedule

Dec. 18	Pendleton	Here
Jan. 15	El Toro	There
Jan. 22	MCDR	Here
Feb. 5	NTC	Here
Feb. 19	Pendleton	There

Air Pac Sports

By MARSH JOHNSON

It's our opinion that the biggest boost the Skyraider Cagers could get would be for Coach Kenneth Anderson to spend a little more time in the lineup.

Trailing by 14 points at halftime against Ventura, Coach Anderson entered the game at guard and injected a drive into the 'Raiders which we haven't seen since the season began. At one point in the third period, they had sliced the Pirate margin to seven points.

The boys looked like they actually wanted to win during that period. Incidentally, the coach played three years of varsity with the Nebraska Cornhuskers in '47, '48 and '49.

Comedian Joe Hamernik, who spends more than a little of his time entertaining the Skyraider Cagers, also played a little basketball for them against Ventura the other night. Making his debut in the second quarter, he brought a big rise out of the Ventura co-eds when he pumped in six points before we had even noticed his bench spot vacated.

Although we haven't had the good fortune of hearing Joe and Jim Bird in their "Sylvester the Cat" routine, we understand it's top-flight entertainment.

Bird turned in a sparkling performance against Ventura as he registered 19 points to lead team scoring for the night. He hit a total of 343 last year with the 'Raiders.

Little John Kapnis also played his usually fine game as he kept the Big White's floor game moving with his aggressiveness. He received a terrific ovation from the Ventura fans for his hard play when he fouled out late in the fourth period.

Don't forget to attend the Skyraider-Beasley game tonight in the NAS gym. Game time will be 2000.

Reliability Run Re-Scheduled

The scheduled November 23rd Knuckle Busters Reliability Run was postponed until December 7 because of rain. So it is still not too late to enter the event.

Any person at NAS San Diego is eligible to enter and by capable driving may win the first place trophy. Service and civilian personnel have been invited to enter this unique contest of driving skills, based on proper observance of traffic safety rules.

GLORIA PETRIK jumps high to sink one for the WAVE Naval Air Skyraiders as the girl basketeers beat the Women Marine Corps Recruit Depot five by a score of 31-15. The WAVES took the lead right from the start and held on to it until the very end.

Wave 'Raiders Belt MCRD Battle Campen Tuesday

The "WAVE" Skyraiders successfully opened their 1952-1953 basketball season recently against the Women Marines from MCRD. The girls held a comfortable lead throughout the entire game and came out on the winning side of a 31-15 score. The contest was played at the Point Loma High School Gym.

High scorers for the evening were Margaret Gingher with 12 points. The defense was sparked by Kay Donohue and Gussie Stedman. Stedman showed great versatility by playing both offense and defense.

On November 25 the Naval Air "WAVES" lost to the girls from the Naval Training Center 39-21. The next game on the WAVES schedule is December 9 against the Camp Pendleton Women Marines.

Poinsettia Bowl Game Sked At Balboa Stadium December 20

Local football fans will be treated to one of the nation's outstanding post-season tilts on December 20 when the first annual Poinsettia Bowl game is staged at Balboa Stadium between top-ranking teams of the Navy or Marine Corps and Air Force or Army. This will be a world-wide Armed Forces championship event climaxing the civic celebration of Poinsettia Week.

In the Poinsettia Bowl it will be the powerful Naval Training Center Bluejackets and the Bolling Air Force Base gridders.

Currently, Bolling Air Force Base and the Naval Training Center are ranked first and second in national ratings of armed forces elevens, on a level with such college powerhouses as Oklahoma, Michigan and Minnesota.

Rosters of the service leaders indicate that more nationally famed stars will compete in the Poinsettia Bowl classic than in any other post-season clash. The field includes Al Dorow (Michigan State), Wilbur Jamerson (Kentucky), Walter Kevay (Ohio State), Melvin Groomes (Indiana and Detroit Lions), Bill Wade (Vanderbilt), Jim Monachino (UC and 49ers), Verl Lillywhite (USC and 49ers), Bob Boyd (L. A. Rams), and Breck Stroschein (UCLA and N. Y. Yankees).

The Bolling Air Force Base "Generals" have downed such powerful teams as Syracuse University 13-12 and the Quantico Marines 13-7. The one and only team that the Air Force "Generals" have lost to was Fort Eustis by a score of 7-0. Through November 22, Bolling has rolled up 243 points and have held their opponents to a mere 53. The Training Center gridders have pushed over 456 points and have had only 68 points scored against them.

Corner on Sports

By John Phillips

Skyraiders Belt Edwards Air Force Base 43-6

The Naval Air Skyraiders ended the 1952 gridiron season in fine fashion by downing the Edwards Air Force eleven 43-6 at Murdock, California, Saturday. At first it looked as if the duel might be a close one as an Air Force gridder sprinted 90 yards for a score early in the first period to tie the game at 6 all. From here on in the Airmen had everything their own way as Pete Steel broke loose up the middle for 60 and 40 yards and two Skyraider touchdowns. A pass from Hulsey to Jack Bighead in a play that covered 60 yards provided another six points for Coach Johnson's eleven. Small spunky Rual Hernandez rang up the next score by cracking over the double stripe marker from 10 yards out. The 'Raiders held complete control of the contest as both the running and aerial attacks clicked.

MCRD Bows to Powerful Naval Training Center

It was a sad afternoon for the Marine Corps Recruit Depot eleven as they lost to the Naval Training Center "Boots" in a hard fought, close battle at Balboa Stadium. The Naval Training Center lost no time in scoring. After taking the MCRD kickoff and running it back to their own 30-yard marker they cut loose with a pass play that covered approximately 70 yards for the first score of the game. Even this backbreaking start failed to weaken the spirited Marines as they bounced back and kept the NTC gridders on fairly even terms for the remainder of the contest. It was the tricky running of Posey and Waddell combined with the power plunges of Monachino that spelled defeat for the Marine Corps Recruit Depot. The Training Center took the lead from the very beginning and held on throughout the game to win 27-21.

NAGA Golfing News

This month's Monthly Ace Mystery Tourney will be held at Caliente on December 3 thru 12. It will consist of medal play, and all golfers from NAS or Ream regardless of whether or not they have handicaps are eligible to enter the match. The winners will be published next week.

All golf team captains are urged to check the score cards of their opponents before turning them into the golf range.

Team match results will be published in the next issue of the North Islander.

84% Volunteer In Blood Drive

Over 1000 Men Offer Blood in Thursday Armed Forces Effort

How Ream Field's men remembered Pearl Harbor yesterday! And how they remembered their comrades on the fighting lines of Korea! Climaxing of Ream's whirlwind Blood Donor campaign, more than 84 percent of the officers and men volunteered.

The dramatic scene unfolded after morning quarters yesterday, as in small groups the men trickled from the hangars and offices joining and joking with others along the walkways, then en masse down the streets of the diminutive airfield, the crowds swelling all the way to the Ream Dispensary. There the Mobile Blood Units, Doctors, Nurses, Red Cross workers hurried to process the hundreds.

As the afternoon shadows lengthened across the air strip, they still came to donate their blood and the tired nurses stayed and tapped life-saving blood of these men.

Late last night. it was unofficially reported that the number of pints of blood collected had exceeded 600. All of this blood goes to the Armed Services and is already being processed on its way to the fighting fronts.

A factor in the staggering total of blood collected was the surprising number of Navy wives and sweethearts who appeared at the South Bay Field to donate their pints of the life-saving fluid to the Navy.

After the whirlwind campaign which sparkplugged ALF Ream's Blood Donor Drive, a word of praise should go to CDR W. G. Knapp, USNR, Commanding Officer of Helicopter Anti-Submarine Squadron Four.

35-Year Navy Career Climaxed With CPO Appointment

Utility Squadron THREE's MAA of Barracks 61, Henry Kerswill, Jr., BMI, was recently promoted to BMC to become effective December 16.

Henry enlisted in the Navy October 8, 1917, and received his recruit training at Norfolk, Va. From that date until the present, "Boats" has served aboard battleships to tugboats and from Training Centers to Air Stations.

Kerswill recently celebrated his fifty-third birthday and thirty years of married life. He is a member of the Masons, for eight years belonging to the Blue Lodge Military Service Lodge No. 570 in San Francisco, and the 32nd Scottish rites on Guam.

VU-3 Nabs Ream Ping-Pong Title

VU-3K cinched the ping-pong championship of Ream by defeating HS-2 in the three out of four matches played.

Samples defeated Parrish, of VU-3, 21-19, and 21-18. LT Snellman bested Goff, HS-2, 21-18 and 21-19. Arcobello won from Baugh, HS-2, 21-17 and 22-20. The VU-3K team of LT Snellman and Arcobello defeated Samples and Baugh, HS-2, 21-19 21-19, to win the doubles match and the title.

VU-3 Briefs

By A. J. MARKS, POSN

Congratulations to the squadron for over 80% participation in the Blood Donor Drive. Also a pat on the back to Henry Kerswill for being promoted to Chief Petty Officer. LTJG R. E. Odgers is giving to the men of the squadron lectures on the Atomic bomb and survival if it should ever occur.

ANNUAL INSPECTION TUESDAY, 9 DEC. Also, let's get together and see that the orphans that the squadron adopted have a merry Christmas.

The VU-3 bowling team looks like a winner, as does the prospective volleyball team which will get under way next month.

The squadron basketball team will enter a team in a new league, composed of the other squadrons stationed at Ream, and VU-7 and VC-11, based at North Island. Games will be played in the station gym, starting at 1900.

Jack Anderson, of the Ordnance Shop, was transferred to Hawaii for duty. Bill English, Howard Hope, Wes Hays, Keith Deibler, are playing for Lachowski's Ream Sage team. Anthony Bianconi, I&E Office, is now called the minute man between San Diego and Santa Ana. It seems the Christmas cards he sold to the crew will arrive at the last minute. Craupman, AO1, Chesher, ATAN, and Sorenson, AN, are all contenders for the bowling team. They all mow down the keys with 180 averages. Did you see the two beautiful gals posing for pictures down in the squadron area? VU-3K made "All Hands" and "Navy News" take a look.

Kick in one dollar, one hundred pennies, or more, for our own orphans to give them a happy yuletide.

REAM Border Lines

ALF REAM — SAN YSIDRO, CALIFORNIA

GIFT WRAP—Mrs. G. L. McLean, wife of Captain Gordon L. McLean, Mrs. W. M. Webber, Mrs. B. E. McMullin, and Mrs. L. E. Knight, (shown left to right) provide a special service for the personnel at Ream Field. From now til Christmas time they will wrap and prepare for mailing all gifts brought in by station personnel. The service is located at the Enlisted Men's Club.

Know What a Swizzle Stick Is? Just Ask LCDR 'Jake' Payson

G. A. "Jake" Payson, currently the material officer for HS-2, and recently promoted to lieutenant commander, has just recently readjusted himself to the life of the Navy after a seven year stint as a civilian. During these years he built up his own lucrative advertising business. He was engaged in the manufacture of wooden swizzle sticks and tooth picks for consumption by small bars and beaneries under the trade name of "Adpix" which is copyrighted.

Jake began his naval career when he received an appointment to the Naval Academy at Annapolis. He attended the Naval Academy for two years and then entered the flight training program. Throughout the war, to October of 1945, he flew multi-engine aircraft in various types of duties.

LCDR Payson remained in touch with the Navy by flying in reserve squadrons and AAU's, finally joining the first reserve helicopter squadron on the East Coast, Helicopter Squadron 911 based at Boston. His interest in the whirly birds stems from the helicopter training he took as a civilian under the GI Bill of Rights.

Finally, recalled to active duty, this year, he preferred and received his billet in a helicopter squadron.

Again we say congratulations, Commander.

VU-3 Plans Xmas Party, Parade for Needy Children

Utility Squadron 3 is planning an outstanding Christmas party for underprivileged children or orphans from the San Diego area as guests of the squadron.

December 18 the children will gather in the Mess Hall and be treated to lunch as well as ice cream, candy, and other goodies. After chow time is over, they will parade to the Fire House, where decked out in his finery will be Santa Claus. Santa will greet all the kids and lead them over to the station theater for a half-hour of their favorite cartoons.

LT Snellman, Special Services, and the Enlisted Recreation Committee should be congratulated for planning such an ideal day for the kids, who won't forget the kindness of all those who contributed to this worthy cause.

TOYLAND is now open and operating in the Navy Exchange. From dolls to trains and from toy trucks to games, Santa's Toy Shop is open for business. Hours at Toyland are 0800 to 1600. Well stocked for the Christmas needs of all hands, the Ream Field Exchange store will feature gifts for all members of the family.

Ream Boxers and Groaners Crowned

The Ream Field Boxing and Wrestling teams were decided last week with the champion crowned in each division for title matches with North Island next week.

The Boxing Team will be represented by the following champs: V. Hall, HS-2, featherweight; E. D. Dabrowski, VU-3, lightweight; J. D. Dantzler, HS-2, junior welterweight; L. C. Ttchison, HS-3, welterweight; Van Bergman, HU-1, junior middleweight; N. C. Miller, VU-3, middleweight; J. E. Thorton, HU-1, lightheavy; and L. E. Curbo, HS-4, heavyweight.

The grunt and groan champions have also been selected to represent Ream in the playoffs. F. L. Holman, HS-2, 119 lbs.; B. Vandagriff, HS-2, 126 lbs.; D. L. Franer, VU-3, 129 lbs.; Q. Zuhlke, HU-1, 140 lgs.; M. McCarthy, HU-1, 148 lbs.; J. W. Goff, HS-2, 160 lbs.; V. Sumner, HU-1, 174 lbs.; W. H. Mason, 190 lbs.; and C. Wenbourne, HS-2, 220 lbs.

FINAL VU-3K SCORING PARADE

Answer to Puzzle

ROK CNO VISITS NAS

The NORTH ISLANDER
U.S. NAVAL AIR STATION

VOL. VIII SAN DIEGO, CALIFORNIA, DECEMBER 12, 1952 No. 50

ADMIRAL Won Yil Sohn, Chief of Naval Operations for the Republic of Korea Navy, is shown inspecting the NAS Marine honor guard, shortly after his arrival at the Naval Air Station, Tuesday morning. CWO Ross E. Varnum, assistant officer-in-charge of the NAS Marine detachment, accompanies the top-ranking Korean naval officer.

Admiral Won Yil Sohn Tours Station, Chats With Civilian Workers

Shrilling boatswain's pipes, ruffles and flourishes, the Admiral's March, and a 15-gun salute announced the arrival on the Air Station Tuesday of Korean Chief of Naval Operations VADM Won Yil Sohn.

On hand to greet the ranking Republic of Korea naval officer were flag and staff officers of all major naval commands in the San Diego area.

Promptly at 10:05 a.m. the Marine R4D carrying the Admiral taxied to the ramp at the operations tower. Following brief introductions and greetings to old friends among the assembled top Navy officers, Admiral Sohn inspected NAS Marine honor guard.

Motorcycle escorts then led the visiting CNO on a tour of various station installations. Accompanied by VADM H. M. Martin, ComAirPac and Captain Rodee, Admiral Sohn first visited a panther jet on the ramp by the Overhaul and Repair hanger where the work of that section was explained by the officer-in-charge.

A trip through the power plant division workshop showed steps taken in the overhaul of aircraft

(Continued on Page 6)

"BOMBSHELL FROM BROOKLYN"—Featured attraction with the Xavier Cugat orchestra will be sultry singer Abbe Lane. The hour-long stage show at the Naval Air Station will include Los Barrancos, Eddie Garson, Jose Wong, Juan Guerrero, Carmencita, El Gringo and Diablito. Story on page two.

New Harbor Drive Parking Rules Told

Due to congested traffic conditions in the Harbor Drive Parking Lot, it has become necessary to establish a new procedure for regulating the issue of permits, and the manner in which the parking area is controlled, it was announced this week.

Commencing January 1, 1953, NAS personnel who are eligible to park in this area will gain admittance with an **"Authority to Park"** card which entitles them to purchase a monthly **"Parking Permit"** for a fee of $1.00 per month.

All parking permits and stickers previously issued will be voided on January 1, 1953.

The Employee Cooperative Services Council, it was disclosed, has contracted the services of a patrol agency to perform the following work:

1. Supervise parking of authorized cars.
2. Collect monthly fees.
3. Keep lot clear of broken glass and debris.
4. Patrol lot constantly for car prowlers.
5. Aid parkers, in any way possible, having car trouble.
6. Keep all **unauthorized** parkers off premises.

Employees qualifying for parking privileges must agree to pay the $1.00 per month fee to defray expenses, and must also agree to abide by all parking regulations. The patrol agency will provide adequate parking directors between 0600 and 0800 and will maintain a constant security pa-

Captain Makes "On Job" Benny Sugg Presentations

Two O&R Dept. civilians received cash awards this week as result of ideas they submitted under the beneficial suggestion program. CAPT W. F. Rodee, made the presentations Monday when he personally inspected the industrial equipment resulting from the ideas the two men submitted.

Receiving an award of $110, J. O. Reel, Auto Mechanic, Plant Div., devised a large thermos tank trailer with a capacity of 150 gallons of preservation oil, used in aircraft protection. The tank, an "oversized" thermos bottle, keeps oil, which is previously heated in Bldg. 17, available for immediate use. The thermos tank replaces an old tank which required preheating of oil before each use. Mr. Reel's development will result in an estimated annual savings of $3,250.

An award of $275 was presented to M. J. Carrow, Aviation Motor Mech., (Snapper) of Power Plant Div. Mr. Carrow proposed a means

(Continued on Page 2)

CAPT W. F. Rodee examines aircraft engine part which incorporates a development devised by M. J. Carrow, of Power Plant Div., for the reclaiming of worn aircraft parts. Shown l. to r.: CDR A. E. Paddock, Assistant O&R officer, LT H. J. Gilfoil, Assistant Power Plant Div. officer, Mr. Carrow, Kenneth Winship, Ldgman. AAM, CAPT Rodee, and CDR M. T. Wells, IR Officer.

MICHAEL W. McCASKILL, 15-months-old son of LT and Mrs. Matt L. McCaskill Jr., was christened at ceremonies held at the Naval Air Station Chapel last Saturday. Chaplain Dohrmann performed the ceremony. LT McCaskill is stationed at NAS with VS-892.

Watch Out for "Holi-Daze"

And now December again—gay, exciting, colorful, cheery, heartwarming, and DANGEROUS—for, in this most celebrated month of the year occur more motor vehicle accidents than in any other.

Of course, in many sections of the country, Old Man Winter—with his potent season's brew of snow, sleet, ice, and rain—comes in for a large share of the blame for this unhappy fact. He has however, an able ally in his dirty work—HOLI-DAZE—a very persistent, dopey fellow who is ever seeking out his victims among the jostling holiday throngs on streets and highways; at gay parties and gatherings where "Christmas cheer" flows freely and long; and through the crowds of weary, last-minute shoppers scurrying frantically to and fro.

Over 90,000 Americans, it is estimated, will be injured or killed in traffic accidents during this danger month of the year.

So, to all Navy personnel, civilian and military, drivers and pedestrians alike — keep alert. Make safety your watchword this holiday season. And—

Don't let HOLI-DAZE spoil your holidays.

Chaplain's Corner

"Universal Bible Study"

This Sunday, 14 December is designated as "Universal Bible Sunday." This year, with the publication of the Revised Standard Version of the Holy Bible, we mark a new high in the level of Bible interest.

For years the Holy Bible has been the "best seller." Now the new Revised Standard edition is such a fast seller that printers have been unable to supply the demand. Have you ordered your copy?

How regularly, do you read the Bible? How long has it been since you have sat down and, to yourself and for your own benefit, read from the Bible? If you have found some difficulty in gaining understanding, try reading the new edition. You will be surprised with its readability.

As stated in the "Preface" of this new edition, "The Revised Standard Version is not a new translation in the language of today. It is not a paraphrase which aims at striking idioms. It is a revision which seeks to preserve all that is best in the English Bible as it has been known and used through the years. It is intended for use in public and private worship, not merely for reading and instruction."

The need for a revision of the English translation of the Holy Bible arises from two sorts of facts: First, the older Translations contain many archaic and obsolete words and forms; Second, a great many manuscripts have been found which makes possible a better text than was available to earlier translators.

Read the Christmas narrative as recorded in St. Luke's Gospel chapter two.

LEONARD B. DOHRMANN
Chaplain U. S. Navy

VFW To Hold Dance For Servicemen Dec. 23

General Henry D. Styer VFW Post and Auxiliary will hold the third in a series of dances for enlisted personnel at the VFW Hall, 6th and Orange Avenue, Coronado, Tuesday, December 23rd.

All enlisted personnel are cordially invited. For those without dates there will be Junior Hostesses. There will be entertainment; Santa Claus will pay an official visit. Refreshments and music for dancing will be furnished by the Marine Recruit Depot Band.

Benny Sugg Awards

(Continued from Page 1)

of salvaging crankshaft roller bearing liners used in R1830-94 engines by applying an .005 inch thickness copper plating to the outside diameter of the bearing liner, followed by a flash tin plate. This builds up the outside diameter of the bearing to permit a positive fit in the engine case. These bearings were formerly replaced with new stock at a cost of $539.50 each. The development of this idea will result in an estimated annual savings of $24,950, the Industrial Relations Department announced. The suggestion was forwarded to the Navy Office of Industrial Relations, Washington, D. C., for further consideration.

'Adieu to Lou'

Lucille "Lou" Dasbach, PR-2, well known Wave here at NAS for the past four years, has received her orders to the Naval Air Auxiliary Station, Kingsville, Texas. Lou, one of the most active Waves aboard the station, has been attached to the Operations Department since December 1948 where she rigged, packed, and inspected parachutes.

During the preparations for the 1952 Navy Relief Carnival, Lou sold a staggering total of 2525 tickets for the drawing on the automobiles given away.

Among the projects which she was instrumental in starting were the Wave's Bowling League, the welcoming committee for incoming ships, and other recreational projects.

Cugat Show Free To Military Families

Xavier Cugat and his orchestra, featuring Abbe Lane, the "Bombshell from Brooklyn," will be at the Naval Air Station theater from 7 to 8 p.m. Saturday, December 20th, and at the Officers' Club from 9 to 12 p.m.

The hour-long show at the station theater will be open to all military personnel and their dependents on a first come, first served basis.

There will be no admission charge for the stage show nor the movie which follows. There will be no 1800 movie that night.

Oncley Paces Scratch League

Carl Oncley, of Machine Shop, roared to a 255 top game and a high series of 581 to top all 815 Scratch League bowling efforts last Friday at Pacific Recreation.

Tool Room compiled the highest team series with 2514, maintaining its first place momentum, while runner-up Lazy Jokers scored the top team game with a 913.

CDR EARL "JUDGE" COLLINS, Legal Officer, was detached Wednesday and has received orders to report to the First Marine Division in Korea as Judge Advocate for the Division. CDR Collins has served as Station and StaffComNABS 11th & 12th ND Legal Officer since July, 1949.

Annual Christmas Cantata To Be Presented Next Friday

The North Island Chapel choir, under the direction of Arthur D. Sale, will present its annual Christmas Cantata at the chapel next Friday at 2000. A cordial invitation is extended to all service personnel and their dependents as well as civilian employees to attend this solemn observance of the Christmas event. The cantata, "Christ is the Hope of the World," was composed by Ward Stevens. The choir of 40 voices will also include several outstanding soloists.

The NORTH ISLANDER

The NORTH ISLANDER is published Friday of each week in the interest of Military and Civilian personnel of Naval Air Station, San Diego, California, in compliance with SecNav letter 49-850, 28 Nov. 1949. The NORTH ISLANDER is printed without expense to the government, in a commercial printing plant in San Diego. Costs of publication are paid from the Military and Civilian Recreation funds.

TELEPHONE EXTENSION 1475. Call this number to report news.

Contributions of news, features, pictures and cartoons will be gladly considered, and material submitted will receive careful handling. However, the NORTH ISLANDER assumes no responsibility for the return of material contributed. The editors reserve the right to make such corrections, changes or deletions in submitted copy as they deem necessary in conforming with the policy of the paper and of the Navy.

The opinions or statements made in articles published herein are those of the writers and are not, in any case, to be construed as official or as reflecting the views of the Commanding Officer or of the Navy Department.

Armed Forces Press Services (AFPS) material appearing in this publication may not be reprinted without the written permission of Armed Forces Press Service. Material in this paper may not be reprinted unless authorization is obtained from the editor.

Winners Named in N.I. Association's November Safety Slogan Contest

"CARE MAKES MISHAPS RARE," says JO ROBBINS of the Public Works Department. Those words of wisdom were awarded $2.50 apiece in the North Island Association safety slogan contest for November, subject: Good Plant Housekeeping.

C. M. TRANTHAM of O&R's shop 5122-1 submitted the following wry but right slogan to walk off with second place honors in the contest, a year's membership in the NIA:

"Good Housekeeping is a MUST for November — It's a 'Fall' Month!"

HENRY J. DANIEL of the Plant Division of O&R emphasized the personal aspect of Good Plant Housekeeping while taking third place and a year's membership in the NIA with:

"Pick It Up—It May Bring YOU Down."

Judges Al Quicker, Kirby Vaughan, John Curry, Chris Huber, and J. R. Griffing (contest chairman) state that the interest and participation evidenced in this contest was very pleasing but will probably be surpassed by the current contest which emphasizes Holiday Safety.

With the feeling of Thanksgiving for our safety and all our blessings lingering in our hearts, let's consider the dangers in the home, shop or office, as well as on the streets and highways during the wonderful holidays to come. The best and most important things in our lives are based upon the spirit of and the reason for Christmas and upon the resolutions toward improvement in the New Year. Surely one of those resolutions should be directed toward working, playing and living safely during the holidays and during the year to come so that we'll be in good condition for next Christmas to mean even more to us. Participation makes winners of all of us so how about jotting down your idea for Holiday Safety on the entry blank and dropping it in the nearest Beneficial Suggestion box?

Josephine Robbins

Drop in Beneficial Suggestion Box

HARVEY A. GRIESY, quarterman, is one of a small and select group of North Island civilians who can recall events on the Naval Air Station when it was quite young, in 1921. He is pointing to a picture of himself and a group of Naval Air shipmates, taken in Panama City while on the famous 1921 flight of North Island planes to the Canal Zone. Wm. H. Roberts, Master Mechanic, holds the "cruise album" while he and Alvin T. Parvin, Shop Planner, (center) help Griesy recall events of that year on NAS. Book was probably the oldest illustrated publication about North Island in existence.

Civilian Vacancies

INFORMATION ON THE FOLLOWING MAY BE OBTAINED BY CALLING EXT. 1267 or 1268

CRITICAL PER DIEM VACANCIES AT THIS ACTIVITY

Aircraft Mechanic General
Aircraft Mechanic Rubber
Auto Mech., Body and Fender
Drop Hammer Operator
Gas Welder
Electronics Mechanic
Machinist
Metalsmith, Aviation
Radio Mechanic

CRITICAL PER ANNUM VACANCIES AT THIS ACTIVITY

Engineering Draftsman (Aero), GS-6
Engineering Draftsman (Gen), GS-6
Engineering Aid (Electronics), GS-7
Physical Science Aid (Chem), GS-6
Technologist Packaging and Preservation, GS-9
Engineering Aid (Gen), GS-5
Physical Science Aid (Met), GS-5
Electronics Engineer (Gen), GS-9

OFF-STATION VACANCIES

Training Supervisor, $5230 to $5560 per annum at U. S. Naval Ordnance Test Station, China Lake, California. AMENDMENT Closing Date 1 DECEMBER 1952.

Medical Records Librarian, GS-5, $3410 per annum at the U. S. Naval Hospital, San Diego, California. Closing date 20 December 1952.

Welding Engineer, GS-12, $7040 per annum in the Bureau of Ships, Washington, D.C.

Electronic Mechanics, $16 to $17.28 per diem (5 vacanies) at the San Francisco Naval Shipyard, San Francisco, California. Open until 16 December 1952.

Electricians, $15.52 to $16.80 per diem (15 vacancies) at the San Francisco Naval Shipyard. Open until 16 December 1952.

Fiscal Accounting Clerk, GS-6, $3795 per annum at the Naval Supply Center, Oakland, California. Open until 16 December 1952.

Machinists, Inside, $15.52 to $16.80 per diem (15 vacancies)
Ordnance Engineer, GS-11, $5940 per annum
Rubber Workers, $15.04 to $16.32 per diem (5 vanacies)
Physicist, GS-9, $5060 per annum
Tabulating Equipment Operator, GS-3 $2950 per annum
Tabulating Equipment Operator, GS-3 $29.50 per annum
Tabulating Operation Supervisor, GS-4, $3175 per annum
Tabulating Equip. Operation Supervisor, GS-5, $3410 per annum
Tabulating Project Planner, GS-6, $3795 per annum
— Vacancies at the San Francisco Naval Shipyards, San Francisco, California. Open until 16 December 1952.

Engineering Air., (Civil), GS-5, $3410 per annum at the Naval Air Station, Alameda, California. Open until 16 December 1952.

Engineering Draftsman (General), GS-6, $3795 per annum (2 vacancies) at the Naval Air Station, Alameda, California. Open until 16 December 1952.

Board of U. S. Civil Service Examiners—Examinations Announced

Competitive Promotional Examination for Leadingman, Aggregate Materials Plant, $4284 to $4825 per annum at Camp Pendleton, California. Closing date 29 December 1952.

Shop Learner (female only) Examinations $1.35 to $1.47 per hour. Open until further notice at the U. S. Naval Station, San Diego, California.

CIVILIAN BLOOD DONOR Honor Roll

Employee Services announced that the following civilians volunteered to donate blood during the week of 1 December to 5 December for the NAS Civilian Blood Fund for use of civilian employees and their families.

R. W. KIRK, Structures & Finish
C. T. BONNEY, Structures & Fin.
B. H. SILVER, Assembly
R. H. McCULLOUGH, Assembly
Mrs. G. OCCHIONERO, S&F
J. N. GONZALES, Struct. & Fin.
C. F. Warner, Assembly
W. MOONS, Assembly
Mrs. G. MILES, Supply & Fiscal
H. R. HARDIN, Metal & Machine

Number of Donations to NAS Blood Fund, Dec. 1 to Dec. 5.....(10)
Number of Credits Available in Blood Fund, Dec. 8.....(46)
Number of Blood Releases in Past Week.....(30)

Through the generosity of civilians, the Blood Fund is beginning to creep up beyond the "danger zone." However, the daughter of an employee was in a bad accident and has need of considerable blood; and the mother of another employee is using one two to pints of blood each week. KEEP UP THE GOOD WORK!

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

By Bill Mayer, Ext. 1045

COMPETITIVE PROMOTIONAL EXAMS (Leadingman—Quarterman) Continued.

Q. If a person desires to appeal a rating on what basis or what could affect a grade change?

A. No specific answer can be given. Each individual case differs. However, if no additional information from that originally presented in the Stanard Form 57 is presented, it is extremely doubtful that any grade change would be made.

Q. Any general information explaining why "Mandell" testing system is used?

A. No local information available.

Q. Why was it necessary to use a more difficult test this last exam?

A. The examinations are established by the Navy Department and Civil Service Commission. No reasons are available as to why the tests were changed. Although it is reasonable to assume that refinements in the testing have been made based on past experience by the Navy and Commission in administering such tests.

Q. Why can't an Employee know his position on an examination register list?

A. Such information could prove misleading to the employee. Register standing changes due to possible grade adjustments resulting from apepals, addition of names of returning veterans who reopen examinations, and the restoration of eligibles who previously temporarily suspended their eligibility.

STATION NAMES POINSETTIA QUEEN CANDIDATES

Miss Janice Beverly Vaughn, 19, a seaman apprentice assigned to the Naval Air Station's Communications Department, was selected to represent the Air Station on the basis of a contest sponsored by the "North Islander." Youngest of five sisters, Miss Vaughn hails from Port Matilda, Pennsylvania. She is 5′ 8″ tall, weighs 128 pounds, has brown hair and hazel eyes. Life-long ambition to join Waves realized upon enlistment in April 1952. Admittedly a "career Wave," Miss Vaughn is an accomplished pianist with over 10 years experience. Among her hobbies she lists swimming, softball, horseback riding and skating her favorites. Prior to enlisting in the Waves, Miss Vaughn graduated from Port Matilda High School and was employed as a payroll clerk at Pennsylvania State College.

Green-eyed Carol Knouse who has been selected to represent the Naval Air Station in the competition for civilian Queen of the Pionsettia Week festivities, will be 19 years old on Christmas Day. Carol, who was born in Kansas City, Kansas, has been working at NAS for over a year. She is 5′ 3½″ tall and weighs 107 pounds. She is thrilled to have been chosen as a candiate and admits an enthusiasm for growing poinsettias in her backyard. She graduated from Grossmont High School in 1951 and includes dancing among her many hobbies. Carol would like to thank the people on NAS for the wonderful support they have given her in the contest. She can be seen on television Monday night on Channel 8, on the Harold Keen show.

Queen To Be Selected on Eve of Poinsettia Ball

North Island's civilian entry in the Poinsettia Fiesta Queen contest, Carol Knouse, will appear on local television station KFMB-TV Monday evening at 7:30, with other contestants. Following this appearance, she will be among guests of honor at a dinner in the Manor Hotel, where the final judging for queen honors will be held.

Entrants will be judged on their beauty, poise and pulchritude, plus the measure of support that they have received from their sponsoring organizations. The winner will reign at the Tuesday evening Poinsettia Ball, at Mission Beach Ballroom. She will be officially crowned by Lawrence Welk, leader of the galaxy of musical stars which are scheduled to provide the dance music for the evening.

Similar judging will be held Monday for the military queen, Janice Vaughn representing Naval Air Station, at the San Diego Chamber of Commerce Building, at 8 p.m. There will be six candidates, one each from the several major shore establishments of the San Diego area.

Queens will also reign at the Saturday Poinsettia football game at Balboa Stadium.

North Island personnel are urged to get their tickets for the Poinsettia Ball early, and back their candidates for queen by their attendance.

Pinbusters Hold Uneasy Lead in NACRA Loop

Mixups, Just Us Five, and Happy Five all gained on NACRA Mixed League bowling leaders, the Pinbusters, in Tuesday's competition. The 'Busters are now just one game out in front of the "Mixers."

John Allison, of Just Us Five topped male scorers for individual games, with a 211, while Leo Stone led the faltering Easy Aces with a 545 high individual series.

It remained for Mary Myers, the lady with the 158 average, to spark the Woodpickers to new heights and send them soaring out of the league dungeon, into seventh place above the Question Marks. Her 202 and 579 once more brought her the high individual game and series rating of the week, the latter mark breaking her own season's high for the league.

Santa Announces Early Visit To Station For Dependents' Party

Children of all military personnel stationed at the Naval Air Station are in for a treat Sunday, December 21, when Santa Claus makes an early appearance at the station theater at 4 p.m.

Headlining the all-star show appearing with the be-whiskered old gent will be Roy Hogsed, star of the Smokey Rogers radio and television show, "King" the wonder horse and "Keeno" famous trick "coach dog" with their trainer John Sonney; "Hector and His Pals," which features nine trained dogs in various comedy routines, and Homer Snow and his trained musical seals, pelican and penguin.

Extra added attractions will feature the Rolling Robinsons with the mother and father performing intricate routines on rollerskates which are duplicated by their son and daughter, and Huey the Clown.

Before the show begins at 4 p.m. Huey will be in the audience with various tricks for the small fry and will perform his clown magic on the stage.

Included in the bag of tricks set up by Santa for the children's pleasure are dances by King the Wonder Horse, and Keeno's imitation of a small child in a baby carriage, the "copy cat" seal that does everything the other seals do, and the tricky capers of Hector's nine dogs as they do all the things their trainer says he wishes they knew how to.

And of course anyone who has ever seen a circus knows the wonderful antics of the clowns. But although many youngsters have become pretty capable on rollerskates themselves, they can't imagine the intricate turns and glides that can be performed on the flashing wheels until they've seen the Rolling Robinsons.

Set a date now for Sunday afternoon at 4, December 21, to attend the gala party at the station theater.

'52 HUNTING, FISHING WINNERS NAMED

Karmazin's, Wells' Deer, Bubel's Marlin Take Top Tournament Prizes

Cash awards were presented Tuesday afternoon to the winners of the 1952 Civilian Fishing and Hunting Tournament. Top money went to William R. Karmazin, Shop 5191, O&R Production Control, and John W. Wells, Shop 5222-2, O&R Assembly, for the largest deer registered from within San Diego County, and outside the county, respectively. Karmazin's 192 pounder, and Wells' 189 pounder, brought each of them $25.00.

Second prize money ($10.00) went to Frank A. Gwazdacz, Shop 4264-2A, Electroncis, O&R, for a 155 pounder, and Edward M. Vercauteren, Shop 3291-H, Production Control, O&R, for a 126 pounder in and out of the county respectively.

BUBEL GETS TOP MARLIN

Ray Bubel, Shop 362, Engineering, O&R, won first prize money for marlin swordfish ($5.00) with a 173 pounder. Second money ($3.00) went to B. W. Hamilton, Shop 8089, Plant Division, O&R.

Yellowtail prize money went to Claude Brightwell, Shop 2100, Repair & Flight Test, O&R, and L. D. Woodward, Shop 3270, Metal & Machine, O&R, with a 30 lb., 4 oz. and a 19 lb., 4 oz. catch respectively.

R. B. Cowen, Bldg. 65, Supply & Fiscal, took both prizes for lake trout, with a 6 lb. Loch Leven, and a 5½ lb. Mackinaw.

E. J. Brown, Shop 411A, Planning Group, O&R, topped stream trout competition with a 17 oz. catch.

Blind bogey prize was taken by Johnnie Gramoy, Shop 6248, Power Plant Div., O&R. It was his second blind bogey win in three years.

The annual Civilians Hunting and Fishing Tournament is conducted by the Civilian Welfare and Recreation Association, through the facilities of the Employee Services Office, Bldg. 415.

Prizes were presented by Roscoe T. Morse, of the Welfare and Recreation Association at a special meeting of the winners at Bldg. 415 Tuesday afternoon.

TO BE RIGHT READ COLUMN RIGHT, PAGE 3.

THESE TWELVE beauties are the May 3 catch of E. J. Brown Shop 411A, Bldg 94. His tournament winning stream trout is the largest of this catch. Pine Creek, San Diego county, was the location.

"THAT MARLIN was this long"—comments Ray Bubel, while Bill Karmazin explains how he brought down his four-point buck. The two are seen with C. W. and R. Hunting and Fishing Tournament prize winners and judges, just after the prize money was distributed Tuesday.

$9,223.83 CHECK FROM NAS AIDS LAGGING "FEATHER" DRIVE

CAPT A. M. HURST, Assistant Chief of Staff for Administration, receives Naval Air Station's $9,233.83 check for the Community Chest—Red Feather fund from LT S. J. Husted, NAS Station Secretary. Check was delivered last Friday.

Naval Air Station's contribution to the badly lagging San Diego Red Feather Fund Drive, a check for $9,223.83, was delivered to the Eleventh Naval District headquarters last Friday, on the first step of its way to aid the 56 worthy agencies for which the "Feather" fund is compiled each year.

Boy Scouts, crippled children, YMCA, YWCA, girl scouts, campfire girls, boys' clubs, church welfare agencies, Salvation Army, USO, and numerous other groups will benefit from the donations, made by NAS civilian and military personnel during the recent United Fund Drive.

New Wage Rates For Civilians

New schedule of wages for NAS per diem employees effective 20 October 1952, was released yesterday as follows:

Group II	1st Step
Apprentice:

BULLETIN

Federal law does not permit civil service employees to hold two federal positions concurrently. NAS employees who are making applications for part time employment at the post office are urged to discontinue this practice.

Civilians Prepare For Eighth Annual Christmas Tree Contest

Cash awards will be made by the Civilian Welfare and Recreation Committee for Christmas trees and scenery displays symbolic of Christmas which have been decorated and constructed by civilian personnel in shops and offices. Winning trees and scenes will be selected by a Contest Judging Committee, 22 and 23 December.

The contest will be grouped in three classes: Class A (trees only) limited to shops or offices of 25 employees or less, Class B (trees only) open for competition to all shops or offices of more than 25 employees, Class C (scenery displays) open to all competition, regardless of number of employees.

Prizes to be awarded for each respective class are as follows: first prize, $25.00; second prize, $15.00; third prize, $10.00. Contestants who have displays may enter both the tree and scenery classes, but no shop or office will be awarded more than one prize.

Points of judging will be originality, decorations, lighting, beauty and thought and effort. No Christmas tree shall be erected on the station until a permit has been obtained from the Fire Prevention Office.

Judging will be made by the Senior Chaplain and a committee appointed by the Station Welfare and Recreation Committee Chairman. The class of entries to be judged must be registered in the Employee Services Office, not later than 1600, 18 December.

150 ANSWER CHRISTMAS FOR KOREA CALL

One hundred and fifty civilians volunteered for Tuesday's blood donation at the blood mobile by Bldg. 255, for a special "Christmas for Korea" call. One hundred and four pints of blood were actually given the other prospective donors being rejected for varied reasons, including sore throats, low iron content in their blood, and so on.

Departments and divisions which exceeded their quotas of volunteers included: Supply & Fiscal (47), Structures & Finish Division (33), and Public Works (11).

Others wishing to donate in this special drive for blood for fighting men in Korea may do so by going to the San Diego Blood Bank Tuesday, Friday, or Saturday. They should contact their supervisor, who will notify Employee Services Office, and make arrangements, thereby assuring that NAS will receive credit for the additional donation.

ROK CNO Visits NAS Tues.

engines. Admiral Sohn displayed interest in the different phases of the assembly line methods used in the shop and stopped to talk with various civilian technicians.

Through the airframes building where aircraft were receiving their final assembly, and along a line of re-assembled plane engines the Admiral was shown operations of that section. In fluent English he questioned young women working in the shops and remarked that he would like to show the Korean women how American women work with men in all types of industry.

The three-star motor caravan then proceeded along the East Beach and around the perimeter of the station touching at the Seaplane Ramps, Finger Piers, Skeet Ranges and Erdmann Beach, and past the Supply area back to Admiral Martin's quarters.

Following luncheon Admiral Sohn departed for a similar tour of the Amphibious Base.

Scheduled by NAS Organizations

To provide information on planned events, individual schedules will be listed weekly in this column. This service is available to all organizations aboard the Naval Air Station. Call IRD Employee Services Section, Ext. 694 to list events.

14-20 December—San Diego Poinsettia Week.

Saturday, 20 Dec.—Engineering, Industrial Management, Planning, Personnel & Administrative "Holiday Warm-Up" Party. Buffet supper dance, Craftsman Hall, 3909 Centre Street. Music by Jack Bassett's band.

Sunday, 21 Dec.—Dependents Christmas party, 1600, NAS theater.

Thursday, Dec. 25—Christmas Party for children of deceased service personnel.

New Harbor Drive Parking Rules Announced

(Continued from Page 1)

trol until 0100 the following morning, five days a week. On Saturdays a patrolman will be on duty from 0600 to 1600, or whenever shifts are working.

Department heads will allocate parking spaces to employees on a preferential basis in the following order:

1. Physical handicap (walking restriction).
2. Distance to public transportation.
3. Number of passengers carried.
4. Seniority of service.
5. Previous permit holders.

An eligible employee will be issued an "Authority to Park" card which he will remain until termination of employment or revocation of parking privilege. A coordinator, appointed for each department, will have the responsibility of issuing "Authority to Park" cards and recall them from terminating employees, and will be help accountable for the number of spaces assigned.

To prevent over-issue and maintain close control of eligibles, only as many "Authority to Park" cards will be issued as there are spaces available in the lot. Loss of a card by an employee must be reported in writing before a new card will be issued. Terminating employees must turn in their cards to their department coordinator before they are released.

NAS personnel issued an "Authority to Park" card will present it to the patrol guard at the parking lot entrance the first of each month, along with $1.00 to purchase a parking permit, valid for one month. The following month another parking permit of different appearance will be issued.

ALLOCATION PROCEDURE

The following allocation of parking spaces for NAS departments and other unit entitled space is based on a prospective ceiling-complement percentage:

Department	Civilian % of Ceiling	Civilian Spaces Allocated	Military % of Ceiling	Military Spaces Allocated
O&R Dept.	72.63	726	35 646	36
BuAer Maintenance Repr.	.086	1	0	0
Administration	.172	2	10.452*	10*
Communications	.204	2	3.834	4
Dental	0	0	.685	1
Industrial Relations	.830	8	0	0
Medical	.280	3	2.419	2
Operations	.021	1	18.804	19
Public Works	8.70	87	9.585	10
Security	.61	6	6.618	7
Supply & Fiscal	11.11	111	9.128**	9**
Transportation	2.92	29	2.829	3
ComAirPac	.023	1	0	0
Com. NAB 11 & 12 ND	.097	1	0	0
C O Reserve	.506	5	0	0
Navy Exchange	1.78	18	0**	0**
	99.978	1001	100.00	101

*For Military Personnel the Administration Department includes Executive (X-19), COM (Closed) (X-21), Special Services (X-23), I&E (X-24), and PIO (X-25).
**For Military Personnel the Supply & Fiscal Department includes Navy Exchange.

CPO Club Hold Happy Hours Each Tuesday With Bingo

Chief Jelinski, manager of the CPO Club, announces that a weekly "Happy Hour" will be held each Tuesday evening from 1930 to 2100 in conjunction with the weekly Bingo games.

MITZI GAYNOR will co-star with Scott Brady in the "Bloodhounds of Broadway" at the NAS Theatre next Sunday and Monday.

Skyraiders Belt Beasley's, Bow to Camp Pendleton, 45-36

Coach Kenneth Anderson's improving Skyraiders singed the nets for 40 second half points to crush the Beasley Rockets, 60-44, in their first victory of the season last Friday night at the NAS Gym.

Facing a 30-22 deficit with six minutes remaining in the third period the Big White caught fire and pulled up to a 35-35 tie as the period ended. Then, in the final stanza, led by the smooth teamwork and shooting of Bob De Long, Cliff Bilyeu and Jim Bird, Naval Air, buried the previously unbeaten Rockets 25-9 to turn the game into a rout.

The Skyraiders held only a 41-39 lead with five minutes remaining and, at this point, the team went into the "Anderson Freeze" in an attempt to control the ball during the remaining time. The "Freeze" was so effective, however, that the 'Raiders were found wide open near the basket time after time. They took advantage of the situation and racked up 19 points in the fading minutes to snap a seven game losing streak.

Guard Don Bergman played an exceptional second half, controlling floor play and setting up many scoring plays. Coach Anderson moved Bob De Long into a forward post for the game and the former guard responded with an 11 point output to lead individual Skyraider scoring.

SCORE BY QUARTERS

NAVAL AIR	6	14	15	25	60

FREE THROWS MISSED: Stevenson 1, Bird 2, Oliver 5, Kapnis 1, Bilyeu 2, De Long 3, Hancey 2, Bergman 1, Anderson 1.

'Raiders Lose to Pendleton

Building an eight point lead in the second quarter the Camp Pendleton Five went on to defeat the Navl Air Skyraiders 45-36 here at the NAS Gym. At the end of the first quarter of play the score remained at 2-2, then the Marines broke out in front and remained there for the rest of the contest.

ROBERT BELTON . . . No. 24 . . . 6' 2" . . . Forward. Another Skyraider veteran of last season, Bob's 6' 2" is being heavily counted on by Coach Anderson to give the 'Raiders an added height advantage during the current season. Bob played during the '50-'51 season on the Georgia Teachers College frosh team after his graduation from High School and then joined the Navy in 1951. While at Eustis High, Belton lettered three years in basketball and, in his senior year, averaged 17 points a game to win a berth on the All-District team.

"Old Folks" Still Playing to Win

Milford H. "Old Folks" Alexander, AD1, who made numerous sports headlines at the Naval Air Station, San Diego, in recent years is now serving in the Korean combat zone aboard the aircraft carrier USS Kearsarge. He bosses a crack maintenance crew for Composite Squadron THIRTY-FIVE Detachment FOX, a night-attack unit which operates Douglas Skyraiders.

Included in Alex's wide sports background are two seasons with the NAS Fliers football team in 1948 and 1949. He held down end position and also coached during the latter season. He was a teammate of one of the air station's all-time football greats, fullback Don "Cakey" Baker.

A versatile athlete and strong competitor, Alex's booming bat helped the NAS Fliers baseball team in 1948-1949, and his fielding and "willow-work" with the softball team through the same two seasons kept the naval air gang near the top of the 11ND League in that sport.

In addition to these varsity competitions, "Old Folks" participated vigorously in the Naval Air Station Captain's Cup Athletic Program. Two dozen trophies acquired over a four year period attest to his athletic prowess.

His final athletic accomplishment before leaving for the Korean Theater in August of this year was to help the North Island based VC-35 touch football team win the Fleet Air West Coast Championship.

The strong competitive spark that made Alex a standout among athletes at NAS, San Diego, is very much in evidence as he and his shipmates team up for a more serious game. The VC-35 Detachment FOX is fast gaining the reputation as a pace-setter for Air Group-101 aboard the Kearsarge. During a recent one-month tour off the Korean coast, VC-35 led all units of the air group in availability of aircraft. Only one plane missed a scheduled hop during the entire 30-day period.

"Old Folks" still hates to finish second best.

SPORTS

Airman Boxers Score In Y.M.C.A. Championship

The Naval Air Skyraider Boxing squad captured runner up team honors in the annual Armed Services Y. M. C. A. boxing championships last Friday, December 5, here in San Diego. Winning four individual titles the Skyraiders bowed to the tough Naval Training Center boxers 34-27. The Bluejackets battlers won five individual titles to take top honors.

Flyweigh — Clarence Jones (NTC), unopposed; bantamweight —Willie Lewis (NTC) df. Don Carter (USS Princeton) default; Featherweight—William Faulkner (NTC) df. Ray Mildanberger (Skyraiders), tko. 2nd; lightweight—Larry Bergeron (Skyraiders) dec. Richard Robinson (NTC); junior welterweight—Ray Lancaster (NTC) df. Robert Freeman (Skyraiders), tko 3rd; junior middleweight—Paul Brown (Skyraiders) dec. Mike Henderson (NTC); middleweight — Sonny Ingram (MCRD) dec. Captain's Cup Lowdown

By W. R. SMITH

Starting out with their best foot forward the Electronics quintet downed the Boathouse crew 55-30 in the initial contest of the Captain's Cup basketball league which got underway Monday at the mainside gym.

The 42 hundred squad jumped to a 27-15 margin at the intermission and then came back in the second half to double their scoring efforts and cop the contest in a walkaway style. The twigets sharpshooting, left forward, Wakefield, peppered the net for 28 points to top both teams in scoring. Aside from setting a blistering scoring pace Wakefield also played a strong floor game and fed his teammates for many scoring chances. Ramsey, the winner's other forward, garnered 10 points to come within two markers of the Boathouse men's Groveshon, with 12 points for the number 2 scoring slot.

Continuing into the second day's play, the Electronics team ran into a redhot Special Services squad that treated them to a 72-43 defeat.

Cox, Pink and Yerby combined their talents for 48 digits to provide the SS lads with a large bulge on the scoreboard. Wakefield again showered the hoop with a barrage of shots that netted him 21 points and the individual scoring laurels for the second day in a row.

In the 1200 finale the Power Plant men emerged victorious in a 44-39 contest over the Ordnance gunners. At press time for the North Islander no further results of contests were available.

'Raider Wrestlers Open Season Against Barstow

Opening the 1952-53 season with what looks like an extra strong squad the Naval Air Skyraider Wrestlers battle the Barstow Marines here at the NAS Gym on Thursday, December 18. The matches are scheduled to commence at 1100 and run into the afternoon. With four of last year's squad returning for action it looks like a strong season for the 'Raiders. Under the careful guidance of Coach Cote the team started on a rugged training program several weeks ago.

The prospective Skyraider wrestlers are as follows: Tessier, Medward, FAU, weight 205 lbs. from Royal Oak, Michigan; Rippel, Robert W., weight 210 lbs. from Los Angeles, Calif.; Walter, Lonnie E., NAS, 198 lbs., also from Los Angeles. Wilson, Charles, FAETUPAC, 108 lbs. from Torrence, Calif. Delgado, Richard, FAETUPAC, 121 lbs. from San Diego, Calif. Hill, Jerry, FAETUPAC, 128 lbs. from Saint Francis, Kansas. Rual Hernandez, AIRPAC, 150 lbs. from Gardena, Calif. Faynik, Theodore, FAU, 195 lbs. from Joliet, Ill. Gonzales, Louis, VP-42, 160 lbs. from Los Angeles, Calif. Castelman, Bob, VC-35, 165 lbs. from Detroit, Texas. Wilson, Walt, FAU, 165 lbs. from Granite City, Ill. Davis, George, FAU, 165 lbs. from Los Gatos, Calif. Ellis, William, VF-791, 175 lbs. from Inglewood, Calif. Tidall, David, Fasron 7, 136 lbs. from Wood River, Ill. and Bratsch, Roger D., O&R, 191 lbs. from Danube, Minn.

airpac's sportlight

By Marsh Johnson

While observing the Skyraider Varsity Basketball team drop eight of their first nine games, we have kept notes showing us what, now, and why things happened as they did.

In all, the Big White has rung up 464 points for a game average of 51.5. All opposition have compiled 631 total points in these nine games for an overall game average of 70.1.

Naval Air has scored 138 while missing 88 charity tosses for an average of 61%. They have donated 295 free throws to the opposition which was converted into 181 points for a 61.3 shooting average.

Leading scorer Bob Stevenson has attempted more free throws (28) and made more (19) than any teammate to help push him into the Individual Scoring lead.

INDIVIDUAL STATISTICS ON SKYRAIDERS

	FG	FT	FTA	Fouls	T.P.
Stevenson	19	19	28	22	57

Naval Air's Skyraider gladiators were edged out of the YMCA Boxing Championship by NTC, 34-27, in the San Diego YMCA last Friday. 'Raider Paul Brown won the top fight of the evening by decisioning NTC's Mike Henderson in the junior middleweight class. Teammates Larry Bergeron and Frank Harte scored the other Skyraider wins.

The Skyraider Bowling Team (No. 1) defeated NTC, 3-1, last week and is now tied for second place in the 11th ND Bowling League with an 8-4 record. In this series they hit an actual 1033 for a brilliant 207 average per man to register one of their hottest streaks of the season.

In intermurals the FAETUPAC pugilists emerged as ComFair S.D. Boxing Shampions when they defeated REAM FIELD Tuesday noon. FAETUPAC'ers E. X. Meredith, J. N. Rich, C. J. Samsill and L. G. Snyder all scored victories to bring the Championship to FAETUPAC.

After dropping the first game of the Basketball Playoffs, 63-51, Monday, NAS MIRAMAR bounced back Wednesday noon to swamp VU-7, 76-51, at Miramar to knot the tourney at one all. Orchard and Ingram led the winners in their surprise comeback with 25 and 22 points, respectively.

'Raiders Named To Star Squad

Although not a one of the Naval Air Skyraiders was named on either first string lineup in this year's Coaches All-11th Naval District all-star selection, Big Jim Dowling, guard and line-backer, became the first and only man yet to be named to both offensive and defensive squads.

Six offensive and six defensive billets went to the professional-studded championship lineup of the Naval Training Center; MCRD, Pendleton and PhibPac garnering all of the remaining spots on the two first teams.

HS-4 Seeks Top of Golf League

HS-4's excellent intermural golf record this season shows only one loss to VU-7 and four wins. In second place, the team may move into first after their match with VS-892. Matches are usually held at the Tijuana Country Club. Team members above, left to right: W. C. Kuhl, AD1; L. L. Lockenour, AN; T. A. Carson, AN; LTJG E. H. Smith, ENS B. Olson and R. W. Tanner, AKC (team captain). Chief Tanner was formally a member of the NAS Varsity team.

Meet the Exec

LCDR Brissette is XO of Navy's Largest 'Copter Sqdr.

LCDR Kenneth L. "Breezy" Brissette took over the duties of Executive Officer, HU-1, back in July of this year. Being the exec. of HU-1 is no small job, since it is the largest helicopter squadron in the Navy and the only one participating in the Korean action.

LCDR K. L. Brissette

Mr. Brissette is originally from Cloquet, Minnesota, the state that seems to furnish about a third of the Navy's pilots. And is married to the former Miss Virginia Walsh of Yankton, South Dakota; he has three children, Gary 9, Jacqualine 6, and Colleen 3.

"Breezy" entered the Navy way back in June 1936 as an enlisted man and entered flight training at Pensacola, Florida in June of 1941. He was commissioned October 1943, and saw action in the famous MIDWAY, NUMDA, LEYTE, LENGAYEN and PALAU World War II engagements.

Brissette received his helicopter training at Pensacola, Florida and from there he went, as officer-in-charge, to HU-1 Detachment One, which is based at Oppama, Japan.

Like most aviators, "Breezy" thinks a desk job is fine, but likes flying much better.

HS-4 Holds Crew Picnic

On Friday, November 28, all hands of HS-4 took leave from the squadron area to gather en-masse at the Ream Field Recreation Area for a fun packed HS-4 picnic.

There was no shortage of food or refreshments or many good times. The highlights of the days activities was the humorous softball games and an egg throwing contest, which featured plenty of bad yokes.

Although the picnic was not as elaborate as those held in the past, it was not evident by the faces of the officers and men who participated in the days outing and proclaimed it an outstanding party.

REAM Border Lines

ALF REAM — SAN YSIDRO, CALIFORNIA

SAINT NICK MAKES EARLY TRIP via HU-1 helicopter to USS PHILIPPINE SEA (CV-47) from North Pole.

Yuletide Brings New Duties for HU-1

As the Christmas holidays draw near, military as well as many civic organizations prepare for Christmas parties for the children of San Diego, Calif.

This year, as in the past, Helicopter Squadron ONE has been snowed under with requests from various organizations to bring Santa Claus to their parties by helicopter. The first of such requests was carried out in December when LT Ben Leathers, a Korean veteran, flew Santa aboard the aircraft carrier USS PHILIPPINE SEA (CV-47).

The ferrying of Santa from his North Pole home is no problem for the 'copter squadron. For transporting the red-suited, bewhiskered, distinguished gentleman has been and continues to be a favorite pastime of HU-1's pilots.

As the requests for the "toting" of Santa are received, members of HU-1 wonder if Santa has turned modern by "scraping his sleigh and turning his reindeers to pasture in favor of the helicopter."

Utility Squadron Three Holds Annual Inspection

Last Tuesday, 9 December, Utility Squadron Three was the subject of their Annual Administration and Material Inspection, with CAPTAIN G. A. McLean, USN, Commander Utility Wings Pacific, leading the inspection party.

After inspecting nearby Border Field, home of VU-3K KD units, CAPTAIN McLean and CMDR C. Evans Jr., joined VU-3K Commanding Officer, CMDR C. D. Huston, Executive Officer, LCDR R. F., Hobson, Administrative Officer, LCDR W. A. Stevens, for the inspection of VU-3 personnel at Ream Field.

Divided into six sections, one and two in Dress Blues, three and four in Undress Blues with neckerchief, and five and six, Officers and Chiefs, in Dress Blues, Section one was selected to march in review and Section three stood by their lockers for inspection by the barracks inspector.

The squadron has pointed toward the Annual Inspection and is confident of a Well Done, for its effort.

HOWARD "Snooky" Hope, star guard on the VU-3K cassaba crew, will lead his teammates in the new night league against HU-1, HS-2, HS-4, Ream Tower and Operations, and VC-11 from North Island. All cage tilts will be played in the Ream Field Gym.

VU-3 Takes HU-1 In Night League Tilt

After their usual slow start, VU-3K bested HU-1, 67 to 59, to win their second start in the New Night League played in the station gym.

It was a spirited game with tempers on edge, mostly between the players and the referees. The VU-3 hoopmen missed the basket repeatedly until the fourth quarter when the Dronemen got their fast break working and outscored the Rotors by 15 points, with English and Hope doing yeoman service.

VU-3 Briefs

Congratulations to the Squadron for the fine showing in the Annual Inspection last Tuesday. To date, there are 641 men in the squadron, including VU-3 personnel overseas and aboard ships. Francis Laverne Peters, YN2, shortly leaves for the Naval School of Justice in Newport, Rhode Island. Herman Vollerson, SN, keeps a Diary. It's not about him, but concerns everything that goes on in the squadron. Also, Kay Fong, YNSN, reads other people's mail. He's not really prying into other people's affairs, but he handles all incoming mail to the Skipper or to the Squadron. Tom Daley and Neal Clark are two new additions to the Line. Tom is Plane Captain of No. 11, and Neal assists Sufficool on the Jet. The next quarter of sports will feature Volleyball, Handball, Badminton and Bowling, so all prospective athletes get on the ball and keep VU-3 the leader in sports at Ream. The children's Xmas party will be December 18. Have you heard; OFFICER, "Not a man in this section will be given liberty this afternoon." VOICE, "Give me liberty or give me Death." OFFICER, "Who said that?" VOICE, "Patrick Henry, Sir."

A. R. Marks, JOSN

Answer to Puzzle

NAS Blood Bank Account Now "In the Red"

The San Diego Blood Bank notified Employee Services Office last Monday that the NAS Civilian Blood Account has only 14 blood credits available, and one civilian employee has requested 22 credits from the Fund. This will of course deplete the account.

These 22 credits are for a 15-year-old girl, daughter of an Electronics Division employee, who was struck by a car and badly injured Thursday morning, 4 December, while she was on her way to school.

Last week, due to the civilian "Christmas for Korea," only three employees volunteered to donate to the Fund, and only one donation was accepted.

During the week of 1 to 5 December, 30 blood credits were released, and the week of 8 to 12 December, 30 credits were released to the Blood Bank. This includes the 22 credits that the Bank is holding up until more blood is available.

NAS employees have shown in the past that they are eager to come to the aid of their blood fund when it was in poor shape, and it is believed that this emergency will be no exception. Employee Services personnel feel that civilians have only to be told of the need, to come to the rescue of their fund.

Those who wish to donate blood should tell their shop supervisor or their Shop Personnel Supervisor and arrange for an appointment. The afternoons of Tuesday, 23 December and 30 December have been set aside by the Blood Bank as NAS donor days. In January the donor days will be as usual on Thursday afternoons.

A quota of 100 credits has been set for the Blood Bank reserve. If the reserve can be stabilized at this amount, it will be considered sufficient to meet most emergencies, since withdrawals average around 70 to 80 credits each month.

DEC. 24 NORTH ISLANDER

A special Christmas edition of the North Islander will be issued on Wednesday, December 24. The North Islander will not be published on Friday, December 26 and Friday, January 2, 1953.

NAS Queen Candidates Win Bowl Contest

Congratulates Queens

CAPT RODEE congratulates the two NAS candidates upon winning both military and civilian contests for the Poinsettia Bowl game festivities tomorrow. Carol Knouse (left) was named civilian queen at the Poinsettia Ball Tuesday evening and Seaman Janice Vaughn will be crowned at a formal ball to be held at the Armed Forces YMCA tonight.

Station Posts Double Win In Judging; Janice Vaughn Named Military Queen, Carol Knouse of O&R Civilian Winner

On North Island bloom some of the loveliest flowers in the world. Poinsettia Queens are no exception. Not one, but both of North Island's candidates for queen of San Diego's first annual Poinsettia Fiesta were crowned in a dual ceremony at Mission Beach Ballroom Tuesday evening.

Carol Knouse, civil service electrician and candidate of North Island Legion Post 753, reigns as civilian queen. Janice Vaughn, NAS Wave, rules the fiesta as military queen. Both were selected after local elimination judging, by batteries of officials who had to choose from San Diego's prettiest in civil and uniformed ranks.

The pair of North Island beauties, after topping the best feminine competition that San Diego could produce, in or out of the service, were crowned by famed band leader Lawrence Welk as a high point of the ball.

Queens Carol and Janice will lead the parade, and be honored at the Poinsettia Bowl football game tomorrow afternoon at Balboa Stadium.

Cugat Brings Latin Revue To Station Tomorrow Night

Xavier Cugat will present his famed Latin Revue tomorrow evening at the station theatre starring such outstanding entertainers as Abbe Lane, Los Barrancos, Eddie Garson, Jose Wong, Juan Guerrero, Carmencita, El Gringo and Diablito.

Curtain time has been announced at 1900 for the hour-long tuneful revue. Admission is free on a "first-come-first-served" basis and dependents are welcomed.

"Woman of the North Country," the regularly scheduled movie for tomorrow night will be shown at 2000 following the Cugat revue. Admission is free and there will be no 1800 showing due to the stage show.

Following the stage show, the Cugat ensemble will play for a dance at the "O" Club from 2100 to 2400.

NIA Opens Drive For Members

The North Island Association this week kicks off its annual membership drive. The goal this year is 5,000 members.

The NIA is composed of employees of the Naval Air Station. The only requirement for membership is that you be an employee of the Air Station. All employees are eligible for membership.

Each year in connection with the membership drive, nominating petitions are circulated to the membership to permit them to select their representatives to sit on the Board of Directors for the coming year. The membership to the board is allocated according to the number of employees in each department. The Overhaul and Repair Department will elect six members; Supply and Fiscal, two members; Transportation, one member; IRD will have one member; and the smaller Departments are joined together to elect one member to the Board of Directors. The allocation has been made on the basis of one board member per 1,000 employees in the large departments, and one for each smaller department.

There are other members who sit on this board which help to make it the representative group it is. These are members who are appointed to the board by their respective associations. This makes the NIA truly repreesntative of all the various types of employees and employee groups aboard the Naval Air Station.

Other organizations represented on the Board of Directors are the Master Mechanics and Foreman's Association, the National Association of Supervisors Department of Defense, Civilian Association, NASSD, Planners and Estimators and Progress Association, Shop Planners Association, and Navy Employees Association, From time to time other groups are represented for a special project.

The Board of Directors at its first meeting of the year elects the officers for the coming year or years. The by-laws provide that not all officers be elected annually to prevent the possibility of having an entire slate of new officers at any one time. One-half of the officers are elected each year to serve a two-year term. This change in the by-laws was

(Continued on Page 5)

Station To Hold Xmas Party Sunday For Kids Of All Military Personnel

All children whose fathers are stationed at NAS or attached to fleet units here are invited to the gigantic Christmas Party next Sunday, December 21, at the Station Theatre. The party starts promptly at 1600 and Santa himself will be on hand to distribute presents to each child.

In addition to Santa, many entertaining and interesting acts will be preesnted on stage. Roy Howard, star of the Smokey Rogers TV show, will sing cowboy songs.

"King," the wonder horse, and "Koeno," famous trick dog of the movies, will go through their routine of tricks. Also, the nine trained dogs of Homer Snow—"Homer and His Pals"—will delight youngsters and oldsters alike.

Clowns, acrobats, trained seals, Santa and many more surprises await all children Sunday afternoon in the biggest dependent's party yet held at the station in conjunction with the Yuletide observances.

Remember the time—1600; the place—NAS Theatre; the date—Sunday, December 21st.

Holiday Routine for Xmas New Year Weekends Told

On the Christmas weekend, holiday routine will be observed from the conclusion of working hours on Wednesday, 24 December until commencement of working hours Monday, 29 December. Throughout this period, twenty-four hour service will be maintained through duty sections.

Same routine will be followed for the New Years weekend from the conclusion of working hours Wednesday 31 December, until commencement of working hours Monday, 5 January.

Department heads may grant leave to military personnel as deemed practicable. The total number of personnel on leave shall not exceed one third at any one time. To facilitate this policy, the following leave periods are established: 17 December to 29 December 1952, and 29 December 1952 to 8 January, 1953.

As pertaining to liberty, any off work period which exceeds 72 hours over the holiday periods must be considered leave and granted as such. Attention should be directed to liberty limits and procedure used to procure approval to proceed beyond these limits.

'Queen' Entwisle Welcome VP-731

Patrol Squadron 731 landed the last of a flight of ten PBM Martin Mariners in San Diego Bay last Friday morning, to end a seven-month tour of patrol duty in the Far East.

The last plane to touch down at 1100 was piloted by CDR. William T. O'Dowd, Commanding Officer of the squadron.

Among those on hand to greet the returning squadron was Miss Mae Entwisle, of San Diego, who was voted "Miss VP-731" before the squadron departed for the Far East.

After her selection last May, the lovely Miss Entwisle reviewed the squadron personnel at inspection, and presented an Air Medal

(Continued on Page 5)

CHRISTMAS TOYS repaired and repainted by personnel of the NAS Fire Dept. were distributed to children of non-rated station personnel this week. The toy collecting and repairing project has been underway since August. Station firemen were given a hand in the work by a group of NAS wives who reconditioned dolls and stuffed animals. Pictured with firemen who participated in the repair work are Security Officer LCDR J. C. Hale and Fire Marshall CHBOSN W. S. Mainord, supervisors of the project. Toys were contributed by station military and civilian personnel.

Wood, Simmons Exchange Vows

Coronado will be the future home of ENS. and Mrs. John A. Simmons who were married in a double-ring ceremony at the NAS Chapel two o'clock Sunday afternoon.

Mrs. Simmons is the former Miss Tanya Wood of 381 Oakland Ave., Oakland, California.

Ensign John A. Simmons, USNR, Fasron 110, was last stationed at NAS Akron, Ohio. His home is Lakeland, Florida, where his mother now resides.

The bride was lovely in a beige silk shantung dress with a fitted jeweled bodice and a dark brown flowered hat and brown shoes. She carried a orchid and carnation corsage.

Maid of honor was Doris Bingaman, who wore a fitted black velvet bodice with a white skirt and white over-skirt. A black velvet hat completed her costume.

Albatross VIP Hosted Aboard Bataan After Losing Bout with Radar Mast

When an albatross visits a ship, how do you treat him? The crew of the USS BATAAN were confronted with this unusual problem recently and gave the big avian visitor all the consideration of a VIP.

An albatross, you see, is no ordinary bird. Centuries of sea lore and superstition surround these large- web-footed sea birds. Some tales say the appearance of an albatross is an omen of good luck, while killing one brings on evil. In Coleridge's poem, "The Rime of the Ancient Mariner," the mariner kills an albatross, and as a result is plagued with storms and fog in his voyage. Other superstitions of the sea claim that the albatross is the reincarnation of the soul of a departed sailor.

The BATAAN's visitor came aboard one dark night at sea. His arrival was announced by clatter in the radar gear, followed by a thud on the deck below. Two sailors on the signal bridge, hearing the nearby commotion, began to investigate. Their flashlights revealed the battered form of the albatross, sprawled in the corner of the bridge.

Others who had heard the disturbance on the bridge, gathered around the weird creature, which was now regaining consciousness, and peering at them with distressed and pained eyes.

With one wing drooping helplessly and a nasty bump on his head, the hapless bird was rushed below to sickbay where he was logged in as Albert Albatross. A dentist X-rayed Albert's skull and found, to everyone's relief, no fractures. A splint was fashioned for his ailing wing, and medical diagnosis advised that all Albert needed now was rest.

Albert made a rapid recovery, much earlier than the doctor had predicted. Soon a favorite of the crew, he established the signal bridge as his domain. A pail of water was kept there, while crew members kept him supplied with choice morsels from the galley.

It wasn't long before Albert was being accepted as a permanent fixture on the ship, as just a big, friendly, awkward bird and not an awesome creature of the supernatural. But then came another black, starless night, and Albert had vanished. No one knows whether he returned to the fog enshrouded sea of the Ancient Mariner and other sailors on eternal voyages, or like any other bird, just returned to the flock. Wherever he goes, maybe he will put in a good word for the USS BATAAN.

Care of Classified Material

Personnel having classified matter in their custody shall take every precaution to prevent deliberate or casual inspection of it by unauthorized persons by keeping the papers face down or covered when not actually in use.

Classified material must not be left adrift in unattended offices during working hours. When leaving the office unattended during working hours, secure all classified material in the same manner as at the termination of the working day. Classified material may be left unattended in a room if all windows and doors are locked and all entrances are under the surveillance of a properly cleared person. Violation of this rule is a serious breach of security.

55 NAS-BASED MEN ACT AS SHIPMATES FOR CARRIER CHIEF

Fifty-five men from the three NAS-based Fasrons came to the aid of a shipmate aboard the USS KEARSAGE December 2. Their timely assistance was in the form of blood donations for Mrs. Ramona Daniels, wife of Cabbott Daniels, BMC, attached to the carrier.

Mrs. Daniels was seriously injured in an auto accident. Because it was not determined at that time that she was a naval dependent, she was taken to the San Diego County Hospital for treatment. To aid her recovery, she needed frequent transfusions, receiving over 20 pints of blood. Blood used must be paid for at $35 per unit or replaced at the rate of two to one.

To collect the 40 pints needed, CDR Sidney H. Shears, Force Chaplain, AirPac, sought blood donors from the station, and soon received 55 volunteers—enlisted personnel from Fasron 691, Fasron 110, and Fasron 7.

While six of the volunteers were rejected for medical reasons, the men contributed 49 pints of blood. The remaining nine pints of blood will go into a special military blood fund.

Mrs. Daniels' condition is reported improving, and has recovered sufficiently to be transferred to the San Diego Naval Hospital.

VFW Holds Dance Tuesday

On Tuesday, December 23, a third in the series of dances for enlisted personnel will be held at the VFW Hall, 6th and Orange Avenue in Coronado. General Henry D. Styer and the VFW Post will be on hand to welcome the enlisted personnel guests.

All enlisted personnel are cordially invited. Junior Hostesses will be present for those who do not have dates. Entertainment involved will include an official visit from Santa Claus.

Bring 'em to Work Feed 'em, Then Take 'em Home

NAS Bus Drivers Lead Dual 'on-the-job' Lives

GEORGE BONNEY (above), a good driver, but more experienced in food handling, finds it easy to double on a civilian cafeteria job.

Versatile may not be quite the word to use, but ambitious may fill the bill pretty well. The term could be used aptly in connection with four Naval Air Station civilian bus drivers, Clarence L. Lund, George Bonney, Clarence Price, and Jimmie Webb.

This quartet is numbered among the select fraternity of Transporta employees working a split shift on the busses which take workers to and from their jobs and the boat landings and main gate.

Now split shift driving keeps these lads occupied from 0600 until 1000, and from 1400 until 1800, or close to those hours. It leaves a four hour gap in the middle of the day . . . too long to stick around the Island doing nothing, but not long enough to go back to San Diego, according to Lund and the others.

Three months ago the four of them applied for and got rush hour jobs at the Civilian Cafeteria. "Now we handle rush hour traffic all day long," comments Lund. "We bring 'em to work during the morning transportation peak, take over on the chow line during the noon rush, then go back to the busses in time to take 'em all home again."

Background for this dual assignment on the lunch-assembly line? Two of the four have considerable cafe and specialized food handling experience.

Lund, who drives a green route bus, has been an Air Station employee since 1941, has worked in food concessions at Balboa Park stadium, Lane Field, and the Coliseum. He once owned a restaurant in San Diego.

Bonney, who first reported for work here in August of this year, has spent most of his working years in cafes and hotel restaurants, also worked in the Bavarian Gardens at the 1935 International Exposition in San Diego. He drives a blue route bus.

Price, employed here since 1945, had never worked in a food-dispensing job before, but says that he likes his present "spare time" occupation. He handles a quay wall bus.

Webb, driver of a green route bus mornings and a blue one afternoons, is only one of the quartet who does not work in the Main cafeteria. He holds forth during the noon period at the Bldg. 404 eating place. Likes his work, although K.P. duty in the Army marks his only brush with this type of business, and there, too, he remarks, it was a sideline. Webb has been employed at NAS over seven years.

All four, it may be added, have a well-fed appearance, and two of them admit gaining weight since taking on this second job.

CLARENCE L. LUND, NAS bus driver for 11 years, is one of four Transportation Dept. employees who are spending their "spare time" amid a split shift, working in the Civilian Cafeteria.

CLARENCE PRICE (background) and Clarence Lund, Transportation bus pilots, bear a hand at constructing hot lunches for Civilian Cafeteria patrons.

JIMMY WEBB (above), who pilots a blue route bus about the station from 0600 to 1000 and from 1400 to 1800, spends the interval at work in 'Caf Number 2, Bldg. 404 assembling civilian lunches.

NAS Stamp Collector Plans To Help Kids Start New Hobby

MEL HILL, who is interested in stamp collecting, feels that by aiding children to start this fascinating hobby, juvenile delinquency may be cut down. He is active as chairman of the Child Welfare Committee of North Island Legion Post.

Mel Hill likes kids. He's chairman of North Island American Legion Post 753's Child Welfare Committee. He has also been a stamp collector for 25 years and is active in the San Diego Stamp Collectors' Club.

Combining his work in Child Welfare with the universally-felt inspiration of the approaching Yuletide season, Mel has hit upon a novel plan. He is breaking up his and his father's stamp collections to make packages of stamps for all the kids interested in starting a collection. Later on he plans to get albums for them to put the stamps in.

This is Hill's way of helping to combat juvenile delinquency. He will keep on making these packets until he runs out of stamps.

That is where you can help. If you receive a lot of correspondence and would like to help Mr. Hill, you can send him your stamps. Just cut out around the stamps and mail them to him at 4448 McClintock, San Diego 16, California, or if you work on NAS you can bring them to him at Hangar 29.

One of the Navy's largest aircraft carriers, the USS Antietam (model at right) is the first carrier to be modified so that landings can be made on a diagonal of eight to 10 degrees to the flight deck instead of straight ahead. This new angle makes it possible for the pilot to decide whether to make the landing instead of depending entirely on a landing signal officer as in the past.

NI Post Co-sponsors New Fear's Dance

North Island American Legion Post 753 will co-sponsor a New Year's Eve celebration with other San Diego Legion organizations at the Veterans Memorial building at Balboa Park, according to word received from Rudy Fuentes, O&R's Post entertainment leader.

Jill Clark and her music capers will provide the dance rythmn. Tickets for this year end celebration are available from any of the Post 753 officers.

Supply and Fiscal Holds Xmas Dance

The civilian and military personnel of Supply & Fiscal Department will hold their annual dinner dance at the El Morocco Club, Euclid and Federal Blvd., Saturday evening, 20 December. The honored guests of the evening will be Commander and Mrs. H. H. Hunt, due to his imminent departure from the Station to attend the Armed Forces Staff College, Norfolk, Virginia.

Tickets may be obtained from Supply & Fiscal Department supervisors.

CIVILIAN BLOOD DONOR Honor Roll

Employee Services announced that the following civilians volunteered to donate blood during the week of 8 December to 12 December for the NAS Civilian Blood Fund for use of civilian employees and their families.

THE "HONOR ROLL" wishes to commend those civilians who volunteered on 9 December to the CHRISTMAS FOR KOREA

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

By Bill Mayer, Ext. 1045

Q. 1. Why can't my Welfare Campaign Pledge be taken out of my salary each week similar to my bond deduction?

A. 1. Deduction of any form from Civil Service employees paychecks, other than income tax and defense bonds, is prohibited by Federal law. Actually, bond participation is an automatic savings plan and not a deduction.

Q. 2. How long a time from my appointment date do I have to wait for a change to another rating?

A. 2. Generally, you must serve three (3) months after your appointment before you can be promoted, or reassigned.

Q. 3. Why don't per annum employees receive cost of living wage adjustments the same as per diem employees?

A. 3. Pay of per annum (classified) employees is established by an Act of Congress. Therefore, any contemplated increases must be approved by the Congress before they can be placed into effect. Per diem (wage board) wages are established by the Navy Department and are adjusted periodically to reflect going wages paid by industry in the area.

EDITOR Roy Quady prepares copy for "Compass Point" deadline.

North Island Children Publish Third Grade Coronado Class Paper

"Flash . . . scoop"—are words that echo the third grade rooms of Coronado's Sacred Heart School each Friday morning as the "Compass Point" is distributed to the eager third graders.

A fast-growing weekly, the Compass Point is edited by Roy Quady—son of Mrs. Helen Quady of O&R. Among the North Island kids reporting for Editor, Roy are Bobbie Hatton, son of CAPT G. A. Hatton, O&R Officer; Suzanne Frentz, daughter of LCDR A. H. Frentz, OinC of NAS Commissioned Officer Messes; and Sheryl Clark, daughter of CDR R. B. Clark, O&R's Production Officer.

The weekly mimeo has turned into a class project, with all third graders turning in news items to Editor Quady and his staff. Resulting in the complete coverage of third grade activities from Suzanne's Society column to Bobbie's Sports column.

Starting Friday, October 10th, the Compass Point hasn't missed a deadline yet, and is now in its 13th week of publication.

A recent contest was held by Editor Roy to stimulate more active support and interest in the paper. Bobbie Hatton won the sports writing contest and Suzanne Frentz wrote the best Society column. Each winner was awarded two free passes to any Fox West Coast Theatre through the courtesy of Mr. Ernst Sturm, West Coast manager of the theatre chain.

Only assistance the eight-year-old editor receives each week is when mother types his stencils. She faithfully follows his layout, only correcting spelling when needed.

North Islander Associate Editor, George Bergman, is the cartoonist for the Compass Point. His weekly four-panel "Donny Dimbulb" is eagerly awaited by the kids and portrays a faculty message the "easy" way.

All copy is submitted to Editor Roy in long hand, and he "lays out" his paper, also in longhand. Faculty members of the Coronado parochial school report that since Roy has started his paper and has solicited help from the other third graders, that the children's penmanship has improved remarkably.

VS-25 Personnel Honored at Inspection

During personnel inspection and commendation exercises held at Towers Field Wednesday, December 10, CAPT J. N. Opie II presented 24 commendations to enlisted members of Air Anti-Submarine Squadron 25.

The commendations were awarded for duties performed during the squadron's deployment in the Far East from December 1951 to June 1952. During this assignment, the men of VS-25 participated in "Hunter-Killer" operations from the USS BAIROKO (CVE 115) and USS BATAAN (CVL 29) under the direction of Commander Carrier Division Fifteen.

The primary mission of the squadron is to seek out and destroy enemy submarines, VS-25 was the first squadron in the pacific area to receive and put into operation the new AF-2W and AF-2S aircraft. It was with this type plane that they gained squadron and individual honors.

The men receiving awards were:

Marion Eugene Haynes, PN3; James Frederick Page, VK3; Charles F. Drake, AT3; Samuel E. Derby, AT1; Joseph R. Imes, AT3; Claud R. Christian, AT1; Jesse W. Delozier, AT3; Raymond L. Hickey, AT3; Gerald A. Ruyf, AT3; James R. Doll, AT3.

Robert L. Cruea, AD1; Henry L. Diehl, AD1; Travis H. Durr, AM3; Thomas B. Lewis, Jr., ADC.

Claud R. Chastain, AT1; James C. Cordle, AT1; Samuel E. Derby, AT1; Louis H. Klagg, AT1; Roscoe R. McKenzie, AL1.

Raymond W. Houdek, AT3; James C. Cordle, AT1; Francis O. Barton, AL2; Albert G. Keefe, ATAN; Charles D. Robinson, ALAN; Steve W. Watts, Jr., AT3; Douglas C. Vickers, AD2; Donald J. Green, AT3; Wilkie E. Dunn, AM1; Bennett (n) Wendt, AD3; Roger L. Grossnickle, AT3; Billy E. Norrell, AT3; Lowell V. Dye, AO3; *Robert L. Burdick, AO3; Jack A. Conner, AD1; Herbert L. Wall, PR1; Thomas J. Farrell, AD1.

CAPTAIN J. N. OPIE H, Commander Reserve Fleet, San Diego Group, presents a commendation to one of 24 enlisted members of the Air Anti-Submarine Squadron 25 who were commended for action in the Far East in ceremonies aboard the Naval Air Station, last Wednesday, Dec. 10.

Captain Rodee Receives Gold Star For Third Legion of Merit Medal

Captain W. F. Rodee was presented a Gold Star in lieu of a third Legion of Merit medal by RADM G. R. Henderson, ComNABS 11&12ND, in ceremonies in the Admiral's office Friday morning.

The accompanying citation read, in part:

"For exceptionally meritorious service . . . as commanding officer of the USS ESSEX while engaged in combat air operations against enemy North Korean and Chinese Communist forces from 12 January to 10 March and 28 July to 2 September 1952.

"He maintained his ship and air group at a high state of operational readiness at all times . . . displaying a thorough understanding of the naval mission in the Korean conflict . . . the constant high state of morale and fighting spirit maintained among the officers and men of his command, his loyalty and devotion to duty, were at all times in keeping with the highest traditions of the United States Naval Service."

CAPT Rodee received two other Legion of Merit awards for duty as Chief of Staff and Aide to Commander, Carrier Division Three, in 1950 and again in 1951.

In addition to the three Legion of Merits, CAPT Rodee has also received the Navy Cross and the Distinguished Flying Cross.

CAPT W. F. RODEE, NAS Commanding Officer, is shown receiving a gold star (in lieu of a third legion of merit) for meritorious service while serving as commanding officer of the USS ESSEX. RADM G. R. Henderson, ComNABS, 11th and 12th Naval Districts, presents the award.

Choir Will Present Cantata Tonight at Station Chapel

The choirs of the North Island Chapel and the Graham Memorial Presbyterian Church, Coronado, under the direction of Arthur D. Sale, organist and choir master, will present, as their contribution to the Chrismas season, the cantata, "Christ Is the Hope of the World," by Ward-Stephens. The first presentation will be this evening, at 2000, in the North Island Chapel and the Cantata will be presented again on Sunday evening, December 21 at 2000, in the Graham Memorial Presbyterian Church, 969 C Avenue, Coronado.

Military and civilian personnel, their friends and families are cordially invited to hear this great story of Christ's birth.

The program of music is as follows:

No. 1. The Prophesy.
No. 2. The Annunciation.
No. 3. The Birth of the Son of God.
No. 4. The Shepherds of the Field.
No. 5. The Coming of the Magi.
No. 6 Herod's Treachery.
No. 7. The Adoration.
No. 8. The Flight Into Egypt.
No .9. Christ is the Hope of the World.

North Island Man Discovers Way to 'Beat' the Ferryboats

Many times we have heard people come up with suggestions for beating the inevitable morning boatride to work at North Island.

Some have suggested a tube under the bay for auto traffic. Others have happily theorized on special "shoes" for walking on the water. Still others await the day of "Flash Gordon" type flying equipment for individuals.

It remained for Patrick P. Thienes, Public Works electrical worker, to come up with a simple, practical solution . . . a real honest-to-goodness way to get to work from San Diego without setting foot on a boat.

It's so simple, it is a wonder some of us hadn't considered it before. Pat plans to walk to work, a mere matter of 30 miles from his home, around the Silver Strand, and through Coronado, just to show the folks how his idea works.

FAMOUS FEET — They have carried Pat Thienes many thousands of walking miles. He plans to "beat the boat-ride" by walking 30 miles to work from San Diego—but not every day.

It might be well to mention that Pat is famous for much longer walks, including 16 trips across the United States, and two record breaking walks between San Diego and Los Angeles. He was the subject of Bob "Believe It or Not" Ripley's pen, and has received nationwide publicity in the press for some of his jaunts.

Pat's "walk to work" will actually be a warmup for his projected 18,000 mile super-walk, which he hopes to commence in March, through every state capital in the country. His walk around the Strand is set for some time in January.

Yes, it's a practical solution to the San Diego NAS transportation problem . . . but you've gotta like walking!

PAT THIENES, the NAS employee who has solved the trans-bay transportation problem the simple, direct way.

Benny Sugg Plays Santa Claus to 30

Thirty NAS civilian employees discovered this week that Benny Sugg can be almost as good as Santa Claus. They received checks ranging from $10 to $140 for ideas accepted in the Beneficial Suggestion Program.

Nine of the employees are in Supply & Fiscal Department, 21 in Overhaul & Repair Department.

Employees receiving checks in the S&F Department were:

Bertha Culley, GS-3, Procurement Sec., $10; **Ida Marie**, GS-3, Fiscal Div., $15; **Lenore Fox**, GS-3, Fuel Sec., $30; **Anniebelle D. Howard**, GS-3, Issue Control, $30; **Vivion T. Hanson**, GS-5, Receipt Control, $12.50; **Edna W. Ploman**, GS-4, Receipt Control, $12.50; **C. V. Scruggs**, GS-3, Stock Control, $55; **John J. Thomaselli**, GS-3, Bldg. 652-5, $15; **John J. Tierney**, GS-5, Storage Froup, $140.

Those receiving checks in O&R were:

C. H. Andrews, AMG Hlpr., Shop 4116-2, $10; **L. L. Bordelon**, Air Elect-3, Shop 4264, $35; **Leonard B. Cartwright**, AMS-3, Shop 6276, $15; **W. D. Christenson**, Elect-4, Shop 4248-3, $10; **H. L. De Fries**, Elect-3, Shop 4248, $65.

Wm. E. Freeman, Mtlsmth-3, Shop 3275, $55; **Ralph W. Glasgow**, Mtlsmth-3, Shop 3275, $10; **C. R. Halvorson**, AMM-3, Shop 6201, $15; **Wilburn B. Hill**, Ammo-4, Shop 6123-1, $10; **Howard R. Leatherman**, AMG-3, Shop 5222-2, $10; **C. C. Lindsay**, Mach-3, Shop 6275, $15.

Willard V. Lukens, AMM-3, Shop 6234, $10; **Ulrique Janet McGriff**, A/C Cleaner, Shop 4214, $10; **F. W. Meyers**, Painters Hlpr., Shop 3414, $10; **W. W. Peuneman**, AMG-3, Shop 4116-2, $10; **Roger A. Pozzi**, Snapper AMM, Shop 6701, $50; **Harold L. Schmuch**, Mach-4, Shop 3375, $10.

Ellen N. Small, Shop Learner, Shop 3280, $30; **Frank A. G. Smith**, Elect Mech. Shop 4263, $30; **Leonard L. Smith**, AirFabWkr-2, Shop 6591, $15; **John W. Woolcott**, AMo-4, Shop 4361, $10.

NIA Membership

(Continued from Page 1)

approved by the membership at the last annual meeting. This year the Board of Directors will elect a new first vice president for Planning, third vice president in charge of Membership, and secretary.

Each year immediately following the conclusion of the election, which is held during the month of January, there is an annual meeting held for the benefit of the membership. This meeting is open to all members, both new and old, and all are welcome to attend. At this meeting new board members are introduced and the various committees report briefly on their efforts during the past year.

The date of the election will be publicized at a later date and also the list of nominees will be made known. Having recently seen a major national election, we should realize thow important it is to make your wishes known by voting for the men or women who can best represent you for the coming year.

'Queen' Entwisle

(Continued from Page 1)

to a squadron member.

She was later runner-up in the "Miss San Diego of 1952" contest, and then voted the queen of the Navy Relief Carnival sponsored by the Naval Air Station.

45,000 Flying Hours

VP-731 completed a total of over 350 missions in the Korean area alone, in support of United Nations forces. While covering a distance of over a half-million miles, 45,000 hours of pilot and crew flight time was accumulated on operational missions.

The patrol tour of VP-731 was particularly noteworthy in that it was accomplished without a single aircraft accident.

Per Diem Employees Get Raise in New Wage Schedule

(continued from last week)

Results of the recently held Area Wage Survey were apparent in the new wage schedule released last week for per-diem NAS employees. Classifications not indicated in the December 12 NORTH ISLANDER are published below, with the new pay rate indicated (first step only):

Aircraft Weapons Repairman	1.72
Automotive Accessories Mechanic	1.89
Automotive Mechanic	1.89
Automotive Mechanic, Body & Fender	1.89
Bearing Reconditioner	1.64
Blacksmith, Other Fires	1.93
Boat Builder	1.93
Boilermaker	1.97
Brakeman	1.68
Bridge Crane Operator	1.72
Buffer and Polisher	1.86
Cable Splicer	1.97

Xmas Tree Contest Judging Next Week

North Island civilians will participate in annual Christmas tree contest Monday and Tuesday of next week when the final judging will take place. Both decorated trees and Christmas scenic displays will receive consideration with prizes ranging from ten to twenty-five dollars.

One of last year's first class was the first in the electronics division. The unusual factors of lost years' winning tree included flourescent lights which glowed off and on in a weird but beautiful manner.

Last 'Merc' Goes to Work

Last of the Navy Relief Carnival Mercury cars has finally left North Island. Al Becker, of Transportation, who has had custody of three of the six vehicles for varying amounts of time, reports that Durward E. Moore, Jr., AE2, of VS-931, returned from overseas to claim his "wheels." Moore showed up December 4, from NAS Los Alamitos.

Two other Mercuries had been claimed during the period since the carnival closed in August.

SUPERVISORS ASSN. ELECTS OFFICERS

National Association of Supervisors, Local 18, held a regular meeting Wednesday, December 10, electing new officers as follows: W. E. Ridgeway, president; F. Carty, vice president; P. Curtiss, secretary; E. Fielding, treasurer; J. E. Miller, sergeant-at-arms; and S. Long, director.

Next meeting will see the seating of these new officers, followed by a dinner. Place and time will be announced in a forthcoming issue of the North Islander.

THREE EX-NAVY Chief Petty Officers seek a familiar environment during morning rest period in Shop 3106, Bldg. 801. They are (left to right) Harold Kennett, metalsmith; Johnnie Cardell, metalsmith; and J. L. MacNeel, AMG. Among them, they sport more than 77 years' Naval service.

Wife of North Island Employee To Sponsor Launching New Ship

The USS Esteem will be launched Saturday, December 20, at 10 a.m. at the Martinolich Shipbuilding Co. of San Diego, by Mrs. Catheryn H. Davis, wife of W. G. Davis, now employed on North Island. Mrs. Davis was chosen of all San Diego County submitted den mother entrants. By coincidence, the maid of honor's name, no relation to Mrs. Davis, is Miss Diane Davis. Included in the program are high-ranking Navy officers and national Boy Scout officers who will unite in paying tribute to the boys' organization. This is the first time a Navy ship has been dedicated to an organization. A nation-wide telecast is planned.

MRS. DAVIS

Shorthand Class Slated

A free shorthand class will start January 12, 1953, at the Coronado Evening School. It will be a course for beginners and intermediates. The class will meet every Monday and Thursday evenings as long as the minimum of 30 people attend. The class is well on the way towards reaching the limit of 40 people. Persons interested should call either of the following people now and have their names added to the enrollment list: Anne Morey—Henley 3-5296; Mary Brown—Henley 3-4011.

CHRISTMAS GIFT—Marcel Cretton proudly examines his own contribution—one pint of blood—to the armed forces in Korea. The O&R Production Control employee is one of 104 NAS civilians who contributed blood last week for the "Christmas for Korea" program. Cretton, who has given six pints previously, is shown with Mary Jensen, San Diego Blood Bank nurse.

Marilyn Monroe Shouts the News 'The Big Day' Is January 15

Marilyn is urging all hands to mark January 15th with a big red circle—it is the BIG day at NAS.

Erle Standley Gardner, Harold Keen, Neil Morgan, Max Miller, Gene Peach, Ken Bojens, Seymour Francis, Duncan Hines, Dale Clark, Eugenie Sedlock, and Louella Parsons are all reporters in the first BIG annual to be published for NAS in years.

Twenty-five other top names in the newspaper and literary world will be represented in the BIG 100-page annual magazine that will go on sale at the Navy Exchange, January 15th.

All NAS departments, features and representative squadrons will be featured by these famous people in the BIG annual. Some have visited their assignments and others will in the next two weeks. Look for them, maybe you will be pictured with one of these well-known writers in the BIG annual.

AND LOOK FOR MARILYN—she is the "cover girl" for the station's first BIG annual. REMEMBER THE DAY, January 15.

LOVELY MARILYN MONROE tells everyone to look for the NAS Annual scheduled for publication early in 1953. Marilyn says her picture will be on the cover of the publication.

DRIVER WANTED—Driver wanted one day per week to join car pool from vicinity of Fletcher Hills to Navy Parking Lot. 0745 to 1615 shift. Phone H-6-4717 or H-6-8272.

RIDER OR DRIVER WANTED—To join car pool from Chula Vista via the Strand, on the 0800 to 1630 shift. See Chet Regler at Shop 363, Bldg. 94.

Separation Center Closes Tomorrow

Jack L. Martin, SN, USN, will be the last man to be discharged at the Separation Center of Commander Air Force, Pacific Fleet, aboard the Naval Air Station, San Diego.

Martin is the 4,946th and last man to go through the center, activities of which will be terminated tomorrow, December 20. In the future, Fleet Air units will separate their own men instead of transferring them to a central activity.

The Separation Center was first established July 18, 1951, according to Chief Ships Clerk J. C. Hager, USN, officer in charge. Its closing will leave the San Diego Naval Station with the only remaining separation center in the 11th Naval District.

TheComAirPac Separation Center has averaged almost 300 men discharged each month. It has operated as part of the ComAirPac Flag Administrative Unit Command by LCDR N. R. Charles.

Besides North Island personnel, men were sent here for separation from Los Alamitos, Miramar, El Centro and Ream Field.

GENE TIERNEY STARS AT NAS THEATER—Lovely Gene Tierney, one of Hollywood's top feminine actresses, will be featured in "The Plymouth Adventure" on Sunday and Monday, December 21 and 22. Co-starring in the highly publicized film are Spencer Tracy and Van Johnson. The picture portrays the heroic plight of the pilgrims during their voyage to historic Plymouth Rock.

Scheduled by NAS Organizations

To provide information on planned events, individual schedules will be listed weekly in this column. This service is available to all organizations aboard the Naval Air Station. Call IRD Employee Services Section, Ext. 694 to list events.

SATURDAY, 20 DECEMBER—POINSETTIA BOWL FOOTBALL GAME, San Diego Stadium.

SATURDAY, 20 DECEMBER—Engineering, Industrial Management, Planning, Personnel and Administrative Holiday Warm-Up Party, Buffet Supper Dance, Craftsman Hall, 3909 Centre Street, Jack Bassett's Band.

SATURDAY, 20 DECEMBER—SUPPLY & FISCAL CHRISTMAS PARTY, 7:00 P.M., El Morocco, Euclid and Federal.

SUNDAY, 21 DECEMBER—CHRISTMAS PARTY for Dependents, 1600, NAS Theatre.

MONDAY & TUESDAY 22 and 23 DECEMBER—CIVILIAN CHRISTMAS TREE JUDGING.

TUESDAY, 23 DECEMBER—SUPPLY & FISCAL DRAMA CLUB (Amateur), Tuesdays and Thursdays, 1215 to 1245, Biulding 334-M.

THURSDAY, 25 DECEMBER—CHRISTMAS PARTY for children of deceased service personnel. NAS, 1030.

FAW-1 Celebrates First U.S. Duty

With a dinner and dance, 125 officers, men and guests celebrated Fleet Air Wing 1's first tour of duty in the United States. The event was held in the Venetian Room of the U. S. Grant Hotel in downtown San Diego last Friday evening.

Entertainment was provided by vocalists Betty Patterson, wife of J. B. Paterson, RN-3 of the wing, and Nate Johnson, PNSN of the unit's personnel office.

The climax of the evening's doings was the drawing for the cash door prize. Winner was Mrs. Lonnie T. Sistar, wife of Lonnie Sistar, former YN-2 of the Wing.

FAW-1 began its tour of duty in the United States in October when it came here to replace FAW-14. Prior to that, it was stationed for 27 months in the China Sea area and charged with directing the Formosa Strait patrol.

Prior to the outbreak of the Korean action, the Wing's home port was Agana, Guam.

Airmen Bow To El Toro, Battle Alameda Tonight

Traveling up to Santa Ana last Thursday, December 11, the Naval Air Skyraiders bowed to El Toro's Flying Bulls 64-56. This was the ninth loss of the season for the 'Raiders and El Toro's first 11th Naval District league game win.

Center Hank Schmidt and Forward Gene Garrett hit for 22 ponits each to pace the victors. Bird netted 17 points, to lead the Airmen, followed by DeLong's 16 and Hancey's 12 points. At the end of the first period of play, the scoreboard read 15-17 with the El Toro Marines out in front. The two teams battled at fairly even terms up until the final period when the Marines turned on the heat and pulled away to clinch the game.

Tonight the Naval Air Skyraiders venture to Alameda, California, to battle the NAS Alameda five. The 'Raiders have had a rough season this far, due to the fact that most of the other hoop squads boast Ex All-American material and are loaded.

Game statistics:

Naval Air	fg	ft	pf	tp	El Toro	fg	ft	pf	tp
Stevnsn,f	0	4	2	4	Garrett,f	8	6	4	22

Score by quarters:

Naval Air	15	16	13	12—56
El Toro	17	21	9	17—64

FTM: Naval Air—Stevenson 2, DeLong, Bird 3, Anderson. El Toro—Garrett, Suarez, Byrket, Loveless.

ROBERT DE LONG . . . No. 14 . . . 6'2" . . . GUARD. Bob played his High School ball at John Marshall High School in Los Angeles. He then attended Los Angeles City College in 1948 and played on the frosh basketball team that year. Good enough to make the Naval Training Center varsity last year, Bob will see a lot of action as a guard on Coach Andersons' five this year. He is 25 years old.

Captain's Cup Lowdown

By W. R. SMITH

There was some fast moving action this week in the Captain's Cup league as GCA beat Assembly 45-42 in an overtime period. Smith was high for GCA with 25 points. High for Assembly was Brannon with 17 points.

BOQ tromped Personnel 30 to 23 and Bell sunk 14 points to lead the win. High man for Personnel was Sherwood with 7 points. In another close battle GCA lost to Test Line 50-49. King led the way for the Test Line five with 12 markers. GCA's high man was Smith as he dumped in 19.

Pulling out of a real close one, the Planning hoopsters downed Weather Central 35-32. Detrick led the win with 13 points.

Air Pac Sports

By MARSH JOHNSON

Naval Air's cellar-dwelling Skyraiders left by plane for San Francisco Tuesday to embark on a five-day basketball road trip. They will meet the San Francisco Frosh, NAS Moffett Field, and NAS Alameda on successive nights to wind up the 1952 part of their '52-'53 schedule. The 'Raiders open New Year's play in the NAS Gym on January 3 when they host the Mt. San Antonio JC Varsity.

Jim Bird, one of Naval Air's more likely candidates for Conference Honors, continued his torrid pace by pumping in 17 points against El Toro, while playing the finest game of the season.

Forward Bob De Long, recently converted from a guard position, is becoming one of the most valuable players on the squad. He's been performing brilliantly in controlling backboard play since the switch and aided the 'Raiders immensely with his steady floor work.

* * *

In Intermurals, FAETUPac's grapplers completely dominated wrestling last Friday noon in the NAS Gym to turn back Ream Field for the ComFair San Diego Wrestling Championship. FAETU-Packers' won all but one match to add another award to their glittering trophy collection.

VC-11's North Island Table Tennis Champions subdued the Ream Field paddlers in two straight matches last week to add the ComFair San Diego Tennis Table Championship to their list of laudels.

Golfing Results

A half-hour Golf Show will be shown Tuesday, December 23, at 1200 at NAS Theatre under the compliments of the San Diego Open Golf Comm.

A similar golf movie will be shown at Ream Field at 1330, Tuesday, December 23.

Tickets are on sale at the Golf Range now for the San Diego Open Golf Tournament. Season tickets sell for $4.00; daily fee is $1.50 and $2.50 on Saturday and Sunday. Save by getting a season ticket. A suggestion . . . buy one and use it for four people on alternate days.

Monthly 'ACE' Mystery Tourney results for December, 1952 at Caliente.

VU-7 Captures FAD Hoop Championship

On the first of December 1952 Utility Squadron SEVEN cinched the FAD intermural Basketball Championship by soundly trouncing VR-32's fine team 53-30. This opened the way for Utility Squadron SEVEN to participate in the rugged Commander Fleet Air Detachment, three game playoff, with U. S. Naval Air Auxiliary Station Miaramar's VJ-61.

Utility Squadron SEVEN led by the small score of 26-22, and after a short breather VU-7 came back in the game at the half with a tightened defense along with some fine rebound work to hold VJ-61 to 18 points in the last half, while scoring 25 points. At the final whistle the score was 51-40.

Utility Squadron SEVEN, coached by LT Crumbley, who received orders prior to Commander Fleet Air Detachment playoffs performed a magnificent job during the season. Chief Sloan, who took the team over on December 4, praises the entire team for drive and cooperation in winning the championship under these circumstances. This team hase been wonderfully inspired and backed up the commanding officer, Commander N. R. Lincoln, Jr., during the entire season.

WORKHORSE "OX" OXFORD, 6'4", VU-7's high point man for the season, goes up high to sink a basket for two more points. The VU-7 squad has built a season record that will be hard to match in the future.

In the first game of the playoff at the U. S. Naval Air Station gym on Monday, Dec. 8, Utility Squadron SEVEN won a hard fopght game by only six field goals. The final score was 63-51.

In the second game held at Miramar on December 10, VJ-61 put on a spectacular display of shooting to hand Utility Squadron SEVEN its first defeat in the seasons' league play by a score of 76-51.

WAVE 'RAIDERS WIN THREE HOOP CONTESTS

Still rolling over all of their rivals the Naval Air Waves beat down three opponents last week to gain second place in the 11th Naval District League with five wins and one defeat.

On December 9, here at the NAS Gym the girls encountered the strong Camp Pendleton Women Marines in a close contest that found the score 21-17 at the end of four periods of hard, fast play. It was the sharpshooting of Gloria Petrik combined with the outstanding defensive game played by the guards that spelled victory for the 'Raiders.

The following Thursday, December 11, the Waves traveled to El Toro and again came out on the winning end. The El Toro Women Marines were no match for the 'Raiders as they bowed to a 27-19 score. Several of the stars that shown a little brighter than the rest were Gussie Steadman, Kay Donohoe, and Kay Keating. Gloria Petrik lead the scoring with 13 points.

Next on the Wave agenda were the Go-Getters and they too failed to overcome the fast moving Naval Air Waves. With Petrik once more leading the attack with 16 points the girls beat down the Go-Getters 27-18.

The Skyraiders will attempt to chalk up their fourth straight victory tonight when they encounter the Hosiptal Waves.

POINSETTIA BOWL GAME SKED TOMORROW

Local football fans will be treated to one of the nation's outstanding post-season tilts on December 20 when the first annual Poinsettia Bowl game is staged at Balboa Stadium between top-ranking teams of the Navy or Marine Corps and Air Force or Army. This will be a world-wide Armed Forces championship event climaxing the civic celebration of Poinsettia week.

Tomorrow afternoon on the Balboa gridiron will tell the story. At the moment both teams look in great shape and full of power, it should prove to be a real close fast hard battle with the winning team pulling the game out of the fire by a slim margin. Both squads boast plenty of ex-professionals and All-American gridders and it is hard to say which team will be the winner when the final gun sounds ending the service gridiron clash of the season.

MEMBERS OF THE UTRON-7 BASKETBALL SQUAD that captured the FAD Basketball Championship are (left to right—front row): J. D. Wright, VU-7; Kozliski, FAS 691; Greider, VC-11; McKinsey, FAS-7; Kuehl, VU-7. (Top row): CDR N. R. Lincoln Jr., Commanding Officer VU-7; H. A. Herbs, VU-7; J. C. Fergerson, VU-7; J. C. Oxford, VU-7; J. Pardue, FAS-691; A. P. King, VU-7; J. D. Breland, VU-7; and Chief Sloan, VU-7.

Post Office Has Another Busy Season

POSTAL EMPLOYEES Ralph Talley, Bob McLewin, and Wayne Wettstead of the NAS Post Office sort mail. Postal receipts this month are running heavier than for the same period last year while mail volume is running about the same.

Employees at the NAS Post Office are not predicting that any records will be broken this Christmas season for mail volume. "Unless there is a last-minute deluge of mail," declared mail superintendent, "the volume will just about equal the 1951 Christmas season."

Post Office employees point out, however, one unusual feature in this year's Christmas mailing. The public seems to have heeded pleas of postal authorities to get packages and cards in the mail early. Mr. Olds says a steady flow of Yuletide mailing began shortly after Thanksgiving, the earliest he has seen in his 23 years with the Post Office department.

The Post Office offers some advice to those who save not yet mailed their Christmas cards. To expedite their delivery, it advises you to put complete address as well as your return in ink. Send them first-class to obtain the many advantages the service affords. They are dispatched and delivered first; forwarded, if necessary without additional charge, and, if undeliverable, returned at no further expense to you.

Christmas cards sent third-class cannot be sealed, cannot contain written messages.

When sending a quantity of cards, you are advised to tie them in bundles with addresses all facing the same way.

TO BE HONORED—At VC-11's adopted children for December 24. These tykes, (left to right) Angelina, Billy, and Bruce will receive gifts of their choice during special occasion in their honor. Also to be present at the doings is Bruce. Funds to support the "Christmas for Children" drive, were raised by appeal to the squadron's own personnel.

VU-3 TO HOST 35 KIDS AT XMAS

Amid smiling faces and happy children, Utility Squadron 3 held their annual Christmas party yesterday for 35 underprivileged boys and girls of Lowell grammar school in San Diego.

From the time they were picked up and until the day's festivities were over, the 35 kids will long remember VU-3 as their Santa Claus and the generosity of both the Officers and the White Hats.

After having lunch in the Chiefs Mess, plus all the candy and ice cream their small tummies could hold, they were led out to the squadron area where Santa Claus arrived in person, not in his usual Sleigh and Reindeer, but this year he became mechanized, landing in a Helicopter.

He greeted all the children and presented the girls with dolls and the boys with roller skates. Each child was also given a $10.00 money order at Grant's Department Store in San Diego.

Santa then led all the children to the station theater, where they were treated to a half-hour of their favorite cartoons, to complete a perfect day.

HU-1 Parties 30 Kids

Thirty underprivileged children from the South Bay area celebrated an early Christmas today at Ream Field with the officers and men of Helicopter Squadron ONE.

The day of fun and excitement for the children stated when they arrived at Ream Field by bus and were met by their escorts, the enlisted men of HU-1.

Among the showing of several cartoons, the children and escorts rode on the station's big red fire engine from the theatre to HU-1 area where they observed helicopter operations.

The meal of the day, with ice cream and cake, was served in the Christmas decorated CPO section of the galley.

Santa arrived in HU-1's colorful decorated helicopter and lead the children in a parade to the theatre for the presentation of individual gifts.

VC-11 Fetes Kids At Xmas Party

Personnel of Composite Squadron 11 have dedicated themselves to brighten the Christmas season for four little children who are patients at the Children's Convalescent Hospital, San Diego.

Under the guidance of a planning committee, the children will be hosted at a Christmas party at the squadron hangar on December 24. Each child will be presented with his choice of gifts for Christmas day.

The children, Angelina, 11, Billy, 10, Bruce, 8, and Bobby, 7, will be present at the occasion where Santa Claus will be present with Christmas trees and all the trimmings. All personnel of the squadron have been invited to attend, and it is hoped that arrangements can be made so the afternoon of the 24th will not be a working day.

The squadron's response to the appeal has been generous, and it is hoped that Christmas day 1952 will be a joyous one for the little tykes, who due to financial circumstances, might not otherwise have had such a Merry Christmas.

THE ANSWER MAN. COLUMN RIGHT—PAGE 3.

Ream Xmas Party

Monday at 1500, ALF Ream will hold its annual Christmas Party for the children of the officers and men based at Ream.

Santa will arrive for the kiddies in a helicopter, and lead the children and their parents to the auditorium, where cartoon movies will be shown, and ice cream and cake served to the youngsters.

Each parent is urged to bring presents for his own children. The cost should not exceed $1.50, at the request of the Officer-in-charge of ALF Ream, and must be turned into the Officer of the Days' office by one o'clock next Monday, labeled for the child.

Santa will give away the presents to the children at the party, with the help of his assistants.

Bldg. 34 New Location Of Ream Small Stores

Ream Field's Clothing and Small Stores issue facility will be open for business at its new location, Bldg. 34, December 22, C. E. Hines, SKC, announced.

It will also be open on three other dates the remainder of the year—December 24, 29 and 31. On January 6 it will reopen for normal issues.

REAM Border Lines

ALF REAM SAN YSIDRO, CALIFORNIA

VU-3 Officers Plan Party

The Officers of VU-3K will hold a Xmas Party Saturday, December 20, from 1900 to 0100, at the ALF Ream Field Officers Club.

The squadron will have the entire dining room, with dinner buffet style, dancing and refreshments, all for $4.00 a couple.

Admiral Martin's Orchestra will play from 2100 to 0100. It has appeared at Ream in the past. For an evening of fun and to get acquainted with the rest of the squadron, attend this gala holiday party.

HU-1 Unit Returns

Helicopter Squadron ONE, Unit THREE, returned December 4th to Ream Field after serving a seven month tour of Korean duty abord the USS SICILY.

Officer-in-Charge, LTJG Rob-Hall, and LT J. R. Wilford were the "Guardian Angel" pilots for Marine Air Group 12, which was based aboard the USS SICILY.

Keeping the helicopter in tip-top chape was the job of crew chief, S. F. Alonorvich, AD3; G. Kovack, AN; D. L. Howe, Jr., AN, and G. W. Bender, AN.

Services Christmas Day

PROTESTANT 0800
MASS 1030

VU-3 Cagers Still Unbeaten

VU-3's Basketball Team continued their winning streak in the Night Cage League by posting their third consecutive victory, overwhelming the Tower, 60 to 45.

From the beginning of the game, where they led 11 to 0, to the end of the contest, the final outcome was never in doubt. Leaving the floor at half-time with a 33 to 19 advantage, VU-3 still outscored the Tower, 27 to 26, in the second half, using everyone on the bench to ring the victory bell.

High point man for the dronemen was Hays with 19 points, Diebler, 15, Hope, 9, and English dropping in 8 counters.

Ream's Legal Eagle Is Yeoman Smith

One of the most interesting occupations in Utility Squadron Three, is that held by Lyle L. Smith, YN3, Legal Yeoman of the squadron.

Being a Legal Yeoman, Smith received valuable training at the U. S. Naval School of Naval Justice at Newport, Rhode Island. During the seven weeks that he attended the school, he was instructed on the Uniform Code of Military Justice, Introduction to Naval Law, Disciplinary Powers of the Commanding Officer, Administrative Matters related to Discipline, Charges and Specifications, Naval Judiciary Proceedings, Court Martial Records, and Fact Finding Boards.

Smith enlisted in the Navy October 23, 1950 and has been a member of VU-3 for the past 23 months, a year of which has been as Legal Yeoman. Whether the case is a Commanding Officers Non-Judicial Punishment, a Summary Court, or a Special Court, Smith is continually busy preparing and acting as Recorder during the proceedings.

As far as the future is concerned, he expects to be transfered to WesPac sometime in the Spring. After his enlistment expires, he will attend the University of Kansas to further his education, but still hasn't made up his mind to be a lawyer.

The NORTH ISLANDER

U. S. NAVAL AIR STATION

VOL. VIII | SAN DIEGO, CALIFORNIA, DECEMBER 24, 1952 | 3 | No. 52

AH! MEMORIES—Christmas has always been a festive day in the Navy. On board the old wooden ships, a holiday was declared for all hands. The Christmas dinner, featuring salt pork and sweet potatoes, was finished off with a toothsome dessert called "duff"—hardtack topped with blackstrap molasses. While the spirit of Christmas, perhaps, has not changed since those early days in the Navy, the food certainly has—and for the better. Twenty-nine years ago the Naval Air Station mess hall served the mouthwatering Christmas dinner shown above. And tomorrow all hands will dine at a table generously provided with all tasty dishes of a traditional Christmas.

Menu

Christmas Day Dinner - 1952

SHRIMP COCKTAIL
CREAM OF TOMATO SOUP — CRACKERS
MIXED SWEET PICKLES — GREEN AND STUFFED OLIVES
ROAST TURKEY — BAKED VIRGINIA HAM

Wednesday Final Payday of 1952

Payday for NAS military personnel will be on Wednesday, December 31, the Disbursing Officer announced.

Payment will be made on the north ramp of Bldg. 334 between the hours of 0800 and 1130. Officers will be paid between 0930 and 1030.

Chief petty officers will be paid at 0800 according to the following alphabetical order: A-J, Pay Window No. 1; K-Z, Pay Window No. 2.

All other enlisted personnel will be paid commencing 0815. The pay line will run continuously in alphabetical order until all hands are paid. Personnel who fail to find their place in line will fall in at the end of the line in alphabetical order.

PAY WINDOW NO. 1—
Waves
Messmen (A-J)
All others (A-J)

PAY WINDOW NO. 2—
Messmen (K-Z)
All others (K-Z)

Personnel unable to draw their pay at the scheduled time for reasons beyond their control will be paid between the hours of 1100 and 1130.

Judge Xmas Tree Contest This Week

The North Island Civilians Christmas tree contest was judged Monday and Tuesday of this week. Judges were: Chaplain John P. Murphy, Stan Stokes, O&R Assemble, Fred Ball of Public Works Dept., and Julie Babich, Supply Department.

The results of the judging will be announced in the Jan. 9 issue of the North Islander.

Xmas Celebrated On December 25 Since 351 A.D.

This year is 1700th time that Christmas has been officially celebrated on December 25. That day was established to celebrate the birth of Christ by Pope Julius I, in 351 A.D., after consulting other church officials for opinions on a suitable day.

Historians think that the reindeer became associated with the Christmas story through Lapland legends. St. Nicholas was accepted as patron saint of Russia some 660 years after his death. His story spread to the northern peoples, mainly to the Lapps, who incorporated St. Nicholas in their own legends involving their beloved reindeer. Today the communists, who declare themselves to be atheists, forbid the celebration by their people.

Chaplain's Corner

A CHRISTMAS PRAYER

O Jesus, born a tiny Babe so that all children may feel You are their Brother, and know that You love them, behold us from all over the world, united around you, to tell you today in one great chorus that we love You and desire to reproduce Your traits in our spirit, our heart and our life.

You draw all to Yourself—and we respond so willingly to Your invitation.

You open wide Your arms—and we are so happy to repose upon Your bosom.

But, dear Jesus, all Your little ones are not here.

The greatest number of little children do not know You yet as we do, they do not know that You are seeking them, that You are waiting for them, and that it is for them You are asking those who love You, as the gift which would please You most and the one You desire most.

For them, then, we pray, dear Jesus, as we pray for ourselves.

Grant that the glad tidings of Your coming and of Your Kingdom may reach out to all the corners of the world.

Grant that to Your Name, O Jesus, may everywhere resound the Hosanna sung by the children of Jerusalem in the day of Your triumph. And may our words, eloquent in Your behalf, render to You, our Brother, our friend and our Master, the praise which the pride of men denies You. Amen.

Father J. P. MURPHY,
Catholic Chaplain.

THE GIFT OF GOD

"For God so loved the world that he gave his only begotten son." In all of the excitement that surrounds Christmas, let us not forget the real reason for Christmas. Let us not forget that it was God's gift of his only begotten son, born as a babe in a manger, which gives us cause to celebrate this glorious day. Our modern materialistic age, which has so commercialized the holiday, has tended to crowd this fact out of our thinking. We are so caught up in the hustle and bustle of the rush that we hardly, if at all, give a passing thought to the fact that it is the birth of God's son we are celebrating. God has given us his most precious gift and we are too busy to receive it. In all of our preparations this year, let us take time out to prepare our hearts to receive the love of God for us, as expressed in the gift of his Son. Let us recapture the true meaning of Christmas by including in our celebration the celebration of the Birth of the Babe of Bethlehem. Let us pray that his spirit may be born anew in the hearts of mankind everywhere, that truly we can sing with the heavenly hosts, "Glory to God in the Highest, and on Earth Peace among Men."

Parking Area, Shuttle Buses In San Diego Help Alleviate Coronado Ferry Breakdown

One of the auto ferries on the Coronado Ferry run has had a major breakdown and it is anticipated that it will not be back in service for approximately eight weeks.

This has resulted in a heavy back-up of autos waiting to board the boats on both sides of the bay. Military personnel and Civilians have experienced quite a delay in their daily transportation schedules.

To help alleviate this delay, the San Diego Transit System is providing free parking facilities at Glacier Gardens, 8th and Harbor Drive, and free shuttle bus service to and from this lot to the Star and Crescent Boat Landing at tthe foot of Market street.

Personnel now driving to North Island via the Coronado Ferry will be admitted to this lot by their regular North Island Windshield Parking Sticker. Personnel parking outside the main gate will be issued a special permit upon request to the Shop Personnel Supervisors or the Employee Relations Superintendent, Building 415. An attendant at the lot will verify windshield permits and will issue round trip tickets for use on the Shuttle Bus to and from Star and Crescent Dock at the foot of Market Street.

Shuttle Bus Service will be from 0600 to 0750 from the lot and from 1525 to 1700 from the bus stop in front of the Star and Crescent landing on Harbor Drive.

Driving Privileges Restored to Traffic Violators as Xmas Gift

A special Christmas present from CAPT W. F. Rodee, NAS Commanding Officer, awaits all NAS-based military and civilian personnel who now have station vehicle restrictions.

The Security Department Traffic Section, at the request of CAPT Rodee, will reinstate vehicle privileges on the Station to all motorists having restrictions as a result of traffic violations. This action is effective today.

To redeem their lost privileges, personnel should reapply at the Security Traffic Section, Building 415, and present valid driver's license, auto insurance policy and registration certificate.

Security Officer, LCDR J. C. Hale said the action in no way meant that enforcement of station vehicle rules and regulations would be relaxed. He hopes that personnel will be able to maintain their "Christmas gift" throughout the coming year.

THE 4,946TH MAN . . . and the last, to go through the ComAirPac Separation Center at the Naval Air Station, San Diego, is Jack L. Martin, seaman, USN, shown (right) receiving his discharge from CHSCLK G. C. Hager, USN, Officer-in-Charge. The unit will be discontinued this Saturday, Dec. 20, when Martin gets out. Fleet Air units will now separate their own men.

SANTA CLAUS, Transportation style, is portrayed by the well upholstered figure of Saint Nick, perched in the seat of this wooden jeep. Santa, constructed by personnel of the NAS parachute loft, has his home-made (by Transportation personnel) vehicle parked in front of Bldg. 314. The jeep was constructed for Christmas last year.

Toastmistresses Hold Election

The annual election of the Silver Strand Toastmistresses was held Wednesday, December 10th. The new officers are: Clella Stivers, president; Jean Sheedy, vice president; Lucie Ogilvie, secretary; Louise Patterson treasurer, and Sally Murphy club representative.

The new officers were installed Monday, the fifteenth, at North Park, where a joint meeting will be held with the North Island Toastmasters at the Lions Club. Paul Harshberger will install the new officers. The program will include six speakers, three from each club.

Viotti Guest Star At Legion Benefit

Monday evening, December 29, at 2030 marks the American Legion's Benefit Show at the Roosevelt Junior High School. As guest performers, the show will feature versatile Buddy Viotti and Frank Merrill, of NAS.

The ten top amateur acts in the San Diego area will compete during the show for a prepaid trip to Hollywood, a tour through a studio, a dinner at a well-known restaurant, and a night in the Hollywood Roosevelt Hotel.

The benefit is being given for the purpose of raising funds for the San Diego Crippled Children's Home and the Door of Hope Home of the (Salvation Army). Tickets are available for those persons desiring to attend the banner event. For information Mel Thornton may be contacted at X-1451.

Choral Group Sings

The San Diego Choral Group from San Diego High School treated the wives of Ream personnel to an afternoon of festive Christmas Carols and holiday music on December 15.

Xmas Services Aboard USS Princeton Tonight

Catholic and Protestant Christmas Eve services will be held aboard the aircraft carrier USS PRINCETON tonight. Protestant services will begin at 10 p.m. and Catholic Solemn High Mass will be sung at midnight.

All service personnel, their families and friends are invited to attend the services. The Princeton is docked at the Naval Air Station, Piers "O" and "P."

For the people driving aboard the station, the Coronado First Street gate will be open. Guards will direct them to special parking places. Beginning at 9:15 p.m., boats will shuttle from Fleet Landing, Harbor Drive, to the Princeton for people not driving to the services.

CDR Sidney H. Shears, Force Chaplain for Commander Air Force, Pacific Fleet, will lead the Protestant services. Assisting him will be Lt. William C. Tennant, Chaplain from the USS Dixie. The Hoover High School Acapella Choir under the direction of Mrs. Madeline Hofmann will sing the hymns.

CDR T. F. McNeill, Chaplain of the Princeton, will conduct the Catholic services. Mass will be sung by an all-male choir made up of men from various Catholic Churches in San Diego. Choir director is Mr. Edward Ricca and the manager is Mr. William Thornton.

ITEMS OF INFORMATION FOR CIVILIAN PERSONNEL

By Bill Mayer, Ext. 1045

OVER 1,000 KIDS ATTEND STATION CHRISTMAS PARTY

Over a thousand wildly cheering youngsters were thrilled with a two-hour Christmas show and party held at the station theatre Sunday afternoon.

Such outstanding performers as Roy Hogsed, star of the Smokey Rogers television show; "King the Wonder Horse"; "Huey the Clown"; the trained dogs of Homer Show, "Homer and His Pals"; and NAS own versatile Skip Young delighted the kids in the largest party yet held for station and fleet personnel children.

LCDR B. E. Hackett, Special Services Officer, announced that Santa (portrayed by Clayton E. Lacey, AT3) received more requests for various toys than there "are snowballs in Alaska."

Seals, pelicans and penquins marched on stage to the delight of all as cheer after resounding cheer echoed their antics on stage.

The "Rolling Robinsons," a family skating act of mother, father and two children, brought many loud cheers as they whirled through number after breath-taking number.

Mysterious magic tricks were performed by the renown magician "Huey the Clown." Mystified children called Huey back again and again as his feats of magic completely baffled and delighted the youngsters.

Happy youngsters and their parents left the gigantic party and show with the good cheer of Christmas in their eyes—and all, yes, mommy and daddy too—are looking forward to old Saint Nick's midnight visit tonight.

For the simple, yet sincere goodwill of all children tonight could be reflected in all of us tomorrow and throughout our lives by very simply following the example of the One whose birthday we celebrate tomorrow—Merry Christmas!

APPEAL FOR CIVILIAN BLOOD DONORS

HS-1 Copter Crewman Wins Navy Cross for Japan Sea Rescue

For the risking of his life so another might live, Ernie L. Crawford, AD1, was awarded the Navy Cross in ceremonies aboard the Naval Auxiliary Air Station, Ream Field.

Presenting the medal, which is second only to the Congressional Medal of Honor, was Vice Admiral Harold M. Martin, Commander Air Force, Pacific Fleet.

Crawford, a member of Navy Helicopter Squadron 1, lives with his wife and two daughters, Elaine Ann, 3½, and Marilyn Sue, 2, aboard Ream Field.

The decoration was for the rescue of a Corsair pilot in the Sea of Japan near Hungnan, Korea, on January 22, 1952. As a crewman in the rescuing helicopter he found that the downed Navy pilot, LTJG John Abbott, of VF-53, was unable to attach himself to the helicopter's rescue sling.

Crawford "voluntarily jumped into the icy surf and maneuvered the pilot into the sling." He then remained in the frigid waters within range of shore batteries and small arms fire, while the helicopter pilot delivered his patient to the destroyer USS COLLETT, three miles away.

Although a small target to spot, Crawford was picked up by the helicopter approximately 20 minutes later, and returned to the cruiser USS ROCHESTED from which his helicopter operated.

All the while, the helicopter had been unable to land because of a faulty landing gear. Crowford had been fully aware of this when he took the downed pilot's place in the water, and he had no assurance that the helicopter would be able to return.

The citation accompanying the award said in part:

"By his valiant conduct and prompt decision, he was responsible for saving the life of one who otherwise would have perished."

"His fortitude and indomitable courage despite his own intense suffering sustain and enhance the finest traditions of the Naval Service."

The citation was signed by Dan A. Kimball, Secretary of the Navy.

BLOOD FUND FOUR UNITS 'IN RED,' SAYS NAS EMPLOYEE SERVICES

The NAS Civilian Blood Fund began the week with four credits "in the red."

Through the generosity of 20 employees who donated to the fund last Thursday, the blood needed by the girl injured on 4 December, as reported in last week's "North Islander," has been taken care of. However, hospital personnel state that she may need more than the 22 credits already released for her.

The Employee Services Section has set a quota of 100 credits to be on hand at all times. NAS releases approximately 70 to 80 blood credits each month, and if the reserve can be kept close to 100 credits, civilians may be reasonably sure they will be protected, even though the need for blood would be heavier than usual.

The program of sending a minimum of 20 donors each to the Blood Bank was inaugurated in October. If 25 to 30 donors will volunteer each week, it should not take too long to build up the fund to a safe level.

The breakdown of donations and releases for the first eleven months of the year are shown below:

	Donations	Releases
Balance 1 Jan., 1952	245	
January	0	77
February	0	96
March	3	108
April	210	174
May	50	46
June	13	44
July	103	57
August	21	73
September	68	70
October	56	53
November	82	45
Total	851	843

Average monthly releases for the eleven months: 77.

All civilian employees and members of their families may receive blood from the NAS Civilian Blood Account. For each pint of blood released two credits are used. The first credit is the "replacement credit" and the second is to cover the service charge of $7.50.

If you need blood, and are a Civil Service employee, notify your doctor or the hospital that the NAS Blood Fund will make available all the blood required. Then tell your shop supervisor, your Shop Personnel Supervisor, or call Employee Services Ext. 694, the amount of blood you need.

Those who wish to donate blood should arrange for an appointment with their Shop Personnel Supervisor. The afternoon of Tuesday, 30 December, has been set for the final fund donation at the Blood Bank for 1952. In January the donor days will be as usual on Thursday afternoons.

I NOW HAVE UNLIMITED OPENINGS FOR HIGH SPIRITED MEN AND WOMEN WHO DON'T LIKE IT HERE .....

MUST BE ABLE TO DRIVE RECKLESSLY, AND MUST BE WILLING TO TRAVEL-FAST. ANYONE MAY APPLY, BUT I PARTICULARLY WANT PEOPLE WHO ARE NOT AFRAID TO PASS ON CURVES ....

I AM ESPECIALLY INTERESTED IN OBTAINING DRIVERS WHO ARE DARING AFTER JUST "HAVING HAD A FEW." SISSIES WHO LET OTHERS BEAT THEM THROUGH AN INTERSECTION OR WHO STOP JUST BECAUSE THE LIGHT CHANGED TO YELLOW NEED NOT APPLY .....

REMEMBER, THIS IS A "PERMANENT" POSITION AND IT OFFERS PEACE AND SECURITY. NO MORE MONEY WORRIES (EXCEPT, OF COURSE, FOR YOUR WIDOW AND FAMILY). THE SKY IS THE LIMIT ....

TO APPLY, JUST HAVE A COUPLE OF DRINKS, TAKE THE WHEEL OF YOUR CAR LIGHTLY IN ONE HAND AND PRESS YOUR RIGHT FOOT HARD ON THE ACCELERATOR. DON'T LET ANYONE PASS YOU. "BE THERE FIRST." A BIG RUSH OF APPLICANTS IS EXPECTED FOR THE HOLIDAY SEASON.

Civilian Vacancies

Information on the following may be obtained by calling Ext. 1267 or 1268.

OFF-STATION VACANCIES

Two Electronics Engineers, (General), GS-9, $5060 per annum, at the U. S. Naval Station, San Diego, Calif. Closing date is 2 January, 1953.

One Editor (General), GS-7, $4205 per annum, at the U. S. Naval Station, San Diego, Calif. Closing date is 2 January, 1953.

One Supervisor, duplication Unit, Naval Air Station, Jacksonville, Florida.

One Sr. Shop Personnel Supervisor at the U. S. Naval Station, San Diego, California. Closing date 31 December 1952.

It won't be unwrapped under the Christmas tree tonight, but will be just as happily received . . . A Christmas present for NAS civilian employees.

Station notice 12805 reads: "The station will be closed to business on Thursday, December 25 and Friday, December 26. Holiday routine will be observed on both days. All employees except those required for maintenance, security, or other essential duties will be excused from work entire work days December 25 and 26."

All employees in active duty pay status, with the exception of temporary Wage Board employees appointed for periods not exceeding one year, will receive pay for both days involved in the holiday period.

Employees in a leave status during the December 25-26 period will receive pay with no charge to leave for the two days.

January 1 will also be an excused leave day. Employees desiring to take a holiday on Jan. 2 must request annual leave for that day.

HEADLINES of 1952

NORTH ISLAND'S TWELVE TOP STORIES OF THE YEAR

Seyboth, McWilliams Win National Benny Sugg Honors

NAS, January 11—Harold A. Seyboth, aircraft inspector, and Theodore F. McWilliams, won national recognition in the Navy-wide Beneficial Suggestion program, taking top honors for the entire year just past. Their suggestions climaxed North Island's over-all success in the program which brought the station to a place among the Navy's Benny Sugg leaders, for the second straight year.

NAS Recreation Facility Opened

NAS, July 18—Four hours of dancing and other entertainment will officially ring up the curtain tonight on the new NAS Recreational Facility. Featuring Will Osborne and his nationally prominent orchestra, the festivities will get underway at 2100, lasting until 0100. All North Island-based military personnel are invited to attend.

The gala occasion will include a series of dancing contests, with prizes for winning couples, specialty acts and free food and refreshments. Two hundred junior hostesses representing the USO, YWCA and other San Diego organizations, will be on hand to keep things from getting dull along the stag line.

President Signs K-Vet Legislation

NAS, July 18—Word was received here today that congress delivered the eagerly awaited K-Vet Bill in time for the fall school term. President Truman promptly signed it.

The new bill gives educational loans and unemployment benefits, as well as mustering-out pay, on-the-job and on-the-farm training.

North Island Leads In Employment of Handicapped Work

In observing of National Employ the Physically Handicapped Week, October 5-11, Naval Air Station in San Diego did not unduly emphasize the event by fanfare or public demonstration. The command merely continued its sound and sincere efforts to use the largest number possible of employees so handicapped, by hiring an additional amputee, as a helper, general in the O&R Department.

NAS, with a total of 202 physically handicapped employees, and several hundred other workers with minor handicaps on limited working assignments, leads the other Naval establishments of this area, ranks high among stations in the nation in per capita employment of handicapped persons.

Nationally, the Navy has a fine record of hiring people so handicapped. Over 25 percent of all handicapped civilian workers in the Federal service, more than the total of any other Federal agency, are employed by the Navy, according to Under Secretary of the Navy Francis P. Whitehair.

600 Civilian Workmen Sought

NAS, Nov. 7—Desperately needed to meet increased workload, 600 additional civilian workmen are being sought for immediate employment on the Naval Air Station. A county-wide campaign was launched this week to obtain personnel for existing vacancies, partiicularly on production jobs.

More help must be obtained in order to keep up with repair and overhaul of the planes which bear the brunt of the Navy's air attack which supports United Nations forces in the Pacific.

VADM Martin Becomes Commander AirPac as VADM Sprague Retires

NAS, April 1—VADM Harold H. Martin, former Commander Seventh Fleet, relieved VADM Thomas L. Sprague as Commander, Air Force, Pacific Fleet, in ceremonies at NAS today.

VADM Sprague will retire after 34 years of Naval service. He had assumed the post of COMAIRPAC after two years as Chief of the Bureau of Personnel, in October 1949. A 1916 Naval Academy graduate, he received his wings at Penusacola in 1921. VADM Martin graduated from the Naval Academy in 1918, and won his wings in 1921 at Pensacola.

NAS Tops $24,000 In Fund Campaign

NAS, Nov. 28—Naval Air Station personnel opened their purses and wallets to the good works of the United Fund agencies to the tune of $24,004.50 in the recently completed drive, according to final figures just released by the Commanding Officer.

Two dollars and eighteen cents apiece was the average contribution for every man and woman, civilian and military, under the jurisdiction of the NAS command.

Total contribution to the fund drive exceeded the totals compiled over the past two years by the entire four major United Fund organizations, the Red Feather, Heart Foundation, Cancer Society, and Red Cross. This attests to the success of the 1952 drive, as well as to the generosity of NAS personnel in helping to meet the need of both the San Diego community and the medical research being carried on in the nation.

'Standing Room Only' Crowd Sees Jack Benny and Cast

NAS, April 4—Jack (Blue Eyes) Benny and his entire cast presented a 90-minute show for all hands (military) at the NAS Theater last Monday night. With all 2,048 seats of the theater taken and several hundred persons standing, the "all-star" cast played to enthusiastic applause throughout the entire performance.

After a 30-minute tape recording show for the Columbia Broadcasting System, which will be heard April 20, the cast combined to present a wide variety of musical and comedy acts for the better part of an hour.

Four members of the cast remained aboard the station long enough to take advantage of the rapidly improving sportfishing season. They spent Tuesday aboard NAS' livebait boat.

Lear Appointed to O&R Production Supt. Position

NAS, March 25—Selection of Edward A. Lear for the position of Production Superintendent, NAS O & R Department, GS-13, was announced today. Formerly Foreman, O & R Shops, he fills the post vacated by John E. "Ole" Olson, Jr., who recently retired after 41 years of government service.

First arriving at North Island in 1935, Lear was immediately assigned to the O & R Department, working with a force which then numbered only 200 civilians.

Kirby Seals Repeats as All-Navy Heavy Champion

NAS, April 30—Continuing North Island's heavyweight boxing championship dynasty, Kirby Seals, veteran Navy slugger, successfully defended his crown tonight against Allen Williams, of Hawaii.

Seals, who had defeated the same Williams in the 1950 All-Navy tourney, beat his tough adversary only after an exciting struggle, and through a fast, slugging spree in the final round.

North Island dominance in the heavyweight boxing division has extended from 1945-46, when Harry Bilski won the 11th Naval District title, through every season of All-Navy competition since, with one or more men from the Island competing in the final show. Maynard Jones won the 1947 championship. Jack Woods defeated North Island shipmate Kirby Seals and won in 1948. Kirby Seals lost out in the final bout in 1949, then returned to take the title in 1950. There was no 1951 tournament.

President Signs Military Pay Boost Legislation

NAS, May 23—The long awaited armed forces pay raises became law this week when President Truman signed the legislation which was passed unanimously by both Houses of Congress earlier.

The new law reflects a compromise between the separate bills offered by the House and the Senate earlier this year.

Retroactive to May 1, the pay raise calls for a flat increase of four percent in base pay for all personnel and an increase of 14 percent in allowances for food and rental.

Carnival Crowds Top 350,000; $150,000 For Navy Relief

NAVY FIELD, Monday, Aug. 5—1952's specatcular Navy Relief Carnival came to a dynamic climax last night as a jam packed crowd of 100,000 sent all existing records crashing. Unofficial estimates of the total attendance at the Naval Air Station-sponsored show exceed 350,000 for the four-day stand, far exceeding anything ever accomplished at any previous Navy Relief event.

FANFARE AND GLAMOUR which attach themselves to any carnival, were present one hundred fold at the spectacular 1952 Navy Relief Carnival at Navy Field, sponsored by the North Island Naval Air Station. Producing more than $160,000 net profit for the Navy Relief Society, this carnival smashed all existing records for any type of Navy charitable undertaking. Combined efforts of military and civilian personnel of the Air Station were necessary to successfully promote and execute the vast undertaking. LCDR H. L. Pemberton, then Public Information Officer was in charge of the carnival committee. Above: night scene of part of the brillantly lighted, concession and ride-studded midway.

More than $160,000 was netted for the Navy Relief Society by the successful carnival, as San Diego and surrounding communities populations went all out in support of the vast entertainment event.

Every show and every display was packed with enthusiastic men, women and children, as this fifth annual staging of the carnival rolled to new record heights.

Highlighting the program were the magnificent Aqua-capers water show, which continued to draw tremendous crowds, as a return feature from the 1951 carnival, the saucy Satan's Daughters review, and the fabulous Midway which is the talk of the town as happy memories of the great four day show linger on this week.

Keynoting each night's performance was the giving away of one or more Mercury automobiles to carnival patrons.

NAS to Publish 1952 Annual

NAS, Dec. 19—This is not necessarily one of the top twelve stories of North Island for 1952, but rather concerning all of the top stories of the Island for the year.

With the publication date as shortly after the new year as printing schedules will permit, a Big North Island Annual will be available to NAS and other interested personnel, depicting people and places, events and programs of interest throughout the calendar year 1952.

BE IT RESOLVED . . . .

There Is No Law Forcing One to Keep Those New Year's Resolutions, But It's Going To Be Fun Trying

Have you made your New Years resolutions yet? This is the time of year everyone is jotting down on paper the resolutions they plan to keep. Some are ahead of the field, having already made theirs.

Curtis Law AF3, Operations Dept. thinks it would be wise to resolve to never step in front of a fast moving vehicles again.

LT. Jack Fitzwater, Administration Office, NAS, says: "I just want to go back to civilian life, of course depending on BuPers."

John E. Bass, SN, of VS-23, says: "I resolve to make YN3 this year."

Mrs. D. A. Rogers of I & R Div. says: "I plan to work less and take life easy this coming year."

Mrs. N. S. Mitchell, of the Legal Office, states: "I resolve to not let the legal office give me headaches next year."

Darleen Reed, Cashier at the Coffee Shop, says: "To quit cheating sailors out of nickles and dimes and start cheating them out of half dollars."

Ted R. Blake, Shoe Shop, resolves: "To keep customers happy with a lot of good neolite."

Mrs. Nancy Gine, Cashier at Ship Services, resolves: "To be a housewife as well as a mother in 1953."

Joan Stober, Cashier at Ship Services, resolves: "Not to lose my temper with my husband more than once a day."

James J. Barnham, Cleaner Shop, resolves: "To give all our customers bigger and better service if possible."

CURTIS LAW, AF3, of Operations Department, apparently had some difficulty involving a fast moving vehicle during 1952, from the tone of his resolution appearing on this page.

Don Skinner AT3, of K-2 Div.: "Drink less and stay sober more."

LT. Hugh Dawley, Retired, says: "I never make resolutions at the first of the year. The wise thing to do is make them all during the year and then you will more than likely keep them."

Sgt. Huraclio Gonzales, Marine Det.: "I resolve not to go with redheads next year."

Mrs. Cecil Clark, Exchange Clerk, states: "I intend to have my husband do my Christmas shopping before Dec. 9."

Mary Martin of the Supply Department, says: "In '53 I will disregard all comments made by sailors."

Walter Mounadjian, CS3, states: "I resolve to be a bigger dog this year than last."

Edward Kellner, TM1, FAU, resolves, "To be a better person in the coming year. A hard life is the birthright of every man, therefore it is everyone's duty not to place any burdens or obstacles along the road."

Dellbert M. Jones, VS25, Driver, SN, "I resolve to quit swearing."

Anna K. Ball, SA, Supply Division, Stock Control Room: "I resolve to see Texas in the coming year."

George W. Lunn, Bldg. 22, Shop 80-84, Rigger O&R, resolves "To retire and be happy after having done 30 years in the Navy and working seven years at North Island."

MRS. CECE CLARK'S resolution, concerning Christmas shopping, is unfortunately complicated by implicating Mr. Clark. His comments were unavailable at press time.

DALLAS KADOLF, SA, was down to earth, and general in his appraisal of the resolution situation. His resolve would do well as a model for others.

James M. Flates, Bldg. 22, Shop 80-84, Fork Lift Operator, resolves "To continue on my good job at North Island."

Thomas Kelly, Bldg. 22, Shop 80-84, Rigger O&R, resolves "To do unto others as I would have them do unto me."

Charles Chalmers, HM3, says: "I resolve to go to church every Sunday."

LT. JACK FITZWATER'S remarks were perhaps more wishful thinking than a resolution.

MARY MARTIN, WAVE Storekeeper, smiled wisely as she passed on her resolution, involving sailor associates. She would not identify the comemnts as favorable or unfavorable.

Xmas Greeting to Armed Forces

"Another Christmas finds so very many of you far from home on battle stations or standing guard for the protection of our country, and I want you to know how proud we all are of your unselfish devotion to the great undertaking in which yor are engaged. The task you have set for yourselves is nothing less than the salvation of the world. Mankind will lay no finer tribute upon the altar this Christmas than the courage and loyalty you are showing in this bitter struggle for world peace.

"The thoughts and prayers of all of us at home are with you on this day. Your victory in the fight for freedom is our hope, and indeed the hope of the world, for that day when Christmas will again be a season for peaceful rejoicing.

(Signed) "HARRY S. TRUMAN."

I extend to all the man and wome nof the United States Navy and Marine Corps my most cordial Christmas greetings for the 1952 Holiday season. By tradition and sentiment, Christmas is our American Observation most closely associated with the home and the family. Many of you will be fortunate enough to be with your families this Christmas day but many of you will be aboard ships and stations far from your loved ones. Those who are separated should particularly reflect on the fact that their service is in the defense of their families and our way of life. A grateful America wishes all of you the true happiness of this day upon which Christ was born in Bethlehem almost two thousand years ago.

DAN A. KIMBALL,
Secretary of the Navy

Queen Janice Reigns Over Poinsettia Bowl Classic

A QUEEN WORTHY of the title, is Janice Vaughn, Naval Air Station WAVE. Officially crowned at 2145 Friday evening, December 19, she and her "court" of four princesses were guests of honor at a Navy formal Poinsettia dance at the Armed Services YMCA. Among Miss Vaughn's chief admirers is Earl Vaughn, owner-operator of Vaughn's Gift Shop (left) receiving a royal kiss from Queen Janice after presenting her with a $100 sponsoring check. The two Vaughns are not related, but Earl feels that like most San Diego businessmen, he owes a great deal to the Navy, and "just wanted to help." (Center) Queen Janice and her court of queen contestants, smile prettily while displaying trophies awarded to them by LCDR J. W. McGhee, representing the 11th Naval District. They are: (left to right), Sally Kriz, TE2, NTC; Sgt. Margaret Maul, Camp Pendleton; Queen Janice Vaughn, SA, Naval Air Station; Pfc. Betty Clements, El Toro; and Jane Reeves, HN, Naval Hospital. The girls were surrounded by the traditional Poinsettias representing the fiesta over which Queen Janice reigned. (Rright) Proving that she is no "fair weather" queen, Miss Vaughn arrives at the soggy sod of Balboa Stadium by helicopter amid the cheers of 10,000 damp but enthusiastic spectators. Occasion was the First Annual Poinsettia Bowl football game, between Naval Training Center and Bolling Field Air Force. Queen Janice shared the reign over the Poinsettia Week activities with civilian queen, Carol Knouse, also from the Naval Air Station.

Morrissey Hosts Stag Party

GUESTS AT MORRISSEY'S STAG PARTY were, left to right, (front row): Brooks Thomas, Denny Morrissey, Billy Sweet, Tommy Tuft and Wes Morrissey. Back row: Roger Herman, Hal Boudreau and Bobbie Jennings.

Station Kids Help Denny Morrisey Mark 6th Birthday

Denny Morrissey celebrated his sixth birthday earlier this month with a "stag party" at Quarters SD. Among the "gang" that attended were Bobbie Jennings, Hal Boudreau, Roger Herman, Brooks Thomas, Billy Sweet, Tommy Tuft and brother Wes.

Fried chicken, punch, cake and ice cream were served at the "stag party."

Donald Duck, Mickey Mouse, Bugs Bunny and Wild Bill Elliott all visited the "stag birthday party" in a series of movies shown as the highlight of the afternoon's festivities.

Chef Barbara Morrissey reports that the appetites were sharpened by bartender Jack's punch and the excitement of the movies.

FIRE HOUSE THREE PLUS FIVE—show how Christmas Carols should be sung, by firemen that is. Seated in front of their season display are: (left to right). Harold Bock, AN, Joe Lawrence, SA, Maurice Mercer, SA, James A. Kinnaman, SN, and Billy McMinn, AN. The costumes worn by these men is not recommended for the use of the ordinary carolers.

'NORTH ISLANDER' TAKES A HOLIDAY, NEXT ISSUE, JAN. 9

WITH THE PUBLICATION this week, of Volume VII, Number 52, your Naval Air Station newspaper brings to a close another historic year. This week's 16-page edition marks a special effort in behalf of the year just ending. It has been a good year from a writing standpoint, filled with action and events worthy of publicity.

Readers and contributors are to be commended for their continuing interest in the progress and development of their newspaper.

There will be no NORTH ISLANDER printed this Friday, December 26, nor the following Friday, January 2. Next issue of the paper will open a new book, Volume VIII, and will be distributed Friday, January 9, 1953.

The editor and staff wish to take this opportunity to wish to all North Island personnel, both military and civilian, a very Merry Christmas and a Happy New Year.

ALL THOSE YEARS FOR THIS?—Sixteen newly appointed chiefs participate in the North Island version of the famed "Death March." These men, complete with packs and such other paraphanelia as deemed necessary, were marched from the brig to the Chief's Club where "kangaroo" court was held. After being sentenced to perform such jobs as begging forgiveness for all their sins as "white-hats," the men were officially welcomed to the top "EM" spot.

Red Cross Helps N A S Dependents

Grey Ladies Motor Service Canteen

Nurses' Aides Staff Aides First Aid

By Bill Feeney

To the Coronado Red Cross Grey Ladies and Nurses Aides, the success of the Naval Air Station's Out-Patient Clinic and Infirmary Annex is thanks enough for their untiring efforts. However, without the work of these ladies, the station's dependent medical facilities would probably not be able to maintain their present high rate of service.

Nurses Aides and Grey Ladies Services are but two of the nine Red Cross Volunteer Services in the Coronado chapter. These individual groups, which are trained and certificated to fulfill specific duties, are under the over-all supervision of Mrs. Frank T. Sloat, the chairman of the Coronado Chapter of the American Red Cross. Within the chapter are nearly 200 women volunteer workers who donate their services to the needs of servicemen and their dependents at NAS and other Naval installations.

NURSES AIDES FULFILL MISSION

Nurses Aide Service is assigned the mission of assisting registered nurses in the physical care for patients. They are qualified to render all services to the patient, to administer medication.

In the Coronado area, Mrs. Raymond Nichols is the chairman of the Nurses Aide Service. This group, which is made up of 22 ladies, is required to complete 80 hours of training under a registered nurse's direction. In addition to this course, they are given supplementary lectures by doctors for 20 hours.

Nurses Aide Service was first organized in the early part of the Second World War to alleviate the shortage of registered nurses. Their success was so great that their efforts have been continued to the present time.

GREY LADIES GREAT ASSET

To the Naval Air Station's Out-Patient Clinic, the Grey Lady Service has proven a great asset. This group of 45 volunteer workers, under the chairmanship of Mrs. C. Reid Johnson, have the duties of assisting the doctors and nurses in the clinic. Next week this group of Grey Ladies will also be used to alleviate the trained personnel shortage in the new Infirmary Annex.

This group is given 50 hours of training which includes the same 20 hours of lectures given to the Nurses Aides.

Grey Ladies do an assortment of jobs while assisting the doctors and nurses in the Out-Patient Clinic. Their duties include working on records and inventories, giving of personal aid to patients outside of medical care, aid in X-Ray and laboratory work, and many other miscellaneous important jobs.

Grey Ladies were first organized during World War I at Walter Reed General Hospital, Washington, D. C. Since that time, they have been working in Federal Hospitals throughout the country.

AID RED CROSS BLOOD DRIVES

As though the previously mentioned jobs of these volunteers were not sufficient, they are assigned to work on all blood banks in the area. They staff both civilian and military "Bloodmobiles" aboard the Naval Air Station and on the ships in the bay.

All of the duties and services performed by these ladies from both the Nurses Aides and Grey Ladies are on an entirely non-pay basis, and all but one of the total number of workers from both organizations are local Navy wives.

This program is typical of the fine work done by the many American Red Cross volunteer services which supplement the work done in military medical facilities.

* * *

MRS. B. A. CLAREY, member of the Grey Ladies Society, performs one of the many duties for which they are trained. She is weighing Mrs. George J. Viera, a patient at the Out-Patient Clinic. The Red Cross Grey Ladies Society is made up of 45 volunteers, and serve in a variety of capacities in the Naval Air medical facilities. There are 45 Grey Ladies in this one specific Coronado chapter.

ASSISTING WITH COMPLICATED X-RAY, Mrs. Earl Dobbins, of the Grey Ladies Society takes data from M. R. Chadwick, HM-1, at the Out-Patient Clinic. The patient, Mrs. J. R. Halligan is receiving just one of the many services given by the American Red Cross' Gre Ladies Society.

MRS. E. G. GARDNER, Nurses Aide, assists Mrs. Dona Campbell with new-born twins Larry, 6 pounds, 10 ounces; and Jerry, 6 pounds, four ounces at the new Infirmary Annex. Mrs. Campbell is the wife of Robert A. Campbell, AT-3, from Fasron 691. Mrs. Gardner has been serving with the Nurses Aide Service for two years; she was first trained in Washington, D. C.

CHOW TIME—Mrs. Robert A. Aiken is served her noon meal by Mrs. R. L. Nickols, Nurses Aide working at the New Infirmary Annex to assist the nurses in physical care of patients.

Special Xmas Check Via S&F's Efforts

Captain H. C. Graves, Supply and Fiscal Officer, voiced his wish that employees would receive a special retroactive check covering the new raise, and also a special check on the 24th of December which would be regular pay. This set into motion the machinery which today has produced special checks for each North Island civilian employee on the day before Christmas.

Special praise for this fete must be given the many timekeepers throughout the Island for their efforts in getting to the S&F Department pay and time records earlier than usual.

Step by step, from the checking of new against old rates to the making of checks, and their distribution, the members of Supply and Fiscal have shown extreme effort and teamwork. This, on their part, has made possible the special pay on the day prior to Christmas.

Before the checks are in the form the employee cashes, a long line of complicated processes must be followed. From the checking, keypunching, and roll making, to the signing and distributing, the check is carefully checked and tabulated to insure correct amounts and prompt payment.

Today's Civilian Check Made Possible By Teamwork From Timekeepers To Disbursing

CHECKING THE OLD PAY RATES AGAINST the new to insure accurate pay are: (left to right) Mary Lou Crabb, Virginia Mullen, and Estelle Samuels. This was the first step in today's special pay to civilians.

STEP NUMBER TWO is the keypunching of payroll cards by the use of a keypunch machine. Karen Felts and Esther Hollens (right), operate the complicated machines in expert fashion. For this special payday, a new card must be prepared for each employee. Supply and Fiscal, with the cooperation of the many timekeepers throughout the shops, was able to incorporate the new raise in this special check issued today.

H. G. WEST operates a machine which would make a wonderful Christmas gift for anyone. The check writing machine, which is capable of turning out 5,000 signatures per hour, is the second to last step in the long procedure. Only the Disbursing Officer and Mr. West have the authority to operate this machine.

THE SMOOTH PAYROLL is prepared here from the payroll cards which were punched by the keypunch machines. Operating the tabulating machines are: Mrs. Eileen W. Koterwas, (foreground) and Miss Shirley M. Cleveland. From the pay cards which were keypunched, the checks are also made up on the IBM machines. This step in the pay process transforms the lists of names and rates into the familiar checks which are then hurried on down the line.

AUDITING the payroll after the checks are distributed is the job of (left to right) Mrs. A. Jordan, Mrs. E. Warren, Mrs. E. Leisse, and Mr. Joe Ghessi. This group checks to make sure the correct amount was paid and the payee is credited for the amount.

Big Response To O&R'S 1952 Adoption Plan

Rapid progress has been made toward making this Christmas a happy one for the needy families. The amount of clothes, food staples and toys in the O&R department has grown to a tremendous amount and promises to grow still more.

Contributions have varied from wagons to peanut brittle. Large quantities of canned goods and other foodstuffs including a canned chicken, deck the tables in every division. Names of needy families have been submitted by the Salvation Army, County Welfare, Navy Relief, Community Chest Committee and church organizations.

The people who are to receive the articles have been visited by those contributing, and their needs have been taken into consideration. All kinds of clothes and toys have been contributed. There are scooters, cars, dolls, wagons, teddy bears and nearly everything else imaginable.

The idea, started in individual divisions, has snowballed into a tremendous project.

FAU Seaman Compares French, U. S. Christmas

Roy Wolf, SN, of FAU, did all of his Christmas shopping earlier this year than most San Diegans. So they could reach Paris in time for the holidays, he got his gifts in the mail several weeks ago.

The Paris-born sailor, who came to this country in 1950 and is now an American citizen, finds great similarity in the way the French and the Americans celebrate Christmas.

"In France," Roy says, "Pop invariably receives a colorful tie, and electric trains top the Christmas lists of small boys."

And the same old, jolly gent which American kids look forward to delivers the presents in a reindeer drawn sleigh on Christmas Eve. Called Pere Noel (Father Christmas) he descends chimneys and places gifts in children's shoes, arranged neatly by the fireplace. But there is a grim side to this too. Old Father Christmas is followed by Pere Foutelard (the Whipping Father), who leaves a cat-o-nine-tales, or some other unpleasant momento in the shoe of every bad French boy and girl.

Like his American counterpart, Pere Noel is a busy man during the holiday rush prior to Christmas. He can be found at all of the larger Paris stores, receiving good conduct reports and gift requests from the small fry. Stores also have direct phone lines to Pere Noel's headquarters and forward mail to the North Pole.

Roy Wolf

Roy points out that France and the U. S. have many Christmas carols and legends in common. The German hymn, "Silent Night," is sung in French churches, while such carols as "The Three Kings" and "The First Noel," familiar to Americans, are of French origin.

Roy enlisted in the Navy in Houston, Texas, where he was attending college. Earlier, before coming to this country, he attended the great French university, the Sorbonne, studying education. After compleitng his Navy enlistment, Roy plans to resume his college work and eventually take up teaching as a career.

THE PAR is two for Victor Mature who will appear in two pictures over the Holiday movie schedule. The pictures are "Androcles and the Lion" on the 27th of December, and "Million Dollar Mermaid" on the 4th and 5th of January.

CIVILIAN BLOOD DONOR Honor Roll

Employee Services announced that the following civilians volunteered to donate blood during the week of 15 December to 19 December for the NAS Civilian Blood Fund for use of civilian employees and their families.

H. E. MARTIN, Structures & Finish	O. T. MOORE, Structures & Finish
W. J. GREGG, Structures & Finish	J. ALDEN, Power Plant
G. G. JOHNSON, Power Plant	L. C. WILLIAMS, Power Plant
JEWEL VEST, Electronics	J. WIDEN, Electronics
KATHLEEN DEVEY, Electronics	A. G. PUENTE, Electronics
B. BARRERA, Electronics	C. L. ROBINSON, Electronics
A. W. NOE, Public Works	V. C. SMELSER, Public Works
G. FRIESS, Public Works	A. J. CALLAHAN, Public Works
R. BARTON, Electronics	J. YOUNG, Electronics
J. KREUTZER, Electronics	J. ROBERTSON, Electronics

Number of donations to NAS Blood Fund, Dec. 15 to Dec. 19 (20)

Number of Credits Available in Blood Fund, December 22 .... (12)

Number of Blood Releases in Past Week ..... (16)

THIS MEANS THAT THE FUND STARTS THE WEEK WITH FOUR CREDITS IN THE RED. LET'S WORK TO MAKE OUR RESERVE 100 CREDITS AT ALL TIMES.

DAVID L. SHORT, QMC, is retiring from the navy this week after 30 years active service. Chief Short has been aboard the Naval Air Station since last September when he was assigned to the Master-At-Arms division. He is one of three chiefs from the MAA division who are retiring in January.

WILBUR C. GRIFFIN, receives his warrant to the rate of corporal from Colonel P. A. McDonald, USMC. Griffin was one of four men, who by becoming qualified under Marine Corps regulations, was recommended for advancement in rate to corporal recently.

Navy Opening OCS Courses For HM, DT's

Naval Reserve chief and first class hospital corpsmen and dental technicians now on active duty may apply for officer training, the navy announces.

Selected applicants will be ordered to the Officer Candidate School, Newport, R. I., for a two-month course. After finishing the course, candidates will be commissioned reserve ensigns in the administrative and supply section of the Medical Service Corps Reserve.

Two months additional training under the supervision of the Bureau of Medicine and Surgery will follow their commissioning.

After being appointed ensign, candidates must serve on active duty for not less than 24 months. They will also be required to maintain their commissioned status in the Naval Reserve for a total of eight years after appointment.

Applicants for this program must be between the ages of 21 and 31½ and have at least two years approved college credit, or have satisfactorily completed the USAFI GED test, College Level.

Other requirements include: at least one year of service in grade, active duty at a permanent station for at least two months or more, and at least six months obligated service under current enlistment upon receipt of orders to school.

1952 Football Highlights

1. MANUEL AJA goes up high early in the Cal Rambler game with hopes of pulling in the loose pigskin.
2. MANUEL AJA drives around end in the BYU game to open the 1952 Football season.
3. HULSEY skirts around end for a few yards against the Cal Ramblers early in the season.
4. HULSEY again goes around end in the Cal Rambler game at Berkeley, Calif. for a short gain.
5. BUD GARTISER darts around end to avoid a would-be-tackler against the Rambler eleven.
6. BUD GARTISER snars a pass against NTC to complete one of the longer Raider gains during the 1952 season.
7. GUS MANCUSSO drives over the double strip marker for the only touchdown in the pre-season game against the Los Angeles Rams.

Ream Joins in Crusade to Prevent Auto Accidents

Ream Field has joined the campaign to stamp out traffic accidents.

There has been created at Ream a board representing all the squadrons that will coordinate the campaign to reduce this unnecessary menace that has killed, maimed and hurt so many military personnel.

Films, lectures, cartoons, posters and photos of accidents will show that driving is dangerous when not alert.

Over all the accidents in the San Diego area, 20 % involved military personnel. Of all the accidents that proved to be fatal, 40% were military. The ages of 19 to 26 years of age have caused the most traffic accidents—almost 80%.

HS-4 IMPLEMENTS PLAN

Endeavoring to reduce the number of accidents in the San Diego area, HS-4 has established a Squadron Hi-way Safety Committee with Lt. J. Ross as Senior Member. Personnel attached to HS-4 who receive traffic citations are brought before this committee for an investigation into the facts. In those cases where it is deemed necessary, the personnel involved are assigned tasks which will help to improve their understanding of the local traffic problem. Tasks include attendance at traffic court, compilation of statistics of local accidents and a squadron driver's examination.

VU-3 Outscores HS-2, 69-61 n Night League Thriller

VU-3K captured a spirited cage tilt from HS-2, 69 to 61, g up their fourth straight win in the Night league. ig Bill English and Howard, "Nooky," Hope, carried to victory with their fine play, but it was an up-hill until the fourth quarter of the game.

After falling behind, 11 to 2, and 16 to 4, VU-3 began to move in the second quarter, coming within six points of the whirlymen, before Swann and Martin, of HS-2, dropped in successive baskets to leave the floor at halftime with a 34-26 advantage.

In the second half, VU-3's English, Hope, Hays, Landon and Estes played superb ball as they knotted the score at 44 to 44, and then pulled to an eight point lead. HS-2 came right back to tie it up with Martin and Swann again proving their worth in the clutch. With the score of 52 to 52, VU-3's class won out as they went to work and won the ball game with ease.

Martin and Swann played outstanding basketball for the losers, dripping in 17 and 21 points respectively. English's 25, Hope's 17 —16 points came in the second half—Hays and Estes sank 9, Estes 6, Landon's 4 concluded the winners scoring.

HU-1's HELICOPTER BECOMES SANTA'S "SLEIGH" . . . with paints, brushes and creative imagination, art students from the Mar Vista High School colorfully decorate an HO3S-1 helicopter at Ream Field, which is Santa's official transportation for most of the Christmas parties given by Naval activities in the San Diego area. Santa's helpers are: (left to right), Al Maisey, Bob Darnell, Stan Loftis, Don Bailey, Glenn Maisey, Ed Cuen, Dominic Russo, Richard Celiceo, and Jess Abdalla. Helicopter Squadron One, which has a score of rescue units in the Korean Theatre, takes an enjoyable time out every Christmas to provide this air-lift for Santa.

Two HU-1 Pilots Take 'Copter to 16,150 Feet

LCDR William E. (Bill) Dixon, of 1150 Twin Oaks, Chula Vista, and LT C. H. (Charlie) Barfield, of 441 Blanchard Street, Fletcher Hills, flew a HUP-2 to 16,150 feet at Ream Field, Friday, December 12th; an unofficial record altitude flight for that type helicopter.

Bill and Charlie stated that their record making flight was the highest they had ever been in a helicopter. "We stayed over Ream Field, and it took us a little less than an hour to reach 16,150 feet," Dixon recalled. "It took us twelve minutes to autorotate down."

Someone asked Charlie Barfield how it feld away up there. "Well, a B-29 wandered by, he was so confused to see a helicopter that he radioed in to see if his altimeter was correct!" Charlie chuckled. "I was tempted to land on those long runways, but Bill explained that they had not yet been authorized as floating heliports."

Helicopter Squadron One adds this record to its long list of "Firsts."

HS-2 Bowling Team to Defend Championship

The HS-2 bowling team has been working out under the guiding hand of Chief Worack at the station bowling alley in preparation for the defense of their ALF Ream championship title.

Commander E. H. Bayers will again this year be one of the mainstays representing the squadron. He was one of the leading factors in winning the championship last March and will be a thorn in the side of the challengers this year as he is expected to be in top form for the tournaments.

The HS-2 team will have their hands full with stiff competition but are expected to once again come through on top.

The date and full details of the first contest has not yet been set but is expected to be around January 2.

Gala Xmas Party For Ream Kids

ALF Ream personnel, their families and especially their children, were treated last Monday afternoon to a day full of fun for the kiddies, displays, and, of course, Santa Claus.

Building 64, FAD Training, had many unusual and interesting displays. Survival, Link Trainers, and the Hobby Shop drew the largest crowds with the Ham Shack stealing the show.

The children had the time of their lives as they climbed on the fire trucks and imagined that they were real live firemen, complete with helmets and coats.

The afternoon was topped off in the late afternoon when Santa dropped from the sky in a gaily decorater helicopter and presented presents and candy to the happy faces that surrounded him.

As far as the children of the personnel attached to Ream were concerned, the Christmas season was off to a big success.

HS-4 NOTES

The following pilots reported aboard during the past week: Lts. L. Harbottle, R. W. Politte, R. M. Arnold and Ens. R. N. Hipp, Jr. The following enlisted personnel reported aboard: SOSN Fonseca and SOSA Wallace.

VU-3 Outscores HS-2, 69-61 In Night League Thriller

VU-3K captured a spirited cage tilt from HS-2, 69 to 61, to ring up their fourth straight win in the Night league.

Big Bill English and Howard, "Nooky," Hope, carried VU-3 to victory with their fine play, but it was an up-hill battle until the fourth quarter of the game.

After falling behind, 11 to 2, and 16 to 4, VU-3 began to move in the second quarter, coming within six points of the whirlymen, before Swann and Martin, of HS-2, dropped in successive baskets to leave the floor at half-time with a 34-26 advantage.

In the second half, VU-3's English, Hope, Hays, Landon and Estes played superb ball as they knotted the score at 44 to 44, and then pulled to an eight point lead. HS-2 came right back to tie it up with Martin and Swann again proving their worth in the clutch. With the score of 52 to 52, VU-3's class won out as they went to work and won the ball game with ease.

Martin and Swann played outstanding basketball for the losers, dripping in 17 and 21 points respectively. English's 25, Hope's 17 —16 points came in the second half—Hays and Estes sank 9, Estes 6, Landon's 4 concluded the winners scoring.

CPO Club Plans New Year's Party

The CPO Club of Ream Field has planned a gala New Year's Eve party starting at 2030 and featuring two dance bands, one Western, and the other a five piece Combo.

Under the direction of Chief L. R. Pyle, the Club has been expanded for the night of nights. The Club as it is will have the Combo Band from Happy Blake's Top-Hatters, while the adjoining building has been decorated western style for the Rhythm Ramblers.

"No cover, no minimum, no extra charge! Attend the CPO party which will go on, and on, and on. Bring in the New Year at the Ream CPO Club," said Chief Pyle.

FAETUPAC's B. G. Castleman shown overcoming the spirited resistance of J. W. Goff (left), HS-2, is one of the Fleet Air Detachment Ream grunt and groan artists who were shellacked Friday the 12th by the Tough Tube-testers of FAETUPAC. Saint Nicholas Has the Duty

'Twas the night before Christmas, the barracks was still;
The Sailors were sleeping, as most Sailors will.
The seabags were hung by the locker with care
In hopes that St. Nicholas soon would be there.
The men were all peacefully dreaming in bed,
As visions of Liberties danced in each head.
The Chief in his scivvies and I in my sack
Had just come from town with a quick midnite snack.

When out on the deck there arose such a roar;
I ran to the porthole to find out the score.
I pulled up the shade and started to shout
"Just what in the hell is this noise all about?"
A moon made for boondocking shown on the snow
It was pretty cold out, about seven below.
What I saw looked like one of those carnival floats,
'Twas a rowboat drawn smartly by four Navy goats!

In the boat was a man who seemed quiet and moody;
I knew in an instant St. Nick had the duty.
As quickly as Monday, his billygoats came—
He whistled and shouted and called them by name:
"Now Perry, now Farragut, Dewey and Jones,
What's the matter John Paul — got lead in your bones?
A little to the starboard, now hold it up short,
No fluffing off now, or you'll go on report!"

He was in dress "reds," they fit like a charm,
Had hash marks that covered the length of his arm.
The gifts to be issued were all in his pack,
'Beats me how he got in — with THAT on his back!
His eyes, they were watering, his nose caked with ice,
He wiped it with Kleenex, then sneezed once or twice.
He opened his mouth and started to yawn,
It looked like the sun coming up with the dawn.

The stump of a pipe he held tight in his teeth,
And took a small nip from a bottle beneath.
He wasn't so big, but he must have been strong,
I figured he'd been in very long.
He was chubby and plump, a right jolly tar,
Who said "Evening matey, here have a cigar."
He filled every seabag with presents galore,
And tossed a pile of discharges there by the door.

Then out through the porthole and into the night,
The snow stopped falling, the landscape was bright.
With an "Anchors Aweigh" he climbed in place,
A broad smile was creeping all over his face,
One look at his watch and he started to frown,
"This night shift is certainly gettin' me down.
"Merry Christmas," he said, as he drove on his way,
"Now I'll finish my rounds and sack in for the day."

—"Hoisted" from AFPS.
